PEACE TALKS ARE MOOTED AGAIN Four ideas broadcast AMERICAN SUGGESTS UNITED NATIONS ASSEMBLY IN MOSCOW

For high-level consultation which might bring a halt to the cold war are being canvassed in the British. Based on the proposals made by the U.S. State that a spring meeting of the Foreign Ministers of France and the United States may be needed to lead to a conference being held there at the end of the month or the beginning of next.

It is suggested that a special session of the Security Council should be held in Europe. The idea emanating from Senator Bruce McMillan, chairman of the Congressional Foreign Relations Committee. He should have talks with his North Atlantic colleagues for the purpose of a new agreement to be signed at St. James.

Members of the three Great Powers have agreed in a conference of their Foreign Ministers at the United States and with the primary aim of discussing the present European problems and the possibility of discussion of Far Eastern problems.

It is reported in Washington that a spring meeting may be decided for the purpose of the Foreign Ministers of the West are being invited to meet in London in the near future. The political and economic cooperation of the West Atlantic Powers under Article Two of the treaty.

Two problems of the proposed United Nations Assembly are the most important. The first is the question of the form of the assembly. The second is the question of the powers of the assembly.

But not now. It has been suggested that the United Nations Assembly should be held in Moscow. The idea is to have a meeting of the Foreign Ministers of the United States, France, and the United Kingdom in Moscow.

KENYA LIKELY TO HAVE OWN CEMENT WORKS Sultan Hamud tests inspire optimism

CEMENT will be available in Kenya and Uganda at prices much below those ruling today in plans to exploit marble and limestone deposits in the Masai Reserve south of Sultan Hamud, Matari. This is the opinion of Mr. Eric A. Cohen, of Bessar Holders Ltd., the Johannesburg company that holds the controlling interest in Industrial Cements Ltd., who is at present in Nairobi to undertake preliminary work for the establishment of a cement works in Kenya.

Mr. Cohen told an East African Standard reporter yesterday that investigations carried out to date indicate that deposits are sufficient to cope with the terrific demands for cement over an indefinite period. The proposal is to install a plant capable of producing at least 100,000 tons of cement a year.

One of the conditions for the grant of a licence for the exploitation of the marble and limestone deposits is that the company must have the necessary financial resources to carry out the project. Mr. Cohen said that the company has the necessary resources.

But not now. It has been suggested that the United Nations Assembly should be held in Moscow. The idea is to have a meeting of the Foreign Ministers of the United States, France, and the United Kingdom in Moscow.

SPECULATION ON KING'S SPEECH Labour left-wing looks to Allee

MINISTERS with new posts in British Labour Government were received in audience by the King yesterday. Afterwards the Cabinet held its first meeting and discussed the King's speech to be read in Parliament on Monday.

More than usual importance is being laid upon this speech which traditionally outlines the programme the Government intends to pursue.

'We will fight'. Mr. Attlee, the Prime Minister, indicated at a party meeting, held at the new Parliament, by stating "Labour will go on with its fight for the new Parliament."

Test of unity. Mr. Attlee's statement was interpreted as meaning that the Government will not abandon its policy of non-resistance to aggression.

# THE KENYA SQUASH CHAMPIONSHIP

## Holder seems set for his fourth title

There have been some very good hard-fought rubbers in the 1933 Kenya squash championship, the final of which takes place this (Friday) evening at 8 o'clock on the courts of the Nairobi Club. There have been no signs of surprise results but present indications are that F. D. M. Frawley will win his fourth successive title. The semi-finals were played yesterday evening, somewhat late for publication of results until tomorrow. On Friday afternoon, 1933, he beat A. B. Lacey, 4-0, an army player who has with international speed and is currently unbeatable. There were only one first round match, Lacey coming through without dropping a point, but the second round produced some fine rubbers and, on construction, two or three hard matches.

**Two hard matches**  
R. L. B. Cooper's match with C. D. M. Deane lasted for an hour or so, while Lacey and Cooper had almost as strenuous a meeting in the third round. "Hinton" making practice, Frawley and Lacey played a very fast and exciting rubber, while Lacey beat Deane in the fourth round. Frawley beat D. A. Swales, who was the 1930 champion, 4-0, in the second round. Lacey's win probably the most convincing of the year. He had his usual quarter-final match with Lacey, but he does not yet appear to have become fully acclimatized, and against such a tremendous and deliberate hitter as Lacey, he could hardly be expected to play in a very strenuously contested rubber. Several reports are that he "was up in front" when the rubbers were played.

### Railway Re-alignment: Roads of Abyssinia

To the Editor, "E.A. Standard"—Sir, The article in your issue of 22nd February concerning the proposed re-alignment of the Addis Ababa to Dire Dawa railway line, which is to be effected by the construction of a new line from Dire Dawa to Addis Ababa, is most interesting. It is to be hoped that the proposed line will be completed as soon as possible, as it will be a great benefit to the country.

At the time the line of the proposed line was shown, it was thought that the line would be a great benefit to the country. It is to be hoped that the proposed line will be completed as soon as possible, as it will be a great benefit to the country.

MACLEANS PEROXIDE TOOTH PASTE keeps TEETH WHITE and healthy

As if you were with the tooth paste to get the fluoride tooth paste—Macleans Peroxide Tooth Paste—the dentist with the biggest seal in Great Britain. This is scientifically prepared to do so much more than all that good tooth paste can do, namely to clean the teeth thoroughly yet safely. Get a tube of Macleans Peroxide Tooth Paste and use it night and morning.

# WHY AYRSHIRES ARE SO MUCH IN DEMAND

JOHN HARRIS, of the 'Farmer and Stockbreeder' (London), tells of the increasing popularity of this handsome breed.

IN the spectacular swing from beef to dairy cattle which has taken place during the last few years in Britain, Ayrshires are one of the breeds which have played a leading role. Britain has been making tremendous progress in raising the level of her milk production, and it is to Ayrshires that we are indebted for the country in South-West Scotland being able to produce the highest quality of milk in the country. In general, it is about 70 per cent. A new breed of improved Ayrshires, specially estimated of tuberculosis in Britain has been produced, namely, the introduction by October 15, 1954, of the new breed, Ayrshire and the subsequent coming of the new breed, Ayrshire of this new strain.

Above: Overcoat Cherry Pine, a six-year-old champion Ayrshire cow, Supreme International Champion and winner of seven other trophies, at the London Dairy Show in 1955.

It is not only the fact that the Ayrshires are a breed of high milk production, but also the fact that they are a breed of high beef production. The Ayrshires are a breed of high milk production, and they are also a breed of high beef production. The Ayrshires are a breed of high milk production, and they are also a breed of high beef production.

Phenomenal prices paid... The Ayrshires are a breed of high milk production, and they are also a breed of high beef production.

It is not only the fact that the Ayrshires are a breed of high milk production, but also the fact that they are a breed of high beef production. The Ayrshires are a breed of high milk production, and they are also a breed of high beef production.

# Naivasha farmers like local rating

AFTER keen discussion on rating and the increased responsibility of district members of Area Branches 8 of the Kenya National Farmers' Union, meeting at the Guild Country Club, passed a resolution asking Naivasha District Council to formulate definite proposals for rating.

The second meeting, presided over by Mr. C. F. Ferguson, was held at the Naivasha Club on the 25th. The meeting was held to discuss the proposals for rating and to discuss the proposals for rating.

Mr. J. W. Bhatnagar (Chairman of Naivasha District Council) was present and he stated that the Council was prepared to consider the proposals for rating.

Other resolutions approved by the meeting were: That the Naivasha District Council should consider the proposals for rating.

It is not only the fact that the Ayrshires are a breed of high milk production, but also the fact that they are a breed of high beef production. The Ayrshires are a breed of high milk production, and they are also a breed of high beef production.

# NAIROBI CONTINUES TO GROW UPWARDS

**LATEST** addition to the town's multi-storied buildings will be **Saifur House**, to be built (in the name) in **Saifur Street** and which will be **five stories** in the instance, with another two to be added later.

The building is being erected by **Mr. Saifur Khan**, of the **Arabia** Ltd. for the **Major Mart**. The building will be devoted to **showing** and **displaying** of **clothing** and **accessories**. It will provide **122 offices** in the first storey and another in which the top two floors are added at a later date.

Work on the foundations has already begun and it is expected that the building, built on a plot 240 feet by 100 feet, will be finished in about a year's time.

**Concrete construction**

It will be constructed of reinforced concrete, will have three passenger and one goods lift and will be equipped with a fire alarm. The building will be completed in about 12 months.

The Major Mart has given up to 10 months for the building in order that the present auxiliary line of the building may be a definite structure.

The building will have its own water supply, a borehole has been sunk to a depth of 200 feet and is yielding about 3,000 g.p.m. A large amount of water is being used for the building.

**COMPETITION 'NOT FREE'**

Shippers condemn flag discrimination

**FLAG** discrimination as opposed to free competition in carrying the world's commerce was condemned by the Chamber of Shipping of the United Kingdom in its annual report.

"One of the worst features of general economic development, coupled with the intervention of government in the pricing and distribution of commodities, has been the increasing discrimination against the free competition of the world's shipping industry."

The report also stated that the "discrimination against the free competition of the world's shipping industry" is a "major and most dangerous factor in the development of the world's shipping industry."

**Encouraged by U.S.**

Small marine countries are encouraged by the United States shipping policy. The report stated that the "discrimination against the free competition of the world's shipping industry" is a "major and most dangerous factor in the development of the world's shipping industry."

**STANDARD** Commission. Dar es Salaam.

EXCELLENT prices for **Tanzania** ivory were fetched at a recent auction held by the Customs Department in Dar es Salaam.

A total of 210 lbs was consigned, fetching an average of \$16.12 per pound. The best quality ivory, however, was sold for as high as \$20.00 per pound.

The ivory was consigned by the **British** and **American** ivory traders. The ivory was consigned by the **British** and **American** ivory traders.

**Australian Experiments in Animal Transport**

**SPECTACULAR** survey of customer requirements, was carried out in Australia recently and it revealed, says **Phillip Davies**, in the provision of cattle-carrying trucks and trailers which has an important bearing on the world's food supply.

Great loss in weight and value of cattle driven from one country to another is a common occurrence. Davies, of the **South Australian** Government, says that the loss of weight is due to the fact that the animals are often starved and dehydrated during the journey.

# BRITISH TAILOR-MADES APPROVED

ELSA M. SANDERS' London letter for the women of Kenya discusses the Paris collection.

THE Paris collections—gall highlight the fashion world and women in England are wondering seriously if they really have to dress in the fatter this summer. It is a matter of opinion in the States. This week, in Paris, many of the fashions were so lady-stylish, offered with Gothic influences—so to startle and attract attention, a trick of interest to concentrate on Paris fashions, for besides this dowdy line, clothes of chic and elegance were also offered. In fact, styles were as varied as they have been since the last two seasons and the one that suits her best.

Christian Dior, who was, too, successful and who has become a fashion dictator, was not so ungenerous. Dior, who has become a fashion dictator, was not so ungenerous. Dior, who has become a fashion dictator, was not so ungenerous.

## CARE OF THE HANDS

CARE OF THE HANDS BY ANNETTA. It is no use having your nails beautifully varnished if your hands are badly nourished, rough and red. It only draws attention to their neglected condition. There is no short cut to the beautifying of your hands, however. Constant care is necessary. Give your hands the attention they deserve. They are the eyes of your body, and they should be treated accordingly.

## How to make a 'necktie' skirt

MAY FOWLER, tells you how to make good use of your husband's old ties.

DON'T discard your husband's old ties. Provided they are not too worn, torn, and subject to his consent, they can be utilized to make very attractive skirts and pretty patchwork articles. A skirt for the average figure of 24 waist and 24 hips requires twenty-five old ties. For made-up material of waist measurements and one to all patterns. It is best to use ties of one color or one pattern. This will make it easier to match the material with other articles. If you are using material of two colors or two patterns, you may use any combination of the two. It is best to use ties of one color or one pattern. This will make it easier to match the material with other articles.

Should there be great spots on a tie, it is best to use a tie without the spot. A skirt for the average figure of 24 waist and 24 hips requires twenty-five old ties. # NEW HOUSE OF COMMONS

## It will be ready for the Autumn session

On the night of 10th May, 1941, with one of the last bombs of the last big raid on London, the House of Commons was destroyed.

These plans give some idea of the way in which the new building, both internally and externally, have been faced with a variety of modern architectural ideas.

Some of the auxiliary accommodation, principally in the "Olden", will be built of Portland stone with internal finishes of Chalk stone to match the existing work.

Gifts from all over the Empire will be used in the furnishing of the Chamber and the Members' room. The Speaker's Chair has been contributed by Australia and the table of the House will come from Canada.

The bad acoustics, poor lighting and inadequate accommodation which were unfortunate features of the old Chamber, both at the original House as destroyed by fire in 1834, will all disappear.

On the right can be seen the unfinished part of the new Chamber which has been the background for the more privileged who look on from the side of the work in progress.

LEFT: The new Churchill Arch which will be a monument to Mr. Churchill's wartime leadership.

RIGHT: The new Chamber of the House of Commons is opening a new era in its history.

**RE-ISSUE OF FILM OF LIFE IN WELSH VALLEY**

THE release of a successful film is always looked forward to by the cinema-going public, and the opportunity now comes to an appreciable number of people to see a re-issue of the pictures in respect of which the present is especially good.

New Green Walsley Valley is a story in three acts, set in 1820. It is the story of a people and a valley, a valley inhabited by Welsh miners and their families, and is based on Edmund Spenser's beautiful poem.

Walter Pidgeon is cast as Mr. Gruffydd, the miner, and Margaret Lockwood is cast as Mrs. Gruffydd. Other stars include the Morgan Dancers who capture the center.

and it is likely that the members of the Board of the present Corporation will be asked to resign. It is believed that the Board will be reconstituted and that the new Board will have to deal with the future of the town. The Board has not yet decided on a course of action but it is expected that it will take into consideration the views of the people of Nakuru and the Government of Kenya.

# IDEAL DIMENSIONS OF GOLF COURSES

## What progress of ball has entailed

**JAMES BRADY** comments that golf ought to have stopped at the time of the *Acacia*. But he has not happily, I gather, good things for people wondering again what are the ideal dimensions of a golf course. Certainly the answers they hear little or nothing about are those which we could start again.

The "ideal" answer in the case of links "courses" is not given by the rules but by the fact that the average of 2,000,000 of the world's golfers play on a 2,000-acre site. It is a fact that the average of 2,000,000 of the world's golfers play on a 2,000-acre site. It is a fact that the average of 2,000,000 of the world's golfers play on a 2,000-acre site.

# One of Rugby's least tolerable rulings

**MANY** players and spectators of Rugby football neither view with approval a suggestion by the Victorian sports authorities that a revision of the knockout rules of the game should be made. The suggestion is that a player who has been sent off for a foul should be allowed to re-enter the field at the end of the match.

# Both boat race crews getting in hard practice

**A**T the halfway stage in practice at the Rowing Club, D. C. Johnson says that Cambridge has done very well in their recent practice races. He says that the Oxford boat is also in good form and that the crews are getting in hard practice.

## PARIS CACHET IN NEW YORK

ELSA S. SANDERS, writing from London, reports on the fashion look now in vogue in the U.S.A.

WHEN all this time and space about the Tarzans and their ivory towers, women's fashions are still the center of attention. The fashion designers of the world are still in the habit of looking to Paris for their inspiration. The Parisian fashion designer is still the one who sets the fashion for the rest of the world. ## IT'S ALL A QUESTION OF SEEING IN THE DARK

**THE** story of the invention of the "Cat's Eye" reflecting roadstead, is an interesting and amusing one.

Mr. Percy Shaw, who is now the managing director of the Traffic Signs Ltd., was first prompted to learn one message from the traffic signs, and, along with the idea, was considering the possibility of a sign mounted on the transverse of the road.

Shaw kept the idea. Driving home in the early hours of the morning he was constantly dimly lit by the headlights of motor cars passing on the road. He was struck by the slight reflection of the transverse in his car's headlights.

More than 1,000,000 of these signs have been laid over 19,000 miles of roads in the United Kingdom, in addition to several hundreds of thousands on Continental roads.

The manufacturers are now contemplating a drive to have the signs adopted by the authorities in Canada and the United States.

On the right side the various types of road signs in use. The top one is used all over the world. On the left are the lenses which make the signs glow in the dark. The "cat's eye" is a phosphorescent sign.

A series of brilliant small lights marking the top of the road at intervals of 100 to 200 feet. These lights, in the dark, might be mistaken for stars or distant lights, but in fact they are not. They are small, round, glass lenses, each marked "FOR SHAW'S" and "TRAFFIC SIGNS LTD." The lenses are made of a special material, and are so arranged that the light from the headlights of a motor car is reflected back to the driver. The result is a "cat's eye" effect, and the driver can see the road ahead, even in the darkest of nights.

Since the first signs were introduced by the Ministry of Transport, numerous improvements in design, materials, and methods of manufacture have resulted in the "Cat's Eye" sign of today. It has been found to be the best road sign, and the most effective in the worst weather conditions. It is now being used in all parts of the world, and is being adopted by many other countries.

### World traveller returns here after fifteen years

On her first visit to Nairobi since March 1935, Mrs. Francis Fisher, F.R.A.S., F.R.G., F.Z.S., better known as Mrs. Violet Cresy-Marks, the well-known explorer, author and world traveller, arrived here on February 20.

She was turning from a shore in Adala A b a b a where she had been staying on the Ethiopian highlands.

Mrs. Fisher saw Ethiopia soon here last week and she was very much surprised to find that the police and army were now in the hands of the Emperor Haile Selassie I.

She is thought to be the first woman to have visited Ethiopia since the Emperor's coronation in 1930.

Mrs. Fisher is a well-known explorer, author and world traveller. She has written many books on her travels in Africa, Asia, and Europe.
