Australia's Way to develop Territory

INCOME TAX SHOULD GO

To Reduce Production Costs and Encourage Capital

A AUSTRALIAN COMMITTEE HAS RECOMMENDED A YIBROODR STATE POLICY FOR THE DEVELOPMENT OF THE NORTHERN TERRITORY AND THE EXPLOITATION OF ITS MINERAL WEALTH.

The report advocates a more liberal land administration policy and the imposition of income tax for twenty years.

This policy, according to the report, will enable most of production to be reduced and make investments remunerative in mining and pastoral enterprises.

The Committee believes that if a proper development policy for Northern Australia is adopted the territory will become self-sustaining in 25 years and carry a population of 40,000, which is eight times the actual population there today.

LORD DELAMERE and the making of Kenya

Review by 'The Times'. "White Man's Country" is an interesting and readable book. It is a history of Kenya, as the author, Lord Delamere and the Making of Kenya's, explains. In part it is a biography of an exceptional man, in part it is the history of a colony and a country. Mrs. Hirstley was not only a woman, she was a woman who was thirty years or more when she was first in the country. We have read a long time for a book of this sort.

NEW DAIRY BILL PROPOSED

THE STOCKWORKERS' ASSOCIATION OF KENYA HAS ISSUED PROPOSALS FOR NEW LEGISLATION TO TAKE THE PLACE OF THE LAST PROPOSED DAIRY CONTROL BILL.

The new plan aims at abolishing the expensive administrative costs of the last Bill, reducing the milk cents from 10 cents to five a gallon, and allow for the costs to be used to subsidize butter and cheese exports.

Already approved by the Kenya Co-operative Creamery Ltd., the Kenya Dairy Association and the Executive Committee of the Stockworkers' Association of Kenya, the new proposals are now being submitted to Government.

The full text of the proposals is as follows: "1. That every farmer in the Colony producing for sale as such, the gallons of white milk per day or thereabouts, should be registered with the Government."

"2. That the limits of any standard area sales of milk by an unregistered producer shall be only through a Municipal Council, or a specified depot where for practical purposes (as a percentage of milk) shall be registered with a registered producer."

"3. That five cents of every gallon shall be paid in full to the registered producer, and the balance of five cents shall be paid to the Government."

"4. That all registered milk producers shall be required to register their names in duplicate to Government and to the Kenya Co-operative Creamery Ltd. and to pay a fee of one shilling and sixpence, and the amount of any such fee shall be paid to the Government."

"5. That all registered milk producers shall be required to register their names in duplicate to Government and to the Kenya Co-operative Creamery Ltd. and to pay a fee of one shilling and sixpence, and the amount of any such fee shall be paid to the Government."

"6. That the Director of the Creamery shall give general exemption to any producer who is unable to pay the full amount of any such fee, provided that such exemption is not asked to be imposed."

"7. That the Kenya Co-operative Creamery Ltd. shall be required to pay to the Government the amount of any such fee, provided that such payment is not asked to be imposed."

"8. That there shall be provided in this Bill that Government in Council may make provision for the imposition of a rate of one penny per gallon of milk on any producer who is unable to pay the full amount of any such fee, provided that such provision is not asked to be imposed."

"9. That the Director of the Creamery shall be required to pay to the Government the amount of any such fee, provided that such payment is not asked to be imposed."
