ABAKA SAFE IN BURUNDI CAPITAL Asylum plea after flight through Congo

Lukabika of Buganda, Sir Edward Frederick Mutesa, is safe in Burundi. He is seeking temporary political refuge there. It was learned last night in Bukhumbura. With a party of five supporters, he fled from the Burundi capital yesterday via the Congo, after hiding for four weeks since his palace at Mengo was attacked by Uganda Government troops on May 24.

According to a report last night, the Kabaka is suffering from malaria, contracted eight days ago when he rested in a swamp during his escape. He was kept in bed in his Bukhumbura hotel room for a reporter, and told him that he intended to leave for London as soon as possible.

He added that meanwhile he was asking the Burundi Government to accord him temporary political refuge. It is understood that Burundi's Council of Ministers is to meet today to consider the request to the country's Foreign Minister, Mr. Mwandakira, last night refused to comment on the Kabaka's requests.

Hid in bush after attack

Sir Edward, who with his followers crossed the Congo border by air yesterday, told the reporter that with the help of people who remained faithful to him throughout the constitutional crisis, he hid in the bush after the attack on the Mengo Palace, before escaping to the Congo.

The Uganda Army soldiers of the Kabaka's Palace followed an ultimatum for Sir Edward to leave the Mungo Palace which should have taken his Government from Buganda just as May 29.

The Kabaka was reported to have taken in protest at the seizure of power by Mr. Obote, who ousted Sir Edward as President of Uganda and installed the UNEC Commission.

Replacing it by a new one which would be a semi-constitutional monarchy. The Kabaka told the reporter that he had no intention of leaving the Mungo Palace and that he would remain there until he was able to take his wife and children just as he had done in the past.

"I hope to return soon to my wife and children, who are still in the bush," he said. "For the time being I shall remain here until I am able to take my wife and children just as I have done in the past."

He said that he was a member of the Kabaka's cabinet and that he had been in the cabinet since 1952. He said that he was a member of the Kabaka's cabinet and that he had been in the cabinet since 1952.

The Senator and South Africa
DURING HIS WHIRLWIND tour trying to win the U.S. presidential election in advance on the platform of Africa, Senator Kennedy made some surprising speeches. He criticized President Johnson's foreign policy in breaking down apartheid. Such an embargo, though he did not say so, would hurt Americans being dependent on the boom in U.S. financial interests in South Africa.

ALLOW me to comment on what was discussed in the Parliament about "One wife and no more"
It is really very funny to note that the African Government is trying to force a law on us which is against our own interests. We cannot believe that having a woman who is not a citizen in African society has a right to be a citizen and to have all the rights and privileges of a citizen.

Chimpanzees to start new life on Lake island

Two chimpanzees from the Congo have been taken to a new island on Lake Tanganyika. The chimpanzees were taken to the island by a group of scientists and are now being cared for by a team of researchers.

Kenya progress impresses women's leader

A FEW weeks ago India's Minister of Health, Dr. Sushila Nayyar, after attending the Unicef conference in Addis Ababa, extended her visit to include Kenya, where she saw health work and talked to leading doctors and Ministers.

Her visit has been closely followed by that of the World President of the Associated Countrywomen of the World, Mrs. Aroli Dutt, who attended the same conference and after spending a few days in Kenya at the end of May left to visit Malawi and Zambia and returned to Nairobi last Wednesday at the end of the East African Women's League annual conference. Mrs. Dutt is the Managing Director of the Maternity by Wamwae Organisation, the two member societies in Kenya.

The A.C.W.W. has a membership of 6,000.

It has 124 member societies in 118 countries, states, provinces and territories and it establishes links of friendship round the world. It also speaks for its members at the international level, and works with United Nations bodies such as Unesco, F.A.O. and United Nations Women.

PHARMACEUTICALS IN EAST AFRICA

Rapid expansion & importance of industry

The story of pharmaceutical and chemical industries in East Africa has been a story of remarkably fast development — especially during the past 10 years. The first chemists' shops opened in Nairobi almost as soon as the original institutions were still going strong today. But recently the industry has expanded into an important new phase in which advanced drugs and cosmetics are manufactured in East Africa, thus saving the Governments' valuable overseas revenue.

NEW PACKAGING PROVES ITS 'SEA LEGS'

IN the case of dangerous or inflammable cargoes, the British Ministry of Transport lays down detailed regulations as to approved methods of packing and handling, based on international practice.

Now a new and improved form of container has been developed, made of a transparent plastic which is tough, resistant and cannot be punctured. It is made in standard sizes and is a great advance on ordinary glass bottles.

Mr. and Mrs. Baker wanted to adopt a transparent and airtight 'tamper-proof' container, for a remedy for a true shipment to Kenya.

TRIAL CONSIGNMENT

But, in the meantime, if they should be deviating from the "wooden barrel" rules, they would be liable to prosecution. The Ministry of Transport regulations are strict, and a consignment could be attacked by the shipping line, the agent or the vessel concerned, or the port authority on arrival of discharge, and wherever you may be, the consignment is liable to be impounded. Mr. and Mrs. Baker arranged a progressive case, which made it possible to test the new container in their own way, without any liability to prosecution.

Mr. A. J. D. Brown, Chief Officer of the B.I. ship Chabbi, ascertained the new packing with a case of formaldehyde which had been opened for examination before formal approval was given for discharge at Kilindini and sailing in destination.

In a recent visit to city following a useful visit in which chemical companies and medical institutions have proclaimed to match the new 'tamper-proof' containers made by the manufacturer.

But it also shows the industry in East Africa is moving in the case of necessary bulk at home and overseas, it has been experienced in other sections of industry — and the growing start of the three East African territories.

Although they only started operations in East Africa in 1949 they have opened a small factory which manufactures, among other things, glass and tin. Plans are in hand to set up a new factory for glass and tin.

Factory opened

Home and McGeorge Ltd. has opened a factory in each town as Dar es Salaam, Mombasa and Kisumu. Mr. and Mrs. Baker, who have been making up their minds and other medical supplies, have now opened a factory in all three East African ports and a factory in Nairobi, Kenya.

Imperial Chemical Industries (I.C.I.) are one of the biggest suppliers of pharmaceuticals in East Africa. Recently they opened a new pharmaceutical division at Macclesfield in Cheshire. This factory shares the complex equipment on the operating floor of the chemical building.

Development Corporation, Nairobi, and Africa (Overseas) Ltd. are the largest companies incorporated in Kenya. The new plant will provide employment for about 80 people and the production of antibiotics will be one of its objectives.

One of the newer towns to have been built in East Africa is the well-known name in the field of architecture.

Although they only started operations in East Africa in 1949 they have opened a small factory which manufactures, among other things, glass and tin. Plans are in hand to set up a new factory for glass and tin.

One of the biggest pharmaceutical concerns in East Africa is the Kenya Dispensary Co., which was established in 1942. An important phase of its expansion was the opening of a factory in Nairobi in 1949 and 1951, and in 1953 the company opened a factory in Mombasa.

Among other things, they now manufacture a wide range of important solid drugs and pharmaceuticals.

They also manufacture other products. The firm has branches in Dar es Salaam, Kisumu, and Mombasa.

UNIVERSAL KNOWN—Mr. MOI Un-named for reasons of security

Walk-out by Rhodesian Opposition

THE Government was fully aware of individuals in Kenya who received arms from foreign countries for subversive purposes but could not disclose their names in the interest of public security, the Minister for Home Affairs, Mr. Moi, yesterday told the House of Representatives.

Mr. Moi, who was speaking on a motion on the adjournment proposed by a statement (Trans Nera) said he stood by a statement he made earlier this year that £250,000 had been given to individuals in Kenya by foreign sources to subvert the Government.

When asked by Members to think that the statement was not given to the Government, Mr. Moi said that the Government was aware of the activities of individuals in Kenya who were on the payroll of foreign countries and would not hesitate to take appropriate action.

"I know that thousands of these people but I cannot disclose their names in the interest of security," Mr. Moi said and pointed out that it was his duty to inform them to expose those who were not given to the Government.

No alignment tolerated

The Government was not opposed to an opposition party that could emerge from the desire of the people, but an opposition which aligned to foreign interests would not be tolerated.

Mr. Moi claimed that the said kind of alignment had not yet been formed following the passing of a Bill which had had their names given by a Nairobi firm.

Disappointment over progress of African Bank

The President of the World Bank has expressed disappointment at the slow progress of the African Development Corporation, which was set up to help the continent's economic growth.

Mr. George D. Yost, the President of the World Bank, said that the bank was disappointed that the African Development Corporation had not yet started its work. He suggested that a limiting factor for the institution was its decision to raise capital only in Africa.

ATTENDING

A play which is a study in the life of a man who is a study in himself, is the play "Attending" by Rattigan, which is being presented by the New York Theatre Guild. It is a play of a man who is a study in himself, and it is a play of a man who is a study in himself.

...the play is a study in the life of a man who is a study in himself, and it is a play of a man who is a study in himself.

On the eve of leaving President Johnson, the British Premier has given the opinion that the British will never go to a Communist China. This is a view which is not shared by the U.S. government, which is now in a state of confusion as to what to do about China. The British government is now in a state of confusion as to what to do about China.

President Johnson's own peace initiative last year gained only a temporary reprieve. He failed to rally either the National Liberation Front in the South or the Ho Chi Minh regime in Vietnam. He did, however, actively support the Vietcong guerrillas.

The war continues while American incomes become increasingly woe-y of the struggle and the bloodshed in a distant country. The Vietcong guerrillas are now in a state of confusion as to what to do about China.

American Geneva conference

From Ottawa, it is reported that the Canadian Government, having recently sent a mission to Hanoi, is quietly sounding out the prospects for a negotiated peace. American and British experts in Geneva have gathered there in the hope of suggesting a fresh approach to the President in his mission to obtain a Russian assurance that French neutrality will be respected if American military intervention ends the Russian presence.

The French remember the bitter lessons of the war they fought in their former colony of Indo-China, culminating in the defeat of Dien Bien Phu. The chief players involved in that struggle against the colonial power were the Viet Minh and the pro-Communist Vietnamese nationalists who either fought the Viet Minh for or against independence. An agreement signed at Geneva in 1954 was intended to guarantee the future of the country, which was split into two parts: the 17th Parallel, the North going to the Communist Viet Minh and the South to the nationalists.

Besides the continuing struggle for supremacy between Communists and nationalists, there have been injections of other disruptive forces. A series of political elections led to the present military regime in Saigon, capital of the South, while disaffection among Buddhists has broken into rebellion. One of the two principal Buddhist leaders, Thach Tai Quang, has been ousted along with the stronghold in Hue in the capital. The other, Thach Huyen Quang, continues to hold sway in the Van Thieu Dao pagoda, the political center of the Saigon Buddhists.

Thus, though they agree to campaign for national elections, the negotiations of the Hanoi of State, Nguyen Van Thieu, and the Premier, Nguyen Cao Ky, and the withdrawal of what they call "the capitalist Americans" from the Viet. Wilson suggests that the Geneva conference will be held in Geneva, Switzerland, under the auspices of the International Trust Supervisory Commission.

Kenya DECLARED BY SOMALIS

O.C.A.M. to ask Europe for help

Kenya accused by resigning Cabinet

Nairobi Government yesterday announced its resignation, after its defeat in Parliament, and at the same time a senior Minister accused Kenya of declaring war on Somalia.

Both the resignation announcement and the accusation against Kenya were made in a statement by the Minister for Information, Mr. M. N. S. Mbatia.

Mr. Mbatia called a Press conference to complain of the Government's failure to defend Somali residents in Kenya's northern frontier area and the actual act of declaration of war on Somalia.

He said Somalia was engaged in teaching its aggressors to be a lesson. Somalia now had to option but to take the matter to the Organisation for African Unity and the United Nations.

Objection to a shift plea

Mr. Mbatia was commenting on a motion in the Kenya Parliament which urged the Government to discontinue the Somali frontier to be closed to Somali trade for the next two weeks. Kenya has allowed a total trading right on Nairobi Airport. In retaliation, Somalia has banned Kenyan transport aircraft from operating in Somalia.

Kenya Government pledges to Africanise

THE Government of Kenya was determined to promoting Africanisation of the economy and to progressively eliminating and liquidating foreign-owned and controlled enterprises in the public, parastatal, consumer and industry. Mr. Kiambu, emphasized on Saturday.

ECONOMIC GROWTH RATE SLIPS

The world's economy continued to grow but at a slower rate than in 1965, and the 1966 prospects for a similar growth rate seem dimly expected. The rate of growth of most countries remained flat, but a sharp decline in the rate of growth of the United States was noted. The growth rate of the United States slipped to 4.2 per cent in 1965, compared with 5.2 per cent in 1964, and 5.7 per cent in 1963.

Mr. Kiambu pointed out that the Government of Kenya had set up a commission to investigate the possibilities of Africanising the public, parastatal, consumer and industry. He said that the Government was determined to Africanise the economy and to progressively eliminating and liquidating foreign-owned and controlled enterprises in the public, parastatal, consumer and industry.

The report for the U.S. on the growth rate of the world economy was made available to the public on Saturday. It showed that the rate of growth of the United States slipped to 4.2 per cent in 1965, compared with 5.2 per cent in 1964, and 5.7 per cent in 1963.

KIWIS FLY IN FOR GAMES

TWO New Zealand athletes, Bill Buller and Bob Boyd, flew to Nairobi last night looking forward to meet weekend's national championships at Jamhuri Stadium.

Bill Buller, an international arrival, had only 20 hours to get ready after being asked to compete in Kenya.

Bill Buller, 24, said he was going to try to run the mile in 8 minutes and the half mile in 5 minutes. He said he was confident he could beat the Kenyan record of 5 minutes 36 seconds for the mile set by Alan Peter in 1965.

Bob Boyd, 32, is an experienced international arrival. He was in Kenya last night after being asked to compete in Kenya.

UNDER the new-line packs of Mount Kenya, Canada's Bill Cotnam had his first taste of high-altitude racing when he competed in the Central Province women's 4 x 1 mile relay at Jamhuri Stadium.

Cotnam was one of the new-line pack members who were sent to the high-altitude training camp at Jamhuri Stadium.

KANU SWEEPS 20 seats won - only nine fall to K.P.U.

...claimed a resounding victory for Government policy in Kenya's "Little General Election" as a result announced yesterday gave the members of the vacant seats in the National Assembly. K.P.U.'s victories were in Central Nyandarua and Machakos.

Kanuu won 12 Lower House seats to K.P.U.'s seven, and eight Kenyan seats to K.P.U.'s two. Later, an official K.P.U. statement said a protest election will be lodged against the conduct of the K.P.U. members of the 20 seats which were fought. The 19th, the Laitani Senate seat, was won by Kanuu against an independent candidate. The House of Representatives constituency, a Kanuu candidate was returned.

The most interesting news for the K.P.U. came when the final results were announced after a 12-hour count for the election. Mr. G. Karuri was elected as the party's candidate, Mr. Onyiah Chilo, except in victory with a majority of 631 over Mr. Shem Obuya (Kanuu) who gained only 5273 votes.

Symbolic sacrifice

In Nairobi, the Kanuu victory was celebrated symbolically by the slaughter of a bull donated by the town's mayor, Mr. G. Karuri. A bull was the symbol of the "bull party" which was defeated at the election. The "bull party" is a reference to the fact that the party's candidate, Mr. Onyiah Chilo, was a bull.

Doctors 'angry' at Minister's attack on medical staff

SEVENTY-FIVE African and Indian doctors have signed a statement of protest against the Minister for Health, Mr. Obote, during a visit to the United Kingdom.

The statement, which was signed by 75 doctors, is a protest against the Minister's attack on the medical staff in the Ministry of Health Department during his visit to the United Kingdom.

The statement says that the Minister's attack on the medical staff was "unjustified and unwarranted" and that the Minister's "policy of Africanisation" was "unworkable and unworkable".

The statement also says that the Minister's attack on the medical staff was "a direct attack on the medical profession" and that the Minister's "policy of Africanisation" was "a policy of discrimination against the medical staff".

'ARM-CHAIR ASSESSMENT'

The Minister's statement that "when the Government embarked on its programme of Africanisation, it was not going to be a case of lowering standards, but of introducing a more realistic and democratic system to African medical workers."

It is hoped that this arm-chair assessment did not apply to African medical workers all over the world. If the efficiency of non-African medical workers was to be extended to all Government medical workers, the Government would be in a better position to meet the needs of the African people.

New line in dairy products for

Kenya consumers

A NEW method in milk-powder production which ensures that no sedimentation occurs, as in the old roller-drying methods, has resulted in Kenya's first spray-dried milk powder being put on the market throughout the country under the name of Safalind full cream milk powder.

This is made by evaporating, homogenizing and finely comminuting the milk, and then spraying it into a large hot-air chamber. It has been found to be a most perfect milk powder, with almost all moisture dried out of it. Nothing but milk is removed

in the making of the powder and nothing added, and he is confident the milk, even after being stored for six months, will retain its original cream content and that they were the first to be made in Kenya. The new method is the result of the research carried out by the Kenya Milk Producers' Association.
