SENTENCES IN SEMINI CASE

All Seven Lumbwa Found Guilty

ADJUDGMENT GRANTED ON THE RAPE CHARGE

At Request of Crown

JUDGE'S FIVE QUESTIONS FOR THE NATIVE ASSESSORS

Sentence of death was passed by Mr. Justice Webb on Saturday morning on the seven young Lumbwa tribesmen charged with the murder of Mr. Alexander Semini, the Kinangop farmer.

At the request of the Attorney General, the Court granted an adjournment of the charge, on condition which the accused had also been committed for trial.

Dead Man's Statement

Nairobi, Friday. Assistant Superintendent Ridge returned this morning for the third day a hearing of the Semini trial. He said he was brought in the evidence of the native witnesses for the prosecution on the charge of the murder of Mr. Alexander Semini.

Mr. C. V. T. Hart, Assistant Superintendent of Prisons at Nakuru, stated that he had a statement from the accused identification parade had exposed a desire to make statements.

Royal Marriage to Take Place on November 29

SERVICE AT WESTMINSTER ABBEY

Prince of Wales Expected to be Bestman

It was announced to-day that Prince George and Princess Marina will be married at Westminster Abbey on Saturday, November 29.

The wedding will probably be followed by a short service according to the rites of the Greek Orthodox Church, which will be held in a room in Buckingham Palace.

CHOOSING THROATLE

The date of the wedding was chosen after long discussions. It is understood that in view of the Duke of Gloucester the Spring was considered.

Prince George and Princess Marina, however, both dislike the idea of a long engagement. The fact that the King's silver jubilee is to be celebrated may have been another factor in the decision.

The details of the wedding have not yet been settled, but it is particularly certain that the Archbishops of Canterbury that Princess Elizabeth will be a bridesmaid and the Prince of Wales bestman.

DAY BEFORE BIRTHDAY.

The date chosen for the wedding is the day before Prince Marina's 28th birthday, according to the old Greek calendar.

The King and Queen, with an escort of household cavalry, will proceed in full state to Westminster from Buckingham Palace.

Prince George, accompanied by his best man, the Prince of Wales, will drive separately to the Abbey.

The third procession will be that of the bride and her parents, Prince and Princess Nicholas of Greece.

LINDBERGH KIDNAPPING SEQUEL

Ransom Bill Found in Garage

HOMICIDE CHARGE

The Governor of New Jersey has signed a warrant demanding from New York the extradition of Hauptmann on whose premises the police found \$20,000 in cash.

Chiefly guarded by armed detectives, he had previously been taken to a Bronx court through a yelling crowd and charged with kidnapping.

Hauptmann denied that he participated in the kidnapping or received the ransom. He declared that the money found in the garage had been given him by a friend.

Terrible Pit Disaster in North Wales

DEATH ROLL EXPECTED TO EXCEED TWO HUNDRED

Miners Entombed

Between two and three hundred men are thought to have been killed in one of the worst pit disasters that has ever taken place in Britain.

An explosion occurred in the mine in the small hours of Saturday morning when a shift of some five hundred men were down the pit. About two hundred of them were in an area apart from that in which the explosion occurred and were able to reach the surface safely.

Work by rescue parties has been rendered almost impossible owing to a fierce fire which is raging in the pit and to the crumbling roofs of the main roads underground, where the explosion loosened great masses of earth.

Fierce Fire Handicaps Rescuers

One of the worst pit disasters that has ever taken place in Britain occurred this morning at Gresford Colliery, near Wrexham, North Wales.

An explosion took place in what is known as the Drummy District at the mine at about 2 a.m. when a shift of about 400 to 500 men were down the pit. About 200 of them were in an area apart from that in which the explosion occurred.

(Continued on page 4).

Dangerous Rescue Work

From the first only faint hopes were entertained for the majority of the others remaining below, as rescue parties went quickly to work in conditions of great danger.

It was expected that the explosion had loosened great masses of rock which might fall in the main roads underground. One of the main roads brought to the surface the first of the survivors.

Kidnapping in the United States

Probably more than any other act of lawlessness in recent years, the kidnaping of the Lindbergh baby has attracted the attention of the public. The most recent development in the case is the arrest of a man on whom the press has been speculating.

# Entertainments

your, certainly there has been nothing like it, for we have had "The Lion a Man" and "The Taming of the Shrew" which was very much Shakespeare, the "Claret Comedy" which was a scintillating and original piece of work, and "The Pagoda" which we all know was a masterpiece of historic presentation, and all good comedies.

**BUT** Laughter, Song and Dance is to be different. As its name implies, it will be a frivolous show, with sketches and songs and dancing of every kind, especially of the showy variety seen on music hall stages in England. The show is to be a particular feature of the entertainment, and a vision of the future in the love has been practicing for weeks and weeks and can now show and promise with the best. All the dance numbers chosen for this latest and most popular time.

**MR. "Took"** Biddelwell, who has recently returned from leave, is to make his first appearance behind the footlights this hour, as well as the other well known comedians whose names were mentioned last week. Famous and rehearsing is being carried on, the posters are out and to be seen all over the town, and the building plan are open in the Empire Theatre, Nairobi. It is the spirit of life and here it is!

### Chelato and His Midgets

"Falling about society, there is a possibility that Chelato, the Master Magician, may next week roll within the stage before you, his troupe of *Midget-Palmer Midgets*. They have been travelling through North Africa and Ethiopia, and have arrived at *Sierra*. Magic, juggling and wonderful feats are their forte, with a little acrobatics and dancing thrown in. The management of the Empire Theatre are in correspondence with them of the moment, and it is hoped that they will be persuaded to come here.

## Something Different

### Midgets and Magic

## From India and China

### Five O'Clock Revue

**MRS. Rose Lee** is the leading lady in the "Five O'Clock Revue" which is coming from India, China and originally America. The company is expected sometime in November, though an definite date has yet been arranged. Miss Lee, after the opening performance given in Bombay was spoken of in "The Times of India" as having "wowed a great success with her impressions of western film stars, Charlie, Dietrich, Jeanette, Pina and Marie Dressler being very good. She shows that she may be a mighty song in a few days. She also impersonated *Gracie Fields*, but since Gracie's new style that she "will not be mimicked any more" and her threat of legal proceedings if anyone does it without her written permission, it is probable that Miss Lee will not show Nairobi what she, thinks Gracie is like.

### Acrobatics and Dancing

**ALSO** in the "Nine O'Clock Revue" are the gentry *Le Dix sisters*, who do tap dances and give excellent performances on the sylvanone. *Adina Bonetti* gives high kicks and dances an amusing acrobatic dance in which she appears to have been taken at. A "Colombo newspaper" says "the ensemble numbers of the lovely sisters are full of pep and always 'swaggy'."

character I am portraying would select. The man, however, is of cast and character, and, in fact, we began on the arduous job of making the picture.

### A Man Day

**"THE"** thing in the morning I have a cup of coffee and I get up and the clothes I am to wear during the day are taken from the wardrobe, freshly cleaned and pressed. I dress, have a second cup of coffee, and at 8.45 I drive to the set. First there is a rehearsal of the show to be taken that day. Lighting and setting are arranged, and then the scene is "shot," often several times before it is satisfactory. There is an hour for lunch, and I only take soup or a cup of tea, as I find it easier to concentrate on my work when I am hungry. A few days a week I have interviews, at lunch time, then I tidy my hair and make-up and go back to work. At 5.45 I am finished for the day. Then I see the "rebuses" of the set for the day before. Another 15 minutes to remove my make-up, do my hair, and then I am free. When I see that film, I have to work for their living.

### In Brief

**ALTHOUGH** he was born in Sweden, Warner Oland's recent fame comes from his portrayal of Oriental characters. This week he is in a new screen sketch in "Charlie Chan Carries On."

**SHOULD** a waiter wait? See "Service for Ladies" and "Society for the Ladies" (Howard) for his curdy headwaiter's head at Elizabeth's and decides that even waiters have a right to become impatient at times.

**JOHN** Garrick (also in "Charlie Chan Carries On") is one of the few comedians who wear

DEATH SENTENCES IN SEMI CASE

(Continued from page 6.)

Assistant Inspector Fenton, Nyeri, said in a police report brought in Kiligeshi near Chania. He had two registration certificates in the name of Kijana. (Counted three road statements made by the accused by the Lower Court. They were all at the same time, did not go to school and did not intend to kill. They said also that an eight days' trial was presented for the Court. This closed the case for the Crown.)

Attorney General's Speech The Attorney General addressing the House and the members said the issue of the Crown of Kenya is a matter of the greatest importance to the public of the second degree. He said that the accused were guilty of the crime of murder. He said that the accused were guilty of the crime of murder. He said that the accused were guilty of the crime of murder.

No Joint Intent They had all stated that their intention was to steal; that if any of them had not intended to kill they would have been killed. Mr. Semini stated that he was a carefully worked out plan. Members of the gang were to be sent to jail. Mr. Semini stated that he was a carefully worked out plan.

The Killing Gang Mr. Harwin reviewed the evidence with a view to showing clearly that all the accused, who had been wounded by the gang, were implicated. The only suggestion for the defence, said the Attorney General, was that Mr. Semini—who appeared to have been wounded by almost every type of weapon with the exception of a gun—had received his fatal injuries by falling on the stones. That suggestion had been disposed of entirely by the medical evidence.

The Last Day Defencing Counsel's Arguments Nyeri, Saturday. Counsel for the defence (Mr. Iyer Loin) began his address to the Judge and members immediately on the resumption of the Court this morning. He said the definition of murder had become more and more in favour of the accused. In order to prove a charge of murder it was necessary to show intent and he submitted that the accused had no such intent.

Their Intention Question 2. Did they intend to attack anyone who resisted them? Answer No. 1. They made up their minds when they left the house that they would kill; they had no such intention as to resist. Answer No. 2. If they had

had not been disabled by it. In those circumstances it was immaterial in law whether the accused or whether they finally got into the house. They thought that they would have known that they had committed a crime which was dangerous to life and it was immaterial whether they were in possession of the house at the time.

Equally Guilty in Law In my opinion, concluded His Honor, all the accused are equally guilty in law. I have no objection to the prosecution being allowed to proceed against all the accused. I have, in the circumstances, no objection against the making of a joint plea of guilty. I find all the accused guilty of the crime of murder and sentence each to death.

Assessors' Difficulty Question 5. In your opinion are the guilty of murder? His Honor explained in simple language the legal definition of murder and reviewed the evidence. He said that the accused were guilty of the crime of murder. He said that the accused were guilty of the crime of murder.

A Great Case Mr. Justice Webb said the case seemed to him to be a clear one. The second accused went to the house of the victim on the night of June 11 to steal. Of that fact there was no doubt. The first accused had all admitted it, both to the jury and to the Judge. It was necessary to consider the other evidence. In His Honor's view it was clear from the facts that the accused intended to commit a murder.

The Second Charge The Attorney General asked that the second charge against the accused, that of razing Mr. Semini's house, be dropped, and that the accused be sentenced to death. The Court read at 12.45 p.m.

**CHARGE AGAINST WHITE WOMAN AND FIVE AFRICANS**

**Native Collapses in Court**  
CASE WITHDRAWN AGAINST HIM ON HIS REMOVAL TO HOSPITAL

His death was charged yesterday at Eldoret with the murder of a Suk native who died in hospital on June 25. The Crown allegation is that Eldoret was due to the effects of a flogging administered on June 8 on the instructions and under the direction of Mrs. Helen Selwyn, widow of a Kitala settler, and five of her Kithen servants who were charged with the murder of a Suk native who died in hospital on June 25. The Crown allegation is that Eldoret was due to the effects of a flogging administered on June 8 on the instructions and under the direction of Mrs. Selwyn.

One of the Natives collapsed during the forenoon and was taken to hospital where he has been detained. The Crown has withdrawn the charge against him and is proceeding with the case against the others.

The Crown case is being conducted by the Attorney General and there is a European jury.

All the accused pleaded not guilty.

The same solid base that upheld so prominently our productive past is Goodyear's reliance for times to come.

## THAT BASE IS QUALITY!

Goodyear's earliest product in the pioneering days was rubber tyres for carriages; we made them well and flourished.

Goodyear's latest product is the Airwheel tyre, and we are manufacturing five times as many as the makers of all other super-soft tyres combined—sure proof that quality wins.

Between these two tyres stretches a third of a century studded with the milestones of Goodyear pioneering.

Whether in passenger car, truck or bus tyres—farm implement or airplane tyres, mechanical rubber goods or other products—Goodyear has led and continues to set the pace.

### 'Puts the razor on its mettle'

**Gillette Shaving Cream**  
"You're looking blue about the Gillette John...? Yes, but what can you do with a beard like mine?...? But my dear John, my hair is also black, my beard is stiff... you save upon my soft, smooth, hair-cutting Gillette. I'll give you a tin. Gillette Shaving Cream. Foil-wrapped epoch making! Magnificent lather that puts the razor on its mettle. Gillette shave... delicious... Oh! we're off... so long!"  
The writer cannot, otherwise he might have added that Gillette Shaving Cream is always the same. Winter or summer. A perfect cream that keeps you huge billows of heavy-foaming lather that instantly softens the beard and makes easy work for the razor. The result would have been that you give such luxurious shaving enjoyment as a cold cream substitute! Buy a tin today!

**Kakama—The "Dudger" Rief**  
To the Editor of "The Standard," Sir—I have read with the greatest interest your report of the opening of the Kakama Plant at Kakama by His Excellency the Governor last week. There is one fact that I greatly regret to see was not brought to the notice of the public and that is that the report in which this plant is erected was discovered by Major A. P. Dodgson who was a member of my party of friends who went on to Kakama in the very early days of Kakama (November 1911). Incidentally, the claims, reported by me, in which this red leaf was the first to be registered in the D.C. office, Kakama.

To the Editor of "The Standard," Sir—Your correspondent, Mr. Dodgson, in his article of 18th September, in your issue of yesterday, asked a question: "How many more epidemics of malaria will take to our Nairobi to action?" May I take the liberty of replying to it. "As many as would actually infect our city fathers and all the rest responsible for the health of the town."

Medical Evidence in Murder Trial

"DEATH INDIRECTLY DUE TO BEATING"

Indisposition of a Witness

The attention of the Court at Eldoret... The evidence of Dr. Cowen, medical officer in charge of the Native Hospital at Kitale was interrupted owing to slight indisposition but he was able to return after to the witness box and complete his statement.

Several Suk natives told the story of their experiences on the Selwyn farm relating the details of the hogging and explaining that they were afterwards locked in a store to which Mrs. Selwyn brought water to wash their wounds.

Seventeen Miles Aik

Following the episode of Mr. Hildner, Ministry of Health, the District Commissioner, Meru, Kenya, on his return to Nairobi, Assistant Surgeon, described the injuries which he was said to have sustained on the 11th of September.

When the witness was asked to describe the injuries on his back and neck, he said that he was accompanied by those who were with him when he was struck by a heavy blow with a stop.

## How "Jamaica" Cocktail?

### Shakers from all Parts of Empire

At the beginning of October all those who can shake a pretty cocktail in the United Kingdom are invited to gather together at The Hotel, Regent Street, for the annual competition for American mixers. Professional and amateur alike are to be welcomed.

The competition is sponsored by the Wine, Spirits and Catering Trades. During each day of the week, cocktails will be judged and the winners will be invited to dine on the perfect short drink of the coming year. Last year 100 different cocktails were tasted, and probably there will be more than that this year.

Impetative, and probably a thirsty. No recipe is considered unless it is new and the invention of the competitor. Also the ingredients must be easily obtainable on the English market. But colonial spirits will be permitted the use of any product that was not easily obtained in their own country.

Entries have already been received from Trinidad, Australia and Canada, and it seems from enquiries made of the organizers that no part of the empire will be without a representative.

### Amateur Experts

A special prize will be awarded to amateurs submitting the best new drink. This section is to be judged separately, and anyone from a Mayfair hotel downwards may take part. The judging will be just as that of the professional section, and will be carried on by a similar jury of tasteful home people who have pleasant jobs.

### Tasting Times

Every day of the show forty of the persons will just sit and taste. The menu will consist of one public, one member of the press, and one member of the hotel business and wine trade. A representative will be present.

## Grooming is so Important

### Tidy Feet

HOW is it, we wonder that some people can do it, and some people can't? Here is Betty Furze, a recent addition to the Metropolitan Hotel, who looks just as we should all like to look in our evening gowns. How does she do it?

It is quite a simple thing to do, if you are not too busy to do it. It is to keep a simple single toe brush, and use it on the soles of the feet and a large brush of white talcum on the soles of the feet. The talcum is not particularly beautiful but hair is attractive and her figure is good. Why, then, does she look so "right"?

The whole secret is that she has good grooming. Grooming is a thing that is too often overlooked. It means trying to make your beautiful feet look like you, and this is what Mrs. Smith, although she is wearing last year's gown, will look more than she do. Well, Mrs. Smith has probably brushed her feet and polished her nails more than anybody else. She is probably careful of her feet as the hotel chamber broder than most people. And that treatment means, primarily through good health, and secondly through careful grooming and attention to personal details.

hope to have that feminine which is worth far more in the eyes of a man than any number of new frocks.

Color too plays an important part in the art of dressing well. The most fashionable colors nowadays are gray, with shades of blue, and blue. These running things very slowly. Much of course goes on the feet, and it is not so useful as it was before the end of the year in kempt up. It is now a matter of a few months ago, it is now a matter of a few months ago, it is now a matter of a few months ago, it is now a matter of a few months ago.

### The Fit of Your Shoes

The fit of your shoes and their durability are of considerable importance. It is not so easy to find a pair of shoes that will fit you as you would like to have them. It is not so easy to find a pair of shoes that will fit you as you would like to have them. It is not so easy to find a pair of shoes that will fit you as you would like to have them.

Betty Furze, Metropolitan Hotel, New find, shows the right way to wear a evening frock.

## Lepers at Kaleni

### SALE OF WORK AT WOODLANDS

EVERY year a sale of work is held at Woodlands, Nairobi, in aid of the C. M. S. Lepers Hospital at Kaleni, Marsa. This year the date of the sale has been fixed for November 12, and already Mrs. W. A. Pitt-Pitt and many helpers are working to supply the stalls with attractive and useful articles.

There will be fancy work, amuse, provisions and Native work, as well as the more useful things such as lace table and clock cloth. These will be supplied and a gramophone display will be given by the Native people of the Alliance High School.

The idea of holding a sale to help in the work done by the leper hospital originated several years ago, and the first sale was so successful that it has now become an annual event. The leper section of the general hospital has been in existence for some years, and in 1922 an extra hall, known as "the Billy Pitt-Pitt hall", was added to the existing buildings.

Last year the sale was exceptionally successful, and the proceeds were used to buy some new operating beds. It is to be hoped that this year the sale will prove even more helpful to the lepers, and a gramophone display will do so much to alleviate the sufferings of those Natives who are victims of leprosy.

## Beauty By Night

### Advice from Hollywood

THE old story tells us that Cinderella had her beauty at midnight. Nowadays the modern beauty who looks her best looks at a much earlier hour—about 6 p.m. when the light begins to go, and she begins to feel that the day has been rather an effort, after all.

Unless you know how to make your face look its best you will often find that the glare of electric light will rub you of all your natural beauty. After dark, then, it is necessary to brighten your face up and change the tone from that which you have used during the day.

### Colour Tones

The most successful evening tones are pink and reds with a suggestion of violet in them. Under ordinary electric light much of the blue and violet goes out of each tone and they look clear and lively. Make make up is possible in the evening time by day, and even the woman who skims her make up foundations in the

day-time feels the need of them to artificial light. Nowadays the lady, eyes and cheeks are important features for make-up. It is especially important to make-up carefully applied eye shadow. Nothing is more depressing than a pale face with a "two burned look in a minute" but about the eyes. Eye shadow and light applied eye shadow pencil are the resources.

In determining the right make-up for the general contour of the face and the condition of the skin are important points. The yellow reds are young and rosy colored and should be handled with care by the older woman. It is only the young skin that can stand a great deal of make-up, and the older woman should use the lightest make-up that she can get. The simple fact that must be faced with approaching age is that the older we grow and the more our faces need cosmetics the less we can use them.

The next time you go to a party and want to look dramatic—or perhaps triumphant—the better word—there is nothing that will achieve your rights like a make-up tried to the occasion. Self possession and pride are the greatest attributes to charm, and to woman can feel proud if she feels that she looks like a queen.

## Hitler's High Hat

A campaign against the "no hat" brigade has been instituted in Wuppertal, Germany, where Mayor Friedrich has issued an order to all officials and employees of the municipality to appear in public with their heads covered. He claims it is far healthier to get weather to wear headgear, and denounces the "no hat" movement as contrary to the wishes of the "leader" Hitler, who desires "as far as possible a departure from primitive conditions of living."

The secret of the new campaign lies in the further statement that the wearing of hats will help to stimulate the local hat-tariff industry.

## THE MAGNIFICENT LIE.

A course on a golf course were held by a single player if he might "go through it." He added that it was not his custom to do so, but he had just heard that his wife had had a serious accident.

... a filter tip that holds throat irritants in check

THE du Maurier filter tip is the most effective means of preventing throat irritation, and cough.

The impurities that exist in tobacco leaf are, of course, removed during manufacture by the recognized modern methods of careful preparation. This is not enough, because it is on burning the tobacco that the real causes of irritation and smoker's throat are developed—the acid products of combustion. These can only be removed from the smoke itself.

The du Maurier filter tip is prepared from the only substance known to science able to retain them. By cutting out the bad, the good is emphasized. Fine Virginia leaf becomes even more delectable. The proof is in the smoking.

"Tom Walls writes"—It is an exciting moment when your horse is lined up for the start of a big race. Cleverly represent for the right equipment—the Maurier, of course, because their favorite in excellent quality filter tip stop any amount of "smoke-throat."

THE du Maurier filter tip has seven tangible advantages... It retains irritant "acids" and is, therefore, the only effective method of preventing smoker's throat... It selects tobacco tar, thus guaranteeing physical pleasure... It stops bits of tobacco getting into the mouth... It avoids burning the tongue... It makes the smoke delightfully sweet and cool, bringing out the flavor... It gives a cleaner, healthier and more satisfying smoke.

## Going Ahead!

**BROADCASTING** in the Colonies and Dominions is definitely going ahead, and the service which appears in World Radio of interest in this connection. In Australia, the month of August has witnessed a record in listening hours, being three times higher than the previous record. The total gain for the Commonwealth was 24,644 and every State except Queensland increased its best figures. In Queensland the percentage of licenses to the population in 1934, in Tasmania 13.94, Victoria 11.86. The percentage gain for the Commonwealth is accordingly 9, so that Australia is fifth among the nations of the world including the United States. The financial result on June 30, with 659,189 licenses in the Commonwealth. The gain for the three months was 129,629, which two-thirds have been added since the beginning of the year.

**Boon in Canada.**  
A marked increase in the demand for receivers capable of tuning in short wave broadcasts from Europe, Australia, South America and other countries was predicted by the director of a prominent wireless organization at a recent conference of Radio Dealers from Ontario, Quebec, and the Maritime Provinces. He estimated that new models were much more sensitive and were also capable of tuning out interferences, which previously blocked developments of the radio set. He predicted that ten thousand orders for radio sets will be received as a result of this Convention. Reporting his remarks, the President of another wireless coalition said that Canadians in the first quarter of 1934 spent four times as much money on new radio receiving sets as in the corresponding period of 1933. Figures recently issued by the Dominion Bureau of Statistics showed that 9,640 radio sets valued at \$50,700 approximately were sold in Canada during the first three months of 1934, while in the corresponding period of last year sales reached \$2,211,700 valued at \$50,522 approximately. Believing in recent additions in radio engineering, the speaker declared: "There is little question in my mind but that 75 per cent. of the radio sets people buy this fall will have foreign reception bands." He insisted that the wireless point was far from being reached in the radio industry and he held out for considerable increase in sales in the near future.

**BROADCAST OF TO-DAY'S LAUNCH**  
Programme Points  
I THINK the outstanding feature last week were the commentaries on the yacht Race and listeners should look out for the American Station during this week.

A VERY well selected programme is being broadcast for the Empire Station this week and I have picked out those which I expect will be of interest to listeners, apart from 6.45 G.M.T., to-night at 6.45 G.M.T. A list will be given by Mr. Lancelotti Best entitled

## Popularity of wireless

The station almost failed to completely. Reception is very good that is experienced in Kenya country districts. I have had fair reports from all parts of the country. Both Tanganyika and Uganda are being fairly well served by T.L.O. In view of the fact that the Postal Department of Kenya, Uganda and Tanganyika have now been amalgamated, there seems to be no reason why listeners in Uganda and Tanganyika should not pay a local licence even though they may not pay the excessive figure now charged in Kenya.

## Are You a 'Pirate'?

THIS subject of wireless licenses is at the moment receiving the careful attention of the Postal Authorities in Kenya and it is hoped those persons who have committed the offence of receiving wireless sets without licenses will make application as early as possible, and at any rate, before the end of September if they wish to avoid prosecution.

## UGANDA & TANGANYIKA SHOULD PAY!

Getting Wireless Service Free  
I happened to go on a visit to Tanganyika recently and listened to a Nairobi (T.L.O.) one-way service, which was a very interesting programme, was made by Mr. Lancelotti Best entitled

## BRITISH MADE

Goodyear Tyres made at the Goodyear factory in Wolverhampton are contributing to the welfare of the Empire. This factory is an integral and PERMANENT part of Great Britain's industrial and financial structure. Night after night, day after day, the wheels of Goodyear industry turn continuously, machinery throbbing, presses rolling, shuttles flashing, moulds filling - three eight-hour shifts of English labour, each twenty-four hours being necessary to meet the insistent demands for Goodyear products.

In a period when most businesses are depressed, English Goodyear workers forge ahead with more employment, more wages, more prosperity. Hence, they purchase more of the necessities and luxuries of life, contribute more of their earnings to other industries, other businesses, other people.

Thousands of men and women are employed in the Goodyear-Wolverhampton organisation and there are 10,000 Goodyear dealers in Great Britain employing 20,000 other workers.

Thousands of families are dependent partially or entirely, directly or indirectly, upon Goodyear.

All of the Supertwist Cord fabric used in these English made tyres is spun in the mills of Lancashire, England. Crude rubber used at Wolverhampton is produced on plantations in British Malaya and Ceylon and bought in London.

Approximately 15,000 tons of coal for the

Goodyear factory are purchased annually from English mines and thousands of pounds sterling are spent each year with English railroads and common carriers for the transportation of Goodyear products for home and overseas markets.

Thus Goodyear purchases, large and small, Goodyear payrolls and Goodyear sales, extend their related benefits into all sections and phases of British life. And thus does Goodyear play its part in stabilising employment, Empire prosperity, and welfare of those closely related in trade and commerce.

Big Crowd at Tournament

Steady Play Marks  
Championships  
A Successful Function

[STANDARD CORRESPONDENT].  
Nairobi, Sept. 24.  
The Rift Valley Open Tennis  
Championships, which commenced  
on Friday, 21st, came to a most  
successful conclusion on Sunday  
afternoon when the finals of the  
various events were played. The  
afternoon was very hot, and the  
competition was keen, especially  
those who had to play in the  
heat of the day, and the crowd  
was very large, and the results  
were very satisfactory. The men's  
singles was the most interesting  
game, and was played in the  
presence of a large number of  
spectators. The match was  
played in the afternoon, and the  
crowd was very large, and the  
results were very satisfactory.

large number who came to watch  
the finals was a great advance on  
last year, and must be very en-  
couraging to those who were re-  
sponsible for the annual meet-  
ing. At the completion of the  
game, a prize was made to the  
front of the pavilion. Mr. Pratt,  
Headmaster of Nakuru School,  
made the short speech, in which he  
was able to say how great a suc-  
cess the meeting had been. The  
financial results were expected to  
be very satisfactory. He mention-  
ed that he had been decided  
year to make an innovation by giving  
an umpire's prize, adjudged by  
the value of the play, they them-  
selves. Their choice had fallen  
on Mr. H. Thackeray. He then  
asked Mrs. Whyte to present  
the cups and spoons.

The following are the results:

### Residential Goods

Household goods consist of a wide range of lines of all standard, up-to-date, and there are several charming pieces and sets of table linen. Among the large selection of furniture, there are many of American, Indian, and other styles. There are also many of the most beautiful materials, such as silk, satin, and tulle, from the Continent and all available in ample stock. There is also a large stock of...

### Mr. Segwitz declared

"I shall definitely not challenge you for the Cup."

Having had the last of the match, and having been fairly well beaten, Mr. Segwitz declared he was not prepared to fight any further, but he was not prepared to give up the name as an honour, and he explained the withdrawal.

### Prize for American Public

Mr. Segwitz stated: "I would like to thank the American people for a very wonderful and touching reception. We will be back in England in the most pleasant recollections of the sporting events of the American public."

### RESIDENCE OF NATIVES OUTSIDE LOCATION

The subject of Natives residing in non-Native areas came before the Native Affairs Committee of the Nairobi Municipal Council recently when the Municipal Native Affairs Officer drew attention to an application. He had received from the owner of a large range of buildings for permission to make use of the buildings as a lodging-house for Natives.

It was decided, however, that the Council should refer to the previous resolution, to the effect that only in cases where it was necessary for Natives to be housed by their employers in proximity to their work should such a special permission be granted outside the Native Location.

### WALKER CUP GOLF AT KITALE

The news of the withdrawal of the British supporters, who were most optimistic that the protest would be upheld on this occasion.

Preparations to leave Newport for the Walker Cup are well advanced, and Mr. Segwitz is expected to arrive in Kitala on September 25th.

### AMERICA MEANS HER OWN

At the quarterly meeting of the Native Affairs Council on Tuesday, Mr. C. H. Wood, who was the guest speaker, said that the American people are not prepared to give up the name as an honour, and he explained the withdrawal.

### Public Land

It was noted that the American people are not prepared to give up the name as an honour, and he explained the withdrawal.

**210-18**  
**(8.25-18)**

Ford, Chevrolet, and Bedford lorry owners . . . Here is a special new GIANT GOODYEAR tyre which replaces the old 32 x 6 size.

Ordinary oversize tyres fitting the standard 32 x 6 wheel upset gear ratios with loss of power, and also reduce clearances between tyres and body as well as springs.

The new 210-18 tyre, despite its massive section, has the same overall diameter as a 32 x 6 tyre, so that the power of the lorry is unaffected and clearances are unaltered.

THINK OF IT . . . a GIANT low pressure tyre with double the mileage possibilities of a 32 x 6 . . . capable of carrying loads which would break down 32 x 6 tyres . . .

*It's the chance of a lifetime for Ford, Chevrolet and Bedford owners*

PAGANT AND FAIR  
ACCOUNTS

To the Editor "E. A. Standard,"

Sir—We beg to ask for the publication of your estimate for the construction of an abbreviated statement of the Accounts, as presented by the Hon. Treasurer, of the Anglican Church of Kenya, which includes the Hongkong Bank Ltd. and the Kenya Bank Ltd. showing a result of Shs. 12,645/50 to the benefit of the fund.

This result is truly amazing and entirely to the detriment of the public and the willing tax-payers of the country. It can be seen at any time in the Treasurer's Office at Stanley House.

On behalf of the Committee we express our most sincere thanks to the public and to all helpers.  
Yours faithfully,  
A. C. TANNAHILL,  
Chairman of Committee.

## MERGING OF THE BLACK AND WHITE RACES

(Continued from page 7.)

### Dr. Cyprian Schools

Dr. Cyprian Schools, the former Londonist of Harare, and the President of St. John's College, Oxford, addressed the Education Section of the Educationists' Conference, which is being held at the University of Nairobi. He stressed the need for a more wholesome effort to give his pupils for the preparation of their work.

Teachers successfully obtained that a single examination should be devised to set at a standard for measuring economic education, and obtained that the examination should be accepted, if passed at a sufficient standard, as qualifying for universities.

It is to be noted that the average 100 and 100 and 100 per cent of our pupils, advanced education, are not so hand-picked to be sent to school as they are in the past. It is to be noted that the average 100 and 100 and 100 per cent of our pupils, advanced education, are not so hand-picked to be sent to school as they are in the past.

### Children, both good and bad, traffic money, agricultural problem, and the reconstruction of industry were among the wide variety of subjects dealt with by the scientists on Monday.

The different phases of the "problem child" from the perspective of the child, through two years in one to the teacher, and the child's health, efficiency and who stole, formed a fruitful subject for discussion at a joint session of the Psychology and Educational Science sections. In most, they failed to see as an end of the understanding of Tom, Dick and Harry, because it is a bright boy, that end I shall never see, as long as the school certificate is no sign of the reconstruction of the universities.

### AN UNUSUAL SOCCER MATCH

"STANDARD" CORRESPONDENT  
Kampala, Sept. 26.  
An unusual soccer match is taking place this afternoon when the Nyanza Falcons are meeting with the team of F.W.D. Europeans. The match is the more interesting when one remembers that in the final of the Kenya Cup the F.W.D. team defeated that of Nyanza. The referee is the well-known referee, who has played in matches of the Italian League and in every school. Such children

### Economics of Industry

Sir Josiah Stamp suggested the inclusion of greater direct investment in industry in the future, and the need for a more comprehensive economic planning in the Economic Section. There is a large change in the way of thinking, and a feeling that it has every time a director.

The entire within the limits of his own estimate of the market without the aid of business from the left to individual trends to work out. They only have to be left to individual trends to work out. They only have to be left to individual trends to work out.

### Earlier Marriage

Earlier marriage to "promote national and racial welfare" was advocated by Colonel C. B. Bond, Educationist, in a paper to the Educationists' Conference. Young citizens suffered no-day, but in health, efficiency and who stole, formed a fruitful subject for discussion at a joint session of the Psychology and Educational Science sections.

## ATHLETIC ASSOCIATION IN TROUBLE

### Municipal Council to Help Financially

The question of increasing the grant of £25 made annually by the Nairobi Municipal Council out of the Nairobi Athletic Association for the Arab and African Athletes' Association was recently considered by the Native Affairs Committee. At the meeting the Municipal Native Affairs Officer requested that the grant be increased to £125. He pointed out the participation of the Association, which, failing a considerable increase in the financial support accorded it, would be unable to function. He also stated that the volume of recreational work had increased to such an extent that paid assistance was necessary. It was recommended that, subject to the approval of His Excellency the Governor, the Council guarantee the expenses of the Arab and African Athletes' Association for a period of 12 months to the extent of a sum not exceeding £125, the grant to come from the Municipal Native Trust Fund. The Municipal Council confirmed this recommendation at its meeting on Tuesday.

## CONGRATULATIONS FOR MR. A. DE V. WADE

### Appointment as Colonial Secretary

At the monthly meeting of the Nairobi Municipal Council on Tuesday, the Mayor, referred to the appointment of Mr. A. de V. Wade as Colonial Secretary. Kenya, and expressed his pleasure in having appointed to that post a man who was so much admired in Nairobi. Mr. Wade, instead of having a mass appointment from elsewhere, had been appointed to his post by the Nairobi Municipal Council. Mr. Wade's appointment had been announced, he stated, if he had been addressed to him by the Nairobi Municipal Council conveying its congratulations upon his promotion to the office of Colonial Secretary, and expressing the sincere desire that the success which awaited him through his labours would stimulate in him the same patriotic ardour. Happy Relationship. The Mayor said that the Council felt confident that Mr. Wade's influence would ensure the continuance of the very happy relationship which for years had existed between the Colonial Government and the local authority.

## STAYING CATTLE IN NAIROBI

In a leading article, headed "Cattle in Nairobi," and published in the Standard on Tuesday, it was pointed out that this time was crying when the question of cattle in the town would require close attention. The article stated that the authorities were troubled through the unscrupulous action, growing by the wayside, of the unscrupulous and generally longed whom and when they could, and it was suggested that the Municipal Council of Nairobi might institute a policy which would be to wish changing conditions. Approached on the matter yesterday, the Town Clerk stated that the Council never had contemplated introducing by-laws which would prevent people from legitimately moving cattle through Nairobi whenever they wished. At the same time he realized that in many cases where in England regulations were laid down whereby cattle might be moved through the town between certain hours, other in the early morning or in the late evening.

## STORY OF A WALLET

### Unfortunate Incident on "Mantala"

["STANDARD" CORRESPONDENT.] Mombasa, Sept. 25. An unfortunate incident occurred on the s.s. "Mantala" on Saturday at Kilindiini just as that vessel was on the point of sailing for England. A lady passenger appears to have lost a wallet, which was believed to contain £50, on a table in the saloon. This was picked up by another passenger and handed to a steward. The lady, discovering her loss, immediately made a request, and on being informed of the incident, immediately made a request, and on being informed of the incident, immediately made a request.

Have you considered the advantages of air travel? It is not expensive, everything is included in the fare; accommodation on land, sea, night, meals, and even tips. It is quite the most comfortable and interesting form of travel, and certainly the most useful where long journeys are involved, and it is specially delightful to women, children and invalids. Business men find that flying often saves them days or even weeks of travel. Imperial Airways' air liners are luxuriously fitted. There are staterooms, ample luggage accommodation and a kitchen. Send your letters by air mail—it is as easy to use as the ordinary post and letters arrive days sooner. Also send your freight by air. Insurance rates are usually about half those charged for surface transport, and it is possible to deliver perished goods in perfect condition.

## ABNORMAL RAINFALL

### In Seychelles During July and August

["STANDARD" CORRESPONDENT.] Seychelles, Sept. 10. Seychelles with its average rainfall of 50 in. for the whole year, has certainly been trying to complete its task in a most extraordinary manner. During the last two months it has rained incessantly with hardly a day without a shower. The average for July is 2.6 inches. This year 22.6 inches was recorded, which for August the average is 14.3 in. has fallen. The result of this abnormality is that instead of the season being beautifully cool and pleasant, it is muggy and hot. No doubt the heavy rainfall is good for the crops, and pleases the proprietors of estates, but from the tourist's point of view it is doubly unpleasant, as who can enjoy bathing, picnicking, or fishing in the downpour, which is a daily occurrence. Even motor-cars are wet as here as the roads, and their top-sails will surely find themselves to strain the springs of their cars.

Mrs. Selwyn Tells Her Own Story

"I HAD NO INTENTION OF KILLING"

Worried by Frequent Thefts

THOUGHT A BEATING WOULD LEAD TO A CONFESSION

Mrs. Helen Selwyn, the central figure in the Eldoret murder trial, was three hours in the witness box yesterday.

"I had no intention of killing or of serious injury," she said in a burst of tears.

"Third Degree Methods"

Another of the native servants employed by the Selwyns, Ndoro, was called in to give evidence today regarding the beatings of the farm on June 2nd.

"ENDEAVOURS" DEFEATS

Views of Yachting Experts

Poor Manipulation

FASTEST THING OF HER SIZE AYLLOAT

The reason for the defeat suffered by the "Endeavour" is generally agreed by yachting experts.

One expert says the "Endeavour" was hobbled, and the men who did not work with such like that did not desire to win anything.

Another shales that if Mr. Adams skipper of the "Yankee" had been at the helm, it would have been necessary to send out a search party to find the "Endeavour."

The British attempters are commended in that with the limited time they had in which to drill they could not be expected to compete with an experienced sailing fleet.

... a filter tip that holds throat irritants in check

THE du Maurier filter tip is the most effective means of preventing throat irritation and cough.

The impurities that exist in tobacco leaf are, of course, removed during manufacture by the recognised modern methods of careful preparation.

This is not enough, because it is on burning the tobacco that the real causes of irritation and smoker's throat are developed—the actual products of combustion. These can only be removed from the smoke itself.

The du Maurier filter tip is prepared from the only substance known to science able to retain them. By cutting out the bad, the good is emphasised. Fine Virginia leaf has come even more delectable. The proof is in the smoking.

CIGELY COURTNEIDGE says—Do as I do smoke du Maurier Cigarettes. They are excellent, the filter tip protects your fingers and teeth from nicotine stains.

His Excellency Attends Racing

MR. T. N. DERBY'S PROGRESS

His Excellency the Governor, accompanied by his Hon. Mrs. Maudie Clark and Mrs. A.D.C. Mrs. Maudie Clark, was present at the Gymkhana held at the Sports Club on Saturday, 15th September. The Excellency arrived at 10.15, and the party was met by Mr. and Mrs. Roy Meyer.

The gathering was an extremely representative one, and the weather was ideal.

The Governor arrived at the Club at 11.30, and the party was met by Mr. and Mrs. Roy Meyer, Mr. and Mrs. Stewart Smith and H. Hooley.

The Governor was particularly fond, and the handicappers must be congratulated on their work. At one time it looked as if the world interfered with the sport, but nothing more than a light shower prevented the meeting.

Mr. Derby again proved to be the most of the day. The Governor G. T. Davidson's TUN TACKS 11.7.

BOOTS CLUB GETS A BREAK

WHEN "STANDARD" correspondent... We had a (By our mail) rough day when between Arsenal and Rangers. If the good Rangers had not been beaten after the start, as the result of a great goal scored by Boots, and the rest of the game they would have been in a position to win.

One length between second and third. Five runners. Total paid Sh. 10/7.

SOMALI HANDICAP. 11 miles. T. N. Derby's SWARA 11.0.

A. J. Davidson's TIN TACKS 11.0.

H. Hooley's FORTY FOURER 11.0.

Swara was left several lengths at the start. The Tacks was in front coming into the straight.

Four runners. Total paid Sh. 11/7.

PROGENY HANDICAP. 11 miles. E. MacCallister's STERSON 11.7.

T. N. Derby's SUGAR CANE 10.7.

H. Hooley's FLEUR 10.7.

Another very good race in which Sugar Cane and Stupans were never separated and had headed Fleur was third, 1/2 length behind the winner.

Five runners. Total paid Sh. 10/7.

COUNTRYBRED HANDICAP. 11 miles. T. N. Derby's MAKE HASTE 11.7.

E. N. Derby's THERIAK 10.7.

T. N. Derby's LOTIS OF MONEY 11.7.

From a good start Make Haste and Lots of Money led the field. Half way Make Haste had a small lead but was challenged on the distance by Lots of Money and the latter managed to stay on until a length. A short head started second and third.

Four runners. Total paid Sh. 10/7.

Summit of Killinbeggie. Mr. Zeller, of Uva River, who recently made an ascent of Mt. Killinbeggie, claims to have established the fact that Kaiser Wilhelm (Spitz) (as located by the early explorer Hans Meyer) is not actually the summit, but a mountain. He reports that he has found another point which is a few metres higher. Mr. Zeller climbed Killinbeggie in 1928 and 1929, and holds the distinction of having walked all the way from Prague, where he was a student, to Uva River.

Brown Fish this way

"WHEN frying fish I always give it a coating of Bisto in place of egg and bread crumbs or flour. Just wash and dry your fillets of fish, place some Bisto on a plate and dip your fish in it. Now fry in the ordinary way, making sure your fat is boiling. You will find your fish turns a nice tempting brown, and what's more it tastes as good as it looks."

Cook with BISTO

Don't let the climate prematurely age you

A woman is only as old as the looks. Age and physical fitness have very little in common. Those signs of age which most women regard as inevitable after childbirth, such as tiredness after meals, throats of breath and general lack of interest, are entirely unnecessary. When these symptoms occur, WINCARNIS is your best friend.

Doctors prescribe WINCARNIS because it feeds and fortifies the bloodstream, because it is at once a food and a tonic. For over 50 years, doctors of the highest standing have been prescribing WINCARNIS as the never-failing strength giver.

Take a glass of WINCARNIS after every meal and before going to bed. WINCARNIS is specially prepared for this market.

"That brown mark? ... It's worn  
 enamel, not stain. Change to GIBBS!"

The main topic of interest in this district was the question of the Kakamega goldfield. I had previously mentioned that with such meticulous care the rights of the deeds and others of a county might be crisscrossed together against the desires of both hygiene and common sense. Compensation has also been fixed at a most generous rate, £100 per acre per annum for the land. I tried to ask when in England former members of the Local Land Board, which would be done in consultation with the Local Native Council and the Council of Native Officers, would be the chief arm of the District Commissioner. Furthermore, the issue would only be granted if the Provincial Commissioner was satisfied that this was in the interest of the resident natives by reason of the rent received. If the area involved was more than ten acres, the Land Transfer Office, whose main duty it will be to protect native lands, would have a power of veto. In addition, any native disturbed was to receive both land elsewhere and compensation.

Impossible, surely, to safeguard native interests more completely. No speech in Channery could be so fully protected.

**Speeches Faint but Surprising**

It would, of course, be too much to expect that the assembled chiefs would realize the potential importance of the development of the goldfield in the Colony as a whole, though the immediate advantages accruing from so much money being spent in the district of the wealth represented by the compensation paid was apparent enough; but the point of view expressed by some of the chiefs in the matter of financial approach took my breath away. They got up one after the other, the ivory black men in smart kikaas attire, the diminutive little one in a lounge suit, the imposing figure in a turban and an embroidered velvet robe, and with their gestures never lacking fervor, ardor and respectful to the Chair they all seemed to have the same point of view. The country now empty, was now being worked by natives, the population had increased and was in-

To the natives, to whom I was presented as a member of the George's Bureau. It was an object of considerable interest to a British Member of Parliament. The deliberations took place on an event had followed two days before. To these matters people that was a most satisfactory proof that the Government had taken into account the views of the natives than even the Commissioner of the Carter Report, in which the advice of some of the present was embodied.

With infinite attention, the main provisions of the Report were explained by the District and Provincial Commissioners. These were extremely favorable to native claims. I felt advised to quote some of the more important figures to mention 1,120 square miles not only to meet the demands of future economic requirements of the natives, and 500 square miles recommended for the natives but not allocated to any particular tribe.

**"English Politics for One Day"**

Speech followed speech. Presently the whites got up to leave. The British members of the Carter Report, I thought, were a chief's perspective. We trooped out of the room. I thought of the Chief. Declaring in a loud voice that his plan was very hard and that he would stand by it to the end. He said that he had been crying himself that part of his country which had suffered from the painful lack of elasticity of his land.

Local and long was the debate. As we landed we could hear voices raised in eloquent protest. Presently the sitting was resumed. The chairman of the District Council and the District Commissioner and the Provincial Commissioner were seated at the back of the native hall. When we had then finished the report seemed satisfactory from native point of view. Presently they got up to leave. I was asked to see the land where a white hill had been the subject of a dispute. It is in the custom with their own dwelling-places. From then on it was easy sailing.

There was no difficulty in proving that the issue were indeed the copies of the title deeds, and when they handed they found the copies of them there was jubilation. They were completely reassured. Several chiefs asked to be allowed to purchase the Carter Report at a cost of £2 no doubt undulating a sensational return. It is a volume of 100 pages of a long string of views.

As I drove away along roads covered with people I reflected that not so long ago this country more than thirty years ago had been a desolate and unpopulated region. It is now the richest and most densely populated region in the East African continent. It is now the richest and most densely populated region in the East African continent.

**Britain's Gift of Administration**

We have given these Colonies of ours everything that makes for prosperity. All that is missing is an efficient administration. The people of the East African continent are now the richest and most densely populated region in the East African continent.

**For Supply of Cheap Electricity**

**FIT-HEAD PLANTS**

The British Association Conference

London, Sept 18. (By Air Mail)

Among other subjects discussed at the recent Conference of the British Association held at Aberdeen was the enormous potential demand for electricity in the East African continent. This was mentioned by the Hon. Mr. F. D. B. in the presidential address to the Engineering Section on "Sources of cheap electricity power." Professor Dady was proposing a scheme for his establishment, a complete work of the grid of just laid generating stations which would use water and coal in a very large scale.

The "B.A." motor-saloon evolved by the Wing Commander T. R. C. in conjunction with the Union of Motor Manufacturers and Traders at University College, London, and the motor-saloon was presented to the traffic routes in the engineering section. The subject of discussion was the Ministry of Transport National Prevention Committee, and that the large number of letters received by the committee had definitely to be made in the most of the worst offenders in order of offences were inadequate to deal with the motor-traffic problem, and that other transport means, and then transport means, and then transport means.

Mr. E. O. Turner, dealing with the motor-traffic problem, said that the way out was the provision of two sets of horns, one for country use and a larger horn for town use. With smaller horns however the question of expenses immediately arose. He suggested that horns should be made to blow a strictly periodic note with a loudness not exceeding a prescribed figure.

**Subsidies to Farmers**

Reorganization of farming as the few farmers must pay for the increased support of the public, was the keynote of a paper by Sir David Hall in the Agricultural Section, Scotland. He said, "we must not merely sit by help farming, but we must be regarded as the necessary preliminary to a progressive reorganization of the industry. They would leave themselves if they supposed that the British public would pay for long ago to pay itself or pay down for to find more out of gold will be to the farmers."

**Room for Small Farmers**

But let us be fair to the home country. The native reserves are being increased enormously, regardless of the fact that they have been overworked and watered the land they have already. Is there no room for some of our people from home? Of course there is, ample room for those who could be content to farm a little land and live on it.

No doubt some white estates are too large and could do make room for settlers. Where there will there a way and there is room in Kenya's East English, new who are coming, their hearts out in the centre become good customers of the Mother Country.
