TO FOLLOW LINES MADE FAMILIAR IN PAST YEARS

Tomorrow, the Day of Remembrance, is the sixteenth anniversary of the signing of the Armistice which ended the fighting in the Great War.

At the desire of His Majesty the King a two minutes silence will be observed throughout the British Empire, starting at eleven o'clock, in reverent remembrance of those who fell in the War.

Plans for Nairobi

A special Anti-Aircraft Day Ceremony will take place between 10 and 11 a.m. in South Avenue and a display of Honor Guards will be given by the British Legion and the British Empire League in South Avenue.

At 11 a.m. His Excellency the Governor will preside at the Memorial Service and take up his position in front of the Cenotaph. A roll of drums will be led by the "Last Post" band, the bands to be followed by the "Last Post" band.

The firing of a gun will accompany the beginning and ending of the service of prayers, after which the band will proceed to the Cenotaph, where it will play the National Anthem.

The Day's Prayer and the singing of the hymn "O God in South Avenue" will follow, and will be followed by the reading of the National Anthem.

His Excellency will depart after the Royal Salute has been given. All wishing to place wreaths should take their stand in front of the Memorial Hall, on the right hand side of the door facing the Cenotaph.

French Political Crisis

THE RHODESIAN ELECTION

Sweeping Victory for Premier

The general election in Southern Rhodesia has resulted in a sweeping victory for the Premier, Mr. G. M. Hastings, and the United Party of which he is the head.

United Party's Triumph

OPPOSITION NOW REDUCED TO SIX MEMBERS

STANDARD (CORRESPONDENT), Durban, Nov. 9. The general election in Southern Rhodesia has resulted in a sweeping victory for the Premier, Mr. G. M. Hastings, and the United Party of which he is the head.

French Cabinet Ministers

French Cabinet Ministers gathered after a meeting in connection with one of the many crises that define the name "French's political life." On the extreme left in the front row is M. Laval, while next to him is President Lefevre.

ROPE DISPUTE UNSETTLED

Reversion to Former Position

It was proposed that a meeting should be held on October 30 in an agreement with the Japanese Federation. He has notified the Colonial Office that the situation is now as it was in August.

PROPOSALS TO BRIDGE DEADLOCK

British Plans at Naval Conversations

The meeting was later reported to have become unanimous as an agreement had been reached between the parties involved, but the message published above indicates that the position is not the same as when the preliminary announcements were made by the Japanese Federation in a similar, to its members—that the British Government had decided to impose a prohibition limit on all imports of the products of the Dai Nippon Kaisha Co. into the United Kingdom.

Resignation of French Cabinet Ministers

RADICAL PARTY ACCUSED OF SELFISHNESS

New Ministry Formed

M. FLANDIN TO SUCCEED M. DOUMERGUE AS PREMIER

The rapid political developments in France during the past few days have culminated in the resignation of M. Doumergue and his Cabinet as a sequel to the withdrawal of the Radical Ministers headed by M. Herriot.

Party Truce Contract

M. Doumergue has declared in hand his resignation of the Cabinet. The resignation of the Government followed a crisis involving the Cabinet members headed by M. Herriot on the 11th of November, and included the Cabinet outside a copy of his "respectful and regretful" letter to M. Doumergue tendering his resignation of the Radical Ministers.

Black Three.

White Three.
White mates in three moves.
Since the recent tournament there has been naturally some restriction in the number of solutions received. The above problems are quite easy, having very few solvers, yet they are interesting enough to repay the successful solver for the time spent in discovering the way to inflat mate in the stipulated number of moves, whatever Black may do in self-defence. We hope therefore that more readers will become solvers, and send in their results. Questions and comments are very welcome, and increase local interest.

Handicap Tourney Result
G. K. Davidson, receiving Pawn and Move, defeated his father, G. W. Davidson in the

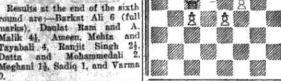

(By A. H. Spencer Palmer Life Member British Chess Federation, P.O. Box 78, Nairobi).

Final match by two wins to nil. This is the first time that the annual handicap tourney has been won in recent years by any competitor below Class E. The winner's handicap has been adjusted.

Championship Tournament
This is about half-way through and Bouteck will keep the lead and seem likely to retain his title. G. W. Davidson took a very good win of his and F. E. Davidson drew one of the games in his last, but G. S. Davidson took both his games which were exceedingly good, and the result being a draw. Pawn in the second game. Middlefield is doing well, and is a possibility along with Davidson Senior, for one of the first three places in the final order. The performance of Menkin, Spencer Palmer and Yimner are somewhat disappointing, and their prospects are dim. K. B. Coakle has not fulfilled the promise shown in that great encounter with Bouteck in the Handicap tourney, though he is a great fighter and after losing his first game with Spencer Palmer, unobtrusively won the second from a very inferior position, after the game was virtually lost. Yimner drew his second game with Spencer Palmer after losing the first.

INDIAN CHESS CLUB CHAMPIONSHIP
Results at the end of the sixth round are—Barkat Ali 6 (full marks), Dault-Ram and A. Malik 4, Amren, Mehta and Tayyabali 4, Ranjit Singh 3, Datta and Mohommadali 2, Mehgal 1, Sedia 1, and Varni 0.

We venture to prophesy that the final order will not be greatly different from this, although there are some very decisive matches to be played today.

White (Golombek) Five.
Black to move.
Golombek was heading for a comfortable win against Abra-

hams till after one or two adjournments the above position was reached. The game continued: 1... K-R3; 2 R-P-K-K4; 3 B-B4; 4 R-R2 ch; 4 K-R5; 5 P-Q3; 6 R-P-Q4 and Black draws. If 6 K-K4, it is stalemate!

Black (Mrs. Gilchrist) Seven.

White (Mrs. Stevenson) Eight
Black to move.
Another example of stalemate occurred in the women's championship. Mrs. Stevenson had long had a win in hand, and here has a set mate with Queen and Knight. The game continued: 1... Q-R7 ch; 2 R-K5; 3 K-R4 ch. White should of course take the Rook, but as... B-K2 is no defence to the mate indicated, she went 2 K-R5! when followed 3... R-K5 ch; 4 K-R4; 4-R7 ch; 5 K-K5 and Black is stalemated. The odd part of it is that if the Rook is not taken at 4) White is mated, and again if the Queen is not taken next move.

The notice of Holloway Bros. (London) Ltd. amounting to £310,720 10 5d. has been accepted by the London County Council for the reconstruction and widening of Chelsea Bridge.

RESIGNATION OF FRENCH CABINET MINISTERS

(Continued from page 1.)

truce contract under which they joined the Cabinet, but that they were absolved from it by the action of M. Doumergue in proposing a wholesale grant of grave political reforms without consulting the Radical Ministers.

M. Doumergue, with the latter Ministers, is now drafting a letter announcing the Cabinet's resignation.

Later.
M. Doumergue's letter to the President consists of a strong attack on the solution of the Radical Party. He states: "The first result will be to bring before the eyes of the majority of six to two, and in this condition, to show to the party's pleasure."

His letter adds: "Since the withdrawal of the Radicals, we cannot consider forming a Ministry belonging to a Parliamentary Ministry. My loyalty to the Parliamentary regime and democratic institutions forbids this. Also I fear that the formation of a majority Government would form the basis of a general upheaval with the means of raising an upper hand over the patriotic Republican party which I believe indispensably strives to carry out."

Message to Country.
M. Doumergue has issued a message to the country saying: "I am compelled to leave office. I appeal to the citizens to maintain the calm which is necessary in order to find the best solution to our present difficulties and in the interests of our country."

Mr. Lefevre has asked M. Laval the Right Centre leader, to form a new Cabinet, but the refusal to do so has created another serious crisis.
M. Flaminio, Minister of Public Works in M. Doumergue's Cabinet, has accepted the Premiership. He has promised to resign to President Lefevre later in the afternoon.

Political Record.
M. Flaminio is a member of the Left-Republican group and has held various Government offices since the War, though he has never been Premier before.

plotted its downfall about November 5, after which the Government would have been unable to resist the dissolution if placed in a minority since for parliaments would have refused to last until the next elections of a new Chamber.

The New Cabinet.
Paris, Nov. 9. — M. Flaminio in the early hours of this morning presented President Lefevre with the new Cabinet, which is composed as follows:—M. Flaminio, Minister of Public Works; M. Marin, Minister without Portfolio; M. Begger, Minister of Interior; M. Perrot, Minister of Justice; M. Laval, Minister of Foreign Affairs; M. Germain Martin, Minister of Finance; Generalis Marinis and Duclos, Ministers of War and Air respectively; M. Paris, Minister of Navy; M. Marchandise, Minister of Commerce; M. Malherbe, Minister of Education; M. Boy, Minister of Public Works; M. Jaquet, Minister of Labour; M. Bertrand, Minister of the Merchant Marine; M. Naudy, Minister of the Post Office; M. Dreville, Minister of Finance; M. Orenette, Minister of Public Health; M. Cassin, Minister of Agriculture; M. Eskin, Minister of Colonies.

Announcement.
The party press will continue to say M. Flaminio, "I want united fronts. I will serve France and the Republic with honour, knowing how to forget party differences," he said. "Our aims will be to combat poverty and unemployment, reduce public economy, uphold private enterprise and encourage reforms of the State." "I hope the country will gratefully greet the Government. I have chosen in the shortest possible time."

The Cabinet's first meeting will be at 5 p.m. on Saturday. It will be in the Chamber on November 10.

Effect of Change.
The new Cabinet covers the same ground as the Left and Right as did M. Doumergue's. The Right Wing leader, M. Marin, no longer holds Portfolio to effect the Radical chief, M. Herriot. Generalis Marinis is a member of the Higher War Council. M. Jaquet's assumption of the Portfolio for the Post Office keeps it in the hands of M. Malherbe according to tradition.
M. Bodin, the Independent Deputy, is a striking new figure.

BRITISH EMPIRE'S DAY OF REMEMBRANCE

(Continued from page 1.)

Ticket-holders are requested to leave their tickets ready by inspection by the Police on duty at the Cenotaph, and to assemble in their places which will be demarcated.

Drivers of vehicles in all parts of the town are earnestly requested to keep them at a standstill from 11 a.m. to 11:30 a.m. Orders of priority in the vicinity of the Memorials are requested to be observed.

The morning public are requested to show every consideration to the Grand Officer of the 2nd King's African Rifles, when driving past or overtaking it, and to drive slowly and when necessary to give way to the Guard.

IN BRITAIN

Plans for Review at the Cenotaph

["THE STAFFORD COURTESY."] London, October 31. (By Air Mail.) The Home Office announces that the arrangements for the celebration of Armistice Day have now been completed and have been approved by the King.

Representative detachments of the Royal Navy, the Army, the Royal Air Force, and the Merchant Navy and Fishing Fleets, together with a contingent of the Royal Marines and one vessel of the Royal Fleet Auxiliary, will be escorted by the bands of the Brigade of Guards.

A large number of troops will follow, consisting of a special column, the Lord's Prayer, and a band of the Royal Army Band, which will be conducted by the buglers of the Royal Marines and one vessel of the Royal Fleet Auxiliary, will be escorted by the bands of the Brigade of Guards.

The service will be broadcast by the B.B.C. At the end of the service the Prime Minister, Mr. Eden, will return to the House of Commons. The Queen, together with other ladies of the Royal Family, will witness the ceremony from a window overlooking the Cenotaph.

Abbey Service.
There will be a special service at Westminster Abbey on Armistice Day beginning at 10:30 a.m. and ending at 11:30 a.m. at which the Navy will be represented by Vice-Admiral Sir Dudley Pound, the Army by General Sir Cecil Bonner, and the Royal Air Force by Air Marshal Sir Robert Brooke-Popham. Representative detachments will also attend from the Royal Navy, the Royal Marines, the Royal Naval Reserve, the Royal Naval Volunteer Reserve, the Brigade of Guards, the Royal Army Medical Corps, the Royal Air Force, the Territorial Army and the Merchant Navy and Fishing Fleets.

£22,000,000 Project for the Tana River

PROPOSED BY INVESTIGATING COMMISSIONERS

Detailed Survey Urged

IRRIGATION CANAL ON UPPER REACHES TO WATER 200,000 ACRES

The two Commissioners appointed by the Secretary of State ten months ago to report upon the possibility of agricultural development on the Tana River have issued their recommendations and these were issued yesterday.

The expedition which carried out its very difficult country recommends that a detailed survey be carried out during the next six months, the object of the survey being to supply water by irrigation to an area of over 200,000 acres on the upper reaches of the Tana.

The estimated cost is roughly two million pounds and includes an irrigation canal over 100 miles long.

The Commission consider that they have made out a prima facie case for such a project which would, however, take ten years to complete not including a preliminary survey of three years. The view they take is that having in mind the serious threat due to overstocking Kenya must have regard to the future and the Tana River is the best asset the Colony possesses.

The following article, the first of two, dealing with the very interesting information regarding the Tana River, its possibilities and the expectations of the Commissioners.

The River and its People

The Kenya Government has been for some time addressing the Tana River to the Secretary of State by Messrs. D. G. H. Murray and G. S. Thompson, who were the members of the expedition which was sent to the Tana River in 1931. It is now known that the Tana River is a most important water supply in the East African continent. It is the only river in the East African continent which is navigable for a distance of 1000 miles. It is the only river in the East African continent which is navigable for a distance of 1000 miles. It is the only river in the East African continent which is navigable for a distance of 1000 miles.

The Commission provides some illustrations of transport facilities. For instance, the journey from Mombasa to the river is 110 miles as the crow flies or 275 miles by the winding of the river. The Modern Way

In their introductory chapter the Commissioners remark that modern transport facilities have revolutionized the life of the people. They say that the Commission covered in three months. The most of the work was the survey and the motor trip. The Commission covered in three months. The most of the work was the survey and the motor trip.

Britain's Attitude to European Situation

SIR JOHN SIMON'S WARNING AGAINST WAR COMPLEX

Marseilles Telegram

NATIONS NOW REALISE VALUE OF FRIENDLY CONSULTATION

In a speech at Northampton, Sir John Simon, the Foreign Secretary, referred to the assassination of King Alexander of Yugoslavia and M. Harbord, and to Britain's attitude towards the European situation.

He appealed to people not to regard these murders as a repetition of the Sarajevo tragedy of 20 years ago, and emphasized that times had changed since then, and nations were realizing the futility of war as a method of settling international differences.

The value of the League of Nations, he said, was not to be measured merely by making a list of its concrete successes and failures, but by realising how much it contributed to the cause of good understanding.

Not Another Sarajevo

It is inevitable, when the shocking news first reached the ears of the public, that many should be reminded of the Sarajevo tragedy of 20 years ago, and should ask themselves whether this was once again a new Sarajevo.

"I cannot too strongly state that the two cases do not provide a parallel, but that the event itself involved a far more complex situation than the Sarajevo tragedy of 20 years ago.

"Nothing of this sort can happen again, but it is inevitable that the event itself involved a far more complex situation than the Sarajevo tragedy of 20 years ago.

CEREAL MARKET REPORT

Steady Decline in Prices
Values

LIMITED WHEAT DEMAND

The following weekly cereal market report has been issued by the Kenya Marketing Association (K.M.A.) during the past week there has been a steady decline in the value of most of the cereals market. Sales have taken place at an low level for about 2000 tons. This fall in value, in large measure, is due to the heavy arrivals in Europe and Continental ports and reported lack of storage capacity in the East African countries.

South Africa is being denied for the most part and volume trade, less in spite of her offer to open the market buyers' stores who declined very readily, and at the present time there is a considerable surplus of wheat and millers and those which buyers are willing to give.

Both the United Kingdom market and those on the Continent show little interest, even at the low prices being quoted. South African wheat is thought about 1000 tons for 21/6.

Wheat
During the past week this market has been weak and the demand very limited. Prices are quoted as follows: No. 3 Muntaha is quoted at 27/- with Western Area area of 26/- 1/6. No. 2, 27/- 1/6.

Other Commodities
Rice: Prices on the market are declining, 10/9 for the best grades, 10/6 for the work for Flava crop.

Local Market
Maize: Flava 20/- per 500 lbs. Malesian: Flava 20/- per 500 lbs. Chikanda: Flava 12/- per 500 lbs. Sun Hemp: Flava 20/- per 500 lbs.

Sixteenth Anniversary of the Armistice

EMPIRE-WIDE OCCASION OF SOLEMN OBSERVANCE

The Nairobi Ceremony

A BIG GATHERING AT THE WAR MEMORIALS

Remembrance Day was observed throughout the Empire yesterday with the customary ceremonial.

In Nairobi a huge crowd of all races followed with deep interest the impressive service at the War Memorials which was attended by His Excellency the Governor and a representative gathering.

Among the many beautiful wreaths laid at the Memorials was one "in memory of our dumb horses—the horses killed in the war." A wreath with a similar inscription has been laid for the past four years and represents the personal tributes of a young Nairobi girl.

Many Wreaths Laid

The passing of the year does not diminish the significance and the solemnity of the Remembrance Day Ceremony and although time has passed since the horror associated with the great war in history, it has not lessened the sense of solemnity which surrounds the occasion. The wreaths laid at the Memorials were given all in defence of what they had laid down.

Some again, on the sixteenth anniversary of the signing of the Armistice, gathered in their wreaths and in small groups to pay a tribute of affection to the war dead.

Probably more noteworthy than the flag's dominance in the ceremony of open more than in the striking and solemn theme in the emblem of Kenya Colony. The wreaths laid between the war Memorials—a dignified eye and almost in small groups to pay a tribute of affection to the war dead.

A Colourful Scene Two hours before the time for the "Two Minutes' Silence" that extraordinary mixture of respect and solemnity in Nairobi, the scene was a dignified eye and almost in small groups to pay a tribute of affection to the war dead.

Many Wreaths The East African Women's League Poppy Depot in Harcourt Street, Nairobi, has for several days making wreaths at various places. Delight and joy in the various forms of wreaths.

KENYA PAPER Pulp INDUSTRY

Official Inquiry May Be Made

Reports from London

COST TO BE SHOULDRED BY COLONY

["STANDARD" CORRESPONDENT.] London, Nov. 10. The "Financial News" states that it is probable that the Government will set up a committee of three to report on the relationship between the British Government and the Kenya paper pulp industry, and to indicate whether financial participation is feasible, desirable or possible.

It is reported that a company has been formed to exploit a bamboo plantation of 50,000 acres in the Kiambu district with an annual production capacity of 100,000 tons.

It is current in London that it is probable that £750,000 will be advanced under the Colonial Development Fund, but that Kenya will probably have to shoulder the cost of the official inquiry.

["STANDARD" CORRESPONDENT.] London, Nov. 10. Inauguration of a world representing 25-day Niger Council designed the cooperative system as probably the most important event in Italian history.

The inauguration took place in the Palazzo della Pace, Rome, and was attended by Ministers, Senators and other Black-shirt party members.

The Duce said the council, which belonged to past history and had added to under the Fascist regime, considered all new work fundamental and by any special grade.

It was too early to talk about reduction of wealth. No one should expect miracles from the new system, which would eventually be adopted by all nations because it harmonised discipline and power.

ANGLO-GERMAN TRADE DEBTS

Funds for Discharge Now Available

["BY WIRELESS."] Rugby, Nov. 9. A Board of Trade announcement states that the £400,000 to be provided by the Reichsbank under the Anglo-German Payments Agreement is now available.

Claims will be communicated to the German authorities with instructions as to the order in which payments should be provided. It is expected that the British authorities will require the German authorities to require their debtors to pay to the Reichsbank for the exchange necessary to enable the debtors to discharge.

A committee under the chairmanship of Lord Foster, has been appointed by the Board of Trade (Mr. Walter Huggins) to advise him on the subject.

It is understood also that the Board of Trade will be given special consideration by the two governments. For the time being details of the details are being given by November 20.

TO VISIT E. AFRICAN PORTS

["STANDARD" CORRESPONDENT.] London, Nov. 10. In connection with the loan regarding which Major Cordell wrote officially to the Director-General of Trade for the Colonies, the Rt. Hon. the Earl of Plymouth, on November 2, pointing out that the present position was the same as in September, when Sir W. O. Renshaw, Assistant Under-Secretary of State for the Colonies, threatened prohibition, requests have been asked to the Board of Trade.

It is understood also that the Board of Trade will be given special consideration by the two governments. For the time being details of the details are being given by November 20.

["STANDARD" CORRESPONDENT.] London, Nov. 10. The former Chief of Police at Berberia, Arturo Menéndez, has been arrested in London. He is among six Catala fugitives who have arrived here.

Britain's Continuous Efforts for Peace

DISARMAMENT BY EXAMPLE NOT EFFECTIVE

Defence Requirements

ADDRESS BY PREMIER AT LORD MAYOR'S BANQUET

In a survey of world affairs in a speech at the Lord Mayor's banquet, the Prime Minister, Mr. Ramsay MacDonald, referred to the British Government's continuous efforts for the preservation of world peace. No nation, he said, challenged Britain's position as the most consistent and dependable of peace makers.

He expressed disappointment with the results of the Disarmament Conference thus far, adding that Britain's experience had proved that in the present state of mind of the world disarmament by example was not an effective way to reduce arms or increase international confidence.

Unemployment Reduced

["STANDARD" CORRESPONDENT.] London, Nov. 10. For the first time in the history of the Lord Mayor's banquet the Lord Mayor, Sir Charles Collett Kt., was in the presence of the Disarmament Conference he said Britain's experience had proved that in the present state of mind of the world disarmament by example was not an effective way to reduce arms or increase international confidence.

whirlwind love of that fascinating rogue, Colonel Blood, who stole the Crown Jewels and had a pardon granted him for his services in the rescue, drama and comedy mingled in a tale of the most famous "rough and ready" trait in history, which was shown here some time ago.

"The Queen's Husband"

REFRESHINGLY are well under way for "The Queen's Husband" which Mr. A. J. Master is producing in Nairobi on the night of Monday, 12th, and the three subsequent nights.

Wireless Cinematography

SHORTLY after the great air race was flown a few weeks ago a film showing the arrival of Lord and Campbell Black in Melbourne was transmitted by English wireless and was shown in a 15 day cinema. This film, the first of its kind, is the work of the British company of Cable and Wireless Ltd. Each shot of the film had to be transmitted separately. This was not the case of the unfeeling transmission when it is understood that for every second's shooting on the screen there are twenty pictures passing before the lens of the projector. Each of these pictures took just over half an hour to transmit from Melbourne to Moore Park, and the pictures when received measured ten by eight inches.

Re-photographed

Re-photographed by a camera operator and reduced to the smaller size required by the standard cinema projector. In order to secure perfect timing in projection when the film shown in England, not only the image taken by the cinema camera but also the sprocket holes of the film showing the sprocket holes on the sides had to be re-photographed. It is appropriate that the first success in such a tremendous step forward in the art of cinema photography should have been with the transmission of an event such as the Melbourne air race.

Newsreels

WHILE the newsreels have been more or less the same as of late, it is noticeable that the number of newsreels shown in Nairobi has increased. This is due to the fact that the newsreels are now being shown in Nairobi on the night of Monday, 12th, and the three subsequent nights.

British Legion Ball

THE New Stanley Hotel was thronged on Friday night when the Women's Section of the British Legion held their Japanese Ball. The lounge, entrance hall and ballroom were attractively decorated with lanterns, scrolls and crests of Japanese lanterns which were more effective against the green foliage. A charming incident was the appearance on the balcony of the balloons overlooking the ball room of a troupe of little girls, wearing very kimono and flowers in their hair. Mr. Elliott, Mayor of the town, presided at a party which consisted of Dr. and Mrs. Macfarlane, Captain and Mrs. Trevor Dyer, and Major and Mrs. Wells.

Real Drama

"COLONEL Blood is one of the best known romantic figures in history. Of the film it can rightly be said that it is a vivid event such as the Melbourne air race.

Freedom of the Sea

IF the picture painted in "The Midshipmaid" were true life an ocean war would be a jolly affair. But it is a tragedy, and an amazing tragedy. The little boy and girl who are the heroes of the picture are the only ones who are left alive. The picture is a masterpiece of realism. It is a masterpiece of realism. It is a masterpiece of realism.

of these stock movements by the denaturation of food water, which is not only a health hazard, but also a business one, and the fact that the number of stock routes. It is quite obvious that whatever the cause of the denaturation of water, it is a major problem for an artificial water supply, and should be taken to try to avert such a catastrophe. The fact that there is a large area of adjacent land through these mountains, and the fact that the Kenya Land Commission was so fully cognizant of the possibilities of the problem of other and more accessible reserves than to time was not, unfortunately, the result of the conditions of the Tana river. There is a serious water shortage. Expedition has been sent for the purpose of investigating the saloma warning of the grave possibilities of further denaturation of water in the future. The report of overstocking. The one important point in the Commission's report deals with the controlled development and improvement of the rice growing industry and the Commission have made simple and easy suggestions which are well applied without any great expenditure of money. Whether the country would be justified in arranging to carry out the proposed reclamation of the upper reaches of the river with the object of providing water for the people, it is a matter which, regrettably, may never be in its possession. It is a certainty that the longer it is delayed, the greater will be the damage. The Government should not doubt now merely to add this thoughtless if somewhat sterile, uncontrolled and uncoordinated increasing price of expert advice for which the country has paid, but to be able to do so, it is necessary to have a plan, and the door at least left open during the winter when financial prospects are brighter than they are now. The Tana River Expedition

The report of the Tana River Expedition, 1934, is an interesting document, but it is questionable whether it will prove to be more than merely interesting within the local limits. WATER FROM THE TANA RIVER

COMMISSIONERS JUSTIFY THEIR £2,000,000 SCHEME

The Overstocking Danger

...ing in the second (and last) article on the recently issued report of the Tana River Expedition 1934. In the Commissioners' outline their £2,000,000 canal scheme and say that its main justification is the removal of the spectre of future famine now brooding over Kenya.

They laid that the only real remedy of the overstocking problem is to change the habits of the Natives by gradual conversion from a pastoral to an agricultural life. Taking the long view of their proposed scheme for the irrigation of an area of probably 500,000 acres, the Commissioners consider that the Tana River is to-day the most valuable asset that Kenya possesses.

Proposals are also made for the expansion of a promising new growing industry now in existence but requiring help and direction.

The Canal Plans

So far as agriculture is concerned, as carried on by the river banks, the Commissioner has not been able to find from the reports which numerous acres under cultivation which remained so late in the season in several reports that the present methods and heavy watering does not apply to the second and third seasons when the water is in the high flood stage. Crops mentioned in the reports are: (a) upland crops, such as maize, of 100 and 150 acres; (b) lowland crops, such as rice, of 100 and 150 acres; (c) upland crops, such as rice, of 100 and 150 acres; (d) lowland crops, such as rice, of 100 and 150 acres.

The Tana Reach

...ing possibilities of irrigation, the report divides the river into three main sections. The first, extending to about 50 miles from the mouth, is the most fertile and the most valuable. The second, extending to about 100 miles from the mouth, is the most fertile and the most valuable. The third, extending to about 150 miles from the mouth, is the most fertile and the most valuable.

Rice Prospects

The report remarks "The rice area in question (hereafter known as the rice area) is situated in the lowlands of the Tana River and is bounded on the north by the Victoria Nyanza, on the east by the Victoria Nyanza, on the south by the Victoria Nyanza, and on the west by the Victoria Nyanza. The area is bounded on the north by the Victoria Nyanza, on the east by the Victoria Nyanza, on the south by the Victoria Nyanza, and on the west by the Victoria Nyanza.

Water Crop Types

The report states that the water crop types are: (a) upland crops, such as maize, of 100 and 150 acres; (b) lowland crops, such as rice, of 100 and 150 acres; (c) upland crops, such as maize, of 100 and 150 acres; (d) lowland crops, such as rice, of 100 and 150 acres.

The Pokomo Problem

The Commissioner then discusses the Pokomo problem, which is a serious one. He states that the Pokomo are a nomadic people who have been driven from their traditional lands by the expansion of the white settlers. He suggests that the Government should take steps to provide them with land and other facilities to enable them to settle and become self-sufficient.

NEW COTTON GINERY AT KENYO BA.

Under an expansive working programme, intended to be completed by the end of the present session, Mr. Mohamed Khamis, Manager of Messrs. Small and Co. privately in his address of welcome to the history of cotton cultivation and its progress in Kenya and referred to the part played by the ginner.

He recalled the earlier difficulties encountered, such as the insufficiently mixed plants used in the earlier stages of seed cotton due to lack of skilled labor in 1915; and the serious outbreak of the insect fly resulting from the Great War in Europe.

Uganda Matters Mr. Mohamed Khamis went on to describe the happy position of the Uganda Native with his present average level yield of cotton exceeding 20000000 units...

He was satisfied he said, the with the continued help of Government, the able guidance of Agricultural Officers and the goodwill of the cultivators, the present 5,000 acres of cotton in Kenya may well rise to 30,000 acres within five years.

PRIVATE TRADE IN ARMS

Mr. Baldwin alluded to the attention for the suppression of international trade in arms, and mentioned the fact that the Government had notified by the Department of Arms, which he looked back upon with pride. The convention is still waiting to be put into effect...

Mr. Baldwin, concluding the debate, reinforced this contention and made it known that he had no objection to the introduction of arms into Kenya, but that he would be glad to see the Government take steps to control the trade in arms.

He said, "I am glad to see that the Government has taken steps to control the trade in arms, and I hope that these steps will be sufficient to prevent the importation of arms into Kenya."

Armistice Celebrated in British Empire

KING ATTENDS CENOTAPH SERVICE

Enormous Crowd
SIXTEEN YEARS HAVE NOT BROUGHT FORGETFULNESS

As in Nairobi, Armistice Day was observed with due solemnity throughout the British Empire, and in many other parts of the world. His Majesty the King, accompanied by the Prince of Wales and the Duke of York, participated in the service at the Cenotaph in London, the ceremony being attended by an enormous crowd.

Labour Ceremony

[REUTERS SERVICE'S AGENCY.]
His Majesty, who led a full march, and the Prince of Wales and Duke of York, participated in the service at the Cenotaph in London, the ceremony being attended by an enormous crowd.

Throughout the Empire

Observance of the sacred occasion was carried out throughout the Empire. In the British Isles, the Duke of Gloucester dedicated the new national shrine in the presence of the Premier of Victoria, Mr. Argyle, and 30,000 people, including hundreds of soldiers, sailors, and air force personnel.

Union Jack Burned

Arrest from incidents in Dublin, where a Union Jack was burned, and in London, where a Union Jack was burned, and in London, where a Union Jack was burned.

Incidents in India

In Paris, Armistice Day was celebrated with due solemnity. The French Government, led by Premier Schuman, participated in the service at the Cenotaph in London.

Mildenhall-Melbourne Air Race

Mr. and Mrs. Mellish in their De Havilland Comet before starting from the Mildenhall aerodrome in the great air race to Melbourne, England-Melbourne forced them to retire at Allahabad.

The race was won by Scott & Campbell Black in a plane similar to that shown here and it is another Comet that Cathcart Jones and Walker propose to make an attempt on the record for the flight from England to Cape Town, and so that, for the double journey.

DANCE AND CABARET AT KAMPALA

Entertainment in Aid of Poppy Day Fund

["STANDARD" CORRESPONDENT].
 The Kampala society of the Poppy Day Fund Committee staged a dance and cabaret show at the Kampala Club on Saturday evening. There were over 200 people present and a most enjoyable time was spent.
 Mr. Houlton and his "Kabo" musicians provided the music and were on the list of their form from 10.30 p.m. to 4 a.m. The cabaret was a great success. It consisted of six dancing acts which opened the programme at the kit of London trouper boys. They danced extremely well.
 This was followed by George Houlton's series of a topical song. "Do after Day," which he wrote in 1928 and brought up-to-date. Then came the "18th Follies," led by Florence and Florio, and assisted by the strong 10th Terrace and Glaxo. This item greatly amused the audience.
 Mr. Wood gave a ventriloquist act with Mr. Russell (underneath) the table. A fact that was not discovered until Mr. Russell crawled out at the end of the act.
 Mr. Hay gave a very efficient display of aerobics and then came a most exciting and loud-throated ballad which brought the house down.
 The show was wound up by the "Hula-Hula" orchestra and band to reveal their next appearance on the stage on the unusual demand of the audience.
 His Excellency the Governor was present. The whole evening was a great success. It is hoped that a considerable sum will accrue to the fund as a result.

Combermere Handicap, 5 Furlongs

of livestock to enable farmers provide the most economical form of maintaining a natural manner the depleted fertile soil that has reduced successive crop crops. The soil in the region has been highly polluted temporarily by a rain cloud which has been blown from the west. Possibly some movement towards livestock farming in the region has been the supply of dairy produce to London. The Agricultural Board in London, which has been consulted that Kenya is capable of producing dairy produce of a quality and at a cost of production not far from that of Great Britain. This is a view which is very favourably with that of any country in the world. These shows play an important role, though their production and marketing is in the hands of private enterprise. It is to be hoped that the Government will take steps to assist the industry in the future so that the problem of production and marketing of livestock is not too acute.

General Smuts on the Future of Liberty

WORLD ONCE MORE IN THE RE-MAKING

"New Tyranny" Menace

A GLORIOUS OPPORTUNITY FOR THE YOUTH OF TODAY

A remarkable address, which has hailed by sections of the British Press as likely to be numbered among the great utterances of modern times was delivered by General Smuts when he was recently installed Recteur of M. Andrew's University, Scotland.

Choosing as his subject, "The Future of Liberty," General Smuts made some significant references to the trend of European politics and stated his views on the dangers ahead as he sees them. "The scaremongers," he said, "are doing their best to create a war atmosphere and are thereby doing very serious mischief. But in spite of them and of the present lamentable failure of disarmament, in spite also of individual and his replacement by a severe masculinity in and spirit of various colours, I do not find the real war temper anywhere."

Discounting the serious risk of war in the near future, General Smuts, however, pointed to "a far more serious danger... the decay of the individual's responsibility and share in government, the loss of his grip on the roots of our human advance... The disappearance of the sturdy, individual-minded, freedom-loving individual and his replacement by a servile mass mentality is the greatest human menace of our time."

Continued Progress at Amani

THE NEW COFFEE EXPERIMENT STATION IN BEING

Perverse Trees

ATTEMPTING TO PRODUCE A SISAL OF FINER FIBRE

The Annual Report of the Amani Research Institute is as usual a very interesting and important publication and it is the Director's point of view that the sections reported show that research work has continued to make steady progress. The one thing that he writes, he says, is a lack of continuity.

A well-prepared scheme to confirm theories formed regarding virus-bearing and the black in coffee was defeated by the persistence of the selected trees in carrying a heavy crop to maturity in defiance of confident expectations on the intrinsic climatic factors. Coffee plantations is stated to differ in so many respects from normal anticipation as to provide immediate justification for further research.

Experiments are being carried out with a view to producing a hybrid sisal of finer fibre than that at present grown in East Africa.

Soil Problems

The 1954 annual report of the East African Agricultural Institute shows that the Amani Research Station has been in operation since April 1, 1954, and that the Director, Mr. W. S. Newell, has been in charge of the station since that date. The station is situated on the slopes of the East African Rift, and the soil is of the volcanic type. The soil is very fertile, and the climate is very hot and humid. The soil is very fertile, and the climate is very hot and humid. The soil is very fertile, and the climate is very hot and humid.

COMMONS QUESTIONS

Government Facilitating Selection

REINFORCING THE SAAR POLICE

Members of all parties eagerly questioned Mr. Ramsey MacDonald in the House of Commons regarding a statement in a morning paper that the Government was actively recruiting ex-officers to reinforce the Saar police during the plebiscite.

Mr. MacDonald explained that the League Council had requested 500 members of the League to facilitate the work of the Saar Governing Commission in re-organizing the police in the Saar territory during the plebiscite. A number of applications had been received from ex-officers and were forwarded to the Saar Governing Commission after a preliminary enquiry into their ability to perform the duties of the police.

He declared that the allegations that either the Foreign Office or the War Office was secretly recruiting men was absolutely untrue. Mr. MacDonald reassured Mr. George Lansbury (H. Poylar) that Britain was not responsible for the men who had been recruited.

The Government was simply facilitating as a member of the League, and the Government was not recruiting volunteers and the Saar Commission.

CENTENARY HELPS TRADE

The Melbourne Centenary Committee with Australia's necessary, has given not only a strong impetus to the centenary celebrations, but has helped to reduce unemployment as well.

According to the "Austral News," the lowest month for building for two years, by October for 1955 new buildings were started, compared with August 1951.

Applications show that September applications for building permits were higher.

Unemployment registrations in Melbourne were down to 17,000 in July 1952, down from 43,000 have been reduced to just over 30,000.

General Smuts Surveys European Situation

General Smuts deprecates mischievous war talk, stating that the expectation of war in the near future was sheer nonsense. However, it was true that the fear had become a real driving force in European politics.

Germany he declared, was obsessed by an inferiority complex which was poisoning its mind. The only way of removing this disability was to recognize her complete equality of status with her fellows.

Turning to the Far East, he appealed to Japan to pause before endangering the collective system, and to the west to avoid even the appearance of antagonism between East and West. He also urged closer co-operation in the future between Britain and America.

Beautiful Miss EVELYN LAYE,
 the Star in the Film "Wahne"
 "Times" writes:
 "I should find stage work quite exhausting at times if it were not for the invigorating help of Proferine to me. It builds up all the faded and fatigued condition, and I feel as fresh and bright as I could desire. I am sure I am able to enjoy tennis and golf so much because Proferine seems to really rest the system and ensure the extra energy and strength to get the best out of work and leisure."

NOTES FOR WIRELESS FANS

This paper, devoted to the interests of Wireless is compiled by "Aerial," a licensed experimenter with a wide knowledge of East African conditions.

Theory and Practice

SEVERAL times lately I have been asked by people who have been doing a little experimenting on their own, whether in the practice of a theoretical or practical theory, or whether in the practice of a theoretical or practical theory, or whether in the practice of a theoretical or practical theory...

One in Point A case in point occurred recently when, writing on my advice, a listener added an extra aerial...

However, he decided to put up with this and went off to bed the following morning. I warned him that owing to the losses incurred in the construction of the aerial, he would be quite so sensitive as before...

What had happened was that in order to secure a reasonable degree of selectivity the original arrangement of a high aerial...

COFFEE PRODUCTION IN UGANDA

First among them he places the need for every effort within the planter's power to take full advantage of East Africa's climate...

Not Practicable

In his view, however, the proposals were unrealistic and the production of practical application...

Artificial Measures

He was convinced that artificial measures usually created more problems than they solved, and consequently that trade was best left to follow its own natural course...

Old-Established Firm

Messrs. Edin. Scholier and Co. were established in 1859 and have specialised in the distribution of coffee and rubber for over half a century...

Mr. Scholier looks forward to returning to London via the Nile route, calling upon different friends on the way.

NATIVE'S ROSE TO GET METHLATED SPIRITS

Overseas Secretary Kalindi Mr. Kamah, a Kilguy, was recently Magistrate, Nairobi, with jurisdiction over the district...

Remain Suspicious

It was on that date, without any notice, that the shop was closed...

Comparison Made

The specimens were mere or less components of, or emblems of, most of the words of the call.

Swahili Examinations

Higher standard examinations in Swahili will be held at Nairobi on Monday, March 4, 1962, and the other standard examinations...

Two little girls, Barbara and Betty Haines aged three and two respectively, had an amazing escape from death when a railway train passed over them.

TANGANYIKA COFFEE

"Crop" Associations In their report, the sub-committee of the Coffee Advisory Board discovered any suggestion of breaking up existing bodies such as the Convention of Associations or any such planters association...

All Races Represented

The remaining members of the Board will be made up from "natives" not formed through the Coffee Association, to the Governor and representing every coffee growing area in the territory.

Government Content

These proposals have received the content of Government, and now be thrown open for discussion by the Convention of Associations and other bodies in the territory having interests in coffee production.

Spirit of Co-operation

It is pleasing to recall that, with one or two minor alterations, chiefly of phrasing, the report containing the proposals of the sub-committee of the Coffee Advisory Board has been adopted by Government and the proposals were unanimously approved at the recent meeting in Mombasa.

BRITISH ISRAEL NOTES
