TWO REPLIES TO MR. BEVAN

'Not fair shares' claim discounted

Both Britain and the United States, spokesmen have both made a discount of the claims of Mr. Anthony Bevan, a resigning high post in the Cabinet, that Britain could not achieve her rearmament programme without damaging her economy and that America was not allowing the United Kingdom her fair share of raw materials.

In London, Mr. Herbert Morrison, the Foreign Secretary, told the American Chamber of Commerce that he was confident that the United States would not be short of sufficient raw materials to maintain her economy.

In Washington, the Secretary of State, Mr. Cordell Hull, told the American Chamber of Commerce that he was confident that the United States would not be short of sufficient raw materials to maintain her economy.

FOOTBALL TOURS OF THE COLONY

Forthcoming visit by University side

In pursuance of the policy of inviting prominent football teams to tour the Colony, the Football Association of Kenya has received its earlier arrangements for a tour by the highly successful London University Soccer side to take place from August 1st to 15th September this year.

All that is now required is the formal permission of the Amateur F.A. of Britain, a requirement designed to prevent any possible expense resulting from bringing into disrepute the standard of English football.

The arrival of the necessary permits for the tour can be regarded as a matter of course for the University side only, as it is a well-known fact that the University of London's soccer is a standard of world-wide fame. The tour is expected to last for two weeks, and will cover the whole of Kenya, as well as some of the surrounding territories. The tour will also include a number of matches against local and provincial sides.

It is hoped that the tour will be a success, and that it will do much to promote the game in Kenya and throughout the Colony. The tour will also include a number of matches against local and provincial sides.

Financial aspects

Although the University side is expected to be a success, it is hoped that the tour will do much to promote the game in Kenya and throughout the Colony. The tour will also include a number of matches against local and provincial sides.

LONELY DAYS IN THE LIFE OF A DOG

Lonely days in the life of a dog are those when he is left alone in the house while the family goes out. The dog is usually left in the kitchen or the living room, and he usually looks very sad. He usually sits on the floor and looks at the door. He usually barks and howls. He usually looks very sad.

Healthy teeth kept healthy because Kolynos foam cleans ALL BETWEEN

It's even as well that danger lies. That's where bacteria multiply and go to work—especially the acids that cause decay. "Kolynos" foam penetrates straight to the danger spots. "Kolynos" foam contains special ingredients that neutralize the acids, destroy bacteria. Recent laboratory work has proved that "Kolynos" cleans up to 95 per cent of harmful bacteria. "Kolynos" helps to keep teeth healthy—keeps them whiter and cleaner.

NAVY SEEKS 'ELUSIVE PIMPERNEL' OF THE SEA

THE Navy's latest survey ship, H.M.S. Cook—commissioned in 1947 at the end of the war—has an important first assignment. She is to scour the Atlantic for an underwater volcano, a gigantic crack in the sea-bed, that scientists feel may be the indirect answer as to why fishing grounds off Britain's coasts have become steadily less prolific during the past 20 years.

Experts' theory
Experts believe that these fishing grounds have been affected by their "pinker" nature as a result of the volcanic activity which has taken place in the past 20 years. The volcanic activity has caused the sea-bed to rise, and this has caused the fishing grounds to become less prolific.

Report on Kikuyuland

3. WORK AND THE PEOPLE

COMMUNAL labour, whether as part of the normal life of the community or for special public purposes, such as the making and maintaining of highways, has been a customary duty in many lands. It was, indeed, a statutory obligation in England until 1835 and in Scotland until 1843.

The use in Kikuyuland of this expression to connote development schemes, which, though Provincial Land supplies have been exhausted, is a clear indication that the State is not prepared to supply the land which is needed for the growing population. It is a clear indication that the State is not prepared to supply the land which is needed for the growing population. Cost of Living

To the Editor, The East African Standard, Nairobi.

The cost of living in Kenya has risen sharply in recent months, and this has caused much concern among the public. The Government has taken steps to control prices, but these measures have not been sufficient to bring prices back to a reasonable level. It is hoped that the Government will continue to take steps to control prices, and that the public will be able to afford the necessities of life.

Q HOW CAN CATARRH OF THE DIGESTIVE ORGANS BE RELIEVED?

Because Angier's Emulsion softens and cleanses the mucous membrane, allays irritation, catarrh and ulcerations, it can be used with every confidence. In addition, its anti-fermentative action throughout the digestive tract restores tone to all functions of assimilation. Angier's — a most palatable emulsion — gives strength to the entire system and also promotes normal healthy action of the bowels.

American lines increase East African sailings

TWO U.S. shipping companies, the **Bohin Line** and **Farrel Lines**, operating between U.S. Atlantic ports and South and East African ports, are improving their services, it is reported in Cape Town.

According to **Bohin** management, its line will provide three monthly sailings to East Africa, with two as at present, and each will visit 10 ports in the East African region, including the regular line to the East African ports, which will start on May 28, with the African Star.

A ship a week

For some years, both companies have been operating between South Africa and East Africa, but in the last three years they have increased their frequency of sailings. The **Bohin** line has increased its sailings from one to two a week, and the **Farrel** line has increased its sailings from one to two a week.

Mr. S. J. Madock, Vice-President of the **Bohin** Line, said that the company was expanding its service to East Africa, which was the main reason for the increase in sailings. He said that the company was also expanding its service to South Africa, which was the main reason for the increase in sailings.

The immediate prospects for Kenya sisal industry are bright!

At the annual general meeting of the Kenya Sisal Growers' Association this week, **Mr. J. L. Blowers** in the chair, the annual report was adopted. It showed that the Kenya total of 3,110 tons.

"The immediate prospects of the industry appear to be bright and from world statistics not only until 1952-53 but production exceeded demand to any appreciable extent. The reason for this is that the world market is still in a state of depression, and it is expected that it will continue to be so for some time to come. It is therefore expected that the industry will continue to be in a state of depression, and it is expected that it will continue to be so for some time to come.

ELBURGON EMPLOYER APPEALS

Supreme Court fixes lower fine

THE Supreme Court in Malindi on Tuesday delivered judgment in six appeals by Mr. J. Pereira, manager of the Gilgoin Sawmills, against conviction and sentence on charges brought by the Labour Department.

On four of the appeals Mr. Pereira had been fined 200 or four months imprisonment or both on account of failure to provide a reasonable amount of housing for his employees; but in each case, fined 100 employees, and secured 2000 sq. ft. of housing for 2000 employees on a plot of 2200 or 2500 acres and eight months imprisonment.

The court upheld the conviction, but said that the fine should be a penalty in respect of each named employee. Instead that constituted a penalty of 500 shillings or four months, a total of 400 or four months.

One allowed

The fifth appeal, against conviction for failure to provide a reasonable amount of housing for his employees, was dismissed and the sentence of imprisonment in respect of each named employee was allowed.

The sixth appeal was allowed in that the court, taking account of the fact that the appellant had on his own plot the world he was alleged to have failed to provide a reasonable amount of housing for his employees, but that there was no evidence that there was no need for any other housing for his employees employed was found in fact a child.

NAKURU NOW HAS 'FINEST POST OFFICE IN COUNTRY'

Extensions provide for years ahead

NAKURU'S Post Office is the finest in East Africa, claims Kenya's Regional Director. It is the most modern and best equipped post office in the country, and is the largest in the region.

The post office is located in the heart of Nakuru, and is a landmark building. It was built at a cost of 100,000 shillings, and is one of the most expensive buildings in the region.

The post office is a fine example of modern architecture, and is a credit to the Kenya Government. It is a well-planned and well-equipped building, and is a pleasure to use.

Avoiding congestion

At the moment, it is not only the main roads but also the side roads that are congested. The government is taking steps to improve the roads and to avoid congestion.

The government has decided to build a new road, which will bypass the congested area. This new road is expected to be completed in 1952.

The government is also taking steps to improve the existing roads. This includes widening the roads and improving the drainage system.

At Gilgit, too

At the time of the opening of the Gilgit road, the government was faced with the problem of providing a good service to the people of Gilgit. The government has decided to build a new post office in Gilgit, which will be one of the finest in the region.

The new post office is located in the heart of Gilgit, and is a landmark building. It was built at a cost of 50,000 shillings, and is one of the most expensive buildings in the region.

The new post office is a fine example of modern architecture, and is a credit to the government. It is a well-planned and well-equipped building, and is a pleasure to use.

THE E.A.S.P.C.A. APPEALS FOR MORE SUPPORT

THE East African Society for the Prevention of Cruelty to Animals, in an appeal for more support, points out that the society has been established for many years but up to comparatively recently its existence was precarious, owing chiefly to lack of public interest.

The society has been established for many years, and has a long and distinguished history. It has been successful in many of its campaigns, and has helped to improve the lives of many animals.

The society is currently facing a financial crisis, and is appealing for more support from the public. It is asking for more donations and for more people to join the society.

THE KEY TO BEING WELL DRESSED

By Dorothy Barkley

What has changed since the fashion revolution of the 1950s? It is proper to go back to the past office worker's uniform and high-heeled shoes. They may seem like a step back in time, but they do represent a change in fashion. The principle of the matter is that in 1951, it is the accuracy of the measurements that is the key to being well dressed and wearing a uniform.

The correct dress, illustrated here, is not only a matter of style but of practicality. The practicality of the dress is the key to being well dressed. The dress should be made of white material without any frills or trimmings, and it should be simple and unadorned.

Belts and buttons. The same designer who is known for his simple and unadorned dresses, also designs belts and buttons. The belts are made of white material and are simple in design. The buttons are also simple and unadorned.

Shoes make all the difference

THE shoes we wear make the greatest difference to our outlook. No! A right shoe often results in a red nose. It is the shoes that make the difference. The shoes we wear make the difference to our outlook. No! A right shoe often results in a red nose. It is the shoes that make the difference.

Spoke the truth. My wife says that in a London shop she saw a pair of shoes with a very high heel. She said that she had never seen such a pair of shoes before. She said that she had never seen such a pair of shoes before.

Feeling is against the forward tilt

THE wholesale hat manufacturers in England were considerably perturbed to find that women persisted in their wartime habit of going bareheaded.

Writing from London, ELSA M. SANDERS sends word of the latest fashions in hats. The new hat is a simple and unadorned hat. It is a hat that is made of white material and is simple in design. The hat should be made of white material without any frills or trimmings, and it should be simple and unadorned.

For the elderly

FOR fashion-conscious elderly women, also called 'young women' who look well and shabby and a smart summer hat is the key to being well dressed. The hat should be made of white material without any frills or trimmings, and it should be simple and unadorned.

ENERGY on the track

Doctors and sportsmen alike need optimum qualities for success in their sports. All succeed or fail according to the response of their hearts, muscles and legs under maximum strain. The key to being well dressed is to have a heart, muscles and legs that are in good condition.

TENNIS FASHIONS BECOME MORE FEMININE

As all the world knows, a little bit of lace on a pair of white tennis pants, brought a certain fame to Gladys Hales, the New York and Teddy Tanning designers.

Elso M. Sonders' London - often talks of Colonel Tinning's "export only" designs in tennis clothes.

Who knows the usual outfit of a tennis player? It is a pair of white shorts and a white shirt. The shorts are made of a light material, and the shirt is made of a light material. The shorts are made of a light material, and the shirt is made of a light material.

Various designs

For travelling, an ideal dress was a white jersey, long-sleeved, with a collar, and a pair of white shorts. The jersey was made of a light material, and the shorts were made of a light material.

Give them leadership and they'll respond

By Rabina Wright

NO ALIENS were apt to accept the sentiments of the late Mrs. Hurdell. "Lead Africa!" "Teach them?" Why, that's a job politicians and missionaries are for us!

ONE OF BRITAIN'S FINE GOR-RAY SKIRTS
A special feature of every well-made skirt is the quality of the fabric. It is the quality of the fabric that makes the difference between a good skirt and a bad one. It is the quality of the fabric that makes the difference between a skirt that will last and a skirt that will not. It is the quality of the fabric that makes the difference between a skirt that will look like new and a skirt that will look like old. It is the quality of the fabric that makes the difference between a skirt that will give you the most pleasure and a skirt that will give you the least. The Nakuru boiler breakdown may be used to replace the boiler when it arrives at Nakuru Gash Station.

GIANT BOILER REACHES NAKURU TEXTILE PLANT

TRANSPORT operators from Nairobi to Scotland to Nakuru in Kenya are rubbing their hands with satisfaction and breathing sighs of relief for one of their biggest hauls—a 600-ton boiler—has completed the 7,000-mile journey only one day late.

It is estimated that the boiler, one of the largest ever imported into East Africa, will be in operation within about two weeks' time.

Made by the well-known firm of Cochran and Co., American, the boiler stands 15 ft. 6 in. high, is 8 ft. 6 in. across, and has a capacity of about 100 tons. It is further 50 ft. long. The boiler is equipped with a steam engine, a pump, and a boiler, and is also equipped with a boiler, and is also equipped with a boiler.

COTTON EXPORT TAX WILL GO TO GENERAL REVENUE

Tanganyika reply to ginners' queries

"Ginners' CONGRESS" DELEGATES IN TANZANIA have been assured that the Government will not use the cotton export tax to fund a special fund for the benefit of ginners.

This statement is made in a letter sent to the Tanganyika Ginners' Association by the Acting Member of Parliament, Trade and Commerce, Mr. J. G. G.

The letter is in reply to the three queries put to the Government by the Association and the Eastern Province Ginners' Association at their meeting here on May 4.

The first query was: "Will the Government use the cotton export tax to fund a special fund for the benefit of ginners?"

The second query was: "Will the Government use the cotton export tax to fund a special fund for the benefit of ginners?"
