BRITAIN'S DOLLAR RESERVES DWINDLE

Adverse imports-exports gap

'INCREASING DIFFICULTIES' AHEAD, WARNS MR. GAITSKELL

GIVING a mid-year review of Britain's financial position, Mr. Hugh Gaitskell, Chancellor of the Exchequer, today said a Press conference that in the first five months of 1951 there was an adverse gap of £400 million between imports and exports—more than twice the amount of the Government's financial reserves.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

200-million gap

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

MR. TRUMAN HAS HIS DOUBTS

Peace may come to Korea, but...

IN a speech to mark America's Independence Day, President Truman said it was still too early to say whether the Communists really wanted peace in Korea. But even if peace did come, the world faced a long period of great international tension, he said.

A Korea settlement would be a step towards the general peace, but it would not be a step towards the general peace, he said.

Attack on freedom

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

PERSIA OFFERS WORLD OIL AT CUT PRICES

Hague Court gives decision

IN a bid to attract countries, Persia yesterday offered to sell the world's three great oil fields under a new contract to the Middle East. Mr. Nassefollah Ardalan, a member of the Persian Oil Commission, said that the offer was made to the Hague Court.

The offer was made to the Hague Court, he said.

Agreement on cease-fire talks reached

GENERAL BIDWAY, United States National Supreme Court Justice, yesterday accepted the Communist proposal that preliminary talks should be held in Korea on Sunday.

The proposal was accepted, he said.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

PRINCESS TO VISIT CANADA

Accompanied by Duke of Edinburgh

THE Canadian Prime Minister, Mr. Louis St. Laurent, has announced that Princess Elizabeth and the Duke of Edinburgh will visit Canada in October.

The visit was announced, he said.

'Delighted'

"All Canadians will be delighted that the Prince and the Princess will visit Canada and will give the view of the people of this country," said the Prime Minister.

The Prime Minister said, he said.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

LAND POLICY IN TANGANYIKA

Increased production 'vital'

A DETAILED statement of the land policy of the Government of Tanganyika has been made in a letter from the Member of Council who criticized Governmental policy and in particular expressed concern in regard to the extent of food production on the Territory.

The Government spokesman said that the Government is determined to increase production in the Territory.

Further projects

The Member goes on to say that the Government is determined to increase production in the Territory.

The Government is determined, he said.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

United States Roll of Honour

GENERAL DWIGHT EISENHOWER has announced that the British case of Roll of Honour of the United States Government will be presented to the British Government.

The case will be presented, he said.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Mr. Gaitskell said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950. He said that the Government's financial reserves at the end of the year would be £1,000 million, compared with £1,400 million at the end of 1950.

Japanese Peace Treaty draft circulated

THE draft of a Japanese Peace Treaty has been circulated to the British and American Governments.

The draft was circulated, he said.

UGANDA COFFEE GROWERS HARD HIT BY THIEVING

Year's losses estimated at £200,000

It is estimated that £200,000 worth of coffee estate owners through-out the country are being practically powerless to stop. One group of estates alone believes that fully 100 tons of coffee will have to be written off as a total loss. That, in terms of the present high price for coffee, means a loss of £18,000.

The indignity that has been done to Uganda's coffee growers is that they are being robbed of their crop by thieves who are stealing it in a most organized manner. The Uganda Estates Limited, which is the estate in the region of Kampala.

Now they must obey letter and spirit

OWING to the fact that certain members of the Uganda Legislative Council have been asked to obey the letter of the law, the Uganda Estates Limited has published in the Uganda Gazette a notice which is intended to inform the public of the law and to request them to obey it.

The notice is in the following terms: "I, the Secretary to the Uganda Legislative Council, have been asked to obey the letter of the law and to request them to obey it."

One-third

"We expected to produce about 300 tons of coffee this year, but now we fear that we shall produce only one-third of that amount."

That he said in terms of current crop of £18,000 worth of coffee. He pointed out that it was extremely difficult to estimate the present year's crop because of the losses and it was very far from the 300 tons which he had expected to produce. He said that he was sure that the crop would be about one-third of that amount.

A way round

It appears that the Government is considering a way round the problem of coffee theft. It is suggested that the Government should take steps to ensure that the coffee growers are able to produce their crop without being harassed by thieves.

Watchmen suggested

Mr. Simpson thought that the only way in which a majority of protection could be afforded for the large number of watchmen. Even that he said would not be satisfactory in view of the difficulty in Uganda of obtaining the right kind of man.

Zanzibar fixes new prices for cloves

From payable by the Zanzibar Government for cloves and cloves stems have been fixed for the season 1951-52. It is to be in force from 1st July 1951 to 31st July 1952.

of political issues than the reinforcement of economic strength and stability and practical co-operation which would follow from successful completion of early closer relations.

Mr. Lipscomb who confirmed the information that the total capital requirement of a million pounds, £1,000,000, and £2,000,000 to establish an industrial estate on the question of providing further capital for the settlement. Funds is under consideration. There should be no delay in making the first instalment made by the Member for Agriculture respecting the Highlands and bring the empty estate to production means anything at all in terms of public policy, the capital required to make plans work must surely be a first concern of all who have responsibility in the matter.

The Acting Chairman of the Board expressed the view that essential of closer settlement is the provision of a regular supply of cement, farming, wrapping and nails in the stores of the settlement. He also said that the active areas of the settlement should be maintained and improved, everything else there should be secondary.

Mr. Blundell defines goal

KENYA'S POLITICAL JIG-SAW 'SOLVED IN NEXT 25 YEARS'

Mr. MICHAEL BLUNDELL, Member for Kilifi and Acting Chairman of the Kenya European Elected Members, who addressed three meetings in the Trans-Nairobi area this week, expressed the opinion that in the next 25 years Kenya's political jig-saw would be solved.

He held a meeting of the Trans-Nairobi Area which was attended by a white minority among the backward and barbaric people who had been left on one side of the whole development of the African, and that was a real reality. Kenya had had a real reality. The first problem was that the African standards of life were not high enough to produce the wealth by which the African people of Kenya could be improved to the second to produce a responsible African citizen. Mr. Blundell stated that European and African standards of life were not high enough to produce the wealth by which the African people of Kenya could be improved to the second to produce a responsible African citizen.

Britain's failure

One of the greatest failures of the Government in Kenya was its failure to take responsibility for the development of the country. The Government had failed to take responsibility for the development of the country. The Government had failed to take responsibility for the development of the country.

Filling the Empty Spaces

FRIDAY, JULY 7, 1961

The Kenya Chairman of the Settlement Board has written in our correspondence columns that he has had welcome light on the problem of closer European settlement and the attitude of the Government of Kenya. He is a confident and optimistic man, and he has a clear idea of where the obstacles to securing the settlement are.

That is the question which the Government of Kenya, the Kenya National Farmers' Union, every responsible and patriotic organization, every businessman should be dissolving their minds about. It is in this question that the Government of Kenya has a clear idea of where the obstacles to securing the settlement are.

M.P. ASK QUESTIONS ABOUT EAST AFRICA

New malaria control experiment planned

The Medical and Insecticide Advisory Committee of the Colonial Office have recently considered the first of a series of experimental reports in the control of malaria in a large rural area in East Africa. These reports are now being studied in East Africa.

It was stated by the House Committee by the Under Secretary of State for the Colonies that the question by Mr. John Gorton, Chas. Dover, Chairman of the House Committee in Equatorial Africa, was answered by the Secretary being asked to report to the Government of Africa regarding the recommendations of the Conference.

Difficult problem
The most difficult malaria control problem in East Africa was the control of malaria in the Sudan. The problem is a difficult one because of the large number of people who are affected by the disease. The problem is a difficult one because of the large number of people who are affected by the disease.

Protection of roads
After the adoption of the annual report the first question asked during the session was by Mr. Gorton, Chairman of the House Committee, regarding the protection of roads in East Africa. The question was asked regarding the protection of roads in East Africa.

Dollar grants
Mr. Gorton asked what was the amount of dollar grants to East Africa in 1950. The amount of dollar grants to East Africa in 1950 was \$1,000,000. The amount of dollar grants to East Africa in 1950 was \$1,000,000.

Uganda fish prices
Mr. Gorton asked what was the price of fish in Uganda. The price of fish in Uganda was 10 shillings per hundred. The price of fish in Uganda was 10 shillings per hundred.

Regional planning
The chairman then gave a resume of the report of the Regional Planning Authorities which had been submitted to the Government. The report of the Regional Planning Authorities which had been submitted to the Government.

JERSEY CATTLE SHOW AND SALE HELD AT NAIVASHA

Aim is to make it an annual event

NAIVASHA—A surprisingly good show considering that it is a first year, was the president's verdict at the end of the first show and sale of pedigree and non-pedigree Jersey cattle held by the Jersey Cattle Breeders' Society of Kenya at Naivasha on July 4 and 5.

WING-COMMANDER WILLIAMS said that it was his intention to make the show an annual event. He said that the show was a success and that it was his intention to make it an annual event.

Sold for £300
The bull was sold for £300 to Glen Kerr, East Nairobi, and a cow was sold for £100 to Mr. J. H. Williams, Naivasha.

Prices and buyers
Pedigree bulls were sold at £100 to £200. Non-pedigree bulls were sold at £50 to £100. Cows were sold at £20 to £50.

Class awards

BREAK OF RUMPY SKIN DISEASE

Western Highlands areas affected
A disease which has been spreading in the Western Highlands district of Tanganyika, together with the other areas which have been affected by the disease, is now spreading to the Western Highlands district of Tanganyika.

The disease is caused by a virus which is transmitted by lower and the upper respiratory tract. It is characterized by a fever, a sore throat, a cough, a runny nose, and a general malaise. The disease is highly contagious and is spread by direct contact with the infected person or by droplets of saliva.

SUNFLOWER MARKETING SUGGESTION REJECTED

Trans Nzola opposed to present system
A calling for the re-establishment of a sunflower marketing commission, K.P.A. or alternatively the establishment of an open market for the sunflower crop, was declared by a two-Mr. Newson was opposing the present system whereby farmers sell their sunflower produce through a single annual pool held by the K.P.A.

Mr. Newson said the present system was not satisfactory. The farmers had to sell their sunflower produce through a single annual pool held by the K.P.A. This system was not satisfactory because the farmers had to sell their sunflower produce through a single annual pool held by the K.P.A.

Kenya Creameries

To the Editor, "E.A. Standard."

Reading your report of the meeting of the Creamery members of the newly formed Kenya Creameries Board held last week, I am fully satisfied.

If there is anything, it comes from the Creamery on the production side, which is being supported, as usual, by Government. The fact that the Government has not distributed the milk to the members of the Board, but has not done so, is a matter of course. It is not a matter of course, but it is a matter of course. It is not a matter of course, but it is a matter of course.

The Development of Kenya

To the Editor, "E.A. Standard."

Permit me to express my views on the development of Kenya. I am a member of the Kenya Development Council, and I am sure that the views of the members of the Council are of great value to the Government.

The Government has a long way to go in the development of Kenya. It has a long way to go in the development of Kenya. It has a long way to go in the development of Kenya. It has a long way to go in the development of Kenya.

Kenya Creameries

To the Editor, "E.A. Standard."

TRIBES OF THE NORTHERN FRONTIER

The Wanderobo

MERRELL DALTON, who has written during the past few months of the nomads of the Northern Frontier, turns now to a tribe who have broken away from the nomadic environment of their fellows—the Wanderobo, the most skilled of African hunters.

AIR LAND OR SEA AIR TRAVEL can often make the difference between the accessible and the inaccessible. The miles on the land are too far. The miles on the sea are too long. AIR TRAVEL is an air-travel and comfortable and it...

BRITAIN TO CLAIM DAMAGES FROM EGYPT. Sequel to ship's detention.

THE Foreign Secretary, Mr. Herbert Morrison, has said in the House of Commons that Britain would claim damages from Egypt following the boarding of the British steamship Empire Rose.

Mr. Morrison said that the British Government would claim damages from Egypt for the detention of the Empire Rose in the Suez Canal, and that the British Government would also claim damages for the detention of the Empire Rose in the Suez Canal.

Britain meeting demands of Colombo Plan

By J. M. SPEY THE British response to the demand for experts to assist the countries of South-East Asia under the technical co-operation scheme, and for training facilities for men from Colombo countries, have been greater than had been hoped, chiefly through the good will of British officials and the official approach by the British Government.

Since there has for some time been a very heavy demand on British technical resources from annual territories from various parts of the Commonwealth, the Government is providing domestic assistance, which is expected to be increased in the coming year. This has been done both through the Colombo Plan and through the Colombo Plan.

The National Coal Board training scheme, which has been running since 1958, has been extended to include the training of men from the Colombo Plan countries. This scheme provides for the training of men in the coal industry, and is expected to be of great benefit to the Colombo Plan countries.

Trainer facilities

The National Coal Board training scheme, which has been running since 1958, has been extended to include the training of men from the Colombo Plan countries. This scheme provides for the training of men in the coal industry, and is expected to be of great benefit to the Colombo Plan countries.

Northern Rhodesia tackles the problem of motor transport

CONTINUANCE of the general programme of controlled competition is recommended in the Northern Rhodesia Transport Commission report on the motor transport problem.

The Commission stated that it had found that the motor transport industry was in a state of chronic loss and that the Government should take steps to improve the industry.

The Commission recommended that the Government should take steps to improve the industry by:

- 1. Encouraging the formation of transport co-operatives.
- 2. Encouraging the formation of transport co-operatives.
- 3. Encouraging the formation of transport co-operatives.

considered that such a system was essential in order to meet the needs of the population of the major part of the country. It was also pointed out that the Commission had found that the motor transport industry was in a state of chronic loss and that the Government should take steps to improve the industry.

The Commission recommended that the Government should take steps to improve the industry by:

- 1. Encouraging the formation of transport co-operatives.
- 2. Encouraging the formation of transport co-operatives.
- 3. Encouraging the formation of transport co-operatives.

Nakuru junior players show their paces

Third alternative

During the course of its investigations Mr. Nicholson said that four joint transport co-operatives could be formed which would be able to take over the motor transport business of the Territory. He said that the Government should take steps to improve the industry by:

- 1. Encouraging the formation of transport co-operatives.
- 2. Encouraging the formation of transport co-operatives.
- 3. Encouraging the formation of transport co-operatives.

During the debate on the report, Mr. M. M. M. said that the Government should take steps to improve the industry by:

- 1. Encouraging the formation of transport co-operatives.
- 2. Encouraging the formation of transport co-operatives.
- 3. Encouraging the formation of transport co-operatives.

Showground clock as memorial

A memorial clock to be erected in the grounds of the Showground in Nakuru. The clock is to be a gift from the Nakuru Municipal Council.

The conclusions

The Commission set out its conclusions in the report. It recommended that the Government should take steps to improve the industry by:

- 1. Encouraging the formation of transport co-operatives.
- 2. Encouraging the formation of transport co-operatives.
- 3. Encouraging the formation of transport co-operatives.

Government blamed

The Government is blamed for the state of the motor transport industry. It is said that the Government has failed to take adequate steps to improve the industry.

Storage risk allowance

The Government has agreed to allow a storage risk allowance for the export of certain goods. This will help to reduce the risk of loss of goods during transport.

AFRICANS NO LONGER DOUBT VALUE OF DAMS

The Africans are no longer in doubt as to the value of dams. They have realized that dams are essential for the development of the country.

OF DAMS

The value of dams is being recognized by the Africans. They have realized that dams are essential for the development of the country.

Growing maize acreage in the Chwre Valley

The growing maize acreage in the Chwre Valley has increased significantly. This is due to the efforts of the Government and the farmers.

Severe frost

A severe frost was experienced in the Northern Territory. This has caused damage to the crops and the livestock.

Only 15 broke

Only 15 people broke the record for the longest distance run. This was a feat of endurance and strength.

New hospital

A new hospital has been opened in Nakuru. This will provide better medical services for the people of the area.

THE FIRST WOOL SHEEP IN KENYA

By Mrs R. M. Hill

Through some who discovered the sheep which my late husband, the late Mr. H. Hill, was the first to bring to Kenya. It was a cross between a Merino and a Leicester, and was named 'Dorothy'. It was the first of its kind in Kenya and was the first to be shown at the Kenya Agricultural Show in 1948. It was the first to be shown at the Kenya Agricultural Show in 1948. It was the first to be shown at the Kenya Agricultural Show in 1948.

Experience

South Africa for the first time in the history of the wool industry in Kenya. It was the first to be shown at the Kenya Agricultural Show in 1948. It was the first to be shown at the Kenya Agricultural Show in 1948.

New sheep

We should be interested to know how the sheep in Kenya are doing. It was the first to be shown at the Kenya Agricultural Show in 1948. It was the first to be shown at the Kenya Agricultural Show in 1948.

PRELIMINARY PLANS FOR COAST PROVINCE SHOW

Gardening Beneath the Midnight Sun

ALASKA, An Organized Territory of the United States, occupies the north-western part of the North American continent and all the islands near its coast.

Affected by the warm Japanese current, the coastal temperature rarely falls below zero degrees Fahrenheit, and rises to 70 degrees Fahrenheit in the summer.

Plant cabbage

The visit guide to Alaska includes the best places for growing vegetables. It is a good idea to plant cabbage in the coastal areas where the temperature is mild.

Past history

The history of agriculture in Alaska is a story of discovery and adaptation. Early settlers found that certain crops could be grown in the coastal regions.

Always dependable

Public opinion is always dependable. It is a reflection of the needs and desires of the people. In the case of agriculture, it is a reflection of the need for food and fiber.

THROUGHOUT the world, correspondents of Reuters who were working in London, headquarters of the Press Syndicate, were busy gathering news for the day and the night. The news was being sent to the world by the Press Syndicate, which is the largest news agency in the world.

KOREA CALLING

THE United Nations forces have been fighting for a week among 3,000-ft-high mountains in the area of the 38th Parallel. It is familiar territory to many of us for it has been fought over again and again.

The day after the men also found dead tramping feet raising clouds of dust whenever the sun shined, their legs sinking about to the knees in the clinging mud when it rained.

Back with the story

Only the shells from the explosion were left on the hillside above the battle zone. The soldiers were in the order to move a gun, and in a recent time they had their last fight, but almost as soon as they were ordered to move the machine gun of the Communist chapter line.

Little sleep

BACK in October last year, I was in the field with the news of the great battles of the Korean War. I was in the field with the news of the great battles of the Korean War. I was in the field with the news of the great battles of the Korean War.

On foot

EVENTUALLY the truck pulled up and the men got out. They were in the field with the news of the great battles of the Korean War. They were in the field with the news of the great battles of the Korean War.

PORT & SHERRY

Around the World in 21 days...

AUSTIN A40 SPORTS COMPLETE 30,000 MILE JOURNEY 9 DAYS AHEAD OF SCHEDULE!

Across the Syrian and Arabian deserts in the blazing June heat, through India to a race against the monsoon—these were some of the hazards facing a team of Austin drivers when they left London on June 1st to drive an Austin A40 Sports round the world in 30 days. Yet on June 22nd they had completed the journey—9 days ahead of schedule!

AUSTIN—you can depend on it!

WHAT DO YOU RECOMMEND FOR BUILDING-UP DURING CONVALESCENCE?

The problem of building up a weakened system after illness is best met by a course in Angier's Emulsion. After influenza, pleurisy, bronchitis, and similar conditions the building and strengthening qualities will improve appetite, soothe the sore and inflamed airways and give tone and vitality to all the bodily functions.

Angier's IS THE ANSWER

HOW AND WHERE THE B.B.C. TRAINS ITS ENGINEERS

B.B.C. which is probably the largest broadcasting organization in the world needs a large number of engineers to man its many transmitting stations and broadcasting for both day and night. The training of these engineers is the main task of the B.B.C. Engineering Department...

THE THEATRE AT THIKA

ONE does not expect to find Gielgud and Garson on the stage of the Thika Sports Club. But Thika theatre has been much better than to theatre halls to people who live in a country district and I thoroughly enjoyed the Thika Amateur Dramatic Society's interpretation of The Blue Goose by Peter Blackmore...

London did not like the bearded Hamlet

SO the public was right. And the "Times" was writing that the "bearded Hamlet" was a flop. The production at the New Theatre has been a failure. The critics have been harsh. The audience has been small. The production has been a disappointment.

NO GIELGUD BUT THE PLAY WAS GREAT FUN

who goes to playing Gilbert and Sullivan's Gaiety Barons year after year, might suggest that the new production was a disappointment. But the play was a great fun. The production was a success. The audience was large. The critics were kind.

Admiral's widow

Admiral's widow has been seen in London. She is in good health. She is enjoying her life. She is a great lady. She is a great lady.

AIR LAND OR SEA

AIR TRAVEL can often make the difference between the accessible and the impossible. The miles on the land take their toll and time becomes wasted instead of saved. **AIR TRAVEL** is so care-free and comfortable and it's ...

... so much easier to book through

TWENTYONE OVERSEAS TRADING COMPANY LTD.

MAYFAIR: the Playground of the Rich

Like all great cities, London has its imaginary boundaries drawn between the industrial area, the docks, the fashionable shopping centres, the showplaces and the playgrounds of the rich.

The centre of the city covers the district known as the City. It is the heart of the country's business life and the seat of the Government. The City is bounded by the River Thames to the south and the River Fleet to the north. The City is the heart of the country's business life and the seat of the Government.

After lunch in the famous Adam Street in the Bond Street district, the scene changes to the Regency building, Bond Street was first designed to look like the second Duke of Devonshire's town house of 1793 in a group of rich

handed and merchants based by Sir Thomas Bess, who had cut the area in streets. It is the most fashionable shopping centre in London.

Old Bond Street will remain the same as when it was built in 1814 a narrow street with quiet, high quality shops and houses. The old traditions of service are still strictly kept and the quality of the goods is maintained, on many cases by the hands of the first tradesmen to set up in the street.

The pictures on this page are typical of the Mayfair scene.

Ballet dancer Patricia May may be fitted with one of the evening gowns she took on her tour of the U.S. with the Sadler's Wells company. The scene is in the salon of Norman Hartnell, who is conductor in the Queen's

Lane, the western boundary of Mayfair, is noted for its many famous hotels. The scene shows the view outside the Grosvenor Hotel. A customer chooses a gift in one of Mayfair's luxury shops. The scene is in Shepherd Market, with entrances from Piccadilly and Bond Street. You can buy anything from antiques to sabbages - with nothing extra or a pint of beer thrown in.

Soaping dulls hair. Halo glorifies it!

Not a soap, not a cream - Halo cannot leave dulling, conditioning soap film!

Clear fragrance "soft-water" halos - needs no special rinse!

Removes unbecomingly abundant hair from both hair and scalp!

Halo tones hair soft, smoothly - mixing with coloured natural highlights!

You Halo brings glowing natural beauty even to dull, sooty hair. This thrilling new liquid shampoo is used as you would a cream - nothing to dull your hair. Then you color your hair the way you like it, using Halo's specially made, specially tinted Halo from which the Halo hair - America's biggest selling shampoo!

HALO reveals the hidden beauty of your hair!

Mr. Welensky raises two questions

MR. ROY WELENSKY, leader of the Unaffiliated Members of Northern Rhodesia's Legislative Council, said in a London interview that one of the fundamental reasons for creating a Central African Dominion was to put the three colonies in a political position in which they could resist political or economic pressure from wherever it might arise.

The greatest gathering of colonial leaders ever held in London is taking place at present. The visitors are the Prime Minister, the Ministers of the Colonies, the Secretary of State for Africa, and the Chiefs of the three colonies.

Imperial defence

The Prime Minister's speech on imperial defence policy at the House of Commons on July 17th was a landmark event. It was the first time since the war that the Prime Minister has addressed the House on this subject.

TOLL-FREE BRIDGE MIGHT MEAN COMPENSATION CLAIM

THE LIMITED proprietor of Nyati Bridge, Mombasa, has indicated that construction of a toll-free bridge by the Government to link Mombasa Island and the mainland will constitute a breach of the concession under which Nyati Bridge was built, and that accordingly they will be entitled to claim compensation.

This contention is contained in a statement which has just been issued by the Board of Directors of Nyati Limited.

The full statement issued over the signature of Mr. Y. A. C. Bese, one of the directors, reads: "The Nyati Limited, a company incorporated in the Republic of South Africa, holds a concession from the Government of Kenya for the construction and operation of a toll-free bridge over the Nyati River, Mombasa, which was granted to the company in 1947. The concession was granted for a period of 25 years, and the bridge was completed in 1948. The company has since then operated the bridge on a toll-free basis, and has received a large amount of business from the public."

'Flag of the United Nations'

When the United Nations Trusteeship Council adopted a resolution recommending that the flag of the United Nations be flown over all territories under its jurisdiction, the flag of the Administrative Council of the Nyati Bridge was replaced by the flag of the United Nations. This was done in a ceremony which took place on July 17th.

'Trade barriers to knowledge'

Complex tariff regulations are a formidable barrier to the exchange of goods and other economic materials between the United Kingdom and the Colonies. This is particularly true in the case of the Colonies, where the tariff system is often so complicated that it is almost impossible for a small trader to understand it.

Africans queue to buy Bible

Africans have been queuing for hours to buy Bibles. This is a sign of the growing interest in Christianity among the African people. The Bibles are being sold at a very low price, and are being distributed by the Church of South Africa.

EXPLOITATION OF UGANDA'S MINERALS

Iron and steel project

GOVERNOR IN BRITAIN TO DISCUSS METHODS OF DEVELOPMENT

Uganda's iron and steel industry is causing considerable embarrassment to the Government in Britain in view of the fact that the Government in Uganda is increasing the difficulty of establishing an iron and steel industry in Uganda. This, it is understood, is the reason why the Governor of Uganda, Sir John Hall, has flown to Britain for talks about the development of the mineral deposits in the Tororo area.

K.F.A. local produce notes

WATERBURY AND ASSOCIATES

Some cases of waterborne disease have been reported in the Tororo area. The water supply in the area is from a well which is situated in a low-lying area. The water is not filtered and is often contaminated with animal droppings. It is suggested that the water supply should be improved and that the well should be protected from contamination.

Withdrawn

The Government has decided to withdraw its proposal to establish a new iron and steel industry in Uganda. The proposal was based on the assumption that the Government would be able to secure the necessary capital and technical assistance from foreign sources. However, it has been found that this is not likely to be possible.

Private enterprise

The Government's policy is to encourage private enterprise in the iron and steel industry. It is hoped that this will lead to the development of a profitable and self-sufficient industry in Uganda. The Government will provide technical assistance and financial support to private entrepreneurs who are interested in this industry.

Death after ambulance dash

After being flown almost 400 miles for urgent medical treatment following a northern frontier district, a 28-year-old Government official died in hospital. The official was on his way to his home in the north when he was struck by a lorry on Friday last. A non-motorist was driving the lorry. The official was taken to hospital where he died after a short time.

OPPOSITION TO EXPORT TAX PLAN

View of Nakuru businessmen

ALTHOUGH no motion was passed at their recent meeting on Monday, members of the Nakuru Chamber of Commerce and Industry expressed general opposition to the introduction of an export tax on agricultural products. The tax would be used to subsidize certain foodstuffs to the local consumer.

No guarantee

Mr. M. L. Linton said that while it would appear to be a system of export tax, it was in fact a system of import tax. He pointed out that the Government was not guaranteeing that the tax would be used for the purposes for which it was intended.

Talks on East and Central Africa

Informal discussions between Mr. Michael Bondi, Acting Leader of the Kenya Legislative Council, and Mr. J. H. M. Linton, Member of the East and Central Africa Committee, took place on Friday. The discussions were held in the presence of Mr. J. H. M. Linton, Member of the East and Central Africa Committee.

SOUTHERN HIGHLANDS AND POSTAL SERVICES

Council expresses its concern

Speaking in a motion in his name that the Council is extremely concerned at the inefficiency of the postal services in the Southern Highlands Provincial Council meeting last week. The Council expressed its concern at the inefficiency of the postal services in the Southern Highlands Provincial Council meeting last week.

Information refused

Mr. D. K. Kingdon, Minister of Education, has refused to supply information regarding the proposed new secondary schools in the Southern Highlands. He stated that the Government was not in a position to supply the information requested.

NAIROBI-MOMBASA RAIL SERVICE

Plans to double present capacity

PLANS which will almost double the capacity of the East African Railways and Harbours main line between Mombasa and Nairobi were described in a report by Mr. R. Farquharson, Acting Manager. Mr. Farquharson explained that the present capacity of the line, if trains are not to be unduly delayed, is 11 through train sets per day in each direction.

Goods trains

Turning to the question of goods trains, Mr. Farquharson revealed that the railway was not receiving the quantity of goods which it was capable of handling. He stated that the railway was not receiving the quantity of goods which it was capable of handling.

1852 position

Asked for an opinion on the railway traffic position in 1951, Mr. Farquharson stated that the railway was not receiving the quantity of goods which it was capable of handling. He stated that the railway was not receiving the quantity of goods which it was capable of handling.

DOUBLE PAY FOR K.A.R. WHILE IN MALAYA

British and the late (Nyasaland) African Rifles will receive special allowance every month while on duty in Malaya

The new regulations which will be introduced in Malaya will provide for a special allowance every month while on duty in Malaya. This allowance will be in addition to the normal pay and allowances of the British and the late (Nyasaland) African Rifles.

Information refused

Mr. D. K. Kingdon, Minister of Education, has refused to supply information regarding the proposed new secondary schools in the Southern Highlands. He stated that the Government was not in a position to supply the information requested.

SUMMARY OF THE PAST WEEK'S SPORT

THE Nairobi July race meeting, at which the last of the season's Kenya classics was run, provided the most successful and enjoyable of racing with honours very evenly divided. On the two days, lady owners and owner-trainers did well but Mr. U. S. Ghaurial was the only owner to win more than one race.

Friday's results

1. Mr. C. A. Aggar's 'The Prince of Wales' won the 1000 Guineas. 2. Mr. U. S. Ghaurial's 'The Prince of Wales' won the 1000 Guineas. 3. Mr. U. S. Ghaurial's 'The Prince of Wales' won the 1000 Guineas.

CRICKET

THE results of the latest series of first-class cricket in Kenya are as follows: Kenya 1000 runs, Uganda 500 runs, British 1000 runs, and the late (Nyasaland) African Rifles 500 runs.

The second day

Results of Saturday's seven races: 1. Mr. U. S. Ghaurial's 'The Prince of Wales' won the 1000 Guineas. 2. Mr. U. S. Ghaurial's 'The Prince of Wales' won the 1000 Guineas. 3. Mr. U. S. Ghaurial's 'The Prince of Wales' won the 1000 Guineas.

Thika tennis

The annual Thika tennis tournament, which is the most important of the kind in the district, is being held at the Thika Club. The tournament is being held at the Thika Club.

REMAINS KEY

REMAINS KEY: The remains of a prehistoric man were found in the Tororo area. The remains were found in the Tororo area.

County champions

County champions: The results of the county championships are as follows: Kenya 1000 runs, Uganda 500 runs, British 1000 runs, and the late (Nyasaland) African Rifles 500 runs.

Local cricket

Local cricket: The results of the local cricket matches are as follows: Kenya 1000 runs, Uganda 500 runs, British 1000 runs, and the late (Nyasaland) African Rifles 500 runs.

AT TAINTON

AT TAINTON: The results of the matches at Tainton are as follows: Kenya 1000 runs, Uganda 500 runs, British 1000 runs, and the late (Nyasaland) African Rifles 500 runs.

AT SANDHURST

AT SANDHURST: The results of the matches at Sandhurst are as follows: Kenya 1000 runs, Uganda 500 runs, British 1000 runs, and the late (Nyasaland) African Rifles 500 runs.

THE MEAT COMMISSION ADVISES DE-HORNING

To prevent the bruising of carcasses

The Meat Commission has advised that the de-horning of potential slaughter stock is recommended to prevent the bruising of carcasses. This is particularly important for the export of carcasses to other countries.

TECHNICAL TRAINING OF AFRICANS

Tanganyika's plans for Ifunda centre

TECHNICAL training for Africans as mentioned in the report of the Tanganyika Labour Department for 1950. During last year the temporary technical training centre at Migoni, on the lake Dar es Salaam, was moved to the centre created by the Overseas Food Corporation at Ifunda, near Iringa.

Part of the syllabus

Consideration is also being given to a two-year technical training course for Africans. A good deal of construction and related training is being given to Africans in a permanent settlement in the Tanganyika Territory. The centre now gets the advantage of a better climate, but the cost of training is not expected to be reduced.

IT HAD HAPPENED BEFORE

ZANZIBAR IS BECOMING MORE RADIO-CONSCIOUS

THE Zanzibar Radio Station is now broadcasting on a regular basis. The station is owned and operated by the Government.

Popular with women

Before the broadcasting station was opened, a programme was broadcast on the radio which was very popular with women.

Local musicians

Local musicians are being encouraged to perform on the radio. This is part of a programme to promote local talent.

Labour Exchanges

Labour exchanges are being established in various parts of the country. This is to help in the matching of workers with employers.

Kibos-Miwani road

The R.E.A.A. reports that the road between Kibos and Miwani has been extended. This will improve transport facilities in the region.

SOUTHERN HIGHLANDS COUNCIL President replies to land question

"STABBED" COMMENTARY. WHILE feeling that the creation of another "talking shop" would serve no useful purpose, the president of the Southern Highlands Provincial Council, Mr. A. Chikara, told members in his opening address at the fourth meeting of the Council that he had a useful function to perform, firstly, by publishing up-to-date accounts of the more important branches of Government activity, and secondly, by providing for the ventilation of complaints by the public.

The Council was meeting for the first time this year. He has already been extended when it was due to meet in the end of 1950 to December, 1951, pending the return of the Council to the Highlands Development Commission.

Leased land

Taxation, meanwhile could not be levied on the land. The Government has decided to lease land to private individuals and companies.

Ex-enemy farms

Ex-enemy farms were involved in the Mau Mau rebellion. The Government is now taking steps to deal with these farms.

The Game Department

"STABBED" COMMENTARY. The Game Department in the Highlands is being reorganised. This is to improve the management of the game reserves.

THE TWO-TERM YEAR

To the Editor, "A Standard"
Sir—It would like to comment upon the report in the issue of the 13th Standard dated July 13th regarding the decision to have two terms in the year. It is stated that the plan is to have a complete overhaul of the system of the primary and secondary schools. It is stated that the Government will consider the matter. It is stated that the Government will consider the matter. It is stated that the Government will consider the matter.

Land and Population in the Asian

It is interesting to note that the land area of the Asian continent is about 44,000,000 square miles, which is about 29 per cent of the total land area of the world. The population of the Asian continent is about 1,400,000,000, which is about 55 per cent of the total population of the world.

Land and Population in the African

The African continent has a land area of about 30,000,000 square miles, which is about 20 per cent of the total land area of the world. The population of the African continent is about 300,000,000, which is about 11 per cent of the total population of the world.

Land and Population in the American

The American continent has a land area of about 17,000,000 square miles, which is about 11 per cent of the total land area of the world. The population of the American continent is about 200,000,000, which is about 7 per cent of the total population of the world.

Land and Population in the European

The European continent has a land area of about 4,000,000 square miles, which is about 3 per cent of the total land area of the world. The population of the European continent is about 500,000,000, which is about 18 per cent of the total population of the world.

Land and Population in the Oceanic

The Oceanic continent has a land area of about 1,000,000 square miles, which is about 0.7 per cent of the total land area of the world. The population of the Oceanic continent is about 10,000,000, which is about 0.4 per cent of the total population of the world.

Land and Population in the Antarctic

The Antarctic continent has a land area of about 14,000,000 square miles, which is about 9 per cent of the total land area of the world. The population of the Antarctic continent is about 0, which is 0 per cent of the total population of the world.

Land and Population in the Arctic

The Arctic continent has a land area of about 5,000,000 square miles, which is about 3 per cent of the total land area of the world. The population of the Arctic continent is about 0, which is 0 per cent of the total population of the world.

Land and Population in the Middle East

The Middle East has a land area of about 3,000,000 square miles, which is about 2 per cent of the total land area of the world. The population of the Middle East is about 200,000,000, which is about 7 per cent of the total population of the world.

Land and Population in the South America

South America has a land area of about 17,000,000 square miles, which is about 11 per cent of the total land area of the world. The population of South America is about 200,000,000, which is about 7 per cent of the total population of the world.

Land and Population in the North America

North America has a land area of about 9,000,000 square miles, which is about 6 per cent of the total land area of the world. The population of North America is about 200,000,000, which is about 7 per cent of the total population of the world.

Land and Population in the Asia Minor

Asia Minor has a land area of about 2,000,000 square miles, which is about 1.4 per cent of the total land area of the world. The population of Asia Minor is about 50,000,000, which is about 1.8 per cent of the total population of the world.

Land and Population in the East Africa

East Africa has a land area of about 3,000,000 square miles, which is about 2 per cent of the total land area of the world. The population of East Africa is about 100,000,000, which is about 3.7 per cent of the total population of the world.

Land and Population in the West Africa

West Africa has a land area of about 3,000,000 square miles, which is about 2 per cent of the total land area of the world. The population of West Africa is about 100,000,000, which is about 3.7 per cent of the total population of the world.

Land and Population in the Central Africa

Central Africa has a land area of about 3,000,000 square miles, which is about 2 per cent of the total land area of the world. The population of Central Africa is about 100,000,000, which is about 3.7 per cent of the total population of the world.

Land and Population in the South Africa

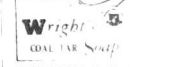

South Africa has a land area of about 3,000,000 square miles, which is about 2 per cent of the total land area of the world. The population of South Africa is about 100,000,000, which is about 3.7 per cent of the total population of the world.

PRIDE OF PLACE TO MR. BALCHIN

AMONG THE NEW BOOKS

With the arrival in the Colony last week of an exceptionally heavy mail, there is such an abundance of new books at present that it is difficult to make a selection for review.

Foremost in popularity, however, is probably Mr. Noel Balchin's new novel *A Way through the Wood*, and for that matter it should be given priority.

For it is yet another triangle story. The Missings have been married for 12 years. The husband is a quiet, unassuming man, who has fallen in love with a girl who is going unorthodoxly with *Night Riders*. The girl who is in the picture is Peter Fleming's daughter, who is now in the *East African Standard*, (March 28, 1950).

URANIUM

the Key to World Power

By K. FRANK FELDMAN

Though isolated by woodland scrub, Katanga, in the Belgian Congo, is one of the world's most important uranium ores.

Vast quantities of copper, cobalt and zinc have been extracted from it over the past 40 years, and today its importance is even further enhanced by the large-scale mining of uranium now material for atom bombs.

About 14,000 tons of uranium are mined every year in the province of Katanga.

RELABLE reports from behind Stalin's security curtain indicate that Marshal Lavrenty Beria, director-general of Russia's atom project, has sent wide tracts of land for additional uranium deposits.

Simultaneously, Communist Party in the United States has announced that it is sending a mission to the Belgian Congo to study the uranium resources of that country.

At the same time, the United States Atomic Energy Commission is sending a mission to the Belgian Congo to study the uranium resources of that country.

It is clear that the race is on to see who will be the first to harness the power of the atom.

Let the daylight into your farm buildings with Corrugated 'PERSPEN'.

'PERSPEN' is the registered trade mark of the wire for sheet manufactured by I.C.L.

From the Congo

The Belgian Congo is the largest source of uranium in the world. It is estimated that the Congo contains about 10 million tons of uranium.

The Congo is also a major source of copper, cobalt, and zinc. It is estimated that the Congo contains about 10 million tons of copper, 10 million tons of cobalt, and 10 million tons of zinc.

The Congo is also a major source of diamonds, tin, and gold. It is estimated that the Congo contains about 10 million tons of diamonds, 10 million tons of tin, and 10 million tons of gold.

Like Klondyke days

The search for uranium has become a new Klondyke. It is estimated that the Congo contains about 10 million tons of uranium.

The Congo is also a major source of copper, cobalt, and zinc. It is estimated that the Congo contains about 10 million tons of copper, 10 million tons of cobalt, and 10 million tons of zinc.

The Congo is also a major source of diamonds, tin, and gold. It is estimated that the Congo contains about 10 million tons of diamonds, 10 million tons of tin, and 10 million tons of gold.
