Phases of the Royal Rhodesian Air Force in perfect formation

**RHODESIAN ROYAL FLYING CORPS ENTERS THE JET AGE**

The Royal Rhodesian Air Force is entering the jet age which will bring it fully into the modern world of flying. The first of these jets, a Lockheed P-38 Lightning, was flown by a Rhodesian pilot in the Nairobi area. The jet is capable of doing any job that a propeller-driven plane can do, and it is much faster and more maneuverable. The Rhodesian Air Force is now training its pilots in the use of these new aircraft, and it is expected that they will be in full operation in the near future.

# Kenya's need of peace for progress

## MR. VASEY'S ATTITUDE TO AFRICAN AMBITION

ECONOMIC progress was best achieved in an atmosphere of peace and stability—a principle which Mr. Vasey, Secretary of the United Kingdom in Nairobi last night, in a statement to the House of Commons, stressed as the basis of his policy towards Kenya.

Mr. Vasey said that the British Government was prepared to face this responsibility by recognizing the growing aspirations of the African people to a greater share in the management of their own country.

He said that the British Government would not be prepared to accept a position which would not be based on the principle of equal partnership between the two peoples.

### Low-cost Roads

To the Editor:—A. A. Vernon's article on "Low-cost Roads" is a very interesting one. It is a pity that the Government has not taken more steps to improve the roads in Kenya. The roads are in a very poor state and it is necessary to take steps to improve them. The Government should consider the possibility of building more roads and improving the existing ones. This would be a great benefit to the people of Kenya.

Kenya has very good roads, but they are very expensive to build and maintain. The Government should consider the possibility of building more roads and improving the existing ones. This would be a great benefit to the people of Kenya.

I think this competition will be a great success. It will give the people of Kenya a chance to show their talent and creativity. The Government should support such competitions and encourage the people to participate. This would be a great benefit to the people of Kenya.

# Kenya key to problems of Africa

## MINISTER ON PROGRESS TO POLITICAL STABILITY

**K**ENYA'S Minister for Lands, Government, Mr. Harold Kenyon, believed that the key to finding an answer in their country that "might well be the answer for the rest of the world" as he spoke at a dinner of the Lord Mayor of Birmingham to members of the Kenya Parliamentary delegation.

During the past 18 months the citizens of Kenya had been through an experiment in bringing together people of different races and creeds, and also, by bringing a certain political stability to the country, which would enable them to develop economically and to attain political stability, and in Kenya believe that they have provided that stability.

"We offer you in industry a picture of the Kenya Government, which is a young and forward-looking one, and which is not only a model for the rest of the world, but also a model for the rest of the world," Mr. Kenyon said. "We are a young and forward-looking one, and which is not only a model for the rest of the world, but also a model for the rest of the world."

**"Great success"**

In London, the Minister for Agriculture, Mr. Cecil Woodhouse, said that a very great success had been achieved by the Government of Kenya, which was the first of its kind in Africa. The Minister for Lands, Mr. Harold Kenyon, said that the Government of Kenya had achieved a great success in the past 18 months.

## 'BIG FOUR' AGREE ON AGENDA FOR TALKS

### 'FREEZING' OF FACTS PROPOSED BY RUSSIA

**German unification given priority**

### EUROPEAN SECURITY AND DISARMAMENT LISTED

The "Big Four" leaders yesterday afternoon resumed their "summit" conference at Geneva in private after the opening sessions in which they laid bare the major issues causing East-West tensions.

Earlier, the Foreign Ministers had agreed a four-point agenda based on the principles raised in the speeches by the heads of Government. The four points are: Reunification of Germany, European Security, Disarmament, and development of contact between East and West.

The French Premier, M. Faure, who presided at yesterday's meeting was the first to speak. He welcomed the Russian Premier's speech in which the Russians proposed a two-stage plan for first freezing and then dissolving the Atlantic Pact and the Eastern Pact. M. Faure said the Marshall's plan was only a starting point and did not constitute anything definite. The danger was that if a good start was it was too early to make any definite commitment on its prospects.

Western leaders welcomed the announcement by Marshal Bulganin that Russia would contribute substantial material to the United Atomic Power Fund. Only a few hours before the meeting had the Soviet Premier announced that President Eisenhower had agreed to an arms agreement with the Communists' failure to meet the American and British demands for material.

Eisenhower's session of the day was devoted to the formal talks followed by a luncheon with the British and American leaders.

**WEDDING GIFTS FOR MARSHAL'S DAUGHTER**

President Eisenhower has presented a radio and a pen and engraved material inked to the Soviet Premier's daughter, Marina Zhenikova, by his newly wed daughter.

The presentation was made at a dinner party given by the British and American leaders at the Hotel de Ville in Paris. The Soviet Premier's daughter, Marina Zhenikova, is the daughter of the Soviet Communist Party's First Secretary, Nikolai Bulganin.

President Eisenhower while the British and American leaders were present, presented the radio and pen to Marina Zhenikova. The gift was presented to her by the British and American leaders. The gift was presented to her by the British and American leaders.

### ALL LAND FORFEITED

M. R. H. WIDLEY, Minister of African Affairs, said last night that the figure of 3,421 known terrorists still hiding in the forest in the Government area in Kenya at the end of January is a reasonable estimate of the strength of Mau Mau gangs in the forest.

The Government's estimate of the 3,421 terrorists, including 214 bandits and gangsters, whose names have been listed in the Official Gazette, were a direct result of a search of the records of the Mau Mau movement.

It was likely that a further 25 Mau Mau terrorists were still hiding in the forest. The Government estimated that the total number of Mau Mau terrorists was 3,421.

The decision of the House was taken without a vote.

# Kenya women tour Asia with M.R.A. Mission

## EFFORT FOR 'NEW THINKING'

TWO Kenya women—Miss Mary Warshui, daughter of the late Chief Warshui who was murdered by Mau Mau, and Mrs. Agnes Hodson, daughter of Mr and Mrs Gray Ayrton, who were both murdered by Mau Mau in October, 1956—are travelling with the M.R.A. Mission to India and Ceylon.

The mission is to be led by the Hon. Mr. J. W. P. Jones, Minister for the East African Territories, and will consist of 25 representatives from 25 countries.

It is aimed at broadening the attention of the world to the need to find an answer to the problems of the East African Territories in the world—and has been organized by the initiative of the mission, Mr. Gray Ayrton, former Conservative Party and former Foreign Minister, as a suggestion after he wrote a new book on the subject.

# Pension need to stabilise labour in Uganda

A FTER completing a fortnight's tour of Kenya African trade union leaders, said at Kampala that the only solution to the high turnover of labour in Uganda was the provision of some kind of security for old age.

The only reason for the high turnover, he said, was the absence of any pension scheme. He said that the African, being an immigrant, had to work for 15 to 20 years before he could expect to receive any pension.

The alternative is to provide another form of security for old age, he said. He said that the only way to do this was to provide a pension scheme for old people.

Mr. Mboya said that he was a research officer with the International Chamber of Commerce in London, and was on the staff of the International Labour Office, Geneva.

The greatest problem here at the moment for education, said Mr. Mboya, was the shortage of teachers. He said that the Government should do more to attract teachers to the country.

# Knowing the value of things (ESPECIALLY YOUR OWN TIME)

By Robina Wright

Do you pride yourself on recognizing a bargain, on knowing the worth of things? Most of us do our best to get a value for money.

And yet despite all this prudent common sense, you often find that you are not getting the most out of things which are available at a price which is really worth the money.

There is really nothing that has changed since the great war. But it is the way in which we use our money that has changed. It is really worth while to consider these things in the light of the family man.

For instance, to take the case of a family man who is a busy professional man, he should not be spending his money on things which are not really worth the money.

What of the housewife who is a busy professional man's wife? She should not be spending her money on things which are not really worth the money.

Do you really want to pay more money than you need for things which are not really worth the money?

Your money when you buy things is not yours until you have it. It is yours when you have it, but it is not yours when you have it and you do not use it.

It is not yours when you have it and you do not use it. It is not yours when you have it and you do not use it.

It is not yours when you have it and you do not use it. It is not yours when you have it and you do not use it.

It is not yours when you have it and you do not use it. It is not yours when you have it and you do not use it.

It is not yours when you have it and you do not use it. It is not yours when you have it and you do not use it.

It is not yours when you have it and you do not use it. It is not yours when you have it and you do not use it.

## EXACTLY THE RIGHT KIND OF HAT...

With the announcement that Mrs. Mervyn Ryan was to be the new Deputy Mayor of Nairobi, the problem was posed of what she should wear on her head that would be in keeping with the dignity of her office and yet would be suitable to a feminine taste.

Mrs. Mervyn Ryan, the new Deputy Mayor of Nairobi, is seen in a very attractive hat.

The question had not previously arisen in Nairobi. The Town Clerk, Mr. John Macdonald, was consulted, and he stated that the hat should be a brimless affair.

An excellent instance in civic attire has been given by the great town of London. It is a good deal of research, therefore, to find a hat which is suitable for a woman who is a Deputy Mayor.

## 'BIG FOUR' SHELF DISCUSSION ON GERMANY

### Russians claim 'time not ripe' for unity

#### SCHEMES TO STRENGTHEN SECURITY COMPARED

DISCUSSION on proposals for the unification of Germany were held by the "Big Four" at Geneva yesterday. In view of the Russian insistence that the "time was not yet ripe" for the move, the Western leaders agreed to postpone for the next item on the agenda — European security.

Before the leaders resumed the "normal" conference, the British, French and American leaders made a public statement at the previous day's session. The issue was how and when the German question should be taken up. The Western Powers said it was a matter of urgency. It was the Russians, however, that were taken "step by step."

Conditions raised by the deadlock were discussed also by Sir Anthony Eden when he entertained Marshal Eisenhofer to breakfast. A diplomatic observer reported that the informal talks had "improved the atmosphere."

At the formal talks held in the afternoon, the British, French and American leaders went out of their way to assure Russia that the West had no intention of "unifying" Germany. # SPARKLING DRINK LUSINA

ends stomach upsets

Refreshes you while it does you good!

It is a mild but surprising effervescent-antacid-enzyme tonic, but gives quick, positive relief from acid indigestion, flatulence and heartburn.

It's because of Lusina's special buffering sodium bicarbonate, plus the fact that it contains no caffeine, that Lusina's "ping" also helps to get things right again.

And Lusina's acid neutralizing and antacid properties are so strong that it is so effective in making you feel better.

The two contain zero calories.

# Kenya power approval delay refuted

## CHAIRMAN'S STATEMENT 'MISLEADING' - The Mayor

NO power should be obtained to the Nairobi City Council at the Government's additional expense in bringing the power supply to Kenya's schools, the Mayor, Mr. J. J. Bennett, said yesterday.
