CORRESPONDENCE

The Problem of 'Poor Whites'

By the Rev. G.A. Rammema
The 'Poor Whites' are a problem which is being faced by the Government in South Africa. The Government is trying to find a way to help these people, but it is not clear what the best way to do this is.

Hosts for Destitutes

The Government is trying to find a way to help destitute people. One way is to find people who will take them in as hosts. This is a good idea, but it is not easy to find people who will do this.

Labour's Disunity

The Labour Party in South Africa is facing a serious problem of disunity. There are many different groups within the party, and they are not working together. This is a problem that needs to be solved.

Nairobi Sewers

The Nairobi City Council is planning to build a new sewerage system for the city. This is a very important project, as it will help to improve the health of the city and to prevent disease. The project is expected to be completed in 1955.

Mau Mau

The Mau Mau rebellion in Kenya is still going on. The British Government is trying to put down the rebellion, but it is not clear when this will be done. The Mau Mau are fighting for the rights of the African people, and they are determined to win.

European Housing

There is a serious housing problem in Europe. Many people are living in slums, and there are not enough houses to go around. The Government is trying to solve this problem, but it is not clear when this will be done.

Public Library

The Nairobi City Council is planning to build a new public library for the city. This is a very important project, as it will help to improve the education of the city's people. The library is expected to be completed in 1955.

Sensation!

FIRESTONE gives you the tyre of the future TODAY

Ride on Firestone Tubeless Tyres and experience a new sensation in motoring. Swing round bends with brake to a standstill without a tremor in the steering wheel. Sense the new cushioned-comfort of your car. And, above all, check your tyre trails and tread against your speedometer and watch the extra mileage pile up motoring. They have come through every test, reporting thousands of miles of extra wear. Tyres exceeds all previous records.

- 1. Factor - meaning is made possible by a deep design in tread pattern on the inner side of the tyre, setting up a cushioning effect.
- 2. Elimination of the "skid" effect, resulting in a longer life.
- 3. Absence of inner joint gaps down surface-creep, preventing "blow-outs".

MAKERS' CHOICE
Firestone Tubeless Tyres are the world's finest cars, further proof of their greater safety, added comfort and longer mileage.

HOW TO STOP A HEADACHE

Why Phenisc is better than aspirin

MEDICAL RESEARCH has shown that the cause of a headache is not the pain itself, but the way the brain reacts to it. Phenisc is a powerful pain-killer which acts on the brain to relieve the pain. It is a safe and effective medicine which can be used by anyone. It is available in tablets and capsules. It is a powerful pain-killer which acts on the brain to relieve the pain. It is a safe and effective medicine which can be used by anyone. It is available in tablets and capsules.

AN INTERESTING FACT is that research on identical twins has shown that one twin who has a headache will often have the other twin who has a headache. This is because the two twins share the same genes. This is a powerful pain-killer which acts on the brain to relieve the pain. It is a safe and effective medicine which can be used by anyone. SPACE SHIP MAY REACH THE MOON IN 20 YEARS

Experts discuss U.S. plan

An American astronautical expert, Mr. Norman Peterson, has proposed in Copenhagen that moon ships could be in operation during the lifetime of many living people. He said it would not be surprising if the first space ship would be man-carrying within the next 20 years. Peterson is the chief of the International Astronautical Federation, which is holding its 10th annual meeting in Copenhagen. He said that the United States is planning to send a man to the moon by 1965. He said that the United States is planning to send a man to the moon by 1965. PROBLEM OF BUILDING A NATION

No definite policy on multi-racialism

NATIONAL BUILDING IN multi-racial communities was described by the Chief of State at the Colonial Office, Mr. Hastings Bona, in a speech to the House of Commons, as "one of the world's major problems."

Mr. Hodgkinson, who was speaking of the new constitution of the Royal Bafra, said: "I think it is enough to say with any respect to a multi-racial community that many ideas, Mr. Hodgkinson said, have been put forward for consideration and a majority has been chosen."

"The question was not in the very first making but in the making of the constitution. The various people who are coming to be a part of the new State, what we have very much to do is to ensure, in the national unity which is the essential part of the settlement of national unity."

Ruined city clings to its secrets

ZIMBABWE, an ancient city 15 miles from Fort Victoria, Southern Rhodesia, still keeps its mysteries. Many theories have been put forward on the age since the ruins are at least 1,200 years old. Radiocarbon tests carried out in London on wood found at the site have shown that the age of timber is about 2,000 years old. The ruins are at least 1,200 years old.

THE FUTURE OF PRIVATE ENTERPRISE

Mayor on great asset of awakening African people

A GREAT future for private enterprise in East Africa was forecast by the Mayor of Nairobi, A.D. S. Alexander, in a speech before the members of the Chartered Institute of Secretaries of Kenya at a luncheon held at the Grand Hotel on August 21. He said that the African population of about 20,000,000 who have not yet been awakened to a full realization of their own potentialities is a great asset of the continent. He said that the African people are the greatest asset of the continent and that it is the duty of the Government to awaken them to a full realization of their own potentialities. He said that the African people are the greatest asset of the continent and that it is the duty of the Government to awaken them to a full realization of their own potentialities.

Mwangi acquitted of gun charge

REARRESTED OUTSIDE COURT

MWANGI S/O MUMBO, who escaped from custody three times, was acquitted in Nairobi yesterday of a charge of being unlawfully possessed of two .38 calibre revolvers. The court found that there was no evidence against him.

There was evidence that Mwangi had been armed and had fired the revolvers, but the court found that there was no evidence that he had intended to use them for any purpose other than self-defence.

The court also found that Mwangi had been rearrested outside the court. He was arrested by the police while he was on his way to the court and was taken back to custody.

Found hiding

THE Crown Agents for the Colonies have found a large quantity of stolen goods hidden in a warehouse in Nairobi. The goods were found by the agents while they were conducting a survey of the warehouse.

Strong motives

THE Chief Justice said that the motives for the prosecution of Mwangi were strong. He said that the prosecution was based on solid evidence and that the motives for the prosecution were strong.

Taken to camp

THE Chief Justice said that Mwangi was taken to camp after his arrest. He was taken to a camp near Nairobi and was held there for a period of time before he was brought back to court.

Against theory

THE Chief Justice said that the theory advanced by the prosecution was against the facts. He said that the facts of the case did not support the theory advanced by the prosecution.

Self charge

THE Chief Justice said that Mwangi had charged himself with the crime. He said that Mwangi had admitted to the crime and had charged himself with it.

Kongoni game opens new ground at Embu

From a Correspondent
ONE of the highlights of the Willard Annual cricket was the visit of a Kenya Kongoni C.C. XI captained by Peter Dodd, to open the new ground at Embu, East Africa, winning an enjoyable match by 120 runs. The pitch known as "President's Place," is sited in the grounds of Embu School and is a credit to all who had a hand in its construction, particularly Ivan Freeman, who organized the levelling, grading etc.

RAIN ROBBED YORKSHIRE OF SHEFFIELD VICTORY

Glamorgan inherit bottom place from Worcestershire

RAIN, the first to fall in the Sheffield area for nearly a month, robbed Yorkshire of victory over Lancashire in the county cricket championship on Tuesday and also took them from the lead in the first division. This was their only score since the reigning champions, Surrey, who were finished third and with Nottinghamshire. At the other end of the table Worcestershire left the bottom place to Glamorgan by beating Kent.

Yorkshire had to contend with very heavy rain during the extra innings but they were able to score 100 runs in 100 minutes, while Lancashire and Gloucestershire were able to score 100 runs in 100 minutes. Yorkshire had to contend with very heavy rain during the extra innings but they were able to score 100 runs in 100 minutes, while Lancashire and Gloucestershire were able to score 100 runs in 100 minutes.

Stubbish defence

Lancashire having followed Kent in conceding an early wicket in playing the Yorkshire batsmen. The Yorkshire batsmen were able to score 100 runs in 100 minutes, while Lancashire and Gloucestershire were able to score 100 runs in 100 minutes.

Laker's fine figures

All the Nottinghamshire batsmen had changed sides during the match. Laker's fine figures were 100 runs in 100 minutes, while Lancashire and Gloucestershire were able to score 100 runs in 100 minutes.

At Liphook, Hampshire, the first of the day's matches was between Hampshire and Surrey. Hampshire won by 100 runs in 100 minutes, while Surrey were able to score 100 runs in 100 minutes.

At Worcester, Worcestershire were able to score 100 runs in 100 minutes, while Gloucestershire were able to score 100 runs in 100 minutes.

Country's new role

The County Cricket Board has announced that it will be taking over the administration of the game in England. This will include the running of the game, the appointment of umpires, and the running of the game.

The championship

The championship is being contested in the first division. The teams are Yorkshire, Lancashire, Gloucestershire, Warwickshire, Surrey, Kent, Hampshire, and Essex. The match is being played at Sheffield on Tuesday.

Finney again shows the 'master touch'

ANOTHER capacity crowd jammed the Nairobi office A Sports ground on Tuesday evening when the great Kenyan Finney and Preston N.R. winger, showed the second of his two successive appearances in Kenya. And in this context the adjective 'great' is not, as so often, used loosely or inappropriately. F.O.

Three close shaves

The Nairobi club showed a surprising performance in the match. The three close shaves were a result of the team's excellent play. The match was a close one, with both teams showing great skill and determination.

Old injury is cured

Finney himself states that his old injury, which troubled him for some time, is now completely cured. This is a great relief for him, as it allows him to play at his best. The cure was the result of a combination of factors, including rest and medical treatment.

BRITISH RESERVES DROP BY £48,500,000

Measures taken to halt inflation

BANK RATE UP IN U.S., GERMANY AND BELGIUM

BRITAIN'S gold and dollar reserves dropped by more than £48,500,000 during July — the Treasury announced. On July 31, the Treasury announced that £206,400,000 compared with £1,076,900,000 at the same time last year.

A Treasury spokesman said that the figures reflected a fall in the value of the pound, which had been increased by the Chancellor, Mr. Butler, when he took various measures to curb spending, including increased interest rates and a tightening of bank loans.

Although the figures here could be regarded as coming after the measures taken to deal with them, they were a pointer to the economic difficulties being tackled by the Chancellor who has denied that there is any "crisis" in the nation's financial position.

Coinciding with the Treasury statement, the Government of the United States, West Germany and Belgium announced that they were following Britain's lead in lightening credit and curbing inflationary tendencies by increasing their bank rates.

In the U.S. the rate has been raised from 3½ per cent to two per cent for banks in Chicago, Boston and Atlanta and to 2½ per cent at Cleveland.

Other dollar banks are expected to take similar action.

The West German rate has been increased from 3½ per cent to 3 per cent and the Belgian rate to 2½ per cent.

WORLDWIDE PHENOMENON

The increase in the West is a worldwide phenomenon, it is said. It is not only in the U.S. and Europe, but also in Asia and Africa.

Dakota crash: Pilot blamed

WRONG DECISION TO FLY NEAR MOUNTAIN

THE pilot of the East African Airways Dakota which crashed on Mount Kilimanjaro in May, with the loss of 20 lives on board, "cannot be exonerated," according to the official report released yesterday. It says Capt. Neville Quain's decision to fly in the direct route to Nairobi, which brings aircraft "dangerously near" the mountain, was the basic cause of the crash.

SURREY BACK IN PICTURE AS LANCASHIRE COLLAPSE

Rival bowling candidates stake final Test claims

FINE left-arm slow bowling by England spinner Tony Lock, who finished with eight wickets for 52 runs, put Surrey back into the game when Lancashire collapsed dramatically after making an impressive start at Manchester. Lancashire were at one time 218 for two, thanks to a splendid innings of 100 by the batsman who had been dismissed by the last bowler, but they were reduced to 114 by the end of the day.

Lock was named by Lancashire as a possible Test bowler, but he is not yet a regular in the county side. He has been playing a valuable part in taking two wickets in each of the last three matches. He is a right-handed batsman and has hit 118 runs in 14 innings, including a century of 114 in the first Test. He is a right-handed batsman and has hit 118 runs in 14 innings, including a century of 114 in the first Test.

Wardle gets five

Lock's chief rival for the Test berth is the left-handed spinner, who has been playing a valuable part in taking two wickets in each of the last three matches. He is a right-handed batsman and has hit 118 runs in 14 innings, including a century of 114 in the first Test.

Close of play scores

Wardle's close of play score was 118 runs in 14 innings, including a century of 114 in the first Test.

AMONG THE NEW BOOKS

The English are reputed to be a little bit bigoted, but it is true that they are more friendly than the Americans. They do not possess the French gift for ignoring everything that does not say anything on their own side.

Yet although we are not bigoted, we do not like to be treated as such. We are not bigoted, but we do not like to be treated as such. We are not bigoted, but we do not like to be treated as such.

UNDER REVIEW

By R. H. Brown

...the author's style is simple and direct. He does not try to be clever or to show off. He writes in a straightforward manner, and his descriptions are clear and vivid. This is a book that is well worth reading.

Our virtues

Our virtues are those qualities which make us what we are. They are the things that give us our character and our personality. They are the things that make us different from other people. They are the things that make us who we are.

Good start

...the author's style is simple and direct. He does not try to be clever or to show off. He writes in a straightforward manner, and his descriptions are clear and vivid. This is a book that is well worth reading.

action

The past three years the Tana has been a headache to the East African Government. And it is still being a headache to the Government in the future.

The Tana River, which flows into the Indian Ocean, has been a headache to the Government because of the many problems it has caused. The river has been a headache to the Government because of the many problems it has caused. The river has been a headache to the Government because of the many problems it has caused.

From the moment that the Tana project was launched, it was a feat. The Tana project was a feat because of the many problems it has caused. The Tana project was a feat because of the many problems it has caused. The Tana project was a feat because of the many problems it has caused.

Men and was built to cope with his life. However, a report that an aerial gauge was nearby he went to his truck to investigate and was surrounded and held on. An airplane was landed on. An airplane was landed on. An airplane was landed on.

Three phases

The whole project was built in three phases. The first phase was the construction of the dam. The second phase was the construction of the power station. The third phase was the construction of the transmission lines.

Excavations

In the making of it, about 70,000 tons of rock had to be excavated. The excavations were done by hand and by machine. The excavations were done by hand and by machine.

of the dam and the power station. The dam was built to control the flow of the river. The power station was built to generate electricity from the river's flow.

Dual purpose

An interesting feature of the dam is that it has a dual purpose. It is not only a dam, but it is also a power station.

Too heavy

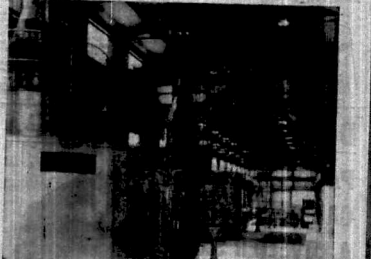

When the first of the turbines arrived in Mombasa, it gave the contractors something to think about. The turbine was too heavy to be moved by the usual means. It had to be moved by a special method.

One of the two sluice gates at the Mbaria barrage, above, which can be operated by hand or electrically and which automatically opens when the river is in flood.

The Tana and the Waellu schemes can together produce an output of 2,000 kilowatts of electrical power for Mombasa at periods of high river flow. The low tide of an average 2,000 kilowatts from its two 4,000-kilowatt alternators.

about 300 miles, and even on that road several bridges had to be destroyed to take the load.

The second alternative which arrived many months later went the same way. The Waellu and Tana hydro-electric schemes have been transferred from the East African Power and Lighting Company to the Kenya Power Company as part of a plan to rationalize the bulk of generation and distribution of electricity in Kenya. The Kenya Power Company will also handle the bulk supply of electricity from Uganda. British Bechtel and Company are now moving westward from Low Tana to Nakuru to start work on the line.

The Problem of 'Poor Whites'

To the Editor, Sir—
I would like to say that I am glad that the Government has taken the trouble to send a mission to the European Economic Community to study the problem of the "poor whites" in the United Kingdom. I am sure that the mission will be successful in its task and that the Government will be able to take the necessary steps to help the "poor whites" in the United Kingdom. I am sure that the mission will be successful in its task and that the Government will be able to take the necessary steps to help the "poor whites" in the United Kingdom.

touches the million mark

At eleven a.m. today, the millionth Volkswagen comes off the line! and what a car!

Deep puddle and roll-up tarpaulin facilitate loading operations with the V.W. Pick-up.

During the past few years Volkswagens have had amazing success in Africa: 1st in small car class, Africa to Cape Town Rally, 1952; 1st in class for touring cars up to 1500 c.c. Donga Sabuk Hill Climb, February, 1953; 1st and 2nd in Class 'A' Coronation Safari, 1953, and Team Prize; Olivetti Cup side, outright winner, winners of Team Prize, winners of all Class 'A' places in Coronation Safari, 1954; Class 'A' winners and Team Prize in Coronation Safari, 1955. Coupled with these successes goes the sincerity of good service given to every Volkswagen brought

into East Africa by the Cooper Motor Corporation Limited's Sales and Service Organization. Ten factory-trained German mechanics are on the staff to ensure that as sales go up, the quality of service does not go down.

More pay for 40,000 oil and sugar workers

NEW AGREEMENT BRINGS CONVERTIBILITY NEARER

WAGE increases which will cost the Treasury oil and sugar industries about £2,000,000 a year have been awarded to 40,000 workers by the British Overseas Airways Corporation. The award is the result of a long and bitter struggle between the workers and their employers.

ONE more obstacle in the path of convertibility has been removed with the agreement reached among the West European countries on a formula for extending the use of the European Payments Union.

FINANCE AND COMMERCE

Achievements of woollen industry

Mr. Ewen M. Waterman, who represented Australia at the International Wool Secretariat in London last week, said that the wool industry had made great progress in the last few years. He said that the wool industry had made great progress in the last few years. He said that the wool industry had made great progress in the last few years.

Financing the terms

Under E.P.U. could be secured for a further year, agreement has been reached on a formula for extending the use of the European Payments Union.

'Too extravagant'

The Board of Inquiry presided over by Prof. D. F. J. of the University of Cambridge has reported that the general and special wage increases of 10 per cent and 15 per cent respectively are too extravagant.

Leave suspended

The Board has also recommended that the leave suspension of the workers should be continued.

Main difficulty

The main difficulty in the way of convertibility is the lack of gold reserves in the West European countries.

Of all the tests a typewriter undergoes the typist's test is the final and most important one. To pass it, the typewriter must produce work of a very high standard, quickly, quietly and easily; the touch must be light; the carriage movement firm and precise; every one of the 2,400 parts working faultlessly. Careful planning and precision engineering ensure that every Imperial typewriter is above all else, a typist's typewriter.

County rejects £75,000 road scheme

NO POUND-FOR-POUND PLEDGE BY AUTHORITY

County Council has rejected a £75,000 road scheme for the year in its efforts to support the Government's road programme. The scheme, which would have provided a pound-for-pound match for the Government's £75,000 contribution, was rejected because the County Council does not guarantee to provide a similar contribution in the next year. The scheme was approved by the County Council in 1957, but the Government's contribution was not received until 1958. The County Council's decision was based on the fact that the Government's contribution was not guaranteed for the next year. The County Council's decision was based on the fact that the Government's contribution was not guaranteed for the next year.

FEWER CHILD READERS

Parents blamed by librarian

LACK of interest by parents is to some extent responsible for the steady decline in the popularity of the children's library service operated by the Municipal Library. The vice warden said yesterday that the number of subscribers to the library had fallen to 1800, which was put down to the fact that parents were not taking their children to the library as often as they used to. He also mentioned that the library was providing a very good service to the children and that he was very pleased to be working for the library.

PLEA FOR WOMAN'S ACQUITTAL REJECTED
The plea for the acquittal of a woman who was charged with the murder of her husband has been rejected by the court. The woman was found guilty of the crime and was sentenced to a term of imprisonment. The court found that the evidence against her was overwhelming and that she was responsible for the death of her husband.
