Red Cross starts relief airlift

VILLAGES SWEEP AWAY: VAST AREA UNDER WATER

FLOODS, described as the worst in Asian history, have covered vast areas of India and Pakistan and made 45,000,000 people homeless. The biggest airlift organized by the International Red Cross is flying relief supplies to the victims. Thousands of villages have been swept away in the north-western and a tremendous volume of water in the Himalayas river basins of the Brahmaputra, the Ganges and the Indus. In Mexico City, three days of rain have left a death toll of at least two, one missing and 40,000 homeless, including 2,000 people were rescued from the roof-tops of their area of the city.

At San Sebastian, in the Abruzzi mountains, east of Rome, three villagers are being slowly but steadily killed as the waters and an avalanche of swirling mud sweep through the streets. Seven are missing and many are feared to be buried under the rubble of 60 houses which collapsed. A picture of the situation in India and Pakistan was given at International Red Cross office in London. It was announced that the Red Cross is arranging the speedy distribution of supplies to its victims. It is expected to be able to supply relief for at least 47,000 flood victims.

Some United States agencies have begun the airlift work that Col. Bruce D. Fryer, of the United States Air Force, is now directing in New Delhi and other parts of India.

'Divine mission of Sultan'

ATTITUDE ON MOROCCAN THRONE STATED

AFTER a 15-minute interview with the new French Resident-General in Morocco, Gen. Pierre Boyer is from his palace which said he was under an obligation to remain as long as he lived.

The statement said: "During a long and cordial interview, His Majesty insisted on the importance of his obligation to remain at his post until he was asked to resign by the Sultan, but he stated that he would resign yesterday if he understood the statement indicated."

The voluntary abdication of the Sultan is considered an essential part of France's "new mission" for the troubled Moroccan.

Admirals reached between Moroccan Government leaders and Nationalists at the moment of the Sultan's abdication. Gen. Ben Arza is reported to have been in Morocco since the arrival of Morocco's first representative government.

First task. General De La Tour's first task as Resident-General was to be that of persuading the Sultan to abdicate. The statement said that the Sultan had agreed to do this.

Comes talks continued earlier in the day. The statement said that the Sultan had agreed to do this.

Kenya Sikhs protest at arrests in Punjab 'NEGATION OF DEMOCRACY'

ARRESTS of thousands of Sikhs in the Punjab, including the leader, Master Tara Singh, has resulted in a conference of Kenya Sikhs meeting in Mombasa to pass a resolution disapproving the behaviour of the Punjab Government in its handling of Sikh affairs. The resolution asserts that the arrests and the subsequent sentencing of the leaders in the most rigorous terms of imprisonment are a complete negation of the democratic principles...

U.K. TRAINING FOR UGANDA STUDENT

Mr Noah Lathig Cuhara, of Uganda, is spending two months at King's College, South Devon, attending the practical side of the British local government at the local Rural District Councils offices. He said a fellow student, Mr. Christian Alai Obawa, from Abanda, Uganda, has taken a special course in British local government at the South Devon Technical College at Torquay.

Mr Obawa, aged 30, whose home is at Gulu, in the Abanda District, was in charge of Civil Township Authority work. He will return in October to work there as an administrative officer. Mr. Obawa said: "When I return to Uganda my aim will be to promote educational, public health and economic standards with other social services in my country. The Government has taught me to understand correct and local government procedure. I have for a full opportunity to show what I have learned with my people."

Applications for scholarships in India invited

Applications have been invited for Indian Government scholarships for students and students of Indian origin in East and West Africa. The scholarships are available at £15 a month, plus maintenance and other incidental expenses.

The sum of £250 free of tax was allowed in 1955 and the same should likely be allowed in Kenya to a taxpayer. The Government has announced that it will accept applications for a grant of £200 to be used for the purchase of a car. Applications should be sent not later than October 15 to the Commissioner for India, Box 317, Nairobi.

GREEK PROPERTY WRECKED IN TURKEY
American citizens held in China to be released

Reinforcements for Cyprus troops
REJECTION OF BRITISH PROPOSALS EXPECTED

RIOTING Turks, angered by the attitude of Greece at the London three-Power talks on Cyprus, wrecked hundreds of Greek-owned shops and houses in Istanbul and Smyrna. Carrying national flags and shouting "Cyprus is Turkish," thousands of them attacked Greek property with burn and stones.

Turkish troops and police patrolled the streets in force yesterday to prevent further rioting. Police mounted guard at the Greek Consulate to prevent possible reprisals by a dynamic attack on the Turkish Consulate at Salonika. In Athens and Salonika strong gangs were placed on the Turkish Embassy and Consulates as a precaution.

Greece has denied responsibility for the dynamite outrage and the Greek Government yesterday instructed its Charge d'Affaires in Ankara to lodge a strong protest with the Turkish Government over the rioting. Families of all Greek officials serving with the British in Smyrna are being sent home.

A contingent unit of 400 marines is on its way from Malta to reinforce the security forces in Cyprus. Plans are being made to send a British force to Cyprus to assist the Greek Government in its efforts to maintain law and order. The British force will be sent to Cyprus in the next few days.

In London diplomatic observers expect the Foreign Minister of Greece and Turkey, Staphanos Stephanopoulos and Mr. Poin Carou to reject proposals by the British Foreign Secretary, Mr. Harold Macmillan, offering a wide measure of self-government to Cyprus.

It is anticipated that the Greek Minister will not accept the proposal. The British Government is expected to announce that they do not accept the proposal. The British Government is expected to announce that they do not accept the proposal.

Irish critic of end partition
IERSH External Affairs Minister, Mr. J. Collins, criticized the new form of end partition during a speech in Dublin yesterday.

Irish critic of end partition
The Minister said that the new form of end partition was a betrayal of the Irish people's desire for a united Ireland. He called for a referendum on the issue.

Irish critic of end partition
The Minister also criticized the British Government's policy in Ireland. He said that the British were not doing enough to bring about peace and stability in the country.

Irish critic of end partition
The Minister concluded his speech by calling for a new approach to the Irish question. He said that the British and Irish Governments should work together to find a peaceful solution to the problem.

Irish critic of end partition
The Minister's speech was met with applause from the Irish people. They were pleased to hear him speak so openly about the issues facing the country.

Irish critic of end partition
The Minister's speech was also widely reported in the international press. It was seen as a significant statement on the Irish question.

Irish critic of end partition
The Minister's speech was a clear statement of the Irish people's position on the issue of partition. It was a call for a united Ireland and for an end to British rule in the country.

Irish critic of end partition
The Minister's speech was a landmark event in Irish history. It marked a turning point in the struggle for Irish independence and for a united Ireland.

LONDON TO SCOTLAND IN 12 MINUTES FORECAST
Possible by future 'flying boathead'
LONDON to Scotland in 12 minutes is possible in the "flying boathead" of the future. Mr. Peter Massfield, Chief Executive of the British Association for the Advancement of Science, said today that it would be possible to make a round trip between London and Glasgow in 12 minutes by using a jet-propelled flying boat. The flying boat would be a large, multi-engine aircraft that would be able to take off and land on water. It would be able to fly at a speed of 1,000 miles per hour and would be able to carry a large number of passengers. The flying boat would be a major advance in air travel and would make it possible to travel between London and Glasgow in a matter of minutes.

REJECTION OF AFRICAN MINERS' CLAIM

The Northern Rhodesia Chamber of Mines has rejected outright a claim by the Northern Rhodesia African Mineworkers Union for an increase of 50 per cent.

The claim was part of an original overall claim for an increase of the 50-50 split, which the union agreed to order when their members were granted the right to elect their own representatives on the board.

Observers on the Copperbelt who have been asked to comment on the decision by the Chamber of Mines regard it as a defeat for the African Mineworkers' Union which demands the extension of a 50-50 split.

Imprisoned Sikh leader to be released

An American judge has ordered the release of Tara Singh, the Sikh leader who is serving a 10-month prison sentence for deserting a Punjab Government unit on demobilization and for deserting of ships about the formation of linguistic States.

A resolution protesting at his arrest and those of other demobilized Sikh soldiers in the East African States was adopted.

Tara Singh was arrested in May while leading a group of Akali (extremist Sikhs) supporters in a demonstration which led to the arrest of about 2000 persons and the Punjab Government's ban on the formation of a Sikh party.

whole situation in a nutshell. There are two main factors: (a) the rent of the houses is too high and (b) the quality of the houses is poor. It is not surprising that the people who are unable to pay the rent are being evicted and the houses are being let to other people who can pay the rent. This is a very serious situation and it is one which must be remedied as soon as possible.

MAKES ON CYPRUS SUSPENDED Under martial law

Three Turkish cities under martial law BRITISH TROOPS LAND AT FAMAGUSTA PORT

Greece and Turkey have failed to agree on a policy for the international status of Cyprus. After a ten-day conference in London, Foreign Ministers of the three countries announced the suspension of the negotiations.

Suspension of the negotiations was announced by the British Foreign Secretary, Mr. Macmillan, in a statement to the House of Commons. He said that the British Government had decided to suspend the negotiations because the Greek Government had failed to accept the British proposal for a federal Cyprus.

The British Government had proposed a federal Cyprus, which would be a self-governing state within the Commonwealth. The Greek Government had demanded a united Cyprus, which would be a sovereign state.

The British Government had also proposed that British troops should be withdrawn from Cyprus. The Greek Government had demanded that British troops should remain in Cyprus.

The British Government had also proposed that the British Government should not be bound by the Greek Government's demand for a united Cyprus. The Greek Government had demanded that the British Government should be bound by the Greek Government's demand for a united Cyprus.

FAILURE TO MEET DEMAND

He said the conference would not be resumed until the Greek Government had agreed to the British proposal for a federal Cyprus. He said that the British Government had decided to suspend the negotiations because the Greek Government had failed to accept the British proposal for a federal Cyprus.

101-day fast as 'cure' for diabetes ends at Mombasa

ONE man's fast, which lasted for 101 days, has ended at Mombasa. During that time the man, Mr. Jambhai Rajbhaiji Amin, the managing director of the Mombasa firm has lost 65 lb.

Four-mile walk As a result of more than three months on a diet which consisted of eating more substantial than a glass of hot water, with oil, Mr. Amin does not feel he has ever felt better.

Cap of tin The fast began seriously on May 23 and for 40 days Mr. Amin had nothing more than two cups of tea and two glasses of hot water without salt daily.

Then Mr. Amin cut out one cup of tea a day and a four-mile walk. The fast over he has got down to the required weight of 160 lb. and he has been eating on the four-mile walk.

THERE is a growing tendency in Dar es Salaam to build large blocks of flats, six or seven storeys high, on spacious sites in "low-density" areas of the lower part of the Tanganyika Town Planning Department's regional plan for 1954. The report says that the present practice against the town's rapid out-ward spread into areas of low amenities.

Undermining this redevelopment, it is being carried out piecemeal, the report says, and as the spaces between the new buildings become smaller, the present one-block type of development is being undermined.

CONCERN AT GRANT PROCEDURE Delay to Aberdare development

CONCERN at the Kenya Government's stipulation that County Councils should become health authorities before being eligible for large diminishing grants which have been allocated to the County Government in the Colony was expressed at the September meeting of the Aberdare County Council.

Mr. Douglas Harris stated that as the Council would not become a health authority until January 1957, the earliest date when the procedure for becoming a health authority would be completed would be January 1, 1958. This would mean that the development in the Aberdare Council area would be held up for two and a half years.

HOLIDAYS IN EAST AFRICA

Seven Days Away From The 'Madding Crowd'

This week's article by IAN McCULLOCH is adapted from his recent broadcasts and describes one way of spending a week's local leave.

A scene in Trave National Park.

seated on the little wooden platform and looked down into the blue transparent water. The hippo behaved and grunted and then finished a meal as soon as I had started to nod. It is hard to believe that the hippo is a creature of the water. It is a creature of the water. It is a creature of the water.

EYES
Your Hair Style Is YOU
 By JUDITH SIMONS

YOU will find that, having taken into account the details of their height and facial structure, trysts faithfully go with the style which you have chosen personally. They'll adapt it to minor ways. The essentials remain as constant as your signature. It is little touches which make a hair style individual.

If you are a homemaker, instead of sweeping round from day to day, you can look to the hair-dresser of the home-aid hair-dresser. You find your hair with a snare loop made from one of your father's ties — a different one for each outfit. Then for parties and dances you change it for a tassel.

Raymond's idea
 The centre parting is another simple matter, which you can do on your own. Before the combing, hair-dresser days, the combing parting, however, suits the hair which you have chosen. If you have the opportunity of a visit from your beauty is brightened.

A hair style which you choose a habit in Raymond's days. The hair which you wear and smooth down, but bringing the hair towards the face in waves.

Odd wigs can do a great job
 One of the most attractive — and, the most practical — ways of getting a wig is to use a wig cap. The wig cap is made of a material which is very soft and comfortable. It is made of a material which is very soft and comfortable. It is made of a material which is very soft and comfortable.

SWEDISH is the name given by designer Ingeborg Johansson to the soft, draped dress she wears in this type. The photograph is by Arvidsson, Stockholm. The dress was made in Sweden.

'JEWELLERY MEANS FEMINITY'

A HAMLET tucked in the red clay hills of the Rhineland - Palatinate has learned that demagoguing is a quicker way to get rich than building the proverbial better mousetrap. It is the hamlet of Idar-Oberstein.

This is the opinion of a Man Who Designs To Dazzle

Obtains a byword in the town of Idar-Oberstein. One of the backbone manufacturers of fancy jewellery is Max Koller. More than 100 employees work with brass and bronze, wood, stone and metal. The factory in Idar-Oberstein looks like a corner of paradise. It is a corner of paradise. It is a corner of paradise.

THE OUTLOOK FOR THE OIL INDUSTRY

By G. P. GLASS
of the Shell Petroleum Co. Ltd.

THE industrial revolution of the 19th century was based on coal, but since the First World War the pattern of world energy supplies has changed and coal is a non-commercial source of energy. It has been increasingly complemented by hydro-electricity, natural gas, and above all oil.

In 1920, coal had lost its predominant position in world energy supplies which it had held since 1870. The total volume of energy in 1920 was 100 million tons of oil equivalent. In 1925 it was 150 million tons, and in 1930 it was 200 million tons. Over this period, the share of oil (including natural gas) increased from 15 to 50 per cent, and the relative contribution of hydro-electricity increased from 5 to 15 per cent. The remaining 35 per cent in 1930 was made up of 20 per cent of coal and 15 per cent of gas.

They refer to the effective concentration of energy (see illustration in Chart II) as a new and essential factor in the world energy picture. The growth in importance of oil in the world energy picture has been due to many factors, of which the most important has been the development of motor cars and transport. As Chart III shows, the world's fleet of motor vehicles has risen from about 10 million in 1920 to about 100 million in 1930.

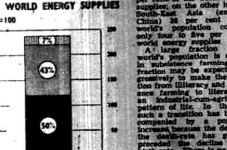

THE CHANGING PATTERN OF WORLD ENERGY SUPPLIES

Oil can clearly be based on the reasonable hope that the average number major wars will not be exceeded.

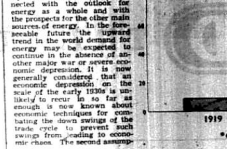

Some idea of the scope of the increase in energy supply can be gained from the present figure of 200 million tons of oil equivalent in 1930. The world's population is 2,000 million. Energy production and energy consumption in the United States, Western Europe, and the British Empire are 100 million tons of oil equivalent. The United States alone consumes 40 million tons of oil equivalent.

THE CHANGING PATTERN OF WORLD ENERGY SUPPLIES

These figures are arranged in substance having this fraction may be expected to progressively increase over the next 10 years. The oil production of the United States, Western Europe, and the British Empire are 100 million tons of oil equivalent.

HOW TO STOP PAIN

Why Phensic is better than aspirin

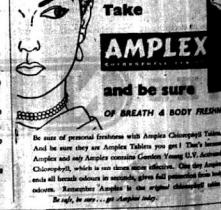

ALL THE TIME, scientific research is going on with the problem of pain—what it is, and how to cure it. And how to cure it can be measured, and the effectiveness of various pain-relieving substances tested.

The best-known of these substances is aspirin. Another very effective one is phensic. But there's something better than either—and that is a mixture of aspirin and phensic in the proportions. Such a mixture works more effectively and for longer than either one alone!

PHENSIC

Diagnose Pining with Cobalt

Cobalt is both a diagnostic agent and a remedy for Pining (Worms). If your stock show any of the symptoms of the deficiency disease—listlessness, drooping ears, listless and running eyes, moodlessness—then you can assist diagnosis by administering cobalt. If the disease is Pining and due to a shortage of cobalt, your stock will show a reaction within six hours.

Two spoons, written to assist in the diagnosis and prevention of cobalt deficiency, are now available to farmers and veterinary surgeons, and others interested in livestock

ENSILAGE
CUTTER

processes more tons of silage
faster and with less power

CLEAN CUTTING Makes Better Silage. Most Powers. From the point of view of both the livestock man and the occupational operator, quality cutting is of utmost importance. Every silo owner knows its importance, as it determines to a great degree how good the silage will be. POSITIVE FEED—No silage requires feed. Table. The lower rate is smooth, while the upper roller is ribbed impulsive further than smooth. Feed is thus prepared slightly between the two—clear in the knives—and is fed with an even, positive action. Another feature which distinguishes a man at the feed table is the large beater roller. Feed is caught between this ribbed roller and the stationary side of the feeder, and is gathered in and forced through to the commination rollers.
