

CORRESPONDENCE

2 East African Standard, Wednesday, September 27, 1955

Inter-Territorial Travel

To the Editor, "A. S. Standard".
I recently had occasion to go to the East African Standard office in Nairobi. I was there for a few days and was struck by the amount of correspondence that I had not only received but also had to answer. I have done this with very little time to spare and I am sure that the only way to improve the situation is to have a central office for the East African Standard in Nairobi. I am sure that this would be a great improvement and I am sure that the Government should consider this as a matter of priority.

On attending the meeting of the East African Standard in Nairobi, I was struck by the amount of correspondence that I had not only received but also had to answer. I have done this with very little time to spare and I am sure that the only way to improve the situation is to have a central office for the East African Standard in Nairobi. I am sure that this would be a great improvement and I am sure that the Government should consider this as a matter of priority.

Flood Relief Appeal

To the Editor, "A. S. Standard".
I have been thinking about the flood relief appeal in the East African Standard. I am sure that the Government should consider this as a matter of priority. I am sure that the Government should consider this as a matter of priority.

NAIROBI CAR PRICE BOOM ENDS

Dear ex Salaam dealers suffer

A SHARP fall in the prices of second-hand cars in Nairobi and a boom in prices in Dar es Salaam has ended the speculation of dealers who bought cars in Nairobi and drove them to Kenya for quick resale at a profit.

Some of the cars are now being taken to Kampala and others to a good profit in the north.

It is believed that the dearth of second-hand cars in Nairobi and a boom in prices in Dar es Salaam has ended the speculation of dealers who bought cars in Nairobi and drove them to Kenya for quick resale at a profit.

Another dealer says that certain prices are being paid for cars in Nairobi, dependent on their condition. He says that the value of many cars is being maintained by a dealer who has bought a car and sold it to another dealer who has bought it to make an offer for a car to a third dealer.

Big difference
Last month there was a big difference in prices between Nairobi and Dar es Salaam. It was observed that the price of a car in Dar es Salaam was higher than in Nairobi. This was due to the fact that the price of a car in Dar es Salaam was higher than in Nairobi.

Standard Diary
The Standard Diary is a book which contains a list of the names of the members of the Standard Club. It is a book which contains a list of the names of the members of the Standard Club.

Mr. B. S. Loh, of Peshawar, Pakistan, arranged a meeting of French sailors in Nairobi to discuss the possibility of a French ship being chartered for the East African coast.

French warships to visit Mombasa next month

SPORTING EVENTS BEING ARRANGED

MOMBASA will receive a visit from two ships of the French Navy next month. They are the minisubmarine 'Monsieur' and the patrol vessel 'Gazelle'. The 'Monsieur' was originally scheduled to call at Mombasa on September 30 on her way to her base at Diego Suarez.

NEW PREMIER

Mr. P. Van Der Stoep, Chief Minister of the Orange Free State, has been appointed Premier of the Union of South Africa.

VEGETABLE GROWERS' PROFIT

Vegetable growers in the Taita-Taveta region are enjoying a bumper crop of produce. This is due to the fact that the weather has been very favourable.

Attempt to harm race relations alleged

SIXHS ACCUSE MR. MANGAT
M. N. S. MANGAT, Q.C., president of the Kenya Indian Community, was accused yesterday of trying to injure relations between Europeans and Sikhs. A statement issued by the Central Sikh Society, Nairobi, accused Mr. Mangat's suggestion that the Sikhs should be expelled by a few well-known, but unrepresentative, European.

BUS COMPANY TO EXTEND SERVICES AT NAKURU
An application by the Nairobi Valley Transport Co. to extend its services was granted at a meeting of the Nairobi Transport Committee yesterday of the Transport Licensing Division.

Not on merit
The statement said that the Nairobi Valley Transport Co. had a number of applications for extension of its services to other parts of the district.

Wholly in favour
Revolutionary attempts were made to disrupt the transport services in Nairobi. The Board, however, was wholly in favour of the extension of the services.

Unfair competition
The application was not put to a public inquiry. The Board, however, was not satisfied that the applicant was not in a position to compete fairly with other transport services.

The complete workshop facilities now available at the R.O.E.C. buildings in Diagon Road cover all types of repair and maintenance work. Large stocks of spares are held for all models, and expert maintenance by Mr. H. G. Sixts covers prompt and efficient work.

CHALLENGE!

RING THE BELL WITH YOUR NEXT CAR
The glitters of chrome, the glint of polished, the flash of a fair facade, can be terribly tempting, but the intelligent motorist looks beyond. The New Austins have that smooth look of quiet efficiency, and have been designed with a strong sense of value which inclines more towards the practical. Power unit, chassis, suspension, conduct have been built in the true Austin tradition of dependability.

It doesn't need planning! The sturdy Newmaid Vacuum Cleaner is built to give maximum service with minimum care. Not dependent on electricity! Newmaid has a revolving brush to pick up dirt, dirt, dust, and is motorized so which creates a powerful suction for pulling up embedded dirt. The important difference, of course, is that Newmaid's power is self-contained, automatic, and not dependent on electricity.

A disinfecting power! Because of its lightness and manoeuvrability Newmaid is equally effective for quick, daily tidying, but really clean-up or carpeted floors. PRICE \$185. 1407.

FRIGHTENING DAMAGE TO WATER SOURCES

Research expert warns on changes in use of land

FRIGHTENING damage is being done to the mountain water catchment areas of East Africa, the Deputy Director of the E.A. Agricultural Research Organisation yesterday in Nairobi. He said that the catchment areas are being damaged mainly from the population changes which depend on them for their livelihood. "Very few people are now settling in the low-lying areas and the high-lying areas are being cleared for agriculture as well as other uses. This is the correct management of the catchment areas," he said. "We have already had a number of practical experiments with both the methods of clearing and the methods of re-planting. The results have been very satisfactory. It is now possible to re-plant the catchment areas with a mixture of trees and shrubs which will give a permanent cover. This is the correct management of the catchment areas."

Small in amount
The Deputy Director said that the amount of water available in the catchment areas is being reduced by the changes in land use. He said that the amount of water available in the catchment areas is being reduced by the changes in land use. He said that the amount of water available in the catchment areas is being reduced by the changes in land use.

Tree species
Dr. Pereira said that the most important tree species for the catchment areas are the acacia, the eucalyptus, and the grevillea. He said that these trees are being planted in the catchment areas to replace the trees which have been cleared. He said that these trees are being planted in the catchment areas to replace the trees which have been cleared.

Water carried by gravity pipelines
The Deputy Director said that the water is being carried by gravity pipelines from the catchment areas to the towns. He said that these pipelines are being built to replace the old pipelines which were built many years ago. He said that these pipelines are being built to replace the old pipelines which were built many years ago.

Planning for maximum usefulness

HOPE TO SOLVE STAFF PROBLEMS

The job was too important to be left to chance, the Deputy Director said. He said that the staff problems are being solved by the Government. He said that the staff problems are being solved by the Government. He said that the staff problems are being solved by the Government.

Direct approach
The Deputy Director said that the Government is taking a direct approach to the staff problems. He said that the Government is taking a direct approach to the staff problems. He said that the Government is taking a direct approach to the staff problems.

125 schemes
The Deputy Director said that there are 125 schemes for the development of the catchment areas. He said that these schemes are being implemented by the Government. He said that these schemes are being implemented by the Government.

Lack of knowledge
The Deputy Director said that there is a lack of knowledge about the catchment areas. He said that this lack of knowledge is being overcome by the Government. He said that this lack of knowledge is being overcome by the Government.

Small farm dams
The Deputy Director said that small farm dams are being built in the catchment areas. He said that these dams are being built to provide water for the farmers. He said that these dams are being built to provide water for the farmers.

Rules of procedure
The Deputy Director said that the Government has laid down rules of procedure for the catchment areas. He said that these rules are being followed by the Government. He said that these rules are being followed by the Government.

Chronic complaint
The Deputy Director said that there is a chronic complaint about the catchment areas. He said that this complaint is being solved by the Government. He said that this complaint is being solved by the Government.

Share liability
The Deputy Director said that there is a share liability for the catchment areas. He said that this liability is being shared by the Government. He said that this liability is being shared by the Government.

Share liability
The Deputy Director said that there is a share liability for the catchment areas. He said that this liability is being shared by the Government. He said that this liability is being shared by the Government.

GRAVITY PIPELINES FOR FARMS FORECAST

Great potential in Kenya

WATER carried by gravity pipelines to farm boundaries was one of the important developments envisaged by the chairman of the Kenya Water Resources Conference, Mr. Gen. J. K. Edwards, in his opening address in Nairobi.

He said that the form of water supply which is of most interest to the farmer is gravity supply. He said that gravity supply is being used in the catchment areas. He said that gravity supply is being used in the catchment areas.

Works stage
The Deputy Director said that the works stage is the most important stage in the development of the catchment areas. He said that the works stage is the most important stage in the development of the catchment areas.

Rules of procedure
The Deputy Director said that the Government has laid down rules of procedure for the catchment areas. He said that these rules are being followed by the Government. He said that these rules are being followed by the Government.

Mau Mau shelled from showground

20,000 MERU CROWD AREN

A DEPARTMENT OF THE HISTORY OF KENYA announced that it had shelled a Mau Mau lair ten miles deep in the Meru forest, Kenya. Children accompanied their mothers on the ground as 20,000 shells were fired from a gun drawn up the central arena.

The shelling impressed the Mau Mau, who were ordered to leave the area. The shells were fired from a gun drawn up the central arena. The shelling was a success and the Mau Mau were ordered to leave the area.

HERD OF PIGMY ELEPHANTS IN LAMU AREA

A herd of pigmy elephants, believed to be the first of its kind in the Lamu district by the East Africa Game Reserve, was seen in the area. They had been seen in the area for the first time.

Mr. Foster shot one of the herd when they raided a plantation. Some of the elephants stood on their hind legs and the smallest, a pigmy elephant, was only four feet high, against the usual height of 8 feet.

Under the direction of the District Commissioner, Mr. A. T. Hart, 120 elephants which were impounded and watered in the adjacent forest in the Lamu district. The elephants were seen in the area for the first time.

APPOINTMENT OF RAILWAY ENGINEER

THE LIFE OF A DICTATOR

NINE STORMY YEARS IN THE LIFE OF A DICTATOR

President Peron, after nine turbulent years as dictator of Argentina, made a dramatic effort on Monday night to hand over the message to broadcast to the world by Mr. Minister Gen. Peron who called for a ceasefire...

GEN. JUAN DOMINGO PERON, a one-chieftain soldier who has ruled Argentina's dominant position since 1946, has announced that he will retire from public life...

Peron's departure from public life has been announced in a statement broadcast to the world by his wife, Mrs. Eva Peron...

CRASH OF THE HIGHEST CLASS BY TOURING SIDE

Visit drew bumper crowds to Nairobi Club

Visit to Nairobi of the six British squash racketeers — who showed no signs of a diminution of power after a very strenuous six-week tour of Kenya in both the day and night matches — drew exhibitions of their exhibitionary prowess in the grand gallery of the Nairobi club to a record of 715 spectators.

The first match was between the first and second seeds, the first and second seeds of the game and was a great success. The match was played in a very close and exciting manner.

The touring team left Nairobi last evening for a visit to the Nairobi club which has been the British players' headquarters in Kenya. They were accompanied by six members of the club and a large party of spectators.

Most exciting match

The first match of the tour was the most exciting of the tour. It was played between C. H. Brown, club K.A.F. captain, and the 1951 Army champion, who was a very strong player.

Brown got off to a splendid start, winning the first game and broke through a great defence wall of the second game, two games all.

The Kenya players were all very good and it was a very close and exciting match. The match was played in a very close and exciting manner.

England's soccer team v. Denmark

England's soccer team will meet Denmark in London on Saturday. The match is expected to be a very close and exciting one. The England team is expected to be in good form after a successful tour of the Continent.

The match is expected to be a very close and exciting one. The England team is expected to be in good form after a successful tour of the Continent.

Women's Open golf meeting at Njoro

A Women's Open Golf meeting will be held at Njoro on Saturday. The meeting is expected to be a very successful one. The women players are expected to be in good form.

S.V.L.G. tennis

The S.V.L.G. tennis tournament will be held at Njoro on Saturday. The tournament is expected to be a very successful one. The players are expected to be in good form.

BRITISH ATHLETES PLAN 'REVOLUTION'

BRITAIN may show the world a thing or two at the 1956 Olympic Games at Melbourne, writes Dennis Manning. Modern British stars realize that individual ability is insufficient. To match the Russians it is necessary to adopt the Soviet system of training.

Modern British stars realize that individual ability is insufficient. To match the Russians it is necessary to adopt the Soviet system of training.

Very high opinion

The British stars have a very high opinion of their own abilities. They believe that they can compete with the best in the world.

Have been scolded

The British stars have been scolded by their coaches. They believe that they can compete with the best in the world.

The British stars have been scolded by their coaches. They believe that they can compete with the best in the world.

South Africa recalls the winning XV

South Africa has recalled the winning XV of the 1951 tour of the British Isles. The team was led by the captain and was a very successful one. They won all their matches.

Composition of side

The composition of the side is expected to be a very strong one. The players are expected to be in good form.

Hydroplane record

A new hydroplane record has been set. The record is expected to be a very successful one. The record is expected to be a very successful one.

A new hydroplane record has been set. The record is expected to be a very successful one. The record is expected to be a very successful one.

European hockey season gets off to promising start

The 1951 European hockey season has begun last night with a very successful start. The teams are expected to be in good form.

Police find form

The police have found form in their recent matches. They are expected to be in good form.

Four clear cut winners

Four clear cut winners were seen in the recent matches. They are expected to be in good form.

Four leading scorers

Four leading scorers were seen in the recent matches. They are expected to be in good form.

Boys improve

The boys have improved in their recent matches. They are expected to be in good form.

Prolonged night life

The boys have enjoyed a prolonged night life in their recent matches. They are expected to be in good form.

6 REASONS for using BP higher anti-knock PLUS BP 08

1. Quicker starting

2. Better acceleration

3. Smoother running

4. Longer periods between overhauls

5. More miles per gallon

6. Prolonged night life

The motor spirit for peak power per piston **BP PLUS BP 08**

Motor spirit has now a new higher anti-knock value and contains a new additive. BP 08 — developed by BP research — is made more available from most regions. It is a more powerful motor spirit but BP 08 is well. This new additive stabilizes the engine chamber deposits, keeps pistons rings, valves and spark plugs in first-class order and maintains full compression. As every motorist knows, this means more power — better all round performance.

TURPIN BATTERS PLUCKY 'POLLY'

British champion may be in line for world title

RANDOLPH TURPIN, the British and Empire Light Heavyweight champion, captured Eddie 'Polly' Smith of Bermuda, over ten rounds at Birmingham on Monday. It was Turpin's first fight since a recent win in a special operation and also his first fight since he won the British title from Alex Buxton in April last.

The few punches Turpin threw from Smith were mostly to the body but they did no apparent harm to the British champion, who finished practically unscathed.

In contrast, the Bermudian had a few eye stings and pulled his face during the fight. He was bleeding from nose and mouth and showed considerable facial swelling. The leading timekeeper estimated second round after a punch with Eddie and Eric Williams of 12 points.

At the end of the contest, Turpin, who had lost his first fight in the championship, Williams was placed fourth.

Unlucky rider
Thoughtless man of the championship was Crutcher who took a spill of the gentleman rider when he had a sudden change of will in the title.

On the evening challenge, Crutcher's "Frustrator" and Williams' "Sweetie" shared the ride with Crutcher and Jack Young. Crutcher's "Frustrator" was ridden by Crutcher himself. Crutcher's "Frustrator" was ridden by Crutcher himself. Crutcher's "Frustrator" was ridden by Crutcher himself.

Paul Jones, of Glasgow, administers the coup de grace to plucky Eddie 'Polly' Smith of Bermuda, over ten rounds at Birmingham on Monday. Turpin, former Empire Light Heavyweight champion, won his first fight since he won the British title from Alex Buxton in April last.

Some astonishing bowling in up-country cricket

R. D. HOOPER, of the Nairobi club, and his last pair were the best together in the first round. He took 112 wickets in 112 overs.

For the opening morning, the Nairobi club was the best. He took 112 wickets in 112 overs. He took 112 wickets in 112 overs. He took 112 wickets in 112 overs.

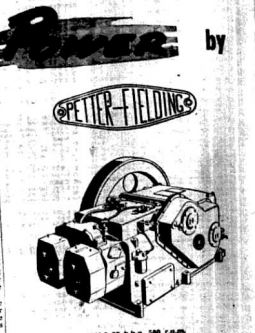

Only mild support on Autumn double

FROM LAD, trained by S. Ingham at Epom, was only mildly supported for the Victoria Club challenge on the "Autumn Double" races on October 20 - both runs at Newmarket. Epom had finished sixth favourite at 100-1, followed by the 20-1 public favourite by last year's winner, R.A.F. badminton defeat.

On a recent evening an Army badminton team, captained by R.A.F. at Eastleigh. In a previous month played at the Newmarket Regiment Drill Hall. The R.A.F. turned the tables by 10-0.

Attention is drawn to the fact that the Service open partnership class and three meet in the afternoon. There will be a large number of spectators and the match will be a very interesting one.

For other sport see page 13

'Independent' water call by Kenya

DEVELOPMENT PLAN WANTED

Experts from all branches of Kenya's water administration unanimously called for the establishment of an independent technical department for water development "at the earliest possible moment" when the recommendations of the Royal Commission were discussed at the Water Conference.

The conference, which met in Nairobi on Tuesday, also asked that a vigorous programme of hydrological development and hydrological surveys be initiated in the undeveloped areas with a view to their development. The conference also urged that the water catchment areas be protected and the water catchment areas be protected and the water catchment areas be protected.

Water was essential for the development of the country, the water had to be developed in order to meet the requirements of the country, the water had to be developed in order to meet the requirements of the country.

The conference approved all but one of the recommendations of the Royal Commission. The conference also urged that the water catchment areas be protected and the water catchment areas be protected.

No separation of the water catchment areas from the water catchment areas was recommended. The conference also urged that the water catchment areas be protected and the water catchment areas be protected.

Approval was given to a water catchment areas committee to be set up to advise the government on water catchment areas. The conference also urged that the water catchment areas be protected and the water catchment areas be protected.

The conference recommended that the water catchment areas be protected and the water catchment areas be protected. The conference also urged that the water catchment areas be protected and the water catchment areas be protected.

Cheese makes a good meal

CHEESE is one of the best body-building foods you can buy. It actually contains more concentrated body-building protein than almost any other food!

CHEESE is the ideal food for growing children. About eight pints of milk go to make every pound of cheese.

CHEESE is a valuable food for elderly people, who need plenty of body-building protein and calcium to maintain them in good health.

CHEESE is one of the most readily and completely digested of all foods.

Good nourishment costs less with CHEESE

especially if it is

AGREEMENT ON COFREC FEDERATION

Aim to establish closer link between E. Africa exchanges

AGREEMENT in principle on the formation of a Federation of Co-operative Federations on an East African basis has been reached by the representatives of the Kampala, Nairobi and the Kenya Co-operative Federations, which met in Kampala, Nairobi on his annual report by Mr. J. H. Campbell, Director of Co-operative Societies, Ministry of Industry. He also stated that the Kenya Co-operative Federation will meet next Thursday to discuss the formation of a sub-committee to study ways and means of bringing the present co-operative activities on a common basis.

The agreement was proposed to be drawn up by the representatives of the Kampala, Nairobi and the Kenya Co-operative Federations, which met in Kampala, Nairobi on his annual report by Mr. J. H. Campbell, Director of Co-operative Societies, Ministry of Industry. He also stated that the Kenya Co-operative Federation will meet next Thursday to discuss the formation of a sub-committee to study ways and means of bringing the present co-operative activities on a common basis.

Good crop expected

Of the crop, Mr. O'Connell says it should be a large one, and that the weather has been very good since the middle of August. The crop of 15,000 tons is expected.

The mango crop may be probably be the richest of 20 years, and the early crop is expected to be a bumper one. A new type of mango, called 'Golden Wonder', was introduced by the Government and is being planted in many areas.

NON-ESATE CROP SALES IN UGANDA

THE first sale of non-estate crops in Uganda has taken place at the Uganda Co-operative Societies Association, Kampala, on September 19, 1955. The sale was held in the presence of Mr. J. H. Campbell, Director of Co-operative Societies, Ministry of Industry, and Mr. J. H. Campbell, Director of Co-operative Societies, Ministry of Industry.

Higher pay for 1,400 Mombasa Africans

THE Government has announced that it will increase the wages of 1,400 Mombasa Africans. The increase is being granted to the employees of the Mombasa Municipal Council, who are employed in various capacities.

European 'lost on Coast trip

A 45-year-old European, Donald James, was reported to be missing on a boat trip along the East African coast. The boat was carrying a party of tourists.

N. PERON TAKES REFUGE IN GUNBOAT

New president to be sworn in today

POLITICAL PRISONERS FREED: CAPITAL CALM

EX-PRESIDENT PERON is aboard a Paraguayan gunboat lying in Buenos Aires harbour, according to the Paraguayan Ambassador, Sr. Juan Chavez, who said that he personally escorted the ex-president on board after he had sought asylum and transport to Anuncion. Sr. Chavez stated yesterday that he had obtained a safe conduct pass from the revolutionary junta for Gen. Peron and his family, and that the Argentine Foreign Ministry for permission for the gunboat to sail. Unfortunately, the country did not have a Government with sufficient authority to allow a foreign warship to navigate in Argentine waters.

It seemed likely late last night that Gen. Peron would be hailed for the inauguration of the rebel leader, Gen. Eduardo Lonardi, before he could have safely. Gen. Lonardi's triumphant entry into Buenos Aires from his provincial seat at Cordoba, however, has been postponed until today to enable the last pockets of Peronist loyalists to be cleared up. It is understood that the rebel want to eliminate all danger of snipers or other trouble-makers.

The Paraguayan Ambassador said that Gen. Peron was in good health but that he was showing signs of "mortal strain and spiritual depression." Before he could have safely, a curfew has been imposed over wide areas, crowds have been turning photographs of Gen. Peron and his late wife, Eva, in streets and squares. The rebel junta of Buenos Aires was lifted after a Gen. Peron was taken to a Gen. Lonardi was to be sworn in as president.

U.S. HOPES FOR 'A HEALING DECADE OF TRUE PEACE'

HOPE that the next ten years would be "a healing decade of true peace" were expressed by the U.S. Secretary of State, Mr. Dulles, at the U.N. General Assembly meeting in Geneva. Mr. Dulles said that the Geneva meeting was a "historic" one, marking the beginning of a new era of peace and cooperation. He stated that the U.S. was committed to a policy of "peace with honor" and that the Geneva meeting was a step towards achieving this goal. He also mentioned that the U.S. was committed to a policy of "peace with honor" and that the Geneva meeting was a step towards achieving this goal.

U.N. REJECTS APPEAL TO DISCUSS CYPRUS

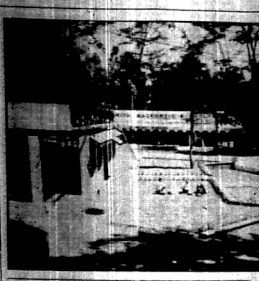

BRITISH troops in all parts of Cyprus were alerted yesterday to deal with any disturbances which may follow a committee's decision to discuss the Cyprus question. The committee, which is to discuss the Cyprus question, is expected to meet in Geneva on September 24. The British government has expressed its opposition to the committee's decision to discuss the Cyprus question.

Dismissed Men Strike After Dock Strike

Men who were dismissed from work after the dock strike in Liverpool have today begun a new strike. The men, who were dismissed from work after the dock strike, are now striking against the new management. The new management has refused to reinstate the dismissed men, and the men have decided to strike again.

Linier captain dead

A Linier captain was killed today in a collision with a ship in the Irish Sea. The captain, who was on board the Linier, was killed when the ship collided with another ship. The accident occurred in the Irish Sea, and the captain was killed as a result of the collision.

MALTA 'CANNOT COMPROMISE'

Premier on citizenship issue

The Prime Minister of Malta, Mr. Dom Mintoff, said in London that the problems of the island could never be solved unless its 317,000 inhabitants are made to believe that they are no longer "natives" but British. "There cannot be a second-class citizenship," he told the Parliamentary conference which is considering his proposal that the island should be integrated with Britain and have direct representation in the House of Commons.

West to discuss Russian disarmament message

Proposals still kept secret. BRITAIN, France and the United States will begin today a consultation shortly after a Russian disarmament message delivered in the three Western capitals. Sir Anthony Eden yesterday informed the British Cabinet of the message which was received personally by the Prime Minister, Marshal Bulganin.

Second Cabinet on spy disclosures

Mr. Anthony Eden yesterday morning at the Cabinet would meet to discuss the disclosures of spy activities in the United Kingdom. The disclosures, which were made in a report by the Security Service, revealed the names of several individuals who were suspected of being spies.

Minister's Visit

The South African Minister of Education, Mr. Hendrik Verwoerd, is expected to visit the United Kingdom in the near future. Mr. Verwoerd is expected to visit London and other parts of the United Kingdom to discuss educational matters with British officials.

Dismissed Men Strike After Dock Strike

The new management has refused to reinstate the dismissed men, and the men have decided to strike again.

Uganda's need for produce

'FIRST PRIORITY' RATING BY SIR ANDREW COHEN

INCREASED production must be given first priority in Uganda during the next 12 months, Sir Andrew Cohen, the Governor of Uganda, told members of the Provincial Council yesterday. Sir Andrew said that the Provincial Council's newly constituted Legislative Assembly at the opening session in Kampala yesterday.

Kabaka's return date proposed

The Colonial Secretary has written to the Kabaka of Buganda proposing October 11 as the date for the Kabaka's return to his country. The Kabaka, who has been in exile since 1946, is expected to return to his country in the near future. The Colonial Secretary has proposed October 11 as the date for the Kabaka's return.

New Justice of Appeal for Kenya

Mr. Justice Roger Sewell, a former Justice of Appeal in Kenya, has been appointed as the new Justice of Appeal for Kenya. Mr. Sewell, who was previously a Justice of Appeal in Kenya, has been appointed to the post of Justice of Appeal for Kenya. He will be the first Justice of Appeal for Kenya to be appointed from outside the country.

West to discuss Russian disarmament message

Proposals still kept secret. BRITAIN, France and the United States will begin today a consultation shortly after a Russian disarmament message delivered in the three Western capitals. Sir Anthony Eden yesterday informed the British Cabinet of the message which was received personally by the Prime Minister, Marshal Bulganin.

Second Cabinet on spy disclosures

Mr. Anthony Eden yesterday morning at the Cabinet would meet to discuss the disclosures of spy activities in the United Kingdom. The disclosures, which were made in a report by the Security Service, revealed the names of several individuals who were suspected of being spies.

Minister's Visit

The South African Minister of Education, Mr. Hendrik Verwoerd, is expected to visit the United Kingdom in the near future. Mr. Verwoerd is expected to visit London and other parts of the United Kingdom to discuss educational matters with British officials.

Linier captain dead

THE STATE DEPARTMENT in Washington today announced that the British Consul in London had expressed his sympathy for the British Government's policy of opposing the return of a Soviet Army officer who was charged with the murder of a British soldier in the Korean War. The officer, who was a member of the British Army, was charged with the murder of a British soldier in the Korean War.

Lord Malvern opens water, scheme

QUE QUE'S INITIATIVE PRAISED

The Federal Prime Minister, Lord Malvern, opened the new water works at the Que Que's dam on the 21st. The ceremony started a week of celebrations to mark the Que Que's dam, the township of Malvern. Lord Malvern congratulated the township on their initiative in building the water works, although he had no doubt that many of them might feel they were spending too much. But they should remember the dictum that "You can't make it if you don't put it in there." "I hope the dam will do more than just supply water, but will be a source of pride to the township."

INQUIRY INTO POSSIBILITIES FOR FARMING IN KAFUE AREA

Three scientists will arrive in Lusaka from Holland soon to conduct preliminary investigations into the possibilities of farming in the Kafue Flats in Northern Rhodesia. At present the flats are largely unproductive. Their work will extend about two months. It will be concerned with irrigation, soil fertility, and the availability of water. The scientists will be accompanied by a team of local staff.

Case studies

Two case studies, one on the development of the Kafue Flats and the other on the Kafue Flats, will be presented at the annual meeting of the African Agricultural Union in Lusaka. The studies will be presented by the scientists who are currently working on the Kafue Flats. The studies will be of interest to all those concerned with the development of the Kafue Flats.

Expert's visit aims to improve chilled beef

An expert report on chilled beef is being prepared by the Agricultural Commission in Salisbury. The report will be of interest to all those concerned with the production of chilled beef in the Federation. The expert is currently in the country and will be visiting various parts of the country.

News of the day

Drinking water in Que Que's dam has been found to be of good quality. The dam is now open to the public and will be a source of pride to the township. The dam will supply water to the township and will be a source of pride to the township.

Project could free 400,000 useless acres

LAKE PROBLEM IN SHIRE V ALLEY

SHIRE V ALLEY project would enable 400,000 acres of useless land to be reclaimed. The project is being undertaken by the Shire Valley Development Corporation. The project will involve the construction of a dam and the creation of a lake. The lake will be used for irrigation and will also be a source of water for the township.

Shire in danger

The Shire Valley project is in danger of being abandoned. The project is being undertaken by the Shire Valley Development Corporation. The project will involve the construction of a dam and the creation of a lake. The lake will be used for irrigation and will also be a source of water for the township.

Unofficial sailing on Lake Naivasha was great success

'Standard' Special Correspondent

THERE was no "official" sailing on the Lake by boats of the Naivasha Yacht Club last Sunday but there was, none the less, a good turnout of boats and some most interesting sailing. An impromptu race for "ladies" was sailed in the morning and two races in the afternoon for the men.

There is no doubt that the new handicapping system has the sailing clubs interested and the sailing clubs are now requiring further adjustment. The Kenya Yacht Club, Nairobi, respectively, was second in both races.

£100,000 SPENT ON STANDS AT ROYAL SHOW

U.N. LIKELY TO DISCUSS APARTHEID

Danger of foot-and-mouth disease main worry

Strong protest by South Africa

SOUTH AFRICA'S treatment of people of Indian origin and the United Government's policy of apartheid are the main subjects of discussion on the agenda of the tenth United Nations General Assembly in New York by its steering committee. The United Nations Secretary-General U. Thant, who is heading the delegation, said that there was a "real question" about the participation of the Government of South Africa in the United Nations. He said that the Government of South Africa was "strongly protesting" against the United Nations' decision to discuss apartheid.

EUROPEAN traders and industrialists in East Africa are spending £100,000 to ensure that they occupy an important place in Kenya's annual show window— the Royal Show. All but half of the £100,000 is being spent on stands at the 127 fairs held annually by the Ministry.

The show, to be opened on September 27, is the largest and most exciting event of the show. It will be daily visited by thousands of people. The Minister of Agriculture, Mr. Mundiri, promises to be the chief attraction. The show is expected to be the largest and most exciting event of the show. It will be daily visited by thousands of people. The Minister of Agriculture, Mr. Mundiri, promises to be the chief attraction. The show is expected to be the largest and most exciting event of the show. It will be daily visited by thousands of people. 16 SIX REASONS

for using BP higher anti-knock PLUS BP 08

1. Smoother running
2. Quieter running
3. Better mileage per gallon
4. Longer life
5. Better protection
6. More miles per gallon

BP motor spirit has a new higher anti-knock rate and contains a new additive—BP08—developed by BP research to make more power available from your engine.

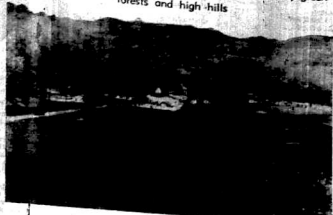

Not only a more powerful motor spirit but BP08 as well! This new additive minimises combustion chamber deposits, keeps piston rings, valves and spark plugs in first-class order so maintaining full compression. As every motorist knows, this means more power—better all round performance.

The motor spirit for peak power per piston

BP PLUS BP 08

HIGHLAND DELIGHTS WITHIN A BISCUIT-TOSS OF THE COAST

ALAN NEVILLE contributes this week's article in the series—a description of the Usambara Mountains of North-East Tanganyika which, he says, offer fishing, riding, tennis, golf, walking, or just a peaceful rest amid green fields, green forests and high hills

A view of part of Usambara.

...fishing, riding, tennis, golf, walking or just a peaceful rest amid green fields, green forests and high hills. All of these things are among the highlights of a holiday in the Usambara mountains of the north-east coast of Tanganyika. These highlands can be enjoyed literally a biscuit toss from the coast.

The western edge of the Usambara Massif up sharply to 8,000 or 7,000 feet (2,600 or 2,300 feet) and in some parts to 4,000 feet (1,300 feet) or lower. The Usambara Massif is a part of the East African Rift system. It is a part of the East African Rift system. It is a part of the East African Rift system.

African boys from whom to choose your guide. But it is still unimproved Africa, and has many excellent features. There are some excellent features. There are some excellent features.

And that is the best of things that can be said of the whole of the Usambara as a holiday centre. There are some excellent features. There are some excellent features.

They do it with this lovely view. It is high and steep hills, so few and narrow the valleys, so judiciously winding the rivers, that the Usambara Massif is one of the most beautiful of mountain ranges in the world.

There is a motorable road from the coast to the top of the mountain. It is a part of the East African Rift system. It is a part of the East African Rift system.

There is a motorable road from the coast to the top of the mountain. It is a part of the East African Rift system. It is a part of the East African Rift system.

WHITEWAYS CYDER

A GOOD DRINK IN ANY CLIMATE

SNATCHED Into SPACE?

HERE Mr. Jessup introduces a series of articles, which we shall start publishing next week. He demands that we do not lose sight of the fact that he is not a scientist, but a layman, and he is not a scientist, but a layman, and he is not a scientist, but a layman.

It was on June 24, 1947 that—many people still imagine—Flying saucers were born. A businessman of Boise, Idaho, Mr. Kenneth Arnold was on his way from Chubbuck to Yakim, Washington, flying in his private plane for a bright flash in the sky.

Looking in the direction of Moscow, he saw what he described as five oval-shaped objects, each approximately 4000 feet in diameter, flying in a line.

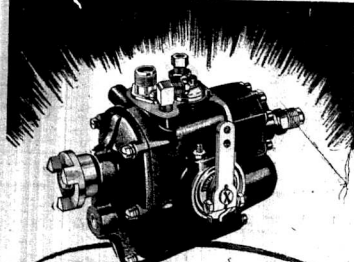

Since that remarkable day, thousands of other sightings have been reported and verified, and still the question must be asked, "What are they?"

A NEW REVOLUTIONARY THEORY ABOUT FLYING SAUCERS... by M. J. JESSUP, noted American archeologist and explorer, instructor in Astronomy at Michigan University.

There was no fossil, no hallozoic system of earth and planets, no fossil dinosaurs. It has only been a matter of time before their existence was established.

* BIGGEST ADVANCE SINCE INTRODUCTION OF C.I. ENGINES!

Revolutionary fuel System for CUMMINS DIESELS MEANS GREATER EFFICIENCY... LOWER MAINTENANCE COSTS

The revolutionary CUMMINS PT Fuel System takes the mystery out of diesel operation and simplifies servicing. The new PT System is so simple, has so few parts and is so trouble-free that any mechanic can handle maintenance.

CUMMINS DEFENDABLE DIESELS 60-600 h.p.

PERSONALITIES OF THE KENYA STAGE

By Lesley Clay

SHORTLY after I arrived in Kenya I turned on the radio and heard what I can only describe as a rich, fruity voice reading the news. On investigating who it was I was told it was an off-hand sort of way. "Oh, it's probably just one of the Prince of Wales' schoolmasters who's popped over the wall to read a piece."

Not very enlightening you will agree, and it was not until I met Vincent Cable and Wynones that I met the voice's owner, plain-chested cheerful Bob Woolford, full of bonhomie and endearing and unbothered over with job *de* vivre.

Bob Woolford arrived in Kenya in 1927 "on spec" he worked on a farm for a year or two, then he went to London to study for a year or two, then he was in April, 1931, and worked as an announcer on the Radio Station until the outbreak of war when it was revealed from the Reserve, fought in the Abyssinian campaign with the R.A.F., and was also on the staff of the 11th Division. From there he went to 21st E.A.B., and on to British Somaliland as staff captain in charge of prisoners-of-war at Berbera. On returning to Kenya he transferred to the Africa Police Corps, then to the Royal Air Force where he took a short service commission in 1932 with the E.A. Pioneer Corps which had been re-formed. He has been in the Central Zone ever since until recently he returned to help with the discharge of troops. Needless to say, while in the Central Zone Bob was not idle on the radio side. He ran the "Zanzibar" programme and belonged to the Green House Club.

When he first came out here, Bob Woolford was one of the "old hands" of the "Zanzibar" programme and was as fit as a fiddle in the "Zanzibar" of the Show, then he played football in the "Zanzibar" and, appearing as Despard Mazarotti in "Rudolph", he also painted the scenery. He never took any singing lessons but used to put on gramophone records of the shows he was in and learned the words from them. In 1931, he appeared with James Malar and many other Kenya "stage names" in "Zanzibar".

Michael Holmberg

WHILE he was a radio announcer, Bob fitted in as well as he could on an amateur apparatus for the Central Zone before they established the Studio Theatre. He was the hostmaster in "The Guinea Pig," the builder in "The Children Hour," a part he retained great interest in, and Richard O. Apperant.

Few people know that Bob is also an artist of talent. He worked with an advertising firm as an artist in the early days here and was contacted by the East African Weekly in 1932. He has two boxes in the service club in the Central Zone, the other in the Royal Posters in England.

LOOKING BACK

20 YEARS

WE march on, it is too long to tell us to stop now. So said Masoini when interviewed by a British Press correspondent about his plans for Abyssinia. At the same time, a report from Egypt revealed that 20 British ships had passed through Suez in the previous month.

In Ethiopia, meanwhile, a decree was drawn up ordering the general mobilization and compulsory military law in Abyssinia. The Emperor's signature from the Mediterranean was reported in the British press, and the battle, 14 cruizers, 29 destroyers and many other English staggered under its weight. The Department had to put up with notice asking people not to shoot them. The lines

IRENE MARTIN'S Story For The Children Patch And Koko Visit The Zoo

THE Master is taking
separated Koko to the
zoo. He says he will be
back in ten days.
Patch and Koko were
very glad to see the
Master when he came
back. They were very
happy to see him and
to hear that he was
back in ten days.
They were very glad to
see the Master when he
came back. They were
very happy to see him
and to hear that he was
back in ten days.

Five-year-old Janet Low, of Hartford, made this illustration for the story about Patch and Koko and the bear.
"Five is cream, please," he
said. "Five is cream, please,"
he said. "Five is cream, please,"
he said. "Five is cream, please,"
he said.

THE THINGS THEY SAY...

No life can include all
experiences. There is
only so much that a
man can do. He must
choose his path.
He must choose his
path. He must choose
his path. He must choose
his path. He must choose
his path.

WATER SCHEMES TO AID KENYA COLONY

Irrigation and resettlement

IRRIGATION schemes, capable of absorbing many thousands of families, will play an important part in resettlement after the Emergency, the Minister-Delegate for Agriculture and Resettlement, Michael Blundell, said in Nairobi this week. Opening the conference of Kenya's water authorities, Mr. Blundell called on the people of the Colony to "water-orient" themselves and develop the same "water-orient" feeling about their use of water as they had over the last years.

Members of the Water Bureau, the Kenya Irrigation and Resettlement Board and the Agricultural Board and the regional water authorities, in the presence of the Commissioner of the Department of Agriculture, and the Commissioner of the Department of Resettlement, Mr. Blundell said it was hoped to solve some of the difficulties in the way of staff resettlement and return.

Although considerable progress had been made in the construction of dams - to which the use of Jews was not on few over the

These projects were great undertakings for the people of the Colony and the Government had to ensure that the most important of these projects were completed. These projects were expensive and the Government could not finance them. It was necessary to get the people to contribute towards them.

Don't be shy of the sun!

New concept

We are carrying out investigations in various Government departments and a number of private firms with a view to providing water for irrigation and using the water for other purposes.

RESPONSE

Tsetse Research

To the Editor, Sir - I am pleased to see the publication of the results of the tsetse research carried out by the Veterinary Department, in Transvaal, South Africa.

Land Tenure in Tanganyika

To the Editor, Sir - In his letter on Land Tenure in Tanganyika, the Hon. Minister for Agriculture and Resettlement, Mr. Michael Blundell, has referred to the high altitude development of the country.

Wild Life

To the Editor, Sir - The Minister for Agriculture and Resettlement, Mr. Michael Blundell, has referred to the high altitude development of the country.

Flood Relief Appeal

To the Editor, Sir - I am pleased to see the publication of the results of the tsetse research carried out by the Veterinary Department, in Transvaal, South Africa.

125 schemes

To assist 100,000 acres of potential productive land to be brought under irrigation, 125 schemes are being planned. These schemes are being planned in the future planning of water resources in the Colony.

Sense of duty

We have been examining reports on the sense of duty of the public in the Colony. The reports show that the public is showing a high sense of duty.

MORE POWER MAY GO TO REGIONS

Regional Water Boards will be established in the Colony. These boards will be responsible for the distribution of water in their respective regions.

E.A. MUSEUMS

The East African Museum is to be established in Nairobi. It will be responsible for the collection and preservation of the natural history of the East African region.

STOCK THEFTS PREVENTION

Stock thefts in the Colony are being prevented by the use of modern methods of fencing and other measures.

Cattle disease

Cattle disease in the Colony is being controlled by the use of modern methods of vaccination and other measures.

Every phase of industry

In almost every phase of industry, in a thousand and one products in daily use throughout the country, S.C.F. products play an essential part. Composites and plastics, paints and lacquers and artificial fibres are produced more effectively and more profitably with the aid of S.C.F. Modern organic chemistry is constantly developing new products and extending the use of existing ones. In close contact with S.C.F. technicians, their skill and experience can be of great value and as freely at your disposal.

WATER RESOURCES MAY LIMIT KENYA DEVELOPMENT

RECAST that water will set the limits to Kenya's development, says a report by the Public Engineer, Mr. A. S. Squire, by the Government administration. Mr. Squire, who has been in Kenya for the first time, says that the country is not rich in water resources, and that the water resources are being developed in a piecemeal fashion. He says that the water resources are being developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

The irrigation possibilities, especially between the borders of the British East Africa Protectorate and the British East Africa Protectorate, are being developed in a piecemeal fashion.

Mr. Squire said that he believed the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

He said that the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

He said that the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

He said that the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

He said that the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

He said that the water resources of Kenya would be developed in a piecemeal fashion, and that the water resources are being developed in a piecemeal fashion.

This School Teaches By Post

By CECILY MACKWORTH

THE opening of the mail is a great day. We call it a lesson a month. It comes the C.S.S. Wagon every day. It is great fun to see which one of us can get it first coming round Windy Point. Then the first start up the tractor and the other to the landing stage. They run out to the steamer and catch the mail for the day.

There are lines brought up to the mailroom in the power-plant and loaded by the mailmen. Let us take the mailroom window that would be the window with the large bag on the left side. I can see the teacher, Mr. Christy. Then the mailmen. I can see the mailmen. I can see the mailmen. I can see the mailmen.

Lighthouse home

THE first lady who writes this "Correspondence" lives in an isolated lighthouse some 20 miles from the nearest village. She is a kind of a pioneer. She has a school where she teaches the children. She has a school where she teaches the children. She has a school where she teaches the children.

Most of them are very much interested. Some of them are very much interested. Some of them are very much interested. Some of them are very much interested. Some of them are very much interested.

Dream come true

JUST over three years later, this secret school has become a reality. The school which was once a dream has become a reality. The school which was once a dream has become a reality. The school which was once a dream has become a reality.

in each other's tale. My wife is a girl I can talk and write. Some of their children speak of their lives spontaneously in the form of poetry. A girl pupil from Shiny Forest has written:

Some roads are big and some are small. Some roads are long and some are short. Some roads are straight and some are crooked. Some roads are hard and some are soft.

Deep insight

IT is thought they know and love best. Anna's play a great part in their lives and the children often seem to identify themselves with their play. This little girl of six writes from:

I have made a great play. I have made a great play. I have made a great play. I have made a great play. I have made a great play.

My mother is very kind. My mother is very kind. My mother is very kind. My mother is very kind. My mother is very kind.

Unsettled

THE only other village school in the district is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one.

They belong

THE Correspondence School has been going lately. It has been going lately. It has been going lately. It has been going lately. It has been going lately.

My mother is very kind. My mother is very kind. My mother is very kind. My mother is very kind. My mother is very kind.

Back in 1942

THE floods were not deep. The floods were not deep. The floods were not deep. The floods were not deep. The floods were not deep.

One teacher

Inaccessible

THE only other village school in the district is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one.

India To Probe Secret Of 'Lake Of Death'

By Y. M. NAIR

A PARTY of Indians is setting out this month to investigate the ridge of 200 bodies lying on the shores of Rimping Lake, high in the Himalayas north of Malabar. Local villagers in June had reported the bodies, which were reported to be those of British soldiers who had been killed in the last two years. The bodies were found in the last two years. The bodies were found in the last two years.

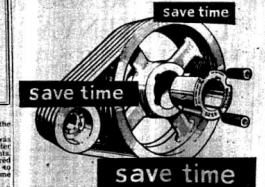

There is no mention of the bodies in any of the Government's survey maps. But the ridge has been reported to be the site of a battle between the British and the Indians. The bodies were found in the last two years. The bodies were found in the last two years.

One teacher

THE only other village school in the district is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one. It is a tiny one.

ARGENTINE LEADER ARRIVES IN CAPITAL Fate of Gen. Peron still in doubt CONGRESS DISSOLVED PROVINCES RENAMED

N.R. snub for Mr. Bevan

The Left-wing National Congress of Development Promoted by the Argentine Government, which was held in Buenos Aires from September 22 to 23, opened with a session in the presence of Mr. Bevan, British Foreign Secretary, who was snubbed by the Argentine Government.

The British Foreign Secretary, Mr. Harold Wilson, who accompanied Mr. Bevan, was snubbed by the Argentine Government. He was not allowed to see the Argentine President, Gen. Peron, and was not allowed to see the Argentine Foreign Minister, Dr. Carrizo.

The Argentine Government has also snubbed the British Government. It has refused to accept the British offer of a loan of £10 million for the development of the Argentine provinces.

The Argentine Government has also snubbed the United States Government. It has refused to accept the offer of a loan of \$100 million for the development of the Argentine provinces.

The Argentine Government has also snubbed the United Nations. It has refused to accept the offer of a loan of \$10 million for the development of the Argentine provinces.

Foreign office defended in diplomats dispute

The British Foreign Secretary, Mr. Harold Wilson, who accompanied Mr. Bevan, was snubbed by the Argentine Government. He was not allowed to see the Argentine President, Gen. Peron, and was not allowed to see the Argentine Foreign Minister, Dr. Carrizo.

The Argentine Government has also snubbed the British Government. It has refused to accept the British offer of a loan of £10 million for the development of the Argentine provinces.

The Argentine Government has also snubbed the United States Government. It has refused to accept the offer of a loan of \$100 million for the development of the Argentine provinces.

The Argentine Government has also snubbed the United Nations. It has refused to accept the offer of a loan of \$10 million for the development of the Argentine provinces.

Budaneses killed

Some 3000 Budaneses were killed and three were wounded in a battle between the British and the Argentine forces in the Argentine province of Mendoza.

The British forces were led by Major General Sir Peter de la Motte, and the Argentine forces were led by General Peron.

The battle took place on September 22, 1965, and was a decisive victory for the British forces.

GERMAN ENVOY FOR MOSCOW

Bonn approves exchange

The West German Bundestag (Lower House) approved Monday by a vote, an exchange of Ambassadors with the Soviet Union.

The Bundestag also approved a declaration that it is ready to receive the Soviet Minister, Marshal Bulginin, to Moscow to the Soviet Embassy in Bonn as soon as possible.

The Bundestag also approved a declaration that it is ready to receive the Soviet Minister, Marshal Bulginin, to Moscow to the Soviet Embassy in Bonn as soon as possible.

CONTENTS OF SOVIET NOTE DISCLOSED

Discussion of U.S. 'open skies' plan

The message sent to President Eisenhower on Monday by Marshal Bulginin, the Soviet Foreign Minister, contained the President's own observations on the Soviet proposal for an exchange of military and diplomatic relations with the West.

The message also contained the President's own observations on the Soviet proposal for an exchange of military and diplomatic relations with the West.

'Freedom' welcome for airliner passengers

ARGENTINE officials greeted passengers aboard the first British jet to fly into Buenos Aires after the Argentine revolution with the welcome of 'freedom'.

The officials also greeted the passengers with the welcome of 'freedom'.

FOUR MEN KILLED

Four men were killed and three were wounded in a battle between the British and the Argentine forces in the Argentine province of Mendoza.

The British forces were led by Major General Sir Peter de la Motte, and the Argentine forces were led by General Peron.

MINISTERS RETURN IN SAME PLANE

The British Ministers returned to London in the same plane as they left for Buenos Aires.

The Ministers were accompanied by the British Foreign Secretary, Mr. Harold Wilson.

LEBANESE MARAUDERS AMBUSH ISRAELI BUS

Two killed and nine hurt in attack

HEAVILY armed Israelis from northern settlements and police were searching an area near the Lebanese border and injured five in an attack on a bus.

The bus was carrying Israeli soldiers and their families.

Moscow invitation

A delegation from the British Government has been invited to visit the Soviet Union in Moscow.

The delegation will be led by the British Foreign Secretary, Mr. Harold Wilson.

Agency opened

A new agency has been opened in London to help British firms to do business in the Soviet Union.

The agency will be led by the British Foreign Secretary, Mr. Harold Wilson.

Dollar issue for Kilembe mines AGREEMENT MADE WITH CANADIAN FINANCIERS

AGREEMENT has been reached with Canadian finance houses for the launching of a £100-million loan for Kilembe Mines, which are to work deposits in the Rawmanoff fields containing more than 10,000 tons of copper and cobalt-bearing ore.

The agreement will conclude the finance for the mine and cover its working until it can be realized from its production. An announcement of this was made by the Corporation and Canadian financiers.

The agreement was made with the Minister for Finance, Mr. A. N. Maclean.

U.N. DEBATE ON ALGERIA REFUSED

Decision can be altered

AN Algerian request for a debate in the United Nations Assembly on France's rule in Algeria has been rejected by the Assembly's 15-nation executive committee.

The committee was composed of the United States, the United Kingdom, France, the Soviet Union, and other major powers.

Australian import cut announced

Australia will cut her import bill by the value of £10 million in October, according to the Australian Ministry of Commerce, which said today that the cut would be applied to a wide range of goods.

The announcement was made in a statement issued in Canberra today. It said that the cut would be applied to a wide range of goods, including wool, wheat, and various metals.

The government said that the cut was necessary to help the Australian economy recover from the effects of the war and to reduce the balance of payments deficit.

CHANCELLOR'S SPEECH AID RECOVERY OF STERLING

Statement of the Chancellor of the Exchequer, Mr. R. A. Butler, that the Government is prepared to do anything in its power to aid the recovery of sterling against other currencies has been hailed as a landmark in the history of the pound.

The Chancellor said that the Government was prepared to do anything in its power to help the pound, and that it was particularly anxious to do so in the case of sterling.

He said that the Government was prepared to do anything in its power to help the pound, and that it was particularly anxious to do so in the case of sterling.

FINANCE AND COMMERCE

The Finance and Commerce Department has announced today that it is prepared to do anything in its power to aid the recovery of sterling against other currencies.

The department said that it was particularly anxious to do so in the case of sterling, and that it was prepared to do anything in its power to help the pound.

Big mineral prospecting agreement

Two large mining groups have made an agreement to prospect for minerals in a 25,000-acre tract in Northern Rhodesia.

The agreement was signed by the Anglo-South African Corporation and the Anglo-South African Corporation. It provides for a joint venture between the two companies to explore for and develop mineral resources in the tract.

Economic statements

The Special Telegraph Agency has reported today that the British Ministry of Commerce has announced that it is prepared to do anything in its power to aid the recovery of sterling against other currencies.

The ministry said that it was particularly anxious to do so in the case of sterling, and that it was prepared to do anything in its power to help the pound.

Typical reaction

Reaction to the Chancellor's speech was typically favourable, with many economists and business leaders expressing confidence in the Government's ability to aid the recovery of sterling.

They said that the Government's willingness to do anything in its power to help the pound was a positive sign for the economy.

VERY QUIET PERIOD FOR LONDON MARKETS

There was a very quiet period for the London stock markets today, with only a few small transactions in the major indices.

The FTSE 100 index was up 1.5 points, while the FTSE 200 index was down 0.5 points. The London gold market was also quiet, with the price of gold holding steady.

Racial barriers and States an admission of failure

RHODESIAN HOPES FOR FUTURE

DIVISION of the continent of Africa into Black and White States, with legislative barriers between the Africans, had no chance of success for both ideas contained in the admission of failure of the Deputy Prime Minister's Rhodesia plan, stated in an address at the Rhodesia and Nyasaland Club dinner in his honour on the eve of his return home after a mission to France and Britain.

"Those of us who are privileged to have a part in the great project that is taking place in the world are not unaware of the importance of our country in the success of our experiment in partnership will decide the fate of Africa."

Realistic policy
"Paradoxically is a much maligned policy of both strong and realistic. I firmly believe that it will prove successful."

He stated, however, the alternative I know the dangers that are involved in the production of the danger to have a Black and White State, and the danger to the Black and White States, and the danger to the White man's State. I know how easy it is for people to swallow these things. It is of course, the intelligent and patient people who are discerning work to come we are determined to do. We are determined to do it with the help of the success through close cooperation to the extreme."

Rightful place
Mr. Roy said he believed that the subject of nationality would give them the right place in the world. He said that the Federation of Rhodesia and Nyasaland was a great importation of the world. He said that the Federation was a great importation of the world. He said that the Federation was a great importation of the world.

Greater use being made of statistics

INFLUENCE ON OFFICIAL POLICY

DECISIONS of the East African Governments are being based to a greater extent than before on statistical considerations, which are assuming an importance as well as an historical value by Mr. C. J. Morrison, Director of the East African Statistical Department. Many of the committees and commissions set up in East Africa have requested in advance by some extent of statistical information; said for the purpose have requested the Department to undertake special surveys. Mr. Morrison stated that the Department has carried out the work of the committees and commissions set up in East Africa. He said that the Department has carried out the work of the committees and commissions set up in East Africa.

New surveys
This is not to say that the Department has carried out the work of the committees and commissions set up in East Africa. He said that the Department has carried out the work of the committees and commissions set up in East Africa.

The membership of an "Rhodesia explosion" rises over battery. Photo taken in Army camp in Rhodesia under modern military conditions. The explosion was caused by a battery of 100 cells, which was used for the production of oil, metal and gunpowder, and was destroyed by the G.O.C., Southern Command, last night. (Reuters)

HERBODY TRIAL ADJOURNED FOR LONDON WITNESS

THE trial of two British soldiers for murder has been adjourned until Monday morning, because a Scotland Yard expert witness had not returned from Britain. The witness is Mr. T. C. Nicholls, Director of the Metropolitan Police Laboratory, New Scotland Yard, who is being called by the prosecution to give ballistics evidence.

At the other prosecution evidence, which is being given by the witness, Mr. T. C. Nicholls, Director of the Metropolitan Police Laboratory, New Scotland Yard, who is being called by the prosecution to give ballistics evidence.

Automatic loading
From the presentation of a photograph of a bullet which had been fired from a gun, it was found that two were fired from the same gun. The photograph was taken by the witness, Mr. T. C. Nicholls, Director of the Metropolitan Police Laboratory, New Scotland Yard, who is being called by the prosecution to give ballistics evidence.

London case
The adjournment was agreed by Mr. J. S. Tomkinson, Acting Deputy Director of the Metropolitan Police Laboratory, New Scotland Yard, who is being called by the prosecution to give ballistics evidence.

'Caltex' national economy run attracts good entry

A 546-MILE ROUTE OVER ALL VARIETIES OF ROAD

From a Special Correspondent

The second National Petrol Economy Run sponsored by African Motor Sports Club will take place today and tomorrow. There is a wide variety in the make and numbering 36 in all, and the first car will leave the Nairobi Central Garage at 10.30 a.m.

Mezzos: Lewis and Houghton, 1.50, 41 of 100 miles used to get them in very high time records. The course is 546 miles in length from Nairobi through Nakuru, Kisumu, Taita, Mombasa, Kapaport, Eldoret, Nakuru and back to Nairobi.

All road conditions encountered in the course. Adverse weather conditions are expected on road, long will be met by the teams. Competitors must be at least 25 years of age and must have held a licence for 1000 miles. All cars must be in compliance with the regulations of the Automobile Manufacturers' Association. The general conditions of competition are as follows:

Wide range of cars

For some weeks now there has been a run on taximeters and the taximeter has been found to be unreliable. It is expected that the taximeter will be replaced by a more reliable type. The entry fee for the taximeter is 100 shillings. The taximeter must be in compliance with the regulations of the Automobile Manufacturers' Association.

Wide range of cars

For some weeks now there has been a run on taximeters and the taximeter has been found to be unreliable. It is expected that the taximeter will be replaced by a more reliable type. The entry fee for the taximeter is 100 shillings. The taximeter must be in compliance with the regulations of the Automobile Manufacturers' Association.

On percentage basis

The Caltex Cup will be decided on the basis of percentage. The car which returns the best percentage for the 546 miles will be the winner. The percentage is calculated on the basis of the number of gallons of petrol used per mile. The car which uses the least petrol per mile will be the winner.

No more football for Dennis Compton

Many doctors will probably advise Dennis Compton to stop playing football. The 25-year-old player has been injured in a recent game and his condition is serious. He is expected to be out of action for several weeks.

Results of Rugby Union

The Rugby Union has announced the results of the recent matches. The Kenya team has performed well, winning several matches. The national team is expected to be in good form for the upcoming season.

RUGBY HEADQUARTERS OPENING NEXT WEEK

The Rugby Union has announced that the new headquarters will be opened next week. The building is a modern and spacious one, and will provide a better environment for the players and officials.

Declarations' crisis in English racing

'Standards' London Correspondent

WHEN the Jockey Club last discussed the subject of coverage declarations the Duke of Norfolk, Senior Steward, declared that such were unnecessary because the present system was so accurate as to require little or no improvement. Since then, however, the Jockey Club has been faced with a crisis of confidence. The Duke's declaration was based on the fact that the system was so accurate as to require little or no improvement. Since then, however, the Jockey Club has been faced with a crisis of confidence.

England could keep Ashes says Miller

Keith Miller, the Australian cricketer, has said that England could keep the Ashes. He believes that the English team is strong enough to win the series. He also believes that the Australian team is not as strong as it was in previous years.

Four in line for Marciano fight

Four names are in the line to fight the champion boxer, Rocky Marciano. The names are: Mike Saunders, Alvin Karpis, and two others. The fight is expected to take place in the near future.

A new trainer in Nairobi

M. R. S. Smith, who has been a member of the Jockey Club for over 30 years, has been appointed as the new trainer in Nairobi. He is expected to start work in the near future.

Uganda Electricity Board

The Uganda Electricity Board has announced that it is planning to build a new power station. The station is expected to be completed in the near future.

6 REASONS for using BP higher anti-knock

Quicker starting

Better maintenance

Quicker running

BP motor spirit has now a new higher anti-knock value and contains a new additive—BP08—developed by BP research to make more power available from your engine. Not only a more powerful motor spirit but BP08 is well. This new additive minimizes combustion chamber deposits, keeps piston rings, valves and spark plugs in first-class order so maintaining full compression. As every motorist knows, this means more power—better all round performance.

PLUS BP 08

Smaller running

More miles per gallon

Larger periods between overhauls

Prolonged engine life

The motor spirit for peak power per piston

BLACKPOOL SHOULD KEEP THEIR UNBEATEN RECORD

Scottish League opens with game between 'auld enemies'

WHAT writes Dennis Hart, does luck or the lack of it mean to a football team? Plenty, according to the Blackpool Managers of Blackpool - fighting to avoid relegation last season and now top of Division 1, only one side out of the 22 forming the four divisions.

"There is no mystery," says Mr. Hart. "It is the way the game goes. Get the breaks and you will win."

"Last season they were not so fortunate. They were a goal down at half-time. They were a goal down at the end of the game. They were a goal down at the end of the game. They were a goal down at the end of the game."

Odds on home teams

Generally, the home team is favoured in terms of odds. In the Scottish League, the odds are generally in favour of the home team.

An interesting game

Last week, Motherwell were the winning goal against Hibernian. It was a very interesting game.

Goalkeepers

Goalkeepers are always in the spotlight. They have to be ready for anything.

Extremes will meet

The extremes will meet in the Scottish League. It will be a very interesting game.

Wild stick-work in league hockey

In Division 1 of the Kener League, the hockey is very wild. It is full of stick-work.

Team changes

There are changes in both teams. Both teams are making changes.

Thursday's soccer

League football continues on Thursday. There are several matches.

Skill unnecessary

For amateurs, skill is not necessary. It is more about luck and timing.

Legged champions

Legged champions are always in demand. They are very popular.

Scotland gets going

Scotland gets going in the Scottish League. It is a very exciting game.
