U.S. PRESIDENT ILL WITH HEART ATTACK Doctors' bulletin: 'No complications' NIGHT IN OXYGEN TENT. ELECTION SPECULATION

PRESIDENT EISENHOWER had a heart attack in the early hours of Saturday morning. He spent Saturday night in an oxygen tent at Fitzsimons military hospital, Denver, Colorado. Yesterday morning the three doctors treating the President announced that he was recovering. From the original onset at 2:45 a.m. yesterday (Saturday) the President has remained stable. At all times there has been no complications. The doctors' bulletin issued by Dr. James Hagerly, the White House physician, was signed by Dr. Thomas M. Murray, an Army heart specialist who flew to Denver from Washington, Md.; Dr. Howard M. Sordani, chief of the heart service division at Fitzsimons; and Dr. Col. Bryan E. Pollock, throughout a blood clot which formed in the heart. The attack, which was diagnosed as coronary thrombosis—a blood clot which formed in the heart—occurred while the President was staying at the home of his mother-in-law, Mrs. John Dowd, at Denver. It followed a mild bout of indigestion.

Mr. Eisenhower was taken from the home to the case and placed in a hospital. Mr. Hagerly emphasized the fact that a coronary heart attack has been the cause of the President's illness. He said the doctors expected the President to get a complete recovery. Mr. Hagerly said that the President's condition was such that he would be able to return to his duties in the White House in a few days. Uganda 'the leader in East Africa' FEAR OF KENYA RIDICULED

The belief that Kenya was the leading partner in East Africa's three 'Bomas' was ridiculed by the Minister for Commerce and Industries in the debate in Uganda Legislative Council (p. 1) on a motion to continue its visit for a further period of four years to the life of the Central East Africa High Commission.

The motion was carried by 11 votes to eight... 'Uganda wields a considerable influence on Kenya and Tanganyika through the Central Assembly', he declared.

Mr. Bled said: 'I have never regarded any of Kenya's leaders... in business in the politics... as beggars. We are a much wealthier country than Kenya...

Mr. Bled was replying to allegations made mainly by the new Ugandan Representative Members in the course of the debate, that the Central Legislative Assembly was 'the thin edge of the wedge' towards political domination in East Africa.

Dr. E. K. Mwatia, Representative Member, said that the Kenyan leaders who had approached the British Government to form some sort of union were 'not serious'.

Political ends 'For a long time they had been trying to set up an East African Federation,' he contended... 'There is a clear difference between a political institution and administrative machinery, and Africans regard the Central Assembly as a half-baked key-hole towards political domination.'

Complete control 'It was true, he stated, that no country could stand alone, but country cannot associate with Kenya's designs for political domination.'

Mr. C. K. Barib, Representative Member, supporting the motion, said they were learning more and more of the valuable services of the High Commission.

# MEET THE ISHERWOOD FAMILY

**B**ETWEEN British and New Zealanders, the Isherwood family has a unique background. The family has a long history in the East African region, with roots in both continents. The Isherwoods are a family of pioneers who have played a significant role in the development of the East African region.

And when the opportunity arises, JOY NICHOLL will tell the story of Kenya's pioneers — the early administrators and women who came to East Africa 50 and more years ago to lay the foundations of the Colony. Starting the period, she invites you to — MEET THE ISHERWOODS.

HE TOOK  
FASHION TO A FAR  
OUTPOST

By Donald  
McCormick

Forty years ago a boy  
at Kelly High school,  
near Cowichan, British  
Columbia, dreamed of making  
a name for himself in the  
South Sea. But he could  
not do so until he had  
determined to make his  
dream a reality.

He then, in 1915, came  
to Vancouver and opened  
a store in the Grand  
Hotel building. He called it  
the "Hudson Bay Store."  
He sold a variety of goods,  
including furs, and his  
business grew steadily.

It is not long since  
that the Hudson Bay  
Store has become the  
most famous of its kind  
in the world. It has  
branches in many of the  
largest cities.

His success is due to  
the fact that he has  
always been up-to-date  
in his merchandise.  
He has always had  
the latest fashions.

Holland  
Blames  
Parents

By Leo Hendrick.

HOWEVER much other  
countries, faced with a  
dramatic increase in  
juvenile crime, say point  
to the delinquency of  
parents, it is in Holland  
that such critics will  
find the most convincing  
evidence.

The fact is that in  
Holland, the blame is  
not put on the parents to  
drive them underground and  
make them feel that they  
are in the wrong, but  
rather on the child who  
is the cause of the trouble.

The Central Assembly

**WEDNESDAY, SEPTEMBER 26, 1961**

The Legislative Council on Tuesday afternoon in a debate which lasted for an hour and a half, discussed the report of the Commission of Enquiry into the activities of the Central African Republic.

The report, which was presented to the Council on September 21, 1961, was a comprehensive study of the political and administrative structure of the Republic, and the role of the various organs of the State.

The Commission, which was headed by Sir Robert Scott, K.C.M.G., had been set up by the Government in 1959 to investigate the functioning of the Republic's institutions.

In its report, the Commission found that the Republic had made significant progress in the field of political and administrative reform since its independence in 1963.

It praised the Government for its efforts to establish a democratic system of government, and for its commitment to the principles of justice and equality.

However, the Commission also identified several areas where further improvement was needed, particularly in the areas of the judiciary and the police.

The report recommended that the Government should continue to strengthen the institutions of the State, and to ensure that they operate in a fair and impartial manner.

It also called for greater transparency and accountability in the Government's actions, and for the establishment of a system of checks and balances.

The Council, in its discussion of the report, welcomed the Commission's findings, and expressed its confidence in the Government's ability to address the issues identified in the report.

It also agreed to refer the report to the relevant committees of the House of Representatives, for their consideration and recommendations.

**In the Name of Duty**

**PROBATIONARY SERGEANTS**

A year ago today the announcement was made that Her Majesty the Queen had been graciously pleased to award the Queen's Commendation for Gallantry and "China" surrogates to the probationary sergeants of the Kenya Police Force who had distinguished themselves in the line of duty.

The award was made in recognition of their gallantry and devotion to duty during the operations in the Mau Mau area.

The Queen's Commendation for Gallantry is one of the highest awards that can be bestowed on a member of the British Commonwealth.

The "China" surrogates are awarded to members of the armed forces who have distinguished themselves in the line of duty during operations in the Far East.

The award of these honours is a mark of the high regard in which the Queen and the Commonwealth hold the members of the Kenya Police Force who have distinguished themselves in the line of duty.

The award was made in recognition of the courage and bravery of the probationary sergeants who have served the Kenya Police Force with distinction.

The award is a testament to the dedication and sacrifice of the members of the Kenya Police Force who have served the people of Kenya with honour and distinction.

# THE WONDERS OF AMERICA'S NATIONAL PARKS

Each year some 20 million Americans visit one or more of the 23 national parks scattered throughout the United States. These parks, which encompass many of the nation's scenic wonders, have been set aside for the enjoyment of the people and offer the maximum in recreational facilities for a minimum cost.

FACTS of the 160 million Americans—whether he be a new-born baby or a venerable octogenarian, a poor man or a millionaire—of an equal sharehold in one of the biggest real estate developments in the United States—the 23 national parks which encompass some 13 million acres of the country's richest and most scenic land.

These parks are scattered from the Atlantic to the Pacific coast, from the Canadian to the Mexican border. No American is more than 200 miles from a two-day drive by car from one of the great scenic areas of the country. The Government has set aside for the enjoyment of all time.

The Grand Canyon in Arizona, Yosemite Park in California, Crater Lake in Oregon, the geysers in Yellowstone, Mount Rushmore in Kentucky, the Everglades in Florida—these are but a few of the wonders awaiting a traveler who sets

out to visit America's national parks. Moreover, he is provided in comfort and at low cost for the parks are maintained by an agency of the U.S. Government which is charged with offering visitors the maximum in service and facilities at a minimum cost.

These parks are maintained by an Act of Congress on March 1, 1902, which first national park. The law which brought it into being laid the foundation for a new series of land use whereby the U.S. Congress, through the Department of the Interior, has reserved exclusively for the pleasure of the American people.

Each year about 15 million Americans visit the national parks. Some go to witness the lake, although others go to see the scenery and the people who are actually custodians of the parks, using and working in them the year around, and in a large measure for private pleasure and family recreation.
