

SPACE PROGRAMS TO LAUNCHING PLATFORMS

Launching platform on the way

Two rockets and a satellite are to be launched from a floating platform off the Coast north of Mombasa, under a space research program between the Kenya and Indian Governments.

The purpose is to acquire meteorological information in high tropical altitudes from a satellite sent into orbit over the Equator. This will entail what is believed to be the first launching of a platform floating in the sea, as well as the first launching of a space satellite.

The agreement between the two Governments is concerned with the peaceful exploration of outer space and designated "San Marco." The Royal College, Nairobi, is entrusted to co-operate on technical matters, and to transport, and to give facilities for communications and trans-its.

Investigation into winds

During the research programme, wind clouds will be released at heights between 50 and 115 miles above the earth to measure the distribution of vertical winds. In addition, the characteristics of the troposphere and the structure of the equatorial atmosphere will also be investigated.

Details of the experiments have been studied by the Committee for Space Research of the International Commission for Scientific Studies at the United Nations and the Committee on Peaceful Uses of Outer Space of the United Nations. Recently a leading member of the Italian Space Agency arrived in Nairobi to discuss the details of the project.

According to a report to the Kenya Government, the launching platform will be a 100-ton floating platform, 100 feet in diameter, with a 100-ton satellite on board. The platform is covered with a 100-ton satellite, and the satellite is covered with a 100-ton satellite. The platform is covered with a 100-ton satellite, and the satellite is covered with a 100-ton satellite.

Ethiopia-Somalia clashes continue after 100 killed

ETHIOPIAN and Somali troops were still fighting a pitched battle yesterday in the frontier areas of Debubebesse and Tefchar, after an earlier engagement at Tog Wajaleh, in which 100 Somalis were said to have been killed and 200 injured.

The Ethiopian Information Ministry said that in the last clashes the Somalis had launched offensives in both areas, using tanks and heavy weapons.

It was reported that the Somali forces were attacking the Ethiopian positions at Tog Wajaleh, and that the Ethiopian troops were still fighting on the spot.

Parsons leads £10,000 farm group

Under the new trade union legislation, which is being negotiated by the Minister of Labour, Mr. Karmalita, and trade unionists, 11 unions would be reduced to branches of the mother institution, their finances and organisation centrally controlled.

On Saturday the question was discussed by the T.P.U. executive committee. Mr. Alfred Coy Tandan, said President Nyere of the T.P.U. would give a speech on Saturday night in connection with the present status of the country, which said that such a union was desirable in the country.

PROCESSION OF SUPPORT

Mr. Tandan and hundreds of workers had staged a procession through the streets of Dar es Salaam to the State House to mark the Federation's support for President Nyere and his Government, which was taking over Mr. Amulya.

Mr. Tandan said that the Federation would be with the Government and the workers through the country who will be the backbone of the country.

BAD START FOR FAVOURITES

Two games too much for Luo 'B'

In a rather one-sided final, Margoli 'A' coasted to a 6-0 win over Luo 'B' in the Maxwell Cup last night at Dossin Road Stadium, Nairobi.

After leading 3-0 at the interval, Margoli set an impressive lead, which Luo eventually won't show enough to get back to parity.

It was perhaps unfortunate that Margoli 'A' was called upon to play in a final against Luo 'B' after competing a gruelling 24 minutes in the second round final.

One member who might have been in the first four rounds would be Luo 'B', who has been the mainstay of Luo's body outside of holding the championship belt.

For the record, Margoli opened the night in the 21st minute when Luo 'B' missed from their centre forward and set minutes when Luo 'B' missed from Luo 'A'.

The position of Luo 'B' was not helped when Luo 'A' scored the first goal in the 21st minute when Luo 'B' missed from Luo 'A'.

A half-time rest for Luo 'B' was followed by Luo 'A' scoring another two goals in the 21st minute.

Motor sport opens season at Nakuru

TWO of the favourites to take titles in the 1956 East African motor sport season made a bad start to the campaign at the opening meeting of the racing week at Nakuru.

Uganda's Peter Taylor's hopes of becoming home champion last season in the track championship for racing cars, when he was runner-up, received a knock when his broken tail shaft as he was well placed to win the championship event.

The motor cycle track champion, Billy Young, could not even get on the track to start his defence of his title as his B.S.A. machine set up in an earlier event before the championship race.

In a determined bid to take the title, Peter Taylor was brought the Fort Lyons 'X' in the 21st minute when Luo 'B' missed from Luo 'A'.

Taylor was the title race winner. The car was owned by Luo 'A' and was driven by Luo 'A'.

SEVEN HOURS OF GOLF AT RAILWAY CLUB

THE Sir Joseph Byrne Trophy, at Royal Nairobi, and the President's (Mr. Hopper's) Prize at Railway were the principal weekend golfing events in Nairobi. On the 17th where 70 competitors including 11 women players, took part in the Byrne Trophy, 70 holes medal, on handicap, the issue was in doubt until the very last couple of holes when I. Burgin pulled off a Dornier, the only player to break 70 net throughout, on the better second round.

THE LITTLE BEAUTY FROM JAPAN TAKES 1st PRIZE IN HER CLASS!

With the Toyota 700 Saloon taking 1st prize and the Crown D-Lux 3rd prize in their respective classes of the Concours D' Elegance, the Toyota cars have shown themselves to be as luxurious and well designed as any ever seen in East Africa. These Toyota cars have a distinctively pleasing air about them. None of the body styles are as old as become dated. And under every bonnet sits a spirited (but economical) engine.

ENJOYMENT ACKS UNEMPLOYMENT

Jobs for 40,000 in next six weeks

It will be found for 40,000 and 50,000 unemployed as a result of an agreement to increase labour forces which was reached yesterday by the Kenya Government, the Federation of Employers and the Kenya Federation of Labour.

The agreement raises the Government labour force by 15 per cent and the numbers employed privately by 10 per cent. In turn, the unions agree to end all wage claims and ban strikes for a year.

Private employers will have to foot an extra wage bill of £25,000 a year, while the actual cost to the Government will be £2,000,000. The scheme will absorb half of Kenya's unemployed—estimated at between 100,000 and 120,000—before March 2.

Although the agreement is the result of friendly negotiations between employers and union representatives, it introduces emergency legislation to ensure compliance with the agreement.

Border battle counter claims

WVILEY fighting continued yesterday on the Ethiopia-Somalia border, but claims claimed to have been lost.

The Somali side said that Ethiopian forces had been driven back to the border and that the Ethiopian military had been blown up by the fire with the loss of about 100 men, while the Somali side announced that 307 Somalis had been killed and another 82 wounded since the outbreak of fighting.

Warning on incitement

The Minister for Labour, Mr. Mwendwa, said after the signing: "We shall take notice of any employer who does not deliver a fair copy to the employees with a copy of our agreement and we shall ensure that such an employer no longer desires to employ the amenities and share in the future of this country."

"We shall not hesitate to take suitable action. Similarly, Government will not hesitate to deal with workers who flout the conditions of this agreement or anyone who incites others to do so."

The Minister said that the agreement to be framed in the light of circumstances which have prevailed at the end of the 13-month strike.

In subsidiary points, the Government said that it will legislate to ensure that no employer will be allowed to discriminate on the basis of race, religion or sex in the award of work.

The Minister said that the Government will also legislate to ensure that no employer will be allowed to discriminate on the basis of race, religion or sex in the award of work.

SPACE PROBE MAY HELP EAST AFRICA

INFORMATION revealed by the rockets and satellites to be launched by Italian scientists from a floating platform off the Kenya coast may prove of value to East African meteorologists, radio engineers and farmers.

This was stated yesterday at a Nairobi Press conference by the Italian Scientist from the Space Commission, Prof. Luigi Piccoli, who is director of the Italian space programme.

Prof. Piccoli said that the project would probably increase man's knowledge of equatorial climate conditions and certain phenomena such as monsoons, hurricanes and other weather patterns.

EASY SIX POOLS

is popular

THE Easy Six pool is a very popular bet which you can win with a fortune on the dividend. It is an exception rather than the rule in that you are more than two draws in the six weeks. You are waiting period stake money if you win.

FIXTURES FORECAST

On the other hand you can get the 10 games into two groups of three and allow up to five draws in each group. This is a saving of six columns, which, though it does not mean a profit, does mean you can play more pools than you can play.

Foundation E.A. Governments

FAST African Governments are continuing to benefit from the decision made three years ago by two British MPs to found an organization to help in the development of Commonwealth countries.

The organization is the African Economic Foundation, which aims to promote contacts for increasing economic conditions.

The foundation is the result of a report published last year by two British MPs to found an organization to help in the development of Commonwealth countries.

I WAS UNDERPAID

With a wonderful wife and a bunch of happy kids my problem was to get a car big enough for the family but small enough for my salary. I wanted more than I could afford! The answer to my problem came to me wrapped up in a new Zephyr Mk. III. Hughes Limited also gave me good value on my trade-in... Zephyr service (like all Fords sold by Hughes Limited) is a valuable Kenya odd!

OVERSEAS CAMPAIGN FOR PREMIER'S STATESMANSHIP

Kenya's Image City Commission to employ extra 850

It was fortunate that a ministerial appointment had to be made to visit overseas committees in the wake of the military coup. This led to the selection of Mr. Kenyan, who was then in the cabinet on the part of the late Premier, Mr. Kenyan.

He was speaking at Nairobi Airport when he returned from their trip to Britain and the States. During the trip, Mr. Kenyan was appointed a governor of the World Bank.

He said he had already visited several overseas groups which they were already engaged in such a way as to present a very good picture of the situation in Kenya.

They also stressed the situation for statesmanship overseas, which they said had been greatly enhanced by his handling of the military disturbance.

WORLD BANK AGREEMENT SIGNED

Mr. Gichuru said his main job had been to sign the articles of agreement with the various interested organizations, making Kenya a full member of the World Bank.

Among the projects discussed in Washington was a \$3,500,000 tea scheme, which is to be financed by which the World Bank would contribute money for planting and the Commonwealth Development Corporation would contribute money for a necessary factory.

West Germany would also contribute.

Mr. Gichuru also discussed the situation with the American government, which he said was very helpful in the matter of the World Bank.

He said he had been given to understand that money from one of the World Bank projects would be used for the construction of a trunk road from Nairobi to the coast, which would be a great boon to the people of the area.

Another important question was the matter of forestry, which he said was being handled by the Government.

WATER SCHEME

Mr. Gichuru also hoped to be able to obtain \$500,000 for the construction of a water supply scheme in Kisumu, which he said was a very important project.

He said he had been given to understand that the Government was planning to build a dam on the Juba River, which would be a great boon to the people of the area.

He also mentioned the matter of the construction of a road from Nairobi to the coast, which he said was a very important project.

TANA RIVER

Mr. Kenyan said the main problem was the construction of a dam on the Tana River, which would be a great boon to the people of the area.

He said he had been given to understand that the Government was planning to build a dam on the Tana River, which would be a great boon to the people of the area.

He also mentioned the matter of the construction of a road from Nairobi to the coast, which he said was a very important project.

ROBBERY WITH VIOLENCE CASE EVERY DAY

CASES of robbery with violence in the Nairobi area were reported at an average of more than one a day, it was stated in a Nairobi court yesterday. Mr. H. M. Shauri, District Magistrate, said that in the last 12 months, 98 cases had been reported in Nairobi alone.

These were more than twice as many as in the corresponding period of the previous year. He said that the number of cases had increased steadily since the beginning of the year.

He said that the most common type of robbery was the so-called "drive-by" robbery, in which the robbers would stop a car and demand money from the driver.

He also mentioned the matter of the construction of a road from Nairobi to the coast, which he said was a very important project.

One week of fun-and fund-raising for Kenya

Kenya is to have a "fun week" each year to celebrate the anniversary of the day when the country became independent. The fun will have a community development and social service character.

The "fun week" will be held in Nairobi and will be a week of fun and fund-raising for the benefit of the community. It will be held in Nairobi and will be a week of fun and fund-raising for the benefit of the community.

Theft of car parts on the increase

Thrifts of parts of motor vehicles have increased in Nairobi, and the police were very concerned, it was stated yesterday.

The police said that the number of cases of theft of car parts had increased steadily since the beginning of the year. They said that the most common type of theft was the so-called "drive-by" theft, in which the thief would stop a car and demand money from the driver.

SHAKESPEARE RIDDLE STILL UNSOLVED

THIS YEAR MARKS THE 400TH ANNIVERSARY OF THE BIRTH AT STRATFORD-UPON-AVON OF WILLIAM SHAKESPEARE, ONE OF THE GREAT AND YET ABOUT WHOSE LIFE SO LITTLE IS KNOWN.

The only 16th-century house known to have been built in Stratford-upon-Avon is the one in which Shakespeare is believed to have been born. It is a simple, unpretentious building, but it is the only one of its kind in the town. The house is now a museum, and it is open to the public. Education in Kenya by 1970

Minister hopes

Primary school education may be provided in Kenya by 1969-70, the Minister for Education, Mr. James G. Matia, said yesterday when he announced the appointment of a Kenya Education Commission, which starts work today, has been set up to inquire into the state of education in Kenya. Mr. Matia will report to the Government in September. It is hoped the findings will be announced in September.

All his members are from Kenya, said the chairman, Dr. Simon Omondi, who was named an appointee at the Professor of Education, Royal College, Nairobi.

Mr. Matia said the Commission will have a wide view of the country and will be made up of young men and women from all parts of Kenya. It will be made up of 12 members, including 10 Kenyans and two Europeans.

WHEN YOU MOVE ON WHEELS,
GO ON GOODYEAR TYRES

THE BIGGEST NEWS IN
TYRES SINCE THE TUBELESS

GOODYEAR
BRINGS YOU

Now you can have a complete set of wheels and tires that will last longer and give you more miles than ever before. See the big difference when you look at the road ahead. The road ahead is smoother. The road ahead is safer. The road ahead is better.

A breakthrough in tire development has enabled Goodyear to perfect a way of bringing you the exciting new advantages of the Wrap-around Tread, together with all the technical advantages you have come to expect from Goodyear tires. And the new Goodyear G8. Now the end of tires isn't no more. It's the beginning of a new era.

THIS NEW
TREAD

EXCLUSIVE FROM GOODYEAR
AT NO EXTRA COST!

- ◀ New Wrap around Tread
- ◀ Tufsyn Longest-lasting Rubber
- ◀ 3T Cord—Stronger than Steel

G8
8 WAYS BETTER
THAN EVER BEFORE

PROVE THESE FACTS YOURSELF FROM THE VERY FIRST MILE YOU DRIVE

- 1 **Improved Steering.** First thing you notice when driving on the Goodyear G8 is an immediate new feel of control and safety in the wheel. The steady, unyielding curve when leaving from tracks or ridges parallel to the 3T direction is noticeable. The Goodyear G8 makes steering easier, a thing of the past!
- 2 **Safest, Sure Cornering.** Goodyear G8 gives you a new feeling about the car's outstanding stability and safety at any speed, because the new "Wrap-around" Tread on the shoulders gives you a 180-foot span of extreme grip when cornering.
- 3 **Best Car Performance.** Road grip response of the Goodyear G8 to brake and accelerator is outstanding. Look at the thousands of gripping edges in the exclusive G8 tread pattern — there's real built-in traction for your car!
- 4 **Smoothest Ride.** The revolution in tread design works up most of the road roughness before it reaches the wheel. You'll enjoy a smoother, more comfortable ride from the exclusive Goodyear G8 tread — with a surprising feel of ease and safety.
- 5 **New Wide Husky Tread.** The Goodyear G8 with the extra rubber tread is wider, longer, and more durable than ever before.
- 6 **Improved Fuel Economy.** You'll spend less money from now, gases than ever before. The longer tread conductivity of the superior flexibility of TUF SYN rubber reduces rolling resistance, for improved fuel mileage.
- 7 **Greatest Tread Life.** The use of TUF SYN (toughest of all tire rubbers) throughout the Goodyear G8 means that you're assured of greatest original tread mileage, by far.
- 8 **Most Retain Mileage.** Specialty tread 3T cord, non-removable, for better Temperature and Flex by Goodyear's exclusive 3T process, control the G8 tread so that your wheel might in itself be the strongest tire because it stands up to the most road miles.

Formal talks expected later in year

Formal talks expected later in year

FORMAL negotiations for special trade arrangements between East Africa and the Common Market countries are likely to be held later this year.

The Minister for Commerce and Industry, Dr. Kiwyo, who returned to Nairobi yesterday after exploratory talks in Brussels, said he was optimistic that the meeting would take place in the second half of the year.

Dr. Kiwyo, who went to Brussels with the Tanganyika and Zanzibar representatives of the Tanganyika and Zanzibar Ministers of Commerce, described the European Community as "friendly and useful".

He gave up the impression that they will recommend formal negotiations for East Africa. We felt an atmosphere of being seen again soon for formal talks. The Brussels meeting ended on Friday.

No political ties

The three East African countries are seeking special trade agreements with the E.E.C. which do not tie them politically to the Common Market. Dr. Kiwyo pointed out that African States, mainly former French colonies, was used of non-alignment. It would be contrary to East Africa's policy of non-alignment.

The arrangement sought by East Africa was secured. The E.E.C. would do so on the same basis as those from countries with associate membership. Giving an example, he said that at present East African coffee was losing 80 per cent in value in the Common Market.

He said that the sort of practices we are fighting against," he explained.

The arrangement would mean that East Africa would be able to export its products to the E.E.C. without having to pay the duties which those from countries with associate membership. Giving an example, he said that at present East African coffee was losing 80 per cent in value in the Common Market.

Minister to head inquiry council

THE Parliamentary Secretary to the Ministry of Works and Communications, Mr. J. Nyagah, has been appointed by the Nyaruga National Assembly to inquire into the affairs of the East African Council of Ministers.

Mr. Nyagah, who is also a member of the East African Council of Ministers, was appointed to head a committee to investigate the activities of the Council of Ministers.

He will be assisted by the Acting Labour Commissioner, Mr. J. O'Neil, and a member of the East African Council of Ministers, Mr. A. Alphonso.

The committee will be asked to report on the activities of the Council of Ministers and the manner in which they have carried out their duties.

CRASH AT DAGORETTI HORSE SHOW

High jumping standard

A FREAK accident put two promising teenage riders out of the Turpin stakes at the Dagorette Horse Show during the final round in competition in the contest which ended the beautiful weekend at Mitchell Park, Nairobi, on Saturday night. They collided in the crevice of the arena and were forced to retire.

Experts at the show said they could not recall a similar accident during a jumping competition in Kenya. Spectators kept in the Turpin Stakes, for Grade "E" horses, the course is divided into two sections. Competitors are split into pairs and pass through the starting point in either direction, complete one section of the course, jump one up to four feet high and then go on to take the other section. The fences are who are the winners.

Miss Diana Mwangi fell her horse Valiant II and Miss Ruth Wrennill, first medalist at the start of the competition, set a fast pace over the field that approached the centre gate together from opposite directions and the crowd gasped as they saw the impending collision.

Two friends attempted to help with a doctor and officers sprang into action. Fortunately the two riders were only shaken and male owners were excited on whether either boy had broken a leg. Both Derwent and Valiant were unhurt. They are expected to be home in a few days.

Another casualty of the show was Miss Vicky Harris, riding Thoma in the Grade C contest. She was doing very well when she fell from her horse on one of the jumps. It was a disappointment but there was no serious injury complained in what is now a jumping event.

An illustration of the problem. (Continued in Page 4)

Miss Diana Mwangi (left) and Miss Ruth Wrennill (right) took second place.

Miss Vicky Harris was thrown in her last round. Guinea after landing the child's first event.

Elizabeth Phillips, pictured completing a clear "High Jump" in the arena, is the only rider to have cleared the jump.

Thousands stage march of support in Zanibar

Standard Staff Reporter
Zanzibar
The Government on Saturday pledged itself to negotiate with the rebels and urged everybody to cooperate with it in this battle against the Government of the United Kingdom. They had marched the biggest known in Pemba, which began at the Afro-Shirazi Youth League headquarters and passed the harbor-front Peoples' Palace to formerly the Sultan's Palace to State House.

Four lines of men stretched as far back as three miles during the 10-hour procession. The march was led by Government leaders and in continuation of American and British imperialist and capitalism.

Addressing the march, the Government's first Vice-President Karume said the Government was committed to the promise it had made to the people before coming to power.

JUDGMENT ON LOYALTY

To fulfil those the Government would need co-operation from its subjects of all races, communities and their loyalty and actions not by colour or race. Karume said the Government was committed to the promise it had made to the people before coming to power.

Setting-up of industrial court urged

It was vitally necessary for Kenya to set up an industrial court to which the Minister of Labour could refer disputes, a Nairobi advocate, Mr. Simeon Gichimu, told a seminar on labour law on Saturday.

The method of arbitration available there would be used to settle disputes between employers and employees. He said that an industrial court should not be set up as a court of appeal but as a court of first instance.

Mr. Gichimu said that the Government should be made responsible for the settlement of disputes between employers and employees. He said that the Government should be made responsible for the settlement of disputes between employers and employees.

MAMMOTH ENGLAND TOTAL

ENGLAND scored a mammoth total of 229 for the first time in the second day of the final Test against India at Kanpur yesterday. They also made 174 in the first day.

England were able to score 229 in the first 50 overs, a total which was never equalled in Test cricket. This was due to the fast bowling of Peter Parr and the batting of the batsmen.

The batsmen were well served by the bowlers and the total was a record for England in Test cricket.

BRITISH PROTES TO CYPRIOTS

Arms go in by approval of Cabinet'

Commonwealth Secretary, Mr. James Stirling, said yesterday he had made a "strong protest" to the Cypriot leader, Mr. Spyros Kyriazides, about the arms issue into Cyprus. He was speaking before the Security Council took up the question.

Mr. Stirling told the House of Commons that he had written to Mr. Kyriazides to show that his import of arms placed with the full knowledge and approval of the British Government.

He said that the United Nations should be consulted in any matter of this kind. He stressed that the transfer of arms should be approved at the level of the Security Council.

He expressed his unhappiness at the difference between the British and Cypriot views on the matter.

Statue of Mr. Kenyatta for Nairobi

No RACE HATE IN ZANZIBAR - PRESIDENT

Nairobi is soon to have a statue of the Prime Minister, Mr. Kenyatta. It is being completed in London and is expected to be unveiled in Nairobi in the near future.

The statue, commissioned by the Kenyan Government, will be the work of Mr. Macdonald Bell, a well-known British sculptor. It will stand at the junction of Kenyatta Avenue and Harding Street on the island of Zanzibar.

Mr. Kenyatta is depicted in an upright posture, wearing a traditional Kikuyu hat and a white robe. The statue will be made of bronze.

The statue will be unveiled in Nairobi in the near future. It is expected to be a symbol of the Kenyan Government's commitment to the independence of Zanzibar.

Limits set on love from Russia

BRITAIN has tightened up security on romance by banning civil servants engaged in her vital work, military and defence communications to give advance notice of their intention to marry foreigners.

The new "marriage rules" have been issued to staff working at the Government Communications Headquarters and the Ministry of Defence.

The rules state that civil servants must obtain the approval of their superiors before marrying a foreigner. This is to prevent the disclosure of sensitive information.

The rules also apply to members of the armed forces. They must obtain the approval of their superiors before marrying a foreigner.

Back from Kilimanjaro to Kenya

COUPLE 'BAG' TWO PEAKS IN A DAY

Barry Cliff and Robert Bettle, have become the first in history to stand on the summits of Africa's two highest mountains in 24 hours.

The two mountaineers, who climbed Kilimanjaro in a record 24 hours, taking one and a half days to reach the summit, returned to the British School of Mountaineering, where a waiting car rubbed them down. There, they changed to a sports car and drove to Nairobi.

TEACHERS WANTED FOR EAST AFRICA

A DRIVE to recruit 100 graduates to teach in secondary schools in Kenya, Uganda and Tanganyika under the fourth-year programme of the Anglo-American Teachers for East Africa Scheme, has been launched by the British Department of Technical Cooperation.

The United States is to provide a grant under a bi-lateral educational programme.

Recruitment of these graduates is directed at three groups. First, trained and experienced graduates, second, those who have been in the armed forces, and, third, those who have been in the merchant marine.

After the necessary job studies and interviews, the graduates will be sent to Britain this summer and will spend a year at Makerere University College before taking short teaching appointments in East Africa. A salaried year's contract will be offered to those who are recruited for teaching in East Africa.

Growing need

The scheme was started four years ago after a conference at Princeton University at which the United States Britain and the East African Governments agreed to meet the expanding need for East African secondary school teachers.

Britain was invited to cooperate and her contribution has increased each year from eight graduates who went out under the scheme the first year to 101 last year and 134 who are being recruited to Britain this year.

The British Government pays for the training of the new graduates from Britain. The Government also provides the salaries and expenses of the graduates in East African schools, supplemented by British under the Overseas Service Aid Scheme. This type of group recruitment is only a part of the Department of Technical Cooperation's efforts to recruit for service in East Africa and elsewhere at a time when new recruits are in short supply.

The first African matron to be appointed to Kilimanjaro Hospital, Nairobi, is Mrs. Kinani Nyoka of Nyeri, who six years ago had the distinction of being the first African Registered Nurse in Kenya, has now become the first African matron appointed to Kilimanjaro Hospital, 18 miles from Nairobi. Kinani Nyoka is a Church Hospital belonging to the Protestant Church of East Africa. Her new appointment has exceptional qualifications.

Problems for first African matron at 'happy' hospital

Mrs. Kinani Nyoka of Nyeri, who six years ago had the distinction of being the first African Registered Nurse in Kenya, has now become the first African matron appointed to Kilimanjaro Hospital, 18 miles from Nairobi. Kinani Nyoka is a Church Hospital belonging to the Protestant Church of East Africa. Her new appointment has exceptional qualifications.

After her marriage she studied microbiology and social science at Boston College, Mass., and later worked at the Bethune Hospital, Boston, in charge of the general medical ward. Her general medical ward was the only one of its kind in the city at that time.

The new matron's day at the hospital is a busy one. It starts with patients at 5.30 am. Then there are the needs to attend to patients who are waiting to be admitted to the ward. Mrs. Nyoka's experience is invaluable to the hospital and she has been able to bring with her a wealth of knowledge and experience from her work in Boston. She has also brought with her a number of patients from the hospital in Boston, who are now being treated at Kilimanjaro Hospital.

MORE JOBS WILL COST \$3,000

FOURTEEN hospitals in the rural parts of Kenya have decided to comply with the "ten per cent" agreement and increase their labour forces.

These are the hospitals managed by the Christian Council of Kenya through the Protestant Church's Medical Association. The secretary of the association, Mr. N. Sheldon, said yesterday that the decision will cost the hospitals a total of \$3,000. Voluntary and charitable organizations were not compulsory excepted from the P.A.C. agreement.

"I suppose," Dr. Shaw said yesterday, "that if we were presented with a gift of money we might buy a washing machine. At present the washing is done by hand and in the rainy season it starts wet a week because we have nowhere to dry it."

Nevertheless, it is a happy hospital and the matron admitted that, suffering from under-staffing, she personally and her staff of five soldiers were all employed with limited care and attention.

MR. SANDY'S BEST STILL ON

Delay caused by troubles in Cyprus

STANDARD STAFF REPORTER, LONDON.
THOUGH there is no confirmation yet of a reported visit to East Africa by the Commonwealth Secretary, Mr. Sandy, there are good reasons for a British Ministerial mission to Nairobi soon to discuss promises on development and aid before deflated negotiations in London.

A spokesman for the Commonwealth Relations Office said yesterday that Mr. Sandy still intended to visit East Africa, but no date had been set because of the Cyprus crisis.

He had no knowledge of a proposed visit by the Minister of State, the Duke of Devonshire, which was referred to by the Kenya Minister for Finance, Mr. Gichuru, on his return from Washington and London last week.

It is possible that the Duke may have preliminary discussions on purely Kenya matters in Nairobi, leaving Mr. Sandy to tackle wider issues on an inter-territorial basis.

April talks on finance

It is understood that during their recent visit to London the Kenya Ministers requested a £20,000,000 loan for general development and a £25,000,000 grant to meet the cost of the Army, which would enable Mr. Gichuru to balance the Budget without increasing taxes or imposing new taxes.

The £40,000,000 Civil Service compensation scheme has not yet been settled and the promised acceleration of the land settlement scheme is still to be discussed. Finance was the main topic of the talks.

Chief tells House he will quit

The current sitting of the National Assembly may be called off by Chief Abubakar Ali, said Pundarikar MP for Tabora, today. He said he would not be asked to attend to the session which is expected to begin in the country to establish a new constitution.

Speaking during a motion by Mr. Lantini, entitled National Assembly Elections, he said he would not be asked to attend to the session which is expected to begin in the country to establish a new constitution.

Reception pleases Mr. Lee

Standard Staff Reporter, Singapore. Mr. Lee Kuan Yew, who is leading a Malayan goodwill mission in Africa, said an arrival in Dar es Salaam yesterday that he was "not unhappy with the outcome of the tour so far."

Mr. Lee said he was pleased with the reception in Dar es Salaam and the visit of the Vice-President of Tanganyika, Mr. Nyerere, to the mission.

The mission has already visited the West African States of Nigeria, Ghana, Sierra Leone, Liberia, Guinea, and Senegal.

Mr. Lee said he was pleased with the reception in Dar es Salaam and the visit of the Vice-President of Tanganyika, Mr. Nyerere, to the mission.

Army takes over after Gabon coup

AN ARMY COUP was reported yesterday to have toppled the régime of President Léon Milla, of the West African republic of Gabon. A French official source reported in Paris that President Milla had broadcast a statement of resignation prepared for him by a revolutionary committee.

The source said a Radio Libreville broadcast had reported that a "revolutionary government" would be set up in Gabon within 24 hours. The Government of President Milla would be dissolved and all political prisoners freed immediately.

The broadcast said that Gabon's armed forces had decided to intervene to end "the dictatorship of a police State."

Radio Libreville also asked as employees of industrial installations in Gabon, not to involve themselves in Gabon's internal affairs so that they could maintain order in the country.

A French news agency report said that the Government of the Gabon had been overthrown by a military coup. The French Embassy in Libreville, including the French consul and the radio building.

President Milla and Mr. Louis Bismans, President of the National Assembly, were confined in the Government Palace.

Parachute drop
The French Embassy sources in Paris said they were shocked to learn that a group of French paratroopers had been dropped off at Libreville by a French plane. The plane had also dropped off a group of French paratroopers.

CO-EDUCATION IN KENYA'S SECONDARY SCHOOLS

In recent months there has been quite a lot of progress in the thinking of new ways of improving the education at district levels.

This is mainly in the direction of more facilities for secondary-school children. The children who begin their class VII or VIII in the schools have had very little time to do it, they cannot receive a place in a high school or a trade school. We say that that changes are impending. However, most of the new secondary schools which are being opened, and in particular in the Kiambu district, cater for boys only. None of them is for the girls.

What has happened of our girls who have completed their class VII and VIII? These girls seem to have been completely neglected. In the Kiambu district alone, there are at least 1000 secondary school girls who are being kept out of school. Why cannot the authorities be made to think in terms of co-education rather than just boys and girls? It is a pity that we are always hearing of women being asked to take up responsibilities in the new Kenya. How can this be done if there are no schools, no equal opportunities for girls? We must think of ways that will help the girls of the same age.

Self-discipline

"He used to practice severe self-discipline." Mr. Hand said. For instance, on the morning when the rest of the world was still asleep, he was sitting in the front row of the class, waiting for the teacher to start the lesson.

Lawrence—an impartial at an enigma NAIROBI MAN SHARED BARRACK ROOM WITH 'PRIVATE SHAW'

THE trial of Lawrence of Arabia to decide whether he was a hero or a mere exhibitionist has been pursued with vigour since he went into captivity more than 40 years ago.

In his books, plays and now a gigantic film, witnesses have been called to make passionate statements for both prosecution and defence. Few have been able to look at this enigmatic figure from an impartial viewpoint.

Outside the courtroom are the men in his barracks rooms who were tried to escape the knowledge by becoming an air-raid siren in the R.A.F. or a craftsman in the Army. For them a private was just a private.

When Mr. Hand joined the Tank Corps in 1917, Lawrence was quickly posted out to him. The knowledge was rather casual: The other soldiers were interested in him only as another figure in the past as a legendary figure in the desert fighting against the Turks.

He made no attempt to impress his comrades and usually was working on the banks of the River Nile in Palestine.

Of his legendary exploits in the desert Lawrence spoke only in the conversation gave him a chance to reminisce.

He had a definite nostalgia for the desert. "Mr. Hand said the rest of the world was still asleep, he was sitting in the front row of the class, waiting for the teacher to start the lesson."

Lawrence, who was not a striking man apart from his extraordinarily narrow mouth, had managed to keep his identity from the camp for a long time and was found out only because of a minor error.

The private soldiers never mentioned his name. It was only when he was called to the attention of the court that he was identified as Lawrence of Arabia.
