Receipts of coffee to be suspended on Saturday and will reopen on Monday, March 2, at the price of 45 cents.

Uganda was granted permission to export another 25,000 tons of coffee by the London meeting, which was held in London last week. It was not as high as Uganda had hoped for, but would mean a slight profit, Prime Minister said.

The new price brings the total to 1,000,000 tons for the opening of the present buying season. The new price will be applied to all coffee beans to be received between February 15 and March 1, 1954, during the whole crop, which will be sold in the open market.

# NEO COLONIALISM - BIRTH OF A DOGMA

MR. CHOU EN-LAI, Chairman of P.E.C. in London, has been invited to give a lecture on "Neo Colonialism" at the Royal Institute of International Law in London on the 28th of this month.

It is debatable to some people of neo-colonialism. Who does the term refer to? Who invented it? How is it applied? BRUCE GIBSON, Editor of the Observer, and Vernon A. Williams, Editor of the New York Times, have written on this subject.

## BUDGET PROSPECTS

At this time of the year, the East African Standard is getting down to the task of preparing its special supplement on the budget. This is a task which is not only a matter of routine but also one of considerable importance. The Government has been successful in its efforts to bring about a more balanced budget in the past few years. This is a significant achievement, especially in view of the fact that the Government has been able to do this without resorting to excessive borrowing or printing money.

## What is neo-colonialism?

It is a form of imperialism which is based on economic and cultural control rather than on direct political control. PREMIER KEENYATTA'S VISIT TO TANZANIA

## 'Milestone' in Kenya advancement

Standard Staff Reporter, Mombasa. The Prime Minister, Mr. J. M. Kenyatta, opened the £5,000,000 East African Oil Refinery at Mombasa last night. The Prime Minister stressed the future independence of Kenya's economy and described economic advancement. He made a quick tour of the refinery plant, talking with personnel in the control room and laboratory. Mr. Kenyatta received from the general manager, Mr. B. F. Hubbard, a check for £5,000, part of a £200,000 gift from the refinery company to the Government's small fund. Mr. Kenyatta said economic development was very much dependent on co-operation among different countries and it was in this spirit of co-operation that Kenya encouraged foreign investment. The Government would not allow any foreign country or power bloc.

### Encouragement to others

The knowledge that Kenyas could and did support such a modern, highly automated and complex industry was a great encouragement to other investors. Praising the firm for filling a responsible position with local people whom it had trained, Mr. Kenyatta said this showed not only the ability of local people to learn new skills quickly but also the way these skills had been transferred to the local population.

### Compromise on flags ruled out

The Prime Minister, Mr. Kenyatta, today said a large number of people at Mombasa yesterday that there was only one Kenya Government, which he led, and one national flag. The Government would not compromise on any other flag or symbols. Mr. Kenyatta said that any compromise on flags would be a sign of weakness and that the people of Kenya knew a single flag had sufficient rights to stand for the country. He said that if anybody else had the right to have their own separate Government, that they would have their own flag.

If any individual group or group of the country should attempt to set up a separate Government, that they would have their own flag. Mr. Kenyatta said that any compromise on flags would be a sign of weakness and that the people of Kenya knew a single flag had sufficient rights to stand for the country. He said that if anybody else had the right to have their own separate Government, that they would have their own flag.

Material and non-material corruption

Young newly independent countries throughout Africa and elsewhere usually find themselves threatened by material and non-material corruption within the ranks of their leadership - political as well as Civil Service.

Letters to the Editor

The Government, indeed, the State itself, is quite often implicated. The type of corruption that we are most familiar with is what is called "material" - the simple, almost obvious, type of corruption which usually means the same as bribery received by the recipient in the service in an undignified manner. It is the receipt of any kind of bribe which is the essence of this crime.

# TANGANYIKA TO BUY OUT Communist agents all over Africa

## says Sir Alec

THE Tanganyika Government is to acquire the power manufacturing of the Tanganyika Electricity Supply Company. It is paying for the purchase of the 2,500,000 shares. The price will be payable in 30 equal half-yearly instalments, with instalments carrying 4 per cent interest.

The company is almost wholly owned by the East African and Lighting Company, whose directors have been asked by the Tanganyika Government office in principle to recommend the debenture holders to accept the offer.

That private capital need not be used in the acquisition of the company is a point which the Tanganyika Government has stressed in its memorandum to the debenture holders.

Advertisement on the Tanganyika Government's part in the purchase price of the company is expected to be published in the near future.

The Tanganyika Government has also announced that it will acquire the power generating stations in the Tanganyika Territory, which are now owned by the East African and Lighting Company.

There are trained Communist agents "right through Africa", British Foreign Secretary Sir Alec Douglas-Home, said at an interview on Wednesday (yesterday).

Asked whether he thought recent troubles in East Africa were part of a Communist conspiracy to take over, Sir Alec replied: "There are a lot of people who are trained in Communist techniques, in Moscow and in China, and there are plenty of them in Africa."

"You only have to see what Mr. Chuma Kariakisi did when he left Africa last October, when he went to the Americas, to see how ripe for a combination of this sort are the African people," he said.

"I am sure that the Communist agents are right through Africa," he said.

"How far these latest moves should be immediately reported by Communist, I wouldn't like to say."

Asked how long British troops would remain in Uganda, Sir Alec said: "I don't know. It depends on the situation. I don't think they will stay for more than a few weeks."

**LITTLE DELAY EXPECTED BY MINISTER**

Mr. M. N. Otieno, Minister for Transport, said that the Government would not be able to start the construction of the railway from Nairobi to Kisumu until the end of the year.

He said that the Government was still negotiating with the British Government over the terms of the loan for the railway.

Mr. Otieno said that the Government was still negotiating with the British Government over the terms of the loan for the railway.

## Rival rail union 'lacks support'

ANY attempt to form a splinter union for railwaymen would fail because the leaders of the splinter group lack the sympathy of the workers, the general secretary of the Railway Workers Union, Mr. W. N. Otieno, said yesterday.

He was referring to claims by the member for Gungahira, Mr. N. Chibwa (Kisumu), to have formed a new Kenya Union of Railway Workers. The A.R.W.U. was said to be in the process of being formed by a group of about 200 railwaymen who had broken away from the R.W.U.

Mr. Otieno said that the Government was still negotiating with the British Government over the terms of the loan for the railway.

## PASSPORT HOLDER - AT FIVE

ONE of the youngest travellers to have been given a Kenyan passport was a five-year-old Shikwa Tavara, who is going to Britain next Saturday to start her education.

Shikwa was accompanied by her mother, Mrs. F. S. Tavara, who is a teacher at the Shikwa Primary School in Nairobi. After 18 months she will be returning to Kenya to continue her education in Britain where, she said, she has an impression of the educational system that she decided to have for her own children.

Shikwa will be joining her mother and sister in London.

## Mr. SANDYS RENOUNCES WILL RIGHT

MR. DUNCAN SANDYS, the British Commonwealth and Colonial Secretary, has renounced all interest in the will of his former wife, Mrs. Diana Churchill, eldest daughter of Sir Winston Churchill, who died last October.

A statement issued last night said that Mrs. Diana Churchill made a will leaving the greater part of her estate to Mr. Sandys.

It added: "Since then Mrs. Churchill has been divorced. Mr. Sandys does not believe that his wife intended that her estate should be left to him. Mrs. Churchill's property will therefore pass to her children."

The children are 21-year-old John, wife of the late Peter Dixon, and 19-year-old Diana, wife of the late Sir John de la Motte. Mrs. Sandys is also the widow of the late Sir John de la Motte.

Mrs. Sandys was married to Sir John de la Motte in 1940. He was killed in action in 1942. She was married again in 1942 to Mrs. Churchill's son, Sir Winston Churchill.

## M.P. accused of forgery

The hearing has been before a Mombasa magistrate of charges brought against Mr. Chibwa, Member for Lamu in the House of Representatives.

Mr. Chibwa is charged with forging a registration application for a motor vehicle in his name. He is also charged with forging a registration application for a motor vehicle in the name of another person.

The two have pleaded guilty.

The Municipal Council has decided to employ 120 more men on roads in the town.

The Council has also decided to employ 120 more men on roads in the town.

**PRIORITY CARD ISSUED**

As the Government has previously advised, workers should register at the appropriate local office nearest their homes - where they will be issued with a priority card.

If workers register in other areas, they will receive a lower priority card if they would get their home area and will therefore not have a good chance of obtaining employment.

In fact, in the larger towns such as Nairobi and Kisumu, the minimum offices have authority to register workers. They have a large staff to register in the town and therefore a narrower opportunity to the large towns for the purpose of registering will be given.

It is a high priority to be issued to those who are in the line of work which is essential to the national economy. It is also a high priority to be issued to those who are in the line of work which is essential to the national economy.

# CASSIUS CLAY FIGHTS ON THE STREETS

## Holding his own when fight ended

CASSIUS CLAY, the 22-year-old challenger, won the odds of 7-5 against him when he beat Sonny Liston in the world heavy-weight boxing championship at Miami Beach, Florida, last night, when he had pulled his chin round and it was announced that under Florida rules Clay had won by a technical knockout.

Liston was held by the neck of the neck by Clay from the first round to the third round, when he was knocked out. In the second round, Clay retained the title by again knocking out Liston. In the third round at Las Vegas, Nevada, The Miami Beach, Florida Commission ordered a stoppage when the fight was under way. After the fight had been going on for three and a half hours, Clay had been holding Liston from striking back three times.

The announcement was made by Dr. Alexander Hirsch, chief physician of the Miami Beach Board of Commissioners. It was recommended that Liston's fight be resumed.

Dr. Hirsch, who advised the fight to be stopped after the sixth round, said he saw a bruise on Clay's forehead and said: "Clay both looked and acted as if he were in pain."

Clay was not hurt when Liston's left eye in the third round but the eye was injured by Liston's eye-punching Clay. Clay appeared to be having trouble with his eyes and suggested that he should be allowed to have four rounds to rest. When the fight was over, Clay was holding his own with the championship belt. He had been knocked out by Liston in the first round. Clay was holding his own with the championship belt. He had been knocked out by Liston in the first round.

Clay, the Olympic light-heavy-weight champion of 1960, won his greatest prize in only his 20th professional fight.

It is the second round-man to win the title, Steve Brame...

Cassius Clay boxed for joy and nerves at the top of his kick. "You are the king of the world, I've won the world, I've won 'em" was his cry in triumph when he had pulled his chin round and it was announced that under Florida rules Clay had won by a technical knockout.

older than Flood. Parsons' two staves have it in an open house but he took the prize as he has no other choice.

James refused until the second round when he was again knocked out. At present, he is recovering from a fractured skull and other serious injuries. Clay will get about 500,000 (£120,000) — and the rest of the purse went to him.

"I don't know," he said, "I would have liked to have fought on." Clay says after the fight that he will return to his home in Kentucky.

### Completed without a hitch

O'NEIL against the 1961 Kew's junior lawn tennis championships enjoyed a field in the matter of rain and, despite rain clouds all around and the grey overcast, the mixed doubles matches were completed without a hitch at Nairn's Club last night.

All four seeded couples got through without a drop of rain, and the match of the day was a 2-0 win for O'Neil over the 1960 champion, John Cooper. There were a few showers and it was raining in the last set but O'Neil was too good for Cooper.

There was a great deal of interest in the final match between Stephen and Alan O'Neil. Stephen was defeated by Alan in the second round.

The British promotion, Jack Johnson, is making a bid to have the title in London in the summer. It will be an undoubted success if O'Neil's manager to give Cooper a return, and that will be a great deal for the title. It will be a great deal for the title.

## JUST A PAUSE FOR BREATH IN CITY AT BANK RATE NEWS

THE rise from four per cent to five per cent in the Bank rate had only a moderate effect on the London Stock Exchange yesterday, although the actual timing of the announcement took the market by surprise.

Previously, speculation as a whole had swung about on small buying in this market, immediately after the news, prices were started down, but they soon started to rally and only small losses were recorded on the day.

But last Friday's general fall in the general fund of industrial and commercial shares throughout the week has been on a modest scale.

Banking shares were marginally up, as banks will soon be higher and better.

But heavy shares fell back as their increased money will cost more. Insurance and property shares were virtually unaffected.

## Clearing land

In the new Government scheme for clearing land in the Kenya district, the Government has decided to start clearing on a large scale in the next few weeks.

### WANTING TO LOOK BEFORE LEAP

Industrial opinion in Britain recommended a "wait and see" attitude for firms to determine what the market would do before making any major expansion plans. This is a prudent approach, particularly in view of the fact that the market is still uncertain and volatile.

# AFRICA SHIPS FACE BAN

## O.A.U. seeks closure of ports to trade

Shipping at East African ports may be affected by a resolution adopted at the Organization for African Unity Foreign Ministers' conference which ended at Lagos early yesterday.

The resolution, which was unanimously approved, decided to ban ships trading with South Africa from using intermediate ports in African territory.

The resolution also included a ban on flags, but this is already an established practice in most African States. It has still to be approved by the next meeting of Heads of State, believed likely to take place in Cairo later in the year.

In a letter-cable on South Africa's apartheid policies, the resolution also urged the end of encouragement of investment and commercial relations with South Africa.

### Concern at border dispute

Delegates to the study conference, described as the longest and hottest in the annals of the O.A.U., were leaving Lagos yesterday by road and air for Senegal.

Among the resolutions passed was one on the Kenya-Somalia border which said that Ministers were "deeply concerned with the continuation of negotiations which may aggravate tension between the two countries and lead to hostilities, the repercussions of which may prejudice Africa's unity and peace and our continent."

### Field marshal leaves Kenya

Field Marshal "Frelimo" Joaquim Nhatanya left Nairobi yesterday for his home in Mozambique. He travelled on an Air Rhodesia Airways plane.

### Explosion at power station

The station was regarded as a "major" one, with a "considerable" capacity.
