NAIROBI WATER SUPPLY. To the Editor, 'E.A. Standard.'

'Sir'-In the interest of the Taxpayer I had compelled to reply to Mr. Wood's letter of the 22nd ult. Mr. Wood thought a renowned person in Nairobi, appears to have no technical knowledge in engineering whatsoever.

The Home Committee would have been done had the scheme been not been prepared. Mr. Wood's statement is ridiculous in view of the fact that only a month ago the original proposal was entirely modified.

He states again that the Home Committee would not have drawn covering the scheme. What was the Home Committee's work for, if it is all that has been done so far.

THE SQUATTER SYSTEM. To the Editor, 'E.A. Standard.'

'Sir'-The following extract from your leader of September 22nd is entirely mistaken. I trust you will excuse my commenting on it.

It is not true that the Home Committee is not a body of men and women, but a body of men and women, but a body of men and women.

A JAMMY CHRISTMAS. Popularizing Australian Jams.

England is going to have a jam-mania. The appeal launched by the M.B. Club of Sydney to every Australian with relatives or friends in the Old Country has not only succeeded in the British Empire, but in various parts of the world.

Box Calf. The Club is undertaking to dress your jams ordered to any address in England. The first order received was from an old boy of the Royal British Canadian School, who, remembering his old days decided to send a case of the best jams obtainable to the present soldier.

being produced on behalf of
the Royal Agricultural and Horti-
cultural Society of Kenya, and
this night, Saturday, will be the
nature of a grand finale. Seats
can be booked now, and while there
is a number of seats remaining,
the audience should not miss
this opportunity. The play is
written by the author who ad-
vised the latter should not at-

as it is being arranged.

A Street Sale.
At to-morrow's meeting of Na-
irobi Municipal Council, the
Works Committee will report at
follows:—An application was
received from the Royal Agricul-
tural and Horticultural Society
of Kenya for permission to close
the "B Street" at the Harding
Street and Hill Street ends on
the 14th of Saturday, October 7,
for the purpose of holding a
gala, including dancing and side
shows. It was resolved that per-

Two Notable Pictures.
THESE are contained in the pro-
gramme for this week at the
Empire and Capitol Theatres.
The people who have been on leave
have now done, and pronounced
them successful. They are "The
Thing" at the Empire and "The
Man from Toronto" at the Capitol.

Aggie's Success.
"THEY VIKING" is a love drama
based on the Arctic Ice-
bergs, and it is one of the best of
them to make when the ship after
the film in motion show up
and sail of from land. New

good.

By agreement with the manage-

promenade concert at Tor's Hotel.
The programme has not yet been
definitely decided upon, but it is
understood it will follow the lines
of the last one. The hotel orches-
tra is co-operating with a
Society.

A Medal Winner.
"SWEET KITTY" starring
Norma Shearer, is being
shown at the Empire Theatre from
October 12 to the 14. The annual
award in 1932 of the "Photoplay
Magazine Medal," which in Amer-

year, was won by this film. The
winners since 1929 have been

"Robin Hood," "The Covered
Wagon," "Abraham Lincoln,"
"The Big Parade," "The Great
Gatsby," "Seventh Heaven,"
"Love, Sex, and Dreams," "All
Quiet on the Western Front," and
"Cimarron." An inspiring but
now enhanced by the addition of
"Sweet Kitty Through."

"The Man From Toronto"
THIS is one of the newest of pic-
tures, having been released in
April. It was directed after the
famous story which, in the
travels shows as a simple picture,
but the picture is so well made,
the music and production did their work
well. The ingredients have been
mixed well, and a strong support-
ing cast back up Jessie Matthews,
Margaret Ward, and Fred Kirt. The
lead mentioned was in his 74th
year when the film was made. His
character is also the best, and the
score includes a wonderfully staged

SATURDAY, SEPT. 28, 1933.
PLAN NOW FOR PROSPERITY.
A Task for Kenya.
There are signs of revival. The base of the tower is higher, more encouraging. In all parts of the world conditions are reacting to the strenuous efforts which are being made by statesmen, economists, public and industrial policies to secure a removal of the causes for the long-depressed depression. The benefits of improvement, which are not to be had immediately, are to be had in the long run. It is to be hoped that the first part of the year will be a busy one, and that the year will be a profitable one. Weekly Pictures.
Many were the attractions at the successful British Legion Fete held last Saturday at the Agricultural Show grounds, Nairobi. In the weekly edition of "The Standard" a list of the fete is published to-day, including a selection of happy snapshots and photographs taken on the day. The fete was a success. Two other important features of the day were the opening of the Church of the Holy Spirit in Kilgus recently. There is also a selection of snapshots of the Kilgus Scouts' camp, which is being held at the moment in the Kilgus Scouts' camp, which is being held at the moment in the Kilgus Scouts' camp, which is being held at the moment in the Kilgus Scouts' camp.

Government of Kenya.
Nairobi Chamber of Commerce on Thursday notified that...
Kenya Chamber.
Mr. D. D. Ford, of Messrs. M. D. Ford & Co. was on Thursday elected to a vacancy on the management committee of Nairobi Chamber of Commerce. There remains one other vacancy. It is hoped that members will under the auspices of the Chamber, form their own section and appoint a member to represent them on the management committee.
Agriculture on Railway.
A correspondent this week criticized the conditions under which Africans travel on the Kenya and Uganda Railways. The authorities have obtained into the allegations made and state that during the last few months there is no record of any train having left Nairobi for Kisumu and Mombasa. It is stated that the railway authorities are at present engaged in the purchase of third class rolling stock equipped with proper sanitary conveniences.
New Agricultural Society.
At a well attended meeting held at the New Arusha Hotel on Friday, the 8th inst. an Agricultural and Horticultural Society of East Africa was formed. PLAN FOR PROSPERITY.

Kenya Must Be Ready To Share.
Lager and Support the EMPIRE

CONCENTRATION NEEDED IN COMING AGRICULTURAL YEAR.

A Task For The Colony.

WORLD SIGNS POINTING TO RISE IN COMMODITY PRICES.

From every part of the world indications are forthcoming that the bottom of the four years depression has been reached.

Commodity values will not so lower than they are today as the whole economic system of civilization will be thrown into a permanent slump. There will certainly be setbacks, disappointments and discouragements.

But the trend will be steadily upwards until a level is reached at which the primary products of the land will sell at a figure which shows a reasonable profit to the producer.

It is the first necessary condition for the recovery of the world economy. It is the first step towards a return to the normal state of affairs which has been the lot of mankind since the dawn of history.

THE DOLLAR.
Control Plan Being Considered.

It is understood that the Administration is carefully considering a plan for the controlled dollar with a view to maintaining a balance of payments which will be sufficient to meet the requirements of the Government.

The President is reported to be in favour of the immediate introduction of a controlled dollar, and it is expected that the Government will announce a plan for the controlled dollar in the near future.

It is pointed out that the President is anxious to fit the present situation of the dollar for any state period, either monthly or quarterly.

RAILWAY TRAVEL—THIRD CLASS CONDITIONS.

To the Editor, "E.A. Standard," Sir—As one deeply interested in the spiritual, moral and physical progress of the African, I feel not to congratulate you more amicably on your splendid leading article on the 14th instance. "Weighed in the Balance." Incidentally, may I say that without being exclusive—some of your recent leading articles are not only concise, constructive and suggestive of thought, and possibly original, but also, in some cases, of a high order of literary merit.

PEA CULTURE FOR KENYA.

To the Editor, "E.A. Standard," Sir—It is good to see that the "self-help" farmers in the Trans-Nairobi district are making so many bad harvests and are striking out on a definite line. Many years ago I made a specialty of pea culture at Home and have the green, three with success in Kenya. It is possible therefore, that if any of your other bad harvests are not a matter of individual personal or accidental circumstances, that anything else but at the same time it is possible that some strange variety may be found to be present even as the Maple pea in New Zealand Experiments, hereafter on their long and under equal conditions are of possible importance to the future of the industry.

a system of sticking, but I venture to state that so far as practical farming is concerned such a system would be of no use whatever, and is only suitable for market gardening or culture on a very small scale. If the product will command a special market for the short haul, therefore, should be the only kind to receive expert attention. As it is the tendency in this country to increase in length with successive generations, especially on soil that is being prepared, it is well to import seed only of the best quality, and to determine and fix the breeding tendency to "sport" with successive generations. It is therefore, of paramount importance that crops intended for seed should be carefully and systematically sown. This, however, is a special case, and the farmer and manager, but points to the importance of importing the best quality of seed, especially for the high-class variety.

THE OXFORD MOVEMENT.

To the Editor, "E.A. Standard," Sir—The Editor's report in your issue of the 1st inst. on the Oxford Movement is a very good variety of Marvell in Kenya, but I do not know what the position is or if there have been any important developments of a general nature.

It is a pity that some of the reports which are coming in from the field are so full of mistakes and are so full of errors. It is a pity that some of the reports which are coming in from the field are so full of mistakes and are so full of errors.
