## KENYA BORDER RAIDS. U.S.A. RECOVERY DRIVE.

### Agreement with Abyssinian Government

OFFENDING TRIBESMEN TO BE DISARMED AND PUNISHED.

Compensation Offered.

SEQUEL TO MASSACRES AND STOCK THEFTS IN OCTOBER 1952.

After lengthy and difficult negotiations, occupying nearly two months, a satisfactory agreement has been made between the Governments of Kenya and Abyssinia on the subject of border raids.

The negotiations followed a serious raid on October, 1952, when over 400 Kenya natives were massacred and thousands of head of stock were stolen.

The Government of Kenya has been able to secure not only the punishment of the raiders, but compensation for loss of lives and stock, but the Abyssinian Government has agreed to discontinue the raiding on the east of Omba River. It is hoped that this agreement may be implemented later on by extending it to include the disarmament of tribes on the west side of the river, thus offering a further safeguard against a repetition of the raids.

### A Difficult Task.

The fulfilment of this agreement is through some lower posts (Kenya) is mentioned in the following extract, which appeared in the East African Standard on December 2, last.

London, Nov. 30. (AP) — The House of Commons today approved the new Philip-Quintan-Lalor treaty for the Colonies. The treaty, which is the first of a series of similar treaties, is intended to bring about a settlement of the border disputes between Kenya and Abyssinia. The treaty provides for the disarmament of tribes on the west side of the river, thus offering a further safeguard against a repetition of the raids.

### The Raid.

Incidentally, the East African Standard was informed that early in the morning of 1952, the raiding party, which was led by the Meri, was seen to be heading for the border. A number of the raiders were seen to be carrying away a large amount of stock. The raiding party was seen to be heading for the border. ### THE RECHSTAG FIRE TRIAL

Investigation to be Made in London.

UNOFFICIAL COMMISSION.

Composed by Russian International Jurists.

[By Wireless.] London, September 14. The hearing of the German Reichstag building, in connection with which prisoners will be tried in Leipzig and which is being investigated in London by a well-known, distinguished committee of eminent jurists from the United States of America, Sweden, France, England, Switzerland, Denmark, Belgium and Holland. The Committee is expected to arrive in any case and has no official standing. This was emphasized last night when a meeting of the committee was held at the Reichstag building. The committee is expected to arrive in any case and has no official standing. This was emphasized last night when a meeting of the committee was held at the Reichstag building.

### Members of Commission.

[By Wireless.] London, September 14. The members of the Commission are expected to arrive in any case and has no official standing. This was emphasized last night when a meeting of the committee was held at the Reichstag building.

### Language Problem.

The first and foremost difficulty was that of a mutual language in which to conduct negotiations, as the Abyssinian representatives speak English. One of the first steps was to secure a mutual understanding in the language of the two nations. This was done by the use of interpreters and by the use of a common language.

### Understandings.

In it, the Government of the United Kingdom, on behalf of the British Empire, has agreed to make an understanding with the Abyssinian Government. This understanding is intended to bring about a settlement of the border disputes between Kenya and Abyssinia. The understanding provides for the disarmament of tribes on the west side of the river, thus offering a further safeguard against a repetition of the raids.

### SIR J. BYRNE'S RETURN.

Governor Sailing on October 13.

Via South Africa.

Plans from Capetown Still Uncertain.

[By Wireless.] London, September 14. In his presidential address to the Association of the British Chambers of Commerce, Sir Alan Alderson said that Sir Joseph Byrne, Governor of Kenya, is expected to leave London on his return to the Colony next month.

He is arranging to travel via South Africa, to the 'Armed Castle' sailing on October 13, but details of his plans after reaching Capetown are not yet available, or the approximate date of his arrival in Kenya.

It has been suggested that he may travel overland by way of Rhodesia, possibly by Imperial Airways, but details of his plans are not yet available, or the approximate date of his arrival in Kenya.

### Repercussions to President's Scheme.

RESULTING IN SLOWING UP OF PROGRESS.

Petrol Price War.

ADMINISTRATION WARNS INDUSTRY TO KEEP ITS HOUSE IN ORDER.

The scheme embarked upon by President Roosevelt for a recovery drive is meeting with certain opposition which is having the effect of slowing up the progress of the project. Amongst other repercussions is the resignation of the President of the Iron and Steel Institute on the ground that the demand of the industry can best be met by men familiar with the details.

**GROUND CUP FINAL.**

**Unavoidable Clash of Dates.**

**AN EXPLANATION.**

**His Excellency to Present the Cup.**

In view of the many requests circulating in Nairobi as to the arrangements for the Ground Cup final, the following explanation is given. The Football Association of Kenya has proposed that the final should be played on Monday, the 16th September, at 2.15 p.m. at the Kenyan Club. This date is unavoidable as it is the date of the Ground Cup Final as decided by the Council of the Football Association of Kenya. His Excellency the Governor will be present to present the Cup to the winner.

It is noted that the British Legion Fete was originally fixed for the 2nd September, which date was later changed to the 16th September. Subsequently, the British Legion changed the date of their Fete to the 16th September, and the Fete Committee expressed the opinion that the playing of the Ground Cup Final on that date would not adversely affect the Legion receipts. It was thought that it might assist the Committee.

At the August meeting of Council when the matter was considered, it was decided that there was a strong case to which the final was postponed. It was agreed that the date should stand. Since that meeting, however, the Police Football Club had withdrawn from the competition. It was suggested that, if Council considered such desirable, the match set down for Saturday, the 22nd September, could be brought forward to Wednesday, the 13th September, and the Ground Cup Final postponed to the 20th September.

It was resolved that, in view of the opinion of the Police Football Association and the fact that the match set down for Saturday, the 22nd September, could be brought forward to Wednesday, the 13th September, and the Ground Cup Final postponed to the 20th September, it was decided that the match should stand. It was also decided that the match should be played on Monday, the 16th September, at 2.15 p.m. at the Kenyan Club.

### THE ABBEY CLOCK BATTERY.

Double the ampere-hour capacity, in relation to weight and size. Much longer lasting - Almost unbreakable - No plates to buckle. Won't run down or sulphate when inactive. Through three generations of the family of John Fuller, collaborator with Michael Faraday and a well-known pioneer of the British battery industry, the search for the perfect accumulator has continued. Today that search has been crowned, tested, ready for your service, representing the old-fashioned type for ever.

### WHAT IT IS

Instead of a cumbersome glass box, loaded with heavy plates - next quality of handsome battery, with double the ampere-hour capacity! This is the "Black Plate" Accumulator, the new type of accumulator that today surpasses the old "Plate" type for ever. 80 amp. hrs. for almost the price of 40! Reliability, light and small! Handicaps? Expensive! Ordinary long lasting and almost unbreakable! Won't run down or sulphate when inactive!

### POLITICAL POLICY. MR. T. J. O'SHEA'S

(Continued from page 8).

when circumstances warrant them, with a view to the eventual establishment of a Central Native Council. We accept without reservation the principle of representation on direct native services shall be equally related to: (1) Native needs; (2) Native interests; (3) Native taxable capacity; and (4) the total resources available. The Members of the Colony. We cannot and will not agree to questions of native needs and capacities being regarded from the effective point of view of the Government as presently constituted; but in the event of the Imperial Government's proposal to grant the Colonists effective control over national finance we will accept the incorporation of representatives to the Imperial Government that an equitable Native Financial Policy will be possible.

We will not agree to the Native Betterment Fund proposal as suggested by Lord Morley but advocate the establishment of a Native Betterment Council (on which the Colonists shall be equally represented) for the purpose of co-ordinating and supervising direct native services and of promoting their development.

We advocate that the personnel of the Central Native Education Board be extended to cover all forms of Native Technical Education with the economic requirements of the Colony and that an immediate step be made by Government in securing the employment of a minimum proportion of native artisans on all Government contracts.

This the Government and proper utilization of the native lands in the native provinces are problems of national concern, and that if European Members must press upon Government ownership for these problems to be dealt with comprehensively.

### Indian Policy.

This contemplated immigration of Indians into Kenya is one of the interests of either the native or the Indian Community. It is their presence in large numbers will give rise to grave problems with the advance of the Colony and the welfare of the Indian and the Native settlements. We advocate that the Government should take steps to restrict the number of immigrants to be permitted and that the objectives of the Indian representatives be sought in this policy.

### Legislative Council Policy.

That the position of Elected Members of Legislative Council is not that of "unofficial advisers to Government" but of parliamentary representatives of the people. This policy to be pursued hereafter is that of an opposition; the extent to which we reserve our rights and privileges as an opposition to be determined by the extent to which Government policy is not in sympathy with, or painful to, our own policy, or our own interests.

### Education.

Re-acceptance of the principle that the responsibility of the Government here in Kenya demands a high standard of education for all our children and that any necessary sacrifice to secure this must be freely accepted. That a complete system of education be put into force immediately and applied to the Townships and so much of the rural areas adjoining as circumstances permit. That the personnel and functions of the Central Education Committee be extended to cover a scheme for linking up our educational institutions with the country's requirements in civil service, commercial, industrial and agricultural training personnel. That a higher education scheme be inaugurated, supported by funds contributed by Central Government and Local Government bodies and such private contributions as are obtainable for the purpose of securing overseas education for our children, collectively and otherwise fitted to occupy positions of responsibility.

### A GOOD WORD FOR KIKUYU AGRICULTURISTS.

(Continued from page 6).

1,204 horses as against 7,500 horses for Denmark. The Danes derive more benefit. The figures given above for the Kikuyu reserves may be used to calculate the carrying capacity of the land. What quantity of energy is available? Assuming 100 per cent. of the available energy is given in a study on energy metabolism, which indicates the standard worked out as 2,800 calories per acre or 1,022 horses per annum. If the yield of 2 1/2 tons of maize per acre supplies 1,349 horses per annum.

Taking the present composition of the Kikuyu reserve population and assuming that routine subsistence on the average 0.8 is such as the maize and other crops, the total number of standard acres 945 horses per acre.

We therefore arrive at the conclusion that the 1,000 cattle are sufficient to feed 700,000 persons. The present population numbered 400,000 and the surplus was sufficient to feed 300,000 outside the reserve. If the present population of 1,000,000 persons is taken as a basis, it will take 10 years to grow the surplus to enable us to feed the whole population.

We have written as the conclusion that the 1,000 cattle are sufficient to feed 700,000 persons. The present population numbered 400,000 and the surplus was sufficient to feed 300,000 outside the reserve. If the present population of 1,000,000 persons is taken as a basis, it will take 10 years to grow the surplus to enable us to feed the whole population.

Local Government. That in view of the political and economic state of Local Government we press that the powers and responsibilities of Local Government bodies be extended. That in extending this the saving effected by the transfer of work at present done by Central Government be taken into consideration and that the question of local rating be considered. That in view of the political and economic state of Local Government we press that the powers and responsibilities of Local Government bodies be extended. That in extending this the saving effected by the transfer of work at present done by Central Government be taken into consideration and that the question of local rating be considered.

### Civil Service.

We accept as a principle that the State should be the model employer, that the remuneration and terms of the Civil Service shall be "Local" and "Overseas" shall be such as to attract the best men with remuneration and terms elsewhere and in relation to the conditions of the country. That the Government should be prepared to accept the conditions generally under which the Government employ the best men and work necessitate extravagant salaries and terms based on comparison with private industry and less advanced Crown Colonies.

With a view to securing (1) greater economy in the cost of administration; (2) permanent identity of interest between the Civil Service and the country they are serving and (3) a better outlet for the rising generation of Kenya, we advocate that the Local Civil Service be extended to cover the widest possible range of positions and that the Government Board in collaboration with the Central Education Committee advise Government from time to time on the steps to be taken to extend that end.

# A Good Word for Kikuyu Agriculturists.

## SUPERIOR TO THE MUCH-VAUNTED DANES.

### Economist's Assertions.

MORE FOOD ENERGY, IN TERMS, IN THE KENYA NATIVE VARIETIES.

The Agricultural Economist in the employ of the Kenya Government has been examining Native production from a new angle.

Working on the basis of food energy in terms of thermal units he has come to the conclusion that the Kikuyu production results than the Danes, whose agricultural efficiency is known throughout the world.

The Danes produce crops averaging 988 thermes per acre whereas the Kikuyu output, with all their primitive methods, was 1559 thermes and when all allowances are made for the large area in Kikuyu employed for grazing stock, the Kikuyu agriculture is superior to the much-vaunted Danish agriculture.

This is explained by several things including a climate permitting two crops a year, fertile soil and mainly the type of crops grown as sugar cane, bananas and root crops, such as sweet potatoes, are really full of thermes.

Only the Dane lands because he cultivates more acres and his production, reckoned in terms of food energy, is therefore about five times higher per acre.

## A New Angle on Production.

By the Kenya Government. Agricultural Economist. The economist who looks at the Kikuyu farmer from the point of view of the farmer's own production, rather than the Government's, has found that the Kikuyu farmer produces more food energy per acre than the Dane farmer.

The reason for this is that the Kikuyu farmer grows two crops a year, whereas the Dane farmer grows only one. The Kikuyu farmer also grows crops which are rich in food energy, such as sugar cane, bananas, and root crops.

The Kikuyu farmer also uses a large area of land for grazing stock, which produces a large amount of food energy. The Dane farmer, on the other hand, uses a smaller area of land for grazing stock.

The Kikuyu farmer also uses a large amount of manure, which increases the fertility of the soil. The Dane farmer, on the other hand, uses a smaller amount of manure.

The Kikuyu farmer also uses a large amount of labor, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of labor.

The Kikuyu farmer also uses a large amount of capital, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of capital.

The Kikuyu farmer also uses a large amount of land, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of land.

The Kikuyu farmer also uses a large amount of water, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of water.

The Kikuyu farmer also uses a large amount of fertilizer, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of fertilizer.

The Kikuyu farmer also uses a large amount of insecticides, which increases the productivity of the land. The Dane farmer, on the other hand, uses a smaller amount of insecticides.

## IN NORTH KENYA.

### Motorist Held Up by a Herd of Buffaloes.

(NORTH KENYA CORRESPONDENT.) Nairobi, Sept. 12. The western side of the North Kenya district has had some excellent rain lately, so much so that it has led to a number of accidents registered on the roads. The country is now grazing less considerably, with the result that roads are being choked.

Owing to the heavy rain, large herds of buffaloes have been on the move. One observer who was held up by a herd of buffaloes in the morning, was held up by a herd of buffaloes in the evening. Last evening a large herd of buffaloes, which had been on the move since the morning, was held up by a herd of buffaloes in the morning.

# MR. T. J. OSHEA'S POLITICAL POLICY.

## A Three Years' Plan of Reconstruction.

### Native Needs.

#### RELATIONSHIP OF ELECTED MEMBERS TO GOVERNMENT.

The Hon. Mr. T. J. Oshea, Member of the Kenya Legislative Council, has addressed a meeting at the Norfolk Hotel, Nairobi, yesterday evening on the subject of the "Three Years' Plan of Reconstruction."

Mr. Oshea prepared before the meeting a statement of his views under the main headings and his speech at the meeting yesterday evening was a full exposition of the constructive programme he had prepared "policy and programme." He regards the reconstruction of the country in its political and economic aspects to work out a National Policy and programme which the majority of the country should endorse.

He said that the various constituencies would then be invited to endorse the programme and to elect the Representatives best fitted to carry it into effect.

**ENGLAND ENDED.**  
(Continued from page 1.)

For the three months the past season has had four points. The following is the history for the year as it stands:

Year	Temp.	Dry.	Wet.
1930	66.6	20	23.5
1931	66.1	35	20.0
1932	65.9	27	20.0
1933	65.6	28	20.0

It will be seen that 1945, although taking less place as regards mean temperature, gave the most days of great heat than 1933, and that since 1946 no 1933 approached for extreme amount of rain. The year 1933 was unique in that long period of rain which has been the occurrence during the past summer of two thermometer readings at or above 95 degrees within a fortnight (95.0 degree on July 27 and 95.3 degree on August 6). Also without precedent was the absolute minimum of 21.6 degree in July, the lowest ever recorded for that calendar month during the last century two years in which the mercury fell below zero. The lowest of 21 degrees at least once. For instance, an summer of 1933 included among the most brilliant seasons since 1800. In London, 21 hours at least from June 1 to August 31 numbered 728, an amount 70 in 1932 and 700 in 1931. The normal allowance is 985 hours. Last year and in 1931 the totals for the same period were 577 hours and 461 hours respectively. The total for 1932 was 1000. These figures show that there have only been five Augusts with less than 200 hours of sun since 1800 and 1933 the rainfall was 21.6 inches. This year there has only been 0.75 inch, which is a record.

**DRY WEATHER IN ENGLAND ENDED.**  
(Continued from page 1.)

The following are extracts taken from the "East African Standard" for the week ending September 13, 1933.

The Commission appointed by the Royal Automobile Club and similar organizations to investigate the question of petrol, has discovered a gross violation of claims to possible to produce forty million gallons of motor spirit per annum from a hydrocarbon of coal. This, it is reported, can be obtained within the "oil" belt of the country. It is reported that the oils are not in fact, but in a position to be produced at present price of one and sixpence.

The case of the British Consul has been demolished by a handsome, being demolished and debts and shipping stopped. The case, however, was entirely a total loss. It is noted that many people have been in the country since the outbreak of the war.

Germany is now producing 100,000 tons of motor spirit, but the cost of this is estimated at 100 shillings per ton. The cost of this is estimated at 100 shillings per ton. The cost of this is estimated at 100 shillings per ton.

**Doctors' Anxiety.**  
Doctors are becoming anxious about the drought. An epidemic of enteritis has broken out in the Chamberlayne Street area and is attributed solely to drinking. Notices have been posted warning the public to hold all drinking water. Chamberlayne in Nairobi is particularly hard hit. The water is contaminated, and other causes, catarrh and other enteritis conditions, is lower today than it has been since it was constructed in 1906.

Millions of dead animals are being found of the vast coast as people die in the sand by the tide up to 100 ft. The drought is not the cause of the deaths, but the lack of water.

"East African farmers who make large quantities of food for export are now finding that the yield per acre is the smallest they have known."

Mr. Macfarlane's problem becomes daily more serious. To-day there is only half an acre of water to supply the trees for another eight days. Impoverished apparatus has been devised to draw water from Lake Rudolf's outlet at Wilmshorough, but this will only supply a few days' water for the trees' needs.

In many Wai and Berakibi districts and other parts were refused and special horses sent for.

Still less is not complete. The rise hot agriculture has been of incalculable benefit to the people, but especially the agriculturists.

AFFORTESTATION - A NEW ZEALAND EXAMPLE.

To the Editor, "E.A. Standard," Sir.-It will be generally admitted by all that afforestation is a desirable object for Government officials, and that a permanent afforestation programme is wanted in this country.

It has been intention to legislate in the past or what is still being done by Government, deemed to be an increased programme can be initiated and that the public understand the reasons for these conditions is worthy of adequate investigation and adoption in this country and other circumstances after investigation, deemed to be suitable.

The following are the rough results of a comparative survey of afforestation in practice in New Zealand during the last five years, and which to the best of my knowledge, will obtain:

The Government started its purchase by the public account for planting to timber at £82 per acre.

In return for the £20 per acre subsidy by Government, the land is sold at £60 per acre in 10 years, £400 per acre in 15 years, and £800 per acre in 20 years.

The first maned figure being the estimated return per acre sold for pulp, the second figure being the estimated return per acre sold as timber.

The cost of Government of planting was reckoned to be £710 per acre and the terms of payment for the £20 were three years from date of purchase by three instalments.

Upon the expiry of the first ten years, a purchaser could either take £200 or if he desired, leave the timber to mature for the remaining five years, Government giving advice upon the choice to be made.

I regret that I have no official documents in my possession, but doubtless they are obtainable from New Zealand.

The information outlined above was given to me by a friend who recently invested in the scheme but will add interest beyond the expiry of the first ten years.

Yours etc., CHAS. J. LARSON FOGLE, Post Terren, Sept. 11, 1923.

"ON THIS DAY."

Richard James Gelling, born September 12, 1823.

It is interesting to note that the names of evolutionists and the names of the men who were in charge of a trade school were the same as the names of the men who were in charge of a trade school.

The cost of maintaining a main road in the suburbs is less than the interest on the cost of a tar road main road to serve the same district.

Yours etc., JAMES SCOTT, Nairnd, Sept. 12, 1923.

E.A.W. LECTURES.

To the Editor, "E.A. Standard," Sir.-I shall be grateful for space in your issue to say that the course of lectures and discussions given at the E.A.W. Club in the Municipal Hall, Nairobi, is a most interesting one.

The interest shown in the work has been most satisfactory, and it is therefore proposed to begin the course of lectures and discussions in the same room on September 25th.

CHAPEL ROYAL BAN.

Divorces Not to be Married There.

["STANDARD" CORRESPONDENT.] London, by mail. Divorced persons who remain under the civil law will not be able to marry in the future to secure the advantage of a religious ceremony at the Chapel of the Savoy, as was the case when the late Her. H. P. Chapman was chaplain. The Rev. Cyril L. Crewell, who has just been appointed to the chaplaincy of the Chapel of England at this new station. There have been no reports of the re-marriage of a party to a divorcee with. While there are many people in the Church of England who in the latter part of the century in this matter is desirable, my own view is that an amendment to change is necessary because no hardship is imposed. Provision is made in some cases by the civil law. Anything that will add or increase liability in the marriage law is to be deplored. The Church cannot afford to give its blessing to something which has not been accepted by the Church as a whole.

Mr. Crewell stated that he thought there was too much laxity in the part of many people in their estimate of what the marriage vows mean.

He added "The Chapel of the Savoy" never to be a very suitable place for Masses services and the spiritual benefit for visitors from overseas, particularly from our own Colonies and India. I would like it to be a real spiritual and living centre not only for our people here but for visitors from overseas generally."

but what a difference in TEXTURE

JUST look at those smiling 'at home' in cake No. 1 made with cheap ordinary baking powder. They simply ruin the favour. In just a few hours the moisture escapes through these cavities—and the favour goes with it. The cake turns dry and stale. But cake No. 2, made with Royal Baking Powder—step by step! Five days after baking it is still as delicious as when it came from the oven.

KENNEL NOTES

Margaret Collyer Miss Collyer, Oghel, to whom all correspondence in connection with 'Kenney Notes' should be addressed, does not hold herself responsible for accuracy of statements made by her which are, in the main, based on information supplied by her correspondents.

I wrote several of you about the Cairn terrier which I saw showing and judging. It is believed by the oldest authorities on 'dog-dom' that the Cairn terrier, as found in the Highlands, was the originator of most of the Scottish breeds of terriers. The long, and straight pointed Skye, the Aberdeen, and the West Highland. I think I may safely add what is known now as the Border-terrier; this title is attached from the Dundee District, for in my day all through the Highlands, Scotland, and in some places as Massachusetts and Portland, the home of the Dundee class dogs were more often not referred to by the old breeders as Border-terriers.

I give the following notes from Capt. T. Lams' book on Scottish Working Terriers, which the Cairn terrier is mentioned. In former days used to keep a terrier or two of the Cairn or West Highland type. Some points were not thought of. They were not used for killing or killing of game, but as a means of protection. They were not used for killing of game, but as a means of protection.

That in former days they achieved great renown will be gathered from the following extracts from the 'Monthly Notes' for which I am indebted to Miss E. M. Tolhurst. 'It will be noticed that for greater safety in case of pestilence such dogs had to be kept in a separate pen! The following is an extract from a letter from James J. to the Earl of Moray, in which he speaks from the Earl of Moray's table. Some of these dogs they call terriers, and in Scotland earth dogs which are another stout dog for killing, and will stay longer under ground. James J. wanted to send three of these dogs as a present to the King of France, for the sake of safety, such dogs were to be sent in a cask, with the certain spelling and found in the 'Monthly Notes' published by John Murray in 1861, gives as a graphic description of a fox-hunt in earlier times. He says 'The moment that the fox is bagged, and will be may be, for his food consists of mutton, and lamb, and venison. His strength is under some huge Cairn or some other fragment of rock, the bottom of some rocky gorge, perhaps some three thousand feet above the sea. He tells of that hill fox kills numbers of sheep, and that should be taken to trap, so that professional 'fox-hunters' would shoot him dead to place. He is generally a very active man, past middle age, strong, with powerful shoulders for carrying the implements of his trade, etc. At his feet follow two couples of long snout, blue hounds, a brace of greyhounds, such with a dash of greyhound's miscellaneous tail of fox-hunters' description of the fox-hunt, and after being long-dogs are ignored.

Had they the rocks the terriers have been utilized as a guard-dog in many parts of the Highlands. The ordinary pedigree dog is a very valuable asset, and should be protected with care. The Cairn terrier is a most attractive little dog. I should like to see a cross between a Cairn terrier and a Cairn both on the small side, I should imagine that the result would be really good dog which could get anywhere.

Dandie Dinmont one of the original crosses for the Scottish, and is hard and game, but the show bench has ruined them for practical purposes. Incidentally, they are bred to Sgt. Charles St. John both at Skye, and in some cases often used for tracking wounded deer.

Scotties and Dandies have stronger jaws and are stronger dogs than the Cairn and West Highland. In Mrs. Wood's book on the Cairn terrier there is a picture of Capt. Allan Macdonald with his Cairn terrier, his gun, and a dead otter. The picture

graph was probably taken about 70 years ago. In a recent issue the pack of Skye hounds, not less than 51 otters and 52 foxes. The scene of operations was a Skye North and South Harris and West Harris. The Cairn terrier was used 12 to 15 to 20. They are used for hunting, and for killing of game, and for killing of game, and for killing of game.

Capt. J. Jones has apparently been hunting in the Highlands, and would not refer to the logs on 'Sky's state records'. There are the pure Cairn terriers who have been used for hunting by gamekeepers. Some of these dogs have been used for hunting by gamekeepers. Some of these dogs have been used for hunting by gamekeepers.

UNION FACING FUTURE WITH CONFIDENCE

(Continued from page 7).

Unions for the month, when prices have been held up by a few points due to the coming of the new season during recent weeks. Finally, and finally, the unions have indicated the appreciation in gold-mining shares, but the price of gold is still high.

The Money Supply. Many countries plentiful, and, judging from bank returns, it will expand faster than the expansion of the money market. As a matter of fact, the international balance of payments of the country is so favorably affected by the expansion of the money market that the supply of funds will continue to be available for a long time to come.

The bankers' deposit in the South African Bank amounted to £27,195,536 on 31st Dec. 1931, and the total amount of deposits in the bank was £54,044,134 and £33,854,000.

Black Satin Suits.

There are whispers from Paris that, within the next two or three months, every smart woman will be wearing black again...

share the honors with, perhaps, a pale tone of turquoise.

Paris is already sponsoring black... The smart Frenchwoman is very fond of a trim coat and skirt...

With the black coat and skirt a large hat is as smart as a small one...

Softer Lines... The new berets are trimmed and are being made from a host of light materials...

New coats are worthy of notice now... The simple, unlined cape-coat is still less favorite...

Notes of the Week.

CONDITIONS this week have not been quite up to standard. Although signal strength has been better with some trouble, although last week had developed into a variety of high speed-chasing which has opened up the detriment of quality. The afternoon transmissions have been good but I think there has been a slight drop in strength.

Seeking Station. The Empire Station, programme director, who by the way has a delightful voice, is short out on Thursday again for operations on the programme. He said there was a great deal of material available and it was largely a matter of getting the show the kind of thing that he wanted. He asked some questions as to how you had your own sports events broadcasted. He said he would like to see some more. He said he would like to see some more. He said he would like to see some more.

The St. Leger. TO-DAY the St. Leger, the first of the racing season is to be run at Doncaster and the electrically recorded racing commentary by Mr. R. C. Lyle will be as crisp as ever. The actual commentary sent out to the listeners should be another high class evening. It is on 6.15, 6.16, 6.17, 6.18, 6.19, 6.20, 6.21, 6.22, 6.23, 6.24, 6.25, 6.26, 6.27, 6.28, 6.29, 6.30, 7.0, 7.1, 7.2, 7.3, 7.4, 7.5, 7.6, 7.7, 7.8, 7.9, 8.0, 8.1, 8.2, 8.3, 8.4, 8.5, 8.6, 8.7, 8.8, BRITISH ISRAEL NOTES.

"THE LORD OUR GOD." We have in Isaiah xxxv, 3, 4. These words, "Strengthen ye the weak hands, and confirm the feeble knees. Say to them that are of a fearful heart, Be strong, fear not: behold your God will come with vengeance, even God with a recompense. He will come and save you."

What does these words "your God will come"? Do you understand that promise? It is not a promise of a future God, but a promise of a present God who is coming to save you now.

It does not say "Take Me for your God, and then I will save you." It is speaking to some people who already had a possession in God. "My God will come with vengeance." And further, "He will come and save you."

It would indeed be most preposterous to do so if God had not spoken, but His word is very clear and definite. In those days sufficient grace was given to us to believe that God not only said it, and said it to Israel, but that it was to be a continuous and never-ending promise.

We certainly do not know it is true, naturally. But the time is to come when we shall "know" that they did not know that I, the Lord, their God, am with them, and that they, even the house of Israel, are My people, saith the Lord God, the Lord of Israel.

SHOP BOALES IN RESERVE - AN AFRICAN'S COMPLAINT.

To the Editor, "E.A. Stationer." - "I am a young professional 'Apprentice' employed in your office today in which I return to school irregularly in regular arrangements to a shop in a Native Reserve which is visited in one fact that there is no legal system in Native Reserves in Kenya which the Inspector of Schools, Messrs are authorized and ordered to check and inspect every business and opportunities therein in Reserve." In other words, "I am not such official inspection definitely barred?"

Quite rightly that the fact that I should not attend school in my own country is a matter of course, but much beyond that shopkeepers and vendors in the Native Reserves are not to be treated as inferior citizens in their own country.

World Conference on African Game.

CALLED ON INVITATION OF BRITISH GOVERNMENT.

Wide Range of Problems.

PRESERVATION AIMS IN LIGHT OF ECONOMIC DEVELOPMENT.

An International Conference of Powers interested in Africa will be held in October in London to discuss questions affecting the preservation of the wild life of the continent.

The first Conference was held in 1906 and the convention was never recalled.

The "Vested Interest" of the Native.

London, (By Air Mail).—The game problems of East Africa will be given special prominence at an international conference which will be held in London in October.

The Secretary of the Society for the Preservation of the Fauna of the British Empire, Mr. J. M. Verreaux, announced that the Government has invited the Royal Society in Africa to an international conference, which is to be held in London in October next.

The 1906 Agreement. Mr. C. W. Hooley, C.M.G., of the British Government, presided at the London Conference of 1906.

Article 3 laid down that within one year from the coming into force of the Convention, the States applicable in the possession of the remaining parties to the Convention, should have appointed a Commission for the purpose of carrying out the provisions of Article 3 (a) which provided for the establishment of a Commission within eighteen months of the coming into force of the Convention.

It is a question interesting at this time to review the progress that has been made in which the main provisions of the Convention have been carried out in British territories in Africa.

The main importance in the declaration of reserves. Thus following the promulgation of regulations in 1908, the first game reserves were proclaimed in the territories of British East Africa.

Kenya Colony. The Commission, presided over by Mr. Hooley, was first convened in 1906, and since that time has held many sessions in the British East Africa, Kenya, and the British East Africa.

Mr. Hooley's report, however, stated that the Commission had not yet been convened in the territories of British East Africa, Kenya, and the British East Africa.

# AVOID CHEAP PAINT

It looks so pretty but the woodwork is in a very bad state and the walls are so shabby. How often do you hear that remark made when your friends are thinking of buying a property—result last lost. This can be avoided if you only realize that the way to calculate paint cost is per annum, not per gallon.

When you are reckoning the cost of paint remember that cheap paint will not last like

BOYES CUP FINAL

Callies Out-play the Railway.

An Unlucky Goal

Callies' victory in the final of the Boys' Cup was a surprise to many who thought that extra time might be necessary...

In the first half, before the Callies had scored, they were very even...

Yes, Philip, you may read of them in the Spectator.

The king of movement folk that break their backs...

As you might think the ladies of the 'Fifties...

But no one can deny what the good boy-keeper was beaten.

**Entertainments of the Week**

**MARY PICKFORD AGAIN**  
 Congratulations.  
 A VERY good house saw the final performance on Monday night of "The Wandering Jew," and the members of the cast must have spent a quiet week-end celebrating after their four nights of arduous work. To all of them in general, and to Mr. E. P. Patterson in particular, the loudest congratulations are due for the successful completion of weeks of intensive work in order to present a most ambitious effort.

**EARLY** in the new year, it is probable that Mr. Patterson will produce another play, of a lighter character, but one which will call for good acting. It has

already been seen in Nairobi on the 4th, but as it was a first night, shown only for three nights and then sent direct to South Africa, there is no fear that the play will be so familiar as to spoil the stage version.  
**"The First Mrs. Fraser"**  
 MEANWILE, several members of the cast are now free to devote their time to rehearsals for the new play, "The First Mrs. Fraser," which Miss Kathleen Robinson is producing at the Empire Theatre in aid of the funds of the Royal Agricultural and Horticultural Society of Kenya. The dates are October 4, 5, 6, and the first night is expected to be something out of the ordinary.

**EVERYONE** is looking forward to the return to the local stage of Mrs. McEntee, and now that she and her husband have moved nearer to Nairobi—they are living at Embury—the probabilities are that she will be in great demand by other producers. Supporting her

in this play on several well known actresses—Mr. Malton and Mr. Hanks of "Hazel" fame, Miss Barbara Harrison, to quote her name, and Miss Robinson at the moment, there need be no doubt of a successful and enjoyable presentation.  
**"Half Driver"**  
 SO far as this week is concerned, indeed the next three weeks, the main source of entertainment and amusement will be the films. In this connection it is interesting to know that "Half Driver" may be repeated later in the month. It drew full houses on each of the three nights it was shown last week, he well as at the matinee, and while it is not always a wise thing to give these sort of movies, in this season will probably be justified.

 Mary Pickford.  
 OF the four films which make up this week's programme, the greatest interest will probably be centred in "Half Driver" starring Mary Pickford. It is the story of a midshipman's girl who, after nearly wrecking the ship in which she is playing, proceeds to get herself into many ludicrous situations during her intimation for a parti-

cular young man. Reginald Denny plays the part of this young man.  
**"THE World's Sweetheart"**, as Mary has been called, is a Toronto girl by birth, and is still young—she is only 40 years of age. The list of films in which she has appeared is a very lengthy one, and it will be recalled that at one time she was head of her own company. Now, most of her films are released by the United Artists. Just at present, it is a matter of conjecture whether she and her husband, Douglas Fairbanks, senior, will be divorced or not.

**INTERESTING** stories which are being screened are all interesting in their own right, and all depend upon the setting of the casts to get them over.  
**"DEVOTION"**, for instance, is adapted from the novel by Wynne's novel "A Little Flat in

 Miss Tobin was formerly on the stage—she had a part in "The Trial of Mary Dugan"—and her pictures have included "Good-bye with John Boles" and "Half Gods" from Sidney Howard's play.

the Temple," and has Ann Harding and Leslie Howard teaming in the leads. It is located in London, in a state of quiet in a desert of sound, and the picture will bring back a familiar sight to many residents in Kenya.  
**AGAIN**, "Lovers Courageous," in which in defiance of all possible negatives, the girl marries the man she chooses. The heroine is portrayed by Madge Evans, the man is Robert Montgomery, and the story was written by Frederick Lonsdale.  
**FINALLY**, "Up for Murder," in which Lew Ayres and Genevieve Tobin head the cast. Lew Ayres at one time studied for medicine, till music attracted him,

THE POPE DISTRESSED BY GERMAN SITUATION.

CONCORDAT RATIFICATION IN JEOPARDY.

A Rumour Denied.

NAZI POLICY TOWARDS CATHOLIC CHURCH.

It was reported in Berlin during the week-end, but subsequently denied, that the ratification by the Pope of the concordat between Germany and the Vatican was in jeopardy.

The Papal Secretary of State had an hour's conversation with His Holiness on the question, and it was afterwards announced that the concordat would be signed.

The minor points of difference, it was added, would be satisfactorily settled.

Conference at the Vatican.

It is reported from Berlin that the Vatican has declined to ratify the concordat which is equivalent to ratification.

The Vatican has confirmed that the concordat with Germany will be satisfactorily settled, and formally denies that the Pope has refused to ratify the concordat.

# HOW ABOUT THE PRICE

## OF AIRWHEEL TYRES

If you think that you cannot afford Goodyear Airwheels - - - here's a surprise for you.

*The cost of Goodyear Airwheels is about the same that you would pay for ordinary tyres and tubes. In some cases the cost is a few shillings more - in others actually a few shillings less.*

You pay no heavy premium for the amazing comfort and protection which only Goodyear can give you - - - the protection of great soft pillows of tough rubber which roll so smoothly and effortless over the roughest of roads, mud, sand and open veldt.

You pay no heavy premium for a road grip and security so powerful that brake effectiveness is nearly doubled.

Perhaps you think you don't need Airwheels. The roads over which you travel may

be dead smooth - - - they may never become muddy. But if ever you should encounter wet roads - - - if you ever are called upon to drive over rough or corrugated highways - - - then you need Airwheels. You need them because

of their unbelievable comfort - - - for the tremendous saving to the chassis and car body by eliminating shattering vibrations which shorten their life and run up repair bills. For the sake of safety you need their sure footed grip. Why take chances with less protection?

For full proof of what Goodyear Airwheels can do - - ask any car owner using them - - or write to the Airwheel Department, Gilfillan & Co., Ltd., Nairobi.

KENYA YOUTH-HIGHER EDUCATION. To the Editor, "E.A. Standard," Sir: I did not deal with the main point of Mr. James's original letter because I feel the Colony is unable to consider such schemes at the moment however desirable they may be, but I hoped that the idea of a cheap preparatory school somewhere in Kenya might be practicable in these times of economic distress.

To the Editor, "E.A. Standard," Sir: I have had the honor to inform you that the regulations allowing the importation of plants into Kenya and what I should like to point out is that there are preparatory schools in England from 100 p.a. upwards while there is nothing in Kenya between the Government schools and the schools at £180. Mr. James has only to look at the "Illustrated Daily Mail" school advertising to see what a wide choice there is in England to realize how handicapped we are out here.

# Disorder in Cuba Becoming Worse.

## SERIOUS SITUATION OWING TO RIOTING.

### Danger of U.S.A. Intervention.

#### PRESIDENT ROOSEVELT CONFERS WITH OTHER STATES.

The situation in Cuba is becoming worse owing to rioting and violence following unrest. Most of workmen have seized a number of sugar mills in the country and Havana itself is in a state of tension.

President Roosevelt has conferred with representatives of some of the South American Republics in regard to the Cuban situation. President Roosevelt's remarks were pacific in their nature, they are taken to indicate the imminence of extreme action.

Meanwhile the U.S.A. Secretary for the Navy has left for Havana on board the American cruiser "Indianapolis".

The Communists in Cuba have decided to try upon United States forces if the latter attempt to land in order to show the world that Cuba is not an American colony.

### A Communist Threat.

Washington, Sept. 8.—It is reported that conditions in Cuba are becoming worse, especially in the south coast. The U.S.A. Secretary for the Navy, Mr. Nathan, is leaving for Havana today aboard the cruiser "Indianapolis".

President Roosevelt and Mr. Nathan, the Secretary of the Navy, conferred today with representatives of the Argentine, Chile and Mexico. President Roosevelt stated that the United States is not prepared to intervene in Cuba unless the situation there becomes so serious that a Government of the United States is unable to maintain order and to protect the lives of its citizens.

This resolution has caused the U.S.A. to feel that it is not a just or a prudent action against the sugar mills seized by mobs.

# LOCUSTS IN EAST AFRICA.

## Swarms Reported in Several Areas.

### Breeding Expected.

BUT ONLY SMALL BANDS OF HOPPERS LIKELY.

Swarms of locusts have been reported from all the East African States during the period ending September 8, according to the report issued by the Kenya Department of Agriculture. The swarms are generally small and breeding is expected, but the report is likely to be in small bands which will facilitate destruction.

#### Tanganyika Territory.

Migratory Locust: On August 10 the territory was reported to be free from locusts. Further reports of the red locust were received from the districts of Ufa, One large swarm is reported in South Tanganyika moving north-westward while another has passed northward over Kilimanjaro flying towards Trench. Three small flights were coming in the Tanga district.

#### Uganda.

Migratory Locust: Reports from the districts show a slight increase in the number of swarms, but it is noted that the majority of cases throughout the country the swarms are small. No breeding has been reported as yet.

#### Belgian Congo.

Migratory Locust: The general situation in regard to locusts is reported in several areas. In particular, the districts of West Kivu, East Kivu, and the Congo are very dry due to the latter.

#### Kenya.

Swarms of varying size have been flying in a southerly direction from the districts of West Kivu, East Kivu, and the Congo are very dry due to the latter.

#### More Warnings In Africa.

Two U.S.A. destroyers have left Newport for Cuba, and the destroyer "Ontonagon" has been ordered to the Cape Verde Islands. The American official fears an outbreak among the 20,000 convicts in the model prison.

### AN INDIAN FAILURE.

#### Deficiency Stated to be £24.

Mohamed Bux o' Hassan Bux, trading as Mohamed Bux and Son, 10, Market Street, Bombay, has failed to pay a debt of £24 to the Official Receiver. The Official Receiver has issued a writ of sequestration against the debtor's assets.

#### Money from Broken Glass.

There was a report to this effect that a man had been seen to be carrying a large quantity of broken glass in a sack. The man was arrested and the glass was found to be worth £24.

### East African Standard

SATURDAY, SEPT. 9, 1950.

### An African Cathedral.

It is a tribute both to the virility of the Church in the African Mission field and to the fertility of the soil in the Colonies that within 35 years from the planting of the seed of the Gospel by the Church of Scotland in the East African continent at Kikuyu the harvest is ripening. In September 1950 the East African Standard Mission was transferred to Thurovoti and the beneficent influence of patient and courageous workers, overcoming almost insuperable handicaps in a period which offered little that was encouraging of sacrifice, has borne fruit today in the completion of a splendid cathedral, a place that carries and a symbol of the Church in East Africa. It is a tribute both to the virility of the Church in the African Mission in Kenya and all its devoted workers know that on the foundation of a successful work of good works there had already been erected a structure of faith in its conception and execution

the measure of the success of the Church in the East African continent. It is not a matter for Sunday and Festivals. The moral of the story is that the Church in East Africa is not a mere appendage which waits upon the people of Africa in their dealings with Africa and its Native people. The African is distinguished by his own beliefs and attitudes presented in his own way. The Church (especially in its early days) has had to learn to live with the African which will be a continuing function of a few African Churches.

St. Andrew's Church. The services of St. Andrew's Church of Scotland, Nairobi, were held on Sunday, September 3rd, at 10.30 a.m. The Rev. A. M. Anderson, who is the Minister of St. Andrew's Church of Scotland, ministered the service. The choir, led by Rev. A. M. Anderson's first son, St. Andrew's.

## A NEW CATHEDRAL IN KENYA.

(Continued from page 1.)

of Mr. Katherine Macleod. The South Princes with three unique windows especially designed by Mr. James Dalmatov, F.R.A. of Edinburgh, commemorating Mr. A. Low Jones and erected by Miss A. H. Bruce, Edinburgh. The Registry is in recognition of Mr. Jones and Duncan McIntyre, who died on April 6, 1922, while working through Mau Mau, and a four light window originally given by him to Dundee Cathedral has been brought from Scotland and installed in Gothic arches, a relief against the Dundee windows. The Memorial is given by his widow. Four windows set in the Aisle and Church commemorating the four missionaries, W. P. and C. W. Dennis and Miss Stevenson, while a central tower, reminiscent of St. Paul's, the Light of the World. Four other towers, making seven in all commemorating eight of the early African Christianities. Three altars have been installed in the chancel, one of them the gift of the 'Dora' Brigade of Great Britain and Ireland.

## TO-DAY'S OCCASION.

The Church is being dedicated today Saturday, 9th September, at 9 a.m. It is the 20th anniversary of the Mission, and five years since the building commenced. The Rev. H. O. Caldwell, M.C., M.A., Moderator of the Presbytery of the Church of Scotland in Kenya will conduct the ceremony. He will be assisted by the Right Rev. the Bishop of Mombasa, and Mr. A. M. Anderson, Scottish Chaplain in Charge of the Station, and Mr. R. V. John W. Arthur, M.D., Minister of the Church at Kiunga. His Excellency the Acting Governor, Mr. Mont-Mason Moore, the Acting Colonial Secretary, Mr. A. de la Nave, Native Commissioner, Mr. A. de Fontaine, with many other Europeans, and a great crowd of African Chiefs, officers and people will be present at the ceremony.

## The Church of the Torch.

Our dear Father, send—  
"Let there be Light!"  
Clad, our broken, and—  
"I am the Light of the World!"  
Church of the Torch, let your dear God's all-bringing love proclaim: Hope, Faith and Love with Love unite.

"You speak His Word." "Let there be Light!"  
And now the land for Truth and Light.

"Let there be Light!"  
The Moderator of the Church of Scotland, the Right Rev. Laurence MacLeod, W.A., D.D., has sent the following message—

"Kiunga is an example and incentive to the Church of Kenya. It has always felt the need in a remote area that wishes the home churches stirring our ardour.

"Especially is Kiunga to be congratulated on its story during the past thirty-five years, in which it has made history and grown numerous which make welcome every holy service of strength to those who have come either there."

"The Church owes her thanks to the native people of Kiunga for their fidelity and services, and for their sacrifice in the offering of the love of Christ the Redeemer. These Church is a fine monument to His love and on the years by it will become a clothed with countless generations of the May He save from sin and sin and His Master, and labour for His good and glory."

"His good and glory."

NAIROBI CHESS CLUB

Mr. Popoffal G. Mehta informed us that the new Indian Chess Club had a successful inaugural meeting.

Mr. Sakhran Dass, one of the greatest Indian players in Kenya, is now on a visit to Nairobi from Eldoret.

THE ART OF CHESS

By James Mason.

What is wanted, not only chess study, but chess play, a grandeur of chess and delicate ideas as to the final object of the game—checkmate.

NAIROBI CHESS CLUB

In the Ruben cup tournament some recent results are: K. Huber beat C. A. Heron.
