CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and in all cases the most anonymous of the writer is necessary for publication, but as a general rule, replies are given only in cases where it is deemed essential to make a contribution.

TAKATION AND LIVING COSTS.

To the Editor, "E.A. Standard." Sir—Some time ago the East African Standard kept the readers well informed of the cost of living in Kenya. As I was prior to the new taxation, I am sure everybody would be interested to hear what the effects of the new taxation will be. I have tabulated what it is not less than 472 per cent. increase. "Sunday" said, "I know one line that over 100 new taxes have been imposed during the last few years, one believes to believe that taxation of this kind can be tolerated. In our most prosperous days we paid 400 per centum in taxes on income and children. Of course those who have been subjected in the past to this sort of do-or-die that we have attempted to have been labeled "helps an idiot, don't it?"

A CHEQUE CASE.

To the Editor, "E.A. Standard." Sir—May I be permitted to give "Wey's Will" and "Wide Awake" in their denunciation after truth? The proposition claim of the directors is that they should be entitled to call on all the bank accounts in which they have deposits at any time, including Sundays and presumably Wednesdays, and of course to immediately demand. Do you wish to make a man of business of the whole world's tendency is in the direction of shrewdness and frugality? Any man who "Wide Awake" has been concerned with the bank of which he was a member and who has been a member of the bank.

THE LIQUOR LAWS.

To the Editor, "E.A. Standard." Sir—May I be permitted to give "Wey's Will" and "Wide Awake" in their denunciation after truth? The proposition claim of the directors is that they should be entitled to call on all the bank accounts in which they have deposits at any time, including Sundays and presumably Wednesdays, and of course to immediately demand. Do you wish to make a man of business of the whole world's tendency is in the direction of shrewdness and frugality? Any man who "Wide Awake" has been concerned with the bank of which he was a member and who has been a member of the bank.

BURNER ROAD.

To the Editor, "E.A. Standard." Sir—I noticed in the "East African Standard" of 28th inst. an article "The Burner Road and Clock" which reads: "The Thompson Estate and the Nairobi Municipal Council to take over Burner Road as a public road. The Council's meeting to-morrow will be recommended by the Works Committee not to agree as the road of murrum and an average width of 12 feet is not constructed to the specifications which the Council requires, before taking over private roads."

THE WEATHER.

Rainfall Returns for the Week. The following is the B.E.A. Meteorological Service report for the week ending August 29 at various stations in the Colony and Protectorate of Kenya and East African Territories.

Table with columns for Station, Date, and Rainfall (inches). Stations include Eldama Ravu, Kisumu, Kericho, Nakuru, etc.

DAVIDSON ROAD - A BLANK CHEQUE.

To the Editor, "E.A. Standard." Sir—The handling over of a "blank cheque" as reported by your issue of today, dated 28th inst., is a very serious matter. The Municipal Council for the same it considered as a lawful duty by me for 40 per centum of the cost of the completion of Davidson Road would seem to require a little explanation.

COFFEE PRICES.

To the Editor, "E.A. Standard." Sir—Mr. Malcolm Smith states that a coupon of his has failed to find pure Kenya coffee on sale in London at less than 2/- a pound. May I inform anyone interested that pure Kenya coffee can be procured at 1/90 per pound for A and 1/6d. per pound for B, from the Elgon Coffee Co. Ltd., 31 Dover Street, W.1.

THE NAKURU MUNICIPAL BOARD. Review of Work Carried Out Last Year.

PROGRESS DREPTIE DEPRESSION. The Board consists of 15 Members. The District Engineer R. L. H. (in office), 2 European members, and 10 African members.

A Partial Recovery. By the time the report was made the position had improved. Part of the loss of the water revenue from the railway was offset by increased consumption from certain customers.

Reduced Expenditure. The reduction in revenue, which was anticipated as a result of the depression, was more than fully recovered. The Estimates for 1933-34 are estimated by the Board to be a net income of £10,100 and expenditure of £10,015.

provision adopted economic measures, which involved cutting out almost entirely the working one of employees at the Nakuru locomotive sheds, and other restrictions in the Board's revenue from this source being reduced to only £1,000.

To meet this extra expenditure was reduced to £1,000. By reorganizing the street cleaning system and having the use of trees and shrubs in large areas, the Board was able to save £1,000 in its expenditure.

By the time the report was made the position had improved. Part of the loss of the water revenue from the railway was offset by increased consumption from certain customers.

The question of levying a rate on site values was considered, but it was decided that so long as the Board was able to maintain the constant service from the existing source of revenue the matter should stand over till conditions improved.

RACING AT YORK. Harwood Handicap and Gimcrack Stakes. Mr. Maurice Bonington sends the following results of the Gimcrack Stakes, value £1,000 and the Harwood Handicap, Plate value £800, both run at York.

Empire Theatre.

The programme at the Empire Theatre this week-end is equally excellent. The main film, in which there is scientific work by Jean Crawford, takes a newspaper office as a background and works in a very good background done story with plenty of drama and a little music. "Fugate" is, perhaps, the most successful movie ever made and crime reporter in Chicago but they can still appreciate the points of the game. The sound reproduction throughout is of a high standard and materially adds a very good film in making the "perpetrator". The news items are particularly interesting and include some very revealing pictures of the events in Cuba and of the return of General Duff and his men to Italy. They show a clever edit on "Trade Horn" by a company of dogs ingeniously directed and a very interesting travel film with the scene taken on the Yangtze river in China. Altogether a programme worth seeing.

Capital Theatre.

With a libretto and music arranged by Jerome Kern, "The Sign of the Cross" is a musical comedy for the most part. One scene - "The Sign of the Cross" - is a very good one, but the rest of the show is a very poor one, which both try to do a little better than the rest of the show. The music is very good, but the lyrics are very poor. The show is a very poor one, which both try to do a little better than the rest of the show. Emigration of Jews from Germany.

CONTROL OF CAPITAL TO BE EXPORTED.

In Trust Account Only.

TO BE USED FOR PURCHASE OF GOODS FROM GERMANY.

The German Government has published a decree for the control of the export of capital by Jewish emigrants to Palestine. Under the scheme provided under the above amounts exceeding 1,000 Palestine pounds must be placed in a special account in the Reichsbank and must be used solely for the purpose of payment of German goods to be delivered in Palestine.

The Zionist Congress at Prague has decided to appoint a commission to investigate the matter in June of a Jewish Labour leader in Palestine.

A member of the Executive of the Congress paid a tribute to Britain for her work in Palestine as the Mandatory Power.

KONGONIS SUCCESSFUL ENGLISH TOUR.

Fine Performances by P. Walker.

EXCELLENT FEILDING BY KEVYA PLAYERS.

["STANDARD" (MURRAYSBURY)]

London, August 22 (Daily Air Mail).

This year's tour was the most successful that the Kongonis have ever had in England as they won 4 matches, lost one, and drew one very much in line with 1930. For the first time since 1930 there was no difficulty in raising a side, and 15 members took part in the first perfect week days, and the other two were fine through odd showers, but play was never stopped by rain. Wickets were fast except at Millers, where it had been overcast, and the tendency of our batsmen to play forward too much was responsible for our small score there. The side was stronger in batting, but rather weaker in bowling than those of the last two years, and the main cause of this was the folding in former years of the bowlers, who had their hands broken by mis-catches but this year the catching was very good especially in the series where Harcombe, Lew, Pollock and Walter did splendid work.

Philip Walter was a tower of strength to the side. He made about 400 runs including two centuries, and took 93 wickets in the series. Malloch, Lew and Pollock also batted very well and most of the others made some useful scores. The bowling was not so strong and the side usually wanted a fast bowler and a left-hander, as Baker was lame and could not supply the latter. Walter was the only bowler who could keep up an end and retain his length for long spells. When he got any help from the wicket he bowled very well. Lew after a game of two, found his length and gave him useful support. The others were not very reliable but got some valuable wickets.

Aug. 14th vs Worthing at Worthing.

Our total was quite a good one for the first match of the tour, as most of the side were out of the good innings and most of the others made useful contributions. Our bowling was indifferent and lacked length. Steel and Malloch took advantage of this and by fine hitting got the ring with a quarter of an an hour to spare.

Labour Party's Policy for Colonies.

KENYA AS THE EXAMPLE OF WHAT TO AVOID.

Socialism and Self-Government. EQUALITY OF FRANCHISE AND RE-AQUISITION OF UNUSED ALIENATED LAND.

The British Labour Party is holding its annual conference at Hastings in October. For the consideration of delegates there has been prepared a long memorandum on the Colonial policy which a Labour Government should follow when it comes into power.

Kenya is once more regarded as the horrible example from a Socialist point of view and it is made clear that prohibition of land alienation, acquisition of unused land in the hands of the settlers, equality of franchise between native and European and other changes would be the aim of the Labour Party.

It is declared that the Party's colonial policy is represented by the two words, "Socialism" and "Self-Government." By the first is meant development of native affairs on orthodox Socialist and co-operative lines, including provision of machinery, experts etc., from public funds for the establishment of native industries and the encouragement of trade missions among the "Africans."

By "Self-Government" is intended the rapid extension of responsibilities to every colony—with the qualification in the case of Africa that this can only be done when the initiative is simultaneously given the vote and an effective voice in Government and in no case would it be encouraged where it would result in control by a European minority.

No Empire Preference.

It is pointed out that the Labour Party has no Empire Preference. It is stated that the Labour Party has no Empire Preference. It is stated that the Labour Party has no Empire Preference. It is stated that the Labour Party has no Empire Preference.

TO MAKE A STUDY OF THE RIFT VALLEY.

A Young Cambridge Graduate's Task.

SIX MONTHS IN A TRIP. To Take Magnetic and Gravity Measurements.

The "Daily Independent" of London, August 22, refers to the trip to the East Africa of a young Cambridge graduate, Doctor E. C. Bullard, of Class College, and his party.

Mr. Bullard has just completed his first year of his trip to the East Africa, with a view to making a study of the Rift Valley. He has been in the East Africa for six months.

A Critic of Uganda.

Of all the East African Territories, Kenya is the most accustomed and inured to criticism both informed and biased, constructive and destructive. It is the least sensitive to a fault and properly so, for the reputation of the country, took under. Later, they got so many prophecies that they soon said the critics' personal by the same group, began to feel the weight of the criticism. It is a fact to-day, established by the fact that Kenya had interest and forgot to be reminded. It is the case, the weakness of criticism brought its highest advantage. PRESIDENT ROOSEVELT'S GREAT GAMBLE.

(Continued from page 1.)

adopted a "Monroe" note to cover all industries which have and already made official application to the "big industries are alarmed by the President's action in Washington, and see the beginning of Government interference terminating with a Socialistic State.

At a time when the public are unable to buy them in any quantity on the other hand, especially when wage stipulations of the codes are increased wages to justify the increased prices asked by the retailers.

The American people are alarmed by their view, and are very willing to permit Roosevelt and his cabinet to "take the place of Congress in managing affairs during the hour of the nation's greatest crisis."

The "Monroe" note is the latest product of "the brain trust."

It faces the maximum working hours of 40 with a minimum wage of 22 to 42.

Industrial relations will be paid at minimum wage of 30 a week.

The employment of children under 16 is prohibited, and the employment of children between 16 and 18 is limited to those hours only.

The immediate future depends upon the "blinking" of the stock market. If it is not given a fair trial there is danger of an immediate collapse of the Rooseveltian policy.

An Appeal.

Proof of the great importance of the matter was forthcoming when Mr. Roosevelt appeared over the radio for national cooperation.

In the course of his address the President said:

"I bring before you for consideration the most important matter of our time. I believe that it is the duty of every citizen to cooperate in this effort to bring about a more equitable distribution of our national income. It is the duty of every citizen to cooperate in this effort to bring about a more equitable distribution of our national income. It is the duty of every citizen to cooperate in this effort to bring about a more equitable distribution of our national income."

The President said:

"We must either get out of the present predicament, or we must face a more serious crisis than we have ever known before. We must either get out of the present predicament, or we must face a more serious crisis than we have ever known before. We must either get out of the present predicament, or we must face a more serious crisis than we have ever known before."

A GLANCE AT LONDON'S LATEST FILMS.

Magnificent Acting by Lionel Barrymore.

"BITTER SWEET" SCREENS.

[STANDARD] (COMMUNICATOR) London, August 22. (By Air Mail.)

There have been several interesting film make shows this week.

John Barrymore makes his debut from Hollywood with John Barrymore's "My Lady Blessing." I understand Hollywood is not too far from it for the summer picture.

"Congress Dances," quite an extraordinary light and cheerful entertainment. It is similar to "Congress Dances" in London.

"The King of the Kings" is a magnificent production.

Lillian is in a cabinet part, and her performance is a masterpiece.

It is all discovered and he is the Prince. A feature of the picture is the manner in which the picture is introduced in the world.

Lillian Harvey may like the picture very much.

Social Outlook.

"Honey Hall Hobbies" is a Golden Age Production film by Hubert Chandler, Joan Roberts, Edward Grogan, Natalie Wood.

It is a quite reasonable, and a fairly original story. The heroine is a woman who is married with her husband and marries his master, who was once a convict.

It is a story of a woman who is married with her husband and marries his master, who was once a convict.

Town Council Discusses Unsanitary Subject.

MEAT REGULATIONS.

Butcher's Suspensions Held to be Entirely Unjustified.

The recommendation of the Public Health Committee to Nairobi Municipal Council—that the seven condemned stalls for human consumption should not be re-erected—was a lengthy discussion Tuesday evening at the Council. This method, it was said in the discussion, was to hold the enterprise for a certain number of years at a high degree of loss and, while it had the effect of killing the germ, it also destroyed the food value of the meat.

Councillor A. B. Cooke started the discussion by moving that the whole question of slaughtering be referred to the Government and that the Government should make a final decision thereon. Councillor South Mchombi seconded.

Councillor Cooke held that the former method of slaughtering had been in practice in Nairobi for the past 20 years, with no objection recorded to the butchers or consumers, for the health of the public was fully safeguarded. In the past year or two the Council had spent a large amount of the ratepayers' money on the 10-product plant at the abattoir. Naturally, after spending this money, the Council could not afford to let this machinery rot, it must be run and used for the purpose for which it was built. Unfortunately, the system of slaughtering had crumbled up when the plant had been built, and the butchers' impudence was the cause for the introduction of the 10-product animal, was the view of by-product plants (Messrs. Gosselin).

Councillor Cooke repeated that that was the impression he had in mind, or he would add that the plant had been run as a business that required 10 employees to purchase a number of load of

meat. If the Medical Officer of Health (who gave his views to the committee) were to confine himself to matters within his province, his opinion was that conventional meat, thoroughly sterilized, although it had no food value, was good enough for human consumption. The speaker also pointed out that the Council had received many letters from associations representing the butchers, and that the latter were being crushed under this method, which had been introduced. Councillor Cooke stated that the Council did not appreciate the importance of the matter, with the result that it had now come up in this form.

A Real Danger.

Referring to Councillor Cooke, Dr. Fisher, a town councillor of the Council, said that if the Council decided to allow the sale of non-boned carcasses, meat for human consumption it would bring these into existence, even on a small scale. He emphasized that the meat that the people were eating was not safe, and that the people were eating meat that was not safe. He stated that the meat was not safe because it was not properly cooked, and that the people were eating meat that was not safe. He stated that the meat was not safe because it was not properly cooked, and that the people were eating meat that was not safe.

'Not Badly Treated.'

The butchers who complained were not a small number, and the whole of the matter was treated for the standard of operation both as regards the quality of the meat made and the manner of slaughtering. The speaker stated that the butchers were not badly treated, and that the Council should consider the matter carefully.

It means that these butchers are forced to buy at a higher rate than they would like to buy, at a higher rate, healthy meat, and they are forced to buy at a higher rate. The Council would not give their support to these unscrupulous and ignorant butchers who had the audacity to put up such proposals.

Councillor Newark quoted the law to prove that once an animal was condemned it became the property of Council, and that they were within their rights to destroy it in any way they pleased. He also stated that the Council should consider the matter carefully.

The Mayor said that once an animal was condemned it became the property of Council, and that they were within their rights to destroy it in any way they pleased.

Good Gravy improves Roasts

WHERE'S my cooking that folk can't resist, but it's Bisto that does the trick.

Take Pack For Instance: It's not just any old stuff, it's rich, it's full of natural gravy, but plenty of rich gravy is essential to work as to any other meat. It places one good teaspoonful of Bisto in a basin and smooth it down with half a pint of warm water, then I pour the mixture into the roasting tin, from which the fat has been strained and bring to the boil. The result is delicious gravy."

President Roosevelt's Great Gamble.

NATION-WIDE PLAN TO SAVE AMERICA FROM CHAOS.

Anarchy May Follow Failure.

Dictated Hours and Wages in All UNITED STATES INDUSTRIES.

President Roosevelt has plunged into a desperate endeavor to drag America out of the depression before the end of the year.

If he fails, the United States, with 126,000,000 employed, dwindling relief funds, currency problems, industrial difficulties, vanished overseas markets and over-production, may be faced with anarchy and the most terrible collapse in world history.

The President has encouraged all industries to shorten hours, raise wages and absorb unemployed. Great moral pressure has been placed on employers and employed to agree and for those who cannot meet their problems he has devised a "blatant code."

\$700,000,000 of public money is being thrown into the nation-wide scheme. The dictation of the dollar in foreign-owned plants has been another way of accomplishing the same end and the future of America hangs by a thread.

Dollar Policy Obscure.

Nothing is so far to be seen as to be in the hands of the United States out of the mire before the autumn, and this, too, is a logical line of the way out of the present.

Whether the great social policy and economic experiment to which Mr. Roosevelt is plunging, of nationalizing banks, nationalizing industries, nationalizing the railroads, or of dictating hours and wages to all industries, is to be applied to the building of new roads, nationalizing harbors, and other public works, some quite unnecessary, and the building of factories to incorporate as to employ more than by dictating hours of labor.

A Start with "Fireworks"

The campaign is being started Monday, the "Days of the Dictatorship" commencing with the dictation of hours and wages to all industries, and the dictation of hours and wages to all industries, and the dictation of hours and wages to all industries.

Dictation of Hours and Wages to All Industries

It is estimated that close upon half a million unemployed workers have been absorbed, recently, in textile and other factories, but the rest of the unemployed are still in the hands of the dictation of hours and wages to all industries.

TRADE REVIVAL IN BRITAIN.

Signs of Steady Improvement.

Railway Earnings Increase.

RENEWED ACTIVITY IN INDUSTRY.

[By wireless.]

Another notable improvement in trade receipts has been recorded by the four main British railways. The total receipts for last week rose £1,700,000 higher than for the corresponding week last year.

Another three industries are being selected, Monday, August 28, 1933. The industries to be selected are: (1) The cotton textile industry, (2) The iron and steel industry, (3) The engineering industry.

Effect on Stock Exchange.

On the stock exchange, markets display a firm tone and activity has been remarkable for the time of the year.

The 10th anniversary of the outbreak of the war is being celebrated by the various stock exchanges and organizations of the American continent, but no activities of improvement in the trading position of securities, coupled with the encouraging home and foreign markets.

In a desperate effort to get the situation under control the President has approved a "blatant code" governing hours and wages for all industries.

AMERICAN MINISTERIAL APPOINTMENT.

Successor to Professor Moley.

[By wireless.]

Professor Robert H. Taft, who acted as American Minister to the United States, has been appointed by the President as Assistant Secretary of State.

THE PRICE OF GOLD.

Zanzibar Clove Growers' Burden of Debt.

GOVERNMENT SEEKING METHOD OF ALLEVIATION.

Call for Details.

Steps are being taken in Zanzibar to ascertain as soon as possible the condition of indebtedness of the peasant producers.

For this purpose agriculturists are being invited to supply details of the value of their property and the nature and extent of their liability in order that Government can consider whether any alleviation is possible.

Penalty of Indifference.

The Government of Zanzibar has decided to issue a circular order to all the holders of land in the island.

The circular order will require the holders of land to supply details of the value of their property and the nature and extent of their liability in order that Government can consider whether any alleviation is possible.

Mr. C. J. Franks.

Mr. C. J. Franks, Director of Agriculture, Zanzibar, has announced that the Government is seeking to alleviate the burden of debt on the peasant producers.

QUESTIONS OF THE JERSEY TYPE.

To the Editor, "E.A. Standard." Sir.—The letters from "Jersey Breeders," Editors, are interesting and presumably the future of the Dairy Industry is not assured. Would it be good enough to enlighten the public opinion by answering the following questions: 1. Are his conclusions based entirely on the merits of the Jersey breed as testified in England and the Channel Islands?

2. Have we in the Jersey bulls the same "type" as in the Jersey cows? 3. How long has it been breeding Jersey cows and what are the characteristics of some of the best Jersey cows? 4. "Wide Awake" is good enough to describe me as an "awake" and a "complaint" which I appreciate all the more that it is little deserved. I have a number of friends however who may justly claim to come into this category and they are like the majority of normal men, as fully alive to their responsibilities as their neighbors are the vocal advocates of "Wide Awake" and are fully qualified to exercise this knowledge with out the interference of a "granular" hospital.

"What I shall eat, what I shall drink and what I shall do" shall be the motto of the "Wide Awake" and they are fully qualified to exercise this knowledge with out the interference of a "granular" hospital.

If your correspondent desires to continue me of the inquiry into the "Wide Awake" and they are fully qualified to exercise this knowledge with out the interference of a "granular" hospital.

It is a matter of wonder that the those who are it to share for a last time in a "wide awake" world are not content with their own "wide awake" world and are putting an extra polish on their "wide awake" world.

SHOULD DOCTORS BE ALLOWED TO ADVERTISE? The Need For Public Medical Services.

A proposal to allow, on certain conditions, the advertising of public medical services was raised at the British Medical Association meeting at Dublin recently.

The recommendation of the Council was that the advertising of these services including the employment of agents to canvass for the services of potential subscribers, would not contravene the generally accepted principle that the practice of advertising by individual practitioners is contrary to the public interest and detrimental to the profession, provided that certain conditions were complied with.

Hospital Scheme. The chairman of the Ethical Committee, Dr. Arnold Lyttelton, in a speech before the Council, said that the Council was not proposing that the public should be allowed to advertise their services, but that in certain cases where the public interest was involved, the lack of publicity was a serious disadvantage.

Dr. G. M. Stevenson, of Cambridge, who opposed the proposal on general grounds, declared that if the services were advertised, they would lose caste in America, they had a great deal of advertising for the medical public services, which were looked upon as a disgrace at all times.

Anxious to Learn More About East Africa.

SIR JOHN SANDEMAN ALLEN ON REASONS FOR HIS VISIT.

The Trade Outlook.

With regard to the Income Tax issue, he declared that an impartial study of the facts made it clear that the Board never supported Income Tax.

He stressed the need for continuing to regard the East African territories as a single continent and said there could never be any question of Britain surrendering the Mandate for Tanganyika.

In conclusion the Chairman of the Joint East African Board said he wanted to return to England with better knowledge of East African affairs and views in order that he might carry with him a proper appreciation of the true feelings of the territories.

DOBBIE LEAGUE MATCH Commercial Defeat Civil Service SPIRITED GOAL-KEEPING

The Commercialists on their own ground defeated the Civil Service on Monday evening. Neither line could get going together, and the spectators were treated to a series of individual duels terminating usually in a mis-kick or badly placed pass.

The Service made great efforts to level things up but their forward seemed unable to make their attack effective and very uncertain in front of goal.

The second half period patches of ball movement, the football was still wild and unbalanced, but there was more determination and both goals were kept long but they remained unbroken until the end.

EMPIRE SETTLEMENT ON A LARGE SCALE.

In North of W. Australia.

SUGGESTED BIG OPPORTUNITIES FOR A CHARTERED COMPANY.

The Australian Government announced recently that it regards the development of the vast uninhabited tracts of the North of Australia as "an imperative responsibility" and is willing to encourage and assist the exploitation of this territory by one or more Chartered Companies, offering them attractive inducements to secure their initiative.

Following upon this a comprehensive plan has been completed for the settlement of the North of Western Australia, an area known as the Kimberleys.

The initiator of the plan for Empire settlement on a large scale is Sir James D. Connolly who has been interested in the problem of Western Australian settlement for the last thirty years.

GENERAL SHUTS IN NAIROBI.

Arrival by Imperial Airways.

WELCOME AT AIRBORNE.

Looking forward and well and in lively spirits, General J. C. Smith arrived in Nairobi yesterday by the Imperial Airways Atlanta machine "Amalthea." He is on his way back to the United States from the World Economic Conference where he was one of South Africa's Delegates.

The machine was delayed slightly owing to the fact that the north-bound machine found difficulty in taking off yesterday morning at Malakal and the General's return to Nairobi until the delayed plane had left Malakal.

The machine was met by Colonel J. B. Turner, the South African Trade Commissioner at East Africa, with whom he left the night and by others on an official reception at the Airport. Acting Leader of the European League of Nations, Mr. Horton, President of the South African Stock Exchange, Mr. H. J. F. Jones M. C. and others were also present.

The General was accompanied on the way to his residence by the distinguished

OPPOSED TO GOVERNMENT BY AGREEMENT.

THE 1934 ORDINARY MEETING OF THE EAST AFRICAN ASSOCIATION.

The 1934 ordinary meeting of the East African Association, which was held at Southern House, Cannon Street, E.C. 4, on Monday evening, April 23rd, was presided over by the Chairman, in the course of which the following resolutions were passed:

"On the liabilities side deposit, accrued and other accounts, amounting to £120,000, as compared with the figure reported for last year, £100,000. The total increase is, however, over £200,000, owing to a reduction this year of £100,000 in the amount of the loan side, the total increase in the item cash in hand being approximately £700,000, while investments have increased to about £1,000,000.

"South Africa is still being granted a concession of £450,000 a year, but for the time being they are finding it difficult to organize their rapidly-increasing funds in any local commercial banks. This is a matter which the Association has already discussed in the amount of our cash investments, but also in the actual decrease of about £2,500,000 in the item bills receivable, £450,000 in the item, as compared with last year's figure. Full of exchange, the balance of profits for 1933-4 was £420,000, as against the extraordinarily difficult conditions that you will regard this result as satisfactory.

"The balance sheet shows a balance of £379,400, which your directors have proposed to allocate to the benefit of £10 per share, making a total distribution of 10 per cent on the ordinary shares. This amount of £144,400 to be carried forward."

Meeting at Njoro.

OPPOSED TO GOVERNMENT BY AGREEMENT.

At the instance of the Njoro Branch, Capt. Cotter, M.P., was invited to give the opening address at the meeting of the Kenya Left Wing Party, which was held at Njoro on Monday evening, April 23rd.

The meeting was held in the Njoro Club, and was attended by a large number of members of the party, who were invited by the Njoro Branch.

The meeting was opened by the Hon. E. D. Webb, M.P., who said that the absence of Lord Frimley from the meeting was a great loss.

The meeting was then addressed by Capt. Cotter, who explained the policy of the party and the reasons for its formation.

He said that the party was formed in order to bring about a more complete representation of the views of the working class in the House of Commons.

He said that the party was not a party of the left, but a party of the people, and that its policy was to bring about a more complete representation of the views of the working class in the House of Commons.

Proposal for a New Colony.

EMPIRE SETTLEMENT ON A LARGE SCALE.

In North of W. Australia.

SUGGESTED BIG OPPORTUNITIES FOR A CHARTERED COMPANY.

The Australian Government announced recently that it was regarding the development of the vast uninhabited tracts of the North-West Australia as an "imperative responsibility" and is willing to encourage and assist the exploitation of this territory by one or more Chartered Companies, offering them attractive incentives to secure their initiative.

Following upon this a comprehensive plan has been completed for the settlement of the North of Western Australia, an area known as the Kimberley.

The initiator of this plan for Empire settlement on a large scale is Sir James D. Connolly, who has been interested in the problem of Western Australian settlement for the last thirty years.

The Plan Outlined.

Following are the main points of the plan proposed by Sir James Connolly, a former member of the House of Representatives, and who was from 1911 to 1924 Australian Consul in London for the Western Empire.

The area in question, approximately 1,100,000 square miles in extent, includes a former military station, and is bounded on the north by the 26th parallel, on the east by the 120th meridian, on the south by the 28th parallel, and on the west by the 115th meridian.

AVOID CHEAP PAINT

It looks so pretty but the woodwork is in a bad state and the walls are so shabby. How often do you hear that remark made by your friends as they are thinking of buying a pretty—result sale lot. This can be avoided if you will only realize that the way to calculate paint cost is per annum, not per gallon.

When you are reckoning the cost of paint remember that cheap paint will not last like

WEDNESDAY, APRIL 30, 1935.

A Cheque Case Decision.

The brief report on the "East African Standard" yesterday of a decision by the Resident Magistrate, Nairobi, in a case in which a discharge was given on the grounds of lack of sufficient evidence to warrant a trial on a charge of obtaining goods by false pretences, has created such interest in commercial and banking circles that the judgment is full is reproduced to-day.

The facts are not in dispute. The accused was a European who obtained a cheque from a bank under a cover which he had issued to give credit, so the contents of the bank books of the cheque for the amount. A few days later the cheque was returned to the bank under the name of "Mr. X" and in evidence before the Magistrate an official receipt had not an account for the amount of the cheque. The Section of the Penal Code under which the accused was

charged began: "Any person who by any false pretence and with intent to defraud, obtains from any other person anything capable of being stolen." and there is a maximum penalty of three years imprisonment. The Magistrate, in a very brief judgment, stated that the evidence established that there was no false pretence and that the cheque was not issued under the name of the accused. The cheque was not issued under the name of the accused, but under the name of "Mr. X". The Magistrate, in a very brief judgment, stated that the evidence established that there was no false pretence and that the cheque was not issued under the name of the accused.
