KENYA TROUT. To the Editor, "E.A. Standard." Sir—I read with great pleasure your issue of Mr. Allen Turner's article on the trout in Kenya...

HUGH COPLEY Nairobi July 11, 1933.

[A further letter from Mr. Allen Turner, received before that from Mr. Copley, appears below.]

To the Editor, "E.A. Standard." Sir—Having come to the conclusion that it is rather unlikely that any trout in Kenya could be suffering from in-breeding and that in-breeding could not in itself be the cause of the fishing not being so good as it used to be...

In a confined area do well as long as their number does not exceed the number of trout which can support. But over this number of trout in the area, and they will live in less condition...

It is quite clear that our trout do require sometimes for long periods, from food shortage, overstocking may be more apparent than real because it may

be exaggerated by a tendency for the fish to accumulate in parts of rivers where possibly they have a better chance of finding food. No doubt there are some stretches of river where the trout have not yet found the natural aquatic river life...

It may be remarked that at the above meeting, the Churches and other representatives and as far as we know no Church or other body in Kenya has approved of the movement...

Yours etc. HUGH COPLEY

Water flooded last week and this week, by concentrating up rivers can run through big streams will often allow up the water enough for weeds to grow...

There is then, after some of this fishing up has been done, the possibility of increasing the trout food by introducing some small fish to the upper waters of the streams. The European young may be introduced...

Not only suggested by the Government and the public must return to the fact that Kenya is a country spending money on it. It is a very important item in the great variety of needs. Kenya is also a country attracting the right class of tourists to this Colony. The tourist sportsman who likes to fish himself with a little fresh trout in the low ground of the river and his paradise here in Kenya.

Year For Timber Industry. REFLECTED IN DEPARTMENTAL DIFFICULTIES.

1932 Forests Report. The Kenya Forest Department's annual report reveals 1932 to be one of the most difficult years in the history of the timber industry.

The principal bright spot was the export of pencil cedar, the value of which was almost trebled. Great Britain provided the main market.

Material for boxes is being supplied by Japan at prices so low that it is difficult to meet great exporters to compete, although the Conservator of Forests is of the opinion that there is scope for much greater activity and enterprise in the Colony than has hitherto been shown.

The total imports of timber showed a decrease in value of nearly 40 per cent, but manufactured articles were imported in larger quantity to an increased value of nearly £4,000.

The depression was reflected in the continued fall of departmental revenue and the cost of running the Department showed a deficit of £5,438 between income and expenditure. The revenue was the lowest since 1925.

New Low Revenue Record.

The Forest Department of the Kenya Government has issued its annual report for 1932 and in an statement on the progress of the effects of the depression recently.

"Incentive Opposition." In the course of a brief report of some of the work done during the year, mention is made of a suggestion for the formation of a Kenya Chamber of Forestry.

"Lumbermen's Association." The Lumbermen's Association, founded for the purpose of promoting the interests of the timber trade in Kenya, has issued its annual report for 1932. The revenue was the lowest since 1925 but the value of timber was actually the highest since 1922 but the report considers this a very good year for the timber trade.

"Matter for Regret." For the first time for many years the value of the timber trade has decreased in the preceding year's average. The report also states that the Government has considered more than sufficient to replace the cut forest areas.

"Export Trade." The Department continued its efforts to foster an export trade in timber. The report states that the Government has considered more than sufficient to replace the cut forest areas.

"Champion Polo Cup Tournament." The Champion Polo Cup Tournament, which was held at Nairobi, was a success and attracted a large number of spectators.

"Rajah of Jaipur's Team Wins." The Rajah of Jaipur's team won the polo tournament, defeating the team from the Government.

### Household Hints.

**Wash for the Doves.**

Do not leave simple padding may be in certain cases. There are various ways of making the "baskets," and they are made of material requiring attention. For instance, if you use red, for instance, use red wool, washed in cold water, and then in hot water with a little soda. If you use white, use white wool, washed in cold water, and then in hot water with a little soda. If you use white, use white wool, washed in cold water, and then in hot water with a little soda.

### A Useful Recipe.

**Solid Sugar Syrup.**  
Dissolve one pound of lump sugar in a quart of water, and bring to a boil. Add a few drops of lemon juice, and strain through a fine cloth. This is a good thing to have on hand for all sorts of ailments.

### Return of the Blouse.

One of the most interesting things in the fashion world just now is the tremendous popularity of the blouse. Women have taken the road for so long that, with some women, a plain shirt blouse or two in their wardrobe, and perhaps one fancy model for wear with a silk skirt, they have not taken the blouse really seriously for some years. The early days, however, gave some little indication of the importance of the blouse, which was being regarded in Paris, and was being made in London, talking of blouses, and every devotee of the blouse is prepared to show a score of models.

### Deasy Style.

There are few really plain blouses. They have little pleats down the front. Folds and berthes down the shoulders. Lines are caught here and there. Details of embroidery appear in places, and all sorts of things. And there is often a medley of fancy about them—either in the fall of the sleeve, or in the decoration of the yoke with a treated piece of the material.

### Mats For Your Table. . . . . by R.M.

Original strong-colored window-net makes attractive table-mats. A yard is enough for two or three different sets, and the only other material needed are skeins of thick worsted. The colors you choose will depend on the scheme of your dining-room. But you will want a predominance of blue and green. No you will need a skein of each of these colors, with, perhaps, one of yellow or light orange as well.

To make a place-mat, cut a square of net with sides nine inches long. It is best to cut along a straight edge, and then to cut the corners off, leaving a length of green worsted. Then cut the corners off, leaving a length of green worsted. Then cut the corners off, leaving a length of green worsted.

A line of yellow darning just above the blue and two final lines of green complete the frame for the mat. Each square has an outer frame of green, then of blue, and a yellow centre. This finished, turn in the corners of the edge of the darning and sew it to the mat. (Green-mats are made in the same way, but they are only five inches square, and have half-inch hem. If oblong place-mats are preferred, they should be eighteen inches by twelve. This is large enough to take both plate and glass. A table centre, with sides twenty inches long, is complete the set.)

The same idea can be worked out in different ways. Green or blue net could be used for all sets, with darning of white or string-colour. Natural net could be used for all sets, with darning of blue or yellow. Natural net could be used for all sets, with darning of blue or yellow.

# Wireless Notes.

Trials and Troubles . . . THE SMALL THINGS.

I HAVE been away recently on a farm for my country, not equipped with a receiving set. Finding myself without a receiving set this made me really appreciate what it means to me to have one and next time I most certainly shall take one with me. I also rather fancy myself that I have persuaded the gentleman to whose kindly hospitality I own a most enjoyable week that wireless, nowadays, is not a thing to be despised by an amateur, but with special knowledge and willful endeavour, results, but a real treat. This is especially applicable to those situated on lonely farms perhaps far from a neighbour with whom to pass away the quiet evening hours.

In the fault, usually quite petty, which may crop up from time to time in a set. These may result from a much narrower and the necessity of the set being of unit to someone with the required knowledge arrives to put matters right. It is not intended here to do anything but to stress the necessity of having a set which will give good results, but a real treat. This is especially applicable to those situated on lonely farms perhaps far from a neighbour with whom to pass away the quiet evening hours.

Most faults of this nature arise from some imperfect contact in one of the many electrical circuits of which the set consists and should only one of these circuit fail the set will not operate at all and in others work only indifferently.

**The Petty Things.**  
Should a set suddenly go "dead" while a programme is being enjoyed the most likely cause is a run down L.T. battery. Should this prove not to be so, another likely likely is a burn-out valve, especially if these have been in use for a considerable time. If all trouble is not due to any of these causes it is likely to be some defect in the set which may be detected and calls for expert testing and diagnosis.

**Changing Over.**  
If the set fails after changing a coil or a valve, opening up the prongs of either of these very slightly with a knife or similar instrument will probably re-establish the desired contact.

**Mechanical shock** from such a might actually damage the more delicate internal parts, such as the valve filaments to shake the connections to the H.T. L.T. or L.T. or vibrator and these should be given over carefully.

The above apply to cases where the set goes completely dead and no sound of programme or music-pherics can be heard whatsoever.

This page, devoted to the interests of Wireless, is conducted by a committee of enthusiasts and is published as a service to the wireless community.

## NOTES OF THE WEEK.

THERE has been a distinct improvement in reception conditions during the week and a great deal has been coming through as very good strength accompanied by low noise this for some time past.

**A Successful Play.**  
The play "Flags on the Mountains" was an outstanding success and came across with wonderful strength and excellent quality. All times it was so realistic one almost believed listening to the men on the mountain. The same evening, just after the news, the B.B.C. interrupted part of the running commentary on a tennis match between French and British, which the same evening was not intended. It was one of the most happy times of the programme which the B.B.C. makes time to time.

**Listeners' Queries.**  
"Pentode," Nairobi, writes as follows: An interested reader of your weekly notes on Wireless, may take the liberty of making one or two suggestions which I am sure would be helpful to new-comers and those already interested in Radio? 1. Would it not be possible for interested listeners to send in detailed weekly reports on reception in the recognised code, giving particulars of type of receiver in use, location etc., so as to enable listeners to know whether reception is first or poor conditions, faulty receivers etc., in their own area? 2. Can a Listeners' Club be formed which would considerably aid in the promotion of good feeling amongst listeners and help to stop a great deal of ignorant criticism which is getting worse daily? By meeting, say weekly, members could bring forward their difficulties which could be overcome at these discussions.

It would be interesting to know the opinion of my fellow readers on this subject and I am sure they will fill a long list among listeners of these discussions.

**The above letter speaks for itself.** This page exists for the benefit of those interested in wireless and should "Pentode's" suggestions and varied with other readers, I will do my utmost to assist in every possible way.

**A. Mac C.** writes asking for an explanation of how a simple crystal set can be made. He wants it for elementary instruction of his children and though he has had dozens of crystal sets, he has forgotten their simple construction and operation.

**Answer:** The wiring diagram of a simple crystal set has been sent and I only have the programme.

THE ALTERNATIVE TAXES. THE STABILISATION PROBLEM.

The New Bills Published

ADVANCED POLL TAX TO BE PAID THIS YEAR.

Three Temporary Measures.

PROFESSIONAL MEN, BANKS, OIL AND INSURANCE COMPANIES TO PAY FEES.

Legislation providing for the imposition of the alternative methods of taxation was published yesterday.

There are five Bills which provide for a package tax, a poll tax on passengers, an amendment to the Stamp Ordinance, a new scale of trades licenses and licenses for professional people and a non-native poll tax according to income.

The poll tax is expected to produce 570,000 in a year. It will be applied this year and become payable in full in September and November.

In the execution of the new stamp duties and the new trade and professional licenses the other forms of taxation are stated to be temporary and expire in December next.

Overcoming the Leave Problem.

Various Government Officials have published proposals for this country which alter the revenue procedure. These are:

A tax on imported packages. A tax on passengers arriving in the Colony. An amendment to the Stamp Ordinance.

The Bills are presented by a Government Notice intimating the substance of the measures. It is a full and fair trial should be given to the alternative "business" and "personal" methods.

The tax on imported packages will be levied at the rate of 10 per cent on the value of the goods.

The tax on passengers arriving in the Colony will be levied at the rate of 10 per cent on the value of the goods.

THE LESSON OF SUBSEQUENT EVENTS.

Desirability of Conference.

If Britain had known beforehand what was going to happen, it might have made some difference in their views as to the desirability of holding the Conference.

The Conference Bureau has not yet reached a decision on the monetary question, although the Monetary Commission has made an effort to compose the differences between the opposing elements.

A large measure of agreement has, however, been reached on the economic side of the work of the Conference.

Castrol will mix!

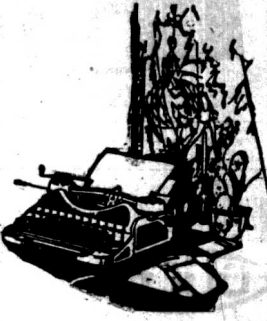

THERE are still some motorists who believe that CASTROL will NOT mix with other makes of lubricating oil. There is no foundation for such a belief.

CASTROL "B" (Racing) alone is excepted and should not be mixed with any other oil or any other grade of CASTROL.

The full benefits of CASTROL will not, of course, be experienced unless 100% CASTROL is in use. Therefore, the sump should be drained and refilled with CASTROL to obtain immediate results.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed in his columns and in all cases the name and address of the writer must accompany a letter, not necessarily for publication, but as a guarantee of good faith, really is also essential to consider correspondence.

Lady Northey Home. AN APPEAL TO PUBLIC GENEROSITY.

To the Editor, "E.A. Standard." Sir—We wish once more to refer to the public of the Northey Home for children can be taken in, from a tender age, either as boarders or by the day or part of the day and receive every care and attention from fully trained nannies at very reasonable fees.

The institution should be of the greatest value to working mothers and their children, and in the absence of the Lady Northey Home women suddenly taken ill in the midst of a short holiday from the nursery and also to those mothers coming in from the country for a day's shopping.

During the past year the Home has proved itself useful in not only an orphan institution. A number of children, requiring special care and medical attention, have been sent to us from up-country places, in some cases from very unhealthy districts, and in every instance they have returned to their homes having greatly benefited by the care which they have received.

Inspection is invited by any member of the public concerned in the Home. Two members of the committee of ladies who run the Home are detailed off each month to act as a Home Committee and they visit the Home weekly.

On the 28th of this month a Flag Day is being celebrated by the committee to raise funds for this very necessary institution as the moderate fee paid for the children are naturally insufficient to keep the building in a state of repair, or to meet the cost of renewing equipment, etc.

Less is also at times incurred due to the fluctuating nature of the demand on the Home. The efficient staff has to be maintained to care for a considerable number of children and this staff cannot suddenly be dismissed if the number of children temporarily diminishes.

The funds of the Home are at the present time at a very low ebb. We therefore appeal earnestly to the public for support. Even the smallest contributions addressed to the Treasurer, would be welcome.

Yours etc., S. VALLINTE, Hon. Secretary For Lady Northey Home, Nairobi, July 6, 1933.

KA OUBERNY DEVALUATION.

To the Editor, "E.A. Standard." Sir—Your article on fish and other birds of exotications than Mr. O. Tyman produces another. His mind is a veritable mine of information about curiosity questions.

AN AGE OF MACHINES BUT THE HUMAN ELEMENT STILL COUNTS THEO. SCHOUTEN LADIES' AND GENTLEMEN'S HAIRDRESSING SALONS Fully staffed by WEST-END (London) OPERATORS PERMANENT WAVING PLASTIC LACQUERED HAIRDRESSING. GOVERNMENT ROAD and NEW STANLEY ARCADE, Box 104. Open Daily.

Mr. Schouten and Mr. Carver will visit Nairobi (Hoburn Hotel) for Ladies' and Gentlemen's Hairdressing on Friday and Saturday, July 14th and 15th. Appointments for Permanent Waving, etc. can be booked at the Office, Hoburn Hotel or above address.

do think it is worth studying before hastily accusing the trait of degeneracy from in-breeding which there are most likely other causes. I have just read an article by "Hoburn" on this subject of the bad effects of in-breeding on "Jura Trout." He states: "As the former trout fresh blood runs in him—and then he asks for re-consideration. Why? The answer is, even cattle, and fish is no great scientificity it is useless as a comparison—and read the extracts by your exceptions have the same history as you."

Am there exceptions liable to deteriorate by in-breeding? I imagine rather than some exceptions. It is well known that the top of the East, which have been made to develop such weird forms, have put up with constant in-breeding for centuries but their constitution does not seem to have suffered. Their gametic fluid shows no defects, and the pleurotic products are about into the abdominal cavity and reach the exterior by an abnormal pore placed by the way from outside!

But the style of things occurs in many sorts of fishes. I think in the goldfish, but I know a few others which are the trout and salmon family. The trout in the Gura were from mixed stock and will except trout but it is unlikely that trout in-breeding in 25 years.

Yours etc., H. J. ALLEY FISHIE, Nairobi, June 27, 1933.

MEDICAL ATTENTION AT KAKAMBA.

To the Editor, "E.A. Standard." Sir—I was very pleased to see your edition of June 24th letter from Mrs. Sutt giving the medical services at Kakamba the press they so thoroughly deserve. I entirely agree with her and from the anxiousness of one patient and my husband, I know that from the medical authorities there one receive most competent and kind attention at any hour of the day or night.

Yours etc., DOBOTHY WINSLAND, Kakamba, July 1, 1933.

A TAX OF EGGS?

To the Editor, "E.A. Standard." Sir—I am surprised that in the recent search for new taxation one has suggested a Customs duty on hocks, to correspond to the present duty on gram-pansion produce. It seems only fair, if one be taxed, that the other should be taxed. Why, because I prefer to pass the evening with Elger and Dehmann, should I say duty to the State while the man who spends it with University and Waugh gets off scot free? A gramophone record is no more and no less a luxury than a hock.

I don't know what you mean by a gramophone, piano and all musical instruments. A duty on books would be far better, as it would affect everybody and not merely a handful of musicians who find it hard enough in all circumstances to practice their art in this country. But, if that is impossible, let us tax the hat!

Yours etc., W. MORLAND, Gilgil, July 6, 1933.

### EMERGENCY OF GOLD STANDARD.

(Continued from page 1.)

States delegation outlining in greater detail the conditions which would give recovery as the immediate object of the World Economic Conference.

### MONETARY DISCUSSIONS.

Problem to be Settled by Bureau.

[By wireless.]

There was no meeting of the Bureau which meets on Monday morning to receive the list of subjects which in the opinion of the sub-committee can be usefully studied and to make recommendations to the arrangements to which should be made for further work at the conference.

Special interest attaches to the meeting held yesterday by the sub-committee on the Monetary and Financial Committee which deals with the immediate measures of financial reconstruction. After a debate lasting the greater part of the day the sub-committee decided by 20 votes to 15 that some of the subjects on the sub-committee agenda should be excluded from Britain, the United States and Japan, the majority included the British Dominions, Scandinavia and South American countries, while all those voting in the minority were European countries, except Turkey.

### Position Still in Doubt.

The newspapers anticipate that when the sub-committee proposal is laid before the Bureau further representations will be made by the delegations of gold countries. Delegations of all of the countries which participated in the vote are represented in the Bureau, seven held and six against. Other delegations represented on the vote were the Argentine, which abstained from voting, and Cuba and Mexico, who did not record their votes in the sub-committee. In addition the head of the Belgian delegation which voted against the resolution is the Vice-President of the Conference, and is a co-finance member of the Bureau.

### THE GOLD COUNTRIES.

Independent Scheme to Protect Currencies.

[REUTERS SERVICE, JULY 3.]

The gold bloc have drawn up a cut and dried scheme to defend their currencies. A common fund will be created and will be thrown up to the market wherever speculation threatens gold currencies.

The Lady Worthey Home.

The Lady Worthey Home for Children is in low water again. This Institution has struggled along from one year to another and since its establishment has never really been on a solid foundation. At the present time its funds are almost exhausted and it is faced by the necessity for replenishment of equipment. Government has given a guarantee for a limited sum of Ksh. 100,000 per year.

task to secure relief for the Home. The community throughout the country for this is not a Nairobi specialty—accepted the responsibility. It is hoped that Government will provide the machinery for the organization of the maintenance of this Home as a whole, after the problems arising from its liquidation. The nature of the work is should be that of a public trust, and should be carried out by a small Council of private people. They should not be expected to carry it unaided.

**GREAT TUSSEL IN FINAL OF MEN'S SINGLES.**

**Vines Loses to Crawford.**

**LARGE CROWDS WITNESS THE CLOSING STAGES OF TOURNAMENT.**

Four British representatives took part in the last stages of the Wimbledon championships. Brilliant results again prevailed, and the greatest interest centred around the meeting of Mrs. Wills-Moody, the holder, and Miss Dorothy Hoag, of Great Britain, in the ladies' singles. The American girl won, losing a set to her opponent.

In the final of the men's singles Ellsworth Vines, the American, and holder of the title, which he won last year, was beaten by the Australian, J. B. Crawford, by three sets to two.

**Brilliant Weather.**

[PRACTICAL MEN'S AGENCY.]  
English July 8. Played an international match between the ladies' singles at Wimbledon. Mrs. Wills-Moody, the holder of the title, was defeated by Miss Suzanne Lenglen, of France, in the final stage of the tournament. Mrs. Wills-Moody's record was equalled by Miss Suzanne Lenglen, of France, in the final stage of the tournament. Mrs. Wills-Moody's record was equalled by Miss Suzanne Lenglen, of France, in the final stage of the tournament.

**The Finalists.**

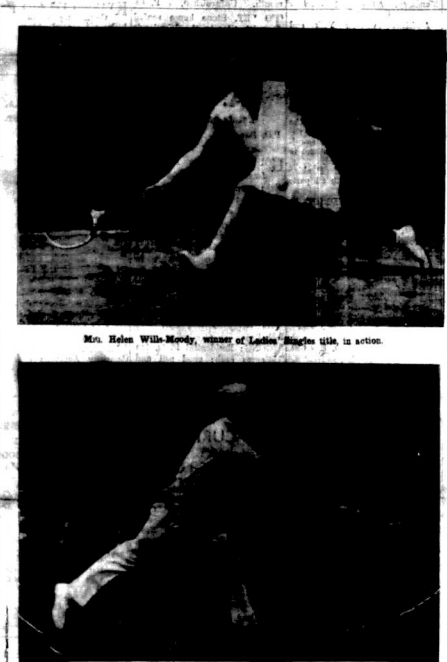

Of the fourteen finalists at Wimbledon there were four British representatives, three from the American, and seven from Germany, two from Japan, and one South African. Chief interest was naturally centred around the meeting between Mrs. Helen Wills-Moody and Miss Dorothy Hoag, who was the result of which has already been mentioned.

Wimbledon was another blaze of sunshine, and huge crowds thronged to see the closing stages of the tournament. The match was won by the American, Miss Suzanne Lenglen, in the final stage of the tournament. Mrs. Wills-Moody, the holder of the title, was defeated by Miss Suzanne Lenglen, of France, in the final stage of the tournament.

**Many Renouves.**  
Mrs. Wills-Moody learned the game of bridge from her father, who was the Pacific Coast champion. She was the U.S.A. champion in 1928. She was the U.S.A. champion in 1928. She was the U.S.A. champion in 1928. She was the U.S.A. champion in 1928.

**Crawford's Victory.**  
There was a great tussle in the final of the men's singles between Ellsworth Vines, the American, and holder of the title, and J. B. Crawford, the Australian. Vines was the winner, but Crawford was the runner-up.

**Storms in North of England.**

[BY WIRELESS.]  
London, July 8. The opening market in the foreign exchange market in London, on July 8, showed the pound sterling at 154. The dollar was at 154. The pound sterling was at 154. The dollar was at 154.

### Empire Marketing Board.

Future Still Under Consideration.  
[STANDARD CORRESPONDENT'S.]  
London, July 8. The future of the Empire Marketing Board is still indefinite, according to a Government official. The future of the Empire Marketing Board is still indefinite.

### Blackpool Tower Struck by Lightning.

Blackpool Tower, which is one of the most famous landmarks in the British Isles, was struck by lightning on July 8. The lightning struck the tower at the top of the 147-foot tower.

### GERMANY AND THE VATICAN.

Concordat Initialled at Rome.  
Effect of Agreement.  
POSITION OF CATHOLICS REGULATED.

[PRACTICAL MEN'S AGENCY.]  
Vatican City, July 8. The concordat initialled by Herr von Papen, and Cardinal Pacelli, the Vatican Secretary of State, regulates for the first time in history the position of all Catholics in Germany. It is understood that the Vatican questions the complete withdrawal of Catholic priests and organisations from politics. The Vatican also draws a veil over the anti-Catholic demonstration in Germany.

### Sufficient Guarantee.

Berlin, July 8. Immediately the news of the initialling of the German-Vatican concordat was received, Herr Hitler retracted the disavowal orders in the case of such Catholic organisations as were recognised therein. He also ordered the stopping of all anti-Catholic propaganda in Germany. Herr Hitler's reply is a sufficient guarantee that German Catholics will henceforth be unreservedly support the Nazi State.

Mr. G. H. Stokely-White has been appointed Private Secretary to H. H. the Sultan of Zanzibar.

### European Action.

by European Countries.  
AGREEMENT DRAWN UP AT PARIS.  
A Common Fund.  
WORLD CONFERENCE TO CONTINUE WITH MONETARY DISCUSSIONS.

In spite of the opposition of the European gold countries, the financial reconstruction sub-committee of the Monetary Conference of the World Economic Conference has decided that the original agenda be adhered to. The subject, however, has been referred to the Conference Bureau for final decision.

### Recovery.

Washington, July 8. President Hoover's statement placed a message to the United States which was ultimately carried by 25 to 10.

NAIROBI GOLF CLUB.

Annual Foursomes Tournament. Kenya Golf Union's Meeting. Framing Championship Conditions.

Several surprises were springing during the week and in the Nairobi annual functions. My particular fancy for the final score Mr. Homburg and Mr. Forest...

Mr. Allison and Mr. A. C. Fannell triumphed over Mr. Hately and Mr. Bellinger...

On Sunday afternoon last I had the pleasure of watching the golf in the Railway Mixed Programme...

Some interesting matches are down for this afternoon, and it is hoped to watch them...

Where a meeting of the Kenya Golf Club on a motion brought forward by the Nairobi Golf Club...

On Wednesday evening the ladies' competition was held against bogey and Miss Mary Leonard...

On Saturday morning the Kenya Golf Society is celebrating the tenth anniversary of its formation...

NAVY'S SECOND DEFEAT.

An untoward accident marred the game as a minute old murred the Navy's match at Muthanga on Thursday afternoon...

The match ended in a win for the Nairobi team by 14 points to 3. A hard game was played...

Marked advantage in the scrums was the feature of the Navy forwards, but their backs were weak...

The programme in connection with the annual visit today is: 4.45 p.m. - Soccer match...

Tomorrow there will be motor tours, while the contingent will be leaving for the Coast...

SECOND ROUND OF THE McMILLAN TENNIS CUP. (Standard's Correspondent.)

# RODODEX

the x-ray of business

The new way for all records regarding the old "card-in-box" or ledger methods. Makes crystal clear facts, which, unless arranged on Rododex, are obscure and difficult to write at. Amongst other advantages, Rododex gives you control over every stage of your work, and enables you to see at a GLANCE:

Customer's Record - You can see at once those who have not purchased from you for 6 months. Ledger - You can see at a glance those of your accounts which have not been settled for any particular period. You wish to know Stock Record - You can see at a glance (a) Those goods which are not moving, (b) Those goods which are dangerously low, (c) Those which are heavily overstocked. Works Record - You can see at a glance (a) Exact progress of any piece of work at every stage; (b) All jobs in hand or unassigned.

A unique system of Coloured Signals automatically subdivides and classifies facts. Call and see the Rododex in actual use at:

### THE MOLO HOUNDS.

On Sunday, July 2, a large field met Master and hounds at the hounds, where a new man made to the establish before Clark's house. A great deal was done for the hounds and it took some time before found a good stout man wove over the swampy area between Clark's house and the kennels.

This was only just possible for two horses, but when it came to the third, a lion had a heavy weight follow the stream became impassible, but he gallantly gained the other bank taking half the jump away with him on the end of his brooches.

The riders, down to Paulson's, who they crossed without incident. Passing to the North of home they crossed the hill and the hounds of Paulson's. A large flock of sheep was seen on the line, and it was the line of the sheep that was seen. Unfortunately they were not seen until they had passed the line.

A few cross words were exchanged between the two Masters and Secretaries, but it was not long before that our hounds were out of the line in the forest it went to the hounds. The hounds belonging to the H. J. Pack were at the top of the hill and they were very happy and being followed by a field of sheep they were very happy. Unfortunately they were not seen until they had passed the line.

The first stage of the Staff Officers' Cup competition takes place during the week-end and returns have been sent from Nairobi, Nakuru and Nairobi. Last year Civil Service and Nairobi Rifle Club were the winners of the trophy on the count of 11.

It is anticipated that there will be a fine field this year. This shoot ranks as one of the most important during the year. Held just before the Rifle Meeting and under the same conditions as the championship of Kenya and the Manning Cup, the shoot is played on the 18th hole of the Nairobi Golf Club.

The following teams have been selected to represent the Civil Service Club: Mr. S. E. Bagley, Col. T. O. Phillips, J. Lang, and J. H. Walker. Kenya Golfing Society, J. A. Dewar.

A game between the Navy and the Kenya Golfing Society, a party will be played on the Nairobi Golf Club Course, by kind invitation, to-morrow morning at 9.15 a.m.

The visitors will be entertained by the Society; any host of any of the visitors or any member of the Society or the Nairobi Golf Club will be welcome at lunch but notice of intention to be present must be given either to the Hon. Secretary of the Nairobi Golf Club, the Hon. Manager of the Nairobi Golf Club or to the Hon. Secy. R.G.S., Box 114, Nairobi.

A photograph will be taken at 9.10 a.m.

RAILWAY PLAYERS. THE PART OF WAIKES ON THE PLAIN. (Continued from page 7.)

Preparations for Another Production.

(Continued.) Since their production of "Hans" last April, the Railway Players have been searching for a suitable new play for production. Among the plays that have been considered are "The Women Have Their Way" by Galsworthy, "Nap Neaps and the" by Elmer Rice, "I Am an American" by Martin, "The Passing Through" by Noel Coward, "The Women of the Hour" by Robert B. Marshall, "The Passing in Court of Justice" by Leigh Pennings, "The Ladies" by Dorothy Manners, "The Green Room Tree" by Mordaunt Sharp, and "Richard of Bordeaux" by Gordon Douglas. ... All these works have some standing merit, but it is recommended that the Railway Players should produce more than one play in three months, their task is to decide which play has the greatest merit, and to produce that. This does not mean that all the other plays that have been considered will be discarded. It is probable that some of them will be given a production later.

The Selection. The play which seems to stand above all the others, both in very dramatic and in the opinion of Gordon Douglas, is "Richard of Bordeaux" which has been adopted as the first production of the year. Written in the modern style, it is a play which is not starting the play deals with the life of Richard from his youth to his death. It will be an interesting production for the limited funds of the Railway Players, as they have decided to produce it before any of the other fine mad plays in order to give those people who are not going to England this year the pleasure of seeing this beautiful and interesting work concurrent with the London showing.

"Richard of Bordeaux" is depicted to Mr. John Galsworthy, the talented young Englishman who is equally among a player's greatest scenes. Mr. Galsworthy plays the role of Richard from his youth to his death. It will be an interesting production for the limited funds of the Railway Players, as they have decided to produce it before any of the other fine mad plays in order to give those people who are not going to England this year the pleasure of seeing this beautiful and interesting work concurrent with the London showing.

British Open Golf Championship.

CAN BRITAIN WITHSTAND AMERICAN CHALLENGE?

Hagen Leads the Field.

MAGNIFICENT DISPLAY BY ABE MITCHELL.

Can Great Britain stand of the American challenge, and once more regain the Open Championship for herself? And what is a strong challenge in the field, and at the end of the first two rounds two of her citizens lead the way.

Abe Mitchell, the veteran British Ryder Cup player, played magnificent golf yesterday to put him into third place, two strokes over Hagen, the leader, the respectable Walter Hagen.

Yesterday the conditions at St. Andrews were far from being the most comfortable. Light rain and a gusty wind, peeped by leaden skies were not conducive to good golf, but the players overcame the elements, and to-day a golf was really good, many fine recoveries marking the day.

Duncan's Failure.

St. Andrews, July 4. (Improves on his overnight score, returning a 71 as against 77 on the Wednesday.) Subsequent to the Dundee play, Duncan, his consistency of play and his ability to play a second round of 71 to place him on the level of the equal with Abe Mitchell.

The Ladies.

The following are the leading qualifiers: E. Dudley (U.S.A.) 89; 72-149. M. Mitchell (Great Britain) 74-74-148. J. Robertson (Great Britain) 73-75-148. C. J. H. H. Tolley 70-78-143. Audrey Cotton (France) 74-74-143. H. Cooper (Great Britain) 73-75-148. M. Spink (Great Britain) 73-75-148. J. G. Hagan (U.S.A.) 75-70-145. G. Sarason (U.S.A.) 75-70-145. R. Bantour (Great Britain) 73-75-148. H. H. Smith (U.S.A.) 73-75-148.

Duncan's Unhappy 14th.

All his shots were satisfactory qualifications. He was not happy on his 14th hole, when he missed a long putt, which he himself a ten, to give him a round of 74, a total of 148.

Minister's Brilliance.

Perhaps one of the most brilliant golfers in the history of the Viceroy British Ryder Cup, Abe Mitchell, was in the top of his form of the previous day, making two strokes more than Hagen, it may be that once again Great Britain will win the Open Championship of the putting world from the American group.

Use by British Office of Works.

The use of Empire in the construction of the House of Commons, by Mr. P. O. P. Welling. Henry Cotton is seventh in the list, followed by Abe Mitchell, the only French player to come within the list of prominent names.

A Fine Record.

Arthur Havers handicapped with a 90 on the previous day did not allow this to worry him unduly, and returned a 74 on the first two strokes last today, but eleven strokes behind the leader since then.

REIN OF THE NAVY EVILS EXCHANGING 'OFF DUTY.'

A Bright and Cheery New Park Lane Concert Party.

More Streets "Up."

FORGIVENESS OF PAPERS BY SLOT MACHINES.

THE SUMMER CORRESPONDENT.

The concert party from H.M.S. "Sparrowhawk" will play a full house at the Empire Theatre on Thursday evening. They should be well patronized as they have attracted a large attendance at the second performance. The programme is a bright one, progressive, for the most part, of heavy laughter, though the humor is at times rather on the broad side.

Team Altercations.

The rebuilders of various parts of London continue, as well as the rebuilding of the streets. The most modern house, which will be occupied by Lord and Lady Mountbatten, will form the top of a new "broad" style house, with a large "open air" bathed, which will be a landmark in the city.

Another Innovation.

An innovation in London is the new method of building, which has been installed on two railway stations, Euston and King's Cross, and is being used in the first place being used to build the new railway station at Euston.

LOCUSTS IN EAST AFRICA.

The use of aeroplanes in operations. The locusts in East Africa are again the subject of questions in the House of Commons.

THE MOUNTAIN ROAD.

Becoming Increasingly Popular.

The Mountain Road, London, is becoming increasingly popular. It is a new road, built by the Government, and is being used by many motorists.

GERMANY'S DEMAND FOR A COLONIAL EMPIRE

(Continued from page 1.) One of the main ideas here indeed is to bring the German people to the attention of the world...

"But most of the phrases... are of a purely propagandist character... The German people are the salt of the earth..."

"It is indeed admitted that... 'spies, goods, credits, etc.' are... The German people are the salt of the earth..."

Not a Conference Question. "It is not part of the work of the Economic Commission to discuss..."

The only concrete proposals... were inoperative as the general purport was vague and purposeless..."

"That argument attaches a most disproportionate place in German... to the question of the German colonies..."

Mr. Reim of Cologne. "There can be no question whatever of the restoration to Germany..."

"There can be no question whatever of the restoration to Germany... of her former overseas possessions..."

"There can be no question whatever of the restoration to Germany... of her former overseas possessions..."

"There can be no question whatever of the restoration to Germany... of her former overseas possessions..."

UGANDA ARGUMENT. With which is incorporated THE LEADER.

GUARANTEED THE LARGEST CIRCULATION OF ANY NEWSPAPER IN KENYA, UGANDA, TANGANYIKA AND ZANZIBAR.

NAIROBI, SATURDAY, JULY 8, 1933.

## WORLD ECONOMIC CONFERENCE TO CARRY ON.

### Unexpected Decision

**BUT GOLD COUNTRIES TO ABSTAIN.**

Future Work Difficult.

MANY IMPORTANT COMMISSIONS UNABLE TO FUNCTION.

The Bureau of the World Economic Conference, after a lengthy sitting has decided that the conference will continue its work, despite the American attitude over currency stabilisation and its effect upon the gold countries.

The gold countries, however, have decided to abstain from any participation in the monetary discussions in the light of the new situation.

Mr. Ramsay MacDonald, as President, has met the Chairmen of the various Commissions and heads of delegations, and efforts are being made to arrange future business in the light of the new situation.

It is stated, however, that the conference will remain in the event of the new situation.

### In Skeleton Form.

The meeting of the Monetary and Economic Conference will continue in skeleton form, it is stated.

### THE GOLD COUNTRIES.

Defeated for the Time Being.

London, later. Contrary to expectations the Bureau has decided that the World Economic Conference will continue both the Monetary and Economic Commissions will continue their work, but the gold countries have decided that they will be unable to participate in the monetary discussions. Sub-committees have been set up for reports by July 19 on what work can be done with the gold countries.

### Impossible Position.

The gold side have been defeated for the time being, but the real situation remains unchanged. It is obviously impossible on the one side of the gold side to do anything but to do what is possible with the gold countries. The only work possible will be to do what is possible with the gold countries.

### FUTURE WORK.

Joint Meeting of the Committees.

Mr. Ramsay MacDonald, as President, has met the Chairmen of the various Commissions and heads of delegations, and efforts are being made to arrange future business in the light of the new situation.

### EMPIRE CHAMBERS OF COMMERCE.

Meeting of Federation in London.

R.A. REPRESENTATION.

Next week the Federation of Chambers of Commerce of the British Empire held their gathering at the Guildhall from July 3 to July 7. Most of the 100 African Chambers of Commerce are affiliated to this body, but their representation on the particular occasion is not very strong.

### PALESTINE CHANGES.

Transcendence Advance in Exports.

London, July 6. Palestine's importance as a producer of oranges has advanced so rapidly that she is now the fourth exporting country and is only surpassed by Spain, Italy, and the Empire Marketing Board report on the Palestine shipping and trade for the year 1932-33.

### THE LONDON MARKETS.

Price of Dollar Still Falling.

London, July 7. The dollar in London, which closed last night at 4.50, has dropped in New York, opened this morning at 4.50, and at noon the quotation was 4.60 1/2 to the pound. The French franc was 16 1/2 pence.

### Imports.

The same satisfactory state of affairs is shown by the trade figures for the first half of the year, compared with the first half of 1932.

### Timber Discussion.

Discussion of the sub-committee of the League Secretariat has been postponed until the beginning of August.

### Exports.

The exports were 1,085,100 tons in 1932, compared with 1,085,100 tons in 1931.

### Retirement of Dean.

### THE JOINT EAST AFRICAN BOARD.

Whole Position to be Discussed.

Sir J. Sandeman Allen Visit to Kenya.

### Retirement of Dean.

In Need of Rest After Active Life.

London, June 28. A grief to the people of London will be the retirement of the Dean of St. Paul's Cathedral, Dean Inge, who is known to all Londoners for his sane and wise views on world affairs as well as on religion.

### Australia-England Flight Attempt.

London, July 6. A flight of 1248 a.m. from London to Sydney was attempted by the Empire Flying Club.

### A Strange Document.

DESCRIBED BY "THE TIMES" AS VAGUE AND PURPOSELESS.

The memorandum presented to the World Economic Conference by Herr Hagenberg, and afterwards withdrawn, demanding a Colonial Empire in Africa for Germany, was the subject of strong comment recently by "The Times," which describes it as a strange document.

It is pointed out that in regard to Tanganyika, Germany suffers from no particular disadvantage under the Mandate, and that it is doubtful whether there are fewer German residents in Tanganyika to-day than before the war.

### The Wrong Time.

London, July 6. The demand for a Colonial Empire in Africa for Germany, which was the subject of a memorandum presented to the World Economic Conference by Herr Hagenberg, was the subject of strong comment recently by "The Times," which describes it as a strange document.

It is pointed out that in regard to Tanganyika, Germany suffers from no particular disadvantage under the Mandate, and that it is doubtful whether there are fewer German residents in Tanganyika to-day than before the war.

TACTICS IN GOLF. SECOND DEFEAT FOR NAVY.

Conditions Against Good Play. One Goal Decides Issue. A Last Minute Effort. Weak Shooting by Both Teams.

THESE days of drought are such as to make golfers despondent. The surface which is encountered everywhere makes the game more than ordinarily difficult. Most clubs have had an abundance of top dressing of the greens with the hope of improving the approach and shortening as much as possible. In the present top dressing has proved itself a failure. I think it is all for the good. Had the rains come with any degree of quantity undoubtedly the improvement would have been more than ample. No such thing happened. The rains have not come and there the matter ends. With the new approach of the situation it is not natural that a certain amount of anxiety is being caused. No course has been described as good these days but that is not the fault of the green keepers. It is of course, every thing being done to help the present state of affairs. In the more modern places the quantity of water is impossible to do anything but to help. Every thing possible is being done to help the present state of affairs. FINAL GAME WITH THE NAVY. Naval Game to Play 'Hawkins'. Vines will be represented in the final American-Australian match against the 'Hawkins' on the afternoon of July 10. The match will be played at Wimbledon.

NAIROBI FIFTEEN BEATS THE NAVY. A picked team from Nairobi and District defeated the Rugby team from H.M.S. 'Hawkins' yesterday in a friendly match. The match was played at Muthaiga. In the first half the Navy scored two tries. Mackintosh obtained the try by kicking forwards and who rendered the winning try. The Navy scored 15 points to Nairobi's 10.

PARKLANDS BILLIARDS' CHAMPIONSHIP. H. J. May's Good Win. Mr H. J. May won the Parklands Billiards' Championship on Tuesday evening. He defeated Mr J. Abernethy in the final by 300 points to 201. A big crowd watched the play.

Two Schools. The players who play his club finds the top dressing very effective. It is not the fault of the green keepers. It is of course, every thing being done to help the present state of affairs. In the more modern places the quantity of water is impossible to do anything but to help. Every thing possible is being done to help the present state of affairs.

Be Philosophical. It is a hard problem, but the player is he who gets out of the philosopher in the game. The outlook is that it will be better, but if it is not good enough, then it will be better. The player must be made. The player must be made. The player must be made.

## THE BUTTER LEVY—A NEW BILL

To the Editor "E.A. Standard," Sir—As there is a Bill before the Legislative Council to authorize the Treasurer to put for the consideration of the House a bill to amend the Butter Levy Act, it is not sufficient to bring the report received for these further to the attention of the House. This shows that the funds in the hands of the Treasurer, received from the Butter Levy, must be necessary. Would it not be fair and more economical with the Bill, when that measure is introduced, to propose to reduce the amount of the tax?

The Commission has recently reduced their wholesale price. Some time met with so much comment on the local market. This was against their promise that the original Bill was passed and the Commission would sell their produce when told to, and rather than to be forced to sell their produce, prefer to pay the tax. If the proposed Bill passes the Legislative Commission will be enabled to reduce the local market price. Already the levy has knocked out many small producers. The Commission will have, obtained their object, to stabilize the cost of the butter market.

Yours etc,  
K. HUTCHINSON  
Aho Hava, 1936.

## A COLONIAL "COVERT OF REFERENCE"

To the Editor "E.A. Standard," Sir—In view of the activities of the Conference which has taken upon itself the responsibility of formulating a policy on financial control for acceptance by the European community, there is a danger that the really serious of the public to the Income-tax Bill (which was the subject of a false impression that they are likely to have the general public who heartily uphold them) is a demand for control in financial matters.

I venture to suggest that the wholesale endorsement of the resolution against the Income-tax Bill was done in a most unbecoming manner to that form of taxation, as to the method of its presentation before such Court, where events

of recommendation for confirmation by the House of Representatives. The Sovereign action being taken in accordance with the usual procedure. The Committee of Reference would be constituted of the Imperial Standing Committee of the House of Representatives and Northern Representatives of government of the Crown Colonies and would weigh the evidence of the Colonial delegates against that of the Parliament or Permanent Representatives of the Colonial Office. In these days of air travel, delay and expense under this method would be trifling where important measures were concerned but would be sufficient to prevent some of the right of the House of Representatives to the Court in regard to petty objections.

It might suitably be within the discretion of the Court to order repayment of the witnesses in the case of petitions which it was not possible to bring forward according to the ordinary practice in Courts of law. It is not necessary for such recognition would have been given by the Colony government as an arrangement allowing a share of the cost of the witnesses to be met by the Colony government, possibly, difficulties under the Parliament but an amendment of the (British) constitution of the Committee.

Yours etc,  
KENTHMAN  
Nairobi, 1936.  
July 4, 1936.

## COLONIAL OFFICE CONTROL

To the Editor "E.A. Standard," Sir—The report published in the Standard of the seventh meeting of the Council of the Southern Rhodesia and Northern Representatives of government of the Crown Colonies, which was held in London, gives a very good impression of the views of the representatives. It is a very good impression of the views of the representatives. It is a very good impression of the views of the representatives. It is a very good impression of the views of the representatives.

It is suggested that this might be followed by joint presentation to the House of Representatives of the Colonial Office for the establishment of a Court of Reference to which all disputed cases of the Legislative Council could be submitted, prior to endorsement by Royal Assent. Delegates from the Colony affected by any such measure would be enabled to give their evidence before such Court, where events

proposal for the re-adjustment of the World Economic Conference.

[BY WIRELESS.]

The Bureau of the World Economic and Monetary Conference met privately this morning to consider the future of the Conference in view of the situation created by the United States attitude towards the question of temporary stabilisation.

During last night the critical position which had arisen was the subject of constant consultation between delegates. The United States delegation was in frequent telephonic communication with Washington and later the statement addressed to the Secretary-General of the League was issued by the American delegation.

**GET A REAL DUCO JOB**

when you have your car repainted.

MILLIONS of new cars are finished with Duco because their makers know that Duco is the finish a good car ought to have.

So, when you get repainting done, good judgment says "Get a genuine Duco job."

"Just any finish" will never do. There is only one Duco, and it has become so famous that other finishes are sometimes offered as Duco.

For your own protection therefore, insist upon Duco — real Duco — with your choice of all the smart Duco colours. Be happy with your repainted car. Save money, too, for Duco is long-lived.

that form the country must receive the fact that of such a measure of responsibility to the Government in a very real sense, the Government is certainly not an honest sharer in the responsibility for the country's economic and financial policy. It is not a sharer in the responsibility for the country's economic and financial policy. It is not a sharer in the responsibility for the country's economic and financial policy.

OF RACE GOVERNMENT.

Continued from page 1.

Inevitable subject, the difference between these two systems and things...

If the elements of heredity were known in detail and actual records of reverence for the human body it would be of greater service...

"Intelligent children might learn to grow up with reasonable prejudice about the ultimate value of a nation...

It holds that race is the result of scientific and not of the error, say, but of the individual's public opinion...
