THE KENYA POULTRY CLUB.

Review of a Year's Working. EGG-LAYING TESTS. Appeal 16 Members for a Bigger Interest.

The annual meeting of the Kenya Poultry Club was held at the Bull Inn, Nairobi, on Saturday afternoon, June 24. Mr. A. L. Gladwell, the President, presided over a good attendance of members.

The annual report and the statement of accounts were received and adopted. The report was as follows:— "The annual general meeting is being held later than usual, as it was thought advisable that a statement of the position of the Egg Club, as at December 31, 1937, should be in the hands of members before the meeting was held."

Egg Marketing. During the year 1937, 10,029 dozen eggs were delivered to the Nairobi Circle (including 2,400 dozen transferred to the Nairobi and 11,227 to the Nairobi Circle. One day delay took place in clearing up the position as at the end of December last, and the reason for this is contained in the report that has been circulated to members.

The dividend to members for the year ended on September 30, 1937, was disappointing. This was mainly due to the fact that the price of eggs in Coolidge towards the end of 1937. As a result of the fact that the Nairobi Club Store shares were being received, the only course open was to export 3,000 dozen, and members will notice that the net profit realised was only 90 cents per dozen.

Since the last January, 1938, the marketing arrangements have been in the hands of the Kenya Farmers' Association (Co-operative). Limited, and members have received regular monthly payments for their deliveries. The first six-monthly pool will close at the end of June and as soon as the Half-yearly dividend is received, the pool will be declared and the balance due to members will be paid out. The K.F.A. (Co-op.) Ltd. have informed us that if future B is proposed to December, the pool will be half-yearly. This will be approved by the members who will deposit out in full for their deliveries every three months instead of six.

Rule and Constitution. Owing to the great difficulty of selling members of their Central Committee, which consisted of fifteen members from the various districts in the Colony, it was decided to abolish the Central Committee and in the place, by agreement with Executive Committee, which would consist of the President, the Vice-President and the Secretary and two representatives of the various Districts in the Colony, who would be elected by the members at special meetings to be called when necessary, to which district members would be invited.

The Executive Committee was suggested to draft Rules and Constitution on these lines, to be submitted to the District Committee for their observations; the Executive Committee then to submit to a General Meeting of the Club for approval.

NAVY JUST LOSE. Wimbledon Tennis Championships.

Nairobi Team's Narrow Win. Good Rugby by the Hawking. AUSTRALIAN LOSERS TO SATOR OF JAPAN. [WIRELESS COMMUNICATIONS.] London, July 6. London suffered from a heat wave today and Wimbledon was the theater of the hottest, and in fact the most brilliant, tennis of the year. One of Great Britain's hopes in the Wimbledon, went out in the fifth round of the men's singles. He was beaten by the Japanese player, Nishikori, who won the first two sets as 5-2, 6-3, then the last set as 6-4, 2-6, 4-6, only to win the final set by the same margin, 6-4.

Another British player to go out in the fifth round was G.P. Houston, who lost to the Australian, J. B. Crawford in three straight sets, 6-1, 6-1, 7-5. Another British player to go out in the fifth round was G.P. Houston, who lost to the Australian, J. B. Crawford in three straight sets, 6-1, 6-1, 7-5. Another British player to go out in the fifth round was G.P. Houston, who lost to the Australian, J. B. Crawford in three straight sets, 6-1, 6-1, 7-5.

RUGBY MATCH AT PARKLANDS.

Nairobi Team's Victory. Yesterday the Rugby team from the H.M.S. "Hawking" was beaten by a fifteen from the last London XV. The game was played at Parklands.

THE GILKS CUP.

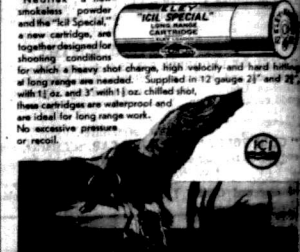

Another addition to the usual notice for the Gilks Cup is given by the fact that the Gilks Cup will be contested for a competition to be run on some time in the All England Plate at Wimbledon, except that this will be open to couples knocked out of the first and second rounds of the Ladies' Doubles. There will be no entrance fee for this contest, and ladies eligible will be automatically included, unless they advise the referee, if they do wish to exclude.

THE NEW BALL.

The new ball selected by the Council, namely, Spencers' "Red" No. 1, makes a very considerable difference to the game, and makes for much longer drives, and there is no doubt that some very interesting tennis will be witnessed on August Ball Holiday week. Entries for the Championship close at noon on Wednesday, July 26, and should be sent, accompanied by nominations after 10 p.m. to Messrs. Myer and Co., Ltd., c/o The Kenya Sports House, Ltd., Government Road, Nairobi.

THE STOCK INDUSTRY - QUESTION OF BREED

To the Editor "E.A. Standard," etc. - The following letter may be of interest.

The average production for 1932 was 11.11 lbs. of milk per cow per week. At the close of the year there were on hand at the Central Experiment Station 107 head of pure-bred cattle.

land was to be treated or he falls on the seventh year (Ex. 25.10 and Lat. 25.2). It is not possible that ultimately that land has been from an enclosed roof. I think you could get some information from any Agricultural Officer that generally this country is having more taken out of it than is given back, consisting of manure improvement.

The fables about that the cost of production by the five best producers was 16.1, 16.1, 15.5, 19.2 and 19.9 cents per lb. of butter.

The parade was most impressive and was splendidly well-organized by the Members of the K.D.F. whose attention was all directed to the desired. Their solidarity bearing a credit to themselves and the K.D.F. and the higher a credit to the Prince of Wales School.

DELMAR MEMORIAL

To the Editor "E.A. Standard," etc. - I should like to express my appreciation to the "K" for the very excellent suggestion that the Delmar Memorial should be in the form of a stone tablet and recreation ground for the Girls Secondary School, Nairobi.

Wireless Notes.

NOTES of the WEEK.

O.N. account of lack of space my usual notes dealing with purely technical matters has had to be held over and will appear next week.

Varying Reception.
RECEPTION during the week has not been very consistent and quite surprising variations in signal strengths from night to night have been experienced. With those fortunate enough to possess fairly high powered and sensitive receivers a "bad night" does not interfere with reception so much; but it makes a difference to a small receiver perhaps and quite in the first flush of its youth as regard valves and batteries.

Next B.B.C. Wave.
I UNDERSTAND that the B.B.C. are shortening the higher wavelengths of 40.0 metres and that after 10.30 p.m. 0.8 B, 0.153 metres—the improvement in which continues—will be the only transmitter serving the African Zone.

A Popular Band.
THERE is considerable activity round 50.0 metres and signal strengths have now gone up to the point where considerable entertainment may be had from the numerous stations in this band. Noise still remains the bugbear but in view of the greater strengths of transmissions its importance is decreasing.

Good Stations.
ROME and the French Colonial Stations have been consistently good and some of the programme matter sent out by the former is exceedingly attractive.

Listeners' Queries.

This page, devoted to the interests of Wireless, is conducted by "Aerial," a licensed experimenter with wide knowledge of West African conditions.

Listeners' Queries.

Two are getting best results with the speaker connection on terminal marked "Aerial" (it is a Vandy Nabeck) thus serving no useful purpose.

You are under a misapprehension; with the connection in the first mentioned the maximum distance is in circuit.

Question 1.
The condenser has the full H.T. voltage across it and the arcing probably starts earlier by some four or five feet before the plates become soldered together and had to be constantly repaired. Plates appear to be uniformly arched and are quite clean. Cause of arcing?

Answer.
The condenser has the full H.T. voltage across it and the arcing probably starts earlier by some four or five feet before the plates become soldered together and had to be constantly repaired. Plates appear to be uniformly arched and are quite clean. Cause of arcing?

Question 2.
I have examined the variable condenser 0042 No. 1. One bracket on the bottom blades only breaks when H.T. is on (was pulled out). The other blades are soldered together and had to be constantly repaired. Plates appear to be uniformly arched and are quite clean. Cause of arcing?

Answer.
The condenser has the full H.T. voltage across it and the arcing probably starts earlier by some four or five feet before the plates become soldered together and had to be constantly repaired. Plates appear to be uniformly arched and are quite clean. Cause of arcing?

Question 3.
I have removed H.T. plus and H.T. minus and set switched off. I place H.T. to H.T. plus—ground clicks and sparks once. This is in order. The plan of the H.T. minus is satisfactory and set still switching off inserting H.T. plus well, it is clear and a spark equal to discharging spark. Is this O.K. or should we expect a short circuit somewhere?

Answer.
All in order. Even with the set switched off H.T. is unswitched. In the case the spark is caused by the large fixed condenser discharging, in the other, by them charging up.

Many thanks for your appreciation of these Notes and your kind offer of cooperation in reporting reception. I am writing you personally with regard to this letter. I note that I.1.0 apparently went off the air at 8:10 p.m. while Johannesburg was coming through well.

ECONOMIC CONFERENCE AGAIN IN JEOPARDY

American Reply to Currency Proposals.

PRESIDENT'S REBUKE TO THE GOLD COUNTRIES.

Danger of Adjournment.

INDEPENDENT ACTION THREATENED BY EUROPEAN POWERS.

The fate of the World Economic Conference is again in jeopardy following the American reply to the currency proposals put forward chiefly by the gold countries in Europe.

President Roosevelt during the course of his statement says that the Conference should not be diverted from its broader problems of permanent financial stability of all nations, by temporary experiments affecting only a few nations.

In reply the gold countries have stated that they now intend to act independently of Britain and the United States and will proceed with a policy conducted by their central banks.

Switzerland is expected to take the initiative in moving the adjournment of the Conference. The gold countries believe that if they leave the Conference the remaining nations will be able to do little.

U.S.A. Delegation Divided.

The World Economic Conference was called to order, and perhaps to more fundamental economic life and it may not be destined to flourish.

President Roosevelt says that it would be a disastrous move to turn a world to drift, if the Conference was dissolved from the broader problems of permanent financial stability and the greater progress of the masses of all nations.

The machinery whereby the gold central banks will co-operate is described in a statement to be issued after the signature has been obtained by the Italian Finance Minister.

The points on which a sound international economic system is a greater factor in the nations well-being than the price of commodities.

The Real Problem. Permanent Stabilization of every nation's currency is the first and most vital step towards the attainment of the world's gold and silver supply to meet a reserve base of national currencies.

He concludes by stating that the mitigation of a permanent international exchange of goods is a more serious problem than the temporary fixing of exchange rates.

THE REACTION. Committees Expected to Adjourn.

At a request to Mr Corfield Hill's delegation the sub-committee on commercial policy has decided to adjourn until July 6 on the condition that the gold countries will not proceed with the currency proposals.

At a meeting of the Bureau of the World Economic Conference has been called by the President.

In the Conference the gold countries have expressed a considerable section of the delegates are understood to take the view that there is much work to be done in the field of currency stability in regard to tariffs, exchange, regulation of protection and marketing of certain commodities with a view to the economic sphere.

Five of the Economic Sub-Committees are meeting today and one Sub-Committee on the financial side of the Conference work namely, that on silver which is presided over by the American delegate Senator Pittman.

A private conversation with several members of the Bureau took place this morning in the presence of Mr. Ramsey MacDonald.

DOLLAR AGAIN FALLS.

Latest Quotation in London.

A Sack Price.

Italian 'Armada' Again Delayed.

An outstanding feature of the spring of the foreign exchange market this morning was the mark of strength of sterling on New York, the rate being quoted at 4.50, as compared with the overnight closing level of 4.49.

In Conference circles this morning widely varied views were expressed. A considerable section of the delegates are understood to take the view that there is much work to be done in the field of currency stability in regard to tariffs, exchange, regulation of protection and marketing of certain commodities with a view to the economic sphere.

THE GLACIER ROAD UP MOUNT KENYA.

Party Reaches 12,000 Feet by Car.

AN ENJOYABLE TRIP.

POSSIBILITIES OF A TOURIST ROAD.

Representatives of the three lighting services attached to Mt. Kenya, the main glacial road on the northern slopes on Wednesday last reaching an altitude of 12,000 feet by car and climbing a further 300 feet on foot towards the peak.

The party consisted of Mr. A. E. Burton, District Engineer, Nairobi, Senior Assistant Engineer P. W. D. Noyce, commanding Hook, R.N., and Mr. T. Fennelly-Stimson. The whole party occupied the trip in two days.

The party was very kindly volunteered their services and throughout the trip was fully equipped with all instruments taking levels and bearings with a view to preparing a report on the possibilities of a professional standard to be in the hands of the P.E.A.

The First Gradient. The party found with full winter equipment to be in the open air at the 12,000 feet plateau was in a very fine condition.

EFFECT ON TRADE OF SUEZ CANAL DUES.

(Continued from page 5)

1901 and 1902 British imports from all sources fell by 18.4 per cent. from those contained in the Suez Canal route by only 8.9 per cent. During the same period British exports fell as a whole by 6.0 per cent. While towards the countries beyond the Suez Canal British exports increased by 4.0 per cent.

Where, therefore, do the depressing influences of the canal dues come in? And what is to be said of all those commodities which the canal sells some high in a country like England, the currency of which has fallen from the 1901 standard? The Suez Canal cannot be held responsible for this depression of currency. Nor is this any reason why the canal should pay the penalty on that account.

Annual Report

The annual report points out that in 1932 the Canal continued to lead the adverse influence of the aggravated economic world crisis and the great falling off in the trade and value of international merchandise.

Under Influence of Liquor. Admitting there was a conflict of interest, it is impossible to say whether the liquor traffic was more or less profitable than the other side of the ledger.

Effect on Trade of Suez Canal Dues.

POSITION EXPLAINED BY PRESIDENT OF COMPANY.

British Criticisms Resented.

DESCRIBED AS BOTH MALEVOLENT AND UNTRUE.

Replies to recent British criticisms levelled at the policy of the Suez Canal Company in failing to reduce the high tolls charged on shipping, were made by the President, at the annual meeting of the company held in June at Paris.

He strongly denied that the dues levied had any effect in restricting trade, and described the criticisms as both malevolent and untrue. He pointed out that the British shipping companies had not associated themselves with the attacks on the company.

He declared that the Board of Trade returns showed that between 1911 and 1922 British imports from all sources fell off by 15.4 per cent., and from countries on the Suez Canal route by only 2.8 per cent. During the same period British exports fell as a whole by 6.6 per cent., while to countries beyond the Suez Canal British exports increased by 4.6 per cent.

Reply to Allegations.

Proceedings of the annual meeting of the Suez Canal Company held in Paris last month were reviewed by the African Standard, and the views expressed by the Chairman, the Marquis de Vogüe, in his address to the company, on recent British criticisms, are now more fully recorded as follows:—

He referred particularly to the allegations that the company was keeping up high tolls in order to prevent a depression in the industrial depression.

He said that he had declined, had been made not only in newspapers but in public meetings, and in other places to question the British Parliament, and that he had been made not only in newspapers but in public meetings, and in other places to question the British Parliament, and that he had been made not only in newspapers but in public meetings, and in other places to question the British Parliament.

These allegations, said the President, were entirely untrue. He stated that the company's policy was to keep up high tolls in order to prevent a depression in the industrial depression.

He said that he had declined, had been made not only in newspapers but in public meetings, and in other places to question the British Parliament, and that he had been made not only in newspapers but in public meetings, and in other places to question the British Parliament.

ANALOGOUS PROCESS FOR GOLD.

Preparation of Copper Plates.

THE METHOD ADVISED.

Many enquiries have been received as to the best method of preparing copper plates for photography. The method given below is the one which is most generally used, and is the one which is most generally used, and is the one which is most generally used.

First scrub the plate with wood shavings, and then with fine sand. Then wash with clean water, and then with clean water, and then with clean water.

Prepare a mixture of fine sand and powdered aluminium in equal parts, sprinkle it on the plate, and then wash with clean water, and then with clean water, and then with clean water.

Soak the plate for an hour or two, and then wash with clean water, and then with clean water, and then with clean water.

At this stage, fine gold or silver amalgam may be added. Silver amalgam is the best, and is the one which is most generally used.

The slapping process is a very simple one, and is the one which is most generally used.

It is pointed out that the time of the preparation of the plates is very important, and is the one which is most generally used.

SUNDAY TRADING IN NAIROBI.

Sale of Liquor Not Exempt.

Magistrate's Ruling.

DOES NOT COME UNDER THE TERM OF 'REPRESENTATION.'

Bottles of whisky and beer, purchased on a Sunday, are not exempt from the provisions of the Sunday Trading Act, according to the ruling given on Saturday by the Magistrate in the case of Mearns v. Knipey.

Orders have from time to time been published under the Ordinance of 1917, but the provisions of the Ordinance have not been strictly observed.

It is argued for the prosecution that the sale of liquor on a Sunday is a representation of the goods, and is therefore exempt from the provisions of the Sunday Trading Act.

Question of Definition. Mr. Justice has ruled that the sale of liquor on a Sunday is not a representation of the goods, and is therefore not exempt from the provisions of the Sunday Trading Act.

The Nandi Country. There was a suggestion some short while ago, that a portion of the Nandi country should be returned to the Nandi people, and that the Nandi people should be allowed to graze their cattle on the land.

The Term 'Representations.' Mr. Justice has ruled that the sale of liquor on a Sunday is not a representation of the goods, and is therefore not exempt from the provisions of the Sunday Trading Act.

A Caution Administered. It is pointed out that the time of the preparation of the plates is very important, and is the one which is most generally used.

Popular Characteristics of the Species.

Does the Kenya Kingfisher fish? Does he live up to the reputation of his name? The answer is not unqualifiedly 'yes.'

Indeed, as those who best know the Kenya Kingfisher will tell you, it is a very different creature from the one which is most generally known.

Kingfishers are of course, the most brilliantly plumaged fish in East Africa, and are common to all parts of the continent.

Now, there is a kind of kingfisher which is known as the 'Nandi Kingfisher,' and which is found in the Nandi country.

So it is just as easy to find a kingfisher in the Nandi country as it is to find one in the Nandi country.

But, they all possess certain characteristics which are common to all kingfishers.

The Nandi Kingfisher is a very different creature from the one which is most generally known.

Opening of the Unofficial Conference.

MEMBER AFFECTED BY RECEIPT OF CONFIDENTIAL INFORMATION.

Not a "Secret Society."

CAPTAIN H. E. SCHWARTZ EXPLAINS REASONS WHY MEETING WAS HELD.

An Unofficial Conference of delegates from the settled areas in Kenya... Captain H. E. Schwartz explained the reasons why the Conference has been called at the present time.

He also declared that it would be found that the membership of "Secret Society" contained no individuals who would be found to be members of the same.

Captain Schwartz recalled resolutions passed by the Committee of Associations and moved for the Legislative Council by Elected Members recently stating that the time had now arrived when the control of finance should be vested in the representatives of the people and said that the consequence of information which reached him in May he had decided to call the meeting at once.

He denied the Secretary of State, to whom the proposals of the Conference, if any, will eventually be sent, as a man ready to lend an ear to reasoned argument and not prepared to sacrifice justice for expediency.

The discussions are taking place in private.

The opening yesterday of the Unofficial Political Conference... Captain Schwartz said that the meeting was held in the morning.

After an address by the Acting Leader of the Elected Members... Captain Schwartz said that the meeting was held in the morning.

Nanyuki Summer Race Meeting

RAIN FORCES ABANDONMENT OF ONE EVENT.

Attendances Below Average.

TWO RACES COMPLETED IN A DRIZZLE.

Nanyuki Sports Club staged their summer race meeting on June 22 and 23. The racing was marred by rain forcing the abandonment of one event. The first day, as had been anticipated, did not get off to a very good start. There was a considerable improvement in the attendance on Saturday though it was still below the average. On the first few things were very fast and there was a certain amount of luck. The weather cleared for ten days previous to the meeting and the going was fairly good in consequence and this was more than compensated for in the afternoon.

On Saturday a heavy shower came on a few minutes before the start of the 4th race. Mr. W. S. Turner, who was the only runner in the race, was obliged to withdraw. The result was an appeal to the owner and he agreed to the award of the prize to the runner who had the best time.

NAIROBI FLOWER SHOW.

It has been proved beyond doubt that a flower show of this kind for a certain date the enthusiastic horticulturists will grow for the last Nairobi flower show a most creditable exhibition, for the best of show of flowers and fruit from here. Unfortunately the attendance was not very good, probably owing to the general public thinking that as a result of the drought it would be poor, but they missed a treat.

There were many more roses than at previous shows, some entries in the six class and eight in the threes. Mr. and Mrs. Grubane Bell's collection was excellent in quality number of varieties and well arranged at the far end of the hall making a delightful vista of flowers from the door as well as the hall of the exhibits on the tables on either side of the entrance. This exhibit was arranged for the most meritorious and also for the most artistic arrangement group in the Show. Mr. and Mrs. Grubane Bell were the open twelve classes and in this class was Madame Cochet the best rose in the class of excellent shape and strong fragrance.

Mr. MacMaster won the 12 banded white class with the 'Princess' which was a great improvement which kept the roses were very true and only one of which was weak. Mrs. Phillips was second with 'The third' and Mrs. Lupton light-colored rose 'Lily of the Valley' was third. Mrs. MacMaster was the 12 banded white class with the 'Princess' which was a great improvement which kept the roses were very true and only one of which was weak. Mrs. Phillips was second with 'The third' and Mrs. Lupton light-colored rose 'Lily of the Valley' was third.

It generally happens that whoever wins the first prize in the larger classes of roses also wins the smaller of which exhibit in all sections. This was the case in the case in the carnations and dahlias which suggests that a similar result would be obtained in other classes.

The stage flowers were good. The exhibition hall was well arranged and Mrs. Dickson had one bloom which was just as best. Mr. and Mrs. Grubane Bell were the best of the stage flowers were well arranged and Mrs. Dickson had one bloom which was just as best.

The best roses were those of Mrs. Lupton with Mrs. Lupton second and Mrs. Phillips third. The last named had the best of most suitable rose with which to do a job but they were not well maintained and were too high.

Carnations were not so numerous as in former years. The best were those of Mr. and Mrs. Boyd being second. The winner of this class was Mrs. and Mrs. Boyd won the best of most suitable rose with which to do a job but they were not well maintained and were too high.

Mr. and Mrs. Grubane Bell had the best 24 in the open class of the best twelve lily-like Phloxes. Mrs. Phillips was second with Dahlias and Gladioli being the best of these.

Delphiniums, Dahlias, Hollyhocks, Chrysanthemums, Petunias, Mr. and Mrs. Grubane Bell won the open climbing plants; the best was coral creeper. Mrs. Grubane Bell won the six varieties of flowers for Nairobi residents out of the best 100. Mrs. and Mrs. Boyd were first and larger than those of Mrs. Howard who was second.

Fuchsias were extra fine and there were 17 varieties from Mrs. Dickson, who also won the six varieties. Various from Mrs. Bagley was good. Lady Muriel Jane Blake won the indigenous with a rare yellow flowered Akasia. Miss MacMaster's only exhibit was good.

Delphiniums. Mrs. Grubane Bell had the only collection of 16 distinct varieties but these were not so large as the show shows. This exhibitor also had one spike which was a fine one and a finished spike. Miss Taylor's second spike was two feet long and Mrs. Bagley was third with five spike but it had evidently been touched in the shading as it was damaged.

Barbared. Dawson's exhibit from Mr. and Mrs. Grubane Bell was fine and well arranged. The six color variety was very true and the Prince of Wales School and the other three varieties by Capt. V. Ward.

Lady Muriel Jane Blake had the best collection of Fuchsias well arranged and clear. She counted 17 varieties. The collection of chrysanthemums by Mrs. Bagley was excellent and in the variety. She also won the three varieties. Miss Taylor was the second and all these were clean and fine.

Mrs. Dickson's Salviae were good and there was 14 varieties. Mrs. Phillips was the best of Dahlias there was only one exhibit. Mrs. Hughes well describing the first prize which was awarded in the Dahlias 12 varieties open Mrs. Phillips beat Mr. and Mrs. Grubane Bell who were second.

This winning the Cup which has been won by Mr. Randall for a long. The winner also won the six varieties, her blooms being clean and not coarse. This exhibitor also won the 'Salviae' and Mrs. Grubane Bell again being second. Mr. J. Day had the best Dahlia in the Show and also the best seedling, which the judges decided to register after registering it.

Mr. and Mrs. Grubane Bell had the first for 'Petunias' and Mrs. Phillips was second. Mrs. Grubane Bell was second in the Geraniums were excellent. Mrs. Bagley having the best with Mrs. and Mrs. Grubane Bell second. All were good. In the Geraniums six varieties, Mrs. B. Nicholson won. Times were extraordinarily well grown and exhibited. Miss O. Collyer was second and third. She had one vase of extra good show polyanthuses.

Mr. and Mrs. Grubane Bell won the balloons show in their usual style and Mr. and Mrs. Lupton were second with not many varieties, but very interesting.

Gladioli, Open, was won by Mrs. and Mrs. Grubane Bell and Capt. K. T. Good was a close second. There were very few straight and clean. Mrs. Owen Hughes won the three spikes one of which proved to be the best spike in the show.

Antirrhinum were disappointing. The best came from Mrs.

standing among them. Both judges and the public had the same opinion, but to my mind there was only one of merit and simplicity.

Vegetables, 20 varieties, was with excellent Peas, Potatoes, Broad Beans, and Carrots, Cannon Fennel was second. The same winner also had the best six of the "Button" Cup "class" and also the six of any kind of seed; and the Ad. location of Potatoes. All these vegetables were wonderfully clean, well-grown and staged. The potatoes being the best I have yet seen in Kenya. Miss O. Collyer won the Peas, Potatoes, Broad Beans, and Carrots, Cannon Fennel was second. The same winner also had the best six of the "Button" Cup "class" and also the six of any kind of seed; and the Ad. location of Potatoes. All these vegetables were wonderfully clean, well-grown and staged.

Excursion fares by rail or steamer are being offered during June and August from all East African Ports to the South. For particulars apply to British Shipping Agents or to:

The South Africa Office, Messageries Maritimes, 101, NAIROBI.

There were many other exhibits marked "not for competition" one an Oxford and one a basket of Begonia Loretta which gave evidence of good cultivation. But of all these the most interesting and one which gave evidence of careful and excellent cultivation, taste and arrangement was a corner group of baskets of Gladioli, Asters, Barbertons, Gloxinias, etc., with ferns and would have been the reward had it been for competition. This was put up at the request of the Society by Mr. and Mrs. H. K. A. Durham.

GERMANY'S ATTITUDE TO FORMER COLONIES.

(Continued from page 1.) This idea, if we go under, other people of the West will go down with us or after us. If the world is to be made healthy again, it must first let us return to health. World economy means the parallel existence of independent economies. These only attack the heart of the problem who believe that the world can be restored to health. The network of international debt is a cause of the dislocation of the markets. The sum total of demands for interest and capital is far beyond what the debtor nations can deliver as goods, and the creditor nations can absorb in services. From the German point of view, in the spirit of a wise and peaceful cooperation between creditors and debtors, two measures appear to be incontrovertible. These two measures appear to be incontrovertible. These two measures appear to be incontrovertible.

There is little more on the London market at present, save the weekly report, dated June 28, in which the Kenya Finance Association (Kenya Finance Association) has also been a factor concerning the demand for wheat.

Argentina shipments during the first half have been over small quantities, but a recent report from Buenos Aires indicates that the Argentine Government is now offering to sell 100,000 bushels of wheat to the United Kingdom at 16/6 per bushel, plus freight.

What Starting during the week there has been a better response to demand for wheat from the United Kingdom. Australian wheat has been sold at 16/6 per bushel, plus freight.

Other Produce. Gains—No improvement to report. Flour 3s 6d. Rice 11/6. Beans—Madagascar Bitter Beans 13/0. White Beans 11/0. Corn—No improvement to report.

Home of Commons Reference. Colonel T. C. B. Moore, Conservative Member for Ayr Burghs, referred to the question of handing over to Germany one of her colonies when he spoke during the debate on the Foreign Office Estimates in the House of Commons on Tuesday, June 27.

Most decrease of bringing to the attention of the Committee and the House. The Treaty of Trianon I cannot believe that we mean to force upon the Middle Europe which that Treaty involves was and appropriate revision. We know that in Hungary also which was considerably mentioned in the Treaty of Trianon, 72 per cent roughly of the territory was taken away. These three treaties, which have been made on a scale of revenge and fear I cannot believe that statesmen setting down to consider the whole practice of the future of the world and the traditional attitude and resources and ethnographic situation in each country would have devised such a settlement as long as they exist and as long as have fear and suspicion replace one on the other. So long will we have the immediate danger of war in Middle Europe.

Mr. John Henderson Allen tells me that he has the Honourable Member who intervened and said that afterwards he saw the Hon. Member and said a word of caution to suggest that the Hon. Member should not say that he had back Tanganyika. Colonel Moore said it was not his intention to say that he had back the Cameroons. I had feared he was in a position to say so because it may be thought that there is some general return of colonies to Germany movement on foot.

E.A. CEREAL MARKET.

Advance in Maize Prices. Small Argentine Exports. BETTER DEMAND FOR WHEAT.

There is little more on the London market at present, save the weekly report, dated June 28, in which the Kenya Finance Association (Kenya Finance Association) has also been a factor concerning the demand for wheat.

Argentina shipments during the first half have been over small quantities, but a recent report from Buenos Aires indicates that the Argentine Government is now offering to sell 100,000 bushels of wheat to the United Kingdom at 16/6 per bushel, plus freight.

What Starting during the week there has been a better response to demand for wheat from the United Kingdom. Australian wheat has been sold at 16/6 per bushel, plus freight.

Other Produce. Gains—No improvement to report. Flour 3s 6d. Rice 11/6. Beans—Madagascar Bitter Beans 13/0. White Beans 11/0. Corn—No improvement to report.

Local Markets. The following are today's prices: Beans—Madagascar Bitter Beans 13/0. White Beans 11/0. Corn—No improvement to report.

Home of Commons Reference. Colonel T. C. B. Moore, Conservative Member for Ayr Burghs, referred to the question of handing over to Germany one of her colonies when he spoke during the debate on the Foreign Office Estimates in the House of Commons on Tuesday, June 27.

TANGANYIKA NOT BY SHORT.

(Continued from page 7.) harvesting continues, and an estimate of 200,000 tons is expected, although the rains ceased two months for the last growth. Much of the harvest for the month is below average. Maize, sorghum and rice harvests are progressing and early yields are expected in the higher altitudes.

Local Produce. The following is the report for the week ending May 31. The sorghum crop is good and the wheat crop is fair. The maize crop is suffering from lack of rain, but the early estimate is that the total production is satisfactory.

Tanganyika—An average harvest is anticipated. An increased production is noticeable in rice and sorghum, but both crops suffered from lack of rain.
