# E.A.C.S.O. wage increase would disrupt economy

economic repercussions would result if the East African Civil Services Organisation raised its minimum wage above those fixed in the three territories, the Industrial Relations Commission Nairobi yesterday by the Organisation's deputy secretary for personnel, Mr. A. G. Shikaka.

Increasing the minimum E.A.C.S.O. wage to LIT 10s a month, as demanded by the union, would probably lead to the Governments of Kenya, Uganda and Tanzania, and the private sector following suit. In any case it was difficult to say whether the three Governments would countenance the creation by E.A.C.S.O. of a different wage structure.

The ideal arrangement was for the Organisation to avoid wage increases by the three countries, and to have the three Civil Services face a pay rise.

The general fund services of the Organisation were not self-accounting and depended on the contribution from the three States which were usually voted by the Ministerial Finance Committee before any estimate went to the Central Legislative Assembly.

## DEFICIT LIKELY IN NEAR FUTURE

"We have no surplus funds for meeting any contingencies that may arise," Mr. Shikaka added. There was a danger that the Common Service Authority would cut the distributable pool share of the general fund services if there was an increase in manufacturing expenditure.

The Organisation was in fact engaged in several development projects had a deficit of funds and measures were being taken to bring it down altogether. It was likely that the Government would have a deficit in the near future.

Challenging the union's argument that E.A.C.S.O. was not like the United Nations, Mr. Shikaka said that the latter was a self-governing body, and must pay its staff on a self-accounting basis. The East African Civil Services Organisation was not a self-accounting body and must pay its staff on a self-accounting basis.

## Court staff demand changes

The secretary-general of the Kenya Civil Service Unions' Union, Mr. G. N. Ouyilo, addressing the African Staff Association on Thursday, said the African staff in the courts were still being treated like second-class citizens. He said they had been asked to accept a 10 per cent wage increase in a letter which was not a contract of service. The memorandum said it was a waste of Government money to send court officers there who were not doing any work.

He said they had been asked to accept a 10 per cent wage increase in a letter which was not a contract of service. The memorandum said it was a waste of Government money to send court officers there who were not doing any work.

## RE-AFRICANISE

"There was no justification in the union demand that technicians should be treated on the same scale as the court staff," Mr. Ouyilo said. He said that the African staff in the courts were still being treated like second-class citizens. He said they had been asked to accept a 10 per cent wage increase in a letter which was not a contract of service. The memorandum said it was a waste of Government money to send court officers there who were not doing any work.

## KENYA TO ESTABLISH NATIONAL ARCHIVES

It has been published in the Kenya Gazette this week that the Government has decided to establish a National Archives. The Archives will be established in Nairobi and will be responsible for the collection, preservation and publication of records of the Government and the private sector.

## Stand on Rhodesia issue

SAU national headquarters has strongly endorsed the stand taken by Kenya's Minister for External Affairs, Mr. M. N. Mutitu, on the Rhodesia issue.

It is evident that we cannot support the Rhodesia Government and its policies. We are in agreement with the stand taken by the United Nations and the Commonwealth. We will continue to support the African people in their struggle for independence.

## FINE JUMPING ON OPENING DAY OF SHOW

SOME fine riding followed by a superb audience marked the opening of the Show Jumping Association of Kenya's open horse show at Jambura Park, Nairobi, yesterday. More animals than usual have been entered in these classes, and horses have been brought from as far as Eldoret, Nanyuki, and Kisumu.

## Growth target to be raised

NEW DEVELOPMENT targets for Kenya have been set for 1970 as the rapid growth of the country's economy has indicated that the original ambitious programme of the Government Development Council can not only be achieved but surpassed.

The Ministry of Finance, which is responsible for the preparation of the national budget, has announced that the growth target for 1970 will be raised from 10 per cent to 12 per cent.

## MINISTER TO OPEN TENT HOSPITAL

The Acting Minister for Health, Mr. M. N. Mutitu, will open the tent hospital at Jambura Park, Nairobi, tomorrow. The hospital is being set up to provide medical services for the public during the horse show.

Mr. Mutitu said that the tent hospital was a necessary measure to ensure that the public had access to medical services during the show.

# LAD STARS AT SHOW

Ms Valerie Osmond going over the pole and back fence in style on her Grade A horse, Lumar Lad, to win the Elite Stakes at the J.K.K. Show at Jamhuri Park, Nairobi, on Sunday. Miss Osmond had the only clear round. Later in the day she was to be crowned with the Dundee Cup, for the most consistent performance by a horse in events over the past twelve months.

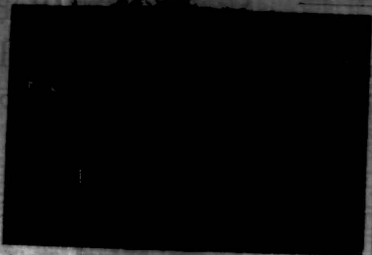

[Story — Page 5.]

The fancy-dress competition provided most laughs and was one of the best seen at the Show. First into the arena was Nesti's last expedition, which cleverly won the first prize for groups.

Runners-up to Valerie Osmond and Lumar Lad in the Elite Stakes were Mrs. Heather Fernandes (seen wearing the sun of honour), on Ram and Mr. Robin Davies on Knockabout.

A view of more fancy-dress entrants. On the extreme left can be seen Byron Georgiades as Napoleon, with Josephine on his left. They won second prize for groups. Mr. Georgiades's son, Nicholas, (a penguin) and his daughter, Tina, judged best kid for first prize in the competition. On the right is the Bobbie Head-Fear Tack combination who had some piffery trouble on the way in.

Suffragettes and two jockeys — Miss Jackie Pettit seen centre back, and Capt. David Jenkins, portraying the 1912 Derby, when a woman loyal to the cause hung herself under the King's horse, was another group entry in the fancy-dress competition at the Show. Singing lustily, they drew great applause from the crowd, and anxious neighbours from other houses who didn't know what was going on.

## SPACEMEN GOING FOR RECORD Gemini well past 1m. mile mark

American astronauts Gordon Cooper and Charles Conrad wheeled their Gemini spacecraft past the 1,000,000-mile mark about one-third of their way to a space endurance record.

'As Gemini sped on, the crippling power problem solved, the astronauts' voices crackled back to Earth. "Everything is 'Go up here' Cooper and Conrad, rocketed into orbit on Saturday, were set for the planned eight flights—121 orbits and 3,210,000 miles.

They hope to crack the record of five days in space set by the Russian astronaut Valery Bykovskiy in June, 1962.

But more serious aims than record-breaking lie behind the flight. The primary objective is to study the physical and mental effects of prolonged periods of weightlessness.

### Relaunch cancelled

Yesterday Gemini was on its way to a rendezvous with an infantry rocket, representing the path of an Agena rocket spinning in space near the capsule.

The experiment was planned as a substitute for a projected meeting between Gemini and a radar beacon.

This rendezvous was cancelled because of power troubles on Gemini's special fuel cells.

Problems with the fuel cells, including the fact that, because of the fuel cell, it was a few hours old, and the fact that the fuel cell had been used in the Gemini 1 mission.

The plan was to relaunch Gemini 3 on a 3-day mission, but the plan was cancelled because of the power problems.

## U.S. again hit dam in North Vietnam

UNITED STATES Air Force jets have attacked a dam 90 miles south-west of Hanoi, the North Vietnamese capital, for the second day. They also bombed a hydro-electric plant nearby.

A U.S. military official said yesterday that heavy damage was inflicted on the plant's generator and transmission buildings, and additional damage was reported to the dam and locks system. He said all planes had returned to their base.

Military officials stated that the destruction of dams in the southern Red River delta is a major objective of the U.S. military campaign against North Vietnam's economy.

## INTER-AFRICAN TRADE

IN the early days of independence it used to be said that the flag followed the trade, though some would say that the trade followed the flag. Today, trade can be said to be the pathfinder for greater understanding and co-operation between the States of independent Africa. It can speed the attainment of the common goal of Pan-African unity, and it can be said to be the bridge between the continent and the rest of the world.

It is interesting to note that in the early days of independence, the only trade between the States of independent Africa was the trade in raw materials and agricultural products. This was a one-way trade, and it was not until the late 1950s that the States of independent Africa began to trade with each other in a more diversified manner.

## Persecution of an editor

MR. LAURENCE GARDNER, editor of the "East African Standard," has been arrested in Nairobi for alleged sedition. The arrest was made by the Kenya Police on September 22, 1962. Mr. Gardner is a well-known journalist and has been active in the independence movement. He is currently being held in the Nairobi Police Station. The charges against him are related to an article he wrote in the Standard in July 1962, in which he criticized the Government's handling of the Mau Mau rebellion.

Most small cars have only two distinguishing features

one at the front... one at the back

The new Fiat 850 is for those who want something distinctive in between

What's so special about the new Fiat 850 is its look, and the extra space of which you get from driving one of the other cars on the road. And the use of 850 cc. engine units on the car structure without developing much of a floor... And the other cars of handling which only independent suspensions, and an all-weather shock absorber, OH yes, and the color of the interior, the seat belts, the gear shift, the heater, the radio, the clock, the mirrors, the wipers, the windows, the lights and other accessories which are all included in the basic price. Otherwise you might call the Fiat 850 just another car. But you probably won't.

He will also be meeting the Ministers for East Africa, Mr. Kenyatta, Mr. Obote and President Nyerere.

# KENYA CO-OP. BANK TO START WORK SOON

## A.L.D. LOAN WILL HELP KENYA EDUCATION

KENYA is to receive a £1,000,000 loan from the United States Agency for International Development for the expansion of the Kenya Education Service.

The agreement was signed at the office of the Minister for Education, Mr. J. M. Njoroge, in Nairobi, on the 22nd inst. The loan is to be repaid over a period of 10 years.

The agreement was signed by the Minister for Education, Mr. J. M. Njoroge, and the Director of the Agency for International Development in Kenya, Mr. William Wild.

The loan will go towards the expansion of the Kenya Education Service, which will permit doubling the number of students in the institutions in Nairobi by 1955. It will pay for all costs of the Government and the parent and up to half of the cost of the African parent's contribution.

**Important role**

The Kenya Education Service established in 1948, as Kenya's only governmental institution, has been the nucleus for the development of the Kenya Education Service. The Government will still continue to provide the main part of the financing, but the African parent's contribution is being gradually increased to the amount of 50 per cent of the total cost of the service.

## The scientific dimension

It is known that the color of the skin of a person is determined by the amount of melanin in the skin. Melanin is a pigment that is produced by the cells in the skin. The amount of melanin in the skin is determined by the amount of sunlight that the person is exposed to. In the tropics, where the sun is very bright, the skin produces a lot of melanin, which makes the skin dark. In the temperate zones, where the sun is not so bright, the skin produces less melanin, which makes the skin light.

This unusual housecoat in dark white is in gingham fabric (Italian fabric) and is very simple. It comes from an Italian fashion house. The sleeve is adorned with rose fabric lace to match the matching necktie and front of the jacket. The matching cap is also of white Lotion lace, designed by Emilio Pucci of Florence.

## NEW ORDER IN WAGES CRITICISED BY UNION

A new order in wages has been criticised by a union leader who said it was a 'disgrace' that men should be paid less than women for the same work.

The National Union of General Workers (NUGW) secretary, Mr. J. G. Whelan, said that the new wage structure was 'grossly unfair' and 'discriminatory'.

He pointed out that the new rates were based on a 'cost-of-living' index, which was 'unreliable' and 'inaccurate'.

Mr. Whelan said that the new rates were 'unfairly low' and 'did not reflect the value of the work done'.

He called for a 'radical change' in the way wages were determined, and for 'greater participation' by workers in their own pay decisions.

## Three-weeks' seminar, started on Monday, is organized by the Food and Agriculture Organisation of the United Nations with the co-operation of the Kenya Government.

Mr. Goodbody-Thurlbill said that there were certain kinds of work which were more suitable for women than men.

### IMPORTANCE OF TRAINING

When the possibility and the desirability of employing young women as technical staff in government agricultural services was discussed, objections were suggested.

### Help catch thieves appeal

The chairman of the Nairobi City Council, Mr. W. M. Kipura, yesterday appealed to the public to help the police and city council by reporting any thefts they had stepped up their activities in each of the Council's areas.

He said that the Council was offering a reward of up to five hundred shillings for information leading to the arrest of thieves.

### Denial of invasion training

The Government yesterday denied reports that it had been training a large number of Mau Mau veterans in the use of modern weapons and tactics.

A spokesman said that the reports were 'entirely unfounded' and that the Government was 'not interested in re-arming' any Mau Mau fighters.

He said that the Government was 'wasting its money' on such reports and that it was 'concerned only with the development and progress of the country.'

### Cattle stolen

Public relations officer said that a total of 25 cattle had been stolen in the districts of Mandera, Turkana and Kisumu in the north-western part of Kenya.

**EMERGENCY SONGS CAN GO IN THE ARCHIVES**

A PROGRAMME broadcast by the Voice of Africa last Sunday (last) evening on the subject of the "Emergency Songs" which were broadcast in the past is only to be commended. It is a pity that the programme was not more widely advertised.

The "Emergency Songs" were a collection of songs which were broadcast during the period of the emergency in Kenya. They were a reflection of the feelings of the people at that time and are a valuable record of the history of the country.

The programme was a success and it is hoped that it will encourage other people to collect and preserve such songs. They are a part of our cultural heritage and should be kept for the future.

# Chiefs a vital link between people and Government

Chief's duty has emerged among the masses, with the effect of opening up a kind of mental gap, the administrator had to effect a change in his role. The Vice-President, Mr. Odinga, said yesterday when he was at Maseno Training Centre for Chiefs from Western and Nyanza Provinces.

Mr. Odinga called on Chiefs and party leaders in all locations to work together. The atmosphere of political calm and high morale — only in such a situation could the Chief effectively explain and execute policy. It was stupid for respect was not a one-way traffic to be paid.

It was time that such courses were organized to give all Chiefs in the country the opportunity to refresh themselves in their role in a free country. The Vice-President said that during colonial days a Chief was looked upon as the colonial master; as the medium through which orders, instruction and practice were acquired and executed. The greatest challenge now comes in the form of the change in the structure of our nation through the revolution. The population in both rural and urban areas is rapidly changing in both quality and quantity.

### 'COUNTLESS CHANGES'

In the urban areas, the towns are becoming full of people, loads of buses, tractors, motor cars, and countless numbers of doctors full of patients; and countless other changes are taking place. Mr. Odinga said that the Chiefs are continuing to lead social problems which will have to be solved in the future.

In the rural areas a kind of alienness is emerging. The population of the rural people is growing. Demographic changes are taking place in the rural areas. Diseases and epidemics are spreading. The Chiefs are continuing to lead social problems which will have to be solved in the future. The Chiefs are continuing to lead social problems which will have to be solved in the future. # Revenue target figure raised

## to £53,500,000

**Selfish Staff Reporter**  
**Dar es Salaam**

The target figure for the new per cent development levy which will be operative today has been raised to £53,500,000 for the period ending 31, 1966, a Treasury spokesman said yesterday in Dar es Salaam.

This means that the levy target which was announced by the Minister for Finance, Mr. Romani, in his June Budget has been raised by £500,000. "We may be a little bit optimistic but we have decided to raise our sights by £500,000," the spokesman said.

The Treasury anticipates that the actual cost of collecting the levy is unlikely to exceed one per cent of the total raised.

Because employers and marketing organizations will be asked to pay a greater share of the levy, the National Revenue Officers will inevitably shoulder the burden of collection.

### PLAN FOR STAFF INCREASES

In Dar es Salaam a special session will open today in the Internal Revenue Office to discuss the proposed staff increases and under consideration of the Mushi and Tanga offices.

The paying public will deal mainly with 80 Internal Revenue Officers throughout the country. This will be one of the most economic operations we have had," the spokesman said.

### SELF-HELP MUST BE PLANNED

The speaker stressed that self-help must be planned and not left to chance. He said that the Government was not going to provide a service to the people but to help them to help themselves.

# WOULD LEVY BOARD BE FEASIBLE IN KENYA RACING?

By the Standard's Racing Correspondent  
The members of the newly-constituted Levy Board have been asked to consider whether or not a levy board would be possible in Kenya. In recent years there has been a great deal of talk in France and other countries about the possibility of such a board. It is now in the hands of the Standard's racing correspondent to see if it is possible in Kenya.

Some 1000 officials were invited to take their names as members of the Levy Board. The Levy Board is a body which would be responsible for the collection and distribution of a levy on the total amount of bets placed on horse racing in Kenya. The levy would be used to improve the racing facilities in Kenya and to provide a fund for the benefit of the racing industry.
