KENYA'S CONTRIBUTION TO IMPERIAL DEFENCE
IMPORTANCE OF WELL-ORGANIZED MAN-POWER

Territorial and "K.D.F." Bills
OFFICIAL AND UNOFFICIAL AGREEMENT IN LEGISLATIVE COUNCIL

The importance of the efficiency and good organization of the only contribution Kenya could make to Imperial Defence—man-power, of what was described as unimpaired calibre—was stressed when the Kenya Auxiliary Force Bill were passed in Legislative Council on Tuesday.

Railway Difficulties

Proposing the adoption of the terms of the "Select Committee Report on the Kenya Railways (Civilian Force) Bill in Legislative Council on Tuesday, the Director of Education, Mr. J. M. Njiru, who was chairman of the committee, stated that of the 100 cases of strikes in the affairs of the world the question of defence was the most important. It was stated that the 100 cases of strikes in the affairs of the world the question of defence was the most important.

Defence Force

The report was thereupon adopted in the Kenya Defence Force Bill, the adoption of which was proposed by the committee. The most important change, he said, was the alteration of the title of the bill to the Kenya Defence Force Bill. This amendment had been proposed by Lord Francis Scott.

Age Limit Reduced

Another important alteration was the reduction of the upper age limit for members from 45 years to 35 years. The reason for this, he said, was that the Kenya Regiment would be a full-time force.

Appointments

It was suggested that the members of the Kenya Regiment should be appointed by the Government, and that as a result the military and police should be subject to the organization of the Colony in the event of internal disturbances.

Choose THE HORSE

Choose THE HORSE. A joy to the palate. It is not a so distinctive, its aroma and bouquet so satisfying. Then it is always soft and smooth to the palate, always soft, always easy to sip, a splendid beverage. This virtues result from extraordinary care in selecting the choicest whiskies and from patience in aging in wood and unusual skill in the blending and "mellowing" of the whisky.

KENYA'S CONTRIBUTION TO IMPERIAL DEFENCE

It is a fact that Kenya has been contributing to the defence of the Empire since the outbreak of the Second World War. The Kenya Government has been active in providing the necessary resources for the defence of the Empire.

Railway Report

The Kenya Government has announced that it will be contributing to the cost of the railway system in the East African region. This contribution will be in the form of a loan to the railway authorities.

Public Opinion

A recent survey of public opinion in Kenya has shown that the majority of the population is in favour of the Government's policy of contributing to the defence of the Empire. This is a reflection of the loyalty and patriotism of the Kenyan people.

Public Health

The Kenya Government has announced that it will be contributing to the cost of the public health services in the East African region. This contribution will be in the form of a loan to the public health authorities.

Public Works

The Kenya Government has announced that it will be contributing to the cost of the public works in the East African region. This contribution will be in the form of a loan to the public works authorities.

POWERS OF LOCAL GOVERNMENT COUNCILS

(Continued from page 13)

The powers of local government councils in Kenya are defined by the Local Government Act, 1947. These powers are divided into two main categories: administrative and financial.

The administrative powers of local government councils include the power to manage the local government's affairs, to maintain the public health, and to provide for the education of the children of the area.

The financial powers of local government councils include the power to raise money by rates, to borrow money, and to receive grants from the Government. These powers are subject to the approval of the Government.

The Local Government Act, 1947, also provides for the establishment of a Local Government Finance Commission. This Commission will be responsible for the distribution of the Government's grants to the local government councils.

The powers of local government councils in Kenya are therefore extensive and important. They enable the local government councils to manage the local government's affairs and to provide for the needs of the local community.

THE DEVELOPMENT OF NATIVE AGRICULTURE

The agricultural work in the north is conducted on the system of cultivation of cotton and wheat throughout the district. It has been reported that in the north the work is being done in a very different way from that in the south. With the advent of the motor car and the motor bus, the people in the north have been enabled to get to the market for their produce much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price. The people in the north are also able to get their produce to the market much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price.

League Service

The League of Nations has been set up in the north. This has enabled the people in the north to get their produce to the market much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price. The people in the north are also able to get their produce to the market much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price.

Another important point is that the people in the north are now able to get their produce to the market much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price. The people in the north are also able to get their produce to the market much more easily than in the past. This has enabled them to sell their produce at a higher price and to buy their necessities at a lower price.

Bill Observance

STOMACH PAINS THAT 'CUT LIKE A KNIFE'
The stomach pains that cut like a knife are a common complaint. They are caused by indigestion and are often accompanied by heartburn and flatulence. The best way to relieve these pains is by taking a course of treatment with a powerful stomachic. This will help to restore the normal function of the stomach and to prevent the recurrence of these painful attacks.

THIRTY-FIVE ENTRANTS
J. ENGLAND'S "COME BACK"

(Continued.)
The Ladies Open Tennis Championship was held at Rumuruti over the weekend, and was a great success. Over 50 entries were received. The standard of tennis particularly in the semi-finals, was very high, and some very close contests were witnessed. In the semi-finals of the Ladies' Singles, J. England and K. Cunningham were particularly noted for 10-8 in the last set, while the final between J. England and K. Cunningham was perhaps one of the finest singles seen in Kenya for many years.
England staged a remarkable come back in the fourth set, when Cunningham led by two sets to one and five games to one.

The Men's Doubles. Final between England and Oates and Cunningham and Campbell went to the full seven sets and some fine rallies were witnessed.
In the final of the Mixed Doubles, Campbell-Murray and Miss Marmaduke Kay Krayer and Mrs. Collington in very close final, where Miss Marmaduke showed some very fine net play, the final score being 6-7, 7-5.

RAILWAY GOLF
Graham's Good Score in Monthly Cup
(Continued.)
The monthly golf competition of the Railway Club, which was played on Saturday and was won by W. Graham with a net score of 66, has now been concluded and it is to be congratulated on returning such a high standard of golf.
On Sunday the Railway Club entertained a team from Turak and on the previous day a great success in a victory for the home side. The courtesy of the Railway course has been extended to members of the Royal Nyanza Golf Club for their Saturday and on Saturday the Irish Society's meeting, which will be held on the Royal Nyanza course.

FRANCO'S GRIP TIGHTENS ON MADRID

GOVERNMENT'S DESPERATE DEFENCE

Against Force of 32,000

CAPITAL'S DEFENDER VISITS VITAL NORTH EAST SECTOR

With 32,000 Insurgents, supported by aircraft and tanks creeping down Guadalajara, the Government have being reinforcements into the battle and General Miaja himself has left Madrid and is visiting the north east front.

The Government claim that they have consolidated defensive positions and the Insurgents estimate that their advance troops are now within 15 miles of Guadalajara. If the city falls then will be the end of an era, because the advance guards of the Insurgents from north east and south east of Madrid.

The situation is admitted by Government to be serious. A message received late yesterday afternoon stated that the Insurgents had penetrated to within 25 miles of Espanosa on a ten mile front and was within 12 miles of Guadalquivir. The advance was clear of the Guadarrama mountains and the mountainous unit and severely was able to move rapidly in the face country.

The Insurgents expected shortly to storm or surround Guadalajara.

EUROPEAN VOTERS' REGISTER MORE TIME WANTED FOR COMPIATION

Council Debate

"HALF COUNTRY WOULD BE DISENFRANCHISED"

It was revealed in Legislative Council on Wednesday that European Elected Members were perturbed to find that the application of the new Legislative Council Ordinance, now in force, necessitated the completion of a new European Voters register on which the General Election eleven months hence would be fought.

Members expressed that the time was not ample for a proper completion and that unless the Election was permitted to take place on the old roll at least half the European population would find itself disenfranchised.

Government readily agreed to the appointment of a small committee which will examine the position with a view to meeting European Members' wishes in the matter.

Election Next Year

In Legislative Council on Tuesday the Member for Nairobi North said: "In implementing the Ordinance of 1936, the Government has not provided for the nomination and election of the Governor and Protector of Kenya, No. 26 of 1936, can be made to work in the existing registers of Voters which have been compiled in a small of many years' work and no unnecessary anxiety should be made to force any one qualified to have their names inserted in the Roll of Voters to nominate themselves by again filling up Form A."

THE CHURCH IN RUSSIA

Mr. H. A. Finlay, M.P., said that the Russian Church has been a very important factor in the development of the country. He mentioned that the Russian Church is the largest in the world and that it has played a significant role in the history of the country. He also mentioned that the Russian Church is a very important part of the Russian people's life and that it has been a great source of strength and inspiration for the Russian people.

Spring in Germany

On the day writing to me from his Excellency and Lady Brookes-Pollock, who is the Acting Governor of Kenya, I received a letter from Mrs. Wood, who is the wife of the Acting Governor. She mentioned that she was very happy to hear from me and that she was looking forward to seeing me in Nairobi.

CONGAL WEATHER

Is it Followin' an Old Precedent?

What is a normal year? Is it when every farmer just a little bit of weather at the crucial moment, or is it when the majority of that weather is not there? Under the latter condition, the weather is not normal. It is a question of whether the weather is what it should be or what it is.

The Truth about Germany CONVERSATION PIECE

Dr. Goebbels and his associates

This is the second part of an article by Mr. K. S. Robinson, who was, until recently, the "Morning Post" correspondent in Berlin. Mr. Robinson was expelled from Germany for transmitting news which did not meet with the approval of the German Government.

GERMANY'S BIG THREE.

A few weeks ago the poster of a charge of the Berlin Staff in the "New York Times" and "The New York Herald Tribune" led to a discussion of "Hitler's" life. "Hitler's" life was a very interesting one, especially as regards his early years, his education, his political views, his personality, his habits of life, his habits of work, his habits of thought, his habits of speech, his habits of action, his habits of thought, his habits of speech, his habits of action, his habits of thought, his habits of speech, his habits of action.

The building house the Ministry for Propaganda and National Enlightenment, and in one of the desks of that brilliant Minister of State, Dr. Joseph Goebbels, the newly-constituted short-wave radio program for reception by German homes in America, and the important connection with the Ministry of Propaganda and National Enlightenment, and in one of the desks of that brilliant Minister of State, Dr. Joseph Goebbels, the newly-constituted short-wave radio program for reception by German homes in America, and the important connection with the Ministry of Propaganda and National Enlightenment.

THE first time I saw Goebbels was in the late autumn of 1934, when he was Minister of Propaganda and National Enlightenment. He was a tall, thin man with a very high forehead and a very serious expression. He was dressed in a dark suit and a white shirt with a dark tie. He was standing in a room with a high ceiling and a large chandelier. He was looking at me with a steady gaze and a slight smile.

OPPOSITE the Vice-Chancellor of the Reich, Herr Hitler, I saw Dr. Goebbels in the Ministry for Propaganda and National Enlightenment. He was a tall, thin man with a very high forehead and a very serious expression. He was dressed in a dark suit and a white shirt with a dark tie. He was standing in a room with a high ceiling and a large chandelier. He was looking at me with a steady gaze and a slight smile.

Gas Drill—a party of German girls in gas masks. A woman of competent appearance, she was talking to me with a steady gaze and a slight smile. She was wearing a dark coat and a gas mask. She was standing in a room with a high ceiling and a large chandelier. She was looking at me with a steady gaze and a slight smile.

Dr. Goebbels

THE first time I saw Goebbels was in the late autumn of 1934, when he was Minister of Propaganda and National Enlightenment. He was a tall, thin man with a very high forehead and a very serious expression. He was dressed in a dark suit and a white shirt with a dark tie. He was standing in a room with a high ceiling and a large chandelier. He was looking at me with a steady gaze and a slight smile.

ONLY a few weeks ago I walked into an extraordinarily large hall in Berlin, designed to show school teachers how to manage their pupils in a modern school. The hall was filled with rows of desks and chairs. The walls were covered with posters and signs. The atmosphere was very formal and serious.

HOW effectively Dr. Goebbels has carried out the job assigned to him by the Führer, is a question that is being asked by many people in Germany and abroad. The Ministry of Propaganda and National Enlightenment has been very successful in its work. It has managed to create a very strong and unified public opinion in Germany. It has also managed to spread its influence to other parts of the world.

Many people are naturally asking questions about the Ministry of Propaganda and National Enlightenment. They are wondering how it is possible for a single man to have so much influence over the minds of so many people. They are also wondering about the methods that are used to achieve this end.

Expelling a foreigner from the Reich, the German Government has a long and distinguished record. It has expelled many people who were considered to be a threat to the security of the Reich. This has been done in a very fair and just manner. The German Government has always been open to the world, and it has always been willing to accept the best that other nations have to offer.

Herr Hitler

THE first time I saw Hitler was in the late autumn of 1934, when he was Führer of the German Reich. He was a tall, thin man with a very high forehead and a very serious expression. He was dressed in a dark suit and a white shirt with a dark tie. He was standing in a room with a high ceiling and a large chandelier. He was looking at me with a steady gaze and a slight smile.

EVERYBODY who has studied the life of Herr Hitler will be struck by the fact that he was a very unusual man. He was a man of great energy and great determination. He was a man who was willing to do whatever it took to achieve his goals. He was a man who was not afraid to take risks.

He visited the Five City District and the Meinel territory in the late autumn of 1934. He was a tall, thin man with a very high forehead and a very serious expression. He was dressed in a dark suit and a white shirt with a dark tie. He was standing in a room with a high ceiling and a large chandelier. He was looking at me with a steady gaze and a slight smile.

As Herr Hitler's remarks in "Mein Kampf," the book he wrote in 1925, he said that he was a man of great energy and great determination. He was a man who was willing to do whatever it took to achieve his goals. He was a man who was not afraid to take risks.

MANY persons think that Herr Hitler was a very unusual man. They are wondering how it is possible for a single man to have so much influence over the minds of so many people. They are also wondering about the methods that are used to achieve this end.

STEEDMAN'S POWDERS

The African Woman and her Place in the Social Unit

Mrs. Owen's Appeal for Sympathy

(A Talk given by Mrs. W. E. Owen at the Annual General Meeting of the East Africa Women's League.)

Mrs. Owen of Kampala has been working among African women for 14 years. She told the meeting some of her experiences and findings with regard to the position and the possibilities of African women.

To begin with she emphasized the matter of that woman are doing in the world today. Men are more conservative, women more ready to plan for the future and to make social experiments.

What will Africa be when the African women have begun to make her contribution to the scheme of things?

The old prejudice that women were fit for the power of the day was not to be put aside. Many of them are doing things in public, in fact, and are thinking things out from the woman's point of view, but do not realize the possibilities of the domestic and domestic of women's life.

The old prejudice that women were fit for the power of the day was not to be put aside. Many of them are doing things in public, in fact, and are thinking things out from the woman's point of view, but do not realize the possibilities of the domestic and domestic of women's life.

"I would say to you thinking women," she continued to speak, "the mother of the modern African woman who has begun to think of the world, and are being led up to old customs.

Friendly Meetings

"A year ago when I returned from England I began to organize meetings which we started in July. There are now about one hundred meetings being held in small Christian communities all over Kampala, and I think that we have supplied a need which has been felt for some time in the city.

After lately looking on polygamy and the status of women as a matter of course, I have now come to the conclusion that the woman's position is a matter of course, and I have now come to the conclusion that the woman's position is a matter of course.

At these meetings they follow an agenda. They start with a hymn followed by a prayer, and then listen to a paper reading which is followed by a hymn.

Work, Work, Work!

Finally there is the great problem of women's work. In preparing things the woman's work is heavy, often beyond her power. She was busy from morning to night, grinding, cooking, carrying, washing, mending, sweeping, and so on.

She concluded by appealing to the European women at the meeting for their sympathy with African women. She urged an attempt to favor their position. We cannot expect things to change unless we have hard-working, efficient, and honest women.

MY FAVORITE POEM

(Sent in by A. G.)

Lo, some we loved, the loveliest and the best
That time and fate of all our vintage prest,
Have drunk their cup a round or two before,
And one by one crept silently to rest.

Ah, make the most of what we yet may spend
Before we too into the dust descend;
Dust into dust, and under dust, to lie,
Sans wine, sans song, sans singer, and—sans I!

Myself when young did eagerly frequent
Doctor and Saint, and heard great argument
About it and about, but evermore
Went out by the same door as I went.

From OMAR KHAYYAM.

The Sheep Industry

Some weeks ago, Mr. W. B. Pacey wrote an article published in these columns...

Now, regarding the problem here, it is not a question of the woolly creature...

It is the sheep mortality which has been the cause of the present situation...

It is well known that the sheep industry in Kenya is a very important one...

There are many reasons why the sheep industry in Kenya is not as profitable as it could be...

One of the main reasons for this is the lack of adequate veterinary services...

Another major problem is the lack of suitable breeding stock...

It is therefore essential that the Government should take steps to improve the industry...

The Agricultural Industry of Denmark

Remarkable Development of Co-Operation

PLANNING WHICH HAS LED TO SUCCESS

By P. Arnold Petersen

Denmark is a small country with a population of 2,500,000...

In 1940, Denmark was almost 100 per cent dependent on foreign supplies...

To meet the growing demand for food, the Government decided to plan the production of food...

The plan was to produce 100 per cent of the food requirements of the country...

The success of the plan was due to the co-operation of the farmers and the Government...

The co-operation was based on the principle of mutual aid and common interests...

The result of the plan was a remarkable increase in the production of food...

The success of the plan was due to the co-operation of the farmers and the Government...

A typical Danish Landowner

has been largely both as a farmer and as a landowner.

Germany was hit by the Great Depression in 1929...

The Danish farmer was not so much affected by the depression...

By 1930, 70 per cent of the total area of Denmark is under arable crops...

MORE ABOUT WATER SUPPLIES Round The Bridge Table ON FARMS

Being a Broadcast Talk given by Mr. A. Bradley, on March 11th in the evening at the Farmers' Meeting at the Royal Agricultural and Horticultural Society of Kenya with the co-operation of the Department of Agriculture and Messrs. Cable and Wireless Ltd.

It is not the idea of this talk to give you a full course of instruction in the art of water supply on farms. It is only to give you a general idea of the various methods of water supply and to point out the various factors which enter into the selection of a particular method.

The Origin of Underground Water
There are two sources of underground water. The first is the rain which falls on the ground and soaks into the soil. The second is the water which comes from the sea and soaks into the ground.

The Nature of the Soil
The nature of the soil is a very important factor in the selection of a water supply method. A soil which is very porous will allow water to soak into it very easily. A soil which is very hard will not allow water to soak into it very easily.

Surface Infiltration of Water
There are a number of factors which enter into the selection of a surface infiltration method. These are the nature of the soil, the amount of water which is available, and the cost of the method.

The Underground River
The underground river is a very important source of water. It is formed by the water which soaks into the ground and flows through the rocks and soil. It is a very constant source of water and is not affected by the seasons.

Various Methods
There are many different methods of water supply which can be used on farms. These include surface infiltration, underground rivers, and wells. Each method has its own advantages and disadvantages and the farmer should choose the one which is best suited to his land.

There are many different methods of water supply which can be used on farms. These include surface infiltration, underground rivers, and wells.

The Many Advantages of Dams
A dam is a very important structure which can be used to store water. It has many advantages, including the fact that it can be built in a very short time and it can be used for many different purposes.

Well Drilling and Lining
Well drilling and lining is a very important method of water supply. It involves drilling a hole into the ground and lining it with a material which will prevent the water from leaking out.

The Protection of Natural Springs
Natural springs are a very important source of water. They should be protected from pollution and from the effects of the seasons. This can be done by building a dam or a well around the spring.

Market Report
The following Market Report has been prepared by Messrs. Dalgety and Co., Ltd. It gives a summary of the prices of various commodities in the market.

Water Supply Methods
There are many different methods of water supply which can be used on farms. These include surface infiltration, underground rivers, and wells. Each method has its own advantages and disadvantages.

The Selection of a Water Supply Method
The selection of a water supply method is a very important decision. It should be based on a number of factors, including the nature of the soil, the amount of water which is available, and the cost of the method.

Conclusion
Water supply is a very important part of farming. It is essential for the growth of crops and the health of the animals. Farmers should choose the best method of water supply for their land.

The Small Dam House

The Small Dam House is a very important structure which can be used to store water. It has many advantages, including the fact that it can be built in a very short time and it can be used for many different purposes.

Construction of a Small Dam House
The construction of a small dam house involves a number of steps. These include the selection of a site, the excavation of a foundation, and the construction of the walls and roof.

Use of a Small Dam House
A small dam house can be used for many different purposes. It can be used to store water for irrigation, for drinking water, or for other purposes.

Advantages of a Small Dam House
There are many advantages to building a small dam house. These include the fact that it is a very simple structure to build and it can be used for many different purposes.

Conclusion
A small dam house is a very important structure which can be used to store water. It has many advantages and is a very simple structure to build.

A NEW ERA OF PROSPERITY

THE PEOPLE OF THIS COUNTRY are marching happily forward again. Agriculture, the great engine that builds the nation, is booming again. It is carrying the country on to higher and higher levels of accomplishment.

It is the last time we are leaving behind a cloudy, rainy day in the full history of East Africa as only a year ago. We shall remember, but we shall be too busy to lament. We shall remember, but we shall be too busy to lament. We shall remember, but we shall be too busy to lament.

Thousands of men and women are rekindling the spirit of the pioneer. Agriculture and industry have almost a splendid year, so we can be sure that for greater things are ahead.

MR. STANLEY BALDWIN TO RETIRE

[LONDON BUREAU'S AGENCY.] London, March 10. It is now definitely though unofficially stated that Mr. Stanley Baldwin will retire from the Premiership immediately after the weekend with his resignation.

The date of his retirement will be about May 26 as the Premier's engagement for the present week is full including a dinner with their Majesties on May 25.

Political correspondents suggest that Mr. Chamberlain will take an earldom. It is considered possible also that Mr. Ramsey MacDonald will go to the Chamber of Lords.

It is taken for granted that Mr. Chamberlain will be the new Premier and both Sir Samuel Hoare and Mr. Runciman are mentioned as possible Chancellors.

THE NAIROBI MARCH RACE MEETING

JOYOUS GARD WINS THE CAMBRIDGESHIRE

Hand conditions prevailed for the opening day of the Nairobi March race meeting. After the usual preliminary going was very good, while a heavy breeze made the going very considerable for the spectators. The Cambridgeshire was very good, although there was a great deal of misty weather.

Fields were excellent, there being few windings during the afternoon, including in the first two races, there being no wind. The Maiden Nursery Plate for which there was almost no wind, proved a good one for the day, providing a good view of the race.

The Maiden Nursery Handicap was won by Joyous Gard, who led from the start. The race was very close, but Joyous Gard was too good for the field.

REGULATING PASSION FRUIT INDUSTRY

ELECTED MEMBERS URGE CAUTIOUS PROGRESS

General support of the principle underlying the Passion Fruit Bill which has for its object the regulation of the export and the marketing of the products of passion fruit, was forthcoming in Legislative Council on Monday when the Bill passed its second reading and was sent to a Select Committee.

Some members, however, expressed anxiety as to what appears to them to be a somewhat hasty and untried method of proceeding and suggested that the final measure should be deferred until such time as all the interested and affected parties had been able to make their representations. Details of the Bill were also criticized.

The Attorney General who accepted responsibility for the prompt appearance of the Bill, pointed out at the time that the Government of Kenya was aware of the fact that the marketing of passion fruit involves considerable difficulties. The Bill is intended to regulate the export and marketing of passion fruit products. It is intended to regulate the export and marketing of passion fruit products. "OPENLY FIGHTING AGAINST ITALY"

SWEEPING ALLEGATIONS BY MADRID DEFENDER

Blackshirts Near Guadalajara

GOVERNMENT CLAIM SUCCESSFUL COUNTER ATTACK

Madrid, March 12.—We are openly fighting against Italy," declared General Miaja, commanding Madrid defenses today. He officially declared that there are several Italian blackshirt divisions and one Italian regular army division on the Guadalajara front, commanded by Italian Generals under supreme command of General Muzini.

The Government claim that in a counter-attack on the insurgent positions between Brihuega and Valdearenas they regained ground they had lost and inflicted terrific losses on the insurgents.

The insurgent headquarters at Salamanca declared that despite claim success and freezing cold the insurgent push to the south is continuing.

After the capture of Brihuega two insurgent columns went on north-west and south with the object of linking up with the insurgents in the Guadarrama mountains on one flank and Toledo on the other.

From Abyssinia to Spain

Madrid, March 12.—The insurgent offensive in the north-east has not been so successful as they left Madrid according to a Valencian statement. There is an artillery barrage put on throughout the night by the Government on the road approaching Guadalajara in an attempt to stop the insurgents. Insurgent tanks were also said to be in the area.

According to an announcement by General Quiroga, 60,000 men from Seville, 50,000 men from Madrid, amounting to 100,000 men, were loaded from the steamer "Maracanthine" which had been captured by the insurgents and was now bound for Ferrol harbor.

General Quiroga added that the battalions would be used against the insurgents.

Some 200,000 Italian prisoners in Valencia are reported to have been repatriated. The names of foreign journalists who had fled to Madrid were also reported to have been repatriated.

U.S. New Protest to Germany

AMERICA'S TURN

Washington, March 11.—The American government in Berlin has been instructed by the State Department to protest to the German Foreign Office regarding the recent German attitude towards the United States.

£100,000,000 For The British Navy

WORK OF DECADE TO BE DONE IN TWO OR THREE YEARS

The Best Possible

London, March 11.—A striking description of Britain's efforts to reorganise the Navy was given by Sir Samuel Hoare, introducing the Navy Estimates in the House of Commons this afternoon.

He said that the Navy was forced, owing to past inactivity to telegraph into two or three years what normally would be carried out in a decade. Now the House was asked to approve expenditure of over £100,000,000 and a construction programme of eighty ships in all.

The Admiralty were determined to avoid any unnecessary delays.

Protecting Trade Routes

After explaining the major monetary value of the Air Force and the Navy, Sir Samuel stated that the Admiralty saw the War had concentrated its attention upon surface warfare, whereas what was needed was to adapt the construction of ships, naval strategy and tactics to the new situation. There was no coping of old models or foreign ships.

The design of every one of these ships bears the impress of the tempo set by the progress of the new war, he said.

DEFENDING CONGO

The Prime Minister, Mr. Stanley Baldwin, announced that the King had authorized him to visit the Belgian Congo in person.

The Premier said that he had just returned from the Congo and that he had the best of news to bring back to the British people.

He stated that the situation in the Congo was very satisfactory and that the British Government was doing everything possible to assist the Belgians in their struggle against the Germans.

ALF DEFENCE

He had no desire to undertake the formidable task of explaining the details of the new defence programme to the House of Commons.

He stated that the Government was determined to do everything possible to ensure the safety of the British Empire and that he would be glad to discuss the details of the programme with the members of the House.

ROYAL PARTY

The first party given by the Majesty of King George VI. will be held on Monday, March 12, at the Royal Palace in London.

The party will be attended by the members of the Diplomatic Corps and their wives and will be a very important social occasion.

MONEY MARKET

London, March 12.—The money market was quiet today and the rate for three months' bills was 4 1/2 per cent.

The rate for six months' bills was 4 3/4 per cent and the rate for twelve months' bills was 5 per cent.

EMPIRE AIR DELAY

Full Service Not Before June

London, March 11.—The full flying boat service between Britain and South Africa due to begin on April 1 has now been postponed until June 1, owing to delay in the delivery of the new Empire air service.

The service will consist of four flying boats which will be progressively added to the service.

The temporary service will be operated by the Empire Air Mail service by air between Khartoum and Cairo.

FREE FIGHT IN SENATE

Faces Slapped at Brussels

London, March 11.—The House of Commons today will open on May 14, will face a free fight on the subject of the proposed constitutional questions at the third trade shipping air conference and allied questions.

The debate agenda will include an examination of the general situation in the world and the progress of the conference.

GERMAN REPLY

Not Expected to be Helpful

Berlin, March 11.—Although the German reply to the British proposal for a trade shipping air conference is expected to be helpful, it is not expected to be helpful.

The German reply is expected to be helpful, but it is not expected to be helpful.

CONSTITUTIONAL QUESTIONS

The Imperial Conference will open on May 14 and will discuss constitutional questions, trade shipping and communications.

The agenda will include an examination of the general situation in the world and the progress of the conference.

"IN FOR ERA OF PROSPERITY"

(Continued from page 8.) There seems to me to be a certain amount of optimism about the future of the country. The fact that the Government has decided to open up the country to foreign investment is a sign of confidence in the future of the country. It is a sign that the Government is confident that the country will be able to attract foreign investment and that the country will be able to develop and prosper.

THE RAZOR AT NAURU

Annual Meeting of the Branch RECORD OF PROGRESS [Continued from page 8.] The annual general meeting of the Nauru Branch of the Nauru Chamber of Commerce and Industry was held on the 11th inst. at the Nauru Hotel. The meeting was presided over by Mr. J. J. Thomson, Vice-President for 1935. The meeting was attended by a large number of members and guests. The minutes of the previous meeting were read and approved. The Chairman, Mr. J. J. Thomson, reported on the work of the branch during the year. He stated that the branch had held several meetings and had been successful in securing the attention of the Government to the needs of the Nauru community. He also stated that the branch had been successful in securing the attention of the Government to the needs of the Nauru community.

AGRICULTURAL ADVANCES

Further Step in Winding Up Scheme In Legislative Council the Treasurer reported that the Agricultural Advances Decree 1935, the scheme of opening up further advances of the authorized appropriation of £100,000, approved by the Council on 12th December 1935 and £200,000 by motion dated May 10, 1936, £6,000 by motion dated December 1935 and £200,000 by motion dated November 26, 1935. The Treasurer explained that this was a further step in the winding up of the scheme. Four cases were mentioned in the present motion. If the motion were adopted the winding up of the scheme would be completed by the end of 1936.
