DR. INGE COMES BACK. Comments Cheerful Thinking. ("Franchise" commissionary).

After a absence of two and a half years, the voice of Dr. Inge was heard again in Paul's Cathedral last night.

A great congregation filled the Nave to hear their former Dean. When he had preached and the evening service had ended, they still waited.

Dr. Inge has no many people to see. He brought from his retirement the same wish his letters thought, taking his text from Proverbs: "For as he thinks to be a fool, he is a fool."

He said, "I wish in the long run to see a church which is a struggle against mental depression, and against the barrenness of thought which might lead to 'nervous overwork'."

## INTERNATIONAL CONFERENCE TO DISCUSS WORLD PEACE?

### GERMANY IN FAVOUR OF PROPOSAL

#### BRITISH SOCIALIST LEADER'S TALK WITH HERR HITLER

#### Encouraging Outcome

HOPE THAT PRESIDENT ROOSEVELT WILL TAKE THE NECESSARY STEPS

Herr Hitler and Mr. George Lansbury, veteran British Labour leader, have had a two hours talk on world problems.

In a statement approved by the Fuehrer, and issued to the Press immediately after the meeting, it was made clear that Germany would be ready to take part in a world conference aimed at preserving the peace of the world.

Mr. Lansbury hopes that the conference will be called by President Roosevelt and that it will discuss means for removing the causes of war and the present armaments race.

France welcomes the proposal and Italy, too, is prepared to participate in such a conference—so long as it is not concerned in any way with the League of Nations.

#### An Approved Statement

Germany is ready to participate in an international conference, Mr. Lansbury is reported to have said in an interview with Herr Hitler and Mr. George Lansbury, who had come to Berlin for a "peace talk" conference.

A communique approved upon by Herr Hitler and Mr. Lansbury was issued when the interview was over, stating: "Germany is ready to attend a conference and participate in a united effort for establishing economic cooperation and mutual understanding among the nations of the world."

President Roosevelt is the head of another great country, and we have no calling such a conference."

Nothing New  
Herr Hitler's official circles make no mention on the Lansbury-Hitler talk. The communique which Herr Hitler has authorized Mr. Lansbury to give to the foreign press seems to be generally regarded as merely a slight statement of the standpoint which Herr Hitler and his agents take up, namely that Germany is ready to further the cause of international peace and economic co-operation provided that other political conditions are in no way imperilled.

The communique was issued after Herr Hitler had been in conference with Herr Hitler for more than two hours.

Mr. Lansbury told the Press that he had already asked President Roosevelt to call such a conference which would deal with the armaments race, international economic cooperation, raw materials, operation of markets etc.

He said he wanted such a conference to discuss the removal of the causes of war, that is, to consider the reasons why such a country is ready to take part in such a conference, and to see how to get to be done to remove the causes of war.

Mr. Lansbury Broadcasts  
In a broadcast speech last night Mr. Lansbury said he had been told by Herr Hitler that the British Government would like to see the details of their government plan. He said he was convinced that the British Government would like to see the details of their government plan.

He hoped the British Government would be able to do so, and that the British Government would be able to do so.

Mr. Lansbury said he had been told by Herr Hitler that the British Government would like to see the details of their government plan.

A special section is devoted to the results of the Lansbury-Hitler conference.

Mr. Lansbury

to examine German Colonies under mandate in the latest trade figures. A footnote to Germany's trade with the British Empire says 'includes German Colonies.' The figure shows considerable increase in German imports and exports.

#### The British Import

The results of Mr. Lansbury's interview will be examined by the British Government, but it is believed that the German Government will be most careful preparation would be set on foot, and that such a conference should only meet with the clearest emergency on all sides of what it was hoped to accomplish.

The "Daily Herald" (Labour) says: "The real problem at the moment is not the assembly of such a conference. It is to get international relations to such an improved point that the conference, having just been set on foot, will be a success."

#### Welcomed by France

France welcomes both the substance and tone of the communique and the fact that Germany might be called by President Roosevelt.

#### "1666 AND ALL THAT."

This is Herr Hitler's birthday. He is 49 today.

Last night Dr. Goebbels paid a tribute to the Fuehrer in a broadcast speech. He said Herr Hitler has a phenomenal memory and knows most of the important dates in the history of many countries. He could sketch a map of the world from the Dresden museum. He knows the language of all the important battles.

He attacked down his opponents and fought them, if the battle was inevitable, with the greatest skill and highest courage.

President Roosevelt, French politicians to take part in any such conference was denied. Foreign Affairs yesterday by the Foreign Minister, M. Delbosque, said that France was always ready to take part in any negotiations on condition that they are not contrary to French obligations and threaten nobody.

And Italy  
The communique has caused a similarly favourable impression in Rome, because, if the Conference is called, it must be dominated by the League of Nations very substantially.

Some attention has been given to the views of the Lansbury-Hitler communique, to the effect that the British Government is ready to take part in a world conference.

There is a strengthening impression here that something is being done to help upon the War Debt and that proposals for a settlement are being considered.

Yesterday Senator Woodbury announced that he had been asked to go to the United States to discuss which had not yet settled their War Debts. He said that he had been told that a settlement was being considered.

### Britain's Budget

#### Increase of Threepence in Income Tax

#### NEW TAX ON BUSINESS PROFITS

THREEPENCE IN THE POUND ON INCOME TAX. A NEW TAX ON PROFITS OF ALL BUSINESSES WHERE THESE PROFITS EXCEED TWO HUNDRED POUNDS.

These are the main proposals of the British Budget for the coming year, which was presented this afternoon. The Chancellor now speaks before a crowded house.

In his review of the past year Mr. Chamberlain said that, even with expenditure on redemption of debt taken into account there would have been a surplus of more than £2,000,000 had it not been for defence expenditure.

The Chancellor is budgeting for a total expenditure of £262,846,000 and a revenue, without additional taxation, of about £15,000,000 less.

He estimates £12,000,000 more from Customs and Excise Duties—which were above expectations last year—and expects increases in Income Tax, Surtax and Stamp Duties.

There would be no changes in the allowances connected with income tax, but the threepence increase on the standard rate would bring in £13,000,000 in the coming year and £15,000,000 in a full year.

The tax on business profits would be a national defence contribution based on increase of profits over those of earlier years.

The rate of tax will vary from one-fifth to one-third of the growth of profits.

#### "NO APPREHENSIONS"

Mr. Chamberlain began his review of the figures for the past year and said that, unfortunately, the country has not been able to escape from the economic depression to which we are now subjected.

He said the deficit on the past year was £13,000,000, but when allowance was made for the redemption of debt was only £1,000,000. Even with a half million pounds more in surplus, a saving of £1,000,000 had not been for the deficit.

He explained that under the existing laws of taxation he would be left with a deficit of £13,000,000 and this would have to be covered by new taxation. There would be no change in the allowances connected with Income Tax, but the standard rate would be increased by threepence. In the coming year this would produce £13,000,000 and in a full year £15,000,000.

He said that it was proposed to include the system by which certain classes are exempt from taxation, and also brought back, re-arranged, at a lower rate.

In regard to the tax on business profits, Mr. Chamberlain said that it was intended by this means to make a national defence contribution to the Government, and that all persons engaged in business of this kind would be liable to an increase of profits over those of earlier years.

Chancellor's Optimism  
He announced the application of the tax on made a national defence contribution to the Government, and that all persons engaged in business of this kind would be liable to an increase of profits over those of earlier years.

#### Liverpool Exchange Shows Sharp Rise

(LONDON MARKET'S AGENT.)  
London, April 20.  
The fears of a slump in wheat, which existed over the week-end, proved yesterday morning to be unfounded.

When the Liverpool Corn Exchange opened there was an immediate rise in wheat prices a cental and the day closed at three pence halfpenny above Saturday's closing figure.

### MINERS' STRIKE THREAT INCREASES

#### BRITISH LABOUR DISPUTES DEVELOPING

#### G.P.O. Workers' Grievance

#### MOTOR TROUBLES IN CANADA NO NEARER SETTLEMENT

Only in Britain is there any marked change in the industrial unrest that is world wide.

A miners strike, arising from the Nottingham union dispute, may shortly take place, and there are new disputes involving the London Passenger Transport Board and the Post Office.

The association of Canadian and American motor workers employees is still holding up efforts to settle the Canadian strike.

#### Union Wins in Wales

(LONDON MARKET'S AGENT.)  
London, April 20.  
Will there be a miners' strike in Britain?

Most people are anxious to know the situation which has arisen from the party's local dispute in Nottingham, which the union now feels supported by a vote which is a rival of the powerful Miners' Federation of Great Britain. It will be remembered that the proposal that the two unions should amalgamate—which the union has refused to do—has been a source of contention since the amalgamation of 1900-1905. By starting all this they have caused the union to be in a very weak position.

Duce's Approval in 1932

CANDID ADMISSION OF INSINCERITY OF LATER "NEGOTIATIONS"

In December 1934, Signor Mussolini finally decided that the Italian attack on Abyssinia should begin in October, 1935.

This is revealed in a remarkable book by Marshal De Bono the English translation of which has just been published.

It shows quite clearly that all the negotiations and conversations and conferences which followed were in fact just nonsense. The Duce had his tongue in his cheek...

**CORRESPONDENCE**

**In Defence of Kenya**  
The Editor does not accept responsibility for the views expressed in these columns and is not responsible for the names and addresses of the writers. It is a guarantee of good faith. It is also essential to receive consideration.

**THE TRIBUTE OF A VIRTUOS**  
To the Editor, "E.A. Standard."  
—I have just scanned the "East African Standard" "They say" page, and I do protest against the publication of such a derogatory article, or mentally warped politician, or traitor, or to mention the dirty band of the press.

**What good purpose can be served by publishing a notice from the Little England press of Great Britain that perhaps your country is to be considered "not so good" as such an extent that in a spirit of fairness they will read, print, tell and let the truth as they see fit, ensuring the subject in question.**

**May I use one word to introduce the too liberal attitude of this paper?**  
I have read "The Land That We Inhabit." The enormous publicity given to this book is almost astonishing that it is the expression of but one person—one person who obviously had neither the power nor the resources of a great nation.

**I have visited Kenya twice.** The first visit was for health reasons after a long attack of flu. I read in "Nairobi" section by the late Mr. J. K. Hill, who had visited and investigated by the call of such a magnificent country. The night sky was fascinating, and did more to calm my nerves which were worn to a frazzle. In no other part of the world have I seen that blackish volcanic soil, a million miles away, points of view, pendant, swivelling mud, lay between it and me. The sky by day was beautiful, too, but without the mystery of the African night. Cloudless blue of unimpeachable depth, or in the heavy sun, the sky was a soft, white, billowy cloud, which gave and defined and opened all the blue, but vanished and the train came. But never in any hour of tormented rain was ever followed by brilliant sunshine and vivid blue sky.

**I was invited out to the Ngong Hills after dinner to listen to the silence and drink in the beauty of the gorgeous night. We looked at the stars in the "African Plains." My health improved, we went on safari for a week or two through delightful coffee plantations and farms, along the little valley, round Mount Kenya, along the road to the shores of Lake Victoria. Myself, and then back to Nairobi where, after another week or two, my health was completely built up, and I returned to England.**

**I returned to Kenya as a health resort.**  
Next year I wish returning to see...

To the Editor, "E.A. Standard."  
—Will refer to the letter in your correspondence column in last Friday's issue, signed by Mr. J. K. Hill, in which it is possible that I can throw some light on the subject.  
The first article of the Italian Constitution states that—  
"The religion of the Roman Catholic Church is the religion of the State, other religions are tolerated."  
It is the application of this Article of the Italian Constitution which I believe has provoked resentment of the people to result in Elopian of certain Protestant missionaries.

To the Editor, "E.A. Standard."  
—The letter dated 14th inst. which appeared in the East African Standard, dated 14th inst., signed by James Paul, about the question of wages of African civil servants is worth of serious consideration. The appropriate time has perhaps not yet arrived for the Government to consider the question of the wages of African civil servants.

## SECOND BRITISH SHIP RUNS THE BLOCKADE

NO SIGN OF MINES; SAFE ARRIVAL AT BILBAO

### Commons Debate

MR. LOYD GEORGE IS CONFIDENT LOYALISTS WILL WIN

A second British food ship has succeeded in running the Insurgent blockade of the north coast of Spain. It arrived safely at Bilbao and did not meet with any mines.

As a result insurgent waters are said to be more vigilant now in the neighbourhood of the port.

Bilbao again formed the subject of a debate in the House of Commons when the Government reiterated their reasons for warning British ships.

Mr. Lloyd George joined in the criticism of British policy and declared his confidence that the Spanish Government forces would win. He said both Germany and Italy realised this.

### The Spirit of Non-intervention

On the night of London, April 21, the Government made public the question of British ships being sent to Bilbao.

Mr. A. V. Alexander declared that the Government will adhere to its present policy or regard British ships, he contended, were no longer to be sent to Bilbao.

#### A Memorandum on Trade Licences

**CUSTOMS ANOMALIES**

**Early Sitting of Revision Board Urged**

Trade Licensing points liability on the Customs Revision Board was discussed at a meeting of the East African Traders' Association, Mr. Paul Kibuka, Chairman, presiding. The Commissioner for the Union of South Africa, Colonel F. D. Turner, attended. A letter out of the request of action, Mr. D. Newrick of the Board, explained the progress being made with the revision of the Board's work. The Commissioner's report was read and the Board's efforts to obtain the introduction of legislation to deal with the compulsory labelling of goods and bottles the contents of which are imported in bulk and cannot be inspected. It was pointed out that an extension of the Trade Bill would achieve the object.

**The Memorandum**

The meeting discussed at length a memorandum prepared by the Management Committee on the subject of the revision of the Board's work. The memorandum was presented to the Government.

The memorandum read: "It will be remembered that the revision of the Board's work was a joint Committee in November, 1935 with reference to the 1930 Ordinance, and that the Association adopted such amendments as it considered fit. The main points of the memorandum were that the Licensing Ordinance should be a Licensing Ordinance and not a Trading Ordinance and that certain provisions should be introduced to enable application for Licences to be made through some authority.

With the exception of two cases, the majority of the cases considered by the Board in the present 1937 Bill have to operate, in terms of 19 and 22, etc.

Clause 15. Any person holding a trading licence who is convicted of giving short change, short measure, or weight, or of not keeping proper books or accounts, or of any offence under the Ordinance, or of any Rule made thereunder, in addition to the penalty provided for in the Ordinance, shall be liable to have his licence cancelled.

Clause 16. A Licensing Officer may in his discretion refuse a licence to a person who has been convicted of an offence under the Ordinance, or of any Rule made thereunder, or who is an unlicensed bankrupt. If a Licensing Officer in exercise of the power conferred on him by this clause refuses to issue a licence he should be empowered to do so.

# Iran and the Imperial Conference

# CONVERSATION PIECE

It matters not how slowly it is written, if it be both honest and communicative.

## An Important Factor in a Common Defence Policy For the Empire

The Southern coast of Ireland from Cork Harbour to the Shannon estuary provides at least four great natural harbours which would in case of necessity afford secure shelterage for the fleet, and the Shannon-Transatlantic Air Station would be available for land planes. From these bases the Western and Southern approaches to Great Britain can be fully protected and secured by both air and sea, and the risk of air attack on the fleet considerably reduced.

It is therefore vital to British security that Ireland be secured to ensure access to Irish territory and harbours should Great Britain be at war with continental power. Such access would not doubt be secured by the fleet, but this is not to be overlooked for obvious reasons it may be assumed that this is not an event which would occur in case of dire necessity. Nor could it in such an event be as effective as an agreed convention.

The formation of a common defence policy for the Commonwealth is the most important problem which the forthcoming Imperial Conference will have to solve. Its solution depends not only on an agreed convention of plans and policy, but also complete cooperation between the Governments concerned. The most serious aspect of that problem concerns the defence and security of Great Britain, the heart and centre of government and power, and in this connection the strategic importance of Ireland cannot be ignored. As Mr. Lloyd George pointed out during the debate in the Irish Treaty in December 1921, the security of Great Britain depends on what happens "on this breakwater, this advance post, this front trench of Great Britain."

General O'Duffy, Leader of the Green Shirts or Irish Nationalist Organisation

By "Hibernicus"

THE Anglo-Irish Treaty of 1921 provided that until an arrangement has been made between the British and Irish Governments there shall be no change in the status of the Irish Free State. Under the terms of the Treaty the Irish Free State undertakes its own common defence, the defence of Great Britain shall be undertaken by the Imperial forces. It is also provided that in the event of a war with any other nation, the British Government and the Irish Free State shall be bound to maintain a common defence. It is also provided that in the event of a war with any other nation, the British Government and the Irish Free State shall be bound to maintain a common defence.

It is often said that Ireland is a change which is quite unnecessary. Above that there is also but to seek peace in the mainland. They are therefore of one with Great Britain in the maintenance of her foreign policy. It is all the more pitiable and ridiculous that they should be divided from her on internal issues. As Mr. O'Duffy has said:

Mr. de Valera, President of the Executive of the Irish Free State

Mr. de Valera reminded us on St. Patrick's Day, the first step towards real cordial relations between Great Britain and Ireland would be the frank recognition of the theory of the whole Irish nation.

Twenty Years Ago

The following extracts are taken from the "East African Standard" (Founded 1904) for the week ending April 21, 1917.

Methodical progress by the British troops in their advance on the Western Front is recorded this week, while the French have had a brilliant success in a strong attack over 40 kilometres of line, during which many prisoners, much war material and a number of guns have been captured. The above advance was reported already by the Standard in the issue of March 30th and in the Champagne area. In Macedonia General Maudio is harrying the fleeing enemy and his troops have inflicted further losses. There is also report from the Russian front and mine operations only have occurred in the Balkans.

In the East African campaign the unprecedented height of the Ridge and higher ridges have prevented any major operations being carried out. In the Kilwa area we encountered and dispersed enemy patrols and in the recent week, which will continue to be very heavy, the East African Force have done most excellent and valuable work.

Spain is still being interned trouble, but it appears unlikely that she will intervene in the War on either side. Italy, on the other hand, has severed relations with the Central Powers.

As a mark of the splendid work which she has accomplished the King has become Colonel-in-Chief of the Royal Flying Corps.

His Excellency, the Acting Governor, Mr. C. C. Hastings points out that the measure now being implemented will be the supply of recruits and to provide additional work for military men, but rather as a precautionary measure against the possibility of a shortage of labour in the event of war.

A hospital is abroad in Paris and doing some damage among the enemy population. It was seen the other evening in Salisbury Road.

## INTERNATIONAL SUBSIDING

Spain has again descended the news from overseas and I do not propose to add to a mass of letters which have been written. Underlying sympathy and fidelity of non-intervention greatly mitigates the widespread plague of international subsidizing. It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

## SAFETY OF THE REARM

The fact that you can have no right to be treated as a neutral power is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

## LET US FORGET

It has occurred to several reviewers and myself to review a collection of the greatest minds of the world. It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

## ARTHUR MILLSTON

Mr. Lloyd George's severe criticism of the Government's conduct of foreign affairs was the climax of a steadily building tide and it is significant that the Opposition members who have been elected to the House of Commons are equally significant. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

## THE BALANCE OF POWER

It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

## A Toast to St. George

Now, even those who are not usually well-read, could find it difficult to find a toast which is not only a toast to St. George, but a toast to the Empire. It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

There is no doubt that the toast to St. George is a toast to the Empire. It is surely ridiculous to expect more of international relations than the Peace of Amiens. The history of how nations fit into the picture of Europe is clear. The knowledge that any of the big powers is in the hands of the Peace of Amiens is a serious matter. It is surely ridiculous to expect more of international relations than the Peace of Amiens.

We are now not weary when students talk in superior tones about the "South Africa" line. It is surely ridiculous to expect more of international relations than the Peace of Amiens. **The Psychology of Children**

Taken from an address delivered by Dr. Y. M. Petrie at the District Annual Meeting of the Nairobi Branch of the East African Women's League.

How many of us really try to understand children's little minds and moods? It is a universally agreed fact that the foundation of the child's character, during his first years of life, is a matter of great importance. A mother's love is concerned only with kindness. It is the whole world and the child's life in the middle of it. The child's life is a matter of great importance. A mother's love is concerned only with kindness.

A child's personality is likely to be developed against anything or anybody who takes away its stability. It is the whole world and the child's life in the middle of it. The child's life is a matter of great importance. A mother's love is concerned only with kindness.

We come to the next stage, the love of power. At first a baby does just as he likes. He is the whole world and the child's life in the middle of it. The child's life is a matter of great importance. A mother's love is concerned only with kindness.

He believed that if they made the matter a labor strike episode, it would bring more white people in sympathy than would anything else because the white man preferred to be a striker or leader in the Southern Rhodesia than a member of a race.

**DR. MALAN AND SOUTH WEST AFRICA.**

Dr. Malan, leader of the Opposition in the House of Assembly, raised opposition to the Government's proclamation regarding South West Africa. He said that it would have been far more appropriate if the Government had been consultative in the Territories. He said that Germany had already protested against the Proclamation. He also expressed the feelings of the Prime Minister regarding the situation in the Territories.

**ASIANIOT CONTESTS**

Government ranks are likely to be split by the introduction of a new measure. The measure is likely to be introduced in the House of Assembly. The measure is likely to be introduced in the House of Assembly.

Third Party Insurance

Not so many months ago in England, a somewhat lengthy suit was filed and the bill was paid by one of Britain's largest insurance companies. It was not a simple, straightforward transaction, but so far as it concerns the bill itself, it was a rather simple one. The bill was for the purpose of settling the claim of a third party who had been injured in an accident involving a motor car. The bill was for the cost of the car, the cost of the car, the cost of the car, and so on.

# Britain's Budget

## Increase of Threepence in Income Tax

### NEW TAX ON BUSINESS PROFITS

London, April 20. (The Associated Press.)  
The Chancellor of the Exchequer, Mr. Chamberlain, today announced that the Budget for 1935-36 would include an increase of threepence in the income tax and a new tax on business profits of more than £2,000,000 a year.

These are the main proposals of the British Budget for the coming year, which was presented this afternoon. The Chancellor rose to speak before a crowded house. In his review of the past year Mr. Chamberlain said that income with expenditure on redemption of debt taken into account there would have been a surplus of more than £2,000,000 and it had not been for these expenditures.

The Chancellor is budgeting for a total expenditure of £862,848,000 and a revenue, without additional taxation, of about £16,000,000 less.

He estimates £12,000,000 more from Customs and Excise duties—more than expected last year—and expects increases in Income Tax, Surtax and Stamp Duties.

### NEW TAXATION

There would be no changes in the allowances connected with Income Tax, but the threepence increase in the coming year would result in £15,900,000 in a full year.

The tax on business profits would be a national defence contribution based on an increase of profits over those of earlier years.

### "NO APPREHENSIONS"

Mr. Chamberlain began with the review of the financial position of the country at the end of the year and said, unfortunately, that the country was not in a position to meet the coming year and the several years to come as well as to meet the obligations which would be demanded by the year.

He said the deficit in the year was £2,000,000 but when expenditure on redemption of debt was taken into account there was a surplus of more than £2,000,000 and it had not been for these expenditures.

INDIAN BUSINESS HOUSES AND INCOME TAX
FURTHER TIME FOR STUDY NEEDED

Nairobi Chamber View

That a strong plea should be advanced for delaying the third reading of the Income Tax Bill to enable the London business houses to have time fully to consider the proposals, was put forward at last Friday's meeting of the Nairobi Chamber of Commerce.

Mr. A. Lewis, of Messrs. Dunlop, Messrs. Messers, Messrs. Messers, and the London and India Association, supported by the delegation from the Chamber of Commerce, considered more equitable that a taxpayer should have the right of appeal to the Income Tax Commission.

Mr. Burgess made a strong appeal for more time to enable London business houses concerned to consider all aspects of the Bill. He pointed out that the Bill would deprive the London business houses of the right of appeal to the Income Tax Commission.

Mr. Shapley supported this plea, pointing out that the Bill would deprive the London business houses of the right of appeal to the Income Tax Commission. He also mentioned the need for extra allocation in respect of the Bill.

Mr. A. C. Tinsall, in support of the plea, pointed out that the Bill would deprive the London business houses of the right of appeal to the Income Tax Commission. He also mentioned the need for extra allocation in respect of the Bill.

Mr. Lewis, in reply to Mr. Burgess, pointed out that the Bill would deprive the London business houses of the right of appeal to the Income Tax Commission. He also mentioned the need for extra allocation in respect of the Bill.

BAN ON EXPORT OF MAIZE FROM KENYA
To Guard Against a Possible Shortage

A notice appears in this week's 'Official Gazette' prohibiting the exportation from the Colony of maize and maize products except under licence, as from to-day.

This action is being taken by Government to protect an existing shortage of maize in the Colony. If export were allowed to continue unrestricted, a shortage might occur before the next harvest in August, having regard particularly to the small rains crop in the lower parts of the Colony.

So far as the Government is aware the action taken will ensure ample quantities of maize for consumers in the Colony until the advent of the main harvest, which should be good.

The restriction of export applies to all countries outside Kenya Colony and Protectorate. Applications for licences to export should be addressed to the Director of Agriculture, P.O. Box 538, Nairobi.

Arrangements are now in hand for the first Kenya-Mombasa Exhibition to be held in Mombasa on August 24 to August 27 (both dates inclusive) being conducted by the Kenya Industrial and Agricultural Union.
