 COMMONWEALTH
 One of Adolf Hitler's greater misadventures was one which in the event proved to be one of the major factors which hastened his downfall. It was his estimate of the British Commonwealth. He did not believe it. We are already under the impression that the British Commonwealth is a mere collection of islands and islands of islands. He thought it possible, therefore, to capture it by force. He has now learned that the British Commonwealth is a single island, and that it is a single island, and that it is a single island.

Horlicks hastens CONVALESCENCE

It is remarkable and very often a matter of surprise to those who are not conversant with the science of nutrition, to observe a man, who has been ill, and who is recovering from his illness, to be able to eat and drink so much, and to be able to do so much work, as if he had never been ill. This is due to the fact that the man has been taking Horlicks, a food which is rich in protein, and which is easily assimilated by the body. £1,000,000 Damage Caused By Drought

Biggest, Gape From Protestants. The drought in the Southern and Central areas of Eastern Cape, South Africa, is causing a serious loss of life and property. The damage caused by the drought is estimated at £1,000,000. The drought has caused a serious shortage of food and other necessities, and has led to the death of many people. The Government has taken steps to provide relief, but the situation remains serious. The drought has also caused a serious loss of livestock, and has led to the death of many animals. The drought is expected to continue for some time, and the damage caused is likely to be even greater.

Mr. Jones says farmers of the district have been hit hard by the drought. He says that the crops have failed, and that the livestock has suffered. He says that the people are suffering, and that the Government should do more to help them. He says that the drought is a disaster, and that the Government should take steps to prevent it from happening again. He says that the drought is a warning to the Government, and that it should take steps to prevent it from happening again. He says that the drought is a warning to the Government, and that it should take steps to prevent it from happening again.

"Still Going Strong"

The Honorable Agricultural Minister tells of a Bygonia settler, "Derogator," who, after a year's absence, reports that his still-going strong. "Derogator" is a Bygonia settler who has been away for a year. He reports that his settlement is still going strong, and that he has made a good profit. He says that the land is fertile, and that the crops are doing well. He says that the people are happy, and that the settlement is a success. He says that the drought has not affected the settlement, and that the crops have failed. He says that the people are suffering, and that the Government should do more to help them.

"Annie" solved the first case in October, 1942, and thereafter provided a reliable remedy for the condition. The woman who had the condition for years had been advised to try many different remedies, but none had helped. "Annie" solved the problem, and the woman was cured. She is now healthy and happy, and has been able to enjoy her life. She is a great testimonial to the power of "Annie" to cure even the most stubborn conditions.

Dr. M. Mitchell estimates that at least 100 of "Annie's" remedies are also available here through the branch office in Nairobi.

**RIGHTY RECOMMENDATIONS
 BY RHODESIAN COMMERCE**

**Wants Abolition Of War-time
 Controls—And Congo Basin
 Treaties**

Members of the Rhodesian Chamber of Commerce and Industry have urged the Government to abolish war-time controls and to negotiate a new Congo Basin Treaty. The Chamber's report, which was presented to the Government last week, states that the existing controls are a heavy burden on the Rhodesian economy and that they are no longer justified in view of the fact that the war is now over. The Chamber also urges the Government to negotiate a new Congo Basin Treaty, which would give Rhodesia a more equitable share of the Congo Basin resources.

**GRIM WINTER
 FOR EUROPE**

**Failure To Supply
 Food Will Bring
 Chaos**

An official statement issued in London last week said that the situation in Europe has become so serious that the possibility of a famine is now a real danger. The statement, which was issued by the War Office, states that the Allies are now in a position to supply the world with food, but that the Axis powers are unable to do so. It is therefore essential that the Allies should continue to supply the world with food, in order to prevent a famine from breaking out in Europe.

**Anniversary Of The
 "Battle Of Britain"**

**WHOLE EMPIRE JOINED IN
 THANKSGIVING CELEBRATIONS**

Thanksgiving Day was celebrated throughout the British Empire last week, as people gave thanks for the victory in the "Battle of Britain." The day was marked by a variety of ceremonies and services, and by the display of the Union Jack. In London, a large service was held at the Albert Hall, and in other parts of the Empire, similar services were held. The day was a day of national pride and thanksgiving.

**MUST BE COLDLY
 POLITE TO JAPS**

**Non-Fraternisation Order To
 Allied Troops In S.E.A.C.**

Orders have been issued to Allied troops in the South East Asia Command (S.E.A.C.) to be coldly polite to Japanese prisoners of war. The orders, which were issued by the War Office, state that Allied troops should not fraternise with Japanese prisoners, but should treat them with a certain amount of courtesy. This is in order to prevent any propaganda being spread by the Japanese.

British dogs are becoming increasingly popular in the United States. This is due to the fact that British dogs are known for their intelligence and loyalty. The popularity of British dogs has led to a large increase in the export of British dogs to the United States.

**Future Of Italy's Former
 Colonies**

The Italian Government has announced that it will negotiate a new treaty with the United Kingdom, in order to settle the future of Italy's former colonies. The treaty, which is being negotiated in London, will give the United Kingdom a large number of Italy's former colonies, in return for Italy's withdrawal from the Mediterranean region.

**Russian Troops To
 Withdraw From
 Norway**

The Soviet Government has announced that it will withdraw its troops from Norway. This is in order to prevent any propaganda being spread by the Axis powers. The Soviet Government has also announced that it will continue to supply the world with food, in order to prevent a famine from breaking out in Europe.

**"Pamphlet Bombs"
 Injured 9 People**

Nine people have been injured in London by "pamphlet bombs" which were dropped from a German aircraft. The bombs, which were filled with pamphlets, were dropped over London last week. The injuries were not serious, but the incident has caused a great deal of concern.

**CZECH-POLISH
 FRONTIER PROBLEMS**

The Czech and Polish Governments have agreed to a new frontier arrangement. This is in order to prevent any propaganda being spread by the Axis powers. The new arrangement will give the Czechs a large number of Polish territory, in return for the Poles' withdrawal from the frontier region.
