NEW MINISTERS OF DEFENCE AND AGRICULTURE

Admiral and Farmers' Union President

A FORMER ADMIRAL OF THE FLEET, AND CHIEF NAVAL ADVISER TO THE GOVERNMENT, HAS BECOME MINISTER FOR THE CO-ORDINATION OF DEFENCE, AND A FORMER PRESIDENT OF THE NATIONAL FARMERS' UNION HAS BECOME MINISTER OF AGRICULTURE.

These are the most important of the changes in the British Cabinet announced yesterday. The new Defence Minister is Admiral Lord Chatfield, and the new Minister for Agriculture is Sir Reginald Dorman-Smith. Lord Chatfield is 64, and Sir Reginald Dorman-Smith is 39.

The Ministers displaced—Sir Thomas Inskip and Mr. W. S. Morrison—became respectively Secretary for the Dominions (replacing Mr. Malcolm Macdonald of half his dual post of Secretary for Dominions and Colonies), and Chancellor of the Duchy of Lancaster (with special association with the Minister of Defence).

Aeroplanes For France

U.S. DECISION CRITICISED BY TWO SENATORS

January 29

With the Government's concurrence, United States aircraft manufacturers have agreed to make France with the designated number of aeroplanes about 100.

The Government decision to allow

REFUGEE PROBLEM ACUTE IN CATALONIA

Starving Thousands Reach French Frontier

NORTHERN CATALONIA IS PACKED WITH REFUGEES HEADING FOR THE FRENCH FRONTIER, AND THE FRENCH GOVERNMENT HAS DECIDED TO ADMIT ALL BUT FIT MEN OF MILITARY AGE. MANY OF THE REFUGEES HAVE BEEN TRAMPING FOR MILES AND HAVE GONE FOR DAYS WITHOUT FOOD, AND SPECIAL ARRANGEMENTS ARE BEING MADE TO FEED AND TRANSPORT THEM.

General Franco, whose aeroplanes killed thousands, is reported to be in a raid on the refuge-packed town of Granollers, in opposition to the idea of a neutral zone for refugees in Spanish territory.

His army has now left Barcelona to the civil authorities, and is continuing its advance up the coast. A Government general in Madrid declares that the war will go on, as long as it is necessary to make Spain safe for Spaniards.

Admiral Lord Chatfield

Sir Reginald Dorman-Smith

Mr. Paul Reynaud

According to a message received from Paris from Burgos, General Franco has declared his opinion on the idea of a neutral zone for refugees in Spanish territory. The French Government is opposing it. The Spanish side is in favour of it, but the French side is opposed with people and violence. The British Government is opposing it, but the Government is opposing it. The British Government is opposing it.

Large numbers of police, including women and children will be sent to the frontiers, and nearly 60,000 (British) refugees were allowed to cross yesterday. Special transport

"Let Us Continue Path of Peace, And Make Ourselves Strong"

The democrats must inevitably resist the challenge of a demand to dominate the world by force, said Mr. Neville Chamberlain, in his first public speech since his visit to Rome.

"But I cannot believe," he went on, "that any such challenge is intended... I remain convinced that there are no differences between nations that cannot be solved without recourse to war."

MOCK BOMBS ON SANDRINGHAM

The King and Queen, with the two Princesses, watched a mock air raid on Sandringham last night. About 200 members of the Sandringham Squadron, some of whom were equipped with Air Force rifles, discharged imaginary bombs on the estate.

"CHRISTIAN EDUCATION ESSENTIAL"

The Archbishop of Canterbury, speaking to the Cathedral pulpit last night, explained the need for a solid Christian education in these days of secular civilization. In the world today, it was believed that material power was the only way to national greatness.

FUTURE OF ROADS IN KENYA

Prospect of All-Round Improvement By New Process

IT IS POSSIBLE THAT KENYA'S ROADS CAN BE BETTER-SURFACED AT A COST OF UNDER £100 A MILE AND THAT GIVEN A PERIOD OF YEARS THE STANDARD OF NOT ONLY THE TRUCKS BUT ALSO THE DISTRICT ROADS COULD BE VERY MATERIALLY RAISED.

This is the opinion of Mr. H. A. Campbell, F.W.D. Executive Engineer in charge of the Nairobi Division, who, for some years past, has been in charge of the experiments on road surfacing approved out in the vicinity of Nairobi.

The introduction of bitumen, "cut-backs"—bitumen dissolved in a light, volatile oil—which will penetrate close-bound surfaces such as cinder or tarmac, has been one of the chief reasons for the reduced cost of surfacing. Ordinary bituminous emulsions, used hitherto, were unable to penetrate mirram surfaces satisfactorily.

For some years extensive experiments were conducted in Kenya and in other parts of the Empire. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages. The manual is being prepared in English in Kenya, with the assistance of the P.W.D. Executive Engineer in charge of the Nairobi Division, who, for some years past, has been in charge of the experiments on road surfacing approved out in the vicinity of Nairobi.

On such a specification the surfacing proposals of the road programme were based and the report was submitted to the Nairobi Municipal Council and the Traffic Board (Sanitation) in Nairobi in December, 1943. The specification did not call for the use of bitumen but only for a certain grade of sand, which was to be used in the mixture. The results of the tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

The question had been asked as to whether it would be possible to adopt the proposed process in other parts of the Empire. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

The Divisional Engineer reported the progress over the last 12 months. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

Speaking on the subject of hard-surfacing, Mr. Campbell stated that the use of bitumen was essential for the improvement of the roads. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

In the early days of hard-surfacing, bitumen was considered an expensive material. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

In 1927 bituminous emulsions were introduced. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

The present specification requires the use of bitumen. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

American ventilators were used in some cases. The results of these tests have been made available in the form of a manual, published by the P.W.D. in Nairobi, which is being widely distributed. It is now being translated into Kisumu, Swahili, and other languages.

'Efficiency Impaired By Alcohol'

NAIROBI MOTORIST FINED SHS. 100

Civil Charles Carver of Nairobi was yesterday convicted of driving a motor car whilst being affected by alcohol.

The charge before the Resident Magistrate in Government House, Nairobi, in September last and the trial and conviction of Carver on a charge of manslaughter.

Reference to the manslaughter case made to Mr. Reid, the Resident Magistrate, in his judgment.

"The magistrate said that the accused was not guilty of any sort of manslaughter but that he was guilty of driving a motor car whilst being affected by alcohol."

The magistrate said that the accused was not guilty of any sort of manslaughter but that he was guilty of driving a motor car whilst being affected by alcohol."

FRENCH FIRMINESS

The recent statement by M. Delailler, in the French Chamber 'I ask that France be commiserated, prepared and ready for the defence of her Empire and for itself' gives point to the composite photograph of the French warship, and French territory defined by Italy, the city of Ajaccio in Corsica.

At its monthly meeting tomorrow the Nairobi Municipal Council will be considering a proposal for a loan of £50,000 for the purpose of erecting a new building for the Council's offices.

The proposal was introduced by Mr. H. A. Campbell, Executive Engineer in charge of the Nairobi Division, who, for some years past, has been in charge of the experiments on road surfacing approved out in the vicinity of Nairobi.

"GERMANY WOULD STAND BY ITALY IN THE CASE"

Economic Problems And Demand For Colonies

HERR HITLER'S SPEECH

HERR HITLER'S SPEECH TO THE REICHTAG ON MONDAY NIGHT LASTED FOR OVER TWO HOURS AND A QUARTER. THE MAIN POINTS WERE A CATEGORICAL STATEMENT THAT IF ITALY WERE INVOLVED IN WAR, GERMANY WOULD STAND BY HER, THE REPEATED INSISTENCE OF GERMANY'S DEMAND FOR COLONIES, A LONG STATEMENT ABOUT THE ECONOMIC POSITION OF GERMANY, WHICH HERR HITLER ADMITTED WAS DIFFICULT, AND THE ASSERTION THAT IT WAS ESSENTIAL TO MAINTAIN EXPORTS.

Other points were a denunciation of the policy pursued by the victors powers since the war, an attack on what he called "war-mongers in Great Britain, an allegation that America was conspiring to attack Germany, and a statement that National Socialism was not for export, a reference to the Jews, a warning to the churches, a defence of German intervention in Spain and a statement that Herr Hitler himself believed in a long period of peace.

Mr. Neville Chamberlain, the British Prime Minister, said at a question time in the House of Commons yesterday afternoon that he welcomed these passages in the speech speaking of Herr Hitler's desire for mutual confidence and co-operation between Germany and Great Britain.

He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people. He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people.

specific assertion that Germany did not want to attack. These were Austria, Czechoslovakia, Poland, Denmark, China, Persia, and the Balkans. He said that Germany was not a danger to any of these countries.

He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people. He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people.

Germany had achieved in one year, he said, the dreams of centuries. He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people.

Herr Hitler expressed pleasure at the results of Munich and thanked the initiative of his friend Mussolini. He said that he was glad to see that Herr Hitler was not only ready to meet the other powers but was also ready to meet the British people.

"OTHERS MUST KNOW THAT WE ARE NOT AFRAID"

Lord Baldwin On Britain's Cause

THE DANGER THAT WOULD FOLLOW IF OTHER COUNTRIES HAD THE MISTAKEN BELIEF THAT BRITAIN WAS AFRAID OF WAR, AND WOULD NEVER ORGANISE ITSELF IF WAR STARTED WAS STRESSED IN A SPEECH BY LORD BALDWIN. BRITAIN, HE SAID, HAD A CAUSE TO FIGHT FOR—THE LIBERTY OF THE HUMAN SPIRIT—AND WOULD FIGHT WITH A UNANIMITY NEVER BEFORE.

Lord Baldwin revealed that before he resigned the Premiership to Mr. Neville Chamberlain, he had spoken of the possibility of personal contacts with the heads of other states, and had told Mr. Chamberlain that the blessing of mankind would be his if he could steer Britain and Europe through the next two or three years into the path of peace.

"I can think of no other man who can bring this work to a successful issue," he said.

Lord Baldwin, photographed here with Mr. Baldwin and Mr. Neville Chamberlain, has revealed that he discussed with Mr. Chamberlain before he resigned the possibility of personal contacts with the heads of other states.

Most of the arguments respecting the flight against Bolshevism, the unity of Italy, Germany and Japan, the German attitude, attacks on the "warmongers" in the Democratic countries, particularly Britain and the United States, have been heard before. But it will be generally agreed that the Chancellor made a very full and very frank and carefully linked speech on the German point of view in foreign affairs and though he could not assert his usual fondness for dramatic passages, there was perhaps in his policy, laid out or with any proposal for a Conference. Appearances were missing from his vocabulary, though again he spoke of disarmament on conditions. He was mainly on the defensive, but he explained his point of view to the world a little aggressively and definitely as it is his wont, but he overtook the speaker's anxiety that the world should understand him and Germany. Such questions as the Jewish race, the Church he prefers to regard as domestic issues with which the world has no concern, but on his policy, laid out, the quality of humanity which it could have been in early Germany cannot be expected to receive of civilized nations to remain uninterested or inactive.

There is no need to say that the speaker's point of view is not the only one, but it is the one which the world will have to take into account. Buying a Car

(ARTICLE No. 1)

Now that the 1939 model motor-cars have arrived in this country, intending purchasers who have been waiting will be looking round to inspect and criticise the various makes and models which are on view.

It is now acknowledged by all that no matter what the price class in which a particular motor-car interests an intending purchaser, that particular car represents full value for the money expended.

There is, however, one point to which we would draw the attention of the intending purchaser, and that is that although the value of a motor-car purchased in the country of its manufacture represents the highest possible percentage value, it does not follow that after export from the country of manufacture and import into some other country where it is re-priced, the value received by the purchaser is proportionately the same.

The reason for this is because in the country of manufacture the retail price of the car to the purchaser is controlled by the manufacturer, whereas, after the new car

is exported to another country the price is controlled and fixed by the importer.

With this in view it obviously follows that the intending purchaser, before deciding which car he will buy, should take the proportionate value from the country of origin and compare them with prices ruling in this country and not be lured into a pleasant frame of mind by the salesman who offers a ridiculously high price for the car which is to be traded-in against the new car.

New car purchasers act, as a general rule, critical, observant and business-like people. We therefore suggest that when an intending purchaser is having a car valued with a view to trading it in, the price offered for it be carefully considered, and if such price greatly exceeds the owners expectation then the probability is that the new car offered for sale is over-priced.

Having considered the question of price and decided the amount, we next come to quality. Everyone will agree that all other things being equal, quality does make the deciding difference in the purchase of a car and with this in mind we have no hesitation in recommending

DODGE PLYMOUTH CHRYSLER

The 1939 models are the greatest value ever produced by the Chrysler Corporation who have advanced their design and engineering features three years in one.

You can spend more money, but you will not get better engineering, more comfort or more real economy than you get with any of the above cars.

"SPAIN NO MENACE TO EUROPEAN PEACE"

Premier again Defends Non-Intervention

THE SITUATION IN SPAIN AT PRESENT IS NOT A MENACE TO THE PEACE OF EUROPE, BUT IF THE POLICY OF NON-INTERVENTION WERE ABANDONED AND INTERVENTION ON ANY CONSIDERABLE SCALE OCCURRED ON BEHALF OF THE SPANISH GOVERNMENT, THAT WOULD BE A MENACE," SAID MR. CHAMBERLAIN, IN THE HOUSE OF COMMONS DEBATE ON FOREIGN AFFAIRS ON TUESDAY NIGHT. HE CONTENDED THAT HIS POLICY OF APPEASEMENT WAS GRADUALLY SUCCEEDING.

He was the chief topic of the debate, and after Mr. Chamberlain had explained that Sir Roger Manners and Sir Henry Hall had given him assurances that they wanted no territorial rights in Spain, Mr. Manners, leader of the Labour Opposition, said that a country could be controlled without being any territory and there would be a profound effect on the British and French strategic position if Spain became a mere dependency of the Axis Powers.

Mr. Archibald Sinclair (Opposition Liberal) declared that the Home Affairs Act had changed from a mere phrase to a reality which cut across the entire Europe. Mr. Chamberlain explained Mr. Manners' hope for a restoration of independence and independence that said that before any negotiations took place it must be certain that all the participants had a genuine desire for peace—down, for example, by a resolution to limit the armaments of Chamberlain's Government had been widely accepted upon by the British press.

London, February 2.—The House of Commons today debated the policy of non-intervention in Spain. Chamberlain, the Prime Minister, said that the situation in Spain was not a menace to the peace of Europe. He said that the policy of non-intervention was gradually succeeding. ORIGINAL COST OF THE RAILWAY

£5,500,000 Claim Abandoned By British Government

The following statement was issued by the Secretary to the High Commissioner for Transport, Kenya-Uganda, yesterday: It is announced for general information that the Secretary of State has agreed to invite Parliamentary attention for the reasons of the cost of approximately £5,500,000 due to the Railway's Government for the original construction of the Uganda Railway.

The sale conditions attached to this mission is that a sum of £200,000 was transferred from the reserves of the Kenya and Uganda Railways and Harbours Administration to a completion of that portion of the £5,000,000 loan raised in 1921 and redeemed in 1945-50 which was re-paid by the Government of Kenya to the Railway Administration.

The statement adds: The provision of a supplementary sinking fund for this loan will greatly improve the prospects of its early conversion, and there should be no difficulty in meeting this condition.

To Be Unveiled By King George

In the most pretentious affair of Ottawa, the Canadian flag against a background of the stately Government buildings which form Parliament Hill, Canada's national flag was unveiled by King George VI.

The structure is a long, about 100 feet high, surmounted by the royal coat of arms. It is the work of the sculptor, Sir James H. O'Rourke, and is the first of its kind in the world.

The story of the memorial began in 1925 when the late King George V, then King of the United Kingdom, died. His death was a great loss to the British Empire.

This year the whole Dominion of Ottawa is being memorialized in a grand way. The Government is building a new Parliament building.

The Canadian people are proud of their country and their King. They are determined to build a great nation.

The unveiling ceremony will be a grand affair. It will be held in the presence of the King and the Queen.

The new Parliament building will be a masterpiece of architecture. It will be a fitting memorial to the late King George V.

ADMIRALTY SURPRISED Germany Breaks Naval Treaty

Official quarters were taken by surprise by an official announcement that the German navy has broken the terms of the 1919 Naval Treaty.

The German navy has been building submarines in violation of the treaty. This is a serious breach of international law.

The British Admiralty is shocked by this move. It is a clear attempt to undermine the treaty and create a naval arms race.

The German government has denied the charges. It claims that the submarines are for peaceful purposes only.

The League of Nations is being asked to investigate the matter. It is a matter of international concern.

The British government has expressed its deep concern. It is determined to uphold the treaty and maintain peace.

The German government has refused to accept the findings of the League of Nations. It is a clear sign of defiance.

The British government has issued a strong warning. It is determined to take action if the treaty is not respected.

The German government has responded with a counter-charge. It claims that the British are in breach of the treaty.

**A Winning Smile
 REVEALS WHITE TEETH**
Your Dentist Says—"FOR WHITE TEETH KEEP GUMS FIRM"
 ... Start with IPANA and Massage today
 TODAY'S soft foods do not provide
 adequate exercise for your gums. And,
 without exercise, gums become tender,
 "pink tooth brush" appears—a warning
 that such serious disorders as gingivitis,
 pyorrhea, or Vincent's disease may follow.
 Here's a simple exercise to keep your teeth
 white and sparkling—your gums firm
 and healthy.
 First, clean your teeth regularly with
 IPANA. Second, rub a little extra IPANA
 into your gums. That's all.
 Zirconol, IPANA's foaming agent, will circulate
 and invigorate your gums, start cir-
 culation through gum tissues, and build
 them to healthy firmness.
 Don't risk your teeth by neglecting your
 gums. Don't wait for the tell-tale warning
 of "pink tooth brush". Start with IPANA
 and massage today.
 Remember—use good tooth paste, like a good dentist, to save a lawyer.

Plan for Official Propaganda

Plan for Official Propaganda

The relaxation of the Whitehall rule that no Cabinet Minister may write for the Press. As a result, there is a frequent and regular supply of articles in the Dominion by Mr. Churchill, Mr. Lloyd George, and other Ministers. It is a pity that the railway was not constructed as a commercial project.

No trucking job too big for GOODYEAR GIANTS

... none too small

GOODYEAR makes giant tyres for the biggest trucks and buses—carrying the heaviest loads—on the roughest roads. Also—small trucks—carrying light loads—on smooth city pavements, and for all types and sizes in between.

That's one reason why Goodyear Giants can lower your cost-per-mile of operation—because you can get Goodyear Giants designed especially for your type of work.

Other reasons for the economy of Goodyear Giants are explained by the tough, thick, long-wearing tread—and the stout body of the Superwrist Cord, found only in Goodyear tyres. See your Goodyear dealer and try a set of Goodyear giants best suited to the type and size of your truck or bus.

16 DIFFERENT TYPES—78 DIFFERENT SIZES

No one Giant Tyre is suitable for all work. So Goodyear makes a specific type for each type of truck or bus operation. For instance, there is the "X" type, designed to conquer the intense heat developed in severe or high speed service, and the "L" type for grunting, off-the-road work in broad gouting roads, or sticky mud. There are last two of many Goodyear special service tyres.

When this happens—the tool house door—meets the garden boy who brings 'snob' on the garden...

House matters will be seen hastily brushed over at times; and looking like so many eyes which seldom see the garden...

• Soccer

ARSENAL'S decline continues. At this period last season the champions were in the lead. Now they are in the bottom half of the table, and have scored fewer goals than any club in the First Division, with the exception of Portsmouth. It has been suggested that the best policy would be to resigne all the old hands and trust the youth to the young men like Bremner, Cumber, Lewis, etc., and that the defensive tactics, inflexible to the point of being burnt up without advantage. It is no use persisting in a certain style without the players to carry it out successfully.

• Racing

The Randers Park January meeting concluded in fine but very cold weather. The feature of the last day was the success of Mastaway in the Premier Strephease, a handicap race over three miles and five furlongs. Mastaway carried a heavy 12 lb. and he won by six lengths from Bignion, who was another 12 lb. in front of Le Toucheur. Mastaway had been runner-up in the Grand National, but both Mastaway and Le Toucheur had been entered. The Grand National was receiving 20,000 from Mastaway, but Mastaway had only won by 13 lengths. Mastaway had been in all the races.

• Greyhound

Stanley Biss the greyhound leader states that he has been approached by the National Greyhound Race Club to try and get the Grand National on January 17. It is an affair that would be a big thing for the club. The club's action is a step towards the running of the Grand National. Stanley Biss and I appeared before the committee on Friday. There had been an enquiry about the running of the Grand National. Stanley Biss had been for many years the leading trainer at the Randers Park. He has been the start of the sport, and previous to that he had been a trainer at the Randers Park. Stanley Biss had been for many years the leading trainer at the Randers Park. Down in the dim light of the Hall a notable event had taken place. Sir Tristram Mullin had emerged from the library, his hands standing there, very neatly shod with purple and crimson. His hands were red and standing in the Most Place library for a long time.

"My dear lord," the Professor was saying, "whatever you may say about Martin Mass, I must say that he is a very great lawyer. I tell you that he is a very great lawyer. I tell you that he is a very great lawyer. I tell you that he is a very great lawyer."

SPARKLING TEETH - The pride of every woman

Weak teeth mean bad health. Weak and yellowish teeth and bleeding gums are signs of general weakness. They affect your whole bodily health. Brushing the teeth and washing the mouth always cleans the tissues of the case. That has much deeper and is due to a lack of vital minerals. Use every strength you can get from milk by giving them the right food - the milk of the Calcium Milk.

Native Policy

To the Editor, "E.A. Standard":

It is a recent feature of the East African Standard a policy that the Native Race was outlined as expanding from an official German viewpoint.

The main principles laid down were as follows:

1. Bacial equality to be maintained.
2. His religion to be maintained.
3. Education to Native Schools.
4. Local culture to be preserved.

It is in my opinion that the above principles are not only desirable but also necessary for the future of the East African Territory.

Social agitations, an active change of attitude towards the improvement of the native and non-native of those of another race, are the result of professional and economic change and the significance of such change will be varied. It is not surprising that the varying conditions of the world are changing the conditions of the world. The native race is engaged in a struggle with the non-native race. This struggle is not only a struggle for the betterment of the native race but also a struggle for the betterment of the non-native race.

NATIVE MARRIAGES

To the Editor, "E.A. Standard":

I am a native of East Africa and I have been married to a native woman for some years. I have noticed that many native marriages are being broken up by the non-native race. This is a great pity and it is to be hoped that the Government will take steps to prevent this from happening.

GERMAN EDUCATION

To the Editor, "E.A. Standard":

I have been in Germany for some years and I have noticed that the German education system is one of the best in the world. I hope that the Government of East Africa will take steps to introduce German education into the country.

GOALS IN EAST AFRICA

To the Editor, "E.A. Standard":

I have been in East Africa for some years and I have noticed that the goals of the non-native race are not always in the interests of the native race. I hope that the Government will take steps to ensure that the goals of the non-native race are in the interests of the native race.

RELIGIOUS REFORMS

ORIGINAL COST OF THE RAILWAY £5,500,000 Claim Abandoned By British Government

The following statement was issued by the Secretary to the High Commissioner for Transport, Kenya-Uganda, on Wednesday...

It is announced for general information that the Secretary of State has agreed to invite Parliamentary attention for the reasons of the cost of approximately £5,500,000 due to Mr. Macmillan's Government for the original construction of the Uganda railway.

The sole condition attached to this remission is that a sum of £200,000 be transferred from the reserves of the Kenya and Uganda Railways and Harbours Administration to a supplementary sinking fund account, earmarked towards the redemption of that portion of the £5,000,000 4% loan raised in 1911 and redeemed in 1940-41 which was re-let by the Government of Kenya to the Railways Administration.

The statement adds: The provision of a supplementary sinking fund in this way will greatly improve the prospects of its early conversion, and will be made up no difficulty in meeting this condition.
