SEVEN HURT IN LONDON

Explosions in Tube Station, Left-Luggage Offices

Seven more time-bomb explosions in London yesterday, seven people injured, two seriously. The bombs had previously been deposited in the left-luggage offices of two tube stations, and special guards have been mounted as a precautionary measure at other important tube stations.

A Dublin correspondent says that the acts of sabotage have surprised the people of Eire as much as they have done the people of England, and for some time past the Government in Eire has been uneasy about activities of the Irish Republican Army.

London, Feb. 3. "Small explosions, believed to have been caused by time bombs, were set off at 6.15 a.m. today in the station offices at Leicester Square and at Tottenham Court Road in London, and seven people were injured and five slightly hurt."

REFUGEE TALKS

Satisfactory Conclusion In Berlin?

Berlin, February 3. Mr. G. Rabin, head of the Emissar Inter-Governmental Committee on Refugees, left for London last night. It is understood that he regards his talks with German authorities about methods of financing the emigration of Jews as satisfactorily concluded.

It is reported that there is now no question of an article being published in the German press concerning the German Government's proposals.

Arrangements are being made to hold a 6th session of the committee in London at an early date, when it is expected that Mr. Rabin will formally report on the results of his mission.

Preparatory to the London meeting the British Foreign Office has been holding talks with British representatives on the spot. The British Ambassador in Berlin, Sir Eric Lothian, and his staff are also working on the matter.

AXIS ATTACKS ON U.S. PRESIDENT

"Italo-German Frontier Should Now Extend To Panama Canal"

Berlin, February 3. The German press today launched a set fervent attack against President Roosevelt for his recent report to the Senate Military Affairs Committee, which he said that America would look the democracies against the Axis Powers and that in a future European war America's frontier would be in France.

The attack has now become a serious and organized propaganda campaign with the Communist Diversionary Committee, which is based in its own country and the world.

The United States Minister for the Americas, Mr. W. Averell Harriman, said yesterday that the United States was in no danger of entering into a war under the present administration.

REGIONAL "DICTATORS" FOR DEFENCE

Outline Of British Scheme

The civil defence plan is practically completed by which Britain is divided into 12 regions comprising ten in England and one each in Scotland and Wales.

Each will have a regional commander who will exercise the full authority of Government in the event of the region's becoming cut off from the centre of Government.

London, Feb. 3. In connection with the defence programme, it is announced that Britain will be divided into 12 regions. A Regional Commander will be appointed in charge of each region and will be supplied with full details of the region's resources.

Greater London will form one of the ten regions into which England is divided. Wales will be the tenth region and Scotland, subdivided into five areas, will constitute the twelfth. The scheme is directed primarily towards dealing with the situation which might arise if any area is cut off from the rest of the country.

There would be in each of the 12 areas an established Government equipped with an adequate administrative staff and essential authority to decide and carry out measures for civil defence.

FLOOD FEARS FADING

London, Feb. 3. Unless heavy rain continues, the spring tides at the west-end of the river will be alleviated with less apprehension than seemed probable a few days ago, for the level of the river has subsided by half an inch, and the threat of flooding, particularly around Ely, has become less serious with the general improvement in the situation.

## SPANISH GOVERNMENT MOVES AGAIN

## Meeting In Village On French Frontier

THE SPANISH REPUBLICAN GOVERNMENT HAS BEEN FORCED TO LEAVE FIGUERAS, THE TOWN IN THE MOUNTAINS OF CATALUNYA, WHERE THEY HAD FIXED THEIR TEMPORARY HEADQUARTERS. THE INSURGENTS TOOK GERONA, THE CAPITAL OF THE PROVINCE, ON SATURDAY, AND THE SPANISH CORTES HELD ITS MOST RECENT MEETING IN A LITTLE VILLAGE ON THE FRENCH FRONTIER.

Figueras, the former seat of Government, has been heavily bombed during the past few days and the death toll has been comparatively heavy. One report puts it at over a thousand, and attributes it to the lack of air raid shelters.

The French Grand Council, meeting in Rome, on Saturday night, resolved that "the volunteer forces of France (in Spain) will not abandon the game until it is finished as it should be finished," by the victory of General Franco.

HE'S PROBING THE MYSTERIES OF "RUBBER MAGIC"

IN THEIR NEVER-ENDING EFFORT TO SAVE YOU MONEY ON THE TYRES YOU USE TODAY, THE TYRES YOU'LL NEED IN THE FUTURE... GOODYEAR SCIENTISTS ARE NOW PROBING THE DEEPEST MYSTERIES OF RUBBER.

This master-scientist, along with dozens of other "rubber wizards" is at work in this Goodyear rubber development laboratory—the finest of its type in the world. The most novel instrument he is using has a long scientific name, and when he passes through the use-place he uses chemical linkages in rubber that were previously unknown. Or what practical use is this information? It gives Goodyear the clue for making rubber compounds that can best withstand the

stopping, twisting, sliding strains that you'll give them in 10000. For instance, the Goodyear tyre you fit today are specially built to survive the tortures imposed by modern motoring. First, there's the increased speed at which you drive. Second, you generate more heat in your tyres. Third, you drive a bigger car that increases the road shock. And your car is so well established that you turn corner faster

These are your tyre's five worst enemies. And it is the job of such Goodyear scientists as the man shown above—to design new Goodyear tyres to meet these new demands on tyre use. Yes, because Goodyear builds and sells so many tyres you pay nothing extra for these Goodyear extra superperformance. Get the full new set of Goodyear tyre now. Check the new mileages, the extra safety made possible by Goodyear's planning.

GOODYEAR EXTRA TRACTION (EXTRA) provides increased traction, maximum grip and safety in all conditions. FUEL, BRAKE, TIGHT TURN—give long smooth ride in all conditions. EXCLUSIVE SUPERFORMANCE—your protection against puncture and broken tires every day.

GOODYEAR MORE PEOPLE, THE WORLD OVER, RIDE ON GOODYEAR TYRES THAN ON ANY OTHER MAKE

the x-ray of business

The new way for all records comprises the old "micro-dot" or ledger methods. Makes crystal clear facts, which, unless arranged on Roneodex, are obscure and difficult to arrive at. Arranged after advertisement, Roneodex gives you control over every stage of your work, and enables you to see at a GLANCE: Customer's Record.—You can see at once those who have not purchased from you for 6 months. Ledger.—You can see at a glance those of your accounts which have not been settled for any particular period you wish to know. Stock Record.—You can see at a glance: (a) Those goods which are not moving, (b) Those goods which are dangerously low, (c) Those which are heavily overstocked. Works Record.—You can see at a glance:— (a) Exact progress of any piece of work at every stage; (b) All jobs in hand or uncompleted.

A unique system of business records automatically built-up by you the vital facts. Call and see the Roneodex in action at the

# HE'S PROBING THE MYSTERIES OF "RUBBER MAGIC"

IN THEIR NEVER ENDING EFFORT TO SAVE YOU MONEY ON THE TYRES YOU USE TODAY, THE TYRES YOU'LL NEED IN THE FUTURE—GOODYEAR SCIENTISTS ARE NOW PROBING THE DEEPEST MYSTERIES OF RUBBER.

THIS master-scientist, along with dozens of other "rubber wizards," is at work in the Goodyear rubber development laboratory—the finest of its type in the world.

The marvelous new instrument he is using has a long scientific name, and when he peers through the eye-piece he sees chemical linkages in rubber that were previously unknown.

Of what practical use is this information? It gives Goodyear the clue for making rubber compounds that can best withstand the grinding, twisting, pinching torture that your tyre treads must face today.

For instance, the Goodyear tyres you fit today are specially built to survive the tortures imposed by modern motoring.

First, there's the increased speed at which you drive. Second, you generate more heat in your tyres. Third, you drive a bigger car that increases the road shock. Better brakes let you make quicker stops. And your car is so well stabilized that you turn curves faster.

These are your tyres' five worst "enemies"—and it's the job of such scientists as the man shown above—backed by Goodyear's priceless experience and skill—to design new Goodyear tyres to meet these new demands.

Yet, because Goodyear builds and sells so many tyres you pay nothing extra for these extra Goodyear superiorities.

Fit a full new set of Goodyear tyres now. Get the extra mileage, the extra safety made possible by Goodyear's pioneering.

**GOODYEAR CENTER TRACTION TREAD—**  
provides sure-footed traction, maximum protection against skids in all directions.  
**THICK, BROAD, TOUGH TREAD—** gives long smooth rolling, trouble-free mileage.  
**EXCLUSIVE SUPERTWIST CORD—** puts protection against bursts and bruises into every ply.

**MORE PEOPLE, THE WORLD OVER, RIDE ON GOODYEAR TYRES THAN ON ANY OTHER MAKE**

## NEW SETTLEMENTS FOR KENYA HIGHLANDS

### £250,000 Land Plan To Provide State Aid In Purchase Of Private Land SCHEMES FOR ALL TYPES

The report of the Kenya Settlement Committee was issued yesterday. It opens by stating that the evidence and experience available indicates that settlers can be invited with complete success to make their homes in the country.

Presenting proposals the Committee have declared that mixed farming should be the basis of new settlement schemes, and that smaller economic units are now possible.

**WATER RESOURCES**  
The importance of adequate water supplies is stressed throughout and proposals are made for amending them. The squatter stock system is condemned as a serious menace to settlement.

The Government is urged to consider stricter enforcement of development conditions to prevent speculative holding of land and if necessary an Undeveloped Land Tax should be considered, though not at present.

**FINANCIAL PLAN**  
The scheme provides for the purchase by Government financial assistance of land now held in private ownership. This will require an initial capital of £200,000 which the Report recommends should be borrowed as a colonial loan. The scheme provides for long term advances to the purchasers repayable over 40 years, of loans up to 80 per cent. of the purchase price of the land plus 50 per cent. of the cost of permanent improvements. Alternatively, the Government could lend half the total cost of establishing the farms. Interest should be 10 per cent. and the maximum Government contribution is reckoned at about £1,800 but generally independent inspection of farms offered for sale, and the fixation of a reasonable price relative to its capacity, are among the principles laid down.

**TRAINING SCHEMES**  
The Report also provides for Residential Settlement. A third makes provision for land on favourable terms for retiring officials and railway servants from an area south of Northern Rhodesia. A Group Settlement scheme, probably in Laikipia, is suggested for locally born, landless people with some experience but no capital, which would cost the applicant about £30 a year. Colonial-born Jewish individual settlement is supported. Tenant farming is also included. Provision is made for the agricultural training of new settlers and a training farm is one of the proposals. Constant supervision of new settlers is considered essential to success. An Agency Scheme for settlement schemes, a Government Bond Scheme to raise capital is tentatively proposed.

The Kenya Association is to handle the main executive details and the control is to be exercised by a Land and Settlement Board advisory to Government. The new Kenya Agent in London will be independent of the London Office.

The Kenya Government issued the report of the Settlement Committee to the Kenya Legislative Council as a result of a motion passed on February 2, 1953, by the Council in August, 1951, that the Government should consider the possibility of inviting settlers to the Highlands.

**Main Provisions**  
In an introductory chapter the committee lay down the following principles which they proceeded with regard to the settlement of the Highlands. These principles are:—  
1. That the evidence and experience available indicate that the climate of the Kenya Highlands and the available improved agricultural land is suitable for settlement by people with complete confidence in their own ability to succeed.  
2. That it is of vital importance to the country that the settlement of the Highlands should be based on a sound economic basis and that the settlement should be based on a sound economic basis and that the settlement should be based on a sound economic basis.

**Terms of Reference**  
The Committee was actually appointed by the Executive Council of the Government on September 29, 1951, and its terms of reference were:—  
"To inquire into the possibility of inviting settlers to the Highlands with a view to establishing a new settlement, and to report thereon to the Government."

**Early Experiences**  
Having pointed out that the early experience of the Government in inviting settlers to the Highlands was not very successful, the Committee stated that it was necessary to consider the possibility of inviting settlers to the Highlands with a view to establishing a new settlement, and to report thereon to the Government.

### "RESERVE" FOR JEWS

Suggestion By Nazi Leader

Berlin, Feb. 5. Dr Alfred Rosenberg, leader of the German Culture Organisation and president of the national youth front, has suggested that the nations of the world should set aside a "reserve" of land for the Jews. He said that the Jews should be invited to settle in the Highlands and that the Government should be invited to consider the possibility of inviting settlers to the Highlands.

### Natal Flood Havoc

Durban, Feb. 5. Thousands of Natal families are homeless and several hundred families are homeless. Property has been damaged and crops and livestock destroyed.

### Cape Pilot On Way Back

Mr. Alex Henshaw, the pilot who has broken the East-End-Cape record and is bound to be selected for the double return, took off from Cape Town at 19:18 on Tuesday.

### Government Contribution

The Government's contribution would be initially be more than £200,000. The Government would be invited to consider the possibility of inviting settlers to the Highlands.

### Kenya's Attraction

The Committee are attracted to the Highlands because of the climate and the available improved agricultural land. The Committee are attracted to the Highlands because of the climate and the available improved agricultural land.

### Suffered 2 Years in Night Sickness

...I have been a sufferer from night sickness for two years. I was unable to sleep at night and was very miserable. I tried many remedies but nothing helped. I then tried Maclean's Stomach Powder and after a few days I was able to sleep at night and my health improved. I am now a happy man and I can recommend Maclean's Stomach Powder to anyone who suffers from night sickness.

Manifesto By Capt. Wilson

Captain F. O'Brien, candidate in the Uganda Pro-tection, has issued the following manifesto: I have been a farmer in the Maracha district since 1918 and have been connected with the Government in that sense since 1921.

Having been a member of the 1st. District Commission, who report I am in the hands of Government, and will, I hope, be published in the Public Opinion, I find it difficult to say large in this subject as I should like to say that I am not a member of the 1st. District Commission.

It is the White Community of Kenya who direct and control the Government. The Government of Kenya is a Government of the White Community. The Government of Kenya is a Government of the White Community.

UKAMBIA ELECTION

experience who have sufficient capital to take up and develop their own farms, but that the Government should not exceed that which can be absorbed by the country.

Labour. Closely bound up with our settlement is the question of labour. This is a question of the utmost importance to the country, but particularly with reference to the Colony which has particular problems of its own.

Defence. I have to state that I have not been in any way connected with the Government, and I have not been in any way connected with the Government.

Provision of rest camps and organisation of facilities for the purpose of the White Community. The Government of Kenya is a Government of the White Community.

the farming and trading interests of the whole country it could assist in the development of the country.

Co-operative marketing and buying. It is a question of the utmost importance to the country, but particularly with reference to the Colony which has particular problems of its own.

Capital expenditure for better roads. It is a question of the utmost importance to the country, but particularly with reference to the Colony which has particular problems of its own.

That it is in effect a relief tax on that which is a benefit to the community. The Government of Kenya is a Government of the White Community.

not left school. I hope that such a school farm would eventually develop into an agricultural College for Kenya.

New capital is necessary from time to time to improve the country.

Federation of Organized Industries

I am coming to a point which has worried my mind for some considerable time. This is the question of the relationship between the industrial community and the Government.

It is a question of the utmost importance to the country, but particularly with reference to the Colony which has particular problems of its own.

Such a Federation of organized industries and trade should be a great step forward. As representative of

# CORONA

JUNIOR

CORONA is marvellously simplified. That is one reason why it is so seldom gets out of order, and why it is so easy to repair.

## SIMPLICITY

This is an important point to consider in the purchase of a portable typewriter and results from twenty years of engineering study.

It is almost impossible to wear out a Corona. Corona purchased twenty years ago are still in active service to-day.  
**DURABILITY**  
Anyone can learn to write with Corona because Corona was designed with the needs of the amateur typist in mind. It is easy to learn.

# FOR NAIROBI NATIVE HOUSING

## Municipal Council To Apply For Loan Sanction

At a special meeting yesterday afternoon, the Nairobi Municipal Council passed a resolution authorizing the Mayor to apply to the Government for sanction to raise a loan of £25,000 for additional Native housing, and a further loan of £25,000 for extension to the Native housing of Quarry Road.

It is suggested that these loans may be raised from the same source as the £100,000 which the Municipal Council has already expended in the erection of 1,000 native houses. The Mayor, Mr. G. H. G. O'Brien, expressed the hope that the Government would be prepared to sanction the application for the loan of £25,000 for additional Native housing, and a further loan of £25,000 for extension to the Native housing of Quarry Road.

The slickest stroke of literary criticism

by JAMES AGATE

My father was the sort of man who took his art to the theatre for a holiday break and made no room out before the end.

The whims is of love and on string quartets to-day. Sometimes a savage puppet.

As Noel Coward says in his "Cavalcade": "What shall it profit a man if he gain the whole world and lose his soul?"

And even an inspired puppet—But my eyes had seen the shadow which has hovered her heaven on a diction.

This book pretends to be a diary of the life of a man, but it is the picture of his favourite puppet.

"GAD SIR! EVEN MY HARDENED CONSTITUTION CAN'T STAND THESE CONTINUAL CHANGES OF TEMPERATURE!"

"IT SEEMS, COLONEL, THAT A CHANGE TO NEW SHELL MOTOR OILS IS INDICATED!"

Car engines must be protected at all temperature levels, from comparatively low ones at night to high temperatures when running. The New Shell Motor Oils provide full protection against cold corrosion through condensed moisture at low temperatures, and, because of their tough oil-film, uninterrupted lubrication under strenuous working conditions.
