## STATEMENT SOON ON ROYAL TOUR

### Their Majesties unlikely to go AUSTRALIA EXPECTS PRINCESS ELIZABETH INSTEAD

British Commonwealth Press Daily Express correspondent Melbourne reports London, October 1.—The King and Queen are unlikely to go to Australia on the occasion of the visit of the young Royal couple, but a statement has leaked that the King's itinerary will cover a day or two from London and Canberra.

Collecting authorities say a formal announcement that the King, the Queen and Princess Margaret will be unable to make the Australian tour will come in a day or two from London and Canberra.

The statement was issued in the course of preparing an alternative itinerary suitable for Princess Elizabeth and the Duke of Edinburgh.

## THE KING DISSOLVES PARLIAMENT

### Signs proclamation from sick bed

THREE dissolutions yesterday of the King and a statement which dissolved Parliament, signed from his sick bed, have been the main news of the day.

The King's illness has been the subject of much speculation since he was reported to have been unable to get out of bed for several days.

The statement, which was signed by the King, dissolved Parliament and gave the Queen the power to appoint and dismiss Ministers.

The Queen, who is recovering from a long illness, is expected to return to the United Kingdom in the near future.

DEFICIT SURPRISES FINANCIERS

The size of the sterling area's gold and dollar deficit over the past three months has surprised London by comparison. A substantial deficit was anticipated at various points during the year. It was in fact \$25 million better than the previous year's deficit in the quarter. The deficit for the year is \$100 million, which is a record for the sterling area. The deficit is the result of a combination of factors, including a large increase in the gold and dollar deficit over the past three months. The deficit is also the result of a large increase in the gold and dollar deficit over the past three months. THE POST OFFICE DEVELOPMENT OF NAIROBI
In his presidential address to the East African Association of Engineers this week, Mr. H. R. Bridger, Nairobi City Engineer, dealt at some length with the postwar development of the city.

Water supplies
The Nairobi water supply was originally a river supply with a dam, 12-miles was laid. In 1942, the only river supply was the High Ridge in the Kilimambere area.

Traffic

CAR PARKING and traffic congestion in Nairobi is a problem which has become acute in the past few years. The Nairobi City Engineer, Mr. H. R. Bridger, has been studying the problem for some time and has now produced a report on the subject.

The report states that the main cause of the traffic congestion is the increase in the number of motor vehicles in the city. It also mentions the need for more parking spaces and better traffic management.

Mr. Bridger suggests that the city council should consider the possibility of building more parking lots and that the traffic police should be given more powers to manage the traffic.

He also mentions the need for better road conditions and the possibility of introducing a congestion charge in the future.

The report is a valuable contribution to the study of traffic problems in Nairobi and will be of great help to the city council in its planning.

It is hoped that the city council will take prompt action on the recommendations made in the report.

The Nairobi City Engineer's report on traffic congestion is a landmark document in the history of the city's development.

It shows the need for a comprehensive traffic plan and the importance of public transport in the city.

The report is a clear and concise statement of the traffic problem in Nairobi and the steps that need to be taken to solve it.

It is a must-read for anyone interested in the future of Nairobi and the role of the city council in its development.

Busy streets

Certainly, there will not be much to do on the streets of Nairobi during the week-end. The city is busy with the preparations for the week-end and the streets are full of people.

The city is a hive of activity and the streets are full of life. The people are out and about, enjoying the day and the city.

The streets are a sight to behold and the people are a joy to see. The city is a beautiful place and the streets are a part of its charm.

The streets are a reflection of the city and the people who live in it. They are a part of the city's identity and its history.

The streets are a source of pride and a source of joy. They are a part of the city's soul and its spirit.

The streets are a part of the city's life and its culture. They are a part of the city's heritage and its traditions.

The streets are a part of the city's future and its dreams. They are a part of the city's hopes and its aspirations.

The streets are a part of the city's present and its past. They are a part of the city's story and its legacy.

The streets are a part of the city's identity and its character. They are a part of the city's personality and its soul.

The streets are a part of the city's life and its love. They are a part of the city's heart and its passion.

Speed Limits

The Nairobi City Engineer has announced that the speed limit in the city will be reduced to 30 m.p.h. This is a measure to improve road safety and reduce the number of accidents.

The reduction in speed limit is a necessary step to ensure the safety of the city's roads. It is a measure that will benefit all road users.

The city council has approved the reduction in speed limit and the traffic police will be enforcing it from now on.

The reduction in speed limit is a sign of the city's commitment to road safety and the well-being of its citizens.

The city council is committed to making Nairobi a safer place to live and to work. The reduction in speed limit is a key part of this commitment.

The city council is committed to the highest standards of road safety and the reduction in speed limit is a reflection of this commitment.

THE POSTWAR DEVELOPMENT OF NAIROBI

In his presidential address to the East African Association of Engineers this week, Mr. H.R. Bridger, Nairobi City Engineer, dealt at some length with the postwar development of the city. Extracts from the speech are given in the accompanying article.

The growth of the City has been phenomenal. It is estimated that the population of Nairobi has increased from 1945 to 1948 by an increase of 50 per cent. This increase has been due to the fact that the city has been able to attract a large number of people from other parts of the country and from abroad.

The Master Plan
In studying the first master plan for Nairobi, the City Council was faced with the problem of how to provide for the needs of a city which was growing so rapidly. The plan was based on the assumption that the city would continue to grow at the same rate as it had in the past.

Water supplies
Nairobi's water supply was originally provided by the Nairobi Waterworks, which were established in 1904. The water was drawn from the Nairobi River and was treated at the Nairobi Waterworks. The water was then distributed to the city through a network of pipes.

Not haphazard
When I was asked to emphasize that the city was not haphazardly developed, I was reminded of the fact that the city has been planned and developed in a systematic and orderly manner. The city has a clear plan and a definite purpose.

Speed Limits
The Nairobi City Council has decided to increase the speed limits in the city. This decision was based on the fact that the city has grown so rapidly that the existing speed limits are no longer adequate.

THE POSTWAR DEVELOPMENT OF NAIROBI

In his presidential address to the East African Association of Engineers this week, Mr. H.R. Bridger, Nairobi City Engineer, dealt at some length with the postwar development of the city. Extracts from the speech are given in the accompanying article.

The growth of the City has been phenomenal. It is estimated that the population of Nairobi has increased from 1945 to 1948 by an increase of 50 per cent. This increase has been due to the fact that the city has been able to attract a large number of people from other parts of the country and from abroad.

The Master Plan
In studying the first master plan for Nairobi, the City Council was faced with the problem of how to provide for the needs of a city which was growing so rapidly. The plan was based on the assumption that the city would continue to grow at the same rate as it had in the past.

Water supplies
Nairobi's water supply was originally provided by the Nairobi Waterworks, which were established in 1904. The water was drawn from the Nairobi River and was treated at the Nairobi Waterworks. The water was then distributed to the city through a network of pipes.

Not haphazard
When I was asked to emphasize that the city was not haphazardly developed, I was reminded of the fact that the city has been planned and developed in a systematic and orderly manner. The city has a clear plan and a definite purpose.

## TROOPS HUNT FOR MALAY TERRORISTS

### Murderers of High Commissioner SIR HENRY CURNEY SHOT WHEN BANDITS OPEN FIRE ON HIS CAR

TROOPS and police were combing the jungle yesterday for a terrorist gang who ambushed and killed Sir Henry Curney, High Commissioner in Malaya, in a 20-minute gun battle on Saturday.

The British force was stopped on a lonely winding mountain road in Selangor State, some 30 miles north of Kuala Lumpur. Lady Curney was in the front of the car as it was struck by a hail of bullets. She escaped unhurt.

Sir Henry was thrown to stagger from the car and picked up by his chauffeur, and the car was driven off the road.

His Malay driver, Mohamed Din, his private secretary, Mr. D. H. Wright, and four police constables were wounded.

An official report issued yesterday said that Sir Henry got out of the car, under fire, to attract attention to himself, and was shot in the back.

Sir Henry said "get down" to Lady Curney as they got away by a narrow track.

He was shot in the chest and in the leg. He was hit in the chest and in the leg. He was hit in the chest and in the leg.

## DOLLAR GAP BECOMES FAIR GAME FOR BRITAIN'S ELECTION CAMPAIGNERS

Special cable to the "East African Standard"

The abandonment of the sterling area's gold dollar is the most important factor in the election campaign. One newspaper has already suggested that the dollar crisis is the main reason why Mr. Attlee decided to call the election any longer.

In the coming election right and proper should be given open to the public. The election campaign is not the time to discuss the merits of such proposals. It is the time to discuss the merits of the Government's policy. The Government's policy is to maintain the gold dollar at the rate of \$4.86 to the pound. This policy is based on the fact that the gold dollar is the only dollar which is convertible into gold. The Government's policy is to maintain the gold dollar at the rate of \$4.86 to the pound. # EUROPEAN STEEL OUTPUT UP TEN PER CENT

A ten per cent increase in Europe's steel output was reported by the European Steel Association in its report for the first nine months of 1950. The report states that the output of steel in Europe for the first nine months of 1950 was 10.5 million tons, compared with 9.5 million tons for the same period in 1949. The increase is attributed to a number of factors, including a rise in the output of iron and steel in Germany, France, and the United Kingdom.

The report also states that the output of steel in Europe for the first nine months of 1950 was 10.5 million tons, compared with 9.5 million tons for the same period in 1949. The increase is attributed to a number of factors, including a rise in the output of iron and steel in Germany, France, and the United Kingdom.

TWO MISSIONARIES MAY NOW ENTER KENYA

Immigration Board decision revoked

The Immigration Appeals Tribunal, sitting in Nairobi under the chairmanship of Sir Claude Stone, has reversed the decision of the Immigration Control Board refusing entry permits to two American Missionaries of the Independent Board of Presbyterian

Foreign Missions. They were the Rev. Mr. Armes and Mrs. Armes.

The ground that the granting of the permits would be prejudicial to the interests of the public has been generally in the past.

Dr. M. H. Matthews, who put the case, said that the missionaries were of good character and were of good repute.

The Immigration Board had refused to grant the permits on the ground that the missionaries were of good character and were of good repute.

CHEERING CROWDS  
GREET PRINCESS  
Tour of Canada begins  
AIRCRAFT ALTERS COURSE OVER THE ATLANTIC

PRINCESS Elizabeth was on holiday yesterday celebrating Thanksgiving Day in the United States and the Duke of Edinburgh, who is in Canada, left for New York by air from London, where they were met by a large party of British Airways employees. The aircraft was altered in course when it was over the Atlantic.

Princess Elizabeth and the Duke of Edinburgh arrived in New York yesterday morning. The Princess will be in Canada for a few weeks before returning to London where she will be married to the Duke of Edinburgh. The Princess is expected to spend some time in the United States before returning to Canada.

**CANADIAN GOVERNMENT DECIDES TO ALLOW GOLD SALES ON FREE MARKET**

THE Canadian Government has decided to allow the country's gold production to be sold on the world's free market, the Finance Minister, Douglas Abbott, has announced.

Mr. Abbott, however, said that the government would not be obliged to sell the gold at a price below the current market value. He said that the government would be prepared to sell the gold at a price which would be determined by the market.

The decision is a significant one, as it marks a departure from the policy of selling gold at a fixed price. It is expected that this will help to stabilize the Canadian dollar and to increase the country's gold reserves.

## CITY COUNCIL ESTIMATES

*Special meeting*  
**QUESTION OF NEW CITY HALL FIGURES LARGELY IN DEBATE**

The Nairobi Town Council last night spent two hours in a special meeting to discuss the estimates for 1936-7. The meeting was held in the presence of the Mayor, Mr. J. H. G. B. and the Council members.

The Mayor opened the meeting by saying that the Council had to consider the estimates for 1936-7. He said that the estimates were prepared by the Finance Committee, and that they were very large. He said that the Council had to decide whether to accept the estimates or to reduce them.

## STILL HOPE OF WORLD PEACE

**Mr. Churchill on need for strength**

**THE** Conservative leader, Mr. Winston Churchill, broadcast his views on the world situation in a speech to the House of Commons last night. He said that there was still hope for world peace, but that it would require a strong and united front.

Mr. Churchill said that the world was still in a state of uncertainty. He said that the only way to ensure world peace was to have a strong and united front. He said that the United States and the British Empire were the only powers that could provide such a front.

## ANGLO-EGYPTIAN TALKS ENDED

**More to abrogate 1936 Treaty**

**THE** Egyptian Prime Minister, Nahas Pasha, has asked the British Government to abrogate the 1936 Anglo-Egyptian Treaty which permits British troops to keep bases in the Suez Canal. He also asked for a new treaty and another election.

Nahas Pasha also announced that the Government had broken off negotiations which have been going on spasmodically for the last two years for a revision of the treaty.

The British Government is hoping to make new proposals for the abrogation of the 1936 Anglo-Egyptian Treaty, a Foreign Office spokesman said.

**Thousands of African families to be moved**

THE South African Government, which has recently announced its intention to remove a group of African families from Johannesburg to a site well away from the city, while residential conditions are still in a state of chaos, will be likely to accommodate the Africans and to assist them in their new homes. It is estimated that the Government will be moving about 10,000 families to the new sites. The Government has already begun to build the new sites and it is expected that the first families will be moved in the next few months. The Government has also announced that it will be providing the new sites with all the necessary services, including water, electricity, and schools. This move is part of the Government's policy to improve the living conditions of the African population in Johannesburg and to reduce the overcrowding in the city.

**German ex-general Alleges ill-treatment**

ALBION 2000

German ex-general, who has been held in a British prison since the end of the war, has alleged that he was ill-treated by the British. He claims that he was kept in a cell with no light and no ventilation, and that he was subjected to physical and mental torture. He also claims that he was denied the right to see his family and to receive mail. The British authorities have denied these allegations and claim that the general was treated in accordance with the rules of the prison. The general is currently being held in a British prison in London.

**Our London Correspondent writes: THE ELECTION, BRITONS FROM PERSIA, AND WORDS**

IT seems to have taken the disbelievers of Parliament some time to realise that a General Election really is on its way.

People at the moment seem to be in a state of confusion as to what is going on. They are not sure whether the Government is really going to resign or whether it is only a bluff. The Government has made it clear that it is not prepared to resign and that it will continue to govern until a new Government is formed. This has led to a state of uncertainty and confusion among the public.

The Government has also made it clear that it is not prepared to resign and that it will continue to govern until a new Government is formed. This has led to a state of uncertainty and confusion among the public.

**Inquiry into rail services urged**

**TANGANYIKA IN FAVOUR OF DECENTRALIZATION**

The Tanganyika Government has urged a thorough inquiry into the present rail services in the country. This is the first time that the Government has made such a request.

The Government has also requested that the railway authorities should consider the possibility of decentralizing the railway services. This would mean that the railway services would be organized on a regional basis.

The Government has also requested that the railway authorities should consider the possibility of increasing the frequency of the services. This would mean that there would be more trains running between the major centres in the country.

The Government has also requested that the railway authorities should consider the possibility of improving the quality of the services. This would mean that there would be better trains and more comfortable passengers.

The United Nations Council for the Middle East has approved a plan for the transfer of power in Libya by the end of 1951. The plan is to set up a transitional government in Libya and to transfer power to the Libyan people by the end of the year.

**Increasing output**

The output of the Anglo-Iranian Oil Company has increased significantly in the past few months. The company has managed to increase its production of oil and to supply more oil to the United Kingdom and other countries.

**Major effect**

The major effect of the Anglo-Iranian Oil Company's increased production is a reduction in the price of oil. This has benefited the United Kingdom and other countries that rely on oil for their energy needs.

**Union railwaymen get a 50-million rise**

The British railwaymen have secured a 50-million rise in their wages. This is the highest increase in wages for railwaymen in the United Kingdom for many years.

**Czech official seeks asylum in Canada**

A Czech official has sought asylum in Canada. The official has fled from the Czech Republic and is seeking political refuge in Canada.

AFTER five seasons of professional football since World War II, England's Selection Committee seems further off than ever from finding a satisfactory national side.

In drawing with France 2-2 at Anfield Stadium last week, England not only put up their worst display of play ever, they also lost within a matter of minutes to the initial defeat in an unconvincing manner.

A last-minute goal by Bert Williams also cost the referee. What has become of that proposition which the F.A. were good to discuss, which aimed at giving the possibility of selecting international players from within the country and in a more representative manner?

We will have England's representative named in London, says the Football Writers Association, and a committee will be set up to select the team. The result should be France finished again at the factory of this system.

There's still no success in the national side. Liverpool boss Billy Wright for his footballing ability to get things going. At Ramsey for his calmness to prevent crises and Leeds manager Alf Whittaker to score and look for chances. That should go without saying.

could be fought for both great Chester Hamall and Willis were out of the game. Manchester City's goal post is no longer. Finney always mentioned that the team would have more changes in one match than the other. Leeds manager Alf Whittaker to score and look for chances. That should go without saying.

England's supposedly shock great goalkeeper, the only Britisher within a score of a goal, and after that he was seen to go all the time. Australia has to be met at Wembley next month, and at the moment England has only a shell of an eleven with no chance of playing on the field with any confidence.

They have got to be brought back to the game. The only chance of a national team is to have a more representative side. The Football Writers Association has suggested that the national team should be selected from a list of players who have played in the Football League but who have not been selected for the national team.

# Social Stresses in East Africa: A REVIEW

social and other problems of East Africa are described by the official Correspondent of The Times, who visited the East African territories.

Kitale, the dark, sooty town, is one of the most important of the 14 municipal corporations in Kenya. It is one of the most important of the 14 municipal corporations in Kenya. It is one of the most important of the 14 municipal corporations in Kenya.

The Indian are in Kenya more heavily committed as a community to East Africa than are the Europeans. Filling the middle ranks of the Indian community are the small traders and petty bourgeoisie. They are not so heavily committed to East Africa as the Europeans.

Politically the Africans are the most important element in the whole situation. Compared with the situation in Kenya, when it was a British colony, the Africans are the most important element in the whole situation.

The social stresses in East Africa are the result of the economic changes which have taken place since the war.

Ironical situation. The ironical situation in East Africa is that the Africans, who are the most important element in the whole situation, are the least organized and least united.

# Kitale faces a wood fuel famine

Kitale, which probably has the highest fuel consumption in Kenya, is now facing a wood fuel famine.

## Confused

The attitude of the Indian as a community towards the Government is confused. They are not sure of their own mind and are often contradictory.

## Settlers' views

The settlers, and certainly the European political representatives, are not so heavily committed to East Africa as the Africans. They are more concerned with their own interests.

# Be prepared for an ALL-CROP harvest

THIS MACHINE WILL BE SO USEFUL ON OUR STEEP HILL LANDS AS AT THE ROYAL AGRICULTURAL SHOW, NAIROBI

No waiting for neighbours... no hiring a custom machine... no extra harvest crew. With your own All-Crop harvester, you can handle the job alone, when your crop is ready.

Look at these features:  
ALL-BRIDGE SWELLED CONTACTS reduce chockage of bushes and soil.  
FULL-WIDTH SPREAD BAR, 21" SWELLS, same width as the machine. Full crop through without any extra work.  
AIR LIFT SEPARATION cuts over 50% of the grain, leaving only the heavy straw crop.

SAW TOOTH WHO CONTACTS, VALVES, heavy rollers and strong 4" high, heavy steel frame.

The All-Crop harvester has more than 10 different kinds of grain, seeds and beans. Consider an All-Crop for your harvest, especially if you handle grass seeds and cereals.

Transport of Livestock

To the Editor:—I have been  
reading with interest in the  
press the various articles  
concerning the transport of  
livestock from the interior  
to the coast. It is a matter  
of some importance and one  
which requires the attention  
of the Government.  
The present regulations are  
very strict and it is not  
clear why they should be  
so. It is true that the  
livestock is a source of  
infection, but it is also a  
source of food and of  
transport. It is a matter  
of some importance and  
one which requires the  
attention of the Government.

# THE MOUNTBATTEN LEGEND—2.

WHERE does the Mountbatten legend begin to shatter? As far as their joint lives are concerned, you would say that it all begins that August of 1912, when they met for the first time.

Conventionally enough and as superficially as they can be, the two social backgrounds that combined in this marriage were the old world, aristocratic and the new, the "billionaire" type of the industrial revolution of the United States. The Mountbatten family had been in the land of the living for three generations. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

all the previous histories and family deaths. By the time the marriage had been consummated, the young couple had had to manage in a way that was not very different from the way that they had to manage in the past.

It is known to have taken quite a long time before the young couple had been able to get on their feet. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

So now the crowd outside the house were waiting when the bride and groom were to be married. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

Brook House  
It was in Brook House that they were married. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

But it was in Brook House that they were married. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

The other day I went back for a bit to Brook House. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

And it is a sad enough for one who does a job for a living, to find a man of his own age who is not doing so well as he should. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

Lord and Lady Mountbatten, an active service together.

The legend says that the young couple had a very happy marriage. The father of the bride was a well-known and successful business man of the day. His wife was a well-known and successful business woman of the day. Their marriage was a union of two of the most powerful families of the time.

# Triumph of Sadler's Wells

by RAZEL HAY

SADLER'S WELLS BALLET, which returned to Covent Garden last night, recently opened a Festival tour of London with a Festival of Ballets, and Sadler's Wells has provided the production staff for the occasion. The fact that the Festival of Ballets is the only one of its kind in the world is a tribute to the success of the festival, which has been held in London since 1926. The festival is a unique event, and it is a privilege to be associated with it.

# STAMPS by DERYK JAMES

A FEW days after setting in my last notes about the changing landscape of philately, some of the contemporary collectors of postage stamps are little thought of, but others seem more into favour—some of these are listed in the same items.

The writer, one of the most prominent collectors of stamps in the world, has been asked to write a series of notes on the stamps of the United Kingdom. These notes are published in "The Stamp Collector's Magazine" and are highly regarded by collectors.

# ADVENTURES OF A PIONEER FAMILY

by DERYK JAMES

A ROMANTIC comedy coming to the screen is "The Adventures of a Pioneer Family". The story is set in the early days of settlement in the West Indies. The main characters are a young man and a young woman who are both pioneers.

# THE WILD HERITAGE OF THE NOMADS

In spite of the wild conditions that prevail in the Northern Frontier, the nomads and their covered horses are nevertheless capable of supporting a large variety of indigenous fauna and ichthyofauna, as well as immense numbers of domestic stock, camels, cattle, goats and sheep, which wander over the hinterland, having adapted themselves through generations to subsist on the meagre offerings of their environment.

In this article on the Northern Frontier of Kenya, MERRELL DALTON describes the fortunes of the nomads, the conditions of hard life and the use they make of what Nature provides.
