## MACHINES FOR 100 FARMS UNDER ONE ROOF

Many new ideas at Smithfield

By L. F. Esterbrook

BY the very nature of the variety of the land within their own country, farmers are strong individualists. Few of them believe in any other farmer's way of doing things. Many have quite the same problems as themselves, yet they can always find common ground at the great agricultural shows. There they see farming tools, and not as personal or regional but as national and world products, and have their own solutions.

It was over 150 years ago, in 1797, that the Smithfield Show was founded. It has since then been known as the "Cattle Show" and is the largest of its kind in the world. It is held in London, England, and is the only show of its kind in the world. It is the only show of its kind in the world. It is the only show of its kind in the world.
