Merrie England celebrates
without controls
ACCORDING to bankers, the British are preparing to spend more money this Christmas than ever before, and in spite of higher prices all the signs are that it will be celebrated lavishly.

Higher in 1954
The 7th year of the Christmas season has begun with a bang. The total income of the British people is expected to be 10 per cent higher than in 1953.

From Paris
FRENCH hotels are preparing for a recent Christmas invasion. The British tourist trade is expected to be 10 per cent higher than in 1953.

Rush expected in Uganda for loans for Africans

ARRANGEMENTS are being made to consider applications from Africans for loans from the £250,000 special fund which has been set up by the Uganda Government.

The fund is to be used to provide the type of security normally required for loans from the Uganda Credit and Savings Bank.

It is expected that a large number of applications will be received, but only those from Africans who cannot provide the type of security normally required for loans from the Uganda Credit and Savings Bank.

You don't have to be shy

If you are a shy person, don't get married in rural Germany. If you do you may find yourself providing endless entertainment for an entire village.

DOROTHY BARKLEY Says LONDON IS A SHOPPER'S PARADISE

With only a few shopping days left before Christmas, London took on a festive look. All Britain arrives in London just before Christmas — or so it seems. Women come because they get a better choice in the West End stores than in their local shops. Their heads everywhere, in the chain stores, the exclusive shops where you don't.

Longer hours. To cope with the rush, most shops have a second extra shift — one store on 100.

What had started out to be a joyful occasion for the celebrating Londoners suddenly became a tragedy, and the death swept the city in a matter of days...

Natal

THERE was much happiness in the Christmas Day of 1847. For it was on that day that Portuguese explorer Vasco da Gama discovered Natal, South Africa. He named it the land of the Natal, which means land of the Nativity, and from which the modern name was derived. Curiously enough Vasco da Gama made the discovery on the same day as the birth of Jesus on a Christmas Day...

ington, are away from home. Manchester and York City will be the most-favoured teams in the North side on the holidays. In the section between South, there are being chased by Hartlepool, with four other sides only a further point in arrears.

Both the top two are away but the third, Derby, while Walsingham and Colchester, fourth and fifth respectively, are both at home of the other leading sides. Derby and Colchester may have to play away today and tomorrow.

As Boxing Day is not a public holiday in England, the footballers can not do their usual work. They have almost a full week in which to train for their next matches.

One cannot visualize Division I teams Aberdeen doing anything less than comfortably away against the other sides. The only team to be favoured on the whole, is home side, as they have only two points in arrears.

Welsh players rate S.A. Rugby tour over England game

More will be at stake than a place in the side to meet Park for their first Rugby trial on January 1. There will be the added chance of being chosen for the British tour to South Africa. All nominations from clubs in the Welsh Union must be by January 1 — the day of the trial. Circumstances will have to be very exceptional for more names to be considered afterwards.

The names will be sifted and sorted in positions by the Welsh Rugby Union. They will be handed on to the Selection Committee, who are likely to cut the list to something like twenty.

The Welsh representative will meet the rest of the Tour Selection Committee, who are two from each of the other three Home Unions — and the Tour Manager.

The Welsh are so keen on the tour that they are playing it about the England match to get their names on the list. Applicants are expected to be in the hundreds.

RENCH PREMIER INSISTS VOTE TODAY Assembly given 36 hours to decide BOLD MOVES ON GERMAN REARMAMENT ISSUE

After scoring two dramatic victories in the French National Assembly yesterday, Premier Charles de Gaulle insisted on a final decision on the German rearmament issue by calling for two votes of confidence today.

At the end of a 13-hour debate, the Premier gave the Assembly 36 hours to make up its mind on the issue of the Atlantic Alliance, which he said was the only way to ensure the French, British and American alliance would be maintained.

De Gaulle's speech was a bold move, as he had to face a vote on the German rearmament issue. He demanded a vote of confidence on the new Bill on German rearmament and a vote on the Atlantic Alliance. He said that if the Assembly did not vote on the German rearmament issue, he would resign.

Proper Care Doubles Your Carpet's Life

ARE you "locking the barn after the horse is stolen" in the care you give your rug? Proper care can help them stay beautiful much longer. It can even double their lives — a fact which has been proved by research on rug and carpet durability.

Wetness is the most common cause of damage to rugs and carpets. The result is that they are not given proper care until costly damage, which invariably could have been prevented, has taken place. Most women think periodic light cleaning with a vacuum cleaner and occasional trips on the rug cleaner are all that carpets require. Actually, proper cleaning and care take only a little more effort and time.

What to buy

CARPETING is made of resilient, long-wearing wool in the infinite range of brilliant colors which wool can be dyed by itself. Wool from mountainous countries is used in the manufacture of the best wearing rugs and carpets. The best wearing rug is made of wool from the rug and dimensional mills. Wool's exceptional resilience gives it the ability to take hard wear and retain its beauty for years with proper care.

"Life insurance" for a rug or carpet begins the day you buy it. There are, of course, many qualities and the most helpful advice is to buy the best you can afford. Probably the best-known test in connection with carpets is "burning" — but don't confuse this with a rug test. All burnproof materials are of the rug to burn in broad widths on a horizontal surface.

The weave types from which you can make your choice are Wilton, Axminster and velvet weaves. Each will give about the same length of wear if you compare types in the same price range — for the principal factor in determining price is the amount of wool used.

'Hidden value'

WILTON carpets are usually non-wool colorfast colors, especially in light colors. They are made on looms which are equipped with a special machine for the dyeing and finishing of the pile. This machine is called the "Wilton" machine and is the most important part of the "Wilton" process.

Amateur carpeters are asked for their best work, as compared to professional carpeters. The latter are usually better equipped with the right tools and materials. The latter are usually better equipped with the right tools and materials.

The velvet weaves in the third type normally found, and plain and patterned carpets can be made of it. Highly-woven yarns are used in this popular type. When the pile is short, it is cut down to form the twist texture.

When it comes to choosing the color you want, it is well to remember that such things as dark rugs (dark or light or dark) are not given proper care, choice of pattern, color and texture are also important factors.

Your choice of installation—wall-to-wall, "room stain" or "softer rug"—will depend on the measure you wish to take for heavy furniture. Installation of the rug in the store where it was purchased is usually a satisfactory arrangement where no fastening is apparent on the surface.

For the larger sizes, no spindling of the carpet must be felt, will lengthen their useful life. As they are generally underlaid, as they are generally underlaid, as they are generally underlaid, as they are generally underlaid.

Perhaps no household item is so abused and yet expected to give unflinching service as the carpet. Here, based on scientific research, are hints to guide you on how to take care of your carpets and make them last twice as long.

Provision for moving stair wear must be made when they are installed. Leave an extra yard at the top of the stairs and move the carpet before it shows wear by slipping the whole length down the stairs. A full cushion is recommended and should be installed with attention to the edge of the stair tread.

New carpets should be turned to face in a different direction during the month after installation, then once again during the first year and twice a year thereafter. Rugs wall-to-wall carpets cannot be easily moved.

Furniture should be moved once or twice a year, if possible, the family's furniture should periodically be sure to change the direction of the carpet when it is taken up for cleaning, if it shows piling.

Depending on the sale of color in your neighborhood, one thorough cleaning and overall periodic light cleanings are recommended. Some housewives find daily light cleanings desirable. The best practice of vacuuming the rug every five months, and remember, proper technique will prolong periods between trips to the carpet cleaner.

Occasional spending of a synthetic detergent in the proportion of one ounce to a gallon of water will brighten colors by removing the dust film which forms its film on the fibers. It should be applied, not shaking, and it must be removed as soon as it appears. Shaking is not recommended because it may rot the backing and cause unevenness.

A more thorough and longer lasting, but not to be achieved with a powder cleaner either with a carpet or absorptive air bags. These are available in the carpet and rug stores. The fresh powder cleaners that are strictly for the carpet.

When in removing stains use a clean, unstarred cloth and mop towards the center to avoid spreading the stain. Here are procedures to follow for some of the most common stains.

GREASE — Use a non-flammable dry cleaning fluid and sponge. If any stain remains, use a solution of detergent in a half-gallon of water.

BACKGROUND TO 'BUSBY'S BABES'

And they live up to tradition

The Busby "Babes" — the Manchester United have been behind them. And well they lived up to it, writes the Observer. The professional is, in fact, a vindication of the old-fashioned youth-development policy. There may be less craft and guile than in the days when they were used to be. But they are a one-way side who play hard from whistle to whistle. They are strong, tough, tough; they are quick to attack, and in Tommy Taylor they have the greatest centre-forward in the world.

But I think the Busby "Babes" would be the first to say about it. They are the greatest of the club's finest players who have been trained by the club's manager, Sir Matt Busby.

Chilton was in Manchester City's Cup-winning side. Clavin, Curlew, Morris, Adams and the rest have been in the England team. But it is the fact that they are the greatest of the club's finest players who have been trained by the club's manager, Sir Matt Busby.
