# KENYA'S IMPRESSIVE DEBUT N. Rhodesian troops kill 60 fanatics

## Significant part in talks says Premier

Kenya's participation in the Commonwealth and Organisation for African Unity conferences this month had played a significant part in the eyes of the Prime Minister, Mr. Kenyatta, said the House of Representatives yesterday.

On the London conference, Mr. Kenyatta said the Commonwealth could be a great force for good and Kenya should feel proud to belong to a group which recognised the need for racial harmony in the world.

### No part in Cold War

He recalled that at the start of the conference he had emphasised that the Commonwealth would be prepared to face up to racial problems and had cited Kenya as an example of racial harmony. He also explained Kenya's non-alignment and desire for peace in the world.

"I made it clear that Kenya followed a policy of non-alignment in world affairs and that our position in this regard must be accepted. I added that Kenya did not intend to take part in the limitation of planning or plotting against one Cold War bloc or the other."

### Plans for tour of Nyanza

"We were vitally concerned with the establishment of peace and tranquillity in the world, but those countries which were committed to the West should play a part in the Cold War. Our own stand would be based on economic matters. Mr. Kenyatta said he had made it clear that he was not the answer to the developing countries' need that steps must be taken to reduce economic exploitation and domination."

Mr. Kenyatta said he had seen a general Eastern Front, "appear to be faltering" and had given signs of new vigour. Their former M. Andre had said the tolling recesses at the surface by micro-organisms yesterday.

# EQUAL RIGHTS FOR WOMEN IN A MAN'S WORLD

By Ruth Harne

FOR quite some time, women of the world have been fighting to get equal treatment with men in every aspect of the decent institutions which men have created...

In the home, in public, in job institutions and even in day-to-day activities, women have always had equal women as well as men to them. When according responsibility in public life, the world over, women have been considered second...

When it comes to reward men have performed better than women, their equal pay is not equal to the same men's pay when it comes to reward men have performed better than women, their equal pay is not equal to the same men's pay...

This practice is not only confined to developed countries but is present in all continents in the world. This is the free world, the United States, the United Kingdom, the Soviet Union, the Communist countries, women are treated in the same way...

To defend this greater attack on women's rights, I would like to see a man and woman as when God created man and woman, He created them to be equal in every respect...

## ACHIEVEMENTS

There are other kindred studies have been passed on to women. Yet, while man is making his mark in the world, woman is making her mark in the world...

## ABILITY TO RESE

Some men still regard women as inferior to men in every respect. They are not. Women are just as capable as men in every respect...

## V.O.X. NEWS DIFFICULT TO HEAR

WITH constant interruptions, the V.O.X. news programme is becoming increasingly difficult to hear. The V.O.X. news on the English Channel is being interrupted by the V.O.X. news on the French Channel. This is due to the fact that the V.O.X. news on the French Channel is being broadcast at the same time as the V.O.X. news on the English Channel. This is a serious problem for listeners who are trying to hear the V.O.X. news on the English Channel.

## City business slow but stays firm

## MARRAKA AFRICA'S IMAGE

AFRICA'S image in the world is being marred by two major factors - the continuing racial and civil wars in the Congo and the more localized, but nonetheless significant, racial and tribal wars in the Rhodesias.

The Rhodesias are the only African countries which are members of the United Nations and the Commonwealth of Nations. Their image in the world is being marred by their racial and tribal wars. These wars are being marred by the fact that the Rhodesias are the only African countries which are members of the United Nations and the Commonwealth of Nations.

It is not so difficult for leaders of the three stable countries to express a view on the racial and tribal wars in the Rhodesias. It is not so difficult for them to express a view on the racial and tribal wars in the Rhodesias. It is not so difficult for them to express a view on the racial and tribal wars in the Rhodesias.

# Violence against Portuguese the only way

...come to a point where the only thing left to do is to shoot the rest out of our country," the President of the Mozambique National Front, Dr. Eduardo Mondlane, told the Pan-African Students' Conference at the University College, Nairobi, yesterday.

He said that with the Liberation Movement was started in 1962 it was decided that the people of Mozambique should be prepared and organized to face the challenge of the Portuguese. It was also decided to train the African leaders who would defend their country and support those efforts.

## MUST LIBERATE THEMSELVES

There are three countries however, which are doing more in our struggle than others are. These are the Republic of Tanganyika and Zambia. Algeria has also determined to help us," Dr. Mondlane said. "But just help could not liberate Mozambique unless the people were prepared to liberate their country themselves by the help of those other countries. We will first launch a fight against the Portuguese in Mozambique as our brothers are doing in Angola," he said.

Dr. Mondlane said that there were three methods of liberating Africa. There was the peaceful approach, the armed approach and the approach of a combination of the two. He said that the peaceful approach had been tried in many countries but had failed. The armed approach was the only way to liberate Africa, he said.

## Message to students' conference

The President of Ghana, Dr. Nkrumah, yesterday sent a message that was read at the Pan-African Students' Conference at the University College, Nairobi.

Dr. Nkrumah said that the African people were now in a position to liberate themselves. He said that the African people should be united and should support each other in their struggle for freedom.

## REPORT ON TAX NOT CRIPPLING. Turkey urges agreement within month

### Government 'entitled to share profit'

THE Government had introduced export taxes on coffee and sisal last May because it believed it was entitled to a share of growers' very substantial profits. However, it had no wish to either damage the industry or to kill the goose that laid the golden eggs, the Parliamentary Secretary to the Treasury, Mr. Kibaki, said yesterday.

After stressing the Government's need to raise revenue for development, Mr. Kibaki said he was satisfied that the new levies would not drive anyone out of either industry. Nor would they have a discouraging effect on the Government's return to the growers. The levies were left a sufficient return, he stated, Government would not have introduced the taxes had it not been satisfied on this point. The new measures were working "very smoothly and very well indeed," he said.

#### All should contribute

### Farewell to Mrs. Henderson

ABOUT 40 friends were at Nairobi station last night to wish farewell to Mrs. Marie Henderson, who was travelling on Mombasa on the first leg of the journey which will reunite her with her husband.

Mrs. Henderson, her daughter Louise aged 12, and her son James, aged four, stood at the window of their compartment as the crowded wretched train pulled away.

Leaving the only home she had ever known was too much for her — she burst into tears and wept for some minutes before coming to the train platform.

Among those who saw the departure of Mrs. Henderson was Kenyan's Inspector-General of Prisons, Mr. Chastleton, who has been in the post of the prison since 1962.

Mrs. Henderson was married to Mr. J. Henderson, who was killed in the Mau Mau rebellion in 1952.

Mr. Henderson was a member of the British Air Force and was serving in the East African Air Force when he was killed.

### Terrible shock

As the funeral of a young man about whose death Mrs. Henderson was told, she was told that she had written to him but never received a reply. She was told that he was working very hard and was very successful in his work.

Mrs. Henderson and her daughter Louise were in the car when they were told of the death of their son. Mrs. Henderson was told that her son had been killed in a car accident while driving to work.

# We tall girls can take a fresh heart

If you are one of the many women who are over 5 feet 6 inches tall, you say it's all over, though I am wondering how August whether we are ever going to get any more growing weather? you will know to your cost what it is like to go through the "growing" stage.

It is a common complaint among tall women that they are "too tall" for the clothes that are made for the average woman. I am not talking here about the ordinary dresses which are made for the average woman, but about the clothes which are made for the tall woman. These clothes are made for the tall woman, and they are made for the tall woman.

There is a certain amount of "growing" which is done for the tall woman, and it is done for the tall woman. This "growing" is done for the tall woman, and it is done for the tall woman. It is done for the tall woman, and it is done for the tall woman.
