Condemn

MEMBERS have not to be surprised at the action of the Congolese Government in expelling all citizens of Tanganyika from the Congo (Democratic Republic).

This is the most unfortunate decision which will not harm the Tanganyika people. The Government has been advised by the Congolese who are unwilling to accept the presence of the Tanganyika people in the Congo, and we are sure that the Government will be able to handle the situation in the best interests of the Congo.

One-party State

At this point in the history of the Congo, it is necessary to consider the possibility of a one-party state. The Congo has a long history of political instability, and it is clear that the current situation is unsustainable. A one-party state might provide the stability and continuity that the Congo needs.

NO MISSION FOR CYPRUS

MINISTER

POLICE and troops ring Salisbury's Highfield African Township in a drive yesterday as the Governor, Sir Humphrey Gibbs, declared the area in a State of Emergency. The Minister for Law and Order, Mr. Desmond Lardner-Burke, announced that the country's two rival national parties — the People's Convention Council and the Zimbabwe African National Union — had been outlawed.

In his broadcast Mr. Lardner-Burke said the State of Emergency would last for three months. He added: "Police, including reserves and troops cordoned off the entire township during the early hours of this morning, and police have already confiscated a full-scale operation to screen all inhabitants."

The People's Convention Council (P.C.C.) led by Mr. Joshua Nkomo, who is in restriction in a remote area with most of his chief aides.

Oil industry representatives last night rejected an agreement signed earlier in the day by union representatives and a Federation of Kenya Employers officials, which, subject to certain modifications, would have covered 600 Mombasa oil workers.

The oil industry representatives, who were based in Mombasa, rejected the agreement on the grounds that it was not in the interests of the workers and that it was not a genuine agreement.

The Federation of Kenya Employers officials, who were based in Nairobi, said that they were disappointed that the oil industry representatives had rejected the agreement.

London picture refuted U.S. Ambassador

ambassador in Nairobi, Mr. William Astwood, has replied in a leading K.E.S. newspaper which gave a gloomy picture of Kenya's state of independence.

Answering points in the article in the influential *Wail Street Journal*, he says in the best no right of Europeans, and there is less the United States and that 17 new U.S. embassies have been established in Kenya since January.

Mr. Astwood's letter in the *East African* reads: "You are, I am sure, containing Peter Vanderdrift's article on Kenya in the *Wail Street Journal*. My delay in writing you to correct what you stated was intended to give you time to check the facts. I believe you would not want me to appear as an article on Kenya which has appeared in a less reputable publication.

"Peter Vanderdrift's first two paragraphs set the tone of the piece and dictated the headlines. 'White Franchise' implies that independence was created in wholly inaccurate manner."

CAUSE OF MISUNDERSTANDING

"I am unhappy because such a story can only lead to misunderstandings between the United States and Kenya and undermine confidence in the future of Kenya and Africa in the hands of American businessmen at a time when such confidence is needed to attract an article of trade develop stable economies capable of resisting Communist infiltration."

While it is true that a number of White residents have left Kenya, their decision to leave was prompted by their psychological inability to accept the new status of the Kenya Government. Peter Vanderdrift, Minister for Kenya, told us that he and his family had left Kenya some time before the independence day.

"I do not know how many of the white people who have left Kenya over the past few years were British or white South Africans," he said. "I do not know how many of the white people who have left Kenya were British or white South Africans. We were willing to accept the new status of Kenya as a free country and we were willing to live in Kenya as citizens."

Defeat of ignorance 'first step'

Kenya was likely to have one of the best soils in the world, but this could not be done by the white people who were showing people how to do it. The white people should be educated in modern ways of doing the work of the Government and other bodies.

The Government intended to start a statutory board which would teach people how to read and write, how to use modern tools and machinery, and how to do the work of the Government and other bodies.

Kenya was likely to have one of the best soils in the world, but this could not be done by the white people who were showing people how to do it. The white people should be educated in modern ways of doing the work of the Government and other bodies.

MINORITY VIEW

"I also question the statement that the ethics of the European race is superior to that of the African race. It is not clear to me why this should be a matter of concern to any one here. This is a matter of concern to the African race, and it is a matter of concern to the African race."

"Since January of this year the Government has been in a position to give the people of Kenya the best of what it can do. It has been able to do this because of the support of the people of Kenya. It has been able to do this because of the support of the people of Kenya."

ARE ALL BATTERIES ALIKE?

Not quite. They look the same, but that's where the similarity ends. Underneath the cover of the Hitachi UM-(H), for example, are six steel-like shields which completely seal off the battery from the outside. This makes it 100 per cent leakproof and gives it a much longer life. Look for the name Hitachi and buy with confidence.

Birmingham racecourse to be sold

ENGLAND is to lose another racecourse. Birmingham Racecourse is to be sold for £1,500,000 to interested purchasers - Birmingham City Council give the go-ahead.

The site was approved by the council in 1967 and the Birmingham Racecourse Trust, which owned the track, was dissolved in 1970. The council had been negotiating with the trust for a number of years but had failed to reach an agreement.

The council has now decided to sell the track to a consortium of interested parties. The consortium is led by the Birmingham City Council and includes the Birmingham Racecourse Trust, the Birmingham Racecourse Association and the Birmingham Racecourse Development Trust.

The council has approved the sale of the track to the consortium for a period of 99 years. The consortium will be responsible for the development and operation of the track.

Answer to critics of Asian delay on citizenship

Kenya Commission stipulated very clearly that all citizens had special status under the provisions of the new constitution and that they should be treated as such by the Government of the Indian Administration, Nairobi, Mr. R. K. Capira, secretary in a statement issued yesterday.

Mr. Capira was commenting on recent criticisms that some members of the Asian community seemed to have officially obtained Kenya citizenship. Doubts had been cast on the loyalty of Asians and all kinds of motives attributed to them.

It was his feeling that some of the persons who had been granted citizenship by the Government had allowed themselves only 2,000 Asians had registered for citizenship, whereas there were about 75,000 in the country.

BY OPERATION OF LAW

The figure of 2,000 was misleading because it did not take into account at least 100,000 who automatically had become citizens by operation of law.

Whenever they were asked to travel they had to go on Kenya passports. This aspect implied equally in Kenya citizenship.

Asians who did not fall in this category were not in line with normal human nature—no one would expect an agency of securing citizenship.

The smooth, powerful Boeing Fan Jet is the fastest airliner in the air. To reach the cruising speed of over 600 m.p.h. achieved by its four fan jets, a power stream would require 43 engines! The speed alone is not the only quality which this modern airliner excels. In the Fan Jet it is experience in the cabin which makes the flight so pleasant in smoothness and quietness. The cabin is of luxurious dimensions. Cushions of most accurate resilience built in the 1st-3rd class cabin. Its broad and spacious floor averages a width of 10 ft.

It is wonderfully comfortable and even one who has never before had an air flying night will find it so. But apart from the spaciousness of the cabin which we enjoy when we fly by Ethiopian Airlines, the Boeing Fan Jet is also a most modern and comfortable passenger aircraft. LAMPDOCK IN NORTH EAST

Police given wide extra powers

Emergency regulations, giving widespread powers of arrest and seizure without warrant in the whole of the North-Eastern parts of the Eastern and Coast Regions were announced yesterday by the Prime Minister, Mr. Kenyatta.

The regulations, under the Preservation of Public Security Act, 1952, renew others made last December which related only to players in a prohibited area — land in the North-Eastern Region lying within five miles of the Kenya-Somalia border.

They also give security forces greater powers in a new "prohibited zone" covering the rest of the Eastern Region and stretching to Mombasa and Tolo in the Eastern Region and the Tana River and Lamu Districts in the Coast Region. (In recent months Somali shifts have been made in these areas.)

No person will be allowed to enter the five-mile prohibited zone without special permission. Even with permission they will have to comply with directions given to them by the authorities. Entry without permission or failure to comply with directions can lead to a fine of £200 or two years in prison, or both.

PRICES: HYBRID MAIZE
 In this first year of commercial hybrid maize production it has already been rumored by certain unauthorised persons that the price payable by the Maize Marketing Board for each bag of such hybrid maize will be higher than that payable for the normal type of 'open-pollinated' maize.

The Maize Marketing Board wishes to advise maize farmers, traders, millers and the public generally that there is no truth whatsoever in this rumour.

The Maize Marketing Board, after consultation with the Minister for Agriculture, and other parties representative of producer interests, has issued the following information guaranteed before for each unit of 2000 lbs. net, without bag, each season and on a 'top' system, the price payable by the Board to producers for all maize - whether hybrid, synthetic or open-pollinated - according to the grades as specified in the attached schedule.

In view of the higher yields per acre which can reasonably be expected from the hybrid maize, it will automatically follow that growers of such crops of maize can expect to receive a higher cash return for their annual crop on an overall basis than for the normal practice hybrids grown by them, but 'bag for bag' the price payable by the Maize Marketing Board for all types of maize, of acceptable quality, must be those as are guaranteed by the Minister for Agriculture.

PAUL NEEL
 Chairman.

The airline has ordered for the models six pairs of shoes while the aircraft makes stops at Brindisi, Nairobi, Luanda and Subiway.

In addition to the cocktail party and fashion show at the ground, there will be two shows: the first is at the airport and the second at the Courtauld's non-made fibres in the world, with marketing operations throughout Europe and America, will show a selection of current British-made garments in Trench, Courtauld, Catin Dicot and Courtauld-rayon, and will illustrate the best use of these fibres in all price ranges and for all occasions.

The models are all from Mithlath Enterprises, Ltd. Christine Tidmarsh is one of the most famous British models, and ex-husband the English girl who inspired Dior in Paris. Until this month Christine was chief model to Yves St Laurent in Paris, and has worked in New York, Granada and Beirut.

The hats and jewellery will be supplied by the Millinery Institute of Great Britain and Adrian Mann.

A CITY SECRETARY WITH A FLAIR FOR DRESSMAKING

A further prairie in the series 'Worn at Work'
By Ann Marshall

WOMEN do not always have the time or the ability to make their own clothes; and when they do the result can be easily low-made. ideas wanted to reform Kenya's economy

The Minister for State in the Prime Minister's Office, Mr. Mumbaka, made his contribution yesterday when he addressed the opening of a seminar on the problems of economic development in East Africa at the East African Institute of Social and Administrative Studies, Nairobi.

"It is quite obvious," he said, "to anyone who has been in the field of development that the economic growth of the last 15 years or so has been a boom in a year — as in Kenya, but by the lack of penetrating industry and hard work, by the failure to exploit the opportunities that have been created."

He stressed that the government had become aware of the opportunities of economic advancement and that it was determined to take steps to improve its performance.

UTMOST EFFORTS NECESSARY

"There can be no question that we must make the utmost effort to promote rapid economic growth," Mr. Mumbaka said. "Several factors have worked in Kenya only a few weeks ago to lead to enormous expansion of its 'relatively good' economic space of time."

"It is quite apparent that a number of economic problems have been created by the boom. It is necessary to make a reappraisal of the economic situation and to take steps to correct it. It is necessary to make a reappraisal of the economic situation and to take steps to correct it. It is necessary to make a reappraisal of the economic situation and to take steps to correct it."

The proposal for an all-African force came from a number of countries, expressed their repugnance at any "interference in the Congo, and the use of White mercenaries, a conference.

THREAT TO MALAYA

President Sukarno is now developing his concept of a "United Malay" which covers Malaya, Singapore and Sumatra. His concept involves Malaya, Singapore and Sumatra. His concept involves Malaya, Singapore and Sumatra. His concept involves Malaya, Singapore and Sumatra.

Langkate, following a long discussion in the Malaya Government, has reported to have been dropped in January, 1956. It is an area previously in a highly strategic position during the pre-war period. The Government is now in the process of preparing a new Federal structure for Malaya, and it is probable that the Langkate issue will be raised in connection with the 'Commonwealth' structure of pre-independence days.

The threat of a new war in Malaya is serious indeed in that it is a direct threat to the stability of Malaya. It is a direct threat to the stability of Malaya. It is a direct threat to the stability of Malaya.

FARMS NEED CO-OPERATION

Premier says 'get your hands dirty'

Co-operative farming was one of the best ways to run big farms, Mr. Bennett said at the Premier's Conference on Agriculture, held at Ottawa, Oct. 20.

It was operating Kenya's biggest co-operative farm, the Drumville Farmers' Co-operative Society, at Roma Road, near Machakos. He recalled the problem created by the fragmentation of big farms into small farming plots and said it could only be fought by people who joined hands together to farm co-operatively.

Mr. Bennett said the idea that chemists should work in offices was the only people who would make money.

Repeating his thesis that "All good things come from the soil," the Premier said that clean hands were not the criterion for becoming rich, as people had thought when they saw Europeans in office.

Witchcraft condemned

If people in Kenya wanted to get rich, instead of wanting their hands dirty, they should work hard on their soil and get positive results. Even educated people should not be so backward and avoid cultivation, they should turn their backs to the soil.

The Premier Minister was accompanied by the Minister for Co-operation and Industry, Dr. Kioko, and the Minister for Agriculture, Mr. Bennett, on a tour of the Drumville Farmers' Co-operative Society, at Roma Road, near Machakos.

RECONCILIATION TALKS IN NAIROBI URGED

London talks make Mr. Smith happy

President to the main Congo (Leopoldville) groupings to a conference for political reconciliation was among the talks made to the Council of Foreign Ministers of the O.A.U. at Addis Ababa yesterday by the Minister of State in the Kenya Prime Minister's Office, Mr. Mursuli.

He said the Prime Minister, Mr. Kenyatta, had suggested Nairobi as the venue and that Mr. Kenyatta would offer his good offices for such a conference.

Among the proposals put forward by Mr. Mursuli, Washington, Kansas, Poland and Britain's suggestions were to hold a conference in Cologne, Africa. After analyzing the Congolese problem, he said it fell to the Congolese and not to the O.A.U. and he said that a two-point proposal he termed an immediate cessation of the armed withdrawal of all mercenaries and the withdrawal of all foreign troops, aircraft and other military personnel.

Committee of members

Mr. Mursuli suggested the establishment of a committee of eight to ten member States which would be the Government or "warlord" to a round table conference to settle political, constitutional and other problems. He said that the committee should take place under O.A.U. supervision.

He proposed the establishment of an O.A.U. peace-keeping force to keep law and order, bring about effective disarmament and help in military training.

1,000 EXPECTED AT ROYAL SHOW

More poultry entries and dairy produce

Allegations rebound on Member

Members of the Royal Agricultural Society of Kenya, Mr. M. D. M. and Mrs. M. D. M. will be the 100,000 visitors at the 1961 Royal Show at the Nairobi Race Course, on September 23 and October 1, 2 and 3.

The 'gate' last year was 90,000. This year the show will be opened by the Prime Minister, Mr. Kenyatta. We have learned to realize that he is a leader of outstanding ability and his visit will make the show 'Mr. M. D. M.' added.

It would not come as a surprise if it were the last 'royal' show but some thinking about whether it would be a success in December.

RECORD IN HORSE SECTION

Although entries in some sections are slightly lower than last year, the show remains a really big affair. The record was set in 1960, when a record with 277 cattle and 281 horses were shown. There were 251 entries in the cattle section and 140 in the horse section, although 100 fewer than last year.

There is a reduction in the sheep and pig classes as much as the show in the farm and dairy produce section and a big rise in the poultry entries.

Cattle sub-committee, Mr. E. A. Hammond, said that it was unrealistic to expect farmers to compete against the large scale breeder at the major show of the year. Depending on the foot-and-mouth problem, it might well be that an actual number of cattle on show might be greater than last year.

Councillors accused of obstruction

Several councillors have been accused of obstruction in the progress of the show. The committee has been accused of obstruction in the progress of the show. The committee has been accused of obstruction in the progress of the show.

Trouble in Malawi prompted by £18m. offer

THE Malawi Prime Minister, Dr Banda, yesterday told his Parliament that the Chinese Embassy in Har or Salama was behind a conspiracy against him involving some of his Cabinet Ministers.

Three Ministers were sacked on Monday, two more immediately resigned. Dr Banda told Parliament that the Chinese had offered an £18,000,000 loan if Malawi recognised the Chinese régime. The Ministers involved wanted him to do so immediately.

At the start of his speech — the first session of Malawi's Parliament — the Prime Minister said he was sipping and smoking "Kamuzu" the brand he has named.

'Would have murdered me'

Dr. Banda said: "The Ministers wanted to get rid of me and if they could have murdered me they would have murdered me in cold blood."

It was reported on Monday that three Ministers had resigned but Transport and Communication Minister, Mr. John Seneza, approved on the Front Bench yesterday after other Ministers. He had not resigned as yet.

The Ministers named were Mr. Kazungu Chikwira, Foreign Affairs, Mr. Otoni Chikwa, Justice and Prisons, and Mr. Augustine Bwambali, Development and Agriculture. Mr. Chikwa, Mr. Chikwa, Mr. William Chikwa, Labour, Transport and Communication, and Mr. Chikwa, Education.

Dr. Banda said he had dismissed Ministers and moved to follow disapproval of the Cabinet for two weeks. The two other Ministers had resigned 15 minutes after the dismissing of their colleagues.

Mr. Mohamed Salah, assistant secretary general of the O.A.U., told journalists yesterday that the conference members were the cause of the delay.

Confidence sources said the draft resolution approved for the Foreign Ministers by the seven-member African Commission outlined six suggested points for discussion.

The six points were said to be: 1. The conference should be held in Addis Ababa. 2. The conference should be held in Addis Ababa. 3. The conference should be held in Addis Ababa. 4. PROTESTS OVER SWAZILAND'S NEW STATUS

SWAZILAND, first elected Legislative Council met in the High Court in Mbabane yesterday while, outside, workers staged a protest against the new status of the country.

The new status of Swaziland, which has been declared a protectorate of the United Kingdom, has caused a great deal of concern among the Swazi people.

Protesters in Mbabane and other parts of the country have expressed their dissatisfaction with the new status, which they believe will strip Swaziland of its independence.

The British government has defended the new status, claiming that it will bring stability and development to the country.

Despite the protests, the new status of Swaziland is expected to remain in effect for the foreseeable future.
