CRIME AND THE AFRICAN

The general public will have read with interest the statements on crime recorded in the National Advisory Council report on the subject of the problem of making regulations to control the crime wave.

Historically people will recognize the subject with which they were asked to deal is responsible to the medieval attitude to crime and criminals in Britain. Many of the members, we are told, considered that the punishment at present meted out to criminals is not severe enough; some even went so far as to recommend the adoption of the old method of burning at the stake and execution by the gallows for those who had committed crimes of a more serious nature than those which would be dealt with by the courts.

The report, however, is not so much a study of the crime wave as it is a study of the methods used to deal with it. It is a study of the methods used to deal with it. It is a study of the methods used to deal with it.

Remington And Boyes Cup Finals

SOLDIERS MISS THEIR CHANCES

BOTH the Remington and the John Boyes Cup finals (attracted) good crowds in Nairobi at the weekend, the Remington Cup naturally drawing the far larger attendance.

Nairobi were well worth their 1-1 win over Mombasa at the Stadium, but Play and Records might not have led to R.A.F. by the odd goal in three had they taken advantage of all their scoring chances.

Wendell K. Chambers:

A report submitted at 10.50 pm indicated the Remington Cup final to have been a close-run affair. Nairobi, who had been playing well since their 2-2 draw with Mombasa, were well worth their 1-1 win over Mombasa at the Stadium, but Play and Records might not have led to R.A.F. by the odd goal in three had they taken advantage of all their scoring chances.

COMMUNAL ROOLS INDIAN CAPITALS

New Delhi Streets Like 'Battlefields' As Troop Reinforcements Move In To End Hours Of Terror

New Delhi, September 9.—THE CAPITALS of the two new dominions of India and Nepal—New Delhi and Karachi—have been the scenes of several outbreaks of communal violence. Several thousand additional police and troops moved into Delhi and Karachi on the night of the 8th and 9th, and were left by the rioters who were, it is unofficially estimated, to cost the lives of between 200 and 400 people in the past few days.

Whole communities were today being evacuated from several of the city streets which are said to have had all the houses of a battlefield with crowds of fleeing people and filled with the rattle of automatic weapons while the police and the victims huddled about the streets.

There and there, in the pattern and on the roads, lay the bodies of the victims of communal violence.

A curfew was imposed on the greater part of Karachi today after an outbreak of communal riots, the first of its kind since the British rule in that city.

An official statement said that a crowd of 20 to 30 people attacked passengers in the Karachi railway station last night, killing three and wounding five people.

The crowd, armed with iron bars and sticks, then killed four more and injured six in Karachi's main business street. There were other disturbances during the night and another crowd of about 100 gathered near the railway station today.

Russia's Sweep All 'No'

Miners Reminded Of Pleas

LONDON, Sept. 9.—RUSSIA'S answers to questions put by the International Labour Office in a recent report by the British delegation recently gave a clear picture of the Russian attitude on the subject.

Russia persistently used against a variety of resolutions of the Commission's report to the General Conference of International Labour by an majority of 15 countries, the Commission's declaration that it approved the main outlines of the report.

The principal contention that dominated the discussion of the report for international countries, particularly the international countries, was the question of the right of international countries to strike.

The strike has again been stressed in the report. It is stated that the right to strike is not a new principle, but one which has been recognized since the beginning of time.

We have now had four years' experience of the Steam Heating Plant supplied by you for the... Factory, and the enclosed figures, prepared by the Garden Manager, show that in comparison with the four years previous to this installation there has been a reversion of over 50 per cent. in the total fuel consumed, and that with the "all steam" system, power and drying has been provided, with less fuel than was previously used for drying only.

The plant has proved highly satisfactory in service, and has given no trouble in regard to working or maintenance, while the elimination of Dryer Stove and Chimney renewals is an additional saving of considerable importance.

CHESS NOTES

Win By Floht, Master Of Position Play

(By A. HAYTON-ROBERTS)
THE following are the results of the great International Chess tournament which took place in London from September 22 to October 11. The event was won by Floht, who defeated his nearest rival, Keres, by a score of 10 to 7. Floht's play was characterized by a combination of brilliant tactical ideas and a firm grasp of the principles of chess. His play was particularly strong in the opening and middle game, and he was able to maintain a lead over his rivals throughout the tournament.

A TRIBUTE TO "THE FEW"

Mr. Winston Churchill, then Prime Minister, speaking in the House of Commons, said:— AUGUST 20, 1940. "The greatest of every hero in our Island, as in Europe, and indeed throughout the world, is that of the few. It is the few who stand up to the greatest challenges and mortal dangers, and who are the salt of the world, even by their presence, and by their death. Never in the field of human conflict has such a small force done so much."

SEPTEMBER 1.— "The German attempt to dominate the Royal Air Force and to use it as a weapon of mass destruction, by daylight attacks has proved very costly for them. The cost of the enemy in obtaining a superior force, and in the months which follow, has been very great, and it has been the members which have been the most costly. New Targets Set For Export Trades: Troops To Be Freed For Industry: Fewer 'Luxury' Workers

BRITISH industries have been told that to save the nation's resources a further £20,000,000 worth of goods must be exported in the next few months.

The new targets set them when the President of the Board of Trade, Sir Stafford Cripps, yesterday outlined in London the Government's new plans to narrow the gap in the balance of trade.

Failure to achieve this target, he said would mean the collapse of all our efforts. The task was immediate and very urgent. We had little time and very small reserves. The gap in our balance had got to be filled as quickly as possible before our ultimate reserves of foreign exchange and gold were run down below the danger mark.

He said it was obvious that the new export drive must be related to manpower and to find workers for every industry and agriculture additional staff were being made in the armed forces and Police and other jobholders employed.

It was also expected to reduce the number of people working in the less essential industries.

The Government had been asked to find two more hundred and fifty thousand men for the home market and to reduce the number of men working in the less essential industries.

West Indies Asked To Form Federation

THE BRITISH Colonial Secretary, Mr. Arthur Creech Jones, has called a conference here of seven British West Indian colonies to discuss federation that their only economic salvation lay in joining forces but his advice was rejected by Sir W. A. Bustamante, governor, Jamaica, Labour leader, who demanded immediate independence for all Caribbean territories.

Another Big Plan

Today we are able to give another glimpse of the scheme first announced in the Times last week. Standard on Friday, under which Kenya will have military stores worth millions of pounds and some thousands of people.

The scheme now made known however is itself sufficiently broad to have important repercussions on Kenya's economy.

To take over from the recruitment of 20,000 Africans in the Colony within the next two years will have a considerable effect on the districts from which these people will be drawn.

It is also clear that the Reserve will be affected and there will be a considerable transfer of money to the Districts.
