MARSHAL PRESSES FOR TWO G CHANGES

Plans Miniature General Assembly Settle Disputes And New Voting Scheme To Carry Forward Power Voters

THE first of a new United Nations body for settling with impartiality the disputes of the United States Secretary of State, Mr. Marshall, who stated that his plan would be the most effective procedure in the recently concluded Marshall Plan, New York, yesterday afternoon, after a series of dramatic changes.

A 15-member executive committee of peace and security, made up of 10 members, to deal with any situation likely to arise in the future, will be established in the United States. Mr. Marshall said that the United States is obliged to take action in any case.

Mr. Marshall said: "The creation of an executive body will make the facilities of the General Assembly essentially available during next year to all members of the United Nations. It will strengthen the machinery for settling disputes and place the responsibility for settling the disputes of the United Nations on the shoulders of the United States."

Mr. Marshall said that the United States will be prepared to add broad changes to the Marshall Plan, which is now being carried out under Chapter Six of the Charter (which will be amended in the future).

Mr. Marshall said that the United States will be prepared to add broad changes to the Marshall Plan, which is now being carried out under Chapter Six of the Charter (which will be amended in the future).

Agreement On All But One Point

Out To Beat The Vote

AFTER nearly seven months of the European Economic Conference on the Marshall Plan, the United States and the European countries have reached an agreement on all but one point. The United States is prepared to set up an organization to carry out the Marshall Plan, but the European countries are not prepared to do so.

NAIROBI WAR MEMORIAL

To the Editor, "The Standard"
I am glad to see that the War Memorial in Nairobi is being planned by a committee of patriotic citizens. It is a noble and a long overdue project. I think that the best way to raise the money for it is to have a public subscription. I am sure that many of our citizens would be glad to contribute to it. I have already made a small contribution.

Yours truly,
STEFAN SHILOV

TO THE EDITOR, "The Standard"

I read your issue of the 12th Sept. and was glad to see that you had published a notice of the death of a man who had been a member of the British Legion. I am sure that the British Legion would be glad to have such a notice published. I have already made a small contribution to the British Legion. I am sure that many of our citizens would be glad to contribute to it.

SWIMMING:

World Records Broken At Monte Carlo

A FEW days ago a week of exhaustive competitive swimming and diving the European Championships at Monte Carlo on Sunday afternoon. Triumph for France and tragedy for Britain marked the meeting.

The French swimmers have been very brilliant, being 100 per cent successful in their 100 yds. and 200 yds. races. The American swimmers were successful in the 100 yds. and 200 yds. races. The British swimmers were successful in the 100 yds. and 200 yds. races.

Earlier Record

Earlier in the race of men 100 yards was won by a British swimmer in 1 minute 40 seconds. The American swimmer won the 200 yards race in 3 minutes 50 seconds.

Britain's Tragedy

Britain's tragedy, an already recorded, lay in the death of the 100 yds. swimmer, who was killed by a stroke during the race.

Hungary Wins Cup

In spite of her brilliant 100 yds. victory, Hungary was defeated in the 200 yds. race by the United States team.

BOOKS.

The Understanding Of Fine Paintings

There is probably more re-learned fact and misconception about painting than about any other art. Lecturers for instance, speak with ideas and thoughts which may be correct, but in actual teaching in the mind's eye, they are almost a better degree, may bring associated images into your head and which are almost entirely unconnected with what they say. The other hand, books (ones or two) with responsible subjects but which are hardly difficult to be read, may do a great deal for you.

There has been a good deal of talk about the art of painting in the past few years. It has been said that the art of painting is a dying art. It has been said that the art of painting is a dying art. It has been said that the art of painting is a dying art.

BRITAIN AND U.S. ACCUSED OF EXPLOITING RUSSIA

Russia Says They Use It To Further Their Own Ends

THE UNITED STATES and Great Britain are accused of exploiting Russia to further their own ends, according to a statement issued by the Russian government in Moscow today.

The statement, which was published in the Soviet press, said that the two countries had been using Russia as a pawn in their own political games.

"Russia has been the victim of the exploitation of the United States and Great Britain," the statement said. "They have used her resources and her labor to further their own interests, while she has suffered the consequences of their actions."

BIDAULT SAYS 'LIFE OF UNO IS AT STAKE'

'Futile And Dangerous To Hide Seriousness Of The Crisis'

FRANCIS Bidault, French Minister for Foreign Affairs, said today that the life of the United Nations Organization was at stake.

He declared, in a speech at the annual meeting of the United Nations Secretariat in Geneva, that the proposal for the amendment of the veto power made by the United States Secretary of State, Mr. George Marshall, should be examined.

The problem, he said, how the 50-nation conference should be organized, was a matter of procedure, but the fundamental question was how to bring about a state of peace and security suggested by Mr. Marshall.

France felt that a statement by the Charter was not sufficient—not the only one at any rate—of the problems we have to face.

In a forthright warning to the delegates of the situation facing the United Nations, M. Bidault said: "The French position is both delicate and dangerous to conceal the magnitude and the seriousness of the crisis which has occurred for some time."

France felt that a statement by the Charter was not sufficient—not the only one at any rate—of the problems we have to face.

The view of British, the first of the Big Four powers, are expected today from Mr. Hector McNeill, Minister of State.

'Russia Has Made Two Europes'

THE former French Premier, M. Raymond Lacombe, said today that the United Nations Organization was in a state of crisis after one year of submission to the will of the Soviet Union.

He said that the Russian Government had made two Europes: one in the West and one in the East.

British Will Leave Palestine Unless—'

BRITAIN made a qualified decision during the weekend to withdraw her 100,000 troops unless the United Nations can produce a workable plan, it is reported in London.

Occupation To Cost U.S. More

It is widely understood that a special meeting of the Cabinet decided on the principle of withdrawal. But it is not clear what the consequences will be.

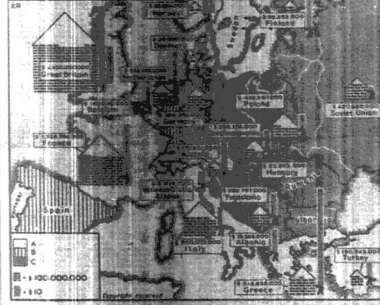

One Week Has Gone

Britain is reported to have decided to withdraw her troops from Palestine unless the United Nations can produce a workable plan.

Decline Point In Human History

Yesterday's news that the United Nations had decided to withdraw its troops from Palestine is a significant event in human history.

Dollar Aid At A Glance

Dalton Forecasts More Gold Sales And Points To 'Danger Signals'

A FORECAST that Britain will sell more gold and that it might well be that she will purchase more dollars from the International Monetary Fund has been made by the Chancellor of the Exchequer, Mr. Hugh Dalton, in a statement in London.

BIRD'S EYE VIEW OF THE PUNJAB

THE former Governor of the Punjab, Lord Mountbatten, and the Prime Minister, Pandit Nehru, flew over the Punjab yesterday to check on the progress of relief work.

Only Temporary

With regard to the International Monetary Fund, Mr. Dalton said that the matter is different. He has already said that the Government will not purchase more dollars from the International Monetary Fund.

Is No Longer 'A Shopping List'

THE British Foreign Secretary, Mr. Ernest Bevin, will visit Paris today at the final session of the 16-nation European economic conference on the Marshall plan.

It is understood that the programme in the report is in two parts, one written after consultation with the observations of Mr. William Clayton, the American Under-Secretary for Economic Affairs, and the other written by Mr. Bevin.

The 15 nations undertake to do everything they can to reach the production targets they have set themselves and to maintain confidence in their currency and their credit.

The nations assume certain commitments dependent on United States aid but it is believed that the United States assumes no commitments pending action by Congress.

The report stresses the need for an increase in production and it is hoped that April, 1948 at the rate of six million tons in that year and rising to 20 million tons in 1951.

Truman Back

In Washington, President Truman, here to the United States from the 12th of June, is to have talks with Mr. Bevin and it is expected that he will discuss the European economic conference.

The President's visit to Europe is a special mission in no other sense. It is a mission of goodwill and of friendship.

There is also strong pressure in the United States for a shift in the report from the Marshall plan to a more general programme of economic aid.

'Road To War'

The former American Secretary of State, Mr. George Marshall, has warned in Philadelphia that the United States is on a road to war.

He said that the United States is on a road to war because of the actions of the Soviet Union.

'Elevenses' Help To Tide Over The Gap Between Every Meal

ELEVENSES—used to be just a pleasant social custom. But nowadays people are now finding the morning coffee and lunch break necessary, and catering establishments are getting in on the act every time of the day.

They are able to do this because the latest coffee sets affect meals costing 25, 35 or 40 cents.

Whether they change and be a pleasant social custom, the restaurants are sure to be successful in the long run.

They are also sure to be successful in the long run. They are also sure to be successful in the long run.

EUROPEAN PLAN IN U.S. LANDS TODAY

Truman Persuaded To Call Special Congress Session?

King's Messenger, Mr. Walter Kirtland of London, who reported on the United States side yesterday, said the report on Europe's needs in the nations occupied by the Axis of the plan will go on to leading figures and heads of the United States Government for immediate consideration.

The chairman and the representatives of the Information Council on Europe, Mr. Oliver Frank and Mr. Herve Alphonse, will go to Washington tomorrow to discuss with United States officials the further developments of the plan.

It was reported from Washington yesterday that the Secretary of State, Mr. George Marshall, is believed there to be writing President Truman to call a special session of the Congress to be called very soon to discuss not only the Marshall plan but the "rebuilding program" which the report will propose. Washington messages say that most of the small number of Senators and members of the House of Representatives are present in the city say that Congress will require much more time before acting on the report.

It is added that there was distinct hostility in those circles to the idea of a special session of Congress to consider the report.

New Zealand Says No

The prime minister of New Zealand, Mr. Peter Fraser, yesterday said that New Zealand would not support the Marshall plan. He said that New Zealand was not a member of the British Commonwealth and that it was not bound by the Marshall plan. He said that New Zealand was a self-governing country and that it would decide its own policy.

Not Charity

Analysis Of Four-Year Plan For Europe's Recovery

16,500 MILLION DOLLARS REQUIRED IN U.S. AID

AN ANALYSIS of the report of the Monetary Committee convened in Paris which has been sent to Washington in reply to the Marshall aid plan and which has been described as a long-awaited study for Europe's recovery, shows that estimated American aid to the amount of 16,500 million dollars over the period 1948-1962 will be needed to cover the trading deficits of the 16 countries concerned.

The total trade deficit with the dollar area is estimated at 100 billion dollars over the ten-year period 1948-1957. The International Bank for Reconstruction and Development estimates that the deficit over the next four years will be 16,500 million dollars, and that this balance is convertible into dollars, the deficit is reduced to 10,000 million dollars.

The report shows the European recovery programme as being based on four interdependent lines of action:

First, a sound re-orientation of the European economy to meet the needs of the world market. This is done through the creation of a common market. The second line of action is to improve the European economy and to increase the productivity of the European countries. The third line of action is to improve the European economy and to increase the productivity of the European countries. The fourth line of action is to improve the European economy and to increase the productivity of the European countries.

No Inflation The Second Stage

The report is not a "warning" but a "warning" that the European countries must be prepared to meet the needs of the world market. It is not a "warning" but a "warning" that the European countries must be prepared to meet the needs of the world market. It is not a "warning" but a "warning" that the European countries must be prepared to meet the needs of the world market.

Reasons Why

There are three reasons why, even if the European countries were to meet the needs of the world market, they would still be in need of American aid. The first reason is that the European countries are still in need of American aid. The second reason is that the European countries are still in need of American aid. The third reason is that the European countries are still in need of American aid.

Better light - lower cost

IN THE HOME, OFFICE FACTORY & WORKSHOP

FLOURESCENT LAMPS are a tremendous advance in the quality and economy of artificial lighting...

The greatly increased illuminating power of the fluorescent lamp is represented by glare but by a full diffusion of the light, producing a true daylight effect...

Fluorescent lighting is kind to the eyes and in spite of its greater illuminating power, produces scarcely any heat, making for greater personal comfort and reducing fire hazard.

FLOURESCENT LIGHTING is easily and economically installed in any type of premises and provides ideal illumination for work places of all sizes.

Equipment is now readily available and every advantage should be taken of present supplies.

Beers The 'Food' For Britain's Scheme

THE BEER industry has announced the sale of its stock to the Government under the scheme for the nationalisation of the brewing industry. The Government has agreed to purchase the stock of the 150 breweries for a total of £1,000 million. The breweries are to be run on a non-profit basis for the benefit of the public.

Controller's Answer To Mr. O'Shea

MR. O'SHEA's criticism of the Controller of the Customs and Excise has been met with a detailed reply. The Controller stated that the Government's policy is to ensure that the revenue is not lost and that the public interest is protected. He emphasized the need for strict control over the import and export of goods.

24-Hour Scheme

THE 24-hour scheme for the supply of electricity has been approved. This will ensure that there is a continuous supply of power for domestic and industrial use throughout the day and night. The scheme will be implemented in stages over the next few months.

IN HAIRMONY

THE relations between the Government and the public are becoming more harmonious. The Government is taking steps to address the concerns of the people and to improve the standard of living. This includes measures to reduce unemployment and to increase social services.

Tribunal Told Reason For Controlled Sales

A TRIBUNAL has been told the reasons for the controlled sales of certain goods. The tribunal found that the controls were necessary to ensure that the goods were distributed fairly and to prevent speculation. It also noted that the controls were in line with the Government's policy of rationing.

Class Wars

THE class wars in Africa are continuing. The rich are getting richer and the poor are getting poorer. This is due to the unequal distribution of wealth and the lack of social services. The Government is urged to take action to address these inequalities.

Close Watch

A CLOSE watch is being kept on the activities of certain individuals. The authorities are concerned that these individuals may be involved in activities that are detrimental to the national interest. They are being monitored to ensure that they do not engage in such activities.

One Man

ONE man has been identified as being involved in a recent incident. The authorities are looking for this man and are offering a reward for information that leads to his capture. It is believed that this man is a key figure in the activities of a certain group.

Some Night Watchmen Are Good

SOME night watchmen are doing a very good job. They are responsible for the security of the city at night and for ensuring that the streets are safe. They are often the only people on the streets at night and they play a vital role in the community.

EXPEDITION'S APE FINDS AT RUSINGA

A PE has been found by an expedition in the Rusinga Islands. This is the first time that an ape has been seen in this area. The expedition was led by a team of scientists and they were looking for evidence of the presence of apes in the region.

Best So Far

THE results of the expedition are the best so far. The team has collected a large amount of data and has discovered many new species. This is a significant contribution to the field of biology and it shows that there is still much to be learned about the natural world.

24-Hour Scheme

THE 24-hour scheme for the supply of electricity has been approved. This will ensure that there is a continuous supply of power for domestic and industrial use throughout the day and night. The scheme will be implemented in stages over the next few months.

WEST INDIES LIKE THE IDEA OF A FEDERATION

THE people of the West Indies are in favour of a federation. They believe that a federation would bring about greater stability and prosperity in the region. It would also allow for the better management of the region's resources and for the development of the area.

STOP-GAP AID PLANS UNDER WAY?

The United States State Department is reported from Washington to be pushing ahead with plans for stop-gap aid to Europe until the Marshall Plan can be put into effect. One measure is a new instruction to the American delegates of the 'Three Powers' Gold Committee to begin distribution in October of gold loaned by the Germans.

With entries from Britain and the European countries being made in the Marshall Plan, it is expected that the administration has arranged an agreed figure on its part and based on information supplied by the countries themselves. The plan is to provide for two loans, one for the United States and one for the European countries.

Chess Notes SUBTERFUGE GIVES SCOPE TO NATURAL TALENTS

MOORE has reached a high state of technical skill and a sound knowledge of opening theory has become a general rule that the master has frequently in mind a sacrifice in order to gain a position which his own natural talents may be unable to reach.

This is particularly the case in the present chess opening, where the "advantage of the move" frequently makes it very difficult for the opponent to do any more than react, especially when quite an advanced stage of the game has been reached. In such cases, the player who is on the move, and to his great advantage, may choose to sacrifice a knight or a pawn in order to obtain a position which is more favorable to his own natural talents. This is particularly the case in the present chess opening, where the "advantage of the move" frequently makes it very difficult for the opponent to do any more than react, especially when quite an advanced stage of the game has been reached.

DOM PALM AS SUBSTITUTE FOR HESSIAN

"STRAW" LAMP CONSUMPTION... A number of growers have already made the change to Dom Palm as a substitute for Hessian.

In view of the shortage of quality straw lamps, growers are turning to Dom Palm as a substitute. Dom Palm is a high quality lamp which is easy to use and gives a good light.

Why this simple "Two-Way" Treatment STOPS COLDS OVERNIGHT

1. GARGLE FREQUENTLY WITH L.E.A. ALL DAY AND AT NIGHT

2. TAKE SMALL DOSES OF T.C.P. IN REGULAR INTERVALS AT NIGHT

AT GOLD mines in some cases a 40 per cent increase in output has been reported since the start of the year.

"Boyie" your skin to brighter, smoother beauty!
 After one minute, wipe off the cream and see the result. Your skin looks like a baby's skin. It is so smooth and so soft. It is so beautiful and so lovely. It is so perfect and so complete. It is so simple and so easy. It is so quick and so efficient. It is so safe and so reliable. It is so good and so great. It is so wonderful and so amazing. It is so unique and so special.
