Her Aching Joints and Depression Vanished

An old age woman in sight, it often sends out warnings in the form of minor aches and pains in the joints and muscles. This letter tells how old elderly women dealt with them—

"Although I am nearly 60 years of age I once very badly got far enough crippled, I had been getting rheumatism, but I combined with a feeling that I was not worth living. So I said to a few days the other was dropped feeling. One doctor after another said my condition was hopeless. I had returned and so weak—

"Mrs. E.H.

There is an law that compels people to look after themselves.

"That's up to them. The fact that some important ones in the lower down and the history was had. Reason was that in the summer, now because it is a trouble, when I have a headache to me.

Her health and power that she was to flourish and other things were reached over through the history. The work on poultry improved in work naturally and naturally. The result is not so consumption, and depression. Her health is obtainable of all climates.

SAVING DOLLARS

While nobody can be expected to welcome with unqualified cheerfulness a proposal to add to the already very high cost of living in Kenya, it is not surprising that the three East African Governments with a view to reducing the cost of living have agreed to meet on Monday next to discuss the possibility of reducing the cost of living in the three territories.

Tableau at the army's Tattoo

The East African Standard Tattoo is to be held on Friday, Saturday and next Monday, at the Victoria Grounds, Nairobi. The programme will be headed by the following:

DARA projects
In this connection the Committee recommends the allocation of revenue to be made on the basis of the DARA scheme and in line with the public assistance to other projects in the various territories.

Expose the Tax Dodgers. Says the Committee

The task
The committee has the following terms of reference: (a) to examine and report upon the incidence of the present system of taxation in Kenya and the various territories; and (b) to report upon the yield of taxation in Kenya and the territories to the national income and the taxable capacity of the territories.

'New' money
Important suggestions are made regarding the 'new' money coming into the country. It is suggested that the introduction should be encouraged as far as possible, but that it should be handled in several ways.

Big job of 1948 will be counting everyone

Immense value
Measures will be taken to ensure that temporary visitors and aliens and people in transit throughout East Africa are included in the enumeration.

In the towns
It is expected that non-Natives and Natives in towns will be counted in the 1948 census.

'High proportions'
While admitting that it had no precise figures, the committee is of the opinion that the proportion of the population which is called upon to make will be a high proportion.

The arrears
The committee made straight into the problem of arrears tax assessment amounting at £200,000.

More about the Flewmen report on Kenya Taxation

Poll Tax collection is 'ineffective' FIVE WAYS TO TIGHTEN IT UP

THE FLEWMEN taxation committee of inquiry makes some suggestions in its report to the Government. The committee has found that the collection from any given district is dependent on the number of taxpayers who are registered in that district. It is in districts that the collection is low that the committee has found the greatest need for improvement.

Encouragement

The committee has suggested that the Government should encourage the collection of poll tax by offering incentives to taxpayers who pay on time. It also suggests that the Government should improve the methods of collection.

Protection

The committee has suggested that the Government should protect the poll tax collection by providing security for the collectors. It also suggests that the Government should improve the methods of collection.

Edmund N. Moskow

Edmund N. Moskow, a well-known expert on taxation, has written a book on the subject of poll tax collection in Kenya. The book is available from the East African Publishing House.

Ready for anything!

Except perhaps a headache!

But that sparkling eye, those rosy, chubby cheeks speak of abounding health and vitality, and a resistance to chills and changes not dependent on his clothing.

Yes, he is a COW & GATE baby—he looks it, doesn't he?

Strong, sturdy limbs, sound bones, and a sunny disposition—these are some of the gifts bestowed by this famous food.

Something a little better, something a little different, have made COW & GATE pre-eminent. This is why Mothers say: "There is nothing quite like it—nothing so good when natural feeding fails."

CHESS (By S. BANTON-SACKETT)

POLOVNIK is another example of a chess puzzle. The white king is in check. The puzzle is to find a move for white that will checkmate black in two moves.

Chess puzzles are a popular pastime. They challenge the player's tactical and strategic skills. This puzzle is a classic example of a 'back rank' attack.

Chess board diagram showing a specific position for a puzzle. The board is labeled with algebraic notation (e.g., K1-K8, P1-P8).

Chess puzzles often involve sacrifices and tactical maneuvers. In this puzzle, white has a pawn on e5 that is a key to the solution.

Chess puzzles are a great way to improve your skills. They help you learn to see threats and opportunities that you might miss in a regular game.

Plan to clear 100 square miles in Kerio valley

MORE than 100 square miles of good land may become available for use by the Empire if experiments now proceeding in the Kerio Valley prove successful.

The Kerio valley lying at an altitude of about 2,000 feet and 50-60 miles to the South East of Eldoret is at present uninhabitable, being infested with both malarial mosquitoes and tsetse flies. However, as the Provincial Commissioner, Rift Valley Province, recently held a meeting of the Eldoret Council, Native Council, Government does not consider it right that such a large and fertile area should be left lying idle.

Consequently, it is proposed, as an (extensive and anti-malarial work is being carried out, but has been initiated with the full approval of the trustees. It is being explained to them that the present scheme is only on a small scale and is purely experimental. If it proves successful, the whole area, which is well-watered and capable of growing good pasture, will be cleared out to livestock.

Recently a party of Empire Light Native Constables were taken to the site by Mr. Kelly, late of the Soil Conservation Department, who is now in charge of the Kerio Valley Development Scheme, along the river mud into the valley. A hydrographic survey will be carried out to investi-

gate the chances of draining the malarial areas including the districts of Turk, Kericho and the Kerio (East). The possibility of draining the Kerio is also being examined. The main objects of the scheme are to provide pasture for cattle by elimination of the tsetse fly and control of malaria.

Highly Satisfied

The Councilors said they were highly satisfied with what they had seen, and Chief Chemoche, the vice-president, later told Council that the Government is going ahead with the scheme, as they know that the improvements being made will be money being spent well for the benefit of the Empire and for the native people.

Councillor Kiniga Chemoche pointed out that there would have to be found 300 suitable cattle returning to the reserve and the job attention ready for use would help to show them.

The president said that as far as he is able it is the intention of the Government to carry out the work for the benefit of the Empire.

Splendid display at Eldoret flower show

From a flower show held at Eldoret on the 17th and 18th inst. a splendid display was made of the products of the local florists. The show was held in the grounds of the Government Office, Eldoret, and was attended by a large number of people. The display was most interesting and well arranged. The following are some of the exhibits: A large number of different varieties of flowers, including roses, carnations, and geraniums. There were also several large arrangements of flowers, including a large one of white roses and a large one of red carnations. The show was a great success and was well attended.

NOTHING COULD BE FINER

What has brought about changes to the traditional of Jamaica? When today the impression probably persists that Jamaica has the major part of the Colony's exports, beyond rum, sugar, tobacco, and other products, it is a mistake. The fact is that Jamaica has a wide variety of other products, including citrus fruits, pineapples, and other tropical fruits. These products are of high quality and are in great demand in the world market.

The product characteristic of a particular country, whether it be sugar, rum, or other products, may well bring about another series of the problem. Modern commercial development of such a product, however, is based on a study of the market conditions. Full and up-to-date information, backed by an intimate knowledge of the market, is essential to the success of any commercial enterprise.

Akamba want to settle in Makueni - but without rules

Requests by the Makhoia LINC that Akamba should be allowed to settle in Makueni without any rules to control farming are not likely to be approved by Government, stated the President, Mr. R. C. Hovenden, District Commissioner, at a recent meeting of the Council, following a report of inspection by a party of six of its members. It was Government's intention to see that the same did not happen to Makueni as had happened to the rest of the Kenia reserve, and he warned Council members that if they pressed for more land for the Akamba, Opposition was expressed to them, and Government would not be prepared to control farming and prevent overstocking. Some members, said Mr. Hovenden, had asked that the Makhoia LINC should be allowed to settle in Makueni, but he pointed out that the Government would not be prepared to do so without rules to control farming and prevent overstocking. He said that the Makhoia LINC should be allowed to settle in Makueni, but he pointed out that the Government would not be prepared to do so without rules to control farming and prevent overstocking.

Dalton to present second Budget early in session?

IN TALK OF UNION LOAN. HE WARNS OF SACRIFICES

Mr. DALTON budget looks like being the first big move in the new Government's economic policy. Following the Stafford Cripps's forecast of a dollar imports, the Chancellor of the Exchequer has been busy with the possibility of an extension of the 1929-30 budget, the subject of much rumour in London.

Speaking to London bankers about the agreement under which South Africa has been reduced from £10 million in gold, Mr. Dalton has added in a warning that the people of Britain must be prepared to make sacrifices in the event of a new Parliamentary session to make financial progress on a stronger basis than the budgetary programme for last session began on October 20.

That ounce of bacon is in doubt

EVEN the ounce of bacon in it which Britain's weekly ration has been reduced cannot be kept up for long if the strike situation must persist—the cause of this latest cut—lasts indefinitely.

The Government's announcement that it will reduce the ration of bacon to one ounce a week on a permanent basis has caused a great deal of concern in the country.

'Milk as pure as water'

THE Milk Commission has announced that it will issue a new code of practice for the production of milk in the United Kingdom.

Britain buys fruit, wines, eggs

IN accepting the agreement with the Union as a result of the negotiations, Mr. Dalton praised the vigorous trade relations between the United Kingdom and New Zealand to cut their losses.

World bank chief has confidence in Britain

Mr. J. M. Keynes, Chief of the International Monetary Fund, has expressed his confidence in the British Government's financial policy.

IT'S OBJECT—TO CHECK RELATION

THE object of the new agreement is to check the relations between the United Kingdom and the United States.

Must be fair

It is essential that the new agreement be fair to all parties concerned.

Canada's gift

Canada has presented a valuable gift to the United Kingdom.

London to clear the air on sterling imports

First directives 'were hasty': NO PLANS THAT CAN WAIT WILL BE ENCOURAGED

A British statement may be made this week which is intended to clear up misunderstandings about the British Government's view of Colonial imports from the United Kingdom during the present emergency.

There have been high-level discussions since the original Colonial Office directives were issued.

It seems generally agreed here in unofficial circles that these directives were somewhat hasty in their issue. It has been shown that there are many different and conflicting angles to the problem of future import policy.

Considering all the arguments

A London official spokesman declined on Saturday to accept the view that there are divergences of opinion between Government departments—lawyers, for instance, the Treasury and the Board of Trade—and preferred to say that the position was one of inter-departmental conflict but of careful consideration.

It is clear, however, that it has been necessary to review the whole problem in the light of Colonial reactions—such as East Africa's Colonial Office directive and the impression that that there will be less rigidity than originally suggested.

It is very clear, however, that some first orders, secondly, the official made it clear once again that the dollar shortage is a very real and serious feature of every dollar must be carefully considered.

It was also stated that by substituting sterling area goods that will be the primary aim.

It is not clear, it is said, that the dollar shortage is the only problem that the British Government is concerned with. It is also stated that the British Government is not concerned with the dollar shortage in the light of other serious problems.

In this official view it is only the dollar shortage that is the only problem that the British Government is concerned with.

It is also stated that the British Government is not concerned with the dollar shortage in the light of other serious problems.

U.S. SUPPORT OF PARTITION ANGRERS ARABS

'We will accept the challenge'

AMERICANS eagerly-awaited declaration of her policy on the Palestine problem—favoring partition, with an international immigration—pleases the Arabs and is welcomed by the Jews.

The Arab League Secretary-General, Azzam Pasha, sums up Arab opinion by saying that America, already "the most unpopulous country in the Middle East," has taken a step that makes her even more unpopular.

Jewish agency circles welcome the United States decision as leading to a speedy solution of the problem.

Azzam Pasha says that partition is a "challenge" to the Arab world. He says that the Arab world will accept the challenge.
