## Support for hydro plan expedited from Colonial Office

SIR BOY WELLESLEY, European Liaison in Northern Rhodesia Legislative Council, said he is convinced that the Colonial Office for the C.A. has given its wholehearted support for the hydro plan. The Government of the Central African Federation are planning the construction of the £20,000,000 Kariba dam, extending on the Victoria Nile.

Mr. Wellesley said that the plan is to build a dam on the Victoria Nile, which will be 1,000 ft. high and will have a length of 2,500 ft. The dam will be built on the Victoria Nile, which is 1,000 ft. wide at the site. The dam will be built on the Victoria Nile, which is 1,000 ft. wide at the site. The dam will be built on the Victoria Nile, which is 1,000 ft. wide at the site.

## India not to interfere

The Indian Government, it is understood, has decided to refrain from interfering with the Government's plan to build a dam on the Victoria Nile. The Indian Government has decided to refrain from interfering with the Government's plan to build a dam on the Victoria Nile.

## 'On the spot' advice sought in education

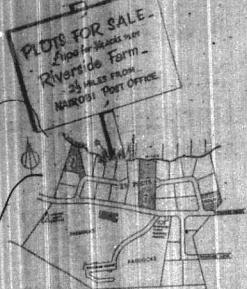

### APPEAL TO NJORO SETTLERS

THE Kikuyu District Education Officer, Mr. A. A. H. Phillips, laid an appeal to members of the Njoro Settlers' Association for cooperation and ideas that the Secretary of Kenya's Education Department was now to send to the officers of "people on the spot" first and impose afterwards. In the past, he added, the imposition often came from Nairobi.

Before the Emergency, he said, there had been about 200 settlers' schools and six intermediate schools in the Lower Rift. Since the outbreak of the war, however, the number of these had been reduced to one or two in the case of farm schools—because themselves had been neglected. The Emergency had resulted in the construction of a great number of bad schools. These were not so much in the Lower Rift and they had been recommended for the Director of Education by the Department.

They were not intended to be permanent schools but were intended to be temporary ones. They were not intended to be permanent schools but were intended to be temporary ones.

**THE 'ONLY HOPE' FOR KENYA**  
Oxford professor addresses Nakuru Rotarians

THE only hope for Kenya was for the European to come out of his aloof society... which has been understood and that the African should not be so pugnacious with the proconsul doctrines which had smothered the Kikuyu that co-operation on his part would become impossible.

### Faith fights battle on Athi plains

At Athi River Internment Camp... a mist of red and black buildings... Faith and fervour are fighting the second round against Mau Mau.

This enemy lies in the evil attributes of the Mau Mau movement—fanaticism, fear and frustration. While the British and the police continue their successful campaign against Mau Mau, the Mau Mau men are engaged in the task of rehabilitating those taken with the Mau Mau terrorist doctrine.

#### STRONGLY SUSPECTED

Inside the inter-barbed-wire compound... 170 men detained under the Emergency Regulations. Mau Mau officers, though all are strongly suspect.

#### HARD WORK, DISCIPLINE

Whether one calls it psychological warfare, deconditioning, indoctrination, rehabilitation or vocationalism, the latter term is the most apt. It is no guesswork, for similar post-war schemes have been used in Greece against the Communists, and more recently in Malaya against terrorists, with reasonable success.

### EXPERIMENT TO RID AFRICANS OF MAU MAU DOCTRINES

Doctors discuss how the delinquent repairs the food in the camp kitchen... and other means. Since the present experiment it must be possible to make Mau Mau a thing of the past... The Mau Mau men are engaged in the task of rehabilitating those taken with the Mau Mau terrorist doctrine.

#### NO PROMISES

It is no holding camp, in the words of the Camp Commandant... The Mau Mau men are engaged in the task of rehabilitating those taken with the Mau Mau terrorist doctrine.

#### RELEASE HOPES

The delinquent on the whole... The Mau Mau men are engaged in the task of rehabilitating those taken with the Mau Mau terrorist doctrine.

### Talking of HAIR... how is yours?

Two many men and women take their hair for granted. Only when it becomes dry and flaking or comes out on the comb, they realize that to look well, hair must be well. To understand hair growth, you must understand how hair grows.

If you are suffering from severe dandruff, greasy scalp or falling hair, you must take a course of Silvikrin. There is no other product in the world like it. For less than a pound, Silvikrin will give you the best hair treatment.

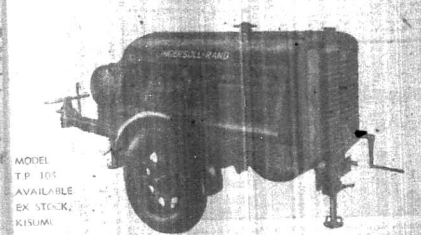

The hair's natural food consists of its natural substances to which Silvikrin has given such names as 'vitaminoids', 'proteinoids' and 'resinoids'. A shortage of these natural materials of the hair, or of the hair during its growth, causes gradual surounding and subsequent falling hair which, if unchecked, inevitably leads to baldness.

### £25,000 scheme for street lighting in Mombasa

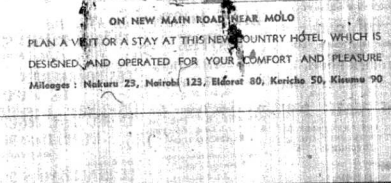

NEARLY ten miles of brilliantly lit streets will be a feature of Mombasa's commercial centre when a new £25,000 lighting scheme for street lighting is completed. The scheme is being carried out by the Municipal Board's plan for wider carriage-way streets in the lower centre.

Already the erection of Kilobomb Road from the river centre to the docks is completed and it is in progress to be lighted. Work on the installations from the town centre to Kariakoo and along the extension of Salim Road to the new Kariakoo is being pushed forward.

An official of the East African Power and Lighting Company, which is carrying out the work, said: 'The scheme will be completed by the end of the year.'

### RONEO visible records

Every underlying commercial, industrial or professional - must keep records. Roneo's stock records - of quantities, records of employees, etc. Vital in these records are the time spent in every day's business activities. The less time devoted to these activities, the more is available for productive work. That is why the modern trend is toward clearer, better and more easily handled systems. Roneo Visible Recording methods are the outcome of long and painstaking research into this problem. They result in the least possible time being spent in recording, immediate access to all information, and a clear indication of those matters which require attention. By filling in the details below, further details will be sent by return.

INQUIRY ONLY. TO EAST AFRICAN STANDARD LTD., BOX 388, NAIROBI. PLEASE SUPPLY FURTHER DETAILS OF THE RONECO SYSTEM. NAME: ADDRESS:

# Journey Through Nigeria

The Africa Standard, Friday, October 2, 1952

WITH  
WYNFORD VAUGHAN THOMAS

'I found a country full of fantastic contrasts, packed with furious swimming life, where politics are conducted with desperate intensity, but where there is a rich, warm-hearted laughter, and progress on a scale which would have been inconceivable 50 years ago. This is the first of four articles in which Wynford Vaughan Thomas gives his first-hand impressions of Nigeria, largest Colony in the British Commonwealth.'

"Ferry in Asaba." To carry first impressions from the land the author made quick pan-orchester throughout his tour.

It is a country packed with life, where politics are conducted with desperate intensity, but where there is a rich, warm-hearted laughter, and progress on a scale which would have been inconceivable 50 years ago. This is the first of four articles in which Wynford Vaughan Thomas gives his first-hand impressions of Nigeria, largest Colony in the British Commonwealth.

London, the capital, is rather a European town. It is the first European town of any size in the country. It is a city built on a hill, with a view of the Niger River and the surrounding country. The architecture is a mixture of European and African styles. The city is well planned and has a modern appearance.

Dr. Awolowo is a comparative newcomer to leadership. He has done his major revolution in the last five years, and he is the only other modern politician in the country. He is a man of high ideals and has a strong sense of duty. He is a man of high character and has a strong sense of duty.

The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth.

Dr. Awolowo was keenly interested in the work of the Council for Nigeria and the Commonwealth. He was keenly interested in the work of the Council for Nigeria and the Commonwealth. He was keenly interested in the work of the Council for Nigeria and the Commonwealth.

The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth. The Council for Nigeria and the Commonwealth.

A typical Nigerian family. which had not been to the south for some time. It is a family of some wealth and is a typical example of the new class in Nigeria. The family is well educated and has a modern outlook.

It is a typical Nigerian family. which had not been to the south for some time. It is a family of some wealth and is a typical example of the new class in Nigeria. The family is well educated and has a modern outlook.

Land of contrasts. Strange ways of life. In this country, there are many contrasts. There is a wide variety of customs and traditions. There is a wide variety of customs and traditions. There is a wide variety of customs and traditions.

There are no doubts of their status in the country. They are a well established and well respected community. They are a well established and well respected community. They are a well established and well respected community.

Colour bar. This is not the only one of the many contrasts. This is not the only one of the many contrasts. This is not the only one of the many contrasts.

Works out even. How often in Nigeria do I find that an African who is a member of the European community. How often in Nigeria do I find that an African who is a member of the European community.

They are proud. I know that the Europeans who have been in Nigeria for many years. I know that the Europeans who have been in Nigeria for many years.

Bearing at top of motor shaft through opening in housing. Switch Handle locked close to bare for best sanding control. Auxiliary handle may be moved to optional positions at either side or in front of Sander to suit operator. Standard equipment includes 6-3-3/8" x 2 sheets of abrasive paper & 2 Coarse, 2 Medium, & 2 Fine.

ON every type of work where tiresome hand sanding has formerly been necessary to produce a fine satin-smooth finish, the NEW Black & Decker No. 44 ELECTRIC SANDER will appeal to HOME CRAFTSMEN, CABINET MAKERS, CARPENTERS, PATTERN MAKERS, PAINTERS, FINISHERS, BOAT BUILDERS, REPAIRMEN, ETC.

Even a novice can produce professional results because of the ease with which the No. 44 Sander can be handled. It's 10 times faster than hand sanding... light in weight and will not track, score or burn the surface.

A new ingenious, positive-locking device also makes changing abrasive paper quick and easy, as the paper holder remains open during the change and both hands can be used.

Consider the many job applications and the tool specifications and order the No. 44 Sander now from any of the stockists listed below, or direct from Gilfillan & Company, Limited, Nairobi.

Look at these performance-proved advantages:

- Full-width design. All grain entered the full width of the machine. The lower supporting structure is built in one long and 135 sections to dismount.
- Self-aligning chaffer. The crop flows evenly and is not thrown to one side or the other by unevenness in the grain or by unevenness in the chaffer.
- Balanced flow for better harvesting. The 22 1/2 hp heavy-duty engine for punch!
- Positive separation. The 1 1/2 ton per hour separating capacity is made possible by the use of a double-chambered grain separator.

**Touring The English Lakes**

As I sat in the motor car, the driver, a young man, turned back the headlights and pointed out the rocky high ground. It is like a mountain, he said, and the heart of the lake is in the valley. At 5,000 feet a sharp descent led to the lake. The descent was steep, and the car slipped and skidded. The driver, a young man, turned back the headlights and pointed out the rocky high ground.
