CLOSE OF CONVERSATIONS IN BERLIN

GENERAL SATISFACTION AT RESULT

An Improved Atmosphere

GERMANY PREPARED TO DISARM IF OTHER POWERS DO LIKEWISE.

The conversations in Berlin between the British and German Ministers have concluded, and Sir John Simon has left for London and Mr. Anthony Eden for Moscow. A communique issued at the close of the discussion states that all points in question were clarified.

It is stated that the German attitude towards armaments was that Germany would disarm if all other Powers disarmed, but would embark on intensive armament if a single Power started such a movement.

The British Ministers are stated to be satisfied with the result of the negotiations, and both Governments are now thoroughly conversant with each other's point of view. They feel that the visit was fully justified.

Visit Fully Justified

Mr. Anthony Eden's secretary has written an invitation by Czecho-Slovakia to visit Prague which he will accept on April 4 on the occasion of his tour to Berlin, Moscow and Warsaw.

Comments Decried

An attentive House of Commons listened when Mr. George Lansbury, Leader of the Opposition, made an adjournment of the House in order to discuss the international situation. He said Germany had thrown a challenge to demanding the right to develop a Navy and to embark on a policy of armaments which would inevitably plunge the world into a general disarmament. He urged the Government to formally propose a new disarmament but to make it clear that British policy was based on Government.

Mr. Herbert Samuel, the Liberal Leader, urged that the Liberal Party should not be misled by Mr. Anthony Eden's statement that the Government was not contemplating any special agreement between Germany and other countries. The settlement will only be solid if it is comprehensive.

Mr. Prentiss' Views

The House cheered when Sir Herbert Prentiss said "Equality of status for Germany, yes, but German military predominance, no." He added that Sir John Simon would go to Berlin with the full confidence of the nation. He said that the Berlin visit was a success. The series of constitutional visits would be expected to be completed in the next few weeks. He added that it was unnecessary to discuss the visit of other states, but to press one's own views on other points.

Useful Purpose

He declared that his visit to Berlin would have a useful purpose, an equality, sympathy, and the English Air Pilot. He was satisfied that present negotiations could not be allowed to

against Germany's unilateral action revealing the disarrangement of the German position, and emphasis that Italy has always been ready to negotiate. The Note suggests that Germany have concluded the matter by negotiation.

Germany's Reply

Berlin, March 21. Baron von Neurath's reply to the French Note states that the Government does not take into account the actual position, but the position as it appeared in Germany.

Appeal to the League

According to a Paris message the Note to the League does not ask for the formation of a Council, but it is considered that there is a possibility of such a Council. The communication however, drew the attention of the League of Nations to the fact that the League of Nations and the League of Nations are not the same.

Appeal to the League

According to a Paris message the Note to the League does not ask for the formation of a Council, but it is considered that there is a possibility of such a Council. The communication however, drew the attention of the League of Nations to the fact that the League of Nations and the League of Nations are not the same.

Barrain in Germany

On the other hand the French appeal to the League is viewed as a "Doppel Alliance" by the German press. The "Doppel Alliance" is the League of Nations and the League of Nations.

The French Note

The French Note of protest against the military developments in Germany was formally presented to Baron von Neurath, the German Foreign Minister in Berlin, on the 17th inst.

FRANCE PREPARING

Frontier Posts Being Strengthened

Paris, March 21. The German Army will shortly number 720,000 men, comprising 500,000 in Germany and 220,000 in Austria. Mr. Chamberlain said that the German Army was being strengthened. He added that 72,000 men of the German Army were being sent to Austria. He added that the German Army was being strengthened.

UNITED STATES IN BRITAIN

Whole Country Acting Together

The European situation formed the subject of a special meeting last night by Sir John Simon at the British Embassy in London. Sir John Simon emphasized that it was his duty to represent the views of the British Government on the European situation.

French Barrain

London, March 21. While French Press comments on Sir John Simon's speech in the House of Commons were generally favourable, the Berlin newspapers generally praised the speech.

ITALY'S ARMY

Likely to be Greatly Increased

Rome, March 21. Italy who already has over 600,000 men under arms may soon start up even more classes, according to the Italian press.

A MISSION OF PEACE

General Backing for Sir John Simon

Berlin, March 21. The Foreign Office in London has received a message from the German Government that the German Government is prepared to discuss the European situation.

AMERICAN ATTITUDE

Closely Watching Events in Europe

Washington, March 21. The United States is closely watching the European situation. The American Government is prepared to discuss the European situation.

PARIS CONVERSATIONS

Optimistic Atmosphere in France

Paris, March 21. The atmosphere in Paris is optimistic. The French Government is prepared to discuss the European situation.

Mr. Eden in Paris

Paris, March 21. Mr. Anthony Eden is in Paris. He is attending to his duties as Foreign Secretary.

A MEMORANDUM CONCERNING

The "Daily Telegraph" says the visit was a success. The British Government is prepared to discuss the European situation.

FRANCE AND ITALY

Agreement for Connected Action

The Italian Government has agreed to a connected action with the French Government. The agreement is for a connected action.

thing which matters. It adds that the British Government is prepared to discuss the European situation.

THE EUROPEAN SITUATION

More Concisely Called to Colors

Rome, March 21. "Our desire for peace and collaboration in Europe is based on the principle of self-determination," declared Signor Mussolini in a speech to the Chamber of Deputies on the occasion of the 21st anniversary of the formation of the Fascist Party.

ITALY ARMING

More Concisely Called to Colors

Rome, March 21. "Our desire for peace and collaboration in Europe is based on the principle of self-determination," declared Signor Mussolini in a speech to the Chamber of Deputies on the occasion of the 21st anniversary of the formation of the Fascist Party.

AIMED AT FRANCE

The remainder of the 1931 treaty was not mentioned in the speech. The speech was aimed at France.

AMERICAN ATTITUDE

Closely Watching Events in Europe

Washington, March 21. The United States is closely watching the European situation. The American Government is prepared to discuss the European situation.

PARIS CONVERSATIONS

Optimistic Atmosphere in France

Paris, March 21. The atmosphere in Paris is optimistic. The French Government is prepared to discuss the European situation.

Mr. Eden in Paris

Paris, March 21. Mr. Anthony Eden is in Paris. He is attending to his duties as Foreign Secretary.

A MEMORANDUM CONCERNING

The "Daily Telegraph" says the visit was a success. The British Government is prepared to discuss the European situation.

FRANCE AND ITALY

Agreement for Connected Action

The Italian Government has agreed to a connected action with the French Government. The agreement is for a connected action.

AMERICAN ATTITUDE

Closely Watching Events in Europe

Washington, March 21. The United States is closely watching the European situation. The American Government is prepared to discuss the European situation.

FRANCE AND ITALY

General Satisfaction at Result

The conversations in Berlin between the British and German Ministers have concluded, and Sir John Simon has left for London and Mr. Anthony Eden for Moscow. A communique issued at the close of the discussion states that all points in question were clarified.

Appeal to the League

According to a Paris message the Note to the League does not ask for the formation of a Council, but it is considered that there is a possibility of such a Council. The communication however, drew the attention of the League of Nations to the fact that the League of Nations and the League of Nations are not the same.

1d. a Letter for Air Mail Throughout the Empire CHAIRMAN OF IMPERIAL AIRWAYS LOOKS TO THE FUTURE

Collaboration of Transport TRANSLANTLANTIC SERVICE LIKELY IN TWO YEARS' TIME.

In view of the recent debate on air mail charges at the March meeting of the Nairobi Chamber of Commerce... Sir Eric Geddes, Chairman of Imperial Airways, spoke confidently of the early reduction of the minimum post charge on air mail letters throughout the Empire to 1d.

East Africans will remember the recent discussions at the Governors' Conference when it was agreed... Sir Eric Geddes, Chairman of Imperial Airways, spoke confidently of the early reduction of the minimum post charge on air mail letters throughout the Empire to 1d.

"Speed Hysteria"

It is a well-known fact that the speed of motor vehicles is increasing... The present East African problem, however, is to study how the existing rates can be reduced in the interim.

Value of Collaboration

It is a well-known fact that the speed of motor vehicles is increasing... The present East African problem, however, is to study how the existing rates can be reduced in the interim.

British Air Line

Sir Eric Geddes, chairman of Imperial Airways, said that his intention... He hoped this would bring home to the minds of the people that the railways were not standing still...

THE FUTURE OF TANGANYIKA Deputed by Joint East African Board

NO RETURN TO GERMANY

Suggested Representations to Foreign Office [STANDARD CORRESPONDENT]. London, March 11. (By Air Mail.) One of the most interesting discussions at this month's meeting of the Joint East African Board was an appointment with a matter not so generally known as the Tanganyika Mandate. This subject was raised by the Chairman in view of Dr. Schmidt's recent remarks. He pointed out that although it was perfectly possible to have a return to Germany, it was not a fact that there was a very large element of opinion among those who were still pressing for the return of the territory which knew Herr Hitler had declared he did not approve of the return of the territory to Germany for the matter might be put to rest. It would be well if there were to be a return to Germany, however, that East Africa felt in this matter that the return to Germany was not a question which was unalterably and irrevocably decided.

MEMEL: A CITY OF DANGER Germany May Demand its Return

Rival Claims

Assigned to Lithuania AFTER THE WAR [STANDARD CORRESPONDENT]. London, March 11. (By Air Mail.) What is happening in Memel is a matter of considerable interest to the East African community. The subject of the return of Memel to Lithuania is rapidly acquiring a momentum which may lead to a serious crisis in the Baltic region. The German Government has recently announced that it has decided to demand the return of Memel to Germany. This demand is based on the fact that Memel was part of the German Empire before the war. Lithuania, on the other hand, claims that Memel was part of its territory before the war. The dispute is being handled by the League of Nations, which has appointed a commission to investigate the matter. It is expected that the commission will report to the League of Nations in the near future.

DO KENYA OTTERS CATCH FISH?

Evidence to Support View That Do

Problem of Prevention [FROM A CORRESPONDENT]. Nairobi, March 11. The so-called grass snail herds are having very "unfair" in the sense of distribution. The fact that the best known dairy farms in the district have been able to catch all the otters concerned is due to their wits and not to their cattle. This condition is made still more extraordinary by the fact that the snails are found only on the banks of rivers and on the other, cattle blooded with the otter fish of grass.

Coffee Board's Revised Plans

MARKETING AND FINANCE SCHEMES POSTPONED

Local Auctions [STANDARD CORRESPONDENT]. London, March 11. The Kenya Coffee Board has abandoned its controversial marketing and finance plans for the time being. It is now proposed to organise independent Local Auctions and to set up in London an Advisory Committee to check the Board and the planter in touch with the markets.

London Advisory Committee

At the 16th Meeting of the Coffee Board of Kenya held on Friday last week, the question of the Board's marketing and finance schemes for London by Imperial Airways on March 20 was expected to be discussed. The Chairman will travel to London by air this week to discuss the functions of the Committee and to clear misunderstandings out of the way. The Chairman will be accompanied by Sir R. S. Wilson, Chairman of the Board, and Mr. J. H. W. Jones, Secretary of the Board. The Committee will be composed of representatives of the Board, the planters, and the Government.

IMPROVED RAIL REVENUE

Notable Increase in Exports

First Quarter's Figures

As stated in the foregoing report, the Chairman's visit is being made with the main object of negotiating negotiations with the Railways Board for the establishment of a new tariff system. The Board is expected to be in London during the next few days. The Chairman will be accompanied by Sir R. S. Wilson, Chairman of the Board, and Mr. J. H. W. Jones, Secretary of the Board. The Board is expected to be in London during the next few days.

WHITER TEETH

KOLYNOS lasts TWICE the usual time, because you use HALF as much. It is absolutely free from gritty abrasives... KOLYNOS cleans, whitens, and refreshes the teeth without hurting the gums... KOLYNOS GIVES RESULTS "You Can See".

A Big Discussion

Considerable discussion took place in the Board last night... The Board is expected to be in London during the next few days.

Neither Side Content

Neither Germany nor Lithuania are content with the arrangement... The Board is expected to be in London during the next few days.

SABUKIA PROSPECTS

The Development of Pyrethrum [STANDARD CORRESPONDENT]. Nairobi, March 11. Sabukia is a plant of considerable importance in the East African region. It is used for the production of pyrethrum, a natural insecticide. The prospects for the development of Sabukia are bright, and it is expected that the industry will expand in the future.

TARIFFS IN UNION

Special Rates Against U.S.A. and Japan [STANDARD CORRESPONDENT]. Durban, March 11. (By Air Mail.) A determined move by the Union Government to "beat up" the South African trade between the Union and the United States, and between South Africa and Japan, is being made. The Government has announced that it will introduce special tariff rates for goods imported from the U.S.A. and Japan.

BRITISH MILLIONAIRES

Big Decline in Four Years [STANDARD CORRESPONDENT]. London, March 11. (By Air Mail.) Within four years the number of millionaires in Great Britain has fallen from 819 to 452. This is a sharp decline and is attributed to the effects of the depression and the high cost of living. The number of millionaires in the U.S.A. has also fallen, but to a lesser extent.

Principal Exports

Among the principal export commodities received by the Customs for the period January 1 to March 31, 1938, were the following: Gold (1,000 tons), Cotton (1,000 tons), Coffee (1,000 tons), Tea (1,000 tons), and other goods.

WHITE SETTLEMENT IN THE TROPICS

Question Reviewed by Australian Professor

AN UNSETTLED PROBLEM

Examination by Scientists Throughout the World

The question of whether the white man, and particularly the British, should settle in the tropics, was outlined by a prominent Professor, C.M.G. B.Litt., F.R.S., of the University of Adelaide, in a broadcast address given in Australia last year. He said the question was unsettled. Throughout the world leading agencies were disputing over the question...

The question of whether the white man, and particularly the British, should settle in the tropics, was outlined by a prominent Professor, C.M.G. B.Litt., F.R.S., of the University of Adelaide, in a broadcast address given in Australia last year. He said the question was unsettled.

Three Methods.

There are three ways in which scientists are attempting to examine the question of the ability of white people to settle in the tropics, he continued. "They are the methods of history, of medicine and of geography."

The history method is not very accurate guide to the present situation of the white man in the tropics. Unfortunately history is not a very accurate guide to the present situation of the white man in the tropics.

As for the medical method, he said, it is a difficult to carry out in the tropics. The method of geography is the most accurate method of examining the question.

The history method is not very accurate guide to the present situation of the white man in the tropics. Unfortunately history is not a very accurate guide to the present situation of the white man in the tropics.

White History

The history of the white man in the tropics is very fascinating. From 1500 onwards, the white man has tried to set his foot on every continent. It is a story of exploration and conquest.

Heading

It is no longer sufficient to say that the white man has settled in the tropics. It is necessary to ask why he has settled there, and how he has done so.

British of White Race

It is not only the white man who has settled in the tropics. There are also many other races who have done so, and their presence has had a profound effect on the tropics.

REPRESENTATIVE HOCKEY MATCH CLOSES THE SEASON.

THE SPORTS ASSOCIATION TEAM

THE HOCKEY ASSOCIATION TEAM

Qualifiers in "May-Be" Competition

PLAYER HITS BALL INTO OWN POCKET

"Click."

On Wednesday, 26th inst., a ladies' team captained by Mrs. J. E. Higginson met a team of ladies from Kiambu at Muthaiga and won by a margin of 10 up. The results are given below, matches being continued in the afternoon.

Mrs. Sandford beat Mrs. Humphries, 3 up.

Mrs. Madala beat Mrs. Gibbs, 11/2.

Mrs. Suffield beat Mrs. Bentley, 4/2.

Miss H. M. Gilbert beat Miss Siveton 1 up.

Mrs. Lewis beat Mrs. Hughes, 3 up.

Mrs. Patric lost to Mrs. Findlay, 3/1.

Mrs. Higginson halved with Miss West.

Mrs. England beat Miss Oath, 12/1.

A Curious Incident

The qualifying rounds of this competition as they always do, seemed a great deal of interest and the handicaps allotted after the first eighteen appear to have worked out extraordinarily well. Several wonderful returns were recorded and one or two strange and odd shots were played.

Mrs. Spoon made an advance on the following: "Having played a 18, a player decided to change his club and winning a very much made his ball to rest in a pocket it is not known which pocket it was or not! How many strokes did he take in the hole?"

BOAT RACE BALL

In Aid of Scholarship Fund

His Excellency the Acting Governor and Mrs. Wade have signified their intention of attending the Annual Ball of the Oxford and Cambridge Society which is being held at the Hotel Victoria on Saturday, April 6, when there will be an opportunity, even most Cambridge undergraduates hope, of celebrating Oxford's breaking the long sequences of Cambridge victories. This year the Ball is being held at Hotel Victoria. Ziegler's Band is playing, and, as destined in dark and light blue. The Ball is held in aid of the Society's Scholarship Fund which was started for the advancement of the Scholarship for a Kenya boy to Oxford or Cambridge. Originally the fund depended solely on the donations of members of the Society, but it was felt that other people might be interested and appealed, and in 1910 the Society organized its first Dinner Ball to give an opportunity to the general public to contribute to the Fund.

Last year the Fund profited by £200 odd from the proceeds of the ball and this year's sale of tickets promises an even larger sum. Those intending to attend the ball should not delay buying tickets which are the 10/- each, and may be obtained through members of the Society from Mr. E. G. O. Ndlovu, and Hotel Victoria, when they attend the dinner ball. It should be remembered that tickets bought and not used by the holder, will be of no use. In the Fund which, with generous support, should be largely completed in a few years to warrant its being so launched.

LADIES' OPEN GOLF MEETING

Njoro Club's Promotion

First Fixture of Its Kind

The Prize Winners

THE SCRATCH SCORE BY MRS. HUMPHRIES

[FROM A CORRESPONDENT]

Njoro, March 25

The first ladies' open golf meeting, organized by the Njoro Country Club, and held at the weekend, was highly successful. The entries for all the competitions were exceedingly good, and the standard of play high. Except for one shower on the Saturday afternoon, the weather was first-class Sunday afternoon, generally windless and very hot, making conditions very trying for the competitors. The result of the heat was to bring the standard of golf in the bogey competition down.

Mrs. Labbery was the medalist in competition with a net score of 65 being four strokes less than the L. O. U. standard scratch score for the course. In some quarters, according to L. O. U. rules her handicap was reduced by that amount before the other competitors were begun.

The Lady Captain's Cup for the last scratch score was won by Mrs. J. E. Higginson of the Kiambu Golf Club. Her return of 186 was a very notable one when it is remembered that she was playing over a strong course.

Mrs. R. J. Labbery and the Hon. Mrs. Grant, Njoro, were the "May" Cup for Inter-Club Four-somes. Another Njoro couple in Mrs. Swinhorne Ward and Mrs. Frost, were runners-up. Miss Twist of Kiambu was the cup prizewinner for the bogey competition by Lady Francis Scott.

At the close of the meeting the prizes were presented to the winners by Lady Delamore, whose husband, the late Lord Delamore, was founder and president of the Njoro Country Club. To the delight of a short list of Lady Delamore, congratulations, Lady Swinhorne Ward and Mrs. Frost were presented with the first ladies' meeting of this kind in Kenya.

The following were the prize winners—

Lady Captain's Cup—Mrs. Beat Scratch Room, Mrs. Humphries, 91, 90-186.

Four-somes—Mrs. Labbery, 10; Mrs. E. M. O. East African Standard—Mrs. Labbery (L.O.U. 81) 69, Bunter-up Mrs. Frost (L.O.U. 84) 73.

"May" Cup—Inter-Club Four-somes—Njoro C.C. 3 (Mrs. Labbery and the Hon. Mrs. Grant, C.C. 1 (Mrs. Swinhorne Ward and Mrs. Frost), 100-8-79.

Lady Francis Scott Cup—Bogey Competition—Miss Twist of the Kiambu, 2 down; Runner-up—Mrs. Frost, 3 down.

LADIES' CRICKET MATCH

Parklands Beaten by 4 Runs

GOOD BOWLING BY MISS TATE

Quite an amusing cricket match was witnessed at the weekend between two teams of ladies, from Parklands Sports Club and Muthaiga Golf Club. The game was played on the latter's ground and ended in a win for the home team by the narrow margin of 4 runs. Top Miss Keeling, (35). Miss Tate was the most outstanding success with the ball taking six Parklands wickets for 13 runs in all.

With five wickets to fall Parklands appeared well set for a win but the remaining wickets fell for the addition of only eight runs. Miss Tate was mainly responsible for the collapse taking a wicket in each of her next six overs.

The following are the details

THE PRINCE OF WALES
Changes in Domestic Staff
A VERDICT to a London household is that the Prince of Wales' domestic staff at York House, which has just taken place in the appointments as one of the Prince's new residences at York House, is a major overhaul, as Mr. Pitt Rivers, the new steward of the Prince's household ever since Mr. Finch was steward of the Prince's household in the nursery, and accompanied him to France during the War, as his lieutenant. His place as steward is taken by Mr. Smith, who for many years has been principal valet to the Prince.
BEAUTY CULTURE AT HOME
A NUMBER of oatmeal treatments will cure the most obstinate greasy skin, and will soothe any redness and sub it up with your hands as you would do with soap. A clean cotton bag, sufficient for the complete treatment, and one bag of oatmeal will cure any greasy skin in eight inches square will make a bath of oatmeal water, add a little soda to the bath water, and wash your face with it.
"IN THE SHADOW"
Treatment 4.—Thursday, April 5 at 9:30 p.m. G.M.T.
The main subject of this play is the story of a woman who is a board a British destroyer which is lying at anchor for native fishing. The only other vessel in the harbor is a small boat. The woman is a nurse who is staying on the destroyer when an illness strikes her. The title "In the Shadow" is taken from a line in Shakespeare's Hamlet: "There's a divinity that doth govern the course of our affection. To such a degree that even the base fallow steed will show his ploughman furrows, and the churl's plough will turn the same." The story is a study of the human mind, and is a study of the human mind. The play is a study of the human mind, and is a study of the human mind.

NOTES FOR WIRELESS FANS

This paper, devoted to the interests of Wireless Fans, is published for them as a convenient and useful medium of keeping them in touch with the latest developments of the wireless world.

JUST BEGINNING! . . . The Progress of Broadcasting

The extent of wireless transmission of messages in general, and of broadcasting in particular, is a remarkable one. One would think that after progression for a term of years there should be a slowing down in development. To a certain extent this has happened, but it is not the case. The B.B.C. and private investigators before that have been working on television. A number of well known and highly experienced programme men do not seem to be able to do this. In fact, it is not only that they are not doing it, but that they are not doing it well. This is a pity, for it is a most interesting and important development, and one that is sure to be of great benefit to the world. The B.B.C. has been working on television for some time, and has made considerable progress. It is now in a position to broadcast television programmes, and this is a great step forward. The fact that it is not doing so is a pity, for it is a most interesting and important development, and one that is sure to be of great benefit to the world.

to be made by the transmitting side. In the case of the receiving side, it is not so difficult. It is only necessary to have a good set, and to be in a position to receive the signal. This is a most interesting and important development, and one that is sure to be of great benefit to the world.

MISS SEVERNELL OH
(By X Miss Or)
I was going down into the room one day. I saw a man sitting at a table. He was wearing a blue jacket and a white shirt. He was looking at me and smiling. I went over to him and we talked for some time. He was very nice and we had a very good conversation. I was glad to see him and he was glad to see me. We parted on very good terms and I was very happy to see him.

Radio Society of East Africa
ANNUAL CONFERENCE AND DINNER
The Annual Conference and Dinner of the Radio Society of East Africa will take place on Saturday, April 6, at the Empire Hotel, Nairobi. The programme will include a dinner, a presentation of a shield to the Society, and a concert. The evening will be most enjoyable and it is hoped that many of our members and friends will be present.

Relay of the Boat Race
FROM TLO ON APRIL 6
Programme Features
The week's programme from TLO will be the relay of the boat race between Oxford and Cambridge that has been the Empire Station for many years. The race will start on Saturday, April 6, at 5 p.m. local time from the Hotel Astor, Nairobi. It will be a very exciting event and it is hoped that many of our members and friends will be present.

More About British Justice in Africa

FORMER CHIEF JUSTICE REPLIES TO AN EX-GOVERNOR

The Protection of the Law

NECESSARY FOR AFRICANS AS WELL AS FOR EUROPEANS

Governors, with rare and notable exceptions, are inclined to desire to diminish the prestige and authority of the judiciary...

There is an extract from a letter to "The Times" written by a former Chief Justice of Tanganyika...

Sir Alison Russell declares that the view of administrative officers themselves is that the administration of justice is a skilled matter...

A Request for Examples

London, March 15. To exclude the African native from the protection of the law...

Sir Alison Russell, former Chief Justice of Tanganyika, is quoted at length in the letter by Sir Herbert Bell...

"I have read with interest the letter on 'British Justice in Africa'...

Sir Herbert Bell writes: "I have read with interest the letter on 'British Justice in Africa'..."

Sir Herbert Bell is under no misapprehension. It is suggested that in the past years of the report that native courts were abolished from the terms of the provisions of the Commission...

What kind of justice should be administered to the natives of the East African colonies...

The first question, therefore, is this: (a) Whether the African subject properly with the European subject...

It is, I am, Sir, your obedient servant, ALBERT LITTLE, Formerly Chief Justice, Tanganyika.

Sisal Bags

Secretary of State's Reply to Question

["STANDARD" CORRESPONDENT.] London, March 15.

In the House of Commons this week Captain C. A. I. Robinson asked the Secretary of State for the Colonies whether he was aware that a proposal was being made...

Mr. T. Cadell-Lewis: I understand that the establishment of the proposed factory by Kenya has been deferred...

The 9.20 p.m. Reply to London mail train: Eight days from Canada to London via New York.

The 4.35 p.m. freight train from Alexandria, Doha, Liverpool, to Southampton.

"OLD DAN" DEAD

London, March 15. "Old Dan," the man who taught thousands of Eton boys...

Mr. Herbert Bell refers to the "Common-law" courts of the district officers' courts...

In the East African possessions subject to the general control of the Secretary of State, the civil and criminal authority is the Governor...

It is, however, alleged that gully African sometimes possess a sense of equity more than that of the white man...

Mr. Herbert Bell writes: "I have read with interest the letter on 'British Justice in Africa'..."

PRESERVATION OF MILK Credit and Debit of Pasteurisation

IMPORTANCE OF CLEAN PRODUCTION

Milk is a perfect food for infants, all grown-up and an everyone knows milk will quickly deteriorate after it has been drawn from the cow. It is so important for children especially that milk should be kept safe for a long time after anything that will reduce undesirable bacteria has been removed. Pasteurisation kills the majority of organisms which are harmful to health. It is a process which will keep most of the bacteria which are the cause of low fever, typhoid, etc., from multiplying.

It is in the best of health for infants, all grown-up and an everyone knows milk will quickly deteriorate after it has been drawn from the cow. It is so important for children especially that milk should be kept safe for a long time after anything that will reduce undesirable bacteria has been removed. Pasteurisation kills the majority of organisms which are harmful to health. It is a process which will keep most of the bacteria which are the cause of low fever, typhoid, etc., from multiplying.

Various Draw Backs
The disadvantages of pasteurisation are: 1. It is commonly said that the milk is going to be pasteurized from A to Z and really neither is it produced. This is a disadvantage in production. 2. It produces chemical changes in the milk making it less digestible. 3. It involves extra cost in the form of fuel and electricity. 4. It involves extra cost in the form of fuel and electricity.

Advantages and Methods
Pasteur is the first man to have been to prevent fermentation of milk and later still was used for sterilizing milk. It is a process which kills the bacteria which cause low fever, typhoid, etc., from multiplying. It is a process which kills the bacteria which cause low fever, typhoid, etc., from multiplying.

IN SEARCH OF PROFIT Working with Nature

IMPORTANCE OF PRODUCTION COSTS

The following article by Mr. John Fisher, the Principal of the School of Agriculture, Cedara, Natal, appeared in a recent issue of "The Farmers' Weekly."

In other established agricultural countries, farming has long been known to a more or less definite system. The farmer of the old country has been known to live on his profits and not upon the credit of his bank. He has been known to live on his profits and not upon the credit of his bank. He has been known to live on his profits and not upon the credit of his bank.

Tradition as a Guide
In a new country, where there is no established tradition, the farmer must be guided by the principles of the old country. He must be guided by the principles of the old country. He must be guided by the principles of the old country.

With the producer, when the price of the product is low, the farmer should be guided by the principles of the old country. He should be guided by the principles of the old country. He should be guided by the principles of the old country.

A Different Outlook
This outlook of production will help the farmer. He will be guided by the principles of the old country. He will be guided by the principles of the old country. He will be guided by the principles of the old country.

Whether or not the distribution of the products of the farm is a matter of importance, it is a matter of importance. It is a matter of importance. It is a matter of importance.

Correspondence THE CONTROL OF MASTITIS

To the Agricultural Editor,
"E. A. Standard."

As a Kenya farmer I was interested in your article on the above subject. It is the cause of loss in every dairy farm. We do not get milk, particularly hot and buttered about it as the cattle man has to do. We do not get milk, particularly hot and buttered about it as the cattle man has to do.

Many people have thought this matter is rather simple, but the right handling of milk is a most important factor. It is a most important factor. It is a most important factor.

Efficiency of Production
Propaganda in certain values is often used to mislead the public. It is a most important factor. It is a most important factor. It is a most important factor.

Machinery Examination
The difficulty of obtaining a yield of milk is a most important factor. It is a most important factor. It is a most important factor.

The Breeder's Way
With the producer, when the price of the product is low, the farmer should be guided by the principles of the old country. He should be guided by the principles of the old country. He should be guided by the principles of the old country.

THE APPLICATION OF ORGANIC FERTILIZER Availability of Nitrogen Supplies DISCUSSION OF GENERAL PRINCIPLES THE MERIT OF COMPOSTS

The East African Kennel Club Gazette Editor: The Lady Selwyn Porter, P.O. Mail Station.

The following article by Dr. P. Kamerling, of the Division of Chemistry, Pretoria, appeared in a recent issue of "Farming in South Africa."

The application of organic fertilizers to the most important crops in order to raise maximum yields, has long been a subject of much interest to the farmer.

Before discussing these methods, however, let us see what are the general principles underlying fertilizer action. As soon as the soil has been supplied with a quantity of organic matter, it contains a certain amount of nitrogen in the form of organic acids, which are gradually broken down into inorganic forms.

Wastes of Organic Matter. The addition of organic matter primarily to improve the physical condition of the soil is a well-known fact. It is especially so in the case of heavy soils.

The Provision of Humus. Humus is a substance which is formed in the soil from the remains of plants and animals. It is a very important constituent of the soil.

Humus is a substance which is formed in the soil from the remains of plants and animals. It is a very important constituent of the soil. It is especially so in the case of heavy soils.

Humus is a substance which is formed in the soil from the remains of plants and animals. It is a very important constituent of the soil. It is especially so in the case of heavy soils.

There has been a marked increase in interest in canine affairs during the last few years. This is well illustrated by the increase in the number of dogs registered in the Kennel Club. It is a very interesting fact that the number of dogs registered in the Kennel Club has increased from 1,000 in 1880 to 10,000 in 1909.

East Africa Gold Mining

KENYA'S GOLD OUTPUT

15,939 ozs. in 1934

FEBRUARY FIGURES

The Mining and Geological Department of the Government of Kenya has issued the gold output figures for 1934.

The total production for the year was 15,939 ounces of which 12,635 ozs. was reef gold.

The approximate value of the gold at £7 per ounce is £112,000.

The statement is as follows:-

Table showing gold output by district: Khatumo District, Elowah District, Total. Lists months from January to December with gold output in lbs. and ozs. and alloyed gold.

Individual Producers

The Department has also issued details of individual producers for February, as follows:-

Table listing individual producers: Name, Ounces of gold produced. Includes names like B. G. Abrams, D. H. Huntley, etc.

Total production for February: 1,595 lbs. 15.25 ozs.

The comparative figures for the years 1932 and 1933 were:-

Summary table comparing 1932 and 1933 production figures.

Pakouensi KENYA CONSOLIDATED A New Discovery

Three sections of Kenya Consolidated in the latest March report stated that all preliminary work on the Lokorop prospect has been completed and that the Geological Survey was completed and that the Geological Survey's report was completed.

At the Annual General Meeting of the Lokorop Corporation Ltd. held in London, recently, Captain A. H. Mackenzie, Chairman of the Company, made the following reference to the Pakouensi prospects in Kenya:

"While in Kenya I inspected the Lokorop reef. This is one of the most impressive things I have seen. The reef is a continuous layer of sandstone, 100 to 150 feet thick, equivalent to 6.6 ozs. per ton over a striping with 10 lb. of lead. The reef was examined strongly as such and the geological survey is in progress of an activity campaign to ascertain the extent of the reef.

The Lokorop reef is a continuous layer of sandstone, 100 to 150 feet thick, equivalent to 6.6 ozs. per ton over a striping with 10 lb. of lead. The reef was examined strongly as such and the geological survey is in progress of an activity campaign to ascertain the extent of the reef.

THE CEREAL MARKET

Wheat Prices Fairly Steady

The following report on the cereal market was issued by the Kenya Farmers Association (Co-operative) Ltd.

Wheat Prices Fairly Steady

The market during the past week has been disappointing, with a fall in the price of wheat and a rise in the price of barley.

The following is the result of the call-over held at the New Bankers Ltd. yesterday at 11 a.m. The prices quoted at the call-over will be published to-day.

The price of bar gold was quoted in London on Thursday at 144s. 10d., a decrease of 5d. on the previous day.

Sharp Criticism of the Maize Subsidy

MEASURE "TO ROB PETER TO PAY PAUL"

"Gilbertian"

OPPOSING VIEWS WHETHER INDUSTRY CAN BE SELF-SUPPORTING

During the continuance of the debate in Legislative Council on Monday on the motion (which was eventually carried) to set aside a sum of £12,500 from public revenue funds to guarantee a minimum export price for maize, there was some sharp criticism of this form of assistance for the maize industry.

Mr. Shambaugh described the motion as "unconscionable, unworkable and unjust to the taxpayers", while Sir Robert Sayers considered it a measure "to rob Peter to pay Paul".

Charge of Spoonfeeding

Mr. Harvey (Nyanza) said that the House that had passed the motion was not self-supporting, and suggested that the Government should be asked to contribute to the maize industry.

Wrong Principle

The motion, Mr. Shambaugh said, "has not only been introduced, but has been adopted in an entire which is a wrong principle."

"Robbing Peter to Pay Paul"

Mr. Shambaugh said that the motion was "a measure to rob Peter to pay Paul" and that it was "unconscionable, unworkable and unjust to the taxpayers."

Mr. Shambaugh's Motion

Mr. Shambaugh's motion was to set aside a sum of £12,500 from public revenue funds to guarantee a minimum export price for maize.

"Peter Objection"

Mr. Shambaugh said that the motion was "a measure to rob Peter to pay Paul" and that it was "unconscionable, unworkable and unjust to the taxpayers."

Setting Priorities

Mr. Shambaugh said that the motion was "a measure to rob Peter to pay Paul" and that it was "unconscionable, unworkable and unjust to the taxpayers."

Sharp Criticism of the Maize Subsidy

(Continued from page 5.)

The explanation, he contended, lay in the low commodity prices, based on his side of the House, had suffered under the depression. If maize growers were entitled to some assistance then every one else in the same position was also entitled to some consideration if there was any grain to be given away.

New maize would benefit from the big increase in the internal price of maize which would follow the introduction of the subsidy scheme, and actually the maize grower of the natives would be benefited.

Only four or six weeks ago maize had started into countries on the coast... The people would not only be deprived of their legitimate profit but also the supplies of maize would have diminished to such an extent that they would be unable to feed their animals. Much longer maize would be available should there have been a drought.

His declared intention to assist the maize industry was not to pass a bill of Maize Control, but to introduce the Sale of Wheat Ordinance. He advised Government to establish the industry and introduce such an Ordinance for the proposed scheme. Actually would not benefit the industry at all.

He congratulated the Labor Colonial Revenue Council on its decision to allow a rebate of 25 per cent on maize exported, and that it was very much better than anything Government had done up to now, and asked the General Manager of Railways to consider the question of trucks to meet the needs of the maize industry during the period between March and June. If the farmers were to pay for storage charges while the maize was held up at Ellingham waiting to be loaded.

The maize industry did not want a subsidy, and unless Government was prepared to introduce an ordinance on the same lines as the Wheat Ordinance, the maize industry was dead. In conclusion, he asked if there was any information as to what maize farmers' charges were in mixed farming.

Government might feel that having introduced this measure it would not be able to do anything else. If Government had really had a policy to deal with the situation, it would not have been necessary to pass a measure of a temporary palliative.

In dealing with and matters of providing some more permanent remedy it was necessary that there would be no difficulty in the policy to be followed should it be decided to do so. First there was the question of the salaries and the position of the members of the Board of Agricultural Administration that could only be done by making that body a large sum of money.

Next there was the question of considering his position, and in 1930 he said that his predecessor had worked out the amount to be between £20,000 and £70,000 and £200,000.

he anything like the contribution or guarantee to be given by Government to the railway.

Dealing with Mr. Shambaugh's criticism that the scheme was not working with perfect success, he stated that it could be worked with perfect success if the maize grower of the natives was administered by Sir Robert Shaw, who was in charge of the scheme.

Turning to Mr. Pail's point that satisfaction by an amount of £200,000 had been paid in the maize industry in the 1929-30 season, he said that his predecessor had worked out the amount to be between £20,000 and £70,000 and £200,000.

Normally Economic

Several speakers had said that the motion should not be supported because maize growing was not normally economic. That was a matter of opinion. He contended that under normal conditions maize growing would be an economic industry, and that, however, it was not in a position to continue so for some time.

As regards to Mr. Hoy's query as to whether there was any information on the subject of the matter was receiving the attention of the Agricultural Industries Committee. His personal view was that the industry, in its collaboration with other industries, must play a very big part in any scheme of reconstruction.

Contract for the supply of maize would not be disturbed by the measure. He agreed with Mr. Kirkwood that the measure was not to be regarded as a subsidy; it was definitely a guarantee of price.

Reply to Debate

Replying to the debate, the Director of Agriculture stated that every Member who had spoken at the meeting had expressed sympathy with the maize grower, and added that he was in a position to give to give that sympathy complete form. He was in a position to give to give that sympathy complete form. He was in a position to give to give that sympathy complete form.

The Native Reserves

Regarding the overpopulation of crops in the native reserves he said that whenever the natives were encouraged to grow more they unfortunately always chose to grow maize. This was not to be regretted, but the agricultural officer in charge of the reserves were recommending the natives to grow other crops besides maize, and if they were to do so that state of overpopulation of maize would not be repeated. Several Members had expressed dissatisfaction that the measure did not go far enough in that regard as they were anxious that there should be more permanent changes. Measures were under consideration by Government and would be asked Hon. Members to consider the matter before the House purely on its merits. There was nothing amiss about it and what might happen after all that had been done to the effect that all that the nation ought to do was to give the maize farmers a breathing space, and the maize farmers were definitely in need of assistance in the way of the Government. They had heard of rises in the value of other products, but no coffee and cotton were in the same way and it was for that reason that he asked Members to support the motion.

Maize Policy

His Excellency ruled that the motion had been introduced as a matter of state policy affecting the interests of the country as a whole and that it would be debated if an Hon. Member was prepared to do so. He therefore ruled that Hon. Members who were not members were not debatable from voting, but added that if any Hon. Member had any suggestions or amendments he would be glad to receive them.

Maize Control

The motion was put and when it was given to the vote Mr. Pail called for a division, which resulted in 29 yeas and 19 nays. The motion was carried for the motion and against the Maize Industry Measure.

Maize Control

The motion was put and when it was given to the vote Mr. Pail called for a division, which resulted in 29 yeas and 19 nays. The motion was carried for the motion and against the Maize Industry Measure.

Don't disfigure
your walls
with nails

**JOB'S with nails are never
satisfactory or permanent.**
The nail being smooth can
not grip the wall, and when you
have a weight on it, the mortar
or plaster crumbles and the
whole fixture works loose. The
finishing coat is the only satisfactory
one as it fills the hole, they are
in place, and in a few days
the nail is as good as new.

Correspondence

The Editor does not accept respon-
sibility for the views expressed in
this correspondence, but he will
publish them in full unless they
concern and in all cases the
name and address of the writer
must accompany the letter, and
necessarily for publication lead-
ers a government official must
be named. It is also essential to
ensure consideration.

CHRISTMAS TRADE AT KIBURU

To the Editor, "E.A. Standard."
Sir—In your daily news of 23rd
the report of the Government
that the last Saturday
before Christmas brought a big influx
of trucks into the shopping areas
of Nairobi.

From an amateur trader during the
present month remained extremely
small during the Christmas
week which brought a big influx of
people into the shopping areas
of Nairobi from the gold mining and
other surrounding districts.

The year 1936 Christmas and
New Year holidays exceeded all
traders who deal in the native
goods had a very good trade.
Using the gold mining operations
and other collections in this Pro-
vince of assistance, the Government
is doing all possible to steadily
improving, which will ultimately
benefit the Government and the
traders by increased traffic.

It is to be hoped that in 1937, set-
ting and progress are in start-
ing for the City and its people.

BAHAMATA KASIM
Kisumu, Dec 30 1935

GOVERNOR'S VISIT TO TEKA

To the Editor, "E.A. Standard."
Sir—It was with great interest
that I read about the Hon. Govern-
or's visit to Teika. It was
very interesting to see the
Governor's visit to Teika.

INDIAN DISSENT

To the Editor, "E.A. Standard."
Sir—In India, where the
Hindu Nation and Sikh
each other's beliefs the Hindu
is generally regarded as the
premier of the people of
India. It is a pity that the
Hindu Nation and Sikh
are not united and are
not working for the
benefit of the Indian Nation.

A VERY HAPPY & PROSPEROUS NEW YEAR

we sincerely wish you all

We would remind you that this is
a LEAP YEAR.
Start it well ---
Start it with
Ferreira's Port
And everything is bound to go well.

G. H. C. NORONHA

(Siqueira's)
8th Avenue, NAIROBI.

From which some dissent
prevails the impression of a
strongly organized and
responsible body of opinion
leaders. It would be
difficult to find any
of these people who are
not in touch with the
people. It is a pity that
the Government is not
doing more to help the
people.

By the book Government
officials have been the
mainstay of the trade
and industry in Kenya.
It is a pity that the
Government is not
doing more to help the
people.

people.

COVER FOR COAST

Reason for Railway
Diversion Charge

In Legislative Council on Mon-
day the Hon. Member for
Nyasaland (Mr. G. H. H. H.)
asked the Hon. Member for
the Coast (Mr. J. H. H.)
the reasons for the diversion
charge of Shs. 8,000
per ton in respect of coffee
exported from Nairobi to
Mombasa?

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

The Hon. Member for the
Coast (Mr. J. H. H.) replied
that the diversion charge
was imposed on coffee
exported from Nairobi to
Mombasa in order to
cover the cost of the
diversion of the railway
from Nairobi to Mombasa.

GRIGG GOLF CUP FINAL

Repton's First Victory

1932 Winners Beaten in Last Stage

A FIGHTING FINISH

The final of the Grigg Golf Cup, which has been a year-long struggle between the two clubs, was played on Saturday morning at Muthiga, provided one of the most exciting matches ever seen since the trophy was first won by the Repton club in 1932.

Alton Glen's pair started for the first time in the Grigg Cup, although it was generally expected that they would be a very close affair. As anticipated the game played out in a very close and exciting manner.

Repton Takes The Lead

Repton took the lead at the first hole when they sank a chip from six feet off the green for the hole and here Forrest made his first mistake of the day, putting his ball into the hole.

A Wonderful Final

It was the most final ever seen in the competition. The golf for a final, was not by any means bad indeed, it was quite good. Both sides played their best golf on the second time they played it.

Officials vs. Non-Officials

A silver trophy has been presented to the Repton club for their victory in the Grigg Cup.

A New Asian Tournament

A silver trophy has been presented to the Repton club for their victory in the Grigg Cup. The tournament is a new one for the region.

shot, while Glen had put his partner in an awkward position. In the shot, Glen's partner, the right of the known, Greenwood got well out, but the two strokes and Forrest, making seven feet.

The Final Moments

The final moments of the match were very exciting. Forrest played a very good shot, while Glen's partner made a mistake.

The Deciding Hole

Glen got well away from the hole, but the two strokes and Forrest, making seven feet. The match was very close.

Officials vs. Non-Officials

A silver trophy has been presented to the Repton club for their victory in the Grigg Cup. The tournament is a new one for the region.

PRICE 50 CENTS

Imperial Airways Liner Wrecked Off Alexandria
NINE PASSENGERS AND THREE CREW DROWNED
Pilot Alone Saved

"City of Khartoum"
PICKED UP BY CRUISER AFTER SIX HOURS IN WATER
All nine passengers and the three members of the crew were drowned when the Imperial Airways flying boat "City of Khartoum" was wrecked outside Alexandria harbour on New Year's Eve.

The only survivor was the pilot of the air liner, Captain V. G. Wilson, who was picked up by a British cruiser after being in the water for six hours. The wreckage of the machine was located after an all-night search.

The cause of the disaster is not yet known, but it is suggested that it was due to all the engines cutting out.

The "City of Khartoum" was flying east on the India route, and had no passengers or mail for East Africa.

"City of Khartoum"
(Roster and British Official Wireless Service.)

London, Jan. 1. The Imperial Airways liner "City of Khartoum" was wrecked off Alexandria, when attempting to land at Alexandria, where preparations were accordingly made to rescue the further west of the wreck and a search was undertaken. Divers, Admiralty tugs and other boats took part in the search, which continued through the night. At daylight aircraft also searched.

Only One Survivor
The only survivor so far is the Captain, Wilson, who is the pilot of the boat, who was picked up by H.M.S. "Hulliant". The air liner appears to have struck about one and a half miles north-west of the wreck at Alexandria harbor. The wreckage and the bodies of the nine passengers and three crew members were not yet recovered.

The wreckage of the liner has been located in a bay from Alexandria harbor.

Rescue Efforts Intensified
The Admiralty is sending the "Hulliant" and other ships to search for the wreckage and the bodies of the nine passengers and three crew members.

Message to Cairo
The Nairobian office of Imperial Airways received the following message from headquarters:

Causes of Disaster
The "City of Khartoum" was wrecked off Alexandria harbor on New Year's Eve.

The Wrecked Liner
The "City of Khartoum" was a three-engined ship.

The Victims
The victims, according to the passenger list, comprised the following—

Passengers
Captain H. E. Baker, of the London firm of Messrs. H. E. Baker & Co., Ltd., was the only passenger to be rescued.

Italian Bombing Raid on Swedish Ambulance

HORROR AND INDIGNATION IN STOCKHOLM
Rome Claims Justification

A storm of horror, grief and indignation has been raised in Sweden by the report of the annihilation by Italian bombing planes of a Swedish Red Cross ambulance near Dale.

The Italian Legation in Stockholm has been placed under a special guard in view of public feeling. Memorial services for the victims and monster demonstrations of protest are being arranged.

A communique issued in Rome claims justification for the bombing raid in view of the fact that the Abyssinians killed and beheaded two Italian airmen who were forced to land near Dağhabur. It is denied that the Swedish or any other Red Cross establishment was the objective of the raid.

An official Abyssinian report on the raid is to the effect that 30 Ethiopian patients were killed, while the wounded 50 Ethiopian male nurses and patients. It is alleged that poison gas was used by the Italians as well as bombs and machine guns.

30 Deaths Reported
(Roster and British Official Wireless Service.)

WEEK'S RAINFALL

Returns from East African Stations

Following is the B.E.A. Meteorological service rainfall report for the week ending Jan. 1, 1926...

Table showing rainfall data for various stations including Addis Ababa, Eldoret, Kisumu, and others, with columns for period, total, and date.

Road and Weather Report

Mr. Galloway writes as follows: 'First of all I should like to wish all members a very happy New Year.'

Rain has been general over most of East Africa during the last week, some places having had really heavy storms.

In Kenya the heaviest rain was at the coast, Mombasa having had 2 1/2 inches, followed by Nairobi and Nanyuki with 2 inches.

Showers have been general in Uganda during the last week, the heaviest rain being at Kampala, where they have had 4 inches.

The following is the state of the country roads as per the available information just received: Nairobi-Voi (direct)—Impassable.

Other road reports include Nairobi-Nyungu-Kajiado, Nairobi-Atika-Kajiado, and Nairobi-Nyungu-Rongai.

VARYING VALUES

ROSTERMAN report the cutting of another reef carrying high values.

No. 3 level, south crosscut. The reef has been cut at 330 feet. East side, 16 1/2 dwts. over 10 inches, and 2 exp. 8 dwts. over 10 inches. Average 1 oz. 16 dwts. over 20 inches.

West side, 1 dwt. over 5 inches and 10 dwts. over 14 inches. average 7 1/2 dwts. over 10 inches.

THE SHARE MARKET

The Outlook for 1966

There is little of interest in the market...

In general, 1965 was disappointing for the local gold share market...

The general view should prove the turning point as greater deposits are gradually being revealed...

dividends within a reasonable period should not be entirely ignored.

A situation which should be carefully watched is expected to be made in the near future by the Kenya Company...

KENTAN REPORT

Statements of Directors and Engineers

FOR SHAREHOLDERS' MEETING

THE following points are taken from the reports of the Directors and the Engineers submitted at the general meeting of Kentan Gold Areas, Ltd., held in London on November 31.

Results from Tanganyika Territory appear to be most promising as good gold values are being obtained over a considerable width.

At Mwanza, Tanzania a benchline has been established at a depth of 1,000 feet below the surface, showing that the mineralized sedimentary rocks within the gold project to that depth.

A small sample of four tons of sulphide ore averages 0.16 dwts. gold per ton showing that gold values in the primary zone are good.

The Mwanza District ore bodies extend over a strike length of 1,800 feet and an outcrop averaging 25 ft. wide, gold per ton over 8 1/2 feet has been discovered 2,500 feet to the N.E. of this as is believed to be an extension of the ore bodies.

There are other deposits in the vicinity of Mwanza of excellent results are being obtained and a central mill would be erected to treat large tonnages from this group of deposits.

At Nyanzaga, in another part of the same area in Tanganyika, the high-sulphide point is another promising body being developed.

The Kenyan Company has large interests, are progressing. The mill has got over its initial troubles and is coming up to capacity and

getting good gold recoveries. The development of the 300 foot level is proceeding and good values are being obtained.

1,000 Employed

At the end of October there were 41 Europeans, 40 Asians and 900 Africans employed on the Kenyan Concessions.

An aerial survey is being made of the whole concession area. The option over the Eilat area at Mount Eilat has been relinquished. There were no discoveries in the Mergon and Merry claims in Tanganyika are still under option.

The E.P.L. over No. 1 area, Kawanda, Kenya, was not renewed as no discoveries of economic value were made. At Nnail the prospect had no development. £12,500 was spent on prospecting in 1965. In regard to the remaining properties, three boreholes have been put down on the Owambu deposit.

Triumphal Entry of the Kings

Triumphal Entry of the Kings

The annual production of the Congo State was the most successful since the late King, who had succeeded his father as head of the land.

From the mountains districts came natives dragging a small boat showing that they were people who build the boats.

Another dance which caused comment and a great deal of laughter was that of the Arab merchants who gave a special display.

After this the different chiefs of Ruanda-Urundi came forward, each one in their turn, with their best dancers.

The dancing and sports. Some of the Wapiti natives are the best performers of the day.

The Urandi King was not carried in the same manner as the Ruanda King.

Following the triumphal entry of the kings of Ruanda and Urundi.

It matters not how much a writer is, if he has both learning and common sense.

VOLTAIRE ... AND GEORGE ARLES.

In common with many others in Nairobi, I have read the book called "Voltaire" at the English Theatre. And, in comparison, have been thinking a deal about this mockery of history for the sake of "best-off" money.

do Voltaire's speeches are admirably reported in the press, and the oratorical power is truly astounding in Irish, made with Irish pronunciation of the office of oratorian on Ireland's economic position.

EGYPT AND THE SUDDAN.

It is very much essential to the writers of the English that there be an early settlement of the long standing dispute with Egypt. You will remember that the Miller Mission proposed a clear division of the British and Egyptian spheres by a treaty.

THE IRISH QUESTION.

Annals varied surmise caused by the appointment of Mr. J. H. Thomas to the Colonial Office, and Mr. Malins Macdonald to the Dominion Office, it has been suggested that steps may soon be taken to end the present indeterminate state of affairs between England and Ireland.

FOR YOUR LIBRARY LIST.

I have just read a book called "I Walked by Night" which I enjoyed more than any book that I have read for a long time.

TRUE OPPORTUNITY.

An accident had occurred near Aberdeen and the injured were still lying on the road.

The World of Women:

FEET FOREMOST

I am glad to see that the vogue for wearing sandals, without stockings, in the evening is dead. No one really cares for it. I think—certainly outsiders could not have admired the view of brightly varnished nails poking through the slender sandals straps. The present fashion for having silk stockings of the foot, in the same colour as the skin is much more attractive, while dress shoes are usually made of the dress material of this be of a suitable texture, otherwise satin or crepe is electricity to tone exactly.

The favoured colour for day time stockings is tan without the pinkish tint which rather spoiled feet wore a short time ago. The shade which nearly approaches, to light fawn is good style and goes equally well with those of all types and colours. Walking shoes, according to my latest authority, will not so frequently combine two kinds of leather as they have of late. Kid, made or calf all through is the best and, on the whole, I think it is a good one. Plain oxford shoes, or jet cut oxford with only three eyelets each side, are advised for town wear and the agreement between shoe designers and hat designers is that head and feet should be in sympathy, as far as possible, as regards colour.

"There is no passion in human nature as the passion for gravy"

Martin Chuzzlewit CIGAR DISCERN

Good gravy and lots of it can be made in a moment with Bisto. Just mix a good teaspoonful of Bisto with half a pint of warm water and pour it into the roasting tin after the joint has been removed. Stir well and bring to the boil to thicken.

BISTO MAKES DELICIOUS GRAVY. Trade enquiries to General Agencies Ltd., Post Box 24, Nairobi.

STOP THAT COUGH. The new means of relief from coughing is BRYLOR Pastilles. It consists of dissolving their special purposeful antibiotic vapour in ordinary water, relieving congestion and soothing inflammation. Carry about with you against cough and sore throat, in the neat little box provided in each bottle of EVANS' BRYLOR PASTILLES. Available at all Chemists.

HAVE YOU TRIED CELERY SALT

For Your Salted Almonds?

Salted and savory almonds are a welcome addition to all most any sandwiches or dinner party, and are not difficult to prepare. Simply the almonds, which should be of the Jordan variety, by plunging them into hot water, after which it is easy to remove their skins. Dry them carefully in a towel. Heat two tablespoons of good salad oil in a small frying pan until blue smoke rises and toss the almonds in it until they are deep golden brown. Drain them on paper and sprinkle with coarse salt or a more savory flavor is required, with good celery salt.

Black and white. Few things look smarter than a frock of black crepe with wide cuffs and deep waistcoat front at white tulle or organza.

Details for Frocks

FINE FEATHERS MAKE FINE BIRDS

BUT WHAT OF THE FISHES?

Buttons and buckles are important now. Pretty little round turquoise blue buttons fastened from throat to waist the holder of a black crepe dress adorned with two rows fastened each sleeve and the belt was fastened with a broad black buckle set with imitation turquoise stones.

Small satin flowers falling from shoulder to hem. Flowers crepe dress striped with silver, the complementary coat made up on the same material as the main dress, silver striped with brown. Several new frocks made entirely of fringe—some the sleeves which are looped. Chiffon and tulle dresses made radiant with applique seen all over them. Made in pink tulle with large shoulder frills of cellophane. Green, silver applique over all. Dinner gown with the "coll" tulle effect emphasized by "feathers" made of strips of tulle.

Prissy little blouse in white tulle into which delicate silver threads are woven.

New Sleeves

WINGS FASHIONABLE ON EARTH

No sleeves at all or very elaborate ones appear to be the vogue at present. Flaring wing-like sleeves look delicious in the graceful dresses which are characterized variously as "regatta,"

leire style at the left side while sweeping the ground at the right side and the back. A thick grille of treated silver and wood round the waist, was knotted at the left side and fell to fall almost to the edge of the skirt where it finished in long tassels. A cluster of small silver and sunset flowers adorned the corset-rod placed on the shoulder but passed diagonally along the "crossover" front. The sleeves at this model were enormous loose triangles of the chiffon, the points floating down to the knee.

"Furrow" sleeves. Wide bell-shaped dresses looked well in a silk crepe dress which had a round lace yoke.

Puff sleeves, most with elaborate bead work are seen, and others worked in intricate cut-out embroidery. Long, full sleeves, caught at the wrists into narrow bands, slashed to show fringes of vivid color, others cut in many narrow tiers so that they appeared to be laced, others again pinched vertically from shoulder to wrist. Wide bell-shaped lace sleeves looked well in a silk crepe dress which had a round lace yoke.

It cannot be said that such elaboration is very comfortable. Imagine the "bonnets" set into, coming into conflict with tea-cups or cocktail glasses with lace or sweeping train-line of a small table on the golden floor to receive her guests. Observing they are quite attractive and lend a certain "dash" to the dress they adorn.

Some Novel Ideas

An evening gown of iridescent shells made of cellophane which catches on the main-points makes about. A white chiffon model which appears to have just emerged from a rain storm, which is suggested by long strings of crystal beads. Iridescent white satin gown with a trail.

The Stewards' Group at Major Bay's Base Meeting at New Mars, December 21, 1931.

Shorter and Shorter or Longer and Longer

It is quite evident that designers mean us to go all "little girlish" so far as length of day-time skirts is concerned. Twelve inches from the ground is the generally accepted length, but soon smart women prefer it to be six or seven. Many of the skirts are very tight and close fitting, combined with the abbreviated length, looks awfully neat on the slender figure. It is not advisable, therefore, desirably to copy fashion in this respect unless the figure can definitely carry it off.

Though day dresses are short, evening gowns continue to sweep the ground. It is indeed, difficult to walk in some of them for they not only are very long but have long frills, also they are tight at the front, also they are tight at the length. The designer's grand idea about the difficulty of dancing in them, but still, more rapid waltzes, waltzes, waltzes, about, looking very dignified and elegant. One thing the long dress wearer has to bear in mind is—the short, rather plump woman; women seem to get by tonight in a dress because it flows through definitely carry it off.

Germolene Will End ALL Your SKIN TROUBLES SOOTHES at a Touch! The first cooling touch—and burning inflammation, stinging pain, etc. But don't only half the story! The amazing speed with which Germolene cures ANY skin trouble, however serious, is both due to its ingredients. Thousands of sufferers have found glorious freedom from Skin Troubles with Germolene. On the right is a typical letter—straight-from-the-heart genuine. Read it. Then get your tin of GERMOLENE, BALSAM, OINTMENT, PASTE, Lotion, Cream, etc.

GINGER DICK

WHAT CAN THEY DO?

"And now for home!" said Edward George. "My hat, it might be late! I'm sure it's past my bedtime now! I should retire at eight."

"In bed at eight, Oh, Edward George, we can't be so late!"

"The village clock!" cried Ginger Dick. "I hear it striking ten."

"Then through the night our hours whizzed, along the peaceful road. Until they reached the heated door at Mustard John's abode."

"Goodnight, goodnight!" cried Mustard John with tears of gratitude. "I'll not forget your splendid help to-night in Winter Wood."

Harry actually had Henry hit his head on the table and the man was so stunned he fell on his face. He was so stunned he fell on his face. He was so stunned he fell on his face.

Harry actually had Henry hit his head on the table and the man was so stunned he fell on his face. He was so stunned he fell on his face. He was so stunned he fell on his face.

BROTHER Michael and I were glad to make a pretty long walk with Uncle Matthew at St. Pellan during our West Coast tour. Mike's little thimble shoe was on the rocks I repeated on the way.

"You're a popular man here, Uncle Mike," I said, "because you're so generous. What a pity that Mike has to go to St. Pellan during our West Coast tour. Mike's little thimble shoe was on the rocks I repeated on the way."

"You're a popular man here, Uncle Mike," I said, "because you're so generous. What a pity that Mike has to go to St. Pellan during our West Coast tour. Mike's little thimble shoe was on the rocks I repeated on the way."

"Yes, on the face of it, Mike little thimble shoe was on the rocks I repeated on the way. Mike's little thimble shoe was on the rocks I repeated on the way."

"Yes, on the face of it, Mike little thimble shoe was on the rocks I repeated on the way. Mike's little thimble shoe was on the rocks I repeated on the way."

take that back to St. Pellan with me. The man who had picked up the weapon was already back in the boat."

"You two boys must have been off on it in his dream to try to make the shore. The dinghy was swamped, but he had to get out of the surf on the beach. The yod was left drifting, and the wind blowing over a point or two to the man's right north, her crew down the beach."

"Great Scott! What was I doing out in the water? I was looking for trouble. Must have been looking for trouble. Must have been looking for trouble."

"An' that's the worst, mister, said the Companion, looking anxiously. 'The only words when we had a'nd on the beach. Matthew's presence was a relief. He had written out in calm, business-like handwriting—'I got it!—' said he. 'The dinghy was swamped, but he had to get out of the surf on the beach. The yod was left drifting, and the wind blowing over a point or two to the man's right north, her crew down the beach.'

HOW MANY FISH DID ELFE CATCH?

HOW MANY FISH DID ELFE CATCH?
 Elfe caught a fish and a woman was looking at it. Elfe caught a fish and a woman was looking at it.

St. Pellan was again with the news. 'By Jove!' he cried to the other boys. 'The boat was swamped, but he had to get out of the surf on the beach. The yod was left drifting, and the wind blowing over a point or two to the man's right north, her crew down the beach.'

Agricultural Section

Edited by H. F. Hill.

MORE ABOUT SOIL EROSION

The New Year has brought with it a number of good resolutions for the year to come. One of the most important of these resolutions is that of agricultural planning. It is a well-known fact that the soil is the basis of all agriculture, and it is therefore of the utmost importance that it should be properly cared for. The following are some of the most important resolutions for the year to come: 1. To plant trees and shrubs to prevent soil erosion. 2. To use manure and other fertilizers to improve the soil. 3. To avoid overgrazing and to rotate crops. 4. To use contour ploughing and other soil conservation methods. 5. To use the services of a soil expert to advise on the best methods of soil conservation.

MARKET REPORT

The following market report is compiled by Messrs. Deane and Co., Ltd., 10, Abchurch Lane, London, E.C. 4. It is published weekly on Friday. The following are the prices of various commodities: Wheat - 10s. 6d. per cwt. Flour - 12s. 6d. per cwt. Sugar - 10s. 0d. per cwt. Rice - 10s. 0d. per cwt. Tea - 10s. 0d. per cwt. POULTRY NOTES

The Control of Parasites

CLEANLINESS THE BEST METHOD

By T. O. Boyer in "Farm, Field and Forest." It is often asked where do flies go in the winter, and where do they come from in the summer? It is a law of Nature that the species shall be propagated, and when, as with insects, the death rate among the adult creatures is high, it is usually found that one of the earlier forms is very difficult to destroy, generally by either the pupae (or ova) or the larva (or pupa). In one of these conditions it exists until circumstances are favorable for its appearance in one of the other forms. Consequently, when once established in a house or run, it is no easy matter to keep poultry free from them.

Insects are destroyed by what is known as the "winter rest" or "hibernation." By their loss of intelligence, they are not so susceptible to cold, and in consequence with poultry it is difficult to keep poultry healthy in winter, but in the summer they are at their most active, and this is the time when they are most numerous, and it is at this time that they are most difficult to control.

After Them on This Cleaning Day

Really, you can come to think of it, how you have to keep your chickens healthy, and lay eggs for you to eat, if they are troubled by parasites all the time. It is in a sense to say that insects which are strong enough to make disease, when raising disease, use up strength and continued will ruin the strongest constitution. Do this to the birds if you have not seen your part.

Think also of all those red and white spots on the legs, which indicate the presence of the mites, and the itching of the legs, these red and white spots on the legs, which indicate the presence of the mites, and the itching of the legs, these red and white spots on the legs, which indicate the presence of the mites, and the itching of the legs.

Nothing Like Light and Fresh Air

At least, just a year or two, you can move about in a clean, cool, and comfortable way, with a little water, to which some perfume has been added, or with a good disinfectant, and which will keep you clean and fresh.

This is a mixture of creosote and paraffin. The object in using creosote is to kill the flies and other insects which are present, and to keep the birds clean and fresh.

A Mixture of Creosote and Paraffin

The object in using creosote is to kill the flies and other insects which are present, and to keep the birds clean and fresh.

Moraine Sulphate

A 30 per cent solution of moraine sulphate is used to kill the flies and other insects which are present, and to keep the birds clean and fresh.

Prevention Not Always Effective

With regard to the birds, it is important to keep them clean and fresh, and to prevent the spread of disease.

MAINLY ABOUT DALLAS

The Subscription to the Kenya Horticultural Society is due. It is a year and should be sent to the Hon. Secretary, P.O. Box 27, Nairobi. All correspondence in regard to Horticulture should be addressed to the Editor, P.O. Box 27, Nairobi. These notes are based on gardens in Nairobi and vicinity, which are in the best of health, and are in the best of health, and are in the best of health.

Wag Dog Before Hand

Lime and manure should not be mixed at the same time because lime sets the manure, and if it is mixed before the plants can make use of it. The general view is that lime should be applied to the soil, and manure should be applied to the plants, and the plants should be watered with lime water.

Remove all Potted Plants

It is generally best to remove all potted plants from the garden, and to burn them, or to throw them away, or to burn them, or to throw them away, or to burn them, or to throw them away.

Three Ways of Propagating

There are three ways of propagating plants, and they are by seed, by cuttings, and by layers. Each method has its own advantages and disadvantages, and it is important to choose the right method for the right plant.

They Grow Well as Any

Dallas is one of the most effective and easily grown plants in Kenya, and they have a long history of successful cultivation. They are easy to grow, and they are easy to propagate, and they are easy to grow, and they are easy to propagate.

Yet Another New Ship for the Union Castle

The Athlone Castle, shortly after the launching ceremony.

Launched by H.R.H. The Countess of Athlone

It will be seen from the above that the Athlone Castle is a fine specimen of a modern steamship, and is well adapted for the service which she will perform. The ship is owned by the Union Castle Line, and is to be used for the service between Cape Town and London. The ship is to be commanded by the Hon. Captain J. H. H. Brown, and is to be crewed by the Union Castle Line. The ship is to be launched by H.R.H. The Countess of Athlone, and is to be named in honor of the late King George V. The ship is to be built by the Harland and Wolff Shipbuilding and Engineering Co., Ltd., Belfast. The ship is to be 220 feet long, 28 feet beam, and to have a displacement of 2,500 tons. The ship is to be fitted with a single funnel, and is to have a maximum speed of 18 knots. The ship is to be fitted with a wireless telegraph, and is to have a crew of 100 men. The ship is to be launched on Thursday, January 8, 1936, at 11 o'clock a.m. The ship is to be named in honor of the late King George V, and is to be the first of a new class of ships to be built by the Harland and Wolff Shipbuilding and Engineering Co., Ltd.

Comfort the Main Consideration

The Cabin Class accommodations consist of three and four berth rooms. Dining Saloon, Chart Room, Smoking Room, Verandah Deck, and Children's Playroom. The Cabin Class will be much superior to the Tourist Class standard throughout the run of the Company has been to make the most comfortable. In all cabins of both classes there is ample ventilation which is available on demand by the main-blower system. Messes, berths and electric heaters, their own design and manufacture which will heat the Public Rooms when necessary.

Technical Details

Regarding the most technical side of the matter there will be an 800-horsepower engine of about 200,000 cubic feet capacity.

The main engine will be of the well-known Harland-B. and W. double-acting two-cylinder type having ten cylinders with a diameter of 60 inches and a piston stroke of 1,500 mm. embodying action injection of fuel, auto-actuating and steam exhaust valves.

Four electrically driven screw turbo blowers will be provided with a main shaft that drives the four main engines. The electric power will be provided by an installation of five Diesel generating sets, each capable of delivering 700 kw. at an engine speed of 1,500 r.p.m. and will be of the Harland-B. and W. oil-fuel type, four-pole, crank shaft type, with a diameter of 850 mm. and piston stroke of 620 mm. running at 210 r.p.m. The auxiliary engines and alternator will be of the same design as a separate engine room.

Two Clark-type boilers, and two Willcocks-type boilers, and will be fitted in the engine room. The boiler room is to be fitted with the engine room superheating tank, and the steam required at sea from the same of fuel. In port the boiler room is to be fitted with a separate engine room.

The boiler room is to be fitted with the engine room superheating tank, and the steam required at sea from the same of fuel. In port the boiler room is to be fitted with a separate engine room.

Reviews of New Books

THE ROYAL STATE—WE BELIEVE WOMEN—THE GREAT YEAR—THE SOVIET UNION—THE LADY OF BLEEDING HEART YARD—VICTORIOUS TROY

A Review of New Books, recently published in London, by a well-known Literary authority.

It is not surprising that the review of new books is one of the most popular sections of the literary world. The reviewer's task is to select the best of the new books and to bring them to the attention of the public. The reviewer's task is to select the best of the new books and to bring them to the attention of the public.

LEISURE HOURS

A MISCELLANY OF GAMES AND SPORT

March 26th, as compared with 1935, was a very good year for the Union Castle Line. The ship was launched on Thursday, January 8, 1936, at 11 o'clock a.m. The ship is to be named in honor of the late King George V, and is to be the first of a new class of ships to be built by the Harland and Wolff Shipbuilding and Engineering Co., Ltd.

Technical Details

Regarding the most technical side of the matter there will be an 800-horsepower engine of about 200,000 cubic feet capacity.

The main engine will be of the well-known Harland-B. and W. double-acting two-cylinder type having ten cylinders with a diameter of 60 inches and a piston stroke of 1,500 mm. embodying action injection of fuel, auto-actuating and steam exhaust valves.

Four electrically driven screw turbo blowers will be provided with a main shaft that drives the four main engines. The electric power will be provided by an installation of five Diesel generating sets, each capable of delivering 700 kw. at an engine speed of 1,500 r.p.m. and will be of the Harland-B. and W. oil-fuel type, four-pole, crank shaft type, with a diameter of 850 mm. and piston stroke of 620 mm. running at 210 r.p.m. The auxiliary engines and alternator will be of the same design as a separate engine room.

The boiler room is to be fitted with the engine room superheating tank, and the steam required at sea from the same of fuel. In port the boiler room is to be fitted with a separate engine room.

The Choice of a Short-Wave Receiver

(By L. W. Hayes), The Empire and Foreign Service Engineer, of the B.B.C.

The fallacious nature of a short-wave receiver for reception of the Empire Station... The B.B.C. has a special reception of the B.B.C. to the Empire Station...

Part I

Many Empire listeners will be surprised to hear that a special reception of the B.B.C. to the Empire Station... The B.B.C. has a special reception of the B.B.C. to the Empire Station...

Conditions Vary From Place to Place

When buying a receiver it is most useful to try it out in the situation in which it will be used... At the same time, it is desirable that reception should be obtained in the same situation and at the same time...

Number of Valves—Sensitivity

Although the number of valves employed may give some indication of the sensitivity of a receiver, the number of valves is not a true criterion of sensitivity... The modern British valve, in general, has a power of 2,000 to 3,000 watts...

The Wave-Range Receiver

The Empire Service receiver (obtainable free on request to the B.B.C. Publications Dept.) is a...

COMMENTS OF THE WEEK

By The Morning Editor.

Many official cycling bodies in Britain opposed the suggestion that, in common with practically all other road users, cyclists should carry rear lights with main, lantern-type lamps... The incident, however, recalls the story of the war-time Tommy who was going on leave and had had to "wait a moment for his gun. So he took home an old brass door knob... On his return to the barracks he was told that the door knob was there after treatment.

It is stated that a New York Church has installed a set of seven-ton trucks driven from old motor cars... The trucks are being used for the purpose of carrying the bodies of the dead... The trucks are being used for the purpose of carrying the bodies of the dead... The trucks are being used for the purpose of carrying the bodies of the dead.

Death of Marquess of Reading

A BRILLIANT LAWYER AND STATESMAN

Ship's Boy to Viceroy

ATTRIBUTED SUCCESS TO HARD WORK AND SOME LUCK

A man who started life as a ship's boy and rose to be a Viceroy of India died in London on Monday afternoon.

Romantic Career

Mr. Marquess of Reading, who died at the age of 70, was the first holder of the office of Viceroy of India in 1911. He was born in 1851, and his father was Lord Chief Justice in 1833.

In Parliament

And it was when he entered Parliament in 1876, for his long, successful career as a lawyer and statesman, that he began to add more and more special services to his list of achievements.

Encouraging Revenue Position

His days before high office were spent in the House of Commons, where he was a member of the Conservative Party.

Devised With Honors

He was knighted in 1881, and in 1891 he was made a baronet. He was also created a Viscount in 1901.

NOTE CIRCULATION

During Christmas week the note circulation reached its highest point in the year, and for the third year in succession the return of the Bank of England for the week before Christmas was a new record.

The note circulation amounted to £424,556,785—an increase of £55,443,252 on the preceding week, and an increase of £19,842,886 on the corresponding week of last year.

Return from India

At a dinner held in his honor on his return from India, Lord Reading was the guest of honor.

Successor

His successor as Viceroy of India is Lord Curzon, who was appointed to the office in 1921.

Successor

His successor as Viceroy of India is Lord Curzon, who was appointed to the office in 1921.

RECORD STREET OUTPUT

British Industries Going Ahead

BETTER PROSPECTS FOR NEW YEARS

By Mr. M. H. Macdonald, M.P. The Ministry of Labour estimated at the end of 1921 that there were approximately 10,500,000 insured persons in Great Britain. This was 2,000,000 more than on November 22, 1920, and 1,000,000 more than on the same date last year.

The late Marquess of Reading.

EXCHEQUER RETURNS IMPERIAL TRADE

Encouraging Revenue Position
