## Government accepts motion Immediate plans will be made STEPS TO EASE UNEMPLOYMENT Outline promised in advance of detailed report on problem

The Kenya Government yesterday accepted a motion proposed by the Earl of Westmorland (Nominated Member) that immediate skeleton plans for the relief of unemployment in Kenya should be prepared. These plans, the motion urged, should be made ready in advance of the report by the commissioner whose appointment has been promised by the Government to examine the problem.

During the debate, Mr. A. T. Colvill, (Member) declared that unemployment in Kenya was due to a large measure to the lack of confidence of foreign investors in the future of the country.

**Largest-scale investment**

He was criticised for this contention by the Minister for Commerce, Mr. Hope-Jones, who said that though there was a decline to investment in mixed farming, the largest-scale investment any colony had ever experienced was being made in Kenya at present time.

**Applause from Members**

Introducing the motion, Lord Forster (Member) hoped to make a small contribution towards solving the unemployment problem himself when the principle was contained in the Sessional Paper which the principle was contained in the Sessional Paper and the sessional paper.

It was criticised for this contention by the Minister for Commerce, Mr. Hope-Jones, who said that though there was a decline to investment in mixed farming, the largest-scale investment any colony had ever experienced was being made in Kenya at present time.

No preconceived plan for next stage in Colony's constitutional advance

## MR. MACLEOD PLEDGES IN KENYA

### Peace suited to needs of whole nation

AN assurance that he had come to Kenya with no preconceived plan for the country was given by the Colonial Secretary, Mr. Iain Macleod, when he arrived at Wilson Aerodrome, Nairobi, yesterday.

Mr. Macleod, who was greeted by the Governor of Kenya, Sir Patrick Benison, warned that solutions which suited other territories were not necessarily applicable to Kenya.

Mr. Macleod said: "My visit to Kenya is the heart and centre of my work in East Africa. Indeed, it is because of the holding of the Kenya constitutional conference in London next month that I wanted to come to Kenya and study some of the problems here and to meet members of the Government and leaders of political parties and political thought in this country.

"It is going to be a difficult task requiring a good deal of statesmanship from many people. I hope very much that we will be able to achieve that.

"I do not think that there are here to be found any solutions anywhere in the same measure in other territories. It follows that what is right for other territories is not necessarily the right thing to do for Kenya.

"Kenya should go forward at the best pace suited to the needs of the whole Kenyan nation. That is what we are trying to achieve, or to do."

**Statesmanship required**

"I follow that I have not come here with a preconceived plan as to what the future constitution of Kenya should be. What we must try and chat together at the constitutional conference next month is the next step in that advance.

"It is going to be a difficult task requiring a good deal of statesmanship from many people. I hope very much that we will be able to achieve that.

"I do not think that there are here to be found any solutions anywhere in the same measure in other territories. It follows that what is right for other territories is not necessarily the right thing to do for Kenya.

"Kenya should go forward at the best pace suited to the needs of the whole Kenyan nation. That is what we are trying to achieve, or to do."

Mr. Macleod will visit a group of students at Nakuru on his way to city in Kampuch.

**Peaceful ways to be studied**

The United Nations General Assembly unanimously endorsed an East-West agreement to set up a 24-member committee to promote international co-operation in peaceful uses of outer space. It also agreed to convene an international conference next year or in 1961 "for the exchange of experience in the peaceful uses of outer space."

The resolution said the exploration of outer space should be "only for the betterment of mankind and for the exchange of experience in the peaceful uses of outer space."

The resolution recommended the committee to study the reports of the United States, the Soviet Union, France, Great Britain, Germany, Italy, Japan, the United States, and other countries.

The resolution also recommended that the committee should study the reports of the United States, the Soviet Union, France, Great Britain, Germany, Italy, Japan, the United States, and other countries.

## Minister blames U.N. for riots at Windhoek

ALL was quiet in the South-West African township of Windhoek on the weekend after the riots there. Eight hundred cars were parked in the streets of the township. Official casualty figures confirm that 12 people were killed in the disturbances and 1000 were injured. The South African Minister of Defence, Mr. R. L. D. M. van Rensburg, said that the United Nations had made their evidence on the South-West African situation clear. He said that the United Nations had made their evidence on the South-West African situation clear. He said that the United Nations had made their evidence on the South-West African situation clear.

**Nato must maintain defence strength**

FOREIGN Defence and Security Ministers met in Paris this week for a final appraisal of the state of the alliance on the threshold of summer 1960.

Before leaving Washington, the United States Secretary of State, Mr. Dean Rusk, said that the United States would continue to support the alliance. He said that the United States would continue to support the alliance.

**Federation to ignore Socialists**

A FACT-FINDING mission from the British Labour Party will not be recognised by the Central African Federation if it visits the country.

The Federal Prime Minister, Sir For Macleod, made this statement in Salisbury at the weekend when he commented on the report that the Labour Party might send a fact-finding mission to the Federation after its refusal to have anything to do with the Macleod's Government.

**East-West Agency for Space Research**

The United Nations General Assembly unanimously endorsed an East-West agreement to set up a 24-member committee to promote international co-operation in peaceful uses of outer space. # STATE MEDICAL SERVICE IN KENYA

It has been long known that the State medical service in Kenya is a necessary one. It is a service which has been built up over the years and which is now being expanded to cover the whole of Kenya.

The Aga Khan Foundation, which has been assisting in the development of the State medical service, has been instrumental in the expansion of the service to cover the whole of Kenya.

The expansion of the State medical service is a necessary one. It is a service which has been built up over the years and which is now being expanded to cover the whole of Kenya.

DOWN TO EARTH

OUTSTANDING examples of what quality matters mean for Kenya's future... representative quality and social progress.

THEY are the people with whom the future of Kenya has to be built. This meeting was not arranged primarily to introduce Mr. Blundell's visit...

Training and promotion of all levels

"Confidence" was one of the main themes running through Mr. Blundell's debate... training and promotion of all levels.

CHRISTMAS CRISTMAS

CHRISTMAS comes but once a year, and when it does it does so with good cheer and good cheer from a spirit of acceptance and unity.

Whatsoever strands of wealth might be manifested throughout the year of the Christmas was the season for democracy.

It is interesting to observe that many historically moderate Christmas customs are not really modern but have derived in lower or modified form from the 17th century.

HOME FRENDS

Mostly leading singing games, all that is still known to the British Crown in Kenya, as well as other East African countries.

Paraphrasing 20th century Britain, one must leave Christmas family cheer of the season to go with the spirit of Christmas.

Big fish gets cast for Xmas display

By John Elton
BROAD-BILLED woodpecker, the most common species of bird seen in the forest, was the 'big fish' chosen for the Christmas display.

On arrival, it was handed over to Mrs. E. H. Barrow, the women's secretary and secretary of the Kenya Ladies' Club.

It was just over a hundred years ago that in Western Australia the first Christmas tree was decorated in England.

Mince pies mentioned in Mr. Pepsy's diary... old-fashioned parties like mince pies mentioned in Mr. Pepsy's diary.

# COUNCIL INQUIRY SOUGHT

## Businessmen send petition to Governor

### MORE ROOM AT CLINIC PLANNED

More waiting room accommodation is to be provided by Nairobi City Council to reduce overcrowding at the Rhodes-Premier Health Centre.

There had been complaints of great numbers of patients waiting for an appointment at the centre. Mr. J. M. Kariba, chairman of the council, stated that the council had been informed that there were to be an improvement in the services of the centre.

The Medical Officer of Health, Dr. A. T. C. Cheung, had given an assurance that provision would be made for an additional waiting room to be available for the health centre.

### PROMINENT African businessmen and property owners

in Nairobi are sending them, who have signed a petition to the Governor of Kenya, the Premier, requesting for an impartial and judicial inquiry into the workings of the Nairobi City Council.

### Lectures on peace

The idea of the Peace Week in Nairobi when he was in Kenya in Nairobi in August, 1954.

After giving talks in Nairobi, the speaker will visit Kisumu, Mombasa, Malindi and Lamu. He will also visit the United States, where he will give a series of lectures on peace.

# Refinery may help Mombasa industry

MOMBASA should enjoy a greater degree of industrial development as a result of the refinery project and the possibility that a number of subsidiary industries would be attracted to the area.

The refinery project, which is being developed by the Mombasa Refinery Co. Ltd., is expected to be completed by 1960 at a cost of about £2,000,000. The refinery will have a capacity of 100,000 tons of oil per year.

**TRIBESMAN KILLED BY  
POLICE AFTER  
ATTACK WITH SPEARS**

ONE man was killed and two others are thought to have  
been wounded when a police corporal opened fire on a  
gang of 100 Kikuyu armed with spears who attacked him  
and tribal elders. The shooting occurred at Madi-  
apla, in the Marakissa area, when the corporal was investigating

Bookings open  
for show

BOOKING has opened at the  
National Theatre for the  
Mahiki Players' production,  
Goldilocks and the Three Bears.  
There will be five performances  
between January 14 and 18 —  
three 8 p.m. shows and two  
matinees.  
More than 80 per cent of the  
seats for the 16 performances in  
Hoboken, where the production  
opens on Saturday, were sold by  
last Thursday.  
Rehearsals are going well.  
The show's heavy costumes have  
been specially imported from  
England.  
Carol King, who starred with  
Arthur Askey in 'The Love  
Racket' and who played several  
leading roles in other West End  
successes and films, is principal  
girl.

The Head Rev. R. Mung'ara,  
Minister of the  
Presbyterian Church of East  
Africa, speaking at the  
opening of a new community  
centre at Kariakoo, Nairobi.  
On his right is the Commis-  
sioner for Health, Mr  
Munira Singh.

**Parking meters'  
good income**

Nairobi's parking meters have  
netted more than £2,500 in the last  
six months. September produced  
the highest monthly total, £400,  
followed by November (£375)  
and July (£285) August and the  
lowest amount (£200).

The corporal fired about  
eight rounds, wounding  
three and killed one of the  
men. The other two wounded  
men were taken to hospital  
and are expected to recover.  
The corporal stated that he  
was on duty in the area  
when the men appeared  
and that he was ordered  
to open fire on them.

**Cattle stolen**

The police also reported during  
the weekend that 300  
cattle had stolen with  
cattle being grazed by three  
tribesmen in the  
Kisumu area. One Kikuyu  
tribesman was killed  
by the police.

Tribe police patrol  
returned and a general  
patrol of the area was  
ordered. The police are  
trying to cut off stolen  
cattle from the area. A  
patrol of the area is also  
preventing the tribesmen  
from following the police.

"Standard" Correspondent,  
Nairobi

A FUGITIVE in Kenya wants  
to make demands for  
the government without offer-  
ing any consideration to the  
role played by immigrant  
traders in putting the country  
"on the map".  
This was claimed by Dr.  
S. G. Hassan, who was  
addressing a political meet-  
ing at Mombasa.

Speaking at a platform with Mr.  
A. J. P. Mwangi and Mr. G. M. Mwangi,  
Dr. Hassan pointed out  
that the government had not  
yet taken any steps to  
bring the country back to  
its former glory. He said  
that they could not expect  
the government to do more  
than to give a place to the  
immigrant traders.

Referring to the constitutional  
conference, he said he thought  
that the delegates from Kenya  
would go to the conference with  
a clean conscience. He said  
that they were in a position to  
offer any consideration to the  
role played by immigrant  
traders in putting the country  
"on the map".

A satisfactory settlement was  
not the question and every  
group had its own.

Dr. Hassan would not  
say an increased share in the  
government of Kenya but  
that he would go to the  
conference with a clean  
conscience. He said that  
they were in a position to  
offer any consideration to the  
role played by immigrant  
traders in putting the country  
"on the map".

The White Paper on land had  
been issued. It was expected  
that the government would  
take 30 years to get  
the land back. He said that  
the government had not  
yet taken any steps to  
bring the country back to  
its former glory. He said  
that they could not expect  
the government to do more  
than to give a place to the  
immigrant traders.

**THE 4.6 TABLE-TOP  
KELVINATOR**  
is ideal for the small  
household

The compact little refrigerator holds an amazing quantity  
of food for its size. The table-top size is 4.6 cu. ft. and  
holds in nearly 8 cu. ft. of food space, including 2 1/2 cu. ft.  
with a double plastic bin, a provision for maximum storage  
space on working surface for the kitchen. The 4.6  
Kelvinator has a 120V. frozen food capacity and has more  
of the features of the larger models, including door-frame  
insulation, shelves for meats and vegetables and  
adjustable interior shelving.

There is no wasted space or wasted food with the 4.6  
Kelvinator. At only 4.6 cu. ft. it is the most compact  
refrigerator in the best class.

# AUSTRALIA TAKE FIRM GRIPE

## India face 2nd innings defeat at New Delhi

### Moss may drive for Porsche

STIRLING MOSS has agreed to drive for the German Porsche racing car next season, the West German News Agency, D.P.A., has reported from Stuttgart, West Germany.

AUSTRALIA were off out for the first Test against India at New Delhi. They were relying on a strong batting line-up.

### Report premature

Later, a spokesman for the Porsche firm said reports that Stirling Moss had agreed to drive for Porsche were premature.

India were in for one wicket in their second innings at New Delhi. They were relying on a strong batting line-up.

## BODY BUILDING IS A SPECIALIST'S JOB

—it can be done right here by skilled engineers

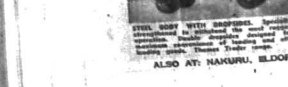

Among the many job-related bodies built for Ford chassis by Hughes Ltd. are those of which we are especially proud. Each presented us with a separate problem requiring not only technical skill but also resourcefulness.

Fortunately we have an ample reserve of both, plus facilities second to none and—not the least—the best proved equipment of the Ford range. The result—a combination without equal in East Africa and many more satisfied customers. You can count on our experience.

## Protection of human rights now duty of majority TANGANYICA ACCEPTS CHANGE

### CHANGES PROVIDE LESSON IN HARMONY TO KENYA

GENERAL approval of the forthcoming constitutional changes in Tanganyika has been expressed by political parties in Kenya and Members of Kenya Legislative Council.

Several speakers stressed however that similar changes in Kenya would be quite unacceptable in view of the Colony's different history and conditions.

The chairman of the United Party, Mr. A. C. Calverly, said that the present development in Kenya was a lesson in harmony to Kenya. He said that the changes in Tanganyika would be a step in the right direction.

Mr. Muroto said Tanganyika's step to independence was now Kenya's chance to be kept from taking a similar step.

Mr. Muroto said similar changes in Kenya would be a step in the right direction. He said that the changes in Tanganyika would be a step in the right direction.

### Mr. Nyere warns of tasks ahead

**PLEADING** for racial harmony in Tanganyika, Mr. Nyere, leader of the African National Organisation, yesterday urged: "Let it not be said by posterity that we were a bunch of hypocrites."

He was speaking during the deliberations of the Legislative Council on the Government's proposals announced sweeping changes in the Territory's Constitution.

Mr. Nyere said: "Let not the world pass a finger at us and say that we gained our freedom on a small tongue and the brotherhood of man and then turned ourselves to discriminate against our brethren on the ground of colour."

**Trust of minorities**

Stressing the notion of trust in the Government, Mr. Nyere said it must not mean that the Government would truly be a responsible Government. His side of the Council would support the change only if the country to accept them in a spirit of confidence and good will.

The lesson of Tanganyika was the trust of the immigrant minorities in the good will of the indigenous majority, he went on. "This trust throws a great responsibility on us as the majority community. From now on the duty of protecting human rights is our duty."

The new Government would be responsible to the Legislative Council and through the Council to the people of Tanganyika. It would be unable to carry out any measures unless it had the support of a majority of the people of the country, expressed through their representatives in the Council.

Mr. Nyere said that the Government would be unable to carry out any measures unless it had the support of a majority of the people of the country, expressed through their representatives in the Council.

### HEALTH RELIEF BILL GIVEN ITS SECOND READING

**KENYA** Legislative Council approved the second reading without a division yesterday of the Hospital Treatment Relief (Asian and Arab) Bill, which will empower the Government to raise a £200,000 a year contribution towards a health insurance scheme for Asians and Arabs.

Replying to a lengthy debate on the ground that it was racial, the Minister for Health, Mr. Hargrave, said the Bill had been given a minority vote for political expediency.

He pointed out that the Bill was not a health Bill but a financial Bill. He said that the Bill would be a relief to the Government and would be a relief to the Government.

## The MORRIS MINI-MINOR

### Britain's revolutionary new car—a technical triumph!

The Mini-Minor is the product of the most original piece of reasoned thinking in motor engineering for many years. It is not different from other cars for the sake of being different; each innovation is an ingenious solution to opposed aims. The problem was to produce:

- The smallest possible car with the greatest possible room inside.
- A car with a big performance, together with maximum petrol economy.
- A car which rides well and drives well, yet is priced within the reach of everyone.

The Morris Mini-Minor is the brilliant solution to these problems and this is how it was done:—

**Transverse engine** — Placing the engine sideways between the front wheels has saved considerable space.

**Front-wheel drive** achieves greater stability and saves more space. With no differential to the back wheels, leg room is greater and there is additional space for luggage under the box seat.

**Single "power-pack" unit** — The gear-box is placed inside the sump. This saves yet more space, gives greater power and performance and saves money, too. With engine and gear box using the same oil, servicing is easier, cheaper and less frequent.

**Independent rear-wheel suspension** makes rough roads seem like tarmac. Easier driving in more comfort.

The result is an 850 c.c., four forward-gear car 10ft long which parks in 11 ft., seats four adults in real comfort, has a spacious luggage room and from U.K. road tests has a maximum speed of 72 m.p.h., cruises at 60, from 55 m.p.h. in third gear, 50 miles to the gallon and drives like a dream.

What more could you want?

## IGNORED BY SOME OR NOT, MONCKTON COMMISSION WILL SIT

The Prime Minister, Mr. Macmillan, made it clear in the House of Commons that the Monckton Advisory Commission would go ahead with its work in the Rhodesian Federation in spite of any action by African leaders.

The commission is to give the way for a review of the Federation's Constitution. Mr. Macmillan was replying to the questions by two Labour members.

Mr. John Stonehouse asked if he would reconsider the cabinet's decision on the commission in view of the expressed intention of the African political organisations to boycott it.

Mr. Tom Derry asked if the Prime Minister would revise the commission's terms of reference to include the views of the African political leaders.

Mr. Macmillan replied that the commission will proceed in spite of any action by African leaders.

## Communist eye on Africa

**KING HUSSEIN of Jordan** said in London that Communism might want to control Iraq as a stepping stone into Africa at some time in the future.

He said that his country was ready to do all he could to defeat the objects of Communism in the East and the Arab world.

The King was replying to a question about a report that the Soviet Union was planning to send troops to invade Iraq.

He denied making the remark, but said that there was grave danger of Communist influence in Iraq.

The growth of Communism in the Middle East was a "most dangerous development" which should not be taken lightly, the King said.

It appeared to him there were three reasons why Communism wanted to gain control in Iraq.

1. Control of the strategic oil fields in the region.

2. Control of the strategically placed area of Central Iraq from which they could strike into Africa some time in the future.

3. Control of the strategically placed area of Central Iraq from which they could strike into Africa some time in the future.

Neglect to conserve the most valuable commodity—water

A RECENT debate before Kenya's Legislative Council, presided over by Lord Pim, has shown that water is a commodity that is being neglected.

The main point is that the rapidly rising population in Kenya is not being met with adequate water supply. The water supply is being neglected, and this is a serious matter.

The water supply is being neglected, and this is a serious matter. The water supply is being neglected, and this is a serious matter.

# The Wonder Car is here!

£495 ex Nairobi

Come to see it!... come and test the baby born to do a man's job!

The new Austin 7 is amazingly flexible and docile to handle yet, if required, an amazing amount of power is available.

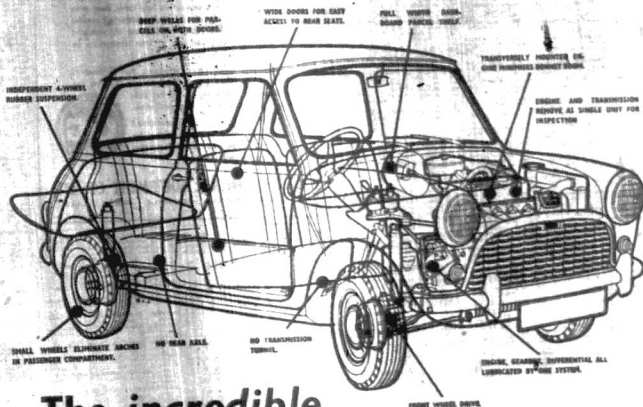

There is an accent on safety too; Austin quality material and workmanship make for complete dependability and

hydraulic brakes supply rapid and positive stopping power at all speeds.

The all independent suspension is so designed to provide grip tight road holding and complete stability on any road surface under any conditions.

1. I really enjoyed driving the little car.
2. I would say that even a driver with relatively little experience could take liberties with this car without finding himself in trouble of any sort.
3. Third gear is extremely useful, giving speed of around 60 mph.
4. I would say that the Baby Austin provides wonderful value for money.

The above are extracts from Scirling Moss writing in the *Sunday Times* on 11/10/59.

## Minimum Maintenance—Maximum Accessibility

The ingenious design of the new Austin 7 cuts servicing and maintenance requirements to an absolute minimum, yet, if necessary, the whole power and transmission unit can be exposed for inspection simply by lifting the bonnet.

**TUBELESS TYRES**  
Guaranteed Retreads by **C & G**

Many people are doubtful about the effectiveness of retreading tubelless tyres and some are unaware that it is possible at all without inserting an inner tube. In fact, the majority of such tyres can be returned to service after retreading as TUBELESS tyres. It is true that the problems are greater when retreading tubelless tyres than with other tyres, due to the former's special construction, but Car and General by constant research have overcome all the difficulties in this process.

If your tyre is worth retreading, Car and General will make a safe, long-lasting job of it, using the latest tread patterns. All retreads carry the famous C & G guarantee.

The 50% saving in replacement costs by retreading tubelless tyres saves you money if you have a C & G retread on your tubelless tyres.

**at Ginceru Club**

**C**OMBINED SCHOOLS tour this year in North-West Kenya, resulted in a win for the schools at Kitale and Eldoret and a defeat by eight wickets in the two-day match at Nakuru.

In the first game, played at Kitale, the schools side chose to bat and some good batting was shown before the team bowled out for 105. The visiting team was only able to get on top as Harris and he was dropped in square leg with his score at 46.

The schools' bowlers were given a fair chance of making a name for themselves but it was the visiting team that showed very little throughout the series. However, the bowlers by the Phillips brothers and Ginceru got the schools' good win by three wickets.

### Light resistance

All Eldoret the schools were again in the field first and once claimed an early wicket. However, the schools were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.

Rowan and Trevail had had a good start in the first innings but were bowled out for 112. Against the well-known bowlers, the schools were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.

The schools lost at Nakuru, but they had a good start in the first innings but were bowled out for 112. Against the well-known bowlers, the schools were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.

### Betting impulses

Mr. and Mrs. Prother were on the field for the first time in the series. They were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.

The schools worked hard in the field and led by 40 runs at the end of the first day. However, the schools were bowled out for 112. Against the well-known bowlers, the schools were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.

The schools' batting in the second innings was much improved and Phillips hit a valuable 41. However, the schools were bowled out for 112. Against the well-known bowlers, the schools were successful in the second innings, as the schools were bowled by the three top scorers in the middle order. The schools' resistance was not too strong as the schools were bowled for 74.
