Colliery Explosion

FIFTY-EIGHT MINERS LOSE THEIR LIVES

Mysterious Catastrophe

RESCUE TEAMS UNSUCCESSFUL EFFORTS

IN ICE COLD MINE

All hope of the safety of the Barniley colliery workers who were still missing yesterday after the explosion on Thursday, was abandoned yesterday afternoon. ifty-seven miners were killed underground, and the only man rescued alive died shortly after he had been brought to the surface.

The cause of the explosion is yet uhknown, and another mysterous feature about the trapedy is that the rescui-teams, whose heroic work had to be discontinued owing to the presence of gas, found ice-cold conditions pre-vailing underground and they had to be provided with-blankets and hot water bottles.

RACE TO WARN INHABITANTS WHEN RIVER BANKS BURST

Thunderstorm Havoc

WOMEN AND CHILDREN ESCAPE FROM FLOODED COTTAGES

["STANDARD" CORRESPONDENT, July 30.

A man ran into the Ayrshire village of Dalmellington ting "The flood is coming."

Behind him came a torrent six feet high from the river Muick which had burst its banks during a thunderstorm. Shops and houses were barricaded and men and women took refuge in upper rooms as the water swept past.

The flood first shattered a contractor's hut and carried mile away. Water and electricity supplies were cut off.

A workman was swept down the rillage street but saved his life by grasping the door of a shop. The occu-pants tore down the barricade and the water burst inside, carrying the man with it to safety.

A motor lorry was hurled twenty feet against a wall-Flood water poured into a row of cottages. The beds, tables and chairs swirled away.

Two women, Mrs. Jacob Allen and Mrs. H. McLuckie, were almost trapped in a house by rising water. Clutching their babies one aged nine and the other seven months, they pulled aside their makeshift barricade and waded through the water. They escaped by climbing a railing at the back of the house.

## VACUUM ANNOUNCES "NEW-PROCESS" MOBILOIL

CLEAROSOL PROCESS

WE offer you to-day a revolutionary new motor oilrefined by the Clearosol Process as perfected by Vacuum Oil Company-that will give results in your engine not to be obtained from lubricants refined in the conventional way.

The Clearosol Process now used in the refining of Mobilett, literally dissolves out the deleterious material naturally present in oil, such as tar, gum and sludge, leaving practically 100% pure lubricant, amazingly clean-burning and outstanding in all other

By this process, Mobiloil, for years the world's leading motor oil, now reaches a standard of quality and performance unapproached by other oils.

A windows of reference on a wall.) The experimental phote in Fauncie Research Laboratory of Metchell Engineers perfected the Characal Process in preparation for "Non-Process" Mah.

WHAT THE "NEW-PROCESS" MOBILOIL MEANS TO EVERY MOTORIST

Less Engine Wear
 Lower Oil Consumption
 Freedom from Gum and Sludge
 An End to Carbon Troubles, and
 Much Easier Starting

The project to establish a mest canning industry in Kenya to which references have been made in recent issues of the "East African Standard" advanced an important step yesterday when a Nairobh firm of engineers acting on behalf of Mesers. Lichigs (Robosian) Ltd., gave notice of an application to take water from the Athi River for the purposes of a factory part Athi River restation.

It is understood that Messrs. Liebigs, in considering business expansion, are weighing the merits. of Kenya, Rhodess and the Argentine and the negotiations are still proceeding. The water application as merely a detail in the general discussions.

retheless a factory site has been selected, comprising 160 acres and Athi-River would be a convenient collecting station for adjacent pastoral reserves where the overstocking problem is serious.

## WHITE MAN'S COUNTRY

By ELSPETH HUXLEY

Price Shs. 25/-(postage Shs. 1/75) art of 2 volum EAST AFRICAN STANDARD, Lid.

Review by "The Times."

"White Man's Country." is an interesting and remarkable book. It has in really two subjects, as its sub-life the biography of an exceptional mans, in park it is the biography of an exceptional mans, in park it is the biography of a galants and chequeful British settlement. Mrs. Huxley was right to emission the two same they were for inner that their years to closely inferences that to write of one without the other would be absent. We have wised a long time for a book of this next.

FORMAL SIGNING TO TAKE PLACE IN LONDON

Much satisfaction is expressed in authoritative circles here with the progress of the Anglo-Egyptian regoliations. The plenary session of both delegations engaged is fixed for this evening in Cairo, when the remaining clauses of the draft of the Anglo-Egyptian Treaty will be initialled.

This will bring the negotiations to a successful conclusion, and preparations are being made for the departure of the delegations for London, where the formal signing of the Treaty will take place.

The text of the draft treaty will be brought to England by the legal adviser to the British delegation, Mr. W. E. Beckett, who is due to leave by air on Friday. Sir Miles Lampson, the High Commissioner in Egypt, has provision-ally arranged to sail on Saturday, and other members of his delegation will also, leave during the week-end. Passages any arranged to sail on Saturday, and other members of insidelegation will also leave during the week-end. Passages have been booked for members of the Egyptian Delegation, who are arriving in Alexandria on Monday or Tuesday.—British Official Wireless Service.

### ANNUAL SESSION OPENED AT MOMBASA BY HIS EXCELLENCY

"We have turned the corner" said Colonel W. K. Tucker, President of the Association of Chambers of Commerce of Eastern Africa, making his address from the Chair to the annual session of the Association which was opened at Montheau on Wethensday by His Excellency the Governor, Sir Joseph Byrne.

Col. Tucker quoted the figures of imports, exports, and enstons and existe duty in the three Territories, as well as K. U.R. and H. returns all of which showed increases as compared with last year, and said that they gave "comforting support" to the opinion is had expressed.

He stressed the value of the Chambers of Commerce, which he described as "the commercial guardisms" of the communities in which they existed and they were able, through the Association, to mobilize support through-out the territories.

"There is much evidence on our files to support the claim that all the toveraments find it helpful periodically to seek our opinions on matters affecting the economic life of the territories" he said.

The speech by His Excellency, opening the session, referred to the value to the various Governments of such bodies as the Association, and he remarked "We want your help. We are anxious, where possible, to meet you in every way.<sup>25</sup>

RANGER'S PERILOUS ADVENTURE WITH LEOPARD MADDENED BY WOUNDS

Join can always be expected to provide a number of in-teresting episodes worth recording in the Game Reports of E. African territories anch year and 1938 was no exception to the rule in the Uganda Protections according to the report by the Game Warden (Captain C. K. S. Etiman, D. S.O., M.C.). The year, however, was a little less full of incident than uffeat.

If the "king of beasts" did not quite live up to his reputa-tion the isopard made full amends for his royal common and was very much in the limelight with a tally of thee Europeans seriously injured and another caught. The last fortunately emerged unscathed.

The buffalo is undoubtedly the villain of the piece in the Protectorate. With rare exceptions states the support it is pientiful, eften overwhelmingly shandout, and increasing rapidly in all districts. ## PROPOSED IN REPORT OF THE INVESTIGATING COMMITTEE

### Central Development Board

The Report of the Kenya Transport Coordination Committee was published during last week-end

The Committee is satisfied that unrestricted competition is not in the interests of the Colony or of transport owners and the Report proposes a comprehensive system of licences based on public advantage or necessity.

The chief proposal is that there should be "eabblished a Central Transport Development Board which would issue licences and have power to revoke or suspand them. The scheme provides for full consideration of the needs of areas to be served, existing clidites, rates, road conditions, type- of vehicles, restriction of class of goods to be parried, extending the proposal of the conditions o

Change In Mandate Might **Endanger Trade Routes** 

RESOLUTION BY ASSOCIATED CHAMBERS OF COMMERCE

ndard Special Corresp

The Associated Chambers to day discussed the question of the Taiganyika Mandate and passed a resolution expressing the opinion that any alteration in the national control of Tanganyika might seriously jeopardise the trade routes of East Africa and of the Union and might be a threat to the Empire trade routes of the East.

It was resolved to urge upon His Majesty's Government in Britain the absolute necessity of re-establishing confidence regarding the future of Tanganyika in the minds of all concerned.
