RECENT EVENTS IN THE UNION.

"KAROA" TO THE RESCUE.
FROM OUR OWN (DARRENFORD) PRESS.
In connection with the earlier statement that the Government and Orange have been approved of the danger of the introduction of Chinese, from Rhodes, and adjacent countries, it is now stated that the Union Government has issued special instructions regarding provisions in respect of immigrants particularly those of the Chinese race.

It is stated that the Government has decided to issue a special order to the effect that no Chinese immigrants shall be allowed to enter the Union unless they are accompanied by a qualified person and that the Government will be prepared to issue a special order to the effect that no Chinese immigrants shall be allowed to enter the Union unless they are accompanied by a qualified person.

TWO EXECUTIONS.
It is stated that the Government has decided to issue a special order to the effect that no Chinese immigrants shall be allowed to enter the Union unless they are accompanied by a qualified person.

The inland centres to the coast have established their popularity. They were due to terminate at the end of this month, but the Railway Administration now intimates that they will be extended up to the end of March 1922.

Really, the excursion (offices and first and second class) section tickets at single fare for the return journey, subject to a minimum of 45 lbs first-class, and 43 lbs 6d second-class, will be issued, under conditions defined, from stations in the Transvaal, Orange Free State, Natal, and Zululand, to the Cape Province distant direct by rail more than 200 miles from the nearest port town to (a) Durban and stations on the North and South Coast lines; (b) East London, Port Elizabeth, Jaffrey's Bay, Port Alfred, Mossel Bay and George (for Kapena and the Waterkloof); (c) Cape Town, Cape Town, Simon's Town, Swakopmund and that have the terminus and (d) Louisa Bay.

There is a demand that similar excursion tickets should be granted from the inland stations.

MEETING OF THE INDIAN QUESTION.

CROP PROSPECTS.
A Special General Meeting of the Sothik Farmers' Association was held at the Bhabani Farm, on Sunday, September 18, for the purpose of discussing the Indian question preliminary to reference to the resolutions recently passed by the Lumber and Rubber Committees.
The outcome of a lengthy discussion was a unanimous resolution to uphold and support in the fullest sense the Five Points set forth by the Government as the minimum terms. It was further unanimously agreed that we take such steps as in our power lie to encourage and further trade amongst Europeans and generally to use economic pressure to discourage Indian aspirations to this Colony.
As a preliminary step towards that end arrangements were commenced to open small trading stores in suitable places throughout the district.

One settler expressed his willingness to train local natives in trades (building, etc.) in which he himself is qualified, profit of a small grant to cover cost of tools and some form of indemnity would be arranged—a matter which might be arranged to the proposals made by the Government.
Regarding the proceedings recommended by neighboring Associations it was felt that the best practical solution would be to circulate employers of Indian labour pointing out that there is a strong feeling against their so long as long as European labour remains unemployed in the country.
The necessity of utilizing existing skilled native labour and encouraging the further training of it should also be impressed on them.

RAINS.

It may be of interest to readers to know that the rainfall during the week of drought has been experienced this year. The rainfall—on Oct. 1 to Oct. 7 last—totalled 1.26 inches, which is about equal to the amount which would be expected for the last 5 months of the year.
The country looks green and cool and there is an abundant supply of water in the Kipera and other water streams for the fish factory and other private mills. Most of the farms have abundant crops of maize ripening and it is expected that the yield will be good. The market for the market towards the end of the year.
The area in the coming year will be a better one than that of last year.

INDIAN BAZAAR.

At the Municipal Council on Tuesday night the Town Clerk was reading relating to Indian Bazaar and Vegetable Sellers.
There are 10 butchers and 8 vegetable sellers in River Road.
Previous to 1911 all Indian butchers, vegetable sellers and fishmongers were included in the Bazaar, but in July 1912, owing to religious troubles between Hindus and Mohammedans, the Committee changed their policy, and with approval of the Governor and the Principal Sanitation Officer, invited them to leave the Bazaar or to provide premises outside the Bazaar, and this has been done ever since.

Distemper

A TREATMENT AND ITS RESULTS.
During these days of worry and anxiety it is interesting to note that at least one well known member has far abnormally recovered from a long and severe attack of distemper.
A very well known dog owner has by the use of the distemper treatment succeeded in curing all his dogs.
Five crates of Aspartin were first administered together with a table-spoonful of brandy and milk. On every third day a little castor oil was given.
It was also given in the first place the above treatment was given twice a day until signs of recovery were shown when the dose was reduced to once a day. If the breathing cut was not cleared, Cam was occasionally rubbed with Camphor oil.
Distemper is a fatal disease and was not only and overcome this way but was also used to cure the stomach and the dogs were observed to recover ready to eat after a time and it awarded the necessary stimulus to overcome the effects of the disease.
The owner concerned has some valuable pure bred dogs and by the above treatment has pulled them all through. The above facts were confirmed by a friend who had witnessed the cure.

Indian Bazaar and **Native Liquor**

BUTCHERS AND VEGETABLE SELLERS.

At the Municipal Council on Tuesday night the Town Clerk was reading relating to Indian Bazaar and Vegetable Sellers.
There are 10 butchers and 8 vegetable sellers in River Road.
Previous to 1911 all Indian butchers, vegetable sellers and fishmongers were included in the Bazaar, but in July 1912, owing to religious troubles between Hindus and Mohammedans, the Committee changed their policy, and with approval of the Governor and the Principal Sanitation Officer, invited them to leave the Bazaar or to provide premises outside the Bazaar, and this has been done ever since.

MUNICIPALITY AND A MONOPOLY.

At the Nairobi Municipal Council on Tuesday:
A letter from the Native Liquor Licensing Board was read asking if the Council were willing to take charge of the Native Liquor Trade as detailed in Section 29 of the Ordinance.
The Council decided that the number of Licensed Premises should be two in Pangani Village and one in Mombasa Village only.

In a note the Town Clerk stated: This amounts to a monopoly of the Durban Scheme in principle.
The Hon. Commissioner in Durban supplies the whole business for the Municipal Native Affairs Department which employs a M.O. in observing in examining natives. (Anyone found unfit is sent back to the land) also the capital cost of native lodging houses which however are as yet not on a large scale.
The Town Clerk also referred to Sir George General Bailor's support of the Durban Scheme. The Council considered the Scheme premature in 1918.

The M.O. and the Resident Commissioner were particularly anxious to get an answer that day. If the Municipality took up the monopoly it would do away with a Licensing Board. He asked the Council for expression of opinion. Three licensed premises would be set up two in Pangani and one in Mombasa, the rest would be a drinking hall 200' 0 by 100' 0 with a decent floor and sanitary accommodation.
The chairman said the license was annual.
Councillor Munro said that the Native Affairs Department was in the latter town, natives earned their money and could make it pay. He rose to second and to say that the Council should consider the M.O. and the Resident Commissioner's motion was adopted.

LIMITING NUMBER OF IMMIGRANTS.

BRITISH ACTION.

BRITISH ACTION. The British Government are taking up with Washington the question of the entry of British subjects into the United States. This is due to the fact that many British and other cases have occurred lately where individuals have been detained under the Immigration Restriction Law the total monthly number of people permitted entry from the country to which they belong had been already reached. They therefore become liable to detention at Ellis Island and were subjected to many hardships. They may afterwards be admitted later and re-entrained forthwith.

THE VALUE OF PHYSICAL TRAINING.

AN E. A. HERO.

"By 'domestication' of the human body it is to be made physically fit to live a clean life and have plenty of out-door exercise and games in which to keep the blood clean and active by making ample good use of the muscles of the body both inside and proper use of mind and body at intervals.

I am a good believer in sports. Every boy should go in for games and physical training, such as boxing, football, running, jump, etc. and tennis, and the several other games that one can choose from.

Take hiking for instance. In no sport is the human body so completely used as in hiking. It is a most interesting and healthy life; as for the fallacy that hiking brings out local malarial, it can be kept in the mind of the sensible walking hiker who, like a great one should enter into it.

Bacon UPPLANDS & THE SMALL FARMER. AN EXPORT TRADE.

The following letter has recently been received by Mr. W. K. (The Editor, The East African Standard, Nairobi).

I have reason to think you for your month's letter in response to my advertisement regarding the number of Bacon Pigs you were likely to have for sale in the next few months. The number of Bacon Pigs I could complete the text of the enclosed Contract which is the outcome of the talks which in the last few months have taken place between the Government of the Colony and the British Firm of Messrs. J. P. & Co. Ltd.

At the moment it would appear that the probable supply of Pigs in the next few months will be such that which can possibly be sold as Bacon in the Colony, the government will be unable to meet the demand for Bacon, while, despite the extreme shortage, I have recently put forward to the Government a proposal to import Bacon from the United Kingdom. This proposal is being considered by the Government and I am sure that it will be given the most favourable consideration.

At a large and representative meeting held at Nairobi on June 16th the whole position was carefully considered and it was decided that the Government should be asked to consider the proposal to import Bacon from the United Kingdom. This proposal is being considered by the Government and I am sure that it will be given the most favourable consideration.

Tea

The damp heat of Indian climate is most for the cultivation of tea.

It is a potential for preservation.

The Broken Bond is impervious to climatic conditions.

It is a perfect return in this path for the best because he had to be a perfect tea quality.
