Reservation of Kenya Highlands for Europeans

QUESTIONS IN PARLIAMENT ON CARTER REPORT

Secretary of State Explains

DENIAL THAT SECRET INSTRUCTIONS WERE ISSUED TO COMMISSION

The reservation of certain areas in the Highlands of Kenya arising out of the report of the Morris Carter Commission, was the subject of a series of questions in the House of Commons recently. The questions arose out of one of the terms of reference regarding the definition of the area.

It was alleged by questioners that the Secretary of State had issued certain secret instructions to the Commission, which were not mentioned in the report nor communicated to the House.

Sir Philip Cunlife-Lister strenuously denied the allegation and said that he had been simply requested to give a definition of what was meant by this particular term of reference. The definition given by him was that which had been in force for the last 30 years.

Alleged Alteration of Position

"STANDARD" CORRESPONDENT.

London, Feb. 16.—(By Air Mail).—Sir Philip Cunlife-Lister, Minister for the Colonies, has admitted that the Government's attitude towards the correspondence which passed between J. R. Morris, the Secretary of State for the Colonies, and the chairman of the Morris Carter Land Commission, Dr. H. G. Carter, had been altered since the time of the former's appointment. He said that the questions have been referred to the Foreign Office.

Dr. J. R. Morris (Cons., South East London), Secretary of State for the Colonies, and the correspondence which passed between J. R. Morris, the Secretary of State for the Colonies, and the chairman of the Morris Carter Land Commission, Dr. H. G. Carter, have been referred to the right of acquisition, rights or occupancy of certain lands in India, published as a White Paper?

The Secretary of State for the Colonies has said: "It would be contrary to established practice to publish a document containing such a statement." Between the Secretary of State and Governor, "The fact is, that I did not say to the Foreign Office, 'I want my name put on the head of the document.'"

"The term of reference of the Land Commission is to inquire into the law relating to land in India, and to advise the Government as to the general policy to be adopted in respect of land in India."

A Changed Position

Mr. W. P. Farington, West Riding (Lab.), asked the Secretary of State whether he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government.

The Secretary of State said: "In the light of the recommendations of the Land Commission, it is proposed to issue a revised version of the memorandum of understanding between the British Government and the Indian Government."

Mr. W. P. Farington asked: "Will the right hon. Gentleman say why it was necessary to issue a revised version of the memorandum of understanding between the British Government and the Indian Government?"

Mr. G. M. Miller (Lab., West Riding) asked: "Is it not the case that the memorandum of understanding between the British Government and the Indian Government, which was agreed to by the two governments in 1926, does not cover the acquisition of land in India?"

In communicating this definition to the Governor, I stated that the Indian Government would need to be consulted and possibly adjusted to the new situation. The chairman of the commission, after paragraph 4 and 5 of the commission's terms of reference, This statement

MORE TROOPS FOR AFRICA

Busy Port Scenes in Italy

A New Scheme

SHIPS AND CREWS MAY BE REQUISITIONED

[THROUGH REUTER'S AGENCEY.]

Rome, Feb. 24.—Large numbers of Italian troops have been sent for Africa during the week-end.

Following the departure of the 1st Army from Sicily, Major General Vassalli, commanding the troops and specialized workers the "Conte Biancamonte," left for Africa on Monday.

The Contingent includes an approved of a scheme for requisitioning ships and crews "in exceptional circumstances" with two other contingents in addition to the "Conte Biancamonte" and the "Conte Rosso," which nearly departed on Monday.

It was also required that

COMMISSION QUESTIONS

Britain's Efforts for Peaceful Solution

[THROUGH REUTER'S AGENCEY.]

London, Feb. 24.—(By Air Mail).—The following references to the work of the Morris Carter Commission have been made in the House of Commons this week:

Mr. N. M. McCallum (Lab., Walthamstow) asked the Secretary of State for Foreign Affairs whether the Foreign Office had received any communication from the Secretary of State for the Colonies concerning the memorandum of understanding which might be placed in the Library for the information of Members of Parliament.

Mr. J. R. Morris (Cons., South East London), Secretary of State for the Colonies, said: "There was no specific communication from the Secretary of State for the Colonies, and in these circumstances I do not consider that any communication from the Secretary of State for the Colonies will be required."

Mr. P. Cunlife-Lister (Lab., Walthamstow) asked the Secretary of State whether he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government on the report of the Morris Carter Commission.

As regards the second allegation, he said: "The definition of the word 'territory' in the memorandum of understanding which followed their arrival in Uganda on the 26th November 1934, was the same as that in the memorandum presented to the Government on Jan. 17 last to the Secretary of State for Foreign Affairs by the Belgian representatives."

Mr. G. M. Miller (Lab., West Riding) asked the Secretary of State if he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government.

Mr. P. G. Lewis (Cons., Stevenage) asked the Secretary of State whether he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government.

Mr. G. M. Miller (Lab., West

Riding) asked the Secretary of State whether he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government.

Mr. G. M. Miller (Lab., West

Riding) asked the Secretary of State whether he intended to issue a revised version of the memorandum of understanding between the British Government and the Indian Government.

HEAVY GALES IN BRITAIN

Snow in North: Rain in South

Lifeboats Busy

OVERDUE RELIEF FOR CREWS OF LIGHTSHIPS

[THROUGH REUTER'S AGENCEY.]

Rugby, Feb. 25.—During the week-end Britain experienced heavy winds and round the coast with heavy snow and rain at the south.

Five members of the Gloucester lifeboat crew, of which Lord Douglas and Clydesdale, Sir Alexander, Squibb, and three seafarers of the Edinburgh Seaman's mission, were lost by the lifeboat.

Lord George Hamilton, who encountered a blinding snowstorm off the Northumbrian coast and was forced to land. Despite the blizzard, he said, the wind was high, but seriously, although the sea was calm, striking rough ground, waves were both white and grey.

Vessels round the coast have been extremely heavy weather and some have been unable to leave have been answered by lifeboats.

Isolated 26 Days.

After waiting 26 days for a call which was heard, because of the almost total absence of communications with the lifeboat at Weymouth, Weymouth lifeboatmen have been isolated at the weekend.

For the past month had been isolated and their supplies had run out but they had managed to make a ration.

The crew was relieved at considerable risk as heavy seas still ruling.—British Official Wireless Service.

AUSTRIAN MINISTERS IN LONDON

Meetings With British Statesmen

TALKS ON EUROPE

[THROUGH REUTER'S AGENCEY.]

London, Feb. 25.—Dr. Schuschnigg, Chancellor of Austria, arrived in London quietly this evening and was met by Sir John Simon, the Foreign Secretary, and other officials.

There was no statement at first of the arrival of the Austrian Ministers, Dr. Fasch and M. Laval, but they flew direct from the station.

[THROUGH REUTER'S AGENCEY.]

Rugby, Feb. 25.—The Iraqi Government has been holding acute political difficulties.

One of the most curious manifestations of the strike is a refusal of several Senators to have refused to attend Parliament, because they are opposed to the Cabinet policy.

Ministers in London, had travelled with many visitors from Palestine, Lower Egypt, and Greece, to a dinner given by Lord and Lady Astor of Hever, at the residence of the dimwitted Gertrude Balkys and Mr. Neville Chamberlain.

At the Foreign Office

The members of the Austrian Ministry paid a short visit to the Foreign Office where they saw Sir Arthur Salter, and then called on the Prime Minister, Mr. Baldwin, and the Foreign Secretary, Mr. Simon.

They were then shown Downing Street where they met the Foreign Minister.

It was agreed that there will be a general exchange of views on various European questions, during which the possibility of the Hungarian intervention will be discussed without revealing the names of the participants.

[THROUGH REUTER'S AGENCEY.]

Rugby, Feb. 25.—When the Austrian Chancellor, Dr. Schuschnigg, and the Foreign Minister, Dr. von Waldegg, arrived in London yesterday night, they were greeted by Sir John Simon, the Foreign Minister and a representative of the Baron Frankenstein, the Austrian

SOCIAL AND DOMESTIC

**By Sea
and Plane**

Lady Branner
Relates Her
Experience

FIRST hand experiences are worth a dozen written notes. At morning tea in the New Stanley Office on Friday morning, Lady Branner, who has just returned from Always from Egypt last week, told the story of her travels by land and sea, and the scenes she had seen on the journey full of interest for the listeners. "It was my first sea voyage and I was very nervous," said Lady Branner, and my first experience of a long plane journey; I was very glad to get away from the heat of Kenya Highlands after the heat of Khartoum and Juba, and picking flowers in the desert. We were unmaskined to keep off the rain during the two days wet weather we had, but the sun shone most of the time, very much like home. I was particularly interested during the journey in the life of the Bedouins," she added. Lady Branner lives in London. Suffolk about 40 miles from Ipswich, where she has a studio of her own. For the journey by air she had a special seat, which was very comfortable. The plane was very fast, less tiring than travelling by land. We passed gently over the country, while the height or the speed, while we were travelling, and I could see the pyramids in the air in a large and comfortable plane. The food for immigrants is also very good, and the service is excellent. There are perhaps twelve people. On the other hand, the enthusiasm of those who are present was unequalled, and Madame Galli Caretti, who had come to England to represent the firm of Mazzoni, had been most cordial and spontaneous which are so delightfully here.

From England to Paris Saturday, Lady Branner travelled in a ship which carried all the necessities for family and children for children. Even though the ship's staterooms were provided and every arrangement made for the children big and little and a sand-bank, Lady Branner stayed with Mr. Branner's mother and father. Mr. Branner's wife, Mrs. Branner, and his two sons, Robert, 12, and Christopher, 9, also from Nairobi, came to Paris Saturday night.

Mr. T. A. Glover has taken up residence in Africa, and according to reports he is well settled in Kenya. He has made several expeditions from: 1. Cape Town, 2. Suez Canal, 3. Aden, 4. Bombay, 5. The Shetland Islands, and Camerons, and also from Suez to Kilkis, and back again to Nairobi. He returns to Kenya on the 10th March.

Other callers on Colonial Knage this week have been Colonel Storch, Colonel Mountfort, who has a son serving in Kenya, and Mr. S. P. H. Harewood, of 3, Elm Court, Plymouth, and Mr. Charles Barlow of Horley Bridge, Kent, who is staying at Carlton House, New Milton. Harewood returns to Kenya on the 10th March.

Colonel Knage, the Kenya Ambassador, continues to be very active in the social life of Nairobi. Last Saturday he was at the British Embassy, and on the 12th he is to be at Kenyatta Hall on Thursday.

Miss Nairne, who has in the past given lectures on the education of Kenya is lecturing in March, of this year to the Oxford Committee of the Royal Geographical Society, and the Church of St. Michael and All Angels in Oxford. During the visit she will speak at the Girls' High School at Oxford, the Wycombe School for Girls, the Girls' Technical Institute, the Girls' Technical College, the Girls' Group of Women's Institutes, the Girls' School, Oxford, the Somerville Drama Club, and the Oxford University Club. She has as her audience the students borrowed from the East African schools, but she also has the sides of her countrymen here who have kindly presented to the Office for their own use.

Major Dorset, a young veteran who was preparing the East African Exhibits for the British Industries Fair. In this connection Mr. M. W. Alexander, Mr. W. W. Smith, Mr. W. T. Tarrant, Mr. W. H. Watling, and Mr. G. E. Whittlesey, Chief Secretary, Zanzibar, and Mrs. McElroy, Mrs. G. H. Thompson, and Captain Alexander, all of the British Embassy, have given an equally good result.

The arrangement is announced between William Weston Smith of the Colonial Administration Department and Mr. M. W. Alexander, Mr. W. W. Smith, Mr. W. T. Tarrant, Mr. W. H. Watling, and Mr. G. E. Whittlesey, Chief Secretary, Zanzibar, and Mrs. McElroy, Mrs. G. H. Thompson, and Captain Alexander, all of the British Embassy, have given an equally good result.

THE Nairobi Branch of the E.A.W.L. is appealing for assistance to help the many children who are less fortunate than some of their wealthier little compatriots. This appeal comes at Christmas time to the children who attend the weekly services at the Nairobi Methodist Cathedral, and a rich harvest was gathered. Perhaps this appeal will have an equally good result.

A Visitor from the South

Mrs. Paul Naitt of Cape Town is paying a visit to Nairobi, and is here for England. Mrs. Naitt recently spent some time in Ceylon, and is now in the last stages of her stay in Kenya. Mrs. Naitt's son, Robert, is joining Mrs. Naitt, and the two friends propose to live in Nairobi for purposes of botanical research before returning to South Africa.

Miss Dorothy Noble who is to be married next month at All Saints' Cathedral, Nairobi.

Photo: H. K. Binks, Nairobi.

Miss Dorothy Noble who is to be married next month at All Saints' Cathedral, Nairobi.

News From London

AMONG the callers at the East African Office this week, visitors to London, and the headquarters of "The East African Standard," on February 12, have been Mr. N. V. Walker of Nairobi, and Mr. W. H. Watling, Mr. S. P. Harewood, of 3, Elm Court, Plymouth, and Mr. Charles Barlow of Horley Bridge, Kent, who is staying at Carlton House, New Milton. Harewood returns to Kenya on the 10th March.

Colonel Knage, the Kenya Ambassador, continues to be very active in the social life of Nairobi. Last Saturday he was at the British Embassy, and on the 12th he is to be at Kenyatta Hall on Thursday.

Miss Nairne, who has in the past given lectures on the education of Kenya is lecturing in March, of this year to the Oxford Committee of the Royal Geographical Society, and the Church of St. Michael and All Angels in Oxford. During the visit she will speak at the Girls' High School at Oxford, the Wycombe School for Girls, the Girls' Technical Institute, the Girls' Group of Women's Institutes, the Girls' School, Oxford, the Somerville Drama Club, and the Oxford University Club. She has as her audience the students borrowed from the East African schools, but she also has the sides of her countrymen here who have kindly presented to the Office for their own use.

Major Dorset, a young veteran who was preparing the East African Exhibits for the British Industries Fair. In this connection Mr. M. W. Alexander, Mr. W. W. Smith, Mr. W. T. Tarrant, Mr. W. H. Watling, and Mr. G. E. Whittlesey, Chief Secretary, Zanzibar, and Mrs. McElroy, Mrs. G. H. Thompson, and Captain Alexander, all of the British Embassy, have given an equally good result.

The arrangement is announced between William Weston Smith of the Colonial Administration Department and Mr. M. W. Alexander, Mr. W. W. Smith, Mr. W. T. Tarrant, Mr. W. H. Watling, and Mr. G. E. Whittlesey, Chief Secretary, Zanzibar, and Mrs. McElroy, Mrs. G. H. Thompson, and Captain Alexander, all of the British Embassy, have given an equally good result.

THE Nairobi Branch of the E.A.W.L. is appealing for assistance to help the many children who are less fortunate than some of their wealthier little compatriots. This appeal comes at Christmas time to the children who attend the weekly services at the Nairobi Methodist Cathedral, and a rich harvest was gathered. Perhaps this appeal will have an equally good result.

A Visitor from the South

Mrs. Paul Naitt of Cape Town is paying a visit to Nairobi, and is here for England. Mrs. Naitt recently spent some time in Ceylon, and is now in the last stages of her stay in Kenya. Mrs. Naitt's son, Robert, is joining Mrs. Naitt, and the two friends propose to live in Nairobi for purposes of botanical research before returning to South Africa.

Miss Dorothy Noble who is to be married next month at All Saints' Cathedral, Nairobi.

Personalalia

A Nairobi Engagement

THE engagement was an unusual one, because of Miss Dorothy Noble, nee Naitt, of Mr. Frank Gurney Ward of the Nairobi Municipality. Miss Noble is a Keena girl and the news of her engagement will interest and please many people here. The wedding is arranged to take place at All Saints' Cathedral on Saturday, March 16, and the honeymoon is to be spent in England.

To be Married on Saturday

MISS Angela Walton-Knight of Nairobi is to be married at All Saints' Cathedral on Saturday, March 16, to Charles Ellsworth of Nairobi. Miss Walton-Knight is a member of the Lady Gigg Nursing Service.

REPORTS from Mombasa show

that the Gulf Craft concert was well received by a representative crowd of well known people who might reasonably have been expected to do honour to an eminent and world-famous singer. The concert was well represented, but in the first instance there were perhaps twelve people. On the other hand, the enthusiasm of those who were present was unequalled, and Madame Galli Caretti, who was present was unequalled, and Madame Galli Caretti, who had come to England to represent the firm of Mazzoni, had been most cordial and spontaneous which are so delightfully here.

PERSONALIA and Charm

MADAME Galli Caretti's personality is highly gracious, personally charming everyone, and she was especially popular in the dress of the Gulf sailors. She had a very busy day, seeing, among others, the Grand Duke of Pompeii, and had been fortunate in getting a very interesting hearing of some snappy questions from the found Gibraltarian also a pleasant evening.

Speaking of India and travelling generally, Mrs. Galli Caretti said she had been to eighteen months in India, and had been to the Orient, Europe, and America, and had made many excursions to the very borders of India.

In regard to the sleeping accommodation on the air route, Lady Branner said she had found it most comfortable.

Lady Branner is staying with her mother and father, Mr. and Mrs. Branner, and her two sons, Robert, 12, and Christopher, 9, also from Nairobi, came to Paris Saturday night.

The Duke and Duchess of Kent have directed that two cases of wedding cake be sent to the Patriarchal Church of the Holy Sepulchre in the Holy Sepulchre institution near Cambridge, of which the Duke has recently become president.

THE Nairobi Branch of the E.A.W.L. is appealing for assistance to help the many children who are less fortunate than some of their wealthier little compatriots. This appeal comes at Christmas time to the children who attend the weekly services at the Nairobi Methodist Cathedral, and a rich harvest was gathered. Perhaps this appeal will have an equally good result.

General Smuts Surveys the World Situation

POINTS TO OMINOUS FISSURES IN WESTERN CIVILIZATION

Era of Seclusion Passing

APPEALS FOR PRACTICAL COOPERATION BETWEEN BRITAIN AND U.S.A.

A penetrating survey of the international situation was given by General Smuts in the course of a speech in Cape Town recently.

In the address (which in the absence of General Smuts owing to illness was read by Mr. Patrick Duran, Minister of Mines) the need was emphasised for a much closer study of world affairs.

While he considered that the cause of peace was, on the whole, progressing in Europe, two features appeared to him as potential dangers. The first was the decay of the spirit of political liberty in Europe; the second, the situation which appeared to be developing in the Far East.

General Smuts made a powerful appeal for practical co-operation between the British Commonwealth and the United States in the interests of world peace.

A New Centre of Gravity

The League of Nations, had come to stay—so far, at least, as our civilization was to endure. The League had helped to bring about the desire to realize that the alternative to the League was the jaded machinery of war. It was a return to the balance of power, heavy taming of armaments, camps and colonies, the movement in the most important fields of another and greater world war. Japan was prepared to fight the League but was not prepared to draw back before the inevitable consequences.

The movement back to the League had been powerfully reinforced by a straightforward speech by Mr. Duran in which he maintained that the League was the foundation of British foreign policy. The League was not only a sobering effect on the American outlook. In the face of its success, Britain and the United States would not but realize that the basis of her old isolationism was potentially dangerous.

But any attempt to militarize the League would be meet with grave disaster. To make a modern permanent condition of war, of taxation and forces, and to impose such a weight upon the shoulders of members, would lead to it.

The answer to the problem of how to meet the difficulties of France and Great Britain, of the age-long German menace, seems clear.

Locarno was past and passed. The League system, and as such seemed to hint the correct way to meet the difficulties, was a system of regional Locarno pacts. The most feasible and practicable way of meeting the present baffling peace problem.

But security should never be sought at the expense of peace as a quiet quo quo. The League, like the past would pass if it did not stand behind a reduction in armaments among the heavily armed Powers.

The Next Move

The next move before Europe should therefore be a bold, shamed general disengagement from the League system, an exodus.

As part and parcel of this policy Germany and Italy should be recognized and Germany should in this way be induced to rejoin the League.

He had a strong impression that a moment for such an advance in Europe had arrived. The recent Belsen events in Europe constituted what appeared to him to be a further factor in the development of circumstances. They created an opportunity which, if resolutely utilized, could transform the whole situation in Europe.

Dangerous Experiments

While he considered the League system to be a good one, and the cause of peace as on the whole progressing, however slowly, so as to be able to identify some fissures in the world situation to-day which appeared to him as potentially dangerous.

One was the decay of the spirit of political liberty in Europe, and the other was the experiments which appeared to be developed in the Far East.

He felt that in proportion as the world became a potential danger spot of the world, on a colonial scale, so did the European powers, the United States, Britain, Canada, Australia all fall into the same category.

A completely new situation was thus arising and some countries in their isolation and remoteness had the old European sense of security. He felt that in proportion as the range of the new dangers, he felt, increased that in proportion as the world became a potential danger spot of the world, on a colonial scale, so did the European powers, the United States, Britain, Canada, Australia all fall into the same category.

He was experiments in government, being carried on in Burma, India, Germany and elsewhere. All can bear fruit in common, their results will be disastrous to political liberty as a principle. The other was at the diagonal of the modern state was now being

(Continued on page 5).

THE EAST AFRICAN STANDARD

INTERESTING TEST CASE IN LONDON

Claims of Posthumous Child

IS HE A 'SURVIVING ISSUE'?

Important Decision by House of Lords

[STANDARD'S CORRESPONDENT.]

LONDON, Feb. 25.—(By Alf Mull.)

"Does a child born after the death of his parents survive his parents?"

This is the question which the House of Lords must decide in a month and a day after the death of the parents.

The Governor adds that this does not mean that he approves of the Council's action.

The motion that the President was removed was carried on Feb. 12, 1934, by 10 votes to 9. The members giving their assent were Sir Oscar de Glanville, J. W. G. Gregson, and others.

Mr. Mull said:

"The Governor adds that this does not mean that he approves of the Council's action."

Another Setback to the India Bill

MEETING OF PRINCES DEMANDS VITAL CHANGES

"Strong Feeling"

OBJECTIONS SET OUT IN MESSAGE TO THE VICEROY.

The controversial India Bill has met with another setback as a result of a resolution following a meeting of Indian Princes and their Ministers in Bombay.

Although the details of the objections are not revealed the Princes decided that the federation scheme was not acceptable in its present form and important amendments were proposed.

The Secretary of State for India is expected to make a statement in the House of Commons dealing with the latest development.

A Misunderstanding?

THE VICEROY

SIR SAMUEL HOARE

[THROUGH REUTER'S AGENCEY.]

Bombay, Feb. 25.—The India Princes' meeting, a seven-day conference of Princes and their Ministers passed a resolution yesterday, in an overwhelming majority, calling upon the Government to withdraw certain provisions of the Bill.

The Premier of the Province of Bihar and Bengal, Sir Shashi Kapoor, said: "The Federation scheme is unacceptable to us in its present form. We have decided today to ask Government through the Viceroy, to make important changes."

"Must be Amended"

A communiqué was issued after the Princes' meeting stating that the specific demands of the India Bill must be attended to in certain essential respects.

The meeting decided not to accept the scheme without a modification, while a resolution expressing the strong feeling of the Indian States and the Princes that the India Bill must be withdrawn, was also passed. The decision was conveyed to the Viceroy, who is believed to have been consulted before issuing the Princes' communiqué.

Communiqué Statement?

Bombay, Feb. 25.—It is understood that Sir Samuel Hoare, the Secretary of State for India, will make a statement in the House of Commons on the situation arising from the meeting of the Princes and the Borderers.

Lord Wodehouse, the Conservative Member for Abberley and one of the chief opponents of the Government's proposals, expressed the opinion that Princes' decision does not cover a complete breakdown of the Government's scheme.

On the other hand, the communiqué appears to think that there should be no fundamental difference between the two understandings, and that the Princes' statement is correct. They hope that these are unimportant, and that they do not affect the structure of the Bill.

Moving of Ministers

Bombay, Feb. 26.—The Minister specially assigned to deal with the passage through Official Wireless Service.

TAVETA.

NOTES FOR WIRELESS FANS

Broadcasting The Tests

view of the interest aroused by our "Natives" in my immediate district, I have decided to do some experiments of my own on the last two B.B.C. Test Broadcasts. The opportunity of getting such good results from our engineers as to how they were made may possibly be of great interest to many.

As nearly everybody has a wireless set, and is interested with an antenna, understanding of the field, a sensible measure would be to let him study the effects of the various factors.

The microphone, which is usually type particularly suited to the test broadcast, is standard and is sufficiently strong to pick up the music from the studio. The microphone is used for the communications to directly into us.

Short Cables

Two speech currents from the system can then take by a short cable to a three stage S.O.S. receiver. The speech current is naturally expanded in order to ensure complete transmission of the amplitude-modulated condition. The speech current is then fed to a three stage S.O.S. receiver with a short cable to the B.B.C. studio. The quality to the input signal is not affected by an increase of 2,000 ohms, and the output signal is not affected at all. As the resistance of the speech cable is negligible, the power relative to the microphone is quite comfortable. An engineer who checks the results will find that the speech current is of any fault that may arise, and that may be called the "Flash" end.

The Post Office

The G.P.O. has issued an instruction to a special telephone line to the Test Broadcast station from outside the station premises. This has terminated the period of uncertainty, and now it is known that it is the most unobstructed speech currents that are used where they are fed into the microphone, and are unaffected by distance.

A big increase was recorded in the number of messages handled, and there were 218 in 1933, and only 125 in 1932. The percentage of success for this class of messages was 97.5 per cent., 45.78 per cent. in 1933 to 54.14 per cent. in 1932.

THAT HAW-HAW ACCENT

Banned by the R.B.C.

Over 20 candidates who were to take the position of B.B.C. announcer over the air for three years, all but one was unable to pronounce the name of "B.B.C." correctly. It is suggested that such a name should be called "Janny Shikky."

This is one of the difficulties on the air, and it is suggested that, as given by Prof. A. Lloyd Jones, the hon. secretary of the B.B.C. Committee, "the best way to overcome this is to keep it simple."

"The Broadcast Test" (Kingsgate, Paul, 75, Ed.), published recently, contains an interesting compilation on the subject of broadcasting, and it is to be hoped that it will be of great interest to all, but also to the friends and relatives in South Africa, and especially those of sporting events, who always welcome the news from all over the world.

It is to be hoped that the new language is equally received, though, however, even in the case of modern languages, distinctly public schools and universities will be the best places for the teaching of the language, teaching the language among the present successors.

During the existence of the B.B.C. the name of Prof. James is the most prominent, and it is a most interesting model to much younger men.

The name of Prof. James is the most prominent, and it is a most interesting model to much younger men.

With the B.B.C. transmitters at Umtata and Port Elizabeth, and the B.B.C. studios at Cape Town, the B.B.C. could hardly be expected to get the body to absent itself.

Prof. James is a man for all seasons.

A British Londoner, 1922,

second, whereby the author is calling Prof. Lloyd Jones' (James)

wishes to make the place of work go to a meeting to have a good speaker, of going to a concert, and above all to have the pleasure of home, and presenting the best possible musical instruments that had been collected, which are now to be sold, and which are to be sold at a high price.

The author is not sure if he is correct, but every one seems to be

of the opinion that he is correct.

The microphone, which is standard and is sufficiently strong to pick up the music from the studio, is used for the communications to directly into us.

Indian Princes' Views to be Considered

DIFFICULTIES DUE TO DRAFTING OF BILL?

Sir Samuel Hoare's Statement

MODIFICATIONS WHICH WILL NOT AFFECT ESSENTIAL PRINCIPLES

In a statement to the House of Commons on the position arising out of the resolution passed by a meeting of the Indian Princes and their Ministers in Bombay on Monday, the Secretary of State for India said there was no disagreement regarding the principle of Federation.

"Difficulties as had arisen, said Sir Samuel Hoare, were due to a misunderstanding in regard to the drafting of the Bill and it was anticipated that this would be successfully overcome.

Mr. Churchill, whose motion for the adjournment of the House was twice defeated, contended, however, that the Prince's attitude was consistent with a definite rejection of Federation.

Mr. Churchill's Contention

[THROUGH SECRET'S AGENT.] London, February 26.

The Indian Bill was explained to Mr. Churchill by an official of the Foreign Office.

He said that the Indian States were unwilling to submit conditions to the Indian Government in respect of the Constitution, as far as it concerned the Indian States, which were to be included in the new constitution.

Mr. Churchill, however, said that the Indian States had not been consulted, and that this was the main difficulty of their present position.

Mr. Churchill's View

[THROUGH SECRET'S AGENT.] London, February 26.

In the House of Commons, Mr. Winston Churchill moved the adjournment of the House in order to give time for the consideration of the Indian Bill.

He believed that all the documents of Assent, whereas the Indian Bill passed by the meeting of Indian Princes and Ministers, which Mr. Churchill described as "a definite and substantial modification of the Indian Bill,"

Sir Samuel Hoare, Secretary of State for India, replying, said he had a short note from Mr. Churchill, in which he was informed of the Indian Bill, and wanted points made clear to him, which were specifically stated in their documents of Assent, whereas the Indian Bill passed by the meeting of Indian Princes and Ministers, which he did not think should be included. Another point was that the Princes desired that the Indian Bill should be submitted to the Indian Princes for the consideration of their individuality of their present position.

Sir Samuel Hoare said that this was the main difficulty of the Indian Bill, and that he was confident that all their difficulties could be resolved by a little more discussion.

The Minister then appealed to the Prime Minister to let him know what the Government had got out of the agreements made and what he was going to do to secure the position of the Indian States.

Continuing, he said: "As far as I can see, the Indian Bill has been agreed to, and I have no objection to drafting the Bill so as to give effect to the views, they shall tell the Government exactly what they want, and that will be the main point."

The Minister of Commerce accepted Mr. Churchill's motion for adjournment by 283 votes to 103, and the Committee sat for the rest of the afternoon.

Mr. Churchill said that if the views of the Indian Princes were not accepted, then they should tell the Government exactly what they wanted, and the Minister of Commerce would be in a position to take action.

No Reason for Delay

Assuming that the Princes still favoured an effective all-India Federation, there was no reason why the parts at issue should not be settled, he said. Consequently there was no reason to delay the consideration of the Bill, and the Indian Princes, he said, between the Government and the Princes appeared to be progressing well. He said that the Indian Princes and the Indian Government had the whole position under review, and that the whole position would be considered by the Indian Government.

He said: "Having explored the matter on which the Princes

Mr. Winston Churchill

P.M.G. WHO MADE FALSE STAMPS

\$260,000 Fraud in Lithuania

Widespread Plan

SENTENCED TO DO 15 YEARS' HARD LABOUR

TERENCE MULLEN'S AGENT.]

Kiev, February 26.
Aldo Serega, ex-Postmaster General of Lithuania, has been sentenced to 15 years' hard labour for printing \$260,000 worth of forged stamps and the raising of a widespread plan.

It was alleged that the forged stamps were made at and then sent to the Postmaster General's office, under the direction of Serega.

Dealers Described

Serega was also charged with exchanging the forged stamps for money, thereby involving the Postmaster General in the scheme. The Postmaster at Memel has been sentenced for complicity in the scheme, and two other Post Office officials to small terms or terms in connection with some of Serega's efforts.

FIREWORKS ON FIRE

Cause of Explosion on a French Liner

TERENCE MULLEN'S AGENT.]

The explosion aboard the "General de Gaulle," a large French liner, which sank off the coast of France, was caused by the ignition of numerous boxes of fireworks which had been stowed in the hold.

In addition to the magazine mentioned above, the French liner was hit and five deckhands were seriously injured.

OBITUARY

Former Governor of German East Africa

TERENCE MULLEN'S AGENT.]

Johann von Schleswig-Holstein, a long, former Governor of the German East Africa, died in hospital today, aged 80. He was 100 years old.

FOREIGN SEAMEN

A Question in the House of Commons

Prins Muil to Resound

IN BRAZIL

TERENCE MULLEN'S AGENT.]

London, February 26.—"The Times," referring to the question today, considers that the Prins Muil, which sailed the Prins Muil, will be heard in the British Mercantile Marine wherever they prove to be well-founded and to be removed, the name will be removed and the name of certain passages in the Bill must be carefully studied before the date fixed.

It is the opinion of the "Times," says, "The Times," that these modifications will not affect the fundamental changes in the structure and intention of the Bill, and that the Princes will stand entirely where they stood when the Bill was first introduced.

The Crop Reports

The Economic and Statistical Department of the Kenya Department of Agriculture issued yesterday the first Crop Report for January.

The long period of rainfall

appears less significant and

indicates a new month

ago but its effects

are clearly apparent in the state

of the crops.

Nevertheless particularly

the effects of the absence of rain are serious.

In several districts there is a food

shortage and famine conditions have been

assisted the importation of maize

for feeding the cattle.

There is also a general

shortage of foodstuffs.

Although maize

is being sown in certain

districts, the

crop situation is

not encouraging.

Yields are

above average and all cash

crops are coming forward in

good quantities, especially in North

Kenya.

Maize

is being sown in

the

Kenya

and

elsewhere.

It is

not

possible

to

say

whether

the

crop

will

be

good.

It is

HUMPHREY MEMORIAL SHIELD

Civil Service Club's Fine Shooting

OVER THE FOUR STAGES FIRED

The Hampshire Memorial Shield competition was opened in February and will continue until the end of the year, there being four stages in all. Teams representing British Civil Service, Naturals and Nairobi Municipal Staff Rifles Club, after taking part in two first stages, were invited to shoot at the fourth stage within time limit and were therefore qualified to compete in the final.

Naturals (230) won —

Civil Service (216) —

Mr. Menon Attacks Zanzibar Legislation

CLOVE GROWERS' ASSOCIATION MENACE TO INDIANS

A Favoured Monopoly

REPORT BY REPRESENTATIVE OF THE GOVERNMENT OF INDIA

Mr. K. P. S. Menon, representative of the Government of India whose report on the recent Zanzibar clove industry legislation is now available, condemns the proposed Clove Growers' Association as a Government monopoly armed with powers to drive Indians from the trade.

He urges the repeal of the Decree setting up the Association and of another Decree providing for the licensing and control of clove exports.

Mr. Menon contends that Indians have made no attempt to "grab" African and Arab lands and says their loans to growers total Rs. 8,000,000, security for which is jeopardised.

He maintains that the basis of control of land alienation should be as between "agriculturists" and "non-agriculturists" and not, as proposed, on the principle of racial discrimination.

Driving Indians Out

The Government of Zanzibar has issued a series of decrees, some of them being laid before the Legislative Assembly, others published in 1931 only numbered 276. On the effect on Indian interests of certain Decrees passed by the Government of Zanzibar, a report has been published by the Department of Education, Health and Lands of the Government of India. This report, apparently, made available simultaneously in Zanzibar. (The paper was issued, however, including the comments of the Government of Zanzibar upon Mr. Menon's Report so that both aspects of the problem were covered.)

Land Alienation

Mr. Menon says that proceeds to date of the sale of land under the Decree of 1931, amounting to Rs. 1,000,000, have been used for the payment of six Decrees, which had been passed by the Government of Zanzibar in an endeavour to protect the interests of the Indian community. "While it is true that a fortnight they found themselves within the coils of a multiplying Decree, restricting their activities and their future prospects."

Long Service by Medical Official

Mr. Menon further says that the Government of Zanzibar has issued a decree for the payment of Rs. 1,000,000, which prevented the alienation of land, to non-natives and non-Arabs, under strict conditions, generally, and created machinery for the proper regulation of the landing and exportation of the clove crop. This decree, he says, immediately aroused strong protests by the Indian community, who considered the action of the Government of Zanzibar as threatening to the regulation of the clove trade through a Government organisation, the Clove Growers' Association. Similar measures were also undertaken in regard to the effect of the land alienation, restrictions on the alienation of land, which was organised not only in Zanzibar and on the mainland but in London and in India. Gentlemen of the Indian community, prominent Indian political and social leaders, including the representative of the Association with the organised movement in India. The Viceregal House made reference to it in the language of warning protection of Indian interests.

Area and Population

Mr. Menon, in his introductory chapter, gives the area of Zanzibar as 56 square miles and that of the mainland as 1,120 square miles. The 1931 census gave the total population as 255,688 of whom 206,471 or 80.4 per cent. were Indians. The overwhelming majority of Indians are described by Mr. Menon as "permanent settlers, born and brought up in the Island."

THE BRITISH BUDGET

Estimates for the Coming Year

Increased Expenditure

UNEMPLOYMENT RELIEF A BIG ITEM

[BY WIRELESS.]

Rugby, Feb. 28.—The estimates for civil expenditure, up to the financial year which begins on April 1, will be made known in the course of the next few days.

The first of the two budgets for civil expenditure, was published this morning. The grand total of civil estimates and revenue expenditure is £1,000,000,000.

The original estimate for last year was £406,072,000, but after further consideration the estimate for this year is £700,000,000 necessary because after the Budget statement, to cover the cost of the reduction of relief allowances and the increase in unemployment allowance, which took effect during the month of March.

The new estimate will be made known in the course of the next few days.

The new estimate also includes an increase in unemployment allowance which is an important item in the advance in expenditure for the coming year.

Farmers' Days at Kitale, Eldoret and Nakuru

VALUABLE ADVICE BY MEMBERS OF AGRICULTURAL DEPT.

Fighting the Low Price Level

Valuable advice to farmers was given by officers of the Department of Agriculture at the recent Farmers' Days held at Kitale, Eldoret and Nakuru.

"We developed this Colony on a bonus basis but we must carry it on a very different basis," said Mr. Gerald Burton, Senior Plant Breeder and Experimentalist, in the course of his talk.

Mr. Burton laid down six main points of farming policy and stressed the need for a more balanced system.

Getting Away from Boom Basis

(By the Agricultural Editor.)

There is no doubt that the recent Farmers' Days organized by the Department of Agriculture with the assistance of the Royal Agricultural Society and Her Majesty's Government, Kenya, served a useful useful purpose. Approximately 3,000 farmers attended the meetings held at Kitale on February 10th, at Eldoret on February 21st, and at Nakuru on February 22nd.

The talks given by officers of the Department of Agriculture had a practical bias, and, in consequence, were well received. There was also the prolonged technical lectures which have been delivered at previous meetings.

Mr. Gerald Burton spoke especially well at both. Moving and adapting the principles of agriculture to the local conditions, the first part of Mr. Burton's speech was devoted to a brief survey of the Colony's problems, and the second to the various troubles facing the farmer. He emphasized the need for a more balanced system of farming than while under a boom basis.

"We must increase yields per acre," he said. "This is required if we are to meet the market and indeed the most effective method of meeting the low price level." It was clear that he believed that the technical staff of the Department is chiefly engaged.

"(5) We must improve the quality of our produce," he said. "This is the only way to combat the various troubles facing the farmer, while under a boom basis.

"(6) It is important that we must also concentrate on growing crops which are in demand in our market and estimate the quality of our sales and returns."

"(7) It is important that we must make more use of land in which we have invested so much capital. In fact, that we believe in the word 'balance' is the word. Our system of farming should be more balanced. By lessening the risks of one farming we lessen the risk of another, and the climate vagaries to which the crop system is subject.

"I put forward the development of animal husbandry and wish with emphasis that the farming of cattle is a vital factor in the maintenance of soil fertility. Worn out land can only be brought back to production by grazing."

Mr. Burton's speech was followed with considerable interest.

Dependents on the Export Market

"Agriculture in Kenya is a periodically difficult business. This is a country which really began its agricultural history immediately after World War II. Its agricultural development was based on the colonial post-war boom period. This was an era in an acre under crops, for instance, when there was no relation to the internal needs of the country. We catered for and still cater for the export market on the export market for all our produce."

These high prices resulted in a boom which was not extensive, but nevertheless created a market for us.

"Today we are finding that the market on this colonial export system has gone and exceedingly worsened by the fall in non-ferrous metals. Rather than a small part in the world value of money, and a policy whereby this generates wealth, we now face a flood of capital repayment in return to the interests of producers. Payment terms were paid for land, large loans interest-free, and rates were charged. That same

is true in mining, a world market, increased buying power. World prices on which we are as largely dependent will crash to the level of the ten or twenty years ago. As far as we are concerned, there are little signs for many years at that level. This is the result of something being forced upon us, 4,500 per head on shelled oil."

"We developed this Colony on a boom basis, and we are in a very different basis. The export trade is our chief trade, but we still have to come to an heavy commitments incurred in terms of time from the returns of this export trade. It is our problem today. It is a vital question for all of us and I am particularly interested in the fact that I believe are essential in the search for profits, in the battle for recovery and growth."

"(1) We must maintain the flat rate on maize and increase production, thereby reducing marketing overheads. We must increase our overheads by keeping the line and marketing stock fully employed. All the time we are maintaining our production, we must sell without affecting world supplies or prices."

"(2) We might fit the internal price of maize at a figure not too high for buyers but commensurate to the good farmer and the good farm. We must increase our production, and we must not only make good, but we must also increase our production and we must do this through the breeding of maize resistant to disease and pests, and we must increase our overheads by keeping the line and marketing stock fully employed."

"(3) We must maintain the flat rate on maize and increase production, thereby reducing marketing overheads. We must increase our overheads by keeping the line and marketing stock fully employed. All the time we are maintaining our production, we must sell without affecting world supplies or prices."

"(6) We must eliminate all the wasteful expenditure as many

London Toys for Kenya Children

Accounts of Kakamega E.A.W.L. Party

SPENDING LOCAL MONEY

The "East African Standard" has been asked by the District Vice-President of the Kakamega Branch of the East African Farmers' League to publish a statement of accounts presented at the recent E.A.W.L. meeting of the Branch. The accounts refer to a Christmas Tree Party organized for the children of the Kakamega Colony. It was held on December 19 when 175 children of all ages were present. A larger number of adults were also present.

The Vice-President takes the opportunity of thanking the numerous helpers who gave their services so generously.

The accounts show that total contributions amounted to £100. 17s. 6d. 17s. 6d. was left over from the 1953 fund, which was £1,018. 10s. 0d. The amount spent on refreshments was £121. 00d. from a raffle, making a total of £1,202. 00.

The expenditure on toys, etc., was £1,062. 0s. leaving a balance of £160. 4s. 0d. forwarded to the E.A.W.L. Fund. The amount spent on refreshments was £29. 02, amounting to £125. 17.

This is the statement of the accounts of the purchase of refreshments.

A SPECIALTY

CORRESPONDENCE

The Editor does not accept responsibility for his correspondents in these columns and in all cases the name and address of letter writer necessary for publication but as far as of good faith, brevity is sine essentia to ensure consideration.

SUNDAY SPORT

To the Editor, "E.A. Standard," Sir—Your correspondent "Middle Stamp" would even compare this with the custom of Hunting Men allowed to it in (I think) "Quaint Devonshire."

Seriously, though, if "Middle Stamp" is a Catholic he can attend Mass on Sundays in Nairobi (as I was let to know in your paper) and at any Catholic church in the world. He can do so on early mass, thus saving time to fulfil his duty to God and his duty to his neighbour (assuming the latter has no objection in playing cricket with him).

May I say that this letter is not intended to be impudent or to make statements of fact.

Yours etc.,
R.C.

Elmenteta,
February 26, 1935.

KENYA ARBOR SOCIETY

To the Editor, "E.A. Standard," Sir—I am sorry to learn from your correspondent's report of the meeting of the Kenya Arbor Society on February 22, that the Kenya Arbor Society reported giving a grant of Shs. 500/- to the Kenya Recyclable Scheme. This should not be so freely done without being grateful to who would publish this correction.

Yours etc.,
H. H. WAIRD,
Kenya Arbor Society,
Nairobi,
February 26, 1935.

MR. PIROW AND THE
EMPIRE

To the Editor, "E.A. Standard," Sir—I am sorry to learn that he is attempting to exchange freedom within and support of the British Empire for the right of some other power.

The South African Dutch, that all peoples have been dominated; their chief quarrel with our nation is that they chafed under our leadership, and perhaps the Native question. Will they then welcome a rule which will be akin to that of a Prussian or German partner, or some other world dictator?

At the time of the Boer War it was said that the Boers fought control of a half-sorrows Africa from sea to sea and looked to that was the wisdom then if South Africa opens her hard-lung gates to her, will she go on to fight on half-sorrows' lines on both sides, many of the Afrikaner leaders consider themselves imperialists and tracked to other countries, Martin to Germany, South West Africa to Australia, Rhodesia to America, and so on. And many of them

lamented that compared to other nations, the Boer's rule was not so bad.

The Civil Service, the English Government for horses, sustained, and English garrisons, enemies and English troops accompanied a letter necessary for publication but as far as of good faith, brevity is sine essentia to ensure consideration.

Nairobi,
February 26, 1935.

valuates our currency at once. It is folly to go on trying other measures. During the last forty years as all other competitors have done, and the price of our exportable position goes up by the amount of the cost of living.

To cut £100,000 from the cost of the Civil Service is going to swell the budget, and increase the Government, and so not going to help any further beyond a penny or two per bag of grain.

Yours etc.,
S.V.Z.Y.

H. H. WAIRD,
Kenya Arbor Society,
Nairobi,
February 26, 1935.

THE KENYA ARBOR SOCIETY

To the Editor, "E.A. Standard," Sir—I am sorry to learn that he is attempting to exchange freedom within and support of the British Empire for the right of some other power.

The South African Dutch, that all peoples have been dominated; their chief quarrel with our nation is that they chafed under our leadership, and perhaps the Native question. Will they then welcome a rule which will be akin to that of a Prussian or German partner, or some other world dictator?

At the time of the Boer War it was said that the Boers fought control of a half-sorrows Africa from sea to sea and looked to that was the wisdom then if South Africa opens her hard-lung gates to her, will she go on to fight on half-sorrows' lines on both sides, many of the Afrikaner leaders consider themselves imperialists and tracked to other countries, Martin to Germany, South West Africa to Australia, Rhodesia to America, and so on. And many of them

had taken refuge to revere at voters at voters.

Immediately I took the opportunity then to state my views on the matter, and notwithstanding an audience of two voters is far greater than any speaker is, it is a remarkable circumstance that in the presence of those two voters that the North Kenya Association has tried to play its political role even since.

While enacting the game I did

however, feel that they have never

been so well informed as the Queenbees, Ruler. Here I would

directly urge their Chairman of

Meeting to do the same in com-

munity direct (presenting on

behalf of two voters) with the Hon.

The Commissioner of Local Gov-

ernment, the Governor, the

(distracting title) expressing his

disagreement with the alternative

plan which is in favour of the

dispensing of the Kenyan Tuba

without first sending me a copy.

This character as deliberately

presented by the elected Member

whoever he may be.

As a settler of 24 years standing

in Kenya, respectively of settlers

and natives, I have observed the

attitude and habits of the Ex-

ecutive of the North Kenya Asso-

ciation that they had good man-

ners is true, but that they had

standing is deficient is best ex-

plained by their habits.

Presently I selected re-

presentative of the great Abber-

deen Constituency representing there-

fore plantations and agricultural

interests, and I told him that

I may have done more heat to

keep their standard flying high

than any other person in my

opinion, 11 months ago. I have been

honoured with invitations to attend

no fewer than 14 meetings in my

constituency, I have failed to attend two, but I look forward hopefully to be able to attend the North Kenya Settlers' Association in addition to a meeting on a subject of interest as being especially suitable, viz.—

"Parable for Picayune People."

Yours etc.,
E. H. WRIGHT

Feb. 26, 1935.

Answer to Correspondent

B. J. Mitchell, Kitale: The columns of a daily newspaper are not required by us as the proper medium for the expression of religious beliefs and practices. You should compare your letter to the subject to which you referred to the first principles. — Ed. E.A.S.

TACTICS IN GOLF

The Benefit of the Rains

Club Executives Stepping Out

TOWARDS COURSE IMPROVEMENTS

The timely and frequent rains have forced club executives to consider the way of putting the course in order.

With almost every club in the country the ground has worked up and the turf has been torn up. To get it back in time the draw for the fourth round of the Open was delayed.

At the start of the year

it will take a long time before

any of the courses will return

to anything like normal.

In some cases, it might be safe to say that the passage of one or two years will be seen before the fairways respond.

In the case of one club which had been down on a fairway for a number of years, it is in order to preserve the turf, and bring into use a temporary surface, to wait and see what happens in the circumstances, otherwise that fairway would have returned to what it had been prior to the use of plastic.

From what I have seen fairways being made up again, the grass still grows well, even the mown strip with some degree of continuity immediately put back and held up to see whether or not the rollers would remain long enough to warrant the step process being taken.

Few points that I have seen

fairways being made up again

are still in use, who even the

mown strip with some degree

of continuity immediately

put back and held up to see

whether or not the rollers

would remain long enough

to warrant the step process

being taken.

New Conditions

The dry nature of the course was something in the nature of the weather conditions, who found himself getting a difference of ten or twelve in nominal conditions he could not get. The change in the National Grand National, are extremely remote. This information came to light to-day from Mr. J. G. Gourlay, of the Royal Liverpool Golf Club, who said that the Royal Liverpool Golf Club, which is the oldest in the country, had shown a marked improvement in the last few years.

It will be remembered that on Monday last the Royal Liverpool Golf Club was due to host the first meeting of the new conditions will reflect to the favour of the single figure man, who will be able to get a better score.

Without a doubt the drought has brought many of the courses because they feel that the concrete makes the ground too hard, and that playing good golf, if such could be called, but now many of those with drifts back again, and that it will be impossible to say the exact extent of the injury.

LADIES POLO MATCH AT MAU SUMMIT

First of its Kind in Colony

At the annual polo tournament and grand finale at Mau Summit on March 15, 16 and 17, the Colony will see its first real ladies polo. A team of 12 ladies from the United States, Canada, Australia, U.S.A. and J. J. Connor (University College, Cork), three-quarters, half-backs, wing-halfs, full-backs, wing-halfs; C. E. Beaman (B.A.F. and Leicester); S. Dering (B.A.F. and Leicester); P. G. Graves (Wooler Rangers); P. T. Lawrie (Wooler Rangers); J. Russell (Aldershot); J. J. Siggins (Coburgians) and S. Walker (In-stamone), forwards.

SCOTTISH RUGBY CHAMPIONSHIP

Edinburgh Club Still Lead

The following table shows the positions of the clubs in the official Scottish Rugby Championship, with the results of the games played on February 16.
