Crowded House Hears Defence Debate

GOVERNMENT JUSTIFIES ITS POLICY

No Safe Alternative

REPLY TO LABOUR AND LIBERAL MEMBERS' CRITICISMS

Faced with the withdrawal from the League of Nations of Germany and Japan, Britain had no alternative but to revise her own ideas on armaments.

This was the gist of the Government's reply to the Labour censure motion on defence policy which was debated in a crowded House of Commons on Monday afternoon.

Mr. Baldwin compared Britain's armanents with those other nations in order to show that the increased expenditure contemplated by Government was more than justified.

Following a Peace Service in a nearby Church a crowd of people proceeded to the House of Commons with a view to influencing Members of Parliament against the enhanced defence programme.

U.S. CONVERSION MAYOR'S APPEAL TO NAIROBI PEOPLE

A Community "Inclined to Put Off Till To-morrow...

THE JUBILEE FUND

His Worship the Mayor of Nairobi, Councillor G His Worsing the mayor of Natrool Councillor of Gwinnett Bompas, has addressed the following message to the citizens of Natrobi through the "East African Standard" in connexion with the Jubilee Fund Appeal:

" I know you are loyal!

"I know also that you are generous." Do you not show I know also that you are generous. Do you not show it by contributing according to your means, and sometimes more than you should, towards every worthy object which appeals for your aid!

"What more worthy object have we at the moment than the Jubilee Celebration and what better practical proof of our loyalty and enthusiasm can we give than by making our contributions towards the Jubilee Fund at once?

"As a community—I am afraid we are rather inclined to put off till to-morrow what might be done to-day.

"If a Jubilee Celebration were a matter of frequent occurrence one could understand a certain amount of hesitancy in contributing towards the expenses on the ground that there are so many other calls upon one s purse but in the case of a dubilee Celebration coming as it does only one in a lifetime, such an argument does not apply.

"I I were Constitue." Constitue.

in a lifetime, such an argument does not apply.

"I know you all have it in your minds to contribute bado, hut the old saying that 'be gives twice who gives quickly' applies in this particular instance much more than it would in the case of recurrent charatable subscriptions.

"The Celebration Committee discussed the question of applying to the Municipality for the funds required to commemorate the occasion in a fitting manner, but the feeling was expressed that in a matter of this sort it was infinitely preferable that each individual resident of Nairobi and district, whatever the sex, race or age, should be given an income the remaining the control of the properties of the control of t

Germany's Military Air Force

A NEW LEGAL AND DIPLOMATIC PROBLEM

Definite Infraction of Treaty

NOT LIKELY TO BE ACCEPTED IN SILENCE BY FRANCE

The official app official announcement by Germany that her military air force will formally come into existence on April 1, has caused some anxiety in France, where the admission by Germany of the possession of an air force is not likely to be accepted in silence.

It is stated in Paris that this action by Germany is an infraction of the Treaty of Versaillet and a flagrant contradiction of the terms of the Anglo-French communique, which was accepted by the Reich.

Is also raises a number of legal and diplomatic problems, which are at present under examination by the French Government, while a new factor is introduced into the forthcoming conversations in Berlin between Sir John Simon and Herr Hitler.

SCHOOL COLLECTIONS

The hands of the Jubilee Clock nearly stopped yester day. At 10 o'clock the recorded figure was only 1,135

But the good work is going on.

Collections are being made quietly and regularly through the distributed subscription forms and the hands of the clock will begin to turn more quickly presently.

A prominent Indian merchant of Nairobi set an excellent example the other day to business people in the Capital, and indeed to individuals of all communities.

He read in the "East African Standard" that in the mall amount in a dozen collecting boxes there were one hundred and twenty-six one cent pieces.

"Mr.—, you are having a difficult time collecting this money. I read this morning about the cents in the boxes. Come into my office and I will give you a hundred shillings."

And he did.

The Main Committee yesterday discussed the question of school contributions.

While appreciating the example which the children have set the adults by subscribing to school collections, the Committee rather wish to discourage the children from contributing for the simple reason that the main purpose of the Celebrations is to entertain the children themselves.

But the willingness of the young people to do their hit distribution reflects on the hesitation of many grown-ups!

There is not a great deal of time to decide whether Nairobi is going to be recorded among the Empire Capitals which know how these historic occasions should be celebrated, or amongst the very few communities written down
