CHANGES IN UNDISTRIBUTED INCOME TAX PROPOSED

Report seeks major alterations to Bill

FIRMS' FUNDS RELEASED

RECOMMENDATIONS of the Select Committee on the East African Income Tax (Main) Bill will, if accepted, postpone operation of the undistributed income tax until accounts periods ending after June 30, 1958. Acceptance will also mean that the original undistributed income tax proposals will be replaced in their entirety.

More than a third of the Bill's 152 clauses are affected by the recommendations contained in the committee's report, made public today, and it also suggested that changes should be made in several paragraphs of the schedules.

Clarifying intentions

Most of these are intended to clarify the intention of the Bill, but several substantial alterations are also proposed. These are:

1. Release of retained earnings of annual profits of companies for the purpose of the Income Tax Act.

2. Provision for the release of retained earnings of an employee before pensionable age and before he is eligible for an approved provident fund.

3. At the last meeting of the Select Committee, the Government proposed to amend the usual procedure of laying it on the table of the Legislature to ensure that interested parties throughout the country should have an opportunity of considering the Bill before it is passed.

4. The committee has recommended that the Government should refer the Bill to the Kenya Bar Association for its views on the Bill.

5. The committee has recommended that the Government should refer the Bill to the Kenya Bar Association for its views on the Bill.

ENGLAND BACK IN THE GAME

Tourists can still win first Test

By JOHNNY WARDLE

Spontaneous bowling on an excellent batting pitch and a weathering first Test against Australia, England's tourists have performed more resolute acts than the home team since 1887 for the first time on both days in hand.

SALUTE England's great bowlers, magnificent fielders and astute captain. They have put England back in the game with a vengeance. In the last few years only England's attack but Saturday's feat in holding Australia to 156 for six must rank as one of the greatest in the history of Test cricket.

Whatever happens in the rest of the match, mark this day as an eye of English batsmen and fielders who were not only to be seen but also to be heard. It was the batsmen who were the heroes of the day, and it was the bowlers who were the heroes of the day.

Key player
If England can muster Australia's lead to around 100 England's batsmen will have made good their run to make Australia's score they are making little in a pitch which may - and England's batsmen must be taking enough care for Fingleton and Long.

The key man in this desperate struggle is Bernard Ashurst's new captain, both as a hard hitting batsman and a right bowler. There should not be much talk in the pitch for game men Davidson and MacGill. The 20000 crowd headed with the excited prospect of an afternoon and evening session. By lunch, though, the weather had become overcast and the last over the programme was a rain-out. The rain was not particularly heavy but it was enough to wash out the game. The bowlers bowled out.

West Indians score 203-3

In St. John's, the 17-year-old British Guiana batsman, was top of the World. In the first Test, the West Indians scored 203-3 in the first innings. The batsmen were in good luck, and the bowlers were in bad luck. The batsmen were in good luck, and the bowlers were in bad luck.

Bonnar's third billiards title

GEORGE BONNAR retained his title as the 1958 Kenyan billiards champion, taking the title for the third successive year, but never before accomplished. He was always the master player who with in his first open title, he had won it in 1956.

Highest break—He beat McDonald by 300 points in his first round. The highest break of the tournament, of 131, was made by the other finalist, who won 32 each. Scoring was rather slow in the opening stages of the final and Bonnar found his touch after the first round in the quarter-final, his positional play being the main asset.

Sole goal defeated Province

CENTRAL PROVINCE were beaten by a goal (two points) to fall on the R.F.T. ground on Saturday.

Obtain the post—Province were the better side and had they persisted in more open, highly and developed in the attack, they would probably have won.

Province had more of the play after change of ends and for long periods maintained better possession.

HOSPITALITY SCHEME FOR SOLDIERS STARTED

Further plans outlined

Schemes to provide hospitalities, entertainment and other services for British troops stationed in Kenya have already been put into effect. The schemes are being organized by the Kenya Soldiers' Welfare Association, which has already organized a number of entertainments for the troops.

The first party of soldiers invited to spend their Christmas leave at Nairobi headquarters of the scheme, was held at the King's Own Rifles Club, Nairobi, on Saturday. The party, which was held in the E.A.W.I. building at Gugu, were given a grand dinner by their hostesses. Mrs. M. H. H. and Mrs. M. H. H. were the hostesses of the party. Mrs. M. H. H. explained that it was the intention of the scheme to provide a home for the soldiers during their leave. It was also explained that the scheme would be continued throughout the year.

There had been a suggestion that the scheme should be extended to other parts of Kenya. This was discussed at a meeting of the Executive Committee of the E.A.W.I. on Saturday. It was decided that the scheme should be extended to other parts of Kenya. It was also decided that the scheme should be extended to other parts of Kenya.

Tribe's cattle on show for first time

PROGRESS BY SUK

Standard Staff Reporter

SUK tribesmen drove their 100 head of cattle to a spot high above the arid Riva plains in Kenya's Northern Province for the tribe's first agricultural show. The show was opened at the weekend by the chairman of the Legislative Council Agricultural Committee, Mr. Philip Smith. From where he stood on the summit of the high plateau, the showground site at Kitagata in West Suk, some 100 miles across a semi-desert of the plains, to the mountains of Uganda and the Swam River running through the border.

Mr. Smith, who said that such a show was a big step towards the introduction of modern methods of agriculture in the district, introduced some 100 head of cattle to the show. It seems to be the first time that such a large number of cattle have been shown in the district. The show was held on a high plateau, some 100 miles across a semi-desert of the plains, to the mountains of Uganda and the Swam River running through the border.

CHILD PROBLEM

PARENT-MADE

More firmness needed

The juvenile problem of today is not so much one that has been created by the juveniles themselves—they are the same as they ever were—but by their parents. Mr. Kenneth O'Connor, President of the Court of Appeal for Eastern Africa, said on Friday. He was speaking at the Nairobi Primary School.

He said that the juvenile problem was largely the result of the failure of parents to discipline their children properly. He said that parents should be more firm and consistent in their discipline. He also said that the law should be more strict in dealing with juvenile offenders.

Tsetse fly menace overcome

LIVESTOCK can be kept healthy and free from tsetse fly infestation by the use of certain methods. The Director of Veterinary Services, Mr. K. D. S. O'Connor, said on Saturday.

He said that the tsetse fly was a major menace to livestock in Kenya. However, it could be overcome by the use of certain methods. These included the use of insecticides, the use of fly traps, and the use of certain breeds of animals that are resistant to the fly. He also said that it was important to keep the animals clean and to avoid areas where the fly was known to breed.

These Transmissions, fitted with conventional folds or "flexible" folds, have been developed to give high resistance to "flexion" and "tear" under the most severe conditions of use. They are made of a special rubber having the grain of the fabric. This improves their grip, especially when the Dunlop provides a clearly woven tread. These high grades are assured by precise control checks at all stages of production.

TRAGIC DISINTEREST IN SOMALILAND

Letters to the Editor

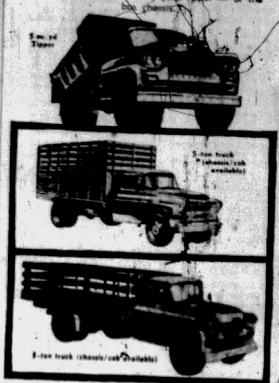

Corporate bodies who have taken an interest in the Empire and in the welfare of its peoples, should be concerned with the tragic disinterest in the Somaliland question. The British people, who have made so many sacrifices for the Empire, are surprised to find that the British Government has done nothing to prevent the disintegration of the Somaliland Protectorate. The British people, who have made so many sacrifices for the Empire, are surprised to find that the British Government has done nothing to prevent the disintegration of the Somaliland Protectorate.

Our knowledge of the situation in the Somaliland Protectorate is based on reports from the British Consul in Berbera, who has written a report on the situation in the Somaliland Protectorate. The British Consul in Berbera, who has written a report on the situation in the Somaliland Protectorate.

It is a sad and tragic story. The British people, who have made so many sacrifices for the Empire, are surprised to find that the British Government has done nothing to prevent the disintegration of the Somaliland Protectorate.

Medical charges

D. BOTH "GP" and "Nurse" have had to battle the problem of "Patient's" charges for medical services. The "GP" has to pay for the "Nurse" and the "Nurse" has to pay for the "GP". This is a very serious problem, especially in the case of the "Nurse".

Rail accidents

A RAIL accident from the last month, involving the loss of a train, is not the first of its kind. There has been a long series of such accidents, and it is time that the Government should take steps to prevent such accidents in the future.

YOUNG PLAYERS' GAME IN RETROSPECT A tale of lost chances

Standard Special Correspondent

WHILE Young Africa today disavows their role at the Nairobi Club, the extent of their victory was not a European would certainly have assumed a slight. Young Africa's defeat was a surprise, but their batting form was quite inescapable in this match.

The majority of them would not forget their disaster with the bats. The batsmen probably know that the batsmen were not in the best of form. The batsmen probably know that the batsmen were not in the best of form. The batsmen probably know that the batsmen were not in the best of form.

ALL YOU SHOULD KNOW ABOUT dip

the amazing new fabric finish that makes limp linens, tired cottons crisp as new

Der transforms fabrics! Limp old cottons and linens look like new—new ones look twice as expensive! Der makes fabric crisp as you like, gives them beautiful matt finish—but it isn't a starch. It's a "thermo-plastic" straight from the laboratory and all you do is add it to your rinsing water! As if this weren't enough—Dip lasts through wash after wash. No wonder women who care about professional results are using Dip!

NO NEED TO DRY BEFORE DIPPING

Why Dip is so easy to use: The standard Der solution—1 dessertspoon Der to 3 pints warm or cold water—is just right for cotton linens, gossamer, etc. Vary this according to your material, using less Der for articles such as handkerchiefs or shirts, more Der for extra-heavy table linen.

How to use Dip: Wash and wring articles as usual; immerse them, wring out, and dip in the solution. Wash clean about thoroughly and, if possible, leave for a few minutes. Wring out again. It is advisable to Der large articles one at a time and "top-up" the solution between each dipping.

Ironing: Dipped articles should be ironed while still damp. Don't let them dry and then re-damp them. Iron at the correct temperature for the fabric, but don't use with heavy pressure. This way the plastic sets the fibres of the material, giving you a longer lasting preshrink. Thus, as the fabric cools, you will see a wonderful "shrink" take place. If ironing, it is best to iron, if possible, twice after use. And this is true: Dip preserves will last—wash after wash after wash! Approved by The Institution of Sewing Machines.

PLY-OVER PLAN APPROVED BY NAIROBI COMMITTEE

Remedy for congestion

PLANS to construct three "over-leaf" flyovers in the city of Nairobi, at a cost of about £100,000, have been approved in principle by the Nairobi City Council.

The flyovers will be at the Delamater, Whitehouse Road and Kingway roundabouts, and will be built on the east side of the city. The increased volume of traffic is likely to be attracted to these roundabouts, building will probably be restricted to multi-story office buildings.

The city planners say that the existing roundabouts will be widened to the width of the flyovers. The number of traffic lights will be reduced and the flyovers will be built on the east side of the city. The Department of Works and Construction is now preparing plans for the flyovers.

Half-mile queues

Funds for the project are not available for six years, but it is expected that the Government will be able to build or subsidize the flyovers in the next few years.

JAILED FOR SNATCHING NECKLACE

A MAN arrested with a necklace worth £50 and a watch worth £100, was sentenced to six months in prison for snatching the necklace from the neck of a woman.

Allowed to go

A CHINESE official and his wife were allowed to leave the country after being detained for several days.

Shop considered

THE Government is considering the possibility of opening a shop for the sale of goods to the public.

Spirit needed

It is necessary to have a spirit of public service in the Government if it is to be successful in its work.

The Government has made ten years' progress in the development of the country.

The weather is expected to be fine and sunny for the next few days.

DEMAND FOR ACTION ON ECONOMY DRIVE Convention criticism

Removal of surcharge sought

PRESSURE of political opinion in Britain and the special tax on the Kinyua, Simba and Meru. This was stated by the chairman of the European Economic Organisation, Sir Alfred Vigness, at the Convention. He emphasized that it was the personal opinion and that he was not speaking from actual experience. Sir Alfred was reviewing the Government's proposal to the E.E.O. during the year by the Convention. The Government has a surcharge on the import of certain goods which is unfair and should be removed. He said the E.E.O. agreed to remove the surcharge on the import of the Kinyua, Meru and Meru. In response to a resolution passed by the United Kingdom, Sir Alfred said that the Government had been written to request that the surcharge be removed. He said that the Government had been written to request that the surcharge be removed. He said that the Government had been written to request that the surcharge be removed.

COMPLETE dissatisfaction with the attitude of the Government to demands for an economy drive was expressed in a resolution passed at the annual meeting of the Convention of Associations in Nairobi on Thursday.

The Convention Government should produce definite proposals to remedy the position before the end of the present fiscal year; and that an independent inquiry should be held into Government expenditure. Sir C. Phillips (Kenya) said that he was not speaking from actual experience. He said that the Government should produce definite proposals to remedy the position before the end of the present fiscal year; and that an independent inquiry should be held into Government expenditure. Sir C. Phillips (Kenya) said that he was not speaking from actual experience. He said that the Government should produce definite proposals to remedy the position before the end of the present fiscal year; and that an independent inquiry should be held into Government expenditure.

Three times too big

Mr. L. E. Viger maintained that what was needed for the present rate of Government expenditure was a three times too big. He said that the Government had been written to request that the surcharge be removed. He said that the Government had been written to request that the surcharge be removed. He said that the Government had been written to request that the surcharge be removed.

Cost of home leave

A resolution on home leave for the Civil Service was passed by the Convention. It read: That in view of the heavy cost to the country of the home leave for employees in the Government, commercial and other organisations, the Government be urged to take a lead in reforming this onerous burden by progressively dispensing with home leave for employees appointed in the future. Unanimous approval was also given to a resolution on Government finance. This provided that the conference.

County police

A resolution from Mount Kenya constituency recommended the European Elected Members to explore with the Government the possibility of setting up a constabulary in the European areas similar to the constabularies in other parts of Kenya. The resolution was passed unanimously.

Need for October monetary system

Kenya needs a monetary system which would allow the Government to influence the economic affairs of the country. This was stated by the Member for Nairobi, West, Mr. R. B. Alexander at the Convention of November 2. He said that the Government should produce definite proposals to remedy the position before the end of the present fiscal year; and that an independent inquiry should be held into Government expenditure.

BRITAIN SEEKS FOUR-POWER Move on AGREEMENT Cyprus approved ON BERLIN

**Meeting with Allies
soon as first step**
DEMAND FOR UNITY

BRITAIN is seeking a meeting between the Soviet Union and the three Western Powers with the aim of settling the Berlin dispute and other outstanding European problems, Foreign Secretary, Mr. Selwyn Lloyd, gave his news to the House of Commons in a debate on the situation.

He rejected as unacceptable the Russian proposal to make West Berlin a demilitarized free city and added, "We do not think there is the slightest chance of a so-called free West Berlin remaining free."

Obviously the right solution would be that Berlin should be the capital of a united Germany. We hope to discuss the matter in all its aspects with the other three powers as soon as they give their consent."

He said that the British Government would be glad to discuss the matter with the other three powers as soon as they give their consent.

DEFIAL ON EVIDENCE OF 'PLOT'

Government statement

THE KENYA GOVERNMENT yesterday denied that there was evidence to indicate that a new secret society planning subversion does exist.

It issued an official statement which read: "The Kenya Government in investigating information supplied to it by Group Captain R. B. Pringle, which suggests the existence of a subversive organization of a type similar to the Kenya African Union and Mau Mau."

"As the European Minister without Portfolio had already explained, the Government is taking action on the information that the information supplied by Group Captain Pringle is reliable but at the moment there has been no evidence to indicate the existence of any new and secret society."

There have been statements in the past few months about a plot to overthrow the Government in Kenya. These statements were made by Group Captain Pringle, who was a member of the Kenya African Union and Mau Mau.

The Government is taking action on the information that the information supplied by Group Captain Pringle is reliable but at the moment there has been no evidence to indicate the existence of any new and secret society.

This is the secret
Regain treatment with SOLEA
keep the skin smooth and pliable —
even on the break

When properly cared for with SOLEA
remains smooth also in the sun

The skin does not just dry out
because SOLEA contains Lanolin —
a substance resembling the natural
skin oils. Daily massage
with SOLEA, however, are the
preparations for that radiantly
youthful appearance which

Alarm over Kenya's finances

IMMEDIATE REVIEW OF THE POSITION URGED BY MR. ALEXANDER

SHORTFALLS of revenue amounting to about £2,500,000 are likely by the end of the financial year, it is reported. Mr. P. S. Alexander (Nairobi News) said in Kenya Legislative Council when he moved a motion urging the Government to institute an immediate review of the country's financial position.

The Development Fund position was also mentioned. Mr. Alexander went on to say that the Government had spent £2,100,000 more than it had received in the first four months of the year. He said that the Government had spent £2,100,000 more than it had received in the first four months of the year.

Mr. Alexander also mentioned the fact that the Government had spent £2,100,000 more than it had received in the first four months of the year. He said that the Government had spent £2,100,000 more than it had received in the first four months of the year.

Britannia plaque unveiled at Nairobi Airport

At a ceremony held at the Nairobi Airport on Wednesday, December 3, the Britannia plaque unveiled at Nairobi Airport was described as "a very great achievement of which we in Britain and Kenya should be very proud".

The Minister of Information and Public Relations, Mr. M. H. Jones, said the day was not far distant when passengers would be able to breakfast in Nairobi and dinner in London. He described the plaque as "a very great achievement of which we in Britain and Kenya should be very proud".

The Minister also announced that another set of the same type had been ordered by the Government of Kenya to be unveiled at the same time as the one at Nairobi.

INSTITUTE OF ADVANCED MOTORISTS IN KENYA

I WAS interested to read the letter by Mr. E. Durlacher last column about his resignation from the Institute of Advanced Motorists in Great Britain. It is prepared to consider the affiliation of overseas bodies.

With some regard to the Royal Society of Motorists, I might mention that the Institute of Advanced Motorists is not a competitor but a complement to several of them, and motorists in Kenya are invited to join it. It is a body that is prepared to consider the affiliation of overseas bodies.

It has sometimes been said to be a good idea to have a club without further delay. It is hoped that the Institute of Advanced Motorists, Kenya will be able to become the complement of the body early in 1953.

The text will be based on the information that the I.A.M. is a body that is prepared to consider the affiliation of overseas bodies. It is a body that is prepared to consider the affiliation of overseas bodies.

COMMONWEALTH BANK PLAN GOES TO STAGE

FURTHER British pledge on Montreal pact

RESOURCES LIMITED

BRITAIN is now putting forward suggestions to Commonwealth countries on how studies for commonwealth development bank—proposed at Montreal economic conference in September—should be made, and asking for their views. This was stated by the Chancellor of the Exchequer, Mr. Heathcoat Amory, when he opened a discussion debate on the conference. He said the Government intended to see that its actions reflected the spirit and letter of the agreement reached at Montreal. The idea of a Commonwealth Bank, strongly supported by Canada, was not a British invention. It has been suggested by the United States and the United Kingdom. The British Government has been particularly keen to see that the bank is not a concentration on the single aspect of a commonwealth bank.

Another 20 years to achieve aim in Kenya

BRITAIN may have to wait another 20 years to achieve its aim of a self-governing Kenya, according to a report by a British official. The report, which was made public yesterday, states that the British Government is not satisfied with the progress of the Kenya Government in the field of economic development. It is estimated that it will take 20 years for Kenya to reach the stage of self-governance. The report also states that the British Government is not satisfied with the progress of the Kenya Government in the field of social development. It is estimated that it will take 20 years for Kenya to reach the stage of self-governance.

STORM SAVES M.C.C. AT SYDNEY

Eve-of-Test honours go to Queensland

By JOHNNY WARDLE

THE M.C.C. can thank their lucky stars that Queensland did not make an effort on "Dismal Monday" to get on with the game. If they had not been so strongly in alliance the M.C.C. would have been hard pushed to prevent an ignominious first defeat. As it was, a storm saved the M.C.C. from a desperate struggle for it cannot be denied that Queensland were well on top.

What a sensation it was to see the M.C.C. who are the best of the match and struggling the next day.

Roy Lincoln, who took 100 runs for Queensland in the M.C.C.'s first innings and ran to 16 in his second. Lincoln also threw down and ran to 16 in his second.

It was rather funny to see the M.C.C. who are the best of the match and struggling the next day.

Yesterday we saw English batsmen in a very ordinary way. The M.C.C. batsmen were very good.

Pushing your product

Selling and advertising, though they must work in intimate liaison to work well, are still separate entities, each with separate functions and each needing highly specialised talents. The level of development of these talents in both members of your team will decide the level of your success.

SAILING DIFFICULT IN 20-KNOT WIND Hazards on Nairobi Dam

TWO boats looked together, having collided and capsized on the starting line, during the annual regatta on Nairobi Dam on Saturday. The boats were racing for position in a 20-knot wind.

The regatta was held on Saturday at Nairobi Dam. The weather was windy and the racing was difficult.

Fine performance
Sunny (Boat), though retiring in the start race, took second place in the Handicap Club Monthly Regatta with Scarus (Boat) second. The latter followed a fine month's racing with three wins, one second place and one retirement in five races to his credit.

Results were:
FIRST RACE
1. Sunny (Boat) 2. Scarus (Boat) 3. Sun (Boat) 4. Sun (Boat) 5. Sun (Boat) 6. Sun (Boat)

SECOND RACE
1. Sunny (Boat) 2. Scarus (Boat) 3. Sun (Boat) 4. Sun (Boat) 5. Sun (Boat) 6. Sun (Boat)

THIRD RACE
1. Sunny (Boat) 2. Scarus (Boat) 3. Sun (Boat) 4. Sun (Boat) 5. Sun (Boat) 6. Sun (Boat)

(Continued from Page 1)

specific and other from the Head Authority. Its report and accompanying criticism of the Government's method of administration in the matter. The difficulty was that when the Government's local authorities found itself in some embarrassing financial position, it was not to be cut down, services and staff were not to be reduced and the budget was to be balanced. Many taxpayers were reluctant to agree that their contributions should cover more responsibilities than there was a local authority's staff to support. Central Government had paid on in the local authorities, a grant which was not carrying out these services which were more suitably done by the local bodies. Just to increase rates without making a decision in central taxation was not making much sense, that was the position.

Limited amount

It was believed that a subject important enough to bear full the Government's attention. In South Africa commissions had been set up to investigate the same problems.

It was pointed out that there was something necessary which was not being done. It was possible, however, that there would be a change in the Government's attitude towards the collection of revenue. The working party might study and might be able to recommend to the Minister.

He pointed out that Ministers had held many times in the past that only a change in the law was available and that the Government should make that change and distribute it in the best possible way. Local authorities had been told that they must cut their costs according to the facts that were available.

There was a feeling that adequate money was not being made available in local authorities, to enable them to carry out their proper functions.

Fair rating

The main difficulty was to find a method of rating all people fairly and this required a great amount of information. There could be hardly any local authority in Kenya which had enough capital available to undertake all projects which it considered essential.

The proposed working party might perhaps make valuable recommendations and the Minister might be able to find new sources of capital.

Mr. Charles emphasized that he was not asking for a Royal Commission. The working party could be composed of local people. He did not want an expert brought out to undertake the inquiry. It was a local matter and would have to be kept local. Its membership should be only local.

Pay rise for 40,000 Copperbelt workers

Ashraf 40,000 African mine workers on the Northern Rhodesia Copperbelt were notified that they had been awarded 10 per cent pay increase.

High priority

It would be of the highest priority to examine the alternative methods of obtaining local authority funds. The Minister for Local Government, Mr. Havelock, had been made clear that the Government's local government funds were not to be increased. It was pointed out that the Government authorities had to be given the right to raise the same standard, but it should be expected that the Government should be able to provide the necessary funds.

Long way to go

He suggested the attitude that the Government must have greater responsibility in regard to Government administration, something which was a responsibility. The Government and money derived from other local sources were more than enough to meet the Government's needs. It was pointed out that local authorities in Kenya had to be more responsible local government grants should certainly not be more than 50 per cent of local revenues if the local body was to be self-sufficient.

Co-ordination needed

He asked Elected Members to try to persuade the Government to undertake a study of the various departments. Co-ordination of thought on important aspects of local government might well be advisable and he would be willing to do so.

Newspaper apology to the Speaker

SUSPENSION COMMENT

NO further action is recommended by the Government of Kenya Legislative Council on the circumstances in which the suspension of the African Elected Members was reported in the Senate Committee's report.

The Members were suspended on November 3 and a report concerning the suspension appeared in the Standard on November 11. Three days later, the Council instructed the Senate Committee to inquire into and report on the matter.

A letter from the editor of the Standard was received by the Speaker on November 18, apologizing for any construction or interpretation which might be given to his article which might be construed as an insult to the newspaper.

The article stated the suspension of our Elected Members is a challenge to the African right to be in that office. The Speaker's action was to demonstrate their so-called power and authority. There is an intolerable humiliation suffered because of being a subject people. To suggest that the Members planned to show disrespect to the Queen is nonsense. Those who say this plan a political blackmail to influence public opinion in Britain on a 'colonial' issue.

Meaning taken

The committee's report said the members came to the conclusion that the words could only be understood to mean that the Speaker's ruling that the African Elected Members' conduct in withdrawal during the composition of the Queen was tantamount to a subject people.

FIGURES SOUGHT

The Treasury is expected to publish figures for the balance of payments for Kenya for the year ending 31st December 1962.

The figures are expected to show a surplus of about £10 million.

The surplus is expected to be due to a combination of factors, including a decrease in imports and an increase in exports.

The figures are expected to be published in the monthly bulletin of the Kenya Statistical Service.

A CHEVREMENT by Kenya's youth exhibition in art and music have been held at the exhibition of paintings, sculpture and handicrafts at the Memorial Hall, Nairobi, Monday.

He suggested it had been an advantage that people in Kenya had been obliged to create their own art and music for themselves for more than 10 years than in other countries where arrangements tended to be made for them by the officials of others.

Nowadays, the European has sometimes doubtfully that the value of what he brought to Africa, and of the contribution to the world he brought.

Western contribution

In art, architecture and music there could be no doubt that in the traditions of the West, the European had contributed something to the world that no other people except the Chinese had done.

There was a tendency to regard European painting and sculpture as the main contribution to the world of art. There was a tendency to regard European music as the main contribution to the world of music.

It strongly suggested the exhibition of art and music in Kenya of great paintings and sculpture, and the exhibition of music and sculpture would be the center of inspiration and knowledge. He hoped that people who had been denied access to the world of art and music for so long would now be able to see and hear the best of what the world has to offer.

Source of inspiration

Young people in Kenya had few opportunities to see art and music of great paintings, and the exhibition of music and sculpture would be the center of inspiration and knowledge. He hoped that people who had been denied access to the world of art and music for so long would now be able to see and hear the best of what the world has to offer.

'HARD BUT REWARDING' FORECAST FOR KENYA

Sir Evelyn's confidence in people

The Governor of Kenya, Sir Evelyn Baring, told members and guests at the Caledonian Society's St. Andrew's Night dinner on Monday that he looked forward to a "hard but rewarding future" for the Colony.

Sir Evelyn based his optimism on Kenya's agricultural assets, its position as the commercial centre of an expanding region and its people and the power to establish themselves; people who can live together in peace and harmony in one country.

Dealing almost entirely with the country's economic system, the Governor presented his remarks by saying: "There is no doubt about it, the Kenya economy is a very young one and without a sound economic system such as Kenya could hardly afford any worthwhile position."

The prosperity and development of the country was built partly on its agriculture and forestry and on its trading position.

Almost equal value
"At first sight, when looking at the figures to enter Fettes College, Edinburgh, wanted a Kenya pen and some of the Colony's stamps. So he sent to the Kenya Government in Kenya he knew by name the Governor, Sir Evelyn Baring."

Preserving game

One of Kenya's primary needs was for the cheapest possible game available. "We have been able to get away from dependence on electricity generated outside the country and to use our own power for fuel oil and I hope this will get even further away from us."

Vigorous efforts were being made to develop the tourist industry providing more and more of a "commodities" approach, the name under which the Government was to be known.

Hidden strength

The Government, then, was not so much a field of investment, there did not appear as great long-term prospects as before South Africa.

But there is the strength of the country, the hidden strength, the strength of the people, the strength of the people who have shown themselves to be a people who can live together in peace and harmony in one country.

Racialist leaders denounce

PROPOSING the transfer of the Land We Live In, Mr. R. S. Alexander, Member for Nairobi West said it was a land "desperately needing a good example by responsible people."

There were two obvious opportunities for such people. Firstly, they must rightly and decisively answer the wide allegations of unbridled racialist leaders in Kenya who, in an attempt to establish their racialist views, are to accept African self-determination and a stable democracy.

Chama mockery
The answer to that was that responsible and enlightened Kenyans have a duty to ensure that Kenya shall never return to the self-determination which expressed itself only in a narrow, tribal, perspective and anarchy, and that Kenya will never return to the perspective of a members of freedom of interests as evident in Ghana.

In a tribute to the Minister for Housing, Mr. Alexander, Mr. Alexander said that democracy when vested in the hands of wrong people in the country, it is a mockery. He said that the Government should be held responsible for the situation.

He asked who they had in mind for the transfer of the Land We Live In, and he said that the Government should be held responsible for the situation.

Short story
The African is finding through painful experience that civility, man's selfishness, hypocrisy, and envy. No wonder he is reluctant to show hospitality to those who brought him to this world.

Social problems
In accepting the view that the present African economic problem is due to a breakdown in general economic conditions, it is necessary to ascertain what steps are to be taken. The answer that it is the result of the impact of education and civilization is too general and therefore futile. In trying to find the precise causes, it is impossible to measure the quantities without the aid of scientific methods. This is the line that must be followed in the investigation of economic causes. This is the line that must be followed in the investigation of economic causes.

CEMENT DUMPING FEAR IN EAST AFRICA

Full protection urged

UNTIL such time as the importation of East African cements is protected by the Government of the three territories, they cannot do otherwise than reduce their production, Dr. M. Maridi, managing director of the British Standard Portland Cement Co. Ltd., said in a statement yesterday.

Lower prices on London markets

Combit Porter & Co., Ltd. has opened a cements depot today with an extensive stock of cements for sale at reduced prices. The depot is situated at the East African Standard on Saturday.

The combined total of the three territories has a capacity of 1,000,000 tons per annum. The East African Standard on Saturday.

The PHILIPS PHILISHAVE is a new design

This is a message to modern men. Are you one of them? Sure you are! The number of old-fashioned men is dwindling so fast that even a not-quite-so-modern man may 'look' old-fashioned. That is why you have to watch your stage and... your chin. Because that chin of yours may reveal your outlook since all modern men shave with an electric shaver, and since most of these modern men do it with a Philips Philishave. The most efficient dryshaver. A new model has just come out and it is even better than previous types.

Go to a Philips dealer. Just ask him to show you the new Philips Philishave. To demonstrate its smooth, silent and regular running. To let you feel the butterfly-touch of the dryshaver on your skin. That will convince you far more than any advertisement.

Fire traps children in school: 90 killed

MORE than 90 children and three nuns were killed in a fire at a Roman Catholic school in Chicago on Monday morning.

The fire broke out at 10.15 a.m. in the school, which was a fire trap. The children were sleeping in their classrooms. The fire spread rapidly and the children were unable to escape.

The fire was caused by a short circuit in the wiring. The school was built in 1900 and had no fire escapes. The fire was extinguished by firemen who arrived within 10 minutes.

The fire caused a major disaster in Chicago. The school was a well-known institution and the children were from various parts of the city. The fire was a tragedy for the community.

INQUIRY ON FINANCING COUNCILS

Government agrees to set up committee

ADVICE on the sources of finance available to local authorities and on the services which they should carry out will be included in the functions of a central advisory committee to be set up by the Government, the Minister for Local Government, Mr. Havelock said in Kenya Legislative Council yesterday.

He was accepting on behalf of the Government motions put forward by Sir Charles Markham, and agreed at the Minister's request, asking for an inquiry into the available finance and its allocation for the proper discharge of the statutory functions of local authorities. The motion was approved.

DREARY CRICKET AT BRISBANE

Snail-pace batting by Queenslanders

ONE of the slowest days' cricket on record ended in Brisbane yesterday with Queensland 135 for five in reply to the M.C.C.'s first innings total of 131. Queensland crawled at the rate of approximately one run in every 100 runs in a full day of five and a half hours. They finished 17 runs behind with five wickets left.

Accurate bowling
Queensland, supported by some good batting from the Queenslanders, and the batsmen did not have a shot to hit until 11.30. The first over was bowled in 10.4 and was followed by another in 11.2. The first over was bowled in 10.4 and was followed by another in 11.2.

Death toll title for J. Leressee

With a total of 5,263 points, James Leressee of the Queensland team has won the title of the best batsman in Queensland in the 1931 season. He has 1,931 runs, including 100 fours and 102 sixes. He has also scored 100 fours and 102 sixes.

McDONALD IN THE FIRST TEST

McDONALD has been named in the first test. He is one of the best batsmen in Queensland. He has scored 100 fours and 102 sixes.

NO EXCUSE FOR BORING DISPLAY

By Johnny Wardle

PRESENTED to you the biggest bats in cricket—Queensland's batsmen. Since the time assigned, I have conducted some distressing days on lifeless pitches but today's exhibition and I use the word in its derogatory sense) was disgraceful. There was no possible excuse for scoring 135 runs in five and a half hours' so-called cricket.

NIVEA replaces the natural oils and moisture of your skin!

Every day the sun, wind and weather dry out the precious oils and moisture your skin must have to keep it young and healthy. Nivea replaces both the lost moisture and precious oils because only Nivea contains Emuolite—the nearest thing to your skin's natural oils. Emuolite absorbs the moisture and carries it deep down into your skin, where it can do the most good. Use Nivea regularly to keep your skin beautiful.

Nivea Cream is also available everywhere.

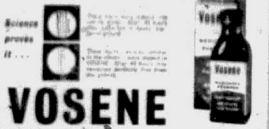

For its moisture, for its natural oils, SKIN needs NIVEA

NEW! To complete Nivea beauty care—NIVEA CREME SOAP!

SISAL GROWERS 'MUST BE READY TO CHANGE METHODS'

New industrial demands

SISAL growers would have to be open-minded about manufacturing industries in Kenya, says the chairman of the Planters Day Institute, Mr. Angus Laverie, told growers last night.

The luncheon, at which Mr. R. de Soyuzou was the principal guest, followed a morning's visit to the Government Agricultural Station near Thika, where growers saw some of the methods used to suppress weeds and diseases in plantations.

Mr. Laverie said that the association of growers should be prepared to accept the part of the new methods which would be beneficial to them and to reject the parts which would be detrimental.

He said that the new methods would be a great advance on the old methods, but that they would be a great advance on the old methods, but that they would be a great advance on the old methods.

CHALLENGE TO COURT ACTION ON ESTATE

An action brought to seek enforcement of the probate of a will was challenged in court by the Attorney-General, Mr. Bernard E. Marais, who appeared for Eastern Africa.

The action, brought by the Attorney-General, was against Mr. Ernest Marais, who was the executor of the will of the late Mr. Ernest Marais.

Mr. Marais had applied for the probate of a will, but the Attorney-General had challenged the validity of the will.

Three-phase system

Mr. Harris, who was representing the estate, was told that the three-phase system was a better system than the two-phase system.

He said that the three-phase system was a better system than the two-phase system, and that it was a better system than the two-phase system.

PROTEST BY CHAMBERLAIN

Farmers' and Settlers' Association

NAIROBI—The Chamberlain of the Kenya Farmers' and Settlers' Association, Sir Charles Chamberlain, has protested against the abolition of the restriction on the importation of foreign goods from the cultural groups.

He said that the Chamberlain had written to the Kenya Government and the Commonwealth Secretariat, and that he had also written to the United Kingdom Government, to ask that the restriction on the importation of foreign goods should be maintained.

Omission regretted

The restriction on the importation of foreign goods from the cultural groups, however, is being removed, but the Chamberlain has expressed his regret that the restriction on the importation of foreign goods from the cultural groups is being removed. He said that the Chamberlain had written to the Kenya Government and the Commonwealth Secretariat, and that he had also written to the United Kingdom Government, to ask that the restriction on the importation of foreign goods should be maintained.

WEST 'DECLINE' IF MORE IS NOT SPENT ON SCIENCE

There will be a decline of Western civilization if the West does not increase its expenditure on science and technology, Prof. A. C. B. Lovell, director of the Royal Bank Observatory, predicted in a broadcast. The West, he said, is "becoming a second-rate power" and that within the next decade the scientific and technological superiority of the Soviet Union will be established. He said that the West must spend more on science and technology if it is to remain a first-rate power.

Voice echo from moon

LISTENERS to the B.B.C. heard the echo of Prof. Lovell's voice as it "bounced" off the moon. The professor said that he had heard the echo of his own voice as it bounced off the moon. He said that the echo was heard about 2.5 seconds after the original voice was transmitted.

BREWERS' TIE WITH GLASS WORKS

East African Breweries, Limited, is to purchase the glass works of Messrs. East African Glass Works, Limited, in the result of negotiations between the East African Breweries and Messrs. East African Glass Works, Limited, which will acquire a 50 per cent. interest in the works.

The works, which are situated at Nairobi, are one of the largest glass works in East Africa and produce a wide range of glassware, including bottles, jars, and other glassware.

The acquisition is expected to be completed next month.

Mr. Loup Long, in Scotland, the tanker British Faith discharges cargo at the British Petroleum Co.'s new deep water jetty at Fremantle. To link the tanker terminal on the coast with the railway on the East, a 12-mile pipeline will be built across rocky and mountainous country. The new pipeline will increase the railway capacity from 1,000,000 tons a year to 2,500,000 tons, and is part of a £100 million program plan which is due to be completed next year.

U.N. debates commodity price levels

A TEN-NATION effort to help stabilize international commodity prices is due to come before the United Nations General Assembly's Economic Committee this week.

Australia, which has recently expressed particular concern about primary produce commodities, is expected to pilot it in the committee.

The draft crystallizes many of the views expressed in the Committee's general economic debate in recent weeks.

Serious problems

The draft deals with serious problems confronting many countries, particularly the non-exporting ones, because of the "excessive fluctuations" in primary commodity prices and the "excessive protectionism" in the various markets.

The draft envisages many of the measures which might be taken to stabilize commodity prices.

Lower rates

It gave plenty of scope, however, for competition among its members in service, the rate of interest which was handled the speed and regularity of the movement of its members.

Coffee auction at Moshi

A total of 456 tons of K.N.C.U. coffee was sold in Thursday's auction at Moshi for £146,241. The highest price paid was £36 per ton for AA grade, and the average price for coffee sold in the auction was £316 per ton.

Regular service at fixed cargo rates SHIPPERS' GUARANTEE

RATE-FIXING to shippers was the prime function of the East African Conference Lines, the chairman, Mr. A. T. de Jean, told Mombasa Rotary Club. It also provided continuity and regularity of service in the interests of shippers and consignees, and most traders who regularly used the service recognised its value, he added.

I like

THE vintage click-clack tick-tick of a snooker game. The crisp smack of a cricket ball sending the batsman through the air. The whirring of a golf club in a putt that is driven straight and true down the fairway. And then the sound that follows a game. The merriment of a night's giving orders to the steward. The quiet click of glasses and the admittance, in a word, of the most appealing sound of all - the name Grant's. Followed by the gentle gurgle of the finest Scotch being poured from the tall triangular bottle.

You'll like GRANT'S SCOTCH WHISKY

Now in the tall triangular bottle.
