## MINISTER REVIEWS COLONY'S FARMING PROSPECTS

Jordan call for urgent U.N. action on attack

### Warning of severe coffee price drop

### MARKETING BOARDS

UNLESS world reserve stocks of coffee can be financed successfully to prevent their entry on the market, or eliminated, there is every possibility in the future of a severe drop in world coffee prices.

This warning was given to Kenya coffee producers by the Minister for Agriculture, Mr. Blunsell, when he reviewed the Colony's agricultural prospects at the annual conference of the Kenya National Farmers' Union which opened in Nairobi yesterday.

Mr. Blunsell commented that it should be feasible in the future for coffee to be sold after the Washington talks but for the present, a stabilization of prices had been achieved by holding up large reserve stocks in America.

The Minister said that the Government was determined to remove all land barriers which would have to be removed. The Chief Secretary, Mr. Coombs, began his speech by saying that the Government had a duty to ensure that the land was put to the best use possible.

# Bright ideas furnished by felt

By DUDLEY BIRKS

Wool felt is often overlooked by those furnishing a home. It offers in its many forms a medium for both luxury and economy. For instance, a heavy felt chair cover is a luxury, while a light felt chair cover is an economy. Felt is also a good material for making a variety of home accessories, such as lamp shades, book covers, and table runners.

# BETTER ROADS FOR LESS WITH CATERPILLAR MOTOR GRADERS

Here are a few ways Cat Motor Graders build better roads for less

THE BOTTLENECK in the development of many an area is its transportation system. Until roads can be installed, industry, commerce, and agriculture are held back. The cost of development can be reasonable where efficient methods of road building are employed. The most economical and efficient machine for road building is a Cat Motor Grader. It can operate on almost any ground, working at a depth of 18 inches to 24 inches. It can work on soft and sticky to heavy soils. After the road is built, the Cat Motor Grader is the ideal machine for maintaining it. All components are rugged, heavy-duty, mechanical power, drive, transmission, and final drive are Caterpillar specifications. One manufacturer controls the design and production of the complete machine. One dealer organization in this area, your Caterpillar distributor, service and parts organization, has the complete Caterpillar Motor Grader line to you.

# NAIROBI HEROES FAIL IN TANGANYIKA

**Fast track at Thika stadium**

WHEN Thika's new sports stadium, being built at a cost of £8,500, is officially opened early next year it will provide the Colony with one of its fastest racing tracks.

The outline will be of genuine oval and will be similar to the track at Hareway Park, international standard, up to 330 yards.

**Cricket field**

The stadium will contain a cricket field with boundary lines of 120 yards straight stretch for bowling runs. There will be a special entrance for the Clubhouse for the African players.

It is hoped to have the Central Kenya Cricket Union participating in the stadium next year and to make the ground for other sports (badminton, tennis, etc.) which will be built in the stadium.

A 500 ft. x 100 ft. area, and 150 ft. x 100 ft. area, will be reserved for the African players.

Cost of the project has been met from African funds, Government grants, and commercial companies, and the project is being managed by the African Community.

**Combined teams win both games of football tour**

NAIROBI HEROES lost both matches of their Dar es Salaam football tour. They were beaten 2-0 by a European team in their first game on the Dar es Salaam Sports Ground and were defeated 1-0 by a combined team of the Mbaraka and the Mbaraka combined teams in their second match at the Mbaraka Sports Ground.

Although they were beaten, our team was very good in both matches. In the first match, we were very strong in our own half and made many good attacks. However, we were not so good in our defence and were beaten 2-0. In the second match, we were again very good in our own half and made many good attacks. However, we were not so good in our defence and were beaten 1-0.

The tour was very interesting and we had a very good time. We were very well received by the Dar es Salaam team and the Mbaraka combined teams. We were also very well received by the fans. We hope to have another tour in the future.

# EMPLOYERS' FEDERATION TO BE SET UP IN KENYA

## Merger on January 1

Two Kenya associations are to be amalgamated into a new body which will be called the Federation of Kenya Employers. The amalgamation of the associations—the Association of Commercial and Industrial Employers and the Mombasa and Coast Province Employers' Association—will come into effect on January 1, 1959.

The Federation's aim will be to carry out the same functions in Kenya as those fulfilled in Britain by the Employers' Confederation. Membership will include almost all the major employers outside the Government, Nairobi and Mombasa. The agricultural industry is represented by the Kenya National Agricultural Union, the Coffee Board, the Sugar Growers' Association, the Kenya Tea and Coffee Growers' Association, and the Horticultural Board.

The Federation will be a body which will be able to speak for the employers in Kenya. It will be able to advise the Government on matters relating to the employment of labour, and to represent the employers in any negotiations with the Government. It will also be able to advise the Government on matters relating to the employment of labour, and to represent the employers in any negotiations with the Government.

# Liquor licence for cafe refused

## TROOPS' NEED PLEA

Standard Staff Reporter. NAKURU. An application for a retail liquor licence for Thompson's Cafe, Nakuru, was refused by a liquor licensing court yesterday. In making the decision, Mr. C. Rawlings, on behalf of the cafe, said that 2,000 British troops would soon be moving into Gilgil, and there was an 'extreme need' for the provision of liquor for the entertainment of the soldiers. The court refused the application without comment, after Mr. Rawlings had said 'Nakuru has to date had no retail licence for liquor, and it is a pity that the cafe should be refused a licence for these soldiers. It is a pity that the cafe should be refused a licence for these soldiers. It is a pity that the cafe should be refused a licence for these soldiers.'

### English pub style

It was intended to run the cafe on the lines of an English pub, with a bar and other recreations. The application was supported by the East Africa Women's League. Mr. Rawlings said the cafe would have a bar and other recreations. The application was supported by the East Africa Women's League. Mr. Rawlings said the cafe would have a bar and other recreations.

**More technical training essential for Kenya's future**

THERE can be no national but approval by the formation of Kenya Employees' Union brought about by the amalgamation of two associations, one in the Coast and the other at Mombasa to the Coast. At this stage there is no certainty about how many of the Coast members will go under the new umbrella arrangement, but it seems probable that most of them will be included in the new union. It is being to construct a country-wide organisation with which the Kenya Federation of Labour can negotiate. On this basis, a reasoned estimate puts the Federation's membership at 20,000, representing employers of at least 200,000 people. Although a large number of firms remain outside, with some branches of activity, the only major industry not included is building. Almost exactly half the agreement on broad principles of policy was announced between the Federation and the K.F.L. The joint statement said that the two organisations had agreed to cooperate to give effect to these principles. The aim was to set up a system of negotiation between employers and employees, assisted by both parties. Their agreement was to be headed by Works Councils, Kenya Industrial Councils, Arbitration Tribunals, Essential Services, and Trade Unions. The aim was to set up a system of negotiation between employers and employees, assisted by both parties. Their agreement was to be headed by Works Councils, Kenya Industrial Councils, Arbitration Tribunals, Essential Services, and Trade Unions.

**Major problems**  
 The major problems which are likely to arise in the new union are those which are common to all unions. These are the problems of recruitment, training, discipline, and the maintenance of a high standard of performance. The union will have to face these problems in a country where the labour force is largely unskilled and where the employers are often small and unorganised. ## CYPRIOTS BARRED AT AIRFIELDS

MORE drastic measures to stamp out terrorism in Cyprus were announced yesterday. The R.A.F. banned 1,000 Cypriot workers from its airfields and installations throughout the island and will replace them with British airmen.

The latest of a series of incidents at R.A.F. bases was the bomb blast which killed six airmen in a hangar at Nicosia Airport at the weekend. Airmen to replace the Cypriot workers will be flown to the island as soon as possible. It was also announced by the Army that 1,000 Greek Cypriots employed by the Staff had been barred.

Another bomb blast in the hangar at Nicosia Airport on Sunday night. A total of six airmen were killed and a third was injured in an aircraft which was destroyed. A Greek Cypriot, a member of the Staff, was also killed in the blast. The R.A.F. has announced that it will replace the Cypriot workers with British airmen.

Indians disturbed by military rule in adjoining States

THE advent of military rule in Pakistan and India has shocked the Indian community in Pakistan and has led to a re-examination of the roots of democracy here taken hold in their own country. The Indian community in Pakistan is 'anxious' as to what the future of the country may be under military rule. Many other people in India are seriously asking 'Can it happen here?'

The army take-over in India and Pakistan is the result of a series of political and military events. The army has taken over in both countries with the intention of restoring democracy and stability. The Indian community in Pakistan is concerned about the future of the country and the role of the army.

Pertinent question
The question is whether the military rule in India and Pakistan is a necessary step towards the restoration of democracy. The Indian community in Pakistan is asking this question and is looking for answers.

## THE FINAL TEST

The pot still over the world is a symbol of the millions of people that exist and prosper that only a good cup of tea can provide. And the final test of the tea is only the cup—the final judge of taste, the average man and woman who drink it. Their choice will determine the future progress of the tea and growing tea industry—the success of which is already firmly established.

Farrell Lines help to increase the exports by providing an efficient, regular service to the United States—where tea is the most popular beverage—and a firm insurance to the United States.

Handled throughout with the utmost care and attention that makes all the difference in the world to the tea lover's satisfaction. In addition, the service is provided by the most expert sailormen, the finest and most modern ships, and the most experienced and efficient crew.

# Governor to open nursing home for all races

NEW VENTURE AT PARKLANDS

**PARKLANDS** Nursing Home, Nairobi, the first venture of its kind in East Africa, built and run by private enterprise and with no motive other than to benefit members of all races will be opened today by the Governor of Kenya, Sir Evelyn Baring.

The building, two and a half stories high, is a fine example of modern architecture and is situated in a beautiful garden. It is a well-planned and well-equipped institution for the care of patients of all races.

The building is divided into two stages. The first is the present building, which is a well-planned and well-equipped institution for the care of patients of all races.

The second stage, when completed, will provide 100 beds for medical, surgical and maternity cases.

### URGENT NEED

The need for a nursing home had been recognized for a long time and it was only a matter of time before a first-class nursing home was built in Nairobi.

### APPOINTED TO LEAD STAFF

The appointment of Mrs. J. K. Doshi as the first head nurse of the Parklands Nursing Home is a significant step towards the development of nursing in East Africa.

### FULLY EQUIPPED

Each of the two operating theatres is fully equipped with the latest surgical appliances and shadeless lighting.

The labour ward will have the latest gas-and-oxygen apparatus and an oxygen tank, in addition to the apparatus for the care of patients of all races.

### ROOM TO EXPAND

Considerable staff quarters have been built, a few hundred yards from the main building, and it is believed that they will not interfere with any future expansion of the home.

The staff quarters comprise six rooms for the nurses and six for the orderlies, and a kitchen. It is a well-planned and well-equipped institution for the care of patients of all races.

A large proportion of the building is being built by the Government of Kenya, and it is believed that they will not interfere with any future expansion of the home.

During the day I spent most of my time 'cooking cultures' in the laboratory home at night, I took food in packets, water in tins, and a small stove for the hot pots, flambes.

I had it very pleasant to sit in the sun with two French who really appreciate a good meal and afterwards like to sit on the rocking chairs with coffee and papers, just talking and enjoying each other's state. Express 555 cigarette.

**GROCCER'S BILL: U.K. £12 - KENYA £30**

From every inch of soil that grows in England, I have seen a few years ago it cost more than twice as much to produce the crops as it does now. The fact that the prices of the crops are now so high is due to the fact that the cost of production is so high. The cost of production is so high because of the fact that the cost of production is so high. The cost of production is so high because of the fact that the cost of production is so high.
