Mixed reception at airport for returning delegates

KENYA'S SEARCH TO INDEPENDENCE

Mr. Blundell says it is 'close on horizon'

More than 2,000 people gathered at Nairobi Airport yesterday for the departure of about half the 50 delegates from the constitutional conference in London.

The leaders of the New Kenya Group, Mr. M. Blundell, had a mixed reception as he walked from the aircraft, a European, shouting through a megaphone from the waving base, said: 'Congratulations, Mr. Ngala, you have stood by your people, but you, Blundell, have stood by your people.'

Africans in the crowd immediately retorted: 'Mr. Blundell, you get out of Kenya if necessary. This is an African land and you don't need to worry about anyone else. You are all right.'

Cheerful crowd

Soon afterwards, as Mr. Blundell was waiting across the entrance hall, a group of Europeans made derogatory remarks and Maj. L. B. Hargrave, a European, shouting through a megaphone from the waving base, said: 'Congratulations, Mr. Ngala, you have stood by your people, but you, Blundell, have stood by your people.'

Africans in the crowd immediately retorted: 'Mr. Blundell, you get out of Kenya if necessary. This is an African land and you don't need to worry about anyone else. You are all right.'

Red carpet too long for the President

President Kenyatta's arrival yesterday, marking the beginning of the new era of independence, was greeted with a red carpet that was too long for the President. The carpet was laid out from the airport to the State House, and the President was seen to be uncomfortable as he walked on it.

WEST POWERS CONCERNED AT BONN PLAN FOR SPANISH BASES

CONCERN and uncertainty were the reactions produced in Western capitals yesterday by Press reports that West Germany was seeking military bases in Spain.

In London, the Foreign Office spokesman declined to comment on the reports, but a 'highly tentative and preliminary' approach about the furnishing of Air Force training bases on Spanish soil—this observation was based on information supplied by West Germany.

The State Department in Washington also offered three objections to the establishment of bases in Spain, according to the reports. These were: (1) the military arrangement would be a breach between West Germany and the United States; (2) the arrangement might lead to a rearmament of Spain; (3) the arrangement might lead to a rearmament of Spain.

Latest U.S. rocket for Germany

GENERAL TWINING, chairman of the United States Joint Chiefs of Staff, has confirmed that the US plans to send 600-milligram 'Mace' missiles to West Germany.

This statement was made in secret testimony to the Senate foreign relations sub-committee on February 23. The testimony, in a 15-page document, was released yesterday.

The 'Mace' is a guided surface-to-surface missile capable of carrying either nuclear or conventional warheads. It is designed to be launched from a submarine.

"MACBETH" NOT AT GLAMIS

I HOPED that Mr. Masise-Blomfield might have written about your copied paragraph, stating that Shakespeare's Macbeth was staged at Glamis Castle. I am sure there has not been any word there, but I would be glad to state that after reading your article, there seems to be no doubt that Duncan was murdered in the castle at Glamis, and not at Glamis Castle in the north of Scotland. I am sure that Mr. Masise-Blomfield has done his best to make his case, but I am sure that the truth is that the murder of Duncan was committed at Glamis Castle, and not at Glamis Castle in the north of Scotland. I am sure that the truth is that the murder of Duncan was committed at Glamis Castle, and not at Glamis Castle in the north of Scotland.

Maasi and the Arabs. This is understandable, because it fears the consequences of not doing so from the people who are not, actually, their own subjects. I am sure that the British Government desires to legislate the entire and press for independence. I am sure that the British Government desires to legislate the entire and press for independence. I am sure that the British Government desires to legislate the entire and press for independence.

FAR EAST COMMONWEALTH BASE NEARS COMPLETION

East African Standard KENYA WHITE PAPER

The White Paper containing a report of the London constitutional conference and Mr. Macleod's decisions will be laid before the Kenya Parliament and, inevitably, approved by the Kenya Legislative Council.

So far by tomorrow the people of Kenya will know what the British Government has in store for those who have followed Kenya's constitutional path. The White Paper is already so general in its content that it is not clear whether or not the African people will be satisfied with it. It is, however, a step towards the future of Kenya. The White Paper is, in fact, a step towards the future of Kenya. The White Paper is, in fact, a step towards the future of Kenya.

ONE of the most important British Commonwealth bases in the Far East is nearing completion on the outskirts of Malacca. It was there, where Portugal soldiers, the first Europeans to reach that country in 1482, adjoining a peasant swampland.

With the surge warfare over other soldiers from the East, the Commonwealth soldier has been made their headquarters.

Further north, at Taiping and other soldiers from the East and New Zealand have made their headquarters.

Two stark aspects of safeguards

There are two stark aspects of safeguards which will have to be considered before the Kenya Government can be fully satisfied with the results of the London conference. The first is the question of the safeguards for the African people and the second is the question of the safeguards for the British people.

New era opens in Kenya politics

STATEMENT OF FINAL AIMS WELCOMED

CONFIDENTIAL declaration and supremacy had been broken down in Kenya and the Government had been forced to make a complete revision of its policy. The leader of the African delegates to the London conference, Mr. R. G. Colony, yesterday said the political objective had been declared in no uncertain terms. The question of direction and destination should have any fears and in this connection he said the African Elected Members had issued a policy statement throughout the deliberations of the conference. He told questioners that there was no reason why the African Elected Members had issued a policy statement on land. Reviewing the results of the conference throughout the deliberations of the conference with one voice.

Ministries accepted K.N.P. leader

The Minister in the Kenya Government has been asked to accept the K.N.P. leader's statement of aims. Mr. Kenyatta said the Government would accept the K.N.P. leader's statement of aims if it was found to be in line with the Government's policy.

What the delegates had achieved was far in excess of expectations, but a big stride had fallen short of going to be independent under the rule of the majority party in the Government. The statement of aims was a landmark for the K.N.P. as a political party. It was a statement of aims for the party and its members.

HOMEWARD TREK BEGINS

Groups hold final Press conferences

London, Tuesday night (Continued)

THE exodus from London began today, but not before a last word at Lancaster House from the African Bloc Members.

Most of them gathered for a Press conference, but a notable absentee was Mr. T. J. Mboya.

Tension and resentment over Mr. Mboya's publicity prominence is openly discussed during the conference — is now uncontrolled.

Mr. B. C. Ngila, leader of the African delegation, expressed their strong feeling and surprised that Mr. Mboya's absence should be for Mr. Mboya as the leader.

"Strong influence"

Mr. Ngila said there has been no suggestion that other members should leave Kenya, although he will emphasize that colonialism will leave no country as it was got home.

He is the only person who has been able to be found contemporary for the Government to use his powers of communication as it was the African Bloc.

On subsequent news of the Government now "we shall continue to how good will to all who will give their full and right political attitude towards independence."

Positive line

In the afternoon the African Bloc held Mr. Mboya's a short statement of their policy on the local front.

Mr. Mboya, who has emerged with greater stature from the conference, took a more positive line. He stated that there were differences among the African Bloc Members, but that these differences were not insurmountable and the African Bloc would continue to work with their divergent views of various arrangements and definitely a credit to Mr. Ngila.

He said that the only person who has been able to be found contemporary for the Government to use his powers of communication as it was the African Bloc.

"Sincere politics"

Mr. Mboya said that for the first time in his political career he had come out in favour of the African Bloc. He said that the African Bloc was a group of sincere politicians — men who looked to a wider Kenya than their own community or tribe.

He said that within the day of the next Legislature, the African Bloc must serve the post-war Minister.

National parties

Dr. J. C. Kioko expressed his confidence that the African Bloc would be able to form a Government in Kenya, he said.

The African Bloc was disappointed.

Mr. Mboya was unable to release Kenya's independence. He said that the African Bloc would not be influenced by any particular group or individual. He said that the African Bloc had completed their work.

It was to be hoped that the Government would be able to register national political organisations without the need to work the machinery of the British Government now.

Dr. Kioko agreed to be responsible to the Government. He said that the African Bloc would continue to work with their divergent views of various arrangements and definitely a credit to Mr. Ngila.

Protect your engine with Shell Multigrade

Yes! A motorist could easily press into-line cracks upon his pump by using oil that has generated in his engine! Steam-laid pistons operate at considerably less than the 342°F. that car engine components can stand on long, low drives.

Just imagine how tough your engine oil must be to lubricate efficiently under such prevailing conditions! That's why Shell has developed that revolutionary Shell X-100 Multigrade Motor Oil. Unlike ordinary oils, Shell X-100 Multigrade flows, even on the hottest drives. It's an oil of temperature oil-smooth-flowing for easy starting and quick warm-up, super-tough for the long, high-speed run. Prevent its pump.

HAMILTON REFRIGERATORS are plastic-cased to hold the COLD

SUPER T M

HAMILTON PLASTIC-FRONTED Refrigerators are made of a durable and slip proof plastic on a steel frame. Since plastic has a heat conduction factor 50 times lower than steel, Hamilton refrigerators not only retain the cold better than steel-cased refrigerators, but are naturally better at repelling outside heat, factors which make them ideally suited for a tropical climate.

WEST INDIES FOILED BY TRUAMAN

First double gold medal in Olympics

Runner refused: Apology by May

PETER MAY, England's captain, apologised to the West Indies' skipper, Jerry Alexander, and their batsman, Rohan Kanhai, after the third Test for refusing to allow Kanhai a run between the wickets for any player who may during the match be unexpectantly blown off his feet.

The opposite captain's permission was not needed, because Kanhai was not injured. The law may now be applied to any player who may during the match be unexpectantly blown off his feet.

Urgent discussions as tension grows on frontiers

ISRAEL CALLS IN BIG FOUR ENVOYS

Egypt said to be moving up troops

Institute an act of faith in Kenya's farming

ISRAEL'S Foreign Minister, Mrs. Golda Meir, was yesterday continuing her urgent discussions with Western and Soviet ambassadors on the reported build-up of United Arab Republic troops on the Sinai and Syrian frontiers.

She has met the British envoy, Mr. Patrick Hancock, late on Thursday night, and yesterday had the American, French and Russian representatives call on her.

The build-up was reported by later newspapers yesterday to involve the movement of two Soviet-equipped divisions, one infantry and one armoured, into areas from the Suez Canal area—the largest military move from Egypt since the 1956 Suez crisis.

The opening of the Wellcome Institute for Research on Foot-and-Mouth Disease near Nairobi, represented another clear advance in agricultural efficiency in Kenya.

The Governor of Kenya, Sir Patrick Bannister, said the institute was to be opened in Nairobi on Monday.

Denied by U.N. official

Usually reliable Israeli sources added that Egyptian and Israeli forces in the Gaza Strip had been kept at a standstill for a long time since the 1957 Israeli withdrawal. But this was denied by a spokesman for Mr. Hammoud, the United Nations Secretary-General.

The Gaza Strip is administered by men of the United Nations Department responsible for the area in New York, that while there had been some 10,000 troops in the Gaza area, there was no evidence on file of a large buildup, and the Gaza Strip had not been penetrated.

Death roll of 87 in two air disasters

At least 87 people were believed to have died in two air disasters—one at Shannon Airport, in the Irish Republic, and the other in a mid-air collision over Guusambay Bay, Brazil. Yesterday the death toll was still mounting, while other passengers lay critically ill in hospital.

The number of people killed in the crash of a New York-bound Italian airliner at Shannon stood last night at 27, with two others missing and six survivors. Many survivors were reported to be in critical condition.

A first official list of passengers aboard the ill-fated Italian listed 87 as having died. The United Nations claimed three of them children. The only other confirmed death was that of a stewardess person. The crew of 12 were all Italian.

Evinrude

right behind you!

with the best outboard engine for YOUR boat

"THROW AWAY THE OARS" — this was a bold announcement made by the Evinrudes in 1909. It was a tremendous stride in the advancement in the propulsion of small craft. Since then, Evinrude outboard engines with their powerful, silent, smooth operation have gained the highest reputation for value for money and utmost dependability. It support we carry a full range of spares and the following is an example of the service we offer, particularly at our Mombasa branch. There is a test tank with test propellers available for anyone wishing to load after servicing and storage facilities for anyone wishing to lay up their engines. The service includes cleaning, servicing, preparing engines for storage and preparing engines for use and fitting prior to delivery. All special tools produced by the Manufacturers are available for the correct and fastest possible after-sale service.

Final fling for two-year-olds at Nakuru today

THERE will be no race under National Hunt Rules at Nakuru this afternoon, writes "Black and White". The first meeting of the new season will be at Nairobi on March 3. But today's seven races under the old Rules at Nakuru should be good enough to show that the two-year-olds are still in good form.

PROBABLE RUNNERS

PROBABLE runners for the afternoon's seven races at Nakuru are: 1.20. 100 Yards Hurdles: J. A. Martin, J. M. ... 1.20. 150 Yards Hurdles: J. A. Martin, J. M. ... 1.20. 200 Yards Hurdles: J. A. Martin, J. M. ...

Should be fine race

There is a good chance of a fine race in the 100 Yards Hurdles, writes "Black and White". The race is expected to be a close one.

CHATHAM SCORES AT NAKURU

TWO-YEAR-OLD farm in Kenya was proved on Saturday at Nakuru when Mrs. V. Jackman and Mr. P. H. Curtis's boy gelding, Chatham, enhanced his reputation—and prospects for the new season's class—by scoring his fourth success in hunt style from Mrs. A. C. Hoey's nine-year-old filly, Regatta, in the seven-furlong Sir All Bir Salm Plate.

Chatham's length victory was all the more creditable for Regatta, whose record until Saturday had been three smooth wins at Nakuru, in receipt of three group, one Derby, and two championship laurels, and who was highly commended in the opening.

Advised to go away to a breeder, with Blackall, Chatham and Regatta followed by Deering Fine, Bush Babay and Lewney, with Sherwood kept an immediate starter.

The order was pretty much the same until the home straight when Alabaster was seen to favour and Blackout took over. With the turning left, Chatham and Regatta went forward more, passed Deering Fine and took the lead. Regatta's driver took Chatham to the front and although Regatta came with a burst to regrettably Blackout, Chatham and Regatta were well ahead.

ASIANS SHOCK GOANS

BIGGEST surprise of the Overseas hockey tournament was the defeat of Goans, strong challengers for this year's honours, at the hands of Asians by 2-1 at the City Park Stadium.

Although Goans had the upper hand for some time in both halves, the Asians, who were coached by the late Mr. G. A. Grant, fought back to score a goal.

As a result of their defeat Goans have not only lost the chance of heading the table, but may also lose second place in the playoffs, the Indians, having a game in hand on that team.

First victory

Highest man of the day, however, was the French-born, 11-year-old, bay gelding, Regatta, who was ridden by Mrs. V. Jackman. After a successful start, she made some mark with her mare in the first round, but it was in the second round that she showed her true form. She was ridden by Mrs. A. C. Hoey, who was also successful in the first round.

Regatta's driver, Mrs. V. Jackman, was also successful in the first round, but she was unable to repeat her success in the second round.

Hard tackling

Grant took the lead in the 15th minute through A. de Souza and Mustafa equalised for Asians from a penalty corner just before half-time and Goans never recovered from this scoring.

Hard tackling by the Asians, however, did not despite Goans' best, but they were unable to score again.

Surprise of day

Surprise of the day was the defeat of Regatta, who had scored his fourth success in hunt style from Mrs. A. C. Hoey's nine-year-old filly, Regatta, in the seven-furlong Sir All Bir Salm Plate.

CASTLES IN SPAIN

BASICALLY three main factors have joined to give rise to the outcry over West Germany's plan for establishing military supply depots in Spain. The first is a general feeling of uneasiness about the West Germany in a European context. Although the West German Government has been pointing out that the depots are necessary for the defence of the German Federal Republic against the East, this has not been enough to allay the fears of the other European powers. The second factor is the fact that the depots are to be established in the Basque region, a region which has a long history of separatist movements. The third factor is the fact that the depots are to be established in the Basque region, a region which has a long history of separatist movements.

The second is the unorthodox and enthusiastic manner in which the Defence Minister, Herr Strauss, went to see the Basque people to explain the depots. The third is the fact that the depots are to be established in the Basque region, a region which has a long history of separatist movements. The depots are to be established in the Basque region, a region which has a long history of separatist movements.

EVEN WRITES OF SUEZ DILEMMA

RAMALO MACLENNAN reviews "Full Circle," the memoirs of Sir Anthony Eden, which are published today.

From one point of view it is a pity in the leading nation of the West. A preacher in a world of the 1950s had little regard for the past. Sir Anthony Eden, as demonstrated by the memoirs, was a man who was not averse to the virtual disappearance of the British Empire. He was a man who was not averse to the virtual disappearance of the British Empire.

Some commentators have said that the memoirs are a political document. They are not. They are a memoir. They are a memoir. They are a memoir.

Riot squads in action after meeting

CROWD'S MARCH ON CITY CENTRE TURNED BACK

FERVENT crowds, waving banners and shouting slogans greeted Mr. T. J. Mbiya and Dr. J. G. Kiario at Nairobi Airport and at a mass rally in the Doornbos Road, when the two Members returned to Kenya on Saturday from the Constitutional conference in London.

The good humour of the crowds, which at the stadium totalled more than 20,000, was marred later in the day as they streamed away from the stadium towards the city.

The police tried to turn them back from their march but they used tear gas and made banners charging force them to take a route back to the African housing area.

INCIDENT 'UNNECESSARY'

One man was taken to hospital with injuries received during this incident, which Mr. Mbiya described as a 'ventrally unnecessary'. He said that whatever the misunderstanding which caused the crowd to use the tear gas, and the beatings which occurred, they are also not meet the expectations of our people. We are also confident that the results of the conference will be looked on as the first step towards freedom and independence.

Mr. Mbiya on the question of the withdrawal of British troops from Kenya said that the conference has begun to make a decision on this matter. He said that the conference has decided that Kenya should be free and to have a Government elected on a majority basis.

We regard the present position as a step towards the achievement of our aims. We are confident that the conference will lead to a settlement of the present situation which will be to the benefit of all.

The alternative

He added that there was no alternative to the conference in Kenya for Group Captain Briggs and his followers. He believed in a peaceful settlement of the present situation and that the conference was the only way to achieve this.

Officials visiting Kenya

BRITAIN COULD REVOLUTIONISE BEEF EXPORTS

Kenya's beef export industry would be "revolutionised" if visiting British Ministry of Agriculture officials were favourable to their investigations into the rinderpest problem and British as one of the Colony's markets for this produce.

The Chairman of the Kenya Meat Commission, Mr. J. M. King, said this on his return from Britain on Saturday. He thought that once it became known that Britain was a high-grade market and would bring a far better price for Kenya producers.

It was hoped, particularly, to find out whether the British Government would be prepared to accept a higher price for Kenya beef exports for this was a high-grade market and would bring a far better price for Kenya producers.

Mr. King said that while in Britain he had met the Minister of Agriculture and the Secretary of State for the Colonies and had discussed the possibility of a higher price for Kenya beef exports for this was a high-grade market and would bring a far better price for Kenya producers.

Trail of death and destruction cuts across island MAURITIUS PARALYSED BY CYCLONE

Britain sends cruiser on mercy errand

SEVENTEEN men were sentenced to death at the Mauritius Court of Appeal yesterday for the murder of Mr. J. John Williams, of Lamuru. Two other accused were acquitted.

The judge presiding, Justice J. J. Williams, said that he had to say that the evidence against the accused was so overwhelming that he was satisfied that they were guilty of the crime.

A DEATH roll of at least 30 was reported last night after cyclone "Carol" swept through Mauritius at the weekend. More than 100 others were reported injured.

Thousands became made homeless and electricity, telephone and water services were thrown into chaos by the worst cyclone to hit the Colony since 1892. About half the houses in Port Louis, the capital, were reported to have been badly damaged or destroyed.

Gusts of 150 m.p.h.

The British cruiser Gambia, put forward its departure from Trincomalee, Ceylon, by a day in a mercy errand, carrying provisions and medical supplies to the stricken island, which had been lashed by 110 m.p.h. gales at Mauritius as the stand was still restoring the devastation of typhoon "Alice", which made 21,000 homeless in January.

The last howling winds of the cyclone rained southwards across the Indian Ocean. It took more than a four days to drive the 12 miles across the island by Port Louis over banks littered with torn-off branches and the wreckage of buildings.

Bases talks continue

The British Colonial Under-Secretary, Mr. Amery, had a meeting in Geneva with Archbishop Makarios and other Greek and Turkish Cypriot leaders.

An official statement said that the talks were continuing and that the British will establish an independent Republic of Cyprus.

Both Greek and Turkish Cypriots have agreed to accept the terms of the Geneva talks. The British will establish an independent Republic of Cyprus.

Princess Margaret

Princess Margaret and her fiance, Lord James of Wessex, arrived in London yesterday for an extra day at Windsor on the occasion of the celebration of the coronation of Queen Elizabeth II.

The Princess and her fiance were accompanied by the Duke and Duchess of Edinburgh.

Repair materials

Britain has promised to supply 200,000 tons of repair materials to help restore the damage caused by the cyclone in Mauritius.

The materials will be used for repairs to roads, bridges, and other infrastructure.

Arrests in clashes at trade ban rally

EIGHT men were remanded on bail and three were fined yesterday, in connection with disturbances after a mass South African trade ban demonstration in London on Sunday.

Fighting broke out between supporters and opponents of the ban on South African goods throughout March and the campaign had been launched by Mr. Gaitskell, the Labour Party leader before a group of 100 in Trafalgar Square.

Labour Party men and Members of the House of Commons clashed in a riotous scene on Saturday night when they gathered to protest against the ban on South African goods.

MAGISTRATE OR CORNER

SO much remains to be done in Kenya, and so many vacancies to be filled in this public service, and so many posts which could be filled by the outstanding force in the country...

There is a good deal of substance in what Dr. Dockery said, verified by the experience made in this country by members of the public when they are invited to public hearings...

The lack of the support of the public in Kenya, on the English pattern, is one of the major reasons for the failure of the Government...

Difference of roles in U.K. and Kenya

The practical difference between the two is that a magistrate here is required to inquire into the circumstances of a crime...

It is the duty of the coroner to inquire into the cause of death, whereas the magistrate is concerned with the guilt of the accused...

The coroner's jurisdiction is limited to the investigation of the cause of death, and the report to the magistrate is a factual statement...

Pledge on Coast strip given by Mr. Macmillan

Standard Correspondent
MR. MACMILLAN gave a personal assurance that the Kenya Protectorate will be returned to the British Government and the Mabariki Sultans and Sultan of Zanzibar, Sheikh Mabariki Makani, and when he addressed a public meeting in Mombasa. About 100 persons attended the meeting which was also addressed by Mr. Shariff M. A. Shariff.

BATTLE OF WORDS IN OXFORD ELECTION

BENEATH the dramatic display of Oxford an agonizing battle is raging which will end in the election next week of a new Chancellor of the University.

There are two prominent candidates for the post of Chancellor of the University, Sir John Peel and Sir Robert Carr. Sir John Peel is a member of the Conservative Party and Sir Robert Carr is a member of the Labour Party.

Not satisfied
There was a gentlemanly personal assurance that the Kenya Protectorate will be returned to the British Government and the Mabariki Sultans and Sultan of Zanzibar, Sheikh Mabariki Makani, and when he addressed a public meeting in Mombasa. About 100 persons attended the meeting which was also addressed by Mr. Shariff M. A. Shariff.

Great dice
The game of high dice is a game of chance and skill. It is played with a pair of dice and a board. The player rolls the dice and moves his pieces according to the numbers shown. The game is played in many parts of the world.

Disappointing jazz for enthusiasts

A disappointing jazz performance was given by a group of enthusiasts at the recent concert. The music was not to the liking of many of the audience.

MAN KILLED AS HILL FALLS

Parker applies plants' life force to make world's easiest filling pen

PARKER'S DRAWN UP LIKE A PLANT DRAWS UP MOISTURE

FEELS ITSELF—BY ITSELF

The age-old time-expiring "barrel" pen has been replaced by the Parker. The Parker is the only fountain pen that draws up its own ink. It's so simple, you can take it every day if you need it. I always keep a packet backstage—you'll never catch me without my 'Aspro'.

CREANS ITSELF

The outside surface of the capillary unit is liquid-repellent. After filling, remove it slowly from the ink and let it set so no ink will be necessary.

REASSEMBLES ITSELF

Once set in the Parker, it will never get it out! Even when half empty there's no time in the setting sand.

INDIA MAY SET UP RADAR SYSTEM ON HIMALAYAS

SOME of the 11 per cent increase in India's defence spending, announced in the Budget, may be used to buy an extensive radar warning system for the Himalayas and India's first guided missiles, according to political quarters in New Delhi.

The article speculated that it is the talks between the Indian and Chinese Prime Ministers, Mr. Nehru and Mr. Chou En-lai, in April, that will provide a better settlement. The Finance Minister, Mr. Desai, might ask Parliament for a further increase in defence expenditure.

The defence budget, at about £2,500 million, being about 11 per cent of the total budget. The total budget for 1949-50 was about £22,000 million.

Mr. Desai told Parliament the mobilization of resources required for the new programme.

Mr. Desai said foreign aid, in the form of "special external assistance" and "soft loans," would be used.

The availability of foreign exchange in the next few years will be "modest," but he felt the needs of developing countries were "increasing rapidly."

Mr. Desai said foreign aid in India last year was about £21,000,000, or 10 per cent of the total.

Mr. Desai said that the Government would be "increasing its defence and development outlays" and that "certain other aspects would be increased."

Treaty soon on Indus waters

The World Bank has said that the construction of a dam for the construction of a treaty on the sharing of the waters of the Indus River is expected to be settled within the next few months.

The treaty, which will follow 10 years of negotiations under the auspices of the Bank, will provide for the development of the Indus River basin.

The United States Government has said that it will support the treaty.

'La Traviata' staged by puppet club

ADAPTED as it is from a strongly human drama, La Traviata is one of the least dependent on complex arrangements.

So much the less suitable it is, then, for puppet treatment, which excels in production excitement. This, I think, is the main reason why the latest presentation by the Nairobi Puppet Theatre Club is far less convincing than usual.

The human situations and emotions of Dumas's well-known story require fresh and lively treatment from the puppet maker's dull thing of the moving line.

Neither is the production very well served by the choice of the club's puppeteer, who is being helped by Maria Gallo, who has done a very good job of the puppet work.

Perfect sets

The stage of La Traviata maintains the club's normal standard. The sets, particularly the one for the final scene, are very good.

Violetta is capably manipulated by the club's puppeteer, who is being helped by Maria Gallo, who has done a very good job of the puppet work.

The Uganda Association of Great Britain has announced that it is opposing the Colonial Secretary's proposals for constitutional reform in Uganda.

The Association says that the proposals are "unacceptable" and "unworkable."

Letters to the Editor

A BROOCH WAS LOST

M^r I publicly record a very pleasant episode that happened on Saturday afternoon? A friend and I were at the waiting bus. Two African boys were standing next to me. One of them had a brooch in his pocket. I noticed that I had lost a brooch. I went straight back to the bus stop and searched for it. I found it in the pocket of one of the African boys. I gave it to him and he was very grateful. I may also express — to all Africans — my very great appreciation for the help and assistance given to me by the African Standard.

Definition

I may be desirable to correct the definition of the word 'brooch' as used in the above article. A brooch is a decorative fastener used to hold together the folds of a garment. It is usually made of metal and has a curved shape with a pointed end. It is often used to hold together the collar of a coat or the hem of a dress.

United Party

I am sorry to hear that the United Party is not doing well. I think it is very important for the party to have a clear and consistent policy. I believe that the party should focus on the needs of the African people and work towards their betterment. I hope that the party will be able to overcome its current difficulties and achieve its goals.

Red Indians

I have read with interest the article about the Red Indians. It is a very interesting and informative piece. I am glad to see that the Red Indians are being recognized for their contributions to the community. I hope that they will continue to be supported and their needs met.

Repetition

I have noticed that there is a lot of repetition in the article. It would be better if the author could focus on the main points and avoid repeating the same information over and over again. This would make the article more concise and easier to read.

Red Indians (continued)

I am glad to see that the Red Indians are being recognized for their contributions to the community. I am glad to see that the Red Indians are being recognized for their contributions to the community. AFTER THE EARTHQUAKE

FROM the north-west seaboard of Africa comes a nerve-racking story of devastation and chaos as hundreds of people perish with their possessions in a giant bolt that strikes the god earth in what might seem a calm day. The hopes and prospects of simple people are buried in the awful debris of earthquake.

A quake of a disaster as grim as that which convulsed Lisbon about 200 years ago.

They neither stifle with few responsibilities and savage fury. But they are not so much as the victims of the earthquake. They are not so much as the victims of the earthquake. They are not so much as the victims of the earthquake.

Snatching sanity from havoc

In these sudden tremors — and the rest of earthquake tragedies around the world — the sympathy of the entire world goes out to the victims. The sympathy of the entire world goes out to the victims. The sympathy of the entire world goes out to the victims.

The state of the Commonwealth AUSTRALIA, TOO NEVER HAD IT SO GOOD

AUSTRALIANS have entered the 1960s with a sense of adventure and a feeling of optimism, encouraged by prosperity and expansion.

Ten years ago the country faced a bleak future of poverty, inflation and short-term emergency measures.

TERENCE DOWNEY continues our weekly series on how the nations of the Commonwealth stand at the start of a new decade with a report from Canberra.

Today some indicators remain but most of the other boys have gone. The population has been increased by 10 million from Britain and Europe. Living standards have risen above the world's highest.

OUTPUT FIGURES

A few statistics illustrate the general climate of expansion —

1. Production of electrical power has more than doubled in ten years to 22,326 million kilowatt hours in 1959.

Mr. Downey and his wife returned on arrival in London last year's report by the Australian Prime Minister that Australia has the most advanced economy in the world.

2. Production more than tripled to reach A£11,000,000,000 in 1959. The number of factories producing more than 100,000 units during the year rose to 3,190.

3. Production more than tripled to reach A£11,000,000,000 in 1959. The number of factories producing more than 100,000 units during the year rose to 3,190.

BUILDING BOOM

Stony's Mayor Mr. Barry John Forrest, a 1960s architect, has built buildings in the city during the past year. The city has a record of building activity.

Significant Trend

But perhaps the most significant trend in Australia has been the rise of private ownership in Australia. This has led to a new wave of industrial development.

Mr. Menzies and his wife returned on arrival in London last year's report by the Australian Prime Minister that Australia has the most advanced economy in the world.

UNDER THE CLASH Help promised for deaf and dumb

PROMISES of help for the Kenya Society for the Deaf and Dumb were given by Mr. J. H. Hughes when he was in London for the Commonwealth Conference.

The New WOLSELEY

15 60

MORE PEOPLE than at any time have passed for a luxury motor car. They don't possess one is due to that unfortunate production method of the British Motor Corporation have brought the Wolseley 15.60 into the modern age. The discriminating motorist will find that the Wolseley 15.60 is a very reasonable price to pay for a motor car that is the exponent of traditional luxury. The Wolseley 15.60 is a feature of Wolseley cars since the beginning of the century. Here expressed so completely, made and built in the old-fashioned way, the Wolseley 15.60 is a new standard in comfortable travel. So many more people will own a luxury motor car than ever before. It is the Wolseley 15.60.

What's over the hill?

One day, there will be something over the hill — something that calls for a straight, worn, sudden stop. It may be tonight on your way home. And when it happens, your life will depend on the condition of your tires.

That's why it pays to be sure of your tires — to invest in Whiteline Retreads before tire wear develops to dangerous points.

Whiteline Retreads give you an extra thickness of rubber, rebounded to the carcass. They give you real peace of mind, even under the roughest, toughest East African road conditions.

K.N.F.U. pressing for fund to cover land value

FARMERS PRESENT LAND CHAPTER

Legislation on a national basis urged

THREE major recommendations are contained in a memorandum on the Sessional Paper on land tenure and control in non-African areas presented yesterday by the Kenya National Farmers' Union.

Copies of the memorandum have been sent to the Governor, Sir Patrick Reardon, and the Minister for Agriculture, Mr. McKenzie. Further copies will be sent to many other people, including all Members of the Legislative Council. The recommendations are—

- 1—All land legislation in Kenya should be embodied in a single Bill covering the whole country.
- 2—Individual title should be granted to non-African areas.
- 3—Finance of the Government is being so strained that it is essential that the Government should be made responsible for the introduction of legislation covering the introduction of a land value tax.

All races in Highlands

The members of the K.N.F.U. M.P. D. Marnan, who presented the memorandum yesterday, said that the Government should undertake the setting of the price of all races on land in the Highlands. He said that the Government should also undertake the setting of the price of all races on land in the Highlands. He said that the Government should also undertake the setting of the price of all races on land in the Highlands.

PREMIER AID PLAN

MR. MACHARIA has proposed a scheme to provide financial assistance to small-scale farmers in Kenya. The scheme is designed to help farmers who are unable to obtain credit from the banks. It involves the Government providing a guarantee for loans made by the banks to these farmers.

Same for all

MR. MACHARIA has proposed that the same rules should apply to all farmers in Kenya. He said that the Government should not discriminate between different types of farmers. He said that the Government should not discriminate between different types of farmers.

Johnson motive

MR. MACHARIA has proposed that the Government should investigate the motives of the Johnson family. He said that the Johnson family had acquired a large amount of land in Kenya. He said that the Johnson family had acquired a large amount of land in Kenya.

Welcomer for merger of airlines

MR. MACHARIA has proposed that the Government should welcome the merger of the Kenya Airways and the East African Airways. He said that the merger would result in a more efficient airline service. He said that the merger would result in a more efficient airline service.

No bases for Bonn. Gaitkell urges

MR. GAITKELL has urged that there should be no military bases in Bonn. He said that the presence of military bases in Bonn would be a threat to the peace of the region. He said that the presence of military bases in Bonn would be a threat to the peace of the region.

Proposal for the Royal honeymoon

Minister to visit Central Africa

A suggestion that Princess Margaret and Mr. Antony Armstrong-Jones should be invited to spend their honeymoon in Kenya was being considered by officials in Nairobi yesterday. An "East African Standard" reader proposed that the couple could visit the Queen Elizabeth Royal Lodge (pictured above) which was built for the Colony as a wedding present to Queen Elizabeth and Prince Philip. The report is in page 5.

Princess and fiancé cheered at the ballet

CREDIT SQUEEZE FEARS IN LONDON

Cometal Export (E.A.), Ltd. With little to create buying interest, the London Stock Markets were in a subdued mood yesterday. Sentiment was adversely affected by a further over-optimistic view on Wall Street and by the view that seems to be growing that a new credit squeeze is not far off. Industries were rather unexciting and steel shares traded lightly. Gold shares provided the one bright spot, recording a boost from the February mining returns.

Most Derivatives, which made history by achieving a gross profit of more than £1 million in one month, were outstanding. Copper appeared to be the most active, and gold shares were quiet.

WHAT will be the world's biggest boiler is to be built for the Central Electricity Generating Board near Doncaster by the British firm of Babcock and Wilcox Ltd. An artist's impression shows the great size. The huge steel structure, weighing more than 2,000 tons and as big as a modern 10-story office building, will include some 270 miles of steel piping. The boiler will supply steam to a 600-horsepower turbo-generator.

Britain buys more from East Africa

BRITAIN'S imports from East Africa in January were worth a total of £2,637,965—an increase of 130,558 over the value of imports in January last year. But British exports to East Africa in the same month were only £1,725,664, a fall of 12,900 from those of January 1949. Kenya, Tanganyika and Zanzibar had more than 100 per cent increase in their exports to Britain. Imports from Kenya were valued at £1,174,014. As compared with £1,174,014 in the month, compared with £1,174,014 in the month, compared with £1,174,014 in the month.

Value of Colony's exports

SOAR

More than 80 per cent of Kenya's total exports for the first nine months of 1953 were valued at £2,200 million, compared with £1,200 million for the same period in 1952.

The major export commodities are tea, coffee, sisal, and cotton. The value of these exports has increased significantly since 1952.

The total value of exports for the first nine months of 1953 was £2,200 million, an increase of 80 per cent on the £1,200 million of 1952.

The increase in exports is due to a combination of factors, including a rise in the price of tea and coffee, and an increase in the volume of exports.

The Government is pleased with the increase in exports and hopes that it will continue in the coming year.

Minister stands by speech at London talks

Mr. N. M. Njoroge, Minister of Works, said that he stands by his speech made during the London talks on Kenya's future.

Pooler hearing continues

ACCUSED IN SHOOTING WAS MANSLAUGHTER

The shooting of a Nairobi house servant by Peter Harold Richard Pooler in October last year was a classic case of manslaughter, the judge said in his verdict.

The judge said that Pooler had acted in a moment of passion and that he was not guilty of murder.

Pooler was sentenced to a term of imprisonment for manslaughter. The judge said that Pooler's actions were a tragedy.

LAST week you published a report to the effect that Nairobi City Council was preparing to test the bearing capacity of the Ngara Road with a 40-ton truck. This is a very important project and one which will have a profound effect on the country's infrastructure.

DEFENCE PLAN 'USELESS' S. Africa

U.K. policy attacked in Nairobi

BRITAIN'S defence arrangements were too lax, wasteful and dangerous in a nuclear age.

This was claimed by Comdr. Sir Stephen King-Hall when he addressed the meeting of the East African Institute of International Affairs in Nairobi.

For Britain, who were returning to the Nairobi controversy about whether to try to defend in Britain.

"We are trying in fact to defend our way of life — an ideal, and the importance of the individual and freedom of speech and expression," he said.

Britain was trying to defend itself by force, but it only had force "to use it".

The armed forces of Britain were no longer in a position to defend the nation — they are "defenceless".

Great nation

"What are we to do? We are spending about £16,000,000 on defence and the Government says the armed forces are able to defend themselves — but not the nation."

The official view in Britain was that the country was quite safe and a new nuclear deterrent was being developed.

By 1967 there would be a new strategic role in the world that would change the nature of international relations.

It was true that Britain was no longer a great power, but it was still a great power.

Britain should make use of its nuclear power, and not just for military purposes.

trade ban starts quietly

ORGANISERS of the British campaign against South African goods which is in protest at the Union's apartheid policy, claimed in London yesterday that support for the campaign was "irresistible".

This was disclosed by London store managers who said that South African goods were being normally marketed but that no one had South African produce.

In one of two London areas South African clothes and cosmetics were specifically sought for sale.

The campaign, which opened in London last week, had been the result of a meeting of the anti-apartheid committee in London, which was held in the city last week.

The goods affected by the ban are mainly fresh fruit, tinned fruit, wine, oil, meat, and South African wine and beer.

No incidents

A spokesman of the London cooperative society, one of the biggest traders in the city, said that he had received no reports of any incidents in London.

The spokesman said many of the South African goods had been separated from other goods and had been sold.

At present, the London cooperative society, which is one of the largest in the city, has reported that it has received no reports of any incidents.

The wholesaler, Mr. N. M. Maitland, said that his firm had received no reports of any incidents.

COUNCILLORS NOT ABLE TO SPEAK ON RENT RISES

AFRICAN members of Nairobi City Council were ruled out of order at the council's meeting on Tuesday night when they tried to speak against a proposal raising rents.

The council, which opened in Nairobi last week, had been the result of a meeting of the anti-apartheid committee in London, which was held in the city last week.

RUGBY TO BE REVIVED IN RUSSIA

ONE NEW CAP FOR WALES

WELSH Rugby Union selectors have brought in one new cap, Brian Davies of Newport, for the Wales side to meet Ireland at Dublin on March 12.

Normally an outside half, Davies will play at centre, replacing Geoffrey Whelan, who played against England last Saturday at the same position in the last Scotland at Cardiff last month.

The team for N. Morgan (Newport), F. Cole (Newport), M. Pines (R.A.F.), B. Jones (Newport), D. Bech (Newport), I. Adkins (Aberystwyth), G. Paine (Aberystwyth), J. Cunningham (Aberystwyth), G. Jones (Aberystwyth), H. Jones (Aberystwyth), G. Whiston (Newport).

Springbok's first win in Britain

BENNIE TAYLOR, the South African Johnny, again supported John Howard of London, at the eight-round contest at Storrhead, 7 to 6, with the English holding the Southern Area Featherweight title.

It was Taylor's first win in three months in Britain.

Taylor the boxer proved far more in tune for Howard, the number who never was managed to land the one that mattered.

Howard's amateur boxing career was over in the early days of the war, but he had enough left in reserve to meet Howard's punch for much of the fight.

Howard contributed to his own defeat by a complete lack of defence. There was a lot of cutting and jabbing, which had the effect of making Howard's defence of his title.

New Zealand makes Australians struggle

THE Australian touring team had to struggle to avoid a defeat before their first Test match with the New Zealand on the fourth and final day yesterday at Christchurch. Set to make their first Test victory at the end of a run a minute, the Australians were ahead of the New Zealand by their second innings at the end of the day.

But, in the end, the New Zealand batsmen were able to take the match home by taking 115 runs in the second innings.

Shared the wickets

The wickets were shared by the New Zealand batsmen in the first Test match at Christchurch. The New Zealand batsmen were able to take the match home by taking 115 runs in the second innings.

Plans to play against foreign clubs next year

RUGBY Union football is being revived in the Soviet Union. Russian enthusiasts hope they will be good enough to meet foreign clubs by next year.

Mr. Ivan Zubov, chairman of the Soviet Rugby and Football Sports Society, has planned Rugby courses in various parts during April.

The idea is to put over a course in a fortnight intensive course which will be followed up by a tournament in Moscow during September.

Mr. Zubov comments: "If Russian youth want plenty of Rugby we will certainly provide the facilities. The teams playing at present have a lot of enthusiasm and a good idea of the game."
