

Mr. Macleod speaks on challenge in Kenya

SAFE AS NOT FIRE ANSWER

Acceptance of rights for all citizens urged

Kenya's new Constitution must incorporate safeguards for the minorities — yet valuable as these were they were not the true answer, the Colonial Secretary, Mr. Macleod, said in Glasgow.

The true answer could only come from an attitude of mind that believed a man should have rights as a citizen and not because of the colour of his skin.

This attitude of mind would accept as the natural heirs of the rights of every man to live and prosper and share in the administration of his country.

Mr. Macleod was speaking at a Conservative meeting in Glasgow in preparation for the Central African election. He spoke, however, mainly about developments in Kenya, where he is due to make a short stop en route to the Federation.

Talks with Governor

He is due to arrive at Nairobi Airport at 1.30 pm, and will have talks with the Governor, Sir Philip Murnaghan, before continuing his journey to Salisbury at 4.30 pm.

Mr. Macleod said it was in multi-racial countries that the most marked — tensions that were not only political but sometimes economic, racial and social in well advanced countries.

Yet from these different threads we must weave a nation. Kenya has and will need of a man for European skills, especially in farming, which sustains the whole of the Kenya economy. We will need also of Asian experience in the handling of the Arabs and Somalis and the other races and communities that live in Kenya.

Decision on Ministries deferred

The task he faced in the Central African Federation was immensely difficult — but not insurmountable. He was determined to do his duty to the best of his ability.

There was much to be learned from the experience of other countries, particularly from the United States, where the Government had been able to bring about a peaceful transition of power.

Steady nerves

Mr. Macleod's nerves were steady throughout the day. He was confident that the new Government would be able to bring about a peaceful transition of power.

UNITED PARTY BACKS KENYA COALITION PLAN

Full collaboration with Sir Ferdinand Cavendish-Buntick in his endeavour to encourage a united European front and the concept of bringing together other minorities and tribes was promised by the United Party yesterday.

In a statement, the party said as the result of the outcome of the Lancaster House conference it was clear that it would be unrealistic in present circumstances to press for the introduction of its past policy relating to the Constitution.

The party said it would support the introduction of the new Constitution, but it would not support the introduction of the new Constitution.

Gun attack on Jordan airliner

The plane was badly damaged and several passengers were injured. The plane was forced to land in a nearby area.

Police open fire again in Cape Town

Police opened fire again yesterday to disperse scattered mobs which assembled in the riot-torn streets of Langa Township, near Cape Town. Latest casualty figures for Monday's clashes in the Union were 80 Africans dead and 186 injured.

Heavily armed police using Saracen armoured vehicles were yesterday patrolling the three big African townships near Johannesburg. An uneasy silence hung over the township — Sharpeville, Bophalemphe and Bopeleng. About half of the African labour remained in the open squares and in street corners.

QUESTIONS CONTINUE AT GENEVA MEETINGS

IS THIS THE CAUSE OF RHEUMATISM?

'Muscle Spasm' discoveries throw new light on 'Trigger Spot' treatment

In recent years research into the cause of one of the nation's greatest scourges — rheumatism — has been carried out with increasing intensity.

One of the most important discoveries made has related to the immediate cause of rheumatic pain. Scientific research suggests that most of the pains called rheumatism — lumbago, fibrositis, stiff neck, neuralgia and other aching pains — are due to what is called "muscle spasm" or excessive muscular tension.

LORD RUSSELL OF LIVERPOOL COMMENTS

Fortnight ago discoverer endorses discovery

Lord Russell of Liverpool, eminent public figure, and author of the "Knights of Bushra" and other books, is a man who weighs his words most carefully. He has this to say about the new adrenaline treatment: "I am not a trained scientist, but I have followed the progress of these researches, and I know that I have formerly suffered from rheumatism, and that I have been cured by Lord Russell's Adrenaline Cream. I can truly say that I know this from my own experience."

Doctors at a famous London hospital examined their patients with a machine called an electromyograph, which measures tension in muscles. They found that those who complained of 'rheumatic' pains in the arms, legs, neck or back were invariably suffering from extreme muscle tension, or "muscle spasm."

What happens is that the fibres making up the muscles contract violently but fail to relax properly in a healthy person. This prevents blood reaching the muscles. Less blood means less oxygen. And oxygen starvation results in the all too familiar and intense pain of rheumatism. What causes the muscle to tense up so violently is not certain. But in the contained opinion of many doctors and medical researchers the trouble may be due to stress.

This picture shows how doctors carry out experiments with an electromyograph — a device which measures tension in the muscles. One of the team, with electrodes tagged to his body, acts as "guinea-pig" while others check the readings of the electromyograph. Edgments of this kind indicate a link between muscular tension and rheumatic pain.

From rheumatism itself, has led to the successful treatment of these "trigger spots." He found that the wonderful drug adrenaline loosens and relaxes the cramped muscles of the "trigger spots" — and sometimes in a remarkably short time. As a result, the pain is relieved and freedom of movement is restored to the affected part.

At first adrenaline was administered by injection. But it was later found that a simpler and more effective method was to incorporate the adrenaline in a special cream — for all-time use — powerful that only one part in 5,000 is needed.

With every tube jar of Lloyd's Adrenaline Cream are precise instructions on how it should be used, together with a leaf chart showing where to locate the "trigger spots" for your rheumatic complaint.

Lloyd's Adrenaline Cream is made by the oldest-established pharmaceutical house of Howard Lloyd, who have

also prepared a booklet of interest to all who suffer from rheumatism, titled "How to Relieve your Rheumatism." You can get this by writing to Howard Lloyd and Co., Ltd., 11 Waterloo Place, London, S.W.1.

WE'D BE BETTER OFF ON ALL-FOURS

WHY should man be placed by muscular rheumatism for more than any other creature? Doctors believe that the most easily affected animal is the dog. It is largely to blame because a rheumatic animal can lie on its paws. But he cannot lie on his back.

Lacked at an engineering structure, the human knee is made to adjust and its structure which is not properly designed for its job is ever free from rheumatism.

What the biologist notes is that the human knee which never walks erect on two legs has been forced from a body which originally worked on all fours. Nature originally designed this body on all fours and the joints were made to support the weight and the spine originally attached to them by structural lines.

But as we are creeping on two legs, the spine is bent and the joints are strained. The spine is bent and the joints are strained. The spine is bent and the joints are strained.

What happens when you are converted into a two-legged creature? The spine is bent and the joints are strained. The spine is bent and the joints are strained. The spine is bent and the joints are strained.

"Trigger Spots" discovery BRINGS HOPE TO Rheumatism sufferers

How new methods give rapid relief

3 out of 5 victims of muscular rheumatism can obtain relief — if only they will suffer from rheumatism.

More than 3 million people in Britain suffer from rheumatism. Indistinguishably it comes most pain any other disease.

What is rheumatism? Rheumatism or rheumatic pain occurs either on muscles or joints. Muscular rheumatism, with which we are here concerned, is characterised by the occurrence of aching pains in the muscles.

STRESS CAUSES "MUSCLE SPASM"

These experts say that anxiety, fear, frustration, working against time, can bring on "muscle spasm" in certain muscles. This tension in turn leads to the agonising aches and pains of muscular rheumatism. The obvious — the only — way to ease this pain is to relax the tense, cramped muscles of the "trigger spots" because they are tense.

REMOVING THE DITHIR

ALMOST on the eve of his departure from London to visit the Central Government in Mauritius, the Colonial Secretary, Mr. Macleod, was given this advice by one of the leading African writers: "Dithir has been a disaster. Dithir Administration has been a failure. It has done nothing for the people of Kenya. It has done nothing for the people of Kenya. It has done nothing for the people of Kenya."

There are far too many people in this country who are not yet fully aware of the meaning of the word "dithir". It is a word which has been used in the past to describe a person who is not yet fully aware of the meaning of the word "dithir". It is a word which has been used in the past to describe a person who is not yet fully aware of the meaning of the word "dithir".

Building lasting confidence

The United Party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development.

It may be timely to remind some of the party's aims and objectives. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development.

There are many who have written about the "dithir" apart from the party's own writers. These writers have written about the "dithir" apart from the party's own writers. These writers have written about the "dithir" apart from the party's own writers.

Self-rule could revive old conflicts

MOST people seem to take it for granted that the pattern that was being worked out in Kenya was a pattern that was being worked out in Kenya. It is a pattern that was being worked out in Kenya. It is a pattern that was being worked out in Kenya.

The pattern which, with the aid of details, has been revealed time and again in the past, is a pattern which, with the aid of details, has been revealed time and again in the past. It is a pattern which, with the aid of details, has been revealed time and again in the past.

CLASSIC PATTERN

This pattern, which represents one of the most important tests of the party's ability to carry out its programme of reconstruction and development. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development.

LITTLE DOUBT

But whether the result will have been there for the party's ability to carry out its programme of reconstruction and development. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development.

There is no doubt that the party's ability to carry out its programme of reconstruction and development. The party has long hoped for the time being at least, some of the most important tests of the party's ability to carry out its programme of reconstruction and development.

to that extent, either the independence that is now a certainty for Kenya will be used to break the power of the old tribal groups. It is a pattern that was being worked out in Kenya. It is a pattern that was being worked out in Kenya.

BOLD NEW POLICY PUTTING ECONOMY ON SOUND BASIS

EIGHTEEN months ago, even the best friends of Pakistan had doubts about its economic solvency... The magnitude of Pakistan's recovery can be better appreciated if we recall that 18 months ago the country was in the grip of serious inflation...

ONE MORE MILESTONE

THE new policy has been successful. At the end of December, 1951, the total number of rupees in circulation was Rs. 41,00,00,000... The October Revolution, did not mean 'tam' straightening...

The Tanna barrage which was opened by the President, Gen. Ayub Khan, is a multi-purpose project consisting of a 2,240-ft. barrage across the River Indus with two link canals on either side... The outstanding merit of the plan is the rational allocation of resources between various competing ends...

MAJOR PROBLEM

MAJOR'S major problem is to increase its food supply to meet its existing and growing food requirements... The Government is fully conscious of the situation...

Pakistan's Education Minister, Mr. Mubashir Rahman, inaugurating the 17-member Uganda regional meeting of Asian Member States on primary and compulsory education at the National Assembly Building, Karachi.

EDUCATIONAL REFORMS DESIGNED TO CREATE DIFFERENT OUTLOOK

Pakistan's educational reforms constitute one more landmark in the progress of the country. They are calculated to meet the long-felt need of completely overhauling the educational system.

The need to formulate a sound educational system which could produce leaders of excellence for the country's industrialization, its advancement in agriculture, industry and commerce, its progress in science and technology and its contribution to the arts and culture was realized even as early as 1947 when the first educational conference was held in Karachi.

compatible with those of any other system in the world.

They cover gradually all aspects of national education, ranging from primary to individual forms.

The commission in their report has recommended the following: (1) To set up a board of secondary education to coordinate and regulate the work of secondary schools in the country. (2) To set up a board of technical education to coordinate and regulate the work of technical schools in the country. (3) To set up a board of vocational education to coordinate and regulate the work of vocational schools in the country.

...of the highest order in the subject.

...the commission have recommended that Urdu and Bengali should be developed as national languages.

...Mansur have also recommended for the adoption of the national language of the region of institutions of the university level within the next 15 years.

...The commission have emphasized the need for bringing the two language areas to each other with a view to evolving a common language.

...Another notable feature about their recommendations is about the institution of multiple streaming in schools, colleges and universities.

...To short these reforms do meant to streamline the country's education and their implementation assure way for the creation of a bright outlook is more progressive national character and a wider national scope for creative and research.

DRASTIC CHANGE

But, partly on account of the minority problems facing the country in the beginning and partly due to unfair internal and political bickering, this vital need of the country was relegated to a position of negligible importance.

After the advent of the present Revolutionary Government the need for modifying the educational system in keeping with the country's actual requirements was given the highest priority.

Immediately after assuming power in October 1958 Field Marshal Muhammad Ayub Khan said that the educational system needed a drastic change, and accordingly he appointed a commission of experts to recommend measures to improve the educational system.

Broadly speaking the reforms which will pave the way for the new educational policy throughout the country under the guidance of the new Government will be: (1) To set up a national board of education in a revised manner and structure.

INTEGRAL PART

Technical and vocational education has been recognized as an integral part of the educational system which would be an integral part of the national system which would be an integral part of the national system which would be an integral part of the national system.

The commission have proposed compulsory primary education for the first eight years of schooling to be achieved in a phased program of 15 years.

The programme being now being the responsibility of local governments, who will be empowered to provide for the establishment of a wide range of educational institutions in the country.

The commission have proposed that the national board of education should be empowered to coordinate and regulate the work of all educational institutions in the country.

LOCAL RESOURCES

It is the policy of the Government to utilize local resources in the exploitation of local resources and agriculture in the country.

The commission have recommended that the national board of education should be empowered to coordinate and regulate the work of all educational institutions in the country.

The commission have recommended that the national board of education should be empowered to coordinate and regulate the work of all educational institutions in the country.

THE SURVEY A weekly survey to help housewife

LOOKING at a West-lands dairy yesterday to buy one of those useful little cartons of cream for about those thousands of people who get such a lot of pleasure from having two-inch layer of cream topped their milk.

There are, however, just as many who would like to see the milk and cream and "buy together".

The last group will replace the dairy that the Kenya Co-operative Creameries has evolved a special process to produce homogenized milk. The important vitamins D and E are added to be distributed evenly through the milk, rather than being concentrated in a particular layer which is difficult to digest.

The new process is carried out before homogenization and before the cream is separated. In this way the cream is distributed evenly through the milk.

Now on sale in the shops in paper containers, the new milk costs five cents more than the ordinary K.C.C. pasteurized milk.

While at Westlands we slipped into an interesting number book for a stationery of all goods—handbags, leather bags, purses, stationery, Christmas cards (all the year round) and many other useful things.

UK NURSES A POPULAR 'EXPORT'

by ELIZABETH PEARSON

IT Britain nursing services are taken for granted and probably few people realize what a delicate work is the job of the nurse in the eyes of East Africa and other countries all over the world, and which is often used to secure her as an import.

Nurses from Britain are working in Labrador for the Crestfall Mission and keep their own good-sleigh and substitute for the family, spending nights at a patient with his dog-team driver, spending nights at a job for the timorous and unadventurous.

Nearer to East Africa Britain's nursing staff are the staff of the Hospital of St. John's, Jerusalem. This hospital is the first hospital in the Middle East to be opened in 1947, and is now being run by a British nurse, Miss Page Greaves. It is a very interesting case of the conversion of a hospital into a nursing school.

Today the hospital staff of the Order of St. John's, Jerusalem, are doing research and treatment of eye diseases in the Middle East. It is a very important part of its work, and is being done in a very interesting way.

This hospital serves many of the people in the Middle East, and is a very interesting case of the conversion of a hospital into a nursing school.

NEW PROTEIN WAVING SHAMPOO

Waves and curls hair as you shampoo!

Direct from HOLLYWOOD

Existing new PROTEIN WAVING SHAMPOO conditions and curls while it cleanses! No lathering! Guarantees lively wavy curling action from shampoo to shampoo! Bears away with greasy pomades and neatly pin-out forever!

Washer women are going wild with Wash 'N Curl. There has never been anything quite like it before! Now you can actually shampoo in human hair, instead of back street curls in rough cheap soap. And when you use Wash 'N Curl, you get a beautiful shine and soft, natural-looking hair. No extra loams, conditioners, and papers, or hair spray sets. Washes like a soap. And so easy to use. Wash and wave. Wash 'N Curl does it all!

So good for you, too! No greasy residue. In fact, a scientific blend of protein, perfume and heat-of-lavender conditions and curls as if alive! Proves her one-shampoo success. Remains your one of choice until you are cured of your hair from that last shampoo to this one!

The secret of Wash 'N Curl shampoo magic PROTEIN - necessary to make hair shine! And, keratin - the protein that builds hair, makes it soft, strong, shiny, like a natural hair. Contains no ammonia, no lye, no soap, no dyes, and no harmful materials. Washes like a soap, and leaves your hair soft, shiny, and curly. Washes like a soap, and leaves your hair soft, shiny, and curly. Washes like a soap, and leaves your hair soft, shiny, and curly.

So good for you, too! No greasy residue. In fact, a scientific blend of protein, perfume and heat-of-lavender conditions and curls as if alive! Proves her one-shampoo success. Remains your one of choice until you are cured of your hair from that last shampoo to this one!

AIMS OF THE LONDON PUBLIC SERVICE TALKS

You published a letter from Mrs. Winifred C. Sinclair under the heading "Future of the European Civil Servant in Kenya".

Letters to the Editor

DISCIPLINE AND SECURITY

The writer, in stating categorically that the Kenya Africans to be recruited into the Public Service under conditions of employment which in London "would mean the end of their jobs" and that the Government policy of building up a local Civil Service from the European body in Kenya was "the worst possible policy at the best of what could be expected", is in complete agreement with the London conference and all Government officials who are engaged in building up a local Civil Service. Because this is not so and because the reply is founded on incorrect statements, it is necessary to reply.

It is quite evident that at the present time the Kenya public safety and industrial security. At the present time the Kenya public safety and industrial security. At the present time the Kenya public safety and industrial security.

Seeking loans

I HAVE read a statement that has been made by the Government of Kenya regarding the possibility of borrowing money from the Government of Kenya to finance its industrial development.

The fact remains, however, that the manner by which certain decisions to close and transfer services has been made is not a fair one.

Broken pledges

HOW I agree with the letter of Mr. G. W. O'Brien in the current issue of the Kenya Review.

Nebraska lobbyist

WHILE it is a fair surprise to learn that the Nebraska lobbyist is involved in the negotiations for the transfer of services from the United Kingdom to Kenya.

What fate?

COULD the Kenya Government be expected to accept what is being offered by the European Community?

Constitution

ALTHOUGH the United Kingdom Constitution has been amended, it is not clear how the new arrangements will be implemented.

Multi-racial schools

ALONG with many other matters, I am very interested in the progress of the multi-racial schools in Kenya.

Depth charge

THE first question is, of course, whether the Government of Kenya is prepared to accept the offer of a multi-racial school.

PROBLEMS OF JET-AGE TRAVEL UNDER REVIEW

Discussions on the problems of international travel in the jet age were under review at the annual meeting of the American Society of Travel Agents held in Montreal this week.

Particular attention was paid to the provision of accommodation for the increasing number of tourists who are able to visit any area of the globe more easily and quickly than in previous years. One of the executives present at the meeting, said that Governments tended to look first to the extra money contributed by tourists and secondly to their national economies for the source of greater benefit.

Mr. R. H. Hering, president of the A.S.T.A. had noted that in 1951, 1,800 travel agencies were established in the world and had taken up an international organization of a membership of 100.

Travel agencies, air and sea, and government tourist offices are to submit reports to the A.S.T.A. in order to have their views on the subject of international travel taken into account.

The fare from London to Johannesburg would be £200 compared with the existing £275 if a saving of £75 is to be made. It is also possible to be entitled to full "cover" rights at any time on their route.

Cheap fares on Comets

The new 80-day round-trip excursion fares for 16 per cent, will be available on B.O.A.C. Comets from October 1, the Airline Corporation announced.

The fare from London to Johannesburg would be £200 compared with the existing £275 if a saving of £75 is to be made. It is also possible to be entitled to full "cover" rights at any time on their route.

NEWSPAPER BAN

The Indonesian Government has banned the newspaper news-stand period for an indefinite period. An official agency reported. An official said the newspaper news-stand articles which were considered as "incitement to violence and raising public disorder."

Record last year

This would bring money to the attention of the foreign exchange market. The British agents have been in the food supplies and the purchasing power of the East.

The British Travel Association said that the growth in the number of tourists from the United States to the United Kingdom last year was the highest since the war.

The British Travel Association said that the growth in the number of tourists from the United States to the United Kingdom last year was the highest since the war.

One of the reasons for the increase in the number of tourists from the United States to the United Kingdom last year was the high level of the pound sterling.

POST OFFICE ACCUSED BY I.M.N.S.

The three-day Air Mail International News Service has accused the Post Office of being slow in delivering its newspapers.

The I.M.N.S. said that the Post Office was slow in delivering its newspapers, and that this was a major factor in the decline of its circulation.

CHANG RE-ELECTED

The National Chinese President Chiang Kai-shek has been re-elected for a second term by the National Assembly.

Chiang was elected to a second term of office for a period of four years.

ENTRIES are coming along very well for the 1960 Kenya individual amateur boxing championships, the finals evening of Saturday, April 2. The majority of the reigning champions are likely to be in the entry although one has withdrawn from the entry at which he last won the title and another, Sapper, has left the following night-heavyweight in respect of his title and will not defend it. The only other who should be out is the former champion, M. J. and Secretary of the Boxing Association of Kenya P. O. Box 179, Nairobi.

Preliminaries earlier
In view of the probable time of the evening of the finals it is suggested that the preliminary bouts should be held over two before Saturday's finals in order not to overtax competitors. The Royal Institution of Public Health and the Kenya Boxing Association have entered about 15 bouts at preliminary bouts at the Kenya Boxing Association, Nairobi. The bouts are as follows: 12½ lbs. (Flyweight) at 7.30 p.m.; 13½ lbs. (Bantamweight) at 8.15 p.m.; 14½ lbs. (Featherweight) at 9.00 p.m.; 15½ lbs. (Lightweight) at 9.45 p.m.; 17½ lbs. (Welterweight) at 10.30 p.m.; 21 lbs. (Middleweight) at 11.15 p.m.; 24½ lbs. (Superweight) at 12.00 p.m.

Rugged and impish
Entries from the Victoria District are expected to make a good showing at the weight 14½ lbs. (Featherweight) at 9.00 p.m.; 15½ lbs. (Lightweight) at 9.45 p.m.; 17½ lbs. (Welterweight) at 10.30 p.m.; 21 lbs. (Middleweight) at 11.15 p.m.; 24½ lbs. (Superweight) at 12.00 p.m.

DREAM WORLD CALLED KENYA

WOULD very much like to know what dream world is Africa?

It is a land in Kenya, and three million people are living, making their homes on the hills, and in the valleys, and in the plains. They are not only making their homes, but they are also making their lives. They are making their lives in a dream world called Kenya.

They are making their lives in a dream world called Kenya. They are making their lives in a dream world called Kenya. They are making their lives in a dream world called Kenya.

Propaganda in independent States REITS RAISE THEIR BIDS FOR AFRICA

WESTERN policy makers and diplomats in London believe, with good reason, that they have to reckon with increasing Soviet efforts to enlist the sympathies of the millions inhabiting the rapidly developing continent of Africa.

Moscow agreed early with the United States on the subject of Africa when it was in a speech at Cape Town on February 4, 1958, that it was the great issue in the second half of the 20th century.

On the West, the Powers are allegedly seeking to perpetuate a neocolonialism through a prominent place in Soviet propaganda in Africa.

INTEREST NOTED

Diplomats have noted a growing Soviet interest in Africa, and a number of the President of the Soviet Council for Foreign Relations in Moscow at the beginning of the year for the reorganisation of President Nasser's cabinet.

The five new States to be born in independent Africa are dependent on January 1, 1960 - a year in which the three independent African countries are being joined by five more.

White headlines in Britain were captured by Mr. Macmillan's announcement that the Government has also sent several Ministers to Africa.

NEW AMBASSADOR

A new Soviet Ambassador, Mr. Sokol, arrived in Nairobi on February 23. He had an appointment with Mr. Kenyan Foreign Minister, Mr. Njiru, and a meeting with Mr. Njiru on February 24.

Mr. Sokol is regarded as a high-calibre diplomat, having previously been Soviet Ambassador to the Middle East Department in the Moscow Foreign Ministry.

While he was there the Soviet Embassy was holding a play on a four-man United States stage of the day.

JOHN EARLE, who was a political leader in the State when independence was declared, is only recently.

grants credit equivalent to some £100,000,000 for the construction of both stages of this grandiose project.

Among other advantages of the Soviet Union, it is the maximum propaganda advantage to be derived from the construction of both stages of this grandiose project.

A. A. Sobolev, Soviet Deputy Foreign Minister, said in a speech at Cape Town on February 4, 1958, that it was the great issue in the second half of the 20th century.

WOLVES REACH FINALS

Wolves, whose last appearance in the Cup was in 1926, were on the path to the Cup-trophy when they secured a 3-0 successful victory over Aston Villa, the club who last brought off this great feat in 1891.

Blackburn also won by a single goal, beating Sheffield Wednesday 2-1. Neither of the semi-finals produced classic football, but there were plenty of fine Cup thrills for the 130,000 spectators who watched the two matches. Deeley got the goal which brought Wolves through. Dougan fanned in both Blackburn goals.

Hearts and Kilmarnock keep step

Hearts' victory was easily secured, but Ayr looked like making a fight of it against Kilmarnock when they found the net in the second half.

Marathon win for A. Aentia

Arco Aentia, of the Kenya Olympic and Empire Games center, won the 100-mile marathon in a time of 2 hr 18 min 37.8 sec. Second was Lesno Chabanyk of Czechoslovakia, in 2 hr 34 min 10.1 sec.

Olympic draw

The draw in connection with the 15th Olympic Games will be made by the Editor of "The Standard" and the main prizes were \$30,000 for the winner, \$12,000 for the runner-up, and \$6,000 for the third-place finisher.

FRANCE STILL IN RUNNING

FRANCE kept in the running for a share in the international Rugby Union championship when they gained a well-deserved victory over Wales by 16 points to eight at Cardiff Arms Park.

France carried off the title for the first time last year, won by two goals and two tries to a goal and a penalty goal. They led 2-0 at half-time. It was their third successive win over Wales.

Moss out by bad luck at Sebring

STIRLING Moss (British) and his American co-driver, Dan Gurney, in a Maserati, were six laps (over 30 miles) ahead when eight hours in the Sebring endurance race was called when they were forced to retire.

High perch wins Liverpool Cup

Sir Hil Wainwright High Perch won the Liverpool Cup for the first time when he defeated the second runner-up, Sir W. O. Murray, by 21-18.

MULLINS LOSE

Playing a man short for all but 20 minutes of the opening match of Mullins R.F.C.'s tour, Centre France gained a decisive victory by 35 points (three goals, a penalty goal and a try) to three (a try) to three in their first local victory since the French Paris-Chartres leg of the tour on Saturday.

NATIONAL WON BY MERRYMAN

MERRYMAN 13 to 2 1/2
Merryman won the National at Ayr on Saturday. He was ridden by Neville Crisp, second and fifth by 12 lengths in the Grand National at Ayr.

Offset any advantage

But as close as the British base were to the home advantage they offer, they were nullified by the fact that the British team was shorter on wickets than the home side.

Moss out by bad luck at Sebring

STIRLING Moss (British) and his American co-driver, Dan Gurney, in a Maserati, were six laps (over 30 miles) ahead when eight hours in the Sebring endurance race was called when they were forced to retire.

Two more home goals

Five minutes after the end of the first half, the referee pointed to the spot where a penalty kick would be taken. Sir Hil Wainwright High Perch kicked the ball into the net, giving him a 21-18 lead.

Rugby League Test drawn

France staged a stirring finish to draw the Rugby League Test on Saturday. The match, which took place at the Sydney Sports Ground, was a closely fought contest. France led 1-0 at half-time, but the two sides were level at 1-1 by the end of the first half. In the second half, France scored a try through the captain, Jimmy Fraser, but the try was cancelled out by a try and a conversion from the British side. The match ended in a 1-1 draw.

'BUMPY' DAY AT PORT OF SPAIN

ENGLAND will have a fight on their hands in the fifth and final Test against the West Indies at Port of Spain following a collapse on the previous day. The English side were in a 3-0 all out at the close of the Test. The damage was done by the spinner, Ramdathin, in the first innings. England were in a 3-0 all out at the close of the second day. The West Indies were in a 3-0 all out at the close of the third day. The match ended in a 3-0 victory for England.

Last move to new Constitution before elections

MINISTERS WILL BE NAMED SOON

One Portfolio may change hands

By a Political Correspondent
NAMES of the Ministers who will take office in Gray's new "Caretaker Government" are expected to be made known within the next 48 hours.

There is reliable information that one of the "candidates" in the reshuffled Council of Ministers will be Mr. A. Hope-Jones, who will lose his portfolio of Commerce and Industry.

Mr. W. E. Crosskill, the present Minister for Tourism and Common Services, is likely to be retained in the Government to preserve the balance of European Elected Ministers.

Task of registering voters

It is believed that an amendment, by Order in Council may soon be introduced to regulate the reduction in the number of Ministers from the 16, which is the mandatory under the Lennox-Boyd Constitution, to 13 envisaged in the "Caretaker" Council of Ministers.

The Chief Secretary, Mr. Courts, said last night that no final move towards the Lennox-Boyd Constitution was anticipated before next year's general elections. The Administration he pointed out was faced with a tremendous task in registering voters.

Tentative plans

It was understood that there is no candidate immediately in the position of the African Assistant Minister under the present two Assistant Ministers, one of whom is an African and the other an Asian. Mr. Courts explained that at the direction of the Governor, all could attend the Council of Ministers.

Cabinet shuffle forecast

It is expected to be about four weeks.

Mr. Blandford admitted that he was in a difficult position at the weekend of the Governor's arrival. He said that Mr. Krushinsky had provided further than his group requested.

Scots hail choice of Andrew for Prince

SCOTSMEN are delighted with the choice of the Scottish lawyer as being given the name Andrew for the new Prince of the House of Windsor.

The chairman of the Royal Stuart Society, Mr. Hector Bruce Lindsay pointed out yesterday: "This little Prince is a descendant of a royal House of Stuart."

Official snub

From his home at Chiddingfold, Surrey, Mr. Lindsay said he thinks the name ending to Queen Elizabeth's baby is "a very good thing for Scotland."

STRIKERS MARK S. AFRICA'S DAY OF MOURNING

A DAY of mourning for the Africans killed in last Monday's demonstrations was observed in South Africa yesterday. Practically all Africans employed in public transport, the building trade and bread and milk delivery stayed away from work.

In Johannesburg very few Africans went to work yesterday morning.

Although all was quiet and calm in the town, Africa can railway stations in the north of the city, the number of Africans going to work was very small compared with a normal weekday.

West meet on test ban reply to Russia

MR. MACMILLAN and President Eisenhower yesterday flew by helicopter to Camp David for secret talks on a joint answer to the latest Soviet nuclear test offer.

Earlier Mr. Saxeby, Russia's representative at the United Nations, said he believed Mr. Macmillan's sudden visit to Washington gave hope that the West would accept the new Soviet plan and end nuclear tests.

Close together

While the British and American delegations were in Washington, the two leaders said the West should accept the new Soviet plan and end nuclear tests.

TO WHEAT APPELITE FOR TREBLE CHANCE BETS

Punch Special by Bob Arnold
Nothing quite equals the appetite of the treble chance punter. Players in such matches are usually so anxious to avoid making mistakes that stalemate is the frequent result. In the light of this the Birmingham City-Everton match Saturday has all the makings of a drawn game, the more so as Everton are stronger than City.

Have foul their sparkle
Predicting a sparkling game is a task which is often done in vain. The sparkle and buoyancy that are often seen in League games are often the result of a number of factors, some of which are beyond the control of the players.

Kenya Goan Badminton finals

Weekend forecast
A GOOD crowd was attracted to the finals of the men's and mixed doubles of the Kenya Goan Badminton Association's business championships, played off on the I.C.C. indoor courts.

Best of the final
By far the most interesting match was the men's doubles in a second session and A. M. Jones and S. J. D'Cruz of Kenya beat S. J. D'Cruz and J. P. D'Cruz of Goa 15-12, 15-11.

Friendly cricket
Peters, Y.C. were the winners of the match between Kenya and Goa. The match was played on the I.C.C. indoor courts.

Lanelly to make tour of Canada

ECONOMICS OUGHT TO GO BEFORE POLITICS

OUR young and inexperienced politicians would be well advised to exercise caution when making a policy decision. They should remember that it is better that people should wonder why they are not speaking than why they are.

Recent history has proved the point. The Government has not only failed to solve the economic problems of the country, but has also caused the loss of confidence in the Government. People are generally happy and contented with the Government, but they are not sure of its future. They are not sure of its ability to solve the economic problems of the country. They are not sure of its ability to solve the economic problems of the country.

It would also be a considerable help at the present time if the Government could do more to improve the standard of living of the people. The Government should do more to improve the standard of living of the people. The Government should do more to improve the standard of living of the people. The Government should do more to improve the standard of living of the people.

PHILLIPS
NAIROBI, Mar. 23, 1960.
Civil Service
MAY I thank Mr. Shimpe for his reply to the letter I should like to say that, in my mind, he is wrong.

The fact that the conference in London of overseas Ministers for the equatorial Africa is not the only one of its kind in the world. There are many other conferences of this kind in the world. There are many other conferences of this kind in the world.

NAKURU ABANDON

AS a butcher and as the Minister representative of the KALINGA I would like to answer to the Minister's letter.

First, the Minister's statement that the Government has decided to abandon Nakuru is a very serious matter. It is a very serious matter. It is a very serious matter. It is a very serious matter. It is a very serious matter. It is a very serious matter.

There was no need for a conference in London with all the resultant expense for the Government. The Government should have done more to improve the standard of living of the people. The Government should have done more to improve the standard of living of the people.

NAIROBI, Mar. 23, 1960.
W. W. TERNINGTON
NAIROBI, Mar. 23, 1960.
Managers
YOUR correspondent, G. R. Hamilton-Good, says that the day of 'divide and rule' are over.

When Messrs. Toppet, Maitland and Toppet were in the London conference they spoke entirely as Africans and not representatives of the Government.

NAIROBI, Mar. 23, 1960.
Polygamy
THE letter from K. M. Moudley comes just unaltered.

People of all races should be aware of the fact that the Government has decided to abandon Nakuru. It is a very serious matter. It is a very serious matter. It is a very serious matter.

LETTERS TO THE EDITOR

Some Britishers dislike the Government's policy in the East African region. They are not sure of its ability to solve the economic problems of the country. They are not sure of its ability to solve the economic problems of the country.

READ with absolute interest the long letter written by Mr. J. J. Chapman, who seems to be a very serious man. He is a very serious man. He is a very serious man. He is a very serious man.

ALL YEAR ROUND
EAA's new Improved Credit Travel Plan was recently introduced to celebrate the 5th Anniversary of this scheme. One feature of the new plan is that credit travel facilities have now been extended to cover hotel or lodge accommodation on any of EAA's popular all-inclusive excursions.

Here is just one example of the attractive terms which apply. For a husband, wife and two children, a deposit of Shs. 175/- and 12 monthly instalments of Shs. 22/5/- can cover the return air fare Nairobi-Mombasa (Nairobi, plus 12 nights' hotel accommodation at Mombasa).

Similar offers apply to all of EAA's unforgettable excursions when the total cost of tickets is Shs. 100/- or more, and each passenger is entitled to a free baggage allowance of 20 lbs. Remember, the deposit is only 10% down—and there is a range of payment periods to choose from.

MAINLY ITALIAN GETS PORTRAIT OF THE WEEK

FOR WOMEN IT'S FIRST POLICE GIRL

Stove-top cooking to please

By JUNE FIELD
 IN my "bachelor girl" days I lived in a furnished room.

But soon I discovered I was not going to have to eat cold, soiled snacks through the lack of a stove. I found that top-of-the-stove cooking was not only simple, but quick.

My specialty became and remains with brown rice. To make the rice crispier you should an ounce of butter or margarine to the number of cups of water. I usually brown the rice in a saucepan of two or three cups of water and some tomatoes, butter and some tomatoes.

Now add the water being left in the pot and let the rice cook till all it has absorbed nearly all the water.

Then add the water to cook gently later. Continue to cook gently until the rice is soft and has absorbed all the liquid.

Wash the fish, put it on a grid of your grill pan with the remaining oil and broil for about four minutes, according to thickness.

By MICHAEL WEISCALL
 A setting up the first Italian woman police corps has made thousands of tough Italian male policemen leave sighs of relief. In addition to the pleasure of having female company in grim police stations, the policemen will cheer and during police operations, the policemen will be freed of one of their greatest preoccupations as a woman the occasional need to console themselves as a woman to catch a criminal.

The plan to create more than 550 policemen as a modest start has just become law after a favourable vote in the upper house of Parliament. The last major stage of the law-making process is in Italy.

The Senate vote marks the Victorian conclusion of a four-year battle by Italy's small army of women. They small women, the many prejudices against them have led to a fight against the law. It will include 100 female inspectors and 100 "police assistants," aged 21 to 32. All must be unmarried or widowed.

The inspectors will rank among Europe's highest paid police because they will have to wear a uniform. For the women and moral reasons, the women will be trained before men, and will wear uniforms throughout the peninsula.

Some women will concentrate mainly on anti-vice work and street fashion where law enforcers has been one of the most serious problems in Italy. They will also deal with the "difficulties" which arise when women police are called upon to assist men.

WITH his production of "Winter's Tale," starting at the National Theatre on Monday, Mr. James Master will be presenting his 21st full stage Shakespearean production in Nairobi.

During the year he has had considerable experience in book-keeping, production in Nairobi. Since after joining the Railway Administration Mr. Master has been Master of the National Theatre since 1923.

His production of "Winter's Tale" will be presented on the Railway Theatre on Monday.

OFFICIAL CONCERN

Some officials and journalists have raised the Italian men's reception of the Italian women police.

Many girls especially foreign tourists and street fashion where law enforcers has been one of the most serious problems in Italy.

The women police law is the result of a long struggle belonging to the Italian Fascist regime.

Two shops, one in Stewart Street and one in the market, were closed for a number of days.

The first was selling of goods and the second was selling of goods and the second was selling of goods.

Quite new and large quantities of goods were sold and large quantities of goods were sold.

MARATHON TRIAL WAS HIGHLY SUCCESSFUL

Generally speaking the results of the Kenya Olympic Marathon trial last Sunday were most hardly surprising in view of the intense heat and night in which three inches of rain were recorded at various intervals during the race. The course that was far more gruelling than the actual Kenya Sum returned 22 men, 16 of whom were highly successful. The event was highly successful in view of the fact that it followed a pattern that has been a constant feature of the emergence of three and six mile runners in the Kenyan scene. At the Kenyan Sports Centre, Nairobi, the race was held on a track with much to be said for its suitability for the purpose. The course was comfortable for the runner and the spectators, the latter being able to see the runner at all times. The race was a success in every respect.

Longer distances
As they mature, three and six mile runners with distinction. Jim Peters, Britain, is a case in point, as is Bruce of Australia. The Kenyan scene is the best to be seen in the world. The Kenyan scene is the best to be seen in the world. The Kenyan scene is the best to be seen in the world.

MOCKEY: Record entry for Festival

A RECORD total of 46 teams will participate in the 1961 European Hockey Association's Festival of Hockey to be played this weekend on the grounds of the Kenya High School for Girls. Thirty seven and a half teams have entered and a closely integrated programme of 19 matches during the day and a further 19 during the night for a total of eight hours.

Each team will play at least seven games and some will play as many as ten. The teams, depending upon the league they are in, will consist of 20 members in the case of the Kenya High School for Girls and 25 in the case of the other teams. They will begin to play on Saturday afternoon in the season's hockey.

Target tapped
Red, white and blue are the three men's leagues and green and yellow the two women's. A special feature of the festival is that the teams made up of those who are not in the Kenya High School for Girls but who wish to take part will be given the use of the Kenya High School for Girls' hockey field.
