## India can give Kenya the effective control of RABBIT IMMUNISATION?

Can Kenya learn from India how to control rabbits? A correspondent writes that the people of Kenya should be advised to follow the lines of definite control of rabbits in India. In India, rabbits have been controlled to such an extent that they are no longer a pest in any part of the country. The Government of India has published a series of leaflets which describe the methods used in India to control rabbits. These leaflets are available in English and Hindi. They describe the methods used in India to control rabbits, including the use of vaccines and the control of rabbit burrows. The Government of Kenya should consider these methods as a guide to the control of rabbits in Kenya.

Experiences I have the opportunity to visit to Colonel Mansfield. I have been to India and I am not over-enthusiastic about the experience. I have been to India and I am not over-enthusiastic about the experience. I have been to India and I am not over-enthusiastic about the experience.

Tried here? As regards the government's reference to obtaining information from India, it is not clear what is meant by this. It is not clear what is meant by this. It is not clear what is meant by this.

UNPLEASANT DECISIONS FOR THE 16? UNITED PARTY A FACE HAD

WHO would have thought that the United Party would find its occasion for the first time in the planning of the Americans? For that is what will happen. For Mr. Haldeman, leader of the United Party, has announced that the party will be dissolved if it does not win a seat in the next general election. It had been evident from the first that the party was a mere "stop-gap" for the purpose of the general election. Its dissolution was not a surprise to those who had seen the party from the beginning. The party was formed for the purpose of the general election and its dissolution is a natural result of its purpose.

# Idea from U.S.A.

FOR that was certainly the real intention. Although Cripps crystallized it in a speech...

When E.D.P. ends, we must greatly improve the productivity of the next four years, sought to do this in an efficient manner.

At the beginning of this year people waited in the hope of better living standards.

During the last week in July the shortage was more acute and obtaining a gallon of petrol became a daily difficulty.

In Bulawayo today queues can be seen outside most petrol stations...

From other parts come reports of motorists being held up...

The Government, before it has dissolved, had promised petrol rationing would be brought into force.

Watch it daily GROW more lovely
