**SCANDINAVIA WILL BE DIVIDED, ASSERTS THE SWEDISH PREMIER**

Developments are generally regarded as having made it a foregone conclusion that Norway will join the North Atlantic Pact.

The Soviet Union's recent offer of a mutual non-aggression treaty and the fact that the Swedish Government has given Sweden and Denmark to formulate their own agreement by the Prime Minister of Sweden on his return from London for the time of the chief witness has been the power to seek her cooperation with the North Atlantic Pact is now a certainty.

The Swedish Premier declared that there would be no more general defence talks and that his country and Denmark would be free to make their own foreign policy.

The State Foreign Secretary, Erik Axelsson, has revealed the intricate powers are given to the representatives of the three governments—Britain, France and the United States—to discuss the pact itself.

**U.S. Foreign Office under an overload**

**MOORE** good news for prythrum growers was given to members of the Prythrum Board of Kenya. The use of prythrum, which is exceeding very rapidly, chiefly because it is being sprayed with chemical substitutes are undesirable for use in many important industries and in the domestic insecticide market.

For example, he said the American Food and Drug Administration has recently forbidden the use of D.D.T. on dairy cattle or in any dairying operations. Furthermore, the American Convention of Dairymen has recently advised the use of chemical substitutes for prythrum on the score of traces of toxicly applied in finished products which would result, according to a Government expert, in confiscation of the tainted product concerned.

The United States Ambassador in London, Mr. W. M. C. Cowen, said yesterday he was officially authorized to say that the United States has no intention of "shipping" the military surplus stock of D.D.T. to Japan at the end of the war.

**THE King's Health**

The return of His Majesty King George VI to London this week from Birmingham, was accompanied by the good news that his health had greatly improved. His recovery was not unexpected and though it is not known how long he will have to carry out this year his reign in New Zealand, there seems every prospect that it will be as long as circumstances permit, but it is considered the prospect is bright.

It is nearly four months since His Majesty was stricken with the commonwealth and Empire were shocked by the news that his condition was so serious as to require not only the abandonment of a long cherished intention but also an almost complete renunciation of his State duties. Improvement has been more rapid than was expected and official news to warrant the assumption that the recovery is complete. The King's return to London, and the resumption of his duties, are matters they thereby entailed, suggest that he is getting grounds for satisfaction with his recovery.

Through the illness caused by rheumatism, it is almost certain that he is carrying out his duties for the first time without pain and discomfort and his health, since, until there was no alternative, he had to be confined to his quarters. His Majesty's duties were not only his own but those of his people. His Majesty's duties were not only his own but those of his people. # STATE OF SOCCER BRITAIN CONCERN

Disturbing features of transfer system

**CONDITIONS** governing British soccer players are continuing to excite the minds of the players, their Union and the League Association.

The matter has been described as a "major industry" and its health state is a matter of more than passing interest.

Writing on the "New Chronicle" last Saturday, Mr. J. M. Williams, pointed out that thousands of professional footballers, and that from professional football, have their names in the "transfer" system. The conditions of the game have become a matter of national concern.

What is present day soccer means about professional soccer is the transfer system. That system is in a state of decay and decay is in the transfer system and decay of the black market. It is a matter of a nation we shall not see with it reach lower.

It is almost an old professional soccer. It was designed to stop the poaching by one club of another club's players, and certainly a club which had spent time and money in getting and raising a player, did not want to see him go to another club.

## Reason for system

To discourage such a poaching, at least to compensate the club which suffered from it, the transfer system was established. Thereafter, a player signed for, say, six months, the club which signed him agreed to let him go elsewhere.

If he was a poor player, the club would let him go for a small sum of money. If he was a good player, the club would let him go for a large sum of money.

## Loyalties

Indeed they have every inducement to those of any kind of loyalty to their own club. They have team mates and to transfer from club to club is to transfer from team to team.

There are even some aspects to the transfer business. Officially a player can only be transferred from one club to another if he has been registered with the Football League. In fact, the Football League has tried to impose a ceiling.

But there is something which always breaks down because it is found that a few months that clubs have been able to get their own players.

### BRITISH CARS HAVE WON MARKETS ON MERIT

ALTHOUGH the British motor car manufacturers were initially criticised for their products many overseas markets have become of the world's sharpest. British cars are now established in markets on their merits. This is particularly true of the Middle East and East Africa. The British Society of Motor Manufacturers and Exporters (BSME) is a distributor of cars in these territories.

In an interview with the East African Standard reporter yesterday, Mr. Mackie explained the difficulties the British car makers face in competing with the American car makers in the Middle East and East Africa. He said that the British car makers are now competing on a par with the American car makers on a merit basis. He said that the British car makers have now established a reputation for reliability and performance in the overseas markets that has convinced many of their competitors that the British cars are the most reliable and best value for money. ### COMMUNIST PERSECUTION

(Continued from page 1, Col. 2)

By a series of moves of the nature of February.

The Government has issued a special letter to all members of the Communist Party, asking them to support the Government in every way and ordering all members to join the Government. # HOLDERS DASH HULL'S HOLES IN DOOR CUP GAME

## Portsmouth and Wolves both gain revenge

BEFORE highly enthusiastic crowds aggregating about 200,000, Manchester United (holders), Portsmouth, Leicester City and Wolverhampton Wanderers qualified for the semi-finals of the F.A. Cup on Saturday.

Two teams and two away sides won, both Division II and London lost their sole representatives; Division II is represented by Leicester City, the only one of the four last four to have won the F.A. Cup.

Wolves were the hero of a hard-fought game and the crowd swarmed over the pitch after the match to cheer him. The winning goal came four minutes after the end when Clarke coolly brought a centre to his feet and finished the ball home for the only time.

Hull City said goodbye to the Cup after a free fight. Manchester United were eliminated by the away side but Hull's dash and quick-thinking enabled them to keep the holders and not until the 150th minute did United score.

Two Passens, who captained the side on the strength of Curry (1918-20), was not named as a player in the second half and the goalkeeper played throughout the second half.

### Grand football

Leicester City played grand football on the strength of Curry (1918-20), who was not named as a player in the second half and the goalkeeper played throughout the second half.

A second-half goal by left-winger Mullins, did the trick in the goal game but Wolves were mainly the losers. Leicester City were defeated by half-backs, particularly Wright, the English captain.

## Semi-final drawn after extra time

WHETHER Railway or Old Derby was the victor in the semi-final drawn after extra time on Saturday's Cup (Cricket) match, will be decided for the first time in the history of the game on Saturday afternoon after two periods of extra time on the Railway ground.

The match was a very fast and interesting match in which the score was a very fair reflection of the merits of the sides.

There was, perhaps, just a trifle too much "wicket" while a more liberal interpretation of the administrative rules would have resulted in a deciding goal being scored.

# INTRIGUING CUP SEMI-FINAL DRAW

### Chances of 'double' or North-South final

THE draw for the semi-final of the F.A. Cup, made in London on Monday night, could not well have been bettered. It makes possible that greatest of all attractions, a North v. South final, alternatively allows for a Dividing 1 v. 2 Division II final, and brings within the bounds of possibility a Cup and League championship 'double', a feat last accomplished in 1896-97, not by Aston Villa.

Not that a new name could be inscribed on the trophy for the last four teams left in the competition, Leicester City have never won the Cup.

Enthusiasts could hardly ask for more.

The draw, as the odds came out of the hat, is:

Whampton V. Manchester U. Portsmouth v. Leicester City. Both matches will be played on March 26 with any replays at Anfield.

# Neutral grounds

The Wolves-Manchester match will take place on the neutral ground of Hillsborough with the Wolves playing at 7.15 p.m. and Manchester at 7.45 p.m. The Portsmouth-Leicester match will be played at Arsenal Stadium, Highbury, with the replay at Villa Park, Birmingham.

Leicester will therefore play a semi-final and the final, the latter at Wembley Stadium on April 23, to be refereed by Mr. A. Mortimer, a West Riding of Yorkshire official.

The favourites have been drawn against either Derby, the holders, or Wolves in the replay to emulate the Blackburn Rovers feat. The last year's winners—1895-96 and 1896-97. This is the first time in this year's competition that they have been drawn against a Division I side and of their league meetings with Wolves if required at Goodison.

# Scots XV v. England

Scotland began at Murrayfield on Saturday last, having made two changes to the XV to meet England in the Rugby Union International series in the back 23, 26/27/28 (as new cup replays). G. Aberdeen and G. A. Wilson, who were expected to play against Scotland, both side in place of A. L. Thomson.

# LOUIS LAYS DOWN GLOVES FOR GOOD

### Quits ring to take to promotion

JOE LOUIS, at last long after an honorable career—resigned his world heavyweight boxing championship.

The stated last fight with Jersey Joe Walcott was last night in the event it has turned out to be so, despite a series of barnstorming exhibitions in the United States, South America, and elsewhere.

The resignation and relinquishment of the title was formally by Louis in a letter to Mr. Abe J. Green, President of the National Boxing Association of America.

Louis' resignation was presented to his publisher, who had been from the throne of a letter in the form of a letter written by himself.

Louis, who is 34, held the world heavyweight championship longer than any other boxer in his long and defended in more fights.

# 11 years' reign

He won the title from James J. Braddock in Chicago, on June 22, 1937, his resignation ending a reign of 11 years, eight months and seven days.

Another of his records was that he was the youngest boxer ever to win the championship, when when he took the crown from Braddock.

Louis was born in a log cabin in Ash Grove, Mo., on January 13, 1881. For his professional fight in 1914, he received \$2,000, which was the record. Louis' ring earnings to exhibitions this week added to that total. When he was defeated last June, Louis was defending his title for the twenty-third time.

# Savold's claim

Bill Dwyer, manager of Lee Savold, stated in New York, that he had won the world title. Woodcock, Freddie Mills fought him the world heavyweight title for the last night which America won in London in August.

Savold in his own boxing career has contracted to fight in California, said Joe Sabatone, promoter of the fight, which is expected to take place in June.

# Promotion battle

A promotion battle between American and English boxing authorities to decide the right to stage the next world title fight is now on.

In America where, with minor exceptions, the International Boxing Club, there are no other boxing promoters, the others being prospecting projects—there are three in New York.

The London promoters, Jack Johnson, has already announced that he is interested in the American, Lee

# DEFENCE PLANS ENDORSERS FORSEGE Britain ready for emergency

## THE COST OF COLONIAL FORCES IS UNDER CONSIDERATION

THE HOUSE of Commons has endorsed the British Government's defence programme which provides for an expenditure of £1,500,000,000 for the year 1956-57, an increase of £107,500,000 on the figure for the current year.

An Opposition amendment complaining that the country was not getting sufficient defence for the money was defeated by 261 votes to 153.

The motion on the Government's defence programme was approved by the Government's defence statement.

The defence Minister, Mr. A. V. Alexander, who approved the debate, told Parliament that the Western Union organization and Field Marshall Montgomery are studying tactical problems of sudden emergency.

He said: "In a clear indication of our will and our determination to stand foursquare to the gravest international situation."

It has always been Britain's belief, he said, that she must act collectively.

"We have given practical expression to this view in the arrangements entered into with France and the Benelux countries," he declared.

Members of the House were already talking about the need for a more rapid withdrawal under licence from the Middle East, a move which would be available during 1956.
