There's a RECORD-BREAKING Tradition behind-

MERCEDES-BENZ

Congratulations to Stirling Moss for his record-breaking win in the Mille Miglia; won at the average speed of 79.30 m.p.h. And to Juan Fangio who came in second.

Success comes to MERCEDES-BENZ as naturally as a homing pigeon to its nest. But behind the "success story" lies many years of established Leadership, Painstaking research and testing, and a tradition of craftsmanship that puts MERCEDES-BENZ in the first-quality class.

These superbly comfortable cars take the fatigue and tension out of driving. Safety high cruising speed, firmness on the roadway and a highly responsive engine give a new slant to motoring.

PERFECT LUBRICATION 24 HOURS A DAY

While you sleep...

Most of us spend one-third of our lives in necessary rest. But resting time can be resting time for engines. An engine, remember, works best when it is hot. Research scientists agree that substantial engine wear can take place when you are not even using your car!

All the time an engine is warming up and cooling down and, of course, standing idle, corrosion attacks the precision finished surfaces of the engine parts and corrodes them away... unless you are protecting your engine by running on Shell X-100 Motor Oil.

Shell X-100 Motor Oil has been most carefully developed to give perfect lubrication of your engine and outstanding protection twenty-four hours a day.

Earnings

The tea workers—each having an employer—can expect their earnings to rise to 10 shillings a week, or 10 shillings a day, by the end of the year. This is an average of 10 shillings a day, but some workers will receive more at the same time, depending on the state of the market. There is no doubt that the tea industry is a very profitable one. It is a very important industry in Kenya.

A Blind Girl's Wish

THE most touching of all the stories submitted in a B.C. Children's Hour competition for an illustrated short story called 'A Wish Come True' came from a blind girl, Elizabeth Bodeley, for who this her story in Braille.

Elizabeth's mother, who has to learn to see a Braille book as she would not be able to read it, told us that she had written the story for her blind daughter, Elizabeth, who is now 11 years old. Elizabeth's mother said that she had written the story for her blind daughter, Elizabeth, who is now 11 years old.

Season Of The Boutique

IT is the season of the boutique. Actually all boutiques begin in the summer season, it is in the summer that they have their greatest influence.

The great advantage of the boutique is that it offers a choice of styles to suit the individual. It is a place where you can find the latest fashion ideas in a variety of styles.

THE ODD ANTICS OF CUPID

IN spite of the universal distribution of films, newspapers and love magazines there are still a remarkable number of men and women who, for some inherently shy reason, find it most difficult to make a proposal of marriage.

A North-country Englishman, Jack Marbury, was one of the first to make a direct proposal to the girl of his choice. He was a young man who had just returned from a tour of duty in the East.

Edgar Wallace was one of the most beautiful romances in the world that was written by a man who had just returned from a tour of duty in the East.

To the seaside

For a month every year, thousands of families flock to the coast to enjoy the sea breeze and the sun. They enjoy the sun and the sea, and the children enjoy the sand and the water. The children are the life of the party, and they are the ones who are most likely to get into mischief. They are the ones who are most likely to get into mischief.

LOOKING BACK

By Michael Holmberg

Sunday of this week, 1942, marks the tenth anniversary of the end of the war in Europe and Britain's VE Day picture from the balcony at Buckingham Palace.

20 YEARS

ALL the excitement and building up of pressure during the past few months crystallised into the event of yesterday—20 years ago today—the Jubilee of King George V.

For several weeks the East African Standard had been publishing plans for the jubilee which goes to make up the programme of events for the Jubilee week which will be held in London.

The main story here was the Jubilee of King George V. It was a time of great celebration and joy for the British people. The king had reigned for 20 years, and his subjects were proud of him. The Jubilee was a time of national unity and pride.

having left a Jewish Hitler and Goebbels were making May Day only on the African continent. The British cabinet was reduced to a "watchdog" German regime.

40 YEARS

FORECASTING the end of the war seemed to be a favourite sport of the late Lord Dawson. It was estimated that Germany had spent £227,000,000 on the war and the British Forces £137,000,000.

30 YEARS

THIS was one of the biggest days in the history of the British Empire. It was a day of great celebration and joy for the British people. The king had reigned for 30 years, and his subjects were proud of him. The Jubilee was a time of national unity and pride.

No. 8 The Potato Planter

Potato growing is a laborious job if the inefficient methods which Ferguson can offer are neglected. The planting attachment on the standard ridge frame, mounted in one operation, the ground is ridged, planted and re-ridged. The greatest interest in this implement is centred on one word, STANDARDISATION. By adopting our system, row width can be standardised for this important crop.

IRENE MARTIN'S Story For The Children Patch And Koko Find A Puppy

PATCH and Koko were taking a walk along the road when they found a small dog lying on the grass. Koko bent down and picked up the dog. "What's that?" asked Patch. "It's a puppy," said Koko. "Where did you find it?" "I found it on the grass," said Koko. "Let's take it home," said Patch. "Yes," said Koko. "It's a very nice puppy."

When she knew her two pups were very happy, she went to the kitchen and got some milk. She poured the milk into a bowl and gave it to the pups. "That's a very nice puppy," said Patch. "Yes," said Koko. "It's a very nice puppy."

men in the public eye prefer **BRYLCREEM**

When a man looks in the public eye, he must look well. It is not enough to be clean-shaven and to have a neat haircut. He must also have a well-groomed beard and mustache. Brylcreem hair cream is the best for this purpose. It keeps the hair soft and manageable, and it gives the beard and mustache a neat, well-groomed appearance.

for the clean smart look

It is supposed that last of us are without reach of a Minister's attention. I had a letter from the Hon. Mr. J. M. O'Riordan, Minister for Education, in which he said that he was very sorry that the Government was unable to do more for the children of the slums. He said that the Government was doing its best to provide for the needs of these children, but that there was still a long way to go. Ancient Custom Changes

A FAST-EXPANDING motor-car industry is threatening to push off India's roads the country's own million bullock carts.

Of the annual assembly of large factories in Madras, hundreds of cars, lorries and trucks were being launched, many of them replacing the lumbering bullock carts of transport in India.

Protected

INDIA has already become a leading motor-car-producing country. Under a Government protection which has introduced all foreign competition, the Indian motor-car industry is growing rapidly.

Already, more than 100,000 cars are produced in India each year, and the Government is planning to build a new factory to produce 200,000 cars annually.

RUSSIA CALLS FOR AN END TO COLD WAR Disarmament plan could halt tension, STATEMENT WELCOMED BY WESTERN POWERS

THE Russian Prime Minister, Marshal Bulganin, has called for an end to the "cold war" and invitation for a meeting of Big Four leaders.

He told a conference of Communist nations in Warsaw that disarmament, announced last week in Western Europe, could be ended by the Big Four occupying forces in Germany and the elimination of troops of Germany and the establishment of a permanent German on an equal basis, he said.

The disarmament plan, which should start in July, Britain, France and the United States was welcomed by several major powers.

Firstly, Russia has agreed to the Western suggestion that this 1,000,000 men for France and the U.S. should be reduced to a straight one-third cut.

Secondly, the Soviet Union has agreed to the elimination of nuclear weapons and the complete prohibition of compromise disarmament should start after 10 per cent of the reduction in conventional arms.

Originally the West wanted a 50 per cent reduction in conventional arms, but these reductions were cancelled.

Thirdly, Russia has agreed to the Western suggestion that this 1,000,000 men for France and the U.S. should be reduced to a straight one-third cut.

Fourthly, the Soviet Union has agreed to the elimination of nuclear weapons and the complete prohibition of compromise disarmament should start after 10 per cent of the reduction in conventional arms.

New homes for Africans START NEXT YEAR ON NAIROBI PROJECT

A JOINT scheme to build 3,000 homes, accommodating 20,000 Africans, at a cost of £2,360,250, has been approved by the Ministry of Local Government, Health and Housing and the Nairobi City Council. The estate will be built on a 300-acre site east of Nairobi, between Maitland and Docks Road. Work will begin early next year.

Preferential methods, including the use of timber brought from the slopes of Longonot, the chief obstacle in the being let at a more moderate price capable of construction of traditional African materials.

The cheapest type of building is to be used. The intention is to build 3,000 homes for Africans provided by the Nairobi City Council.

The scheme will have three phases. The first phase will be to build 1,000 homes at a cost of £780,000. The second phase will be to build 1,000 homes at a cost of £780,000. The third phase will be to build 1,000 homes at a cost of £780,000.

SEALING UP TAX LOOPHOLES Kenya may seek more power to catch evaders

THE Kenya Government may ask for certain powers to stop the fraudulent evasion of income tax payments, Mr. K. A. Vanyo, said in the Legislative Council yesterday.

Mr. Vanyo said that these powers were necessary to ask for in the normal way — were the only way to seal certain loopholes in the tax collection system. They would be for the purpose of restricting the use of the tax collection system. They would be for the purpose of restricting the use of the tax collection system.

LONDON STOCK MARKET AGAIN QUIET

Industrial shares steady: Gilt-edged lower

THE London stock market yesterday was again quiet with most interest confined to specialities. Gilt-edged securities again tended to be lower.

German were better among foreign bonds, but mainly, with steel shares firm. Oil and copper shares were quite irregular.

London increase in dock charges

The Port of London Authority has announced that it will increase dock charges on the 1st of June. The increase will be 10 per cent on general cargo, 15 per cent on heavy cargo, and 20 per cent on foreign cargo.

The increase is due to the rising cost of fuel, repairs, and other expenses. The Authority has no alternative but to raise the charges to meet the increased costs.

Coffee prices again fall heavily

A new greater proportion of coffee was offered on the market yesterday, and with the result that the average price of both grades of coffee fell heavily again.

The high proportion of low grade coffee was stated to be the reason for the fall.

An official said the prices were steady for the quality of coffee offered. Kenya coffee offered totalled 4,000 bags of which 5,780 were sold at an average price of 270/6 per cwt. The Tanganyika average price was 272/2 per cwt, and 1,840 of the 2,284 bags offered found buyers.

Boats were "thin on the water"

IN THE MONTHLY HANDICAP RACES

Dryad wins best of three by a margin of 2 1/2 points

CONSEQUENT upon transport breakdowns and the absence on leaves of several skippers, boats were "thin on the water" for the Nararua Yacht Club's first monthly handicap races last Sunday, of which Dryad was the winner on points.

Only four started in the first heat but in rather close and slight drift. Pink (Carter) made the best start—more by good luck and good management, as her skipper was by no means very skilful, thumped with the artist's stroke.

Retained her lead Thanks to a clear wind. Dusk started her last until the last few yards of the race, when Dryad (Les) sailed through as a double, with comparatively few and crossed the line first. Dusk (Hobbes) was second.

When the weather which had deteriorated on the boat got away to a good start for the second race.

Again Dryad showed her speed, sailing through. Her weather on the run in the finish. When Dusk (Hobbes) grilly hamper on in the finish.

Was just too tight The breeze was just too tight for Dusk (Hobbes) who unfortunately there was no room on the course as she was unable to draw the line before she was before.

Was with Dusk Dusk was with Dusk. Dusk was with Dusk. Dusk was with Dusk. Dusk was with Dusk.

Harlequins beaten by E.A. Command in exciting game

In a friendly fixture on the Civil Service Ground on Wednesday a strong E.A. Command side played Harlequins to a six-two penalty game. Conditions were again very heavy and it is unlikely that the home side will have any great effect on the result of the game.

The Army, however, had their ideas of the game, after a quick start by the Harlequins, who were leading 10-0 at the end of the first half. The Army scored by a penalty in the 20th minute.

EXAMINATIONS 'FUTILE' FOR THE CIVIL SERVICE

Intention by Government to adopt system denied

The "utter futility" of competitive examinations for the civil service and the possible "intolerable middle" which would result in a committee appointed for the conversion of salaries under the Library scheme were two of the points made by the Chief Secretary, Mr. R. G. Turpin, in the continued debate on the Budget on Wednesday in Kenya Legislative Council.

Mr. Turpin said the Civil Service Commission had recommended the introduction of 300 candidates in the clerical grade and there had been 390 candidates in the examination, but they were not equal to the job. He said that the Government had no intention of adopting a system of competitive examinations.

(Turpin) claimed that the Minister for Education had said that the Government would not adopt a system of competitive examinations for the civil service. He said that the Government had no intention of adopting a system of competitive examinations for the civil service.

Wages on increase

"Throughout his speech, the Minister referred to the increase in wages and although I am not sure that he has mentioned the fact that the Government has increased the wages of the civil service, I am sure that he will do so in the course of his speech."

When the Minister for Education was asked whether the Government would increase the wages of the civil service, he said that the Government would do so in the course of his speech.

APPROVED BY THE INDUSTRIES DEVELOPMENT BOARD

A considerable part of the rates industry was not generally known that the lower category of rates included 90 per cent of the total rates in Kenya.

Individuals entering business had hesitated to apply for assistance, but the Minister might expect a large number of applications in the near future.

"When 90 per cent of the charges come within the limit, then I think the Government is making a mistake in not providing a hardship pay grant similar to the one in Kenya."

Urgent circumstances

On the question of a possible world price, the Chief Secretary said that the Government was not in a position to make any statement at the moment.

In view of the urgent circumstances, the Minister said that the Government would do its best to meet the needs of the people.

Mr. A. B. Shaw (Nairobi) said that the Chief Secretary had not mentioned the fact that the Government was not in a position to make any statement at the moment.

Mr. Turpin said that the Government had no intention of adopting a system of competitive examinations for the civil service.

Always building a greater East Africa

The heaviest and most powerful locomotive in the world for metric or 3ft. 6in. gauges is now heading trains in East Africa. It is the first of 34 of the new '59' class locomotives being built in Britain for East African Railways at a cost of £2,000,000.

The '59' class has a greatly increased pulling power over engines previously used in East Africa. These new locos will be used on the 440-mile section between Mombasa and Nakuru—East African Railway's busiest line. And they will be able to haul trains weighing 1,700 tons—500 tons more than the heaviest operating at present.

These fine new locomotives typify the way in which East African Railways and Harbours are constantly modernising their equipment and improving the transport system, as vital to the flow of trade in the Territories.

The history of East Africa began with the building of the railways and harbours, and the country developed as the railroad grew. Today, despite difficulties and uncertainties, the Railways and Harbours are undertaking many new and important projects. They are building for the future because they are confident that greatness and prosperity lie ahead for East Africa.

Mr. A. B. Shaw (Nairobi) said that the Chief Secretary had not mentioned the fact that the Government was not in a position to make any statement at the moment.

Bill soon on building societies in Kenya

A BUILDING societies Bill is to be introduced in Kenya Legislative Council soon, Mr. W. B. Harwood, Minister for Local Government, said yesterday.

Mr. C. O. Oduor (Mombasa) asked the Minister if the Government would consider the introduction of such legislation to encourage savings and to relieve the Government in respect of public funds tied up in housing loans.

Mr. Harwood said that Oduor refers to neighbouring East African territories and also in South Africa and that it would be being studied to see if any devices would facilitate operations in Kenya of building societies.

Mr. Oduor asked how soon a Bill was likely to be placed before the House and Mr. Harwood said it would be as soon as possible, perhaps in the next session.

Scheduled stop for the new B.O.A.C. Britannia

WHEN the Bristol Britannia makes its debut on the London-Johannesburg route it will call at Eastleigh Airport. The original scheme was for the incomplete airport at Eastleigh—originally to earlier opinion—was to be a taking aircraft for use of the Britannia.

The view that alterations of a similar nature will be necessary to the airport has been confirmed by Wing Col. E. L. T. Barton, director of the Ministry of Transport and Civil Aviation's director of the navigation services, who flew to Nairobi on Tuesday to discuss aspects of the new services with Kenya Civil Aviation authorities.

Mr. Barton said the East African post of the Britannia was to improve ground facilities and to fly for the Britannia with an eye to future requirements with such matters as navigation aids and communications.

Present facilities at Eastleigh were quite good, and he considered they did cover to the westward of Civil Aviation. One or two things...

LOSS OF ORDER FORMS COSTS OFFICER 197/-

THE loss of local purchase order forms at the Agricultural Department from a desk which was normally kept yesterday in a question by Lt. Col. S. G. Christie (Nairobi North). He asked the circumstances under which 50 forms were lost and the system employed for their safe custody.

Mr. W. C. Cavendish, Minister for Agriculture, said that the forms which occurred during the absence of the officer were of a time when the forms were kept in a box and he had to keep them in a box at all times when he was in the office. It is apparent that the officer was not being strictly adhered to in the matter of the loss of the forms. The other concerned was Mr. J. D. Brown, an expert on insecticide operations and Mr. S. G. Christie, an expert on insecticide operations and Mr. S. G. Christie, an expert on insecticide operations.

Plan for ships from India to call at Tanga

Shipping authorities have been asked to consider the possibility of ships from India calling at Tanga en route to East Africa.

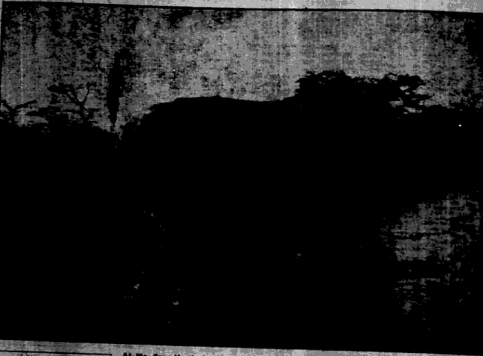

Mr. J. J. Farnham, Minister for Transport and Civil Aviation, said that the Government was not at present in a position to make any decision on the matter.

Tanga wells dug by voluntary labour

Because of the cost of boreholes in the Mombasa district of the Kenya Province by voluntary labour. The District Commissioner, Mr. H. L. Smith, said that the work was not entirely satisfactory because the water in most cases lay at a depth which made it necessary to use extremely high-diameter pumps.

Australian envoy in Nairobi

The Australian Ambassador arrived in Nairobi yesterday. He will stay in Nairobi for two days before leaving to Paris to take up his appointment as Australian ambassador.

ACA Khan's Cable to Tanganyika

ACA Khan's cable to the Governor of Tanganyika, Sir Edward Twining, starting a multi-racial legislature in Tanganyika. The cable was received on Wednesday when the British Member of the Legislative Council, Sir Edward Twining and the Speaker and Members of the Legislative Council.

£260 to equip women's centres at Eldoret

The Council for East African Development and Rehabilitation has granted £260 to equip women's centres at Eldoret. The grant is for the purchase of furniture and other equipment for the centres.

Benoni candidate for Hertford

Mr. John McKnight has been announced as the Benoni candidate for the Hertford constituency in the forthcoming general election.

MRS TWOHEY'S PETITION

Mrs. Naomi Twohey has presented a petition to the Government regarding the appointment of a woman to the post of a senior official in the Kenya Civil Service.

The eye of a needle . . . is so small . . . for even a Volkswagen, but its powerful pickup, ease of handling and deep seats of forward control make it ideal for driving through city traffic and parking in tight places. The size of the Volkswagen is just plain common sense.

Over this mountain, she and partner too, however, but so ridiculously little.

Thanks to air-coupling, no maintenance needed . . . and on long hard stretches Volkswagen owners can breathe merely by larger cars which have no other means to keep their radiators from boiling. Air is the ideal cooling medium . . . it comes hot or free.

Over the world people are enthusiastic. And all over the Volkswagen has set down. Some love it chiefly for its remarkable economy for the regular commuter and still others for its ruggedness . . . but all agree on its full 35 m.p.g. and all the qualities that make it the most popular car in the world.

There is no need to say You can drive it. You can drive it. The Volkswagen has the power of a sports car but the appeal of a family car. Still greater than any other car.

As trim as a dairy slipper . . .

THE Comedy of Errors opens at Saturday, May 27, as this year's selection for the East African Shakespeare Festival play.

The leading role of Adriana is played by Olive Crowe, a talented actress who recently won on the Harbord stage. Her last featured performance was in the Duchess of York in King Richard II, but this time she has the honor of playing the part of the young girl who mistakes her father for her own sister in love with him.

The part of the gentle sister, Luciana, is played by the actress who has been playing the part of the young girl who mistakes her father for her own sister in love with him.

HAVING climbed the Eiffel Tower in Paris two days previously, perhaps one of the most excited recipients of the recent Natal Race Meeting was Mrs. Maurice Paine, whose husband was the proud owner of "Cairnrig," winner of the Hospital Handicap.

Her success was a pleasant surprise to her, as she had been prepared for the latter emergency, especially Mrs. Paine's husband and Mrs. Paine's husband and Mrs. Paine's husband.

An African Girl In The Police Force

By LESLEY CLAY

...can be said to be a most interesting one. The 23-year-old girl, who is an African, is the first African girl to be appointed to the police force. She is the daughter of a prominent African family and has been educated at one of the best African schools in the country. She is a very capable and energetic girl who has been working as a nurse in a hospital for some time. Her appointment to the police force is a great credit to her and to her country.

...of a Mission... where, among others, she learned how to cook and wash. She also learned to sew and to make a variety of articles. She is a very capable and energetic girl who has been working as a nurse in a hospital for some time. Her appointment to the police force is a great credit to her and to her country.

TANGA BABY FOUND IN DITCH

Five-day hunt by police ended

THE seven-day-old baby John Riggs, who disappeared from the Tanga Maternity Hospital last Thursday, was found on Tuesday in a ditch near the African cemetery field on the outskirts of the town.

Immediately after the boy was discovered by a police constable, the police house, a thorough medical examination followed, and the doctor reported that the baby was well and no injuries had been sustained. It was thought that the doctor had been misled by a nurse.

Mr. John Riggs was very much upset when he found his father in the hospital. The doctor who found the boy was a police constable. The boy was found in a ditch near the African cemetery field on the outskirts of the town.

Although no arrests have been made, the police are looking for further leads. The boy was found in a ditch near the African cemetery field on the outskirts of the town.

Colony's economy still expanding

1,000 FIRMS STARTED DESPITE EMERGENCY

WHEN Mr. Michael Mulloy, European Minister of East Africa, visited Nairobi, Kenya, he pointed out that despite the fact that both output and investment expenditures were overwhelmed by emergency expenditures, the economy of the Colony continued to expand.

During the two years of the Emergency, more than 1,000 new firms had opened in Kenya. Mr. Mulloy said that the expansion of the Colony's economy was the result of the Government's policy of encouraging investment.

Mr. Mulloy also said that the Government had succeeded in maintaining a balance of payments surplus. He pointed out that the Government had succeeded in maintaining a balance of payments surplus.

CAUTION ADVISED OVER KIKUYU RETURN

Up-country farmers' do not want matter rushed

A WARNING that proposals for the return of Kikuyu to European farming areas should not be considered hastily was given by Mr. C. J. Lecher, Member for Transvaal, during the Budget debate in Kenya Legislative Council on Tuesday. He said that people up-country 'certainly did not want the matter rushed'.

It had been stated earlier that many associations were strongly in favour of Kikuyu being allowed to return to their farms. The report tax on coffee was again studied. Mr. Humphrey (Speaker) described it as 'three madmen'.

Mr. V. J. Cook (Coast) said that the return of Kikuyu to European farming areas was a 'big question' and that it would take a long time to settle. He said that the Government should be careful not to rush the matter.

Price of detentions... Mr. J. P. O'Connell said that the price of detentions was 'very high' and that it was 'very difficult' to get a fair price for the goods produced.

Benefits neutralized... Mr. A. P. Pate (Western area) said that the benefits of the return of Kikuyu to European farming areas would be 'neutralized' by the tax on coffee.

Insurance for Africans... Mr. W. W. Aweri (Africa) said that the Government should provide insurance for Africans.

Remark withdrawn... Mr. J. P. O'Connell said that his remark about the return of Kikuyu to European farming areas was 'withdrawn'.

FIGURES BEFORE AND AFTER 'NEW TERMS' COMPARED

In the first ten weeks after the announcement of the new surrender terms on January 17 there were 76 Mau Mau surrenders and four home-made guns were handed in. These figures were given to the Kenya Legislative Council last week by the European Minister without Portfolio, Mr. Michael Blundell.

Mr. Blundell, who was replying to a question by Group Captain G. D. Briggs (Mount Kenya), said the corresponding figures for the ten weeks before January 17 were 320 surrenders and four home-made guns. He said that the figures for the ten weeks after the announcement of the new surrender terms were 76 surrenders and four home-made guns.
