Trains get through on Coast again

SOMALIA RUNS OUT OF FUEL

RAIL traffic was able to get through on the Nairobi/Mombasa line for the first time yesterday after Sunday morning. Work crews had been all night to repair damage to the bridge between Embaki and Mombasa.

The work has meant little sleep and long hours for the gangs and the engineer-in-charge, Mr. Peter Hicks, said. "We are not going to leave the site until we are absolutely sure the bridge will stay up."

At about 4 p.m. yesterday, two hours after the first train had left Nairobi with passengers bound for Mombasa, Mr. Hicks and his men experimented by sending a test locomotive across the bridge. Traffic was then given the all clear.

NEW BRIDGE TO BE BUILT

The bridge, first damaged about a fortnight ago, was closed on Sunday morning when the pressure of floodwater was threatening to push over the remaining abutment on the Nairobi side. Since then, the embankment behind it has been dug out and strengthened and the abutment wall is being reinforced with concrete.

The bridge bears grim testimony to the savagery of the recent floods. Fifty yards downstream lies the original trestle which carried the line across, while around the bridge the remains of the embankment and wing walls that supported it on the Mombasa side.

The grider carrying the rails is now supported on piles driven into the bed of the river with concrete bases, shoring up the new abutment on the Nairobi side.

The flood waters have been working steadily since they started to rise on the 27th. Survey work has already started for the siting of a new bridge to replace the old one. The construction team travelled to the site of the new bridge in the direction of the Kenya Legislative Council building, where the Government is planning to build a new office building and a new house.

BRIGADE FAIL TO TURN UP

PLEVEN Caledonian footballers, plus the referee, waited on the Caledonian ground last night for the 14 Brigade team to turn up for a May Cup match, but for the second time in a fortnight the soldiers did not arrive.

Instead, a club member with the news that the 14 Brigade officials turned up the night when they thought it was the diary night.

They claimed that they had an accident on the way from the league and that they could not get a team.

It was the latest in the series of organizational errors which have caused a lot of adverse comment.

But the services had been called on to play in the Caledonian Cup, and the referee was awarded a 1-0 win.

Royal baby makes his public debut

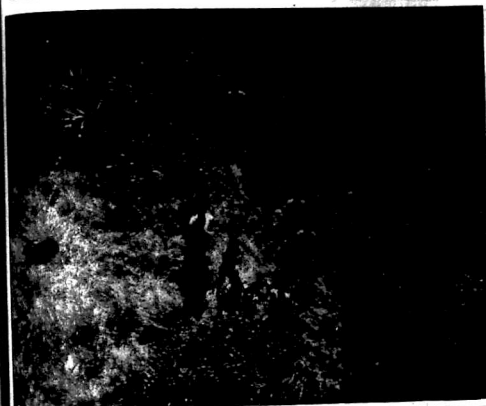

FATHER TOOK THE PICTURES

As was expected, the first pictures of Princess Margaret's three-week-old son were taken by his father, the Earl of Snowdon. The pictures, released in Britain last night, show why Lord Snowdon was a place as a leading photographer before his marriage. Like his ex-wife, above, all the pictures have a natural and informal look.

Another of the out-of-the-ordinary son of Royal photographer, showing mother and son cheek to cheek. The baby, who will be known as David, Viscount Linley, is fifth in line of succession to the throne. Walter was naturally delighted at the choice of the name David, and there already the baby has been called Davy, and even the diminutive, Dav.

Once again there was some excellent squash to be seen in the women's championship, the semi-finals of which will be played tonight at Nairobi Club. At Parklands the first round of the men's play was played off.

The Rhodesian "invaders" was repelled last night, with a second seeded player eliminated. The quarter-finals tonight will include three Rhodesians, one of them unseeded, together with J. D. McAlindin, the only other unseeded competitor.

B. Davies, No. 5 seed, eliminated the unseeded Rhodesian, R. O'Connor, in straight games, the latter not appearing to be fully fit.

'Consultation if war should break out BRITAIN SEVERES S.E. ASIA BASES

Malaya differs on agreement

TUNKU ABU RAHMAN, Malayan Prime Minister, said yesterday Britain might use bases in Malaya and Singapore in the event of a war.

He told a Press conference in London there were different interpretations of last week's Anglo-Malayan agreement on the setting up of a defence agreement for Singapore. "Britain has one interpretation and we have a different one."

The wording in the agreement is such that it gives us a chance to explain to our own Parliament.

He was obviously questioned by reporters as to whether the consent of the Malayan Government would be necessary before British troops in Singapore were used in operations elsewhere in South-East Asia.

Must be consulted

He answered that "in the event of outbreak of war, Malaya must be consulted. Asked if consultations implied the "consent" of the Malayan Government, the Tunku said that there would have to be a degree of consultation.

The Tunku said of Singapore: "There will be a transfer of sovereignty and as a matter of courtesy and international etiquette between two sovereign Powers" Britain would have to consult with Malaya.

The Malayan leader said that the Anglo-Malayan agreement was not "one thing or another." "It was what Malaya wanted it was linked up and was not a matter of the defence of South-East Asia," he said. "It was a matter of the Federation of Malaya and Singapore."

On the future of Singapore, he said that if an extreme Left Government got power there, "we would have to question."

Mutual trust is Queen's hope

THE Queen making a state visit to Sierra Leone's Parliament in Freetown, said yesterday that the essential relationship and mutual trust between Britain and Sierra Leone which had been marked in the past should continue into the future.

The Queen and Prince Philip are due to arrive in Freetown on Monday after their week-long tour of the diamond-rich West African country.

At a State banquet last night, the Queen thanked the hosts for their warm reception, and said she was glad to see the country's progress.

She said she was glad to see the country's progress and the mutual trust between Britain and Sierra Leone which had been marked in the past should continue into the future.

Tax clearance needed before anyone POST IN

may leave Kenya FOR MR. KUBAI

NO SURETY, NO TRAVEL

KENYA'S new income tax laws are brought into force gradually, giving the Commissioner of Income Tax powers over a period of time from the Colony.

No one can now leave Kenya without his consent, unless travel tickets were bought last month. No income tax settlements of a nature of such — means no ticket to other lands.

Yesterday, however, many people were flying from Nairobi's Embusasi airport with no official clearance in their passports, and it was not demanded of them. They were among the last to leave without it, and an airport official told the East African Standard: "These people bought their tickets before the law came into force, and it has not affected them. It will affect those who visit their travel agents in the future."

'WORKING VERY SMOOTHLY'

A tax official at the East Africa High Commission building, Nairobi, said: "Things are going very smoothly, and I am sure they will continue to do so." He had put no special patrols on border posts, but Customs men had been asked to insist on a tax clearance before raising the barriers.

No extra items were needed at the airports or docks, he added, because a traveller would not be issued with a ticket unless his tax had been considered.

Many travellers will have to pay 15 months tax before they are cleared, but many others will be given retroactive clearance as a company matter.

And what about emigrants? The spokesman said the officials were not asked to check in Nairobi and in an emergency, to check an application without travel agents were working by introducing the forms by post to the Commissioner for tax purposes before the end of the month.

One of them said: "No one had been cleared yet, but of course it is early yet."

He said some 28,000 to prepare the Marine Fisheries Research Vessel, Manihua, at Mombasa, for her part in the regional International Indian Ocean Expedition.

High Commission spokesman yesterday reported that the ship was to be repaired in London, and that the crew would be repatriated.

The spokesman said some 2000 workers had been working since start-up as soon as the Colonial Services' engineers were received.

10,000 miles

The spokesman said the normal economic development was starting positively as national resources were being developed.

He said that the start of the new Government was a matter of hours of the large number of people settling in the country.

Mr. Thompson said that the Government had taken an interest in the welfare of the children, and was encouraged to do so. He said that the Government had been successful in the school in other ways.

Good fields for meeting at Nakuru

ONE of the main races on the card when racing resumes here is a 1000 yards dash at Nakuru today in the Delamere Cup, over 11 furlongs. Unfortunately this will produce the maximum distance at today's race. Hot Number has shown great improvement this season and has won his last three races.

Midweek run a good race when winning the Queen's Day Cup and earlier in the season ran well in the Blunt Hobson Cup over the same distance at today's race. Hot Number has shown great improvement this season and has won his last three races.

Dancing Flame, who finished second to him at the Derby meeting, has won a great chance this afternoon while I feel that the Irish girl there is to be a surprise 3 goal, but it is the best I can do for her.

Probably the most interesting Nakuru 2-100 Championship Stakes Race over seven furlongs. This event is one of the most valuable points in the season. The quarter points on the race have been derided by many.

With a couple of the Nakuru stables having been better to the meeting, the top weight, Cuthbert, is a very good chance. He was out well on the 1st and 2nd but has been a bit off the mark since.

Rheumatism relieved

powerful new drug reaches the spots which cause pain

Typical rheumatism, rheumatoid arthritis or where the pain may be traced to a single joint or a small group of joints, you will often find that the pain is worse when you are up and about and better when you are lying down. This is because the joints are inflamed and the pain is caused by the pressure of the inflamed tissues on the joints. This is the same as the pain in a sprain or a bruise. FORGOTTEN

It is a little-known fact that the British Empire is the largest in the world. It covers more than a quarter of the globe and its people number over a billion. Yet, in many ways, it is forgotten. Its history, its achievements, and its contributions to the world are often overlooked. This is a shame, for the British Empire has played a significant role in the development of the modern world. Its influence can be seen in the language, the law, and the culture of many countries. It is time to remember the British Empire and its many contributions to the world.

Sikh delegation leads to a challenge

I WAS surprised to read that the Kenya Central Sikh Council delegation had an interview with the Colonial Secretary and submitted proposals for the safeguard of minorities in this country. As a Sikh, I completely appreciate myself from any proposal submitted by this delegation on behalf of the Sikh community in Kenya. I do not think that the Sikhs as a community should indulge in the politics of this country. They should leave the question of any safeguards in the hands of the two major African parties - Kenya and Kabu - because in an independent Kenya it will be entirely in the hands of these African leaders to implement any safeguards suggested by the Colonial Secretary as a step.

I was wondering what would be the result of the Kenya Central Sikh Council in regard to this delegation and its proposals. I would appreciate it if you could let me know the result of the interview and the proposals submitted by the delegation.

Elderist situation

UNFORTUNATELY as a result of the Colonial Secretary's recent visit to this district, the general atmosphere of the place between the full-time and part-time members is becoming increasingly onerous. The full-time members are being asked to do more and more work, and the part-time members are being asked to do less and less work. This is a very unfair situation and it is time to take steps to rectify it. The full-time members should be given more recognition and their work should be valued more highly. The part-time members should be given more work and their contributions should be recognized. It is time to find a way to balance the workload and to ensure that all members are treated fairly.

THE DRAMA

I WAS pleased to read that Makereke College is planning to read a drama course next year. It is a good thing that drama is being taught in schools and colleges. Drama is a very important part of education and it helps to develop the imagination and the creative abilities of students. It also helps to build self-confidence and to improve communication skills. I hope that the drama course will be a success and that it will provide a valuable experience for the students.

IMPRESSED

I am very impressed with the work of the Kenya Central Sikh Council. It has done a great deal of good for the Sikh community and it has worked hard to improve the lives of its members. I am sure that it will continue to do so in the future. The Council has been very successful in its efforts to improve the education and the welfare of the Sikh community. It has also been very successful in its efforts to promote the interests of the Sikh community in Kenya. I am sure that it will continue to be a great asset to the Sikh community in Kenya.

Deposed leader accused over flood relief supplies

SOMALI CABINET SPLITTER SACKED

Accused of 'aid workers struggle on in chaos'

FROM STANDARD STAFF REPORTER, MOGADISHU, MONDAY NIGHT.

MAJOR crisis in the Somali Republic Cabinet erupted into the open here today with the dismissal of the Minister of Health, Sheikh AH, for alleged mismanagement of flood relief work and misapplication of medical supplies.

The crisis within the Cabinet has been brewing for several weeks. Sheikh AH had formed a parliament splitter group in opposition to the Prime Minister, Abdurashid AH Scaramke.

A decree issued by Sheikh AH was signed by President Abdirahman after the former Minister was accused of the Prime Minister over the medical supplies. He is alleged to have refused to attend night meetings held at the weekend and the President was asked to issue emergency powers to dismiss the leader by decree.

Indian troops move to Goa

THE Indian Army has requisitioned 76 trains apparently to move troop reinforcements up to the Goa border, reliable sources said yesterday.

The trains will be in Army use for several days and civilian passenger schedules have been disrupted. Border police near the Portuguese enclave of Daman north of Bombay have been reinforced.

The Indian news agency, Press Trust of India, quoted reports received in official circles that the Government had personally invited Portugal to send a military force to the border along the empire's southern and northern borders.

The reports said gains were expected on Indian territory in the north and south and some officers in Goa were being transferred to military operations.

Churches used.

The Portuguese authorities were using churches, their ammunition and for camping ground, and other facilities. The Goa military minister had sent a representative to the Indian special representative to discuss the situation.

An Indian Goa political representative in the Maharashtra State Legislative Council had also visited Goa about the situation.

Health threat to uhuru capital's gaiety

Standard Staff Reporter.

DAK ES SALAAM is worried about the safety and health of the hundreds of V.P. visitors and the thousands of lip-curling Tanganyikans who will begin to pour into the capital today for the independence celebrations.

The town's water supply is contaminated, malaria control is below normal and, with an added risk from the thousands of decorative lights put up, the town will probably prove to visitors "with no fewer evils on this 7-12-61."

The British ambassador, Sir Roger Alton, said that he is at this gathering to mark the first time the Government has heard Gen. Kassem publicly speak.

Gen. Kassem said "history is being written. I intend to remain here for as long as I can to see what kind of a government will be set up."

Earlier this year British troops went into Kowari at the request of the British High Commission in Dar es Salaam.

The British troops left in the month of July and have replaced them.

Emperor thanked

The Emperor of Kenya, Sir Patrick Bence, has thanked the Governor of Rhodesia for the generous gift from his Empire for the relief of the flood-stricken areas in Rhodesia.

Three letters which have been being the Honorable K.M. Makenzie, K.C. M.P., member of the House of Commons, who has been awarded the Victoria Cross.

Minimum wages rates will apply to four more towns soon

BIGGER HOUSING ALLOWANCE

Minimum wages are brought within the scope of the new minimum wage act in four more towns in the Province. They are Kericho, Nambale, Nakuru and Nyeri. This makes a total of 14 urban towns for which the minimum wages and housing allowances are prescribed.

On January 1, when the new order came into force, the wages were to be increased by 10 per cent in a month in Nairobi and Kisumu, and by 10 per cent in three months in the five remaining urban towns—Mombasa, Nakuru, Nyeri and Thika.

Minimum wages in the four towns now included in the order range from 80/- to 120/- in the case of youth and 90/- and 130/- in the case of adults. The corresponding housing allowance is set at from 15/- to 18/- and from 20/- to 24/- respectively.

URGENT JUSTICES MOVE

An official statement explains that the growing importance of the four townships, through their inclusion in the list of the towns for which the minimum wages are fixed, is a first step. The adult minimum wages which are fixed in these townships have been fixed at 120 per cent for the youth basic minimum wages. This is 20 per cent more than the corresponding minimum wages for the nine towns currently subject to minimum wage regulation.

The adult housing allowances in the four additional towns have however been fixed at twice the corresponding allowances in the other nine towns, because of the danger attracted by Government to ensuring that men employed are not lured by their employers to migrate to the towns for the better of married quarters.

The new order is set out in the table below.

Town	YOUTH		ADULT	
	Wages	Housing Allowance	Wages	Housing Allowance
Nairobi	120/-	24/-	130/-	24/-
Kisumu	100/-	24/-	110/-	24/-
Mombasa	80/-	15/-	90/-	15/-
Nakuru	90/-	18/-	100/-	18/-
Nyeri	100/-	18/-	110/-	18/-
Thika	100/-	18/-	110/-	18/-
Kericho	100/-	24/-	120/-	24/-
Nambale	100/-	24/-	120/-	24/-
Nakuru	100/-	24/-	120/-	24/-
Nyeri	100/-	24/-	120/-	24/-

Baby in trouble... arrives

The big heave...

- 1 The overnight game watchers at Treepops have gone — but a minor drama goes on. A baby rhino is almost swallowed up in the mud surrounding the water hole at the Nyeri game lookout and cannot free itself. Its mother retires into the nearby bush.
- 2 Willing hands clear the worst of the mud away from the unfortunate animal and a stout rope is placed around its neck so that it can be hauled clear.
- 3 Mother is not far away and a professional hunter stands by, ready to protect the gang which by now has the situation well in hand. Inch by inch, the tiny rhino, which is about a year old, is moved on to firmer ground.
- 4 Still confused by its experience, the rescued baby can't make up its mind which way to go. He has to be pointed in the right direction and given a smack on the rump before trotting away to rejoin mother.

Nayana saved up for four years

LAST week Nayana, an eight-year-old Nyakaja schoolboy, went to the Post Office savings account to make his first deposit. What should she do? She was advised to open a 'Penny Post' account for her. This is the best way to save money, she was told. She has now saved up for four years.

Christmas

I SHOULD like to thank you for publishing a number of items with Christmas interest, such as Cyril's letter, the article by Mrs. J. M. D. and the 'How to save money' article. I believe you have done a very good job of the money part of the 'How to save money' article. I am sure that many of your club members would appreciate articles of this kind, and also to Cyril.

I wonder if it would be possible to take up Cyril's letter about the Christmas card. It is only 28 days to Christmas, and we are going to get our cards, make merry, give and receive presents amongst those who have no need and set our hearts to make do in other Christmas, in the face of the great shortage of food and individual suffering which surrounds us.

OPINIONS

DANGER OF WORK PRECEDENT

A **MOVER** approving an anti-union proposition in a recent High Court decision has been criticised by Kenya Legislative Council members who might create a precedent.

Opposition was given to the two officers, it would be natural for employees of commercial firms and the Government to expect to be treated in the same way when they lost their jobs.

Mr. F. De Souza (National Member), said he was not happy with the motion, which was proposed by the Minister for Finance, Mr. MacKenzie. He said that he could not see why any individual, however good, should be exempted from the general law of the land.

BOTH POSTS ABOLISHED

This was particularly important when they people asked that themselves in the same position. It was not clear that the Minister had made out a case for the approval of the House.

The Minister had said that one official, a former Chief Finance Officer, had retired when the Lake Victoria Fisheries Service was abolished. The other was a member of the East African Statistical Department who had been called on to retire when it was abolished.

Union will 'defend' Kenya's farms

A policy statement issued by the General Agricultural Workers' Union said that the union would continue to defend Kenya's farms against the permanent employment of labour.

The union's policy was to place pressure on the Government to limit the number of immigrants who might be employed in agriculture. It was also to be a campaign to limit the number of immigrants who might be employed in agriculture.
