

Britain warns world on 'crisis of confidence'

U.N. AT CROSSROADS—LORD HOME

But gloom not shared by U.S.

BRITAIN'S Foreign Secretary, the Earl of Home, warned the world that there was a crisis of confidence in the United Nations.

He attributed this to India's action in Goa and other factors such as "the dangerous practice of passing reckless anti-colonial resolutions."

Lord Home, who was speaking at Derwentwood National, the banner is that for the first time since its foundation, a number of countries have voted publicly against India.

But this statement almost coincided with a strong vote of confidence in the world body by the United States Administration. The vote took the form of an announcement that President Kennedy is to ask Congress to buy up to half of the \$200,000,000 (about £77,000,000) U.N. bond issue to help pay for the Congo operation.

Use of force condoned

The Assistant Secretary of State for International Organization Affairs, Mr. Cleveland, said in a statement accompanying the announcement that, "far from dying, the U.N. is increasingly becoming an important mechanism of international politics. But it is necessary to acknowledge that the Government faced a stern battle in Congress over the bond issue."

In his speech, Lord Home said: "Four countries which were members of the Security Council have voted in favour of the use of force by India against Goa. India has the debate before it in the Assembly, and the majority would have voted the same way."

The significance of such action is that it is a statement of confidence in the use of force by India, or at least that the Security Council is not prepared to take any action against her. This is a statement of confidence in the use of force by India, or at least that the Security Council is not prepared to take any action against her.

THIS GIANT JET FLEET . . .

SERVES MORE CITIES IN MORE COUNTRIES THAN ANY OTHER AIRLINE

51 ports only. This is the giant Air France jet fleet: 20 Boeing 707 International Jets and 31 medium-range Caravelle jets. The Caravelle is the jet Air France pioneered so successfully.

Already well over one million people have flown Air France jets. For Air France jets fly around the world. Air France Boeing 707 jets fly direct to Europe from New York, Los Angeles, Chicago, Montreal, Anchorage and Mexico City. Air France Boeing 707 jets also provide

2400 guest trips from Europe to South America, Africa and the Far East. And the outstanding Air France Caravelle jets serve 42 cities in Europe, North Africa and the Middle East.

The pilots who fly Boeing 707 jets are as trainable as the jets they fly—0.000,000-mile-experience veterans. No other airline in the world has higher standards for flight personnel. Small wonder the Air France, with a 42-year record of deep experience and wisdom, is the world's largest airline.

CITY ENDS YEAR ON CHEERFUL NOTE

ORDON Bank Exchange ended 1961 yesterday in an atmosphere of optimism. End of the year figures and other investments forecasts for the New Year were helping sentiment. Callahers maintained their 5 1/2 rise of 44 1/2 following the Board of Trade announcement that Imperial Tobacco is set to be disposed of by the Government to dispose of its holding in Callahers.

Imperial Tobacco was still higher at 67 1/2. The demand for shares rose again as the Bank rate was expected to be raised. Gold shares were 7 1/2 up to 20 1/2. Bank rate was expected to be raised to 1 1/2. Gold shares were 7 1/2 up to 20 1/2. Bank rate was expected to be raised to 1 1/2. Gold shares were 7 1/2 up to 20 1/2.

WEEK-END SAME WORK, BRIGHTER LIFE FOR NURSES

Sister A. B. Kramell (left, above) in St. Patrick's Ward shows a young patient with the reading unit undergoing orthopaedic treatment.

Becoming a nurse in Ireland does not seem to demand money to attend for a year or two these days. The Sister Elizabeth Tutor for Nursing at Nairobi is leading a life in nursing, and this article by Lady Grey is being read by her. It realizes what a worthwhile career nursing can be.

A nurse, far always being regarded as dedicated professions. In the early days of medicine, a student sweated and sweated his way through to his finals, often existing on a meagre income, in world 'slugs' and under-hand takers when he finally became an intern.

The nurse of the same period received an annual wage — it could not be called a salary — sufficient to keep her in shoes and gloves. She had very little private life, and worked exhaustively long hours.

Today presents a very different picture in both respects. The nurse is still part and parcel of the life of the hospital, but her life is vastly improved. In many of the British hospitals the nurse lives in well-furnished quarters outside the hospital, with their own sitting-rooms and bedrooms. They are allowed visitors and receive a decent living wage.

FEW RECRUITS
The nursing profession in Britain has always been considered a worthy, respectable and time-honoured career for any girl who does not desire to see her name in the newspaper. It is not so now. It is not so now in Kenya, either. It is not so now in Kenya, either. It is not so now in Kenya, either.

In the practical room (above) the Sister Tutor, Mrs. A. Hackett (centre), watches with critical eyes a student nurse adjust some apparatus over the dummy figure in the bed. A little theoretical work on anatomy is seen on the left. Student Nurse Miss, whose father is a missionary in Tanganyika, points out a diagram on the board, watched by the Sister Tutor from her desk.

Search for culture

A LEADING number of African students has expressed his fear that the Western education of African leaders creates a class of social problems as it solves.

The secretary-general of the society, Mr. Alastair Duff, said the influence of Christianity has been confined up to now with the influence of Western civilization. This has been presented in the framework of a civilization.

Mr. Duff went on to argue that Africa could not only be a part of its own past, but also be a part of the future. He also emphasized the danger of a divergence of outlook between different sections of the society.

MAKING SILKS

NEW SILKS

By Susan Corzell

REMBRANDT is renowned for the way he led the reaction, among Dutch painters, away from the traditional influence of Italian classicism towards a more natural and colorful way of painting.

It is not the only way in which the artist has to describe a silk dress as well as a complete coat, as we see in the case of Adele's, however, has a good stock of pink silk dresses, under the trade name of Rembrandt, which have followed the painter's trend towards color and contrast.

SIMPLE DESIGN

This is not to say that those with Rembrandt's look have the dress and skirt three-quarter length. They are, in fact, approximately 42 1/2. They are made of the finest French silk and are of a simple design.

It is to prevent crumpling that the dress has a simple design, and a simple design is what is needed to make a dress that will hold its own in the fashion world.

LESSON FOR ZANIBAR IN RECENT RIOTS MINISTER

PRESENT restrictions on public meetings were so severe that it was impossible for the general public to keep up with what was happening in the country, the Member for Mombasa, West, Mr. T. M. Chokwe, told the Kenya Legislative Council yesterday.

COLONY'S FAMINE RELIEF PLANS

PIGGER supplies and greater co-ordination of famine relief services in Kenya will be the mainstay of the Government's programme to combat food shortages in the next few months, Legislative Council was told last night.

So many people in Kenya did not read newspapers and had no means of getting information from the authorities, it was the duty of political leaders to keep them informed at public held barazas, just as in the old days the elders had done.

Some control was needed, Mr. Chokwe said. But it was not a restriction and not an imposition on those who held the meetings, or to the ministers they represented. It should not be for district only, but for the whole country.

RESTRICTIONS 'HARMFUL'

Mr. Chokwe moved that 'this Council, being concerned with present restrictions on freedom to hold public barazas, calls on the Government in the interests of the holding of public meetings, to:

Queries on death of tribesman

CONCERN over the fate of a Kamba tribesman, who died after a blood attack by a Kamba, was raised by Mr. M. H. Muli (Machakos) and asked that instead of doing anything by restricting meetings, the Government was to make enquiries into the case.

CONCERN over the fate of a Kamba tribesman

Mr. Chokwe moved that 'this Council, being concerned with present restrictions on freedom to hold public barazas, calls on the Government in the interests of the holding of public meetings, to:

NEW TROOPS FOR KENYA

The independence party of 19 Indaba Brigade, which was the first to be formed, is now the largest of the new troops for Kenya, Mr. G. G. Easton, Minister for Defence, said.

Move to combine Kenya's medical associations

Kenya's three medical associations are to merge. An announcement to this effect will be made in Nairobi tonight at a party to which all doctors have been invited.

NAMED ACTING CURATOR

It was only when people found out what they wanted that the Government had to act, Mr. G. G. Easton, Minister for Defence, said.

Not final yet

He said that the actual process involved in the new process would be to have a report on the matter by the end of the month.

Appraisals of court more

LEGAL and procedural innovations in the constitution of the judicial system in Kenya, Mr. G. G. Easton, Minister for Defence, said.

Killer hanged

John Albert Balf, a 25-year-old man, was hanged for the murder of a woman in Nairobi, Mr. G. G. Easton, Minister for Defence, said.

CLIMBERS: Three British mountaineers

The first British mountaineers to climb Mount Kenya were three British mountaineers, Mr. G. G. Easton, Minister for Defence, said.

AFRICAN CHOIRS DAY AT FESTIVAL

It was African choir day at the Kenya Festival, with 21 of the best choirs from all over Kenya, Mr. G. G. Easton, Minister for Defence, said.

Nervous spectators

There were several anxious spectators during the day, Mr. G. G. Easton, Minister for Defence, said.

Kenya thanked

Sheikh Mubarak thanked the Government for the help given to him during his recent visit to Kenya, Mr. G. G. Easton, Minister for Defence, said.

Second to issue

Mr. G. G. Easton, Minister for Defence, said that the second issue of the Kenya Journal would be published in the next few days.

RACES UNITE IN CHURCH

The Kenya Race Club and the Kenya Church have united to hold a race meeting in Nairobi, Mr. G. G. Easton, Minister for Defence, said.

Salan for trial

Dr. G. G. Easton, Minister for Defence, said that the trial of Dr. Salan would be held in Nairobi in the next few days.

Officer expelled

A statement issued yesterday that an officer of the Kenya Police had been expelled from the force, Mr. G. G. Easton, Minister for Defence, said.

ZANIBAR'S Chief Minister, Mr. Mohamed Shambi, said yesterday that the Government hoped that in our future...

Speaking at the informal opening of the Legislative Council, Mr. Shambi said that the Government hoped that in our future...

Kenya Regt brings in poachers

A PARTY of volunteers from men who have just returned from the Kenya Regiment Training Centre have carried out a five-day anti-poaching operation in conjunction with the Kenya Forest Department...

Red-handed

They found plenty of evidence of poaching, Mr. Shambi said. The poachers were caught red-handed and the poached animals were returned to the forest.

FORMOSA'S MISSION'S AIMS

THE Formosa Economic Survey Mission from Yunnan, China, which was headed by Mr. Wang, said that the mission's aim was to study the economic conditions of Kenya...

Common problems

Mr. Wang said that the mission would be interested in the common problems of Kenya and China, such as the shortage of food and the need for industrial development.

NEW KENYA COULD BE OPENED UP TO LEGISLATURE

New law would open door to Legislature

GOVERNMENT Ministers, including European Elected Members, were among several speakers in the Kenya Legislative Council yesterday who pleaded for the unconditional and early release of Kenya and for him to be allowed to enter the House if he wished to take part in public life.

The Opposition registered its dissatisfaction with a Government amendment to an original motion which had called for the British Government. When the debate on the motion was resumed, the Minister for Tourism, Mr. Mariani, said that the viewpoint that Kenya's unconditional and immediate release was essential was being more and more widely held and was one with which he found himself in complete agreement.

Under this, the Council recommends that the Order-in-Council should be amended so that the Government make known to the British Government. When the debate on the motion was resumed, the Minister for Tourism, Mr. Mariani, said that the viewpoint that Kenya's unconditional and immediate release was essential was being more and more widely held and was one with which he found himself in complete agreement.

Eichmann would have chosen suicide

EICHMANN told his Jerusalem judges yesterday that he would have committed suicide if he had been ordered to deal with the extermination of Jews.

The Israel Attorney-General, Mr. Hataim, was interrogating him on whether he had regarded the mass murder of the Jews in Europe as a crime at the time.

After Eichmann had been asked the meaning of his oath as a member of the Gestapo, he said: "A greater crime than the extermination of 2,000,000 Jews is the extermination of 2,000,000 children."

KENYA is very short of water, the chief hydro engineer for the Government of Works, Mr. I. L. Roberts, said yesterday. There is enough to irrigate only about 1,000,000 acres of land.

Taking into consideration the rivers and dams in the country, Kenya has only 50 per cent of the water per acre of the United States.

Mr. Roberts was speaking at the Nairobi Rotary Club, at Sir Sturges' request, after a "Review of Irrigation and Water Development in Kenya."

He said the Kenya Government had plans to deal with irrigation about 50,000 acres of land, but many of these plans would not yet be made because of the shortage of money.

It might be said to say that water development is the special job of "Big Britain," Mr. Roberts added.

He gave an example of one area where piped water had been laid before this happened, but said women and children would use it as much as men.

"I live on the job and I have seen something that is terrible," he said.

He said that the drought had been worse than any other he had seen since the days of the famine in the "Big Britain."

Mr. Roberts estimated that the drought had cost 17 million people their lives.

"I live on the job and I have seen something that is terrible," he said.

WHAT A COURSE OF CONDITIONING WILL DO FOR YOUR DOG

Most dogs are fed on scraps or on prepared foods that may contain a trace of vitamins and minerals. Even when special meat is bought you can't be certain that all the elements you need are present.

It is so difficult nowadays for a dog to get exactly what his system needs for full health that most breeders put their dogs on a course of conditioning.

Put him on BOB MARTIN'S CONDITION TABLETS

They give him more of those Bob Martin's Condition Tablets every day for ten days or so, and this soon shows in bright eyes, bloom of fur, high spirits and everything else that brings a dog to the top of his form.

Why do follow these examples? Don't say for your dog to scratch and moan, with dull coat and dry nose. Put him on a box, lunchbox he can lick!

Superior housing

One of the Brooke Bond employees is seen outside its home. The company prides itself on the standard of staff housing.

LOCALISATION, or Africanisation as it is called in many cases, is being faced in the future by many large firms and companies in East Africa.

A number of them will find it a difficult transition to the whole problem. But to one particular concern, Brooke Bond (Lesotho) Ltd., there will be nothing novel about the proposition of localisation of its African staff.

For Brooke Bond, whose total assets in Kenya amount to £200,000, has always maintained that if a man is selected for a job, he should be of the same race as the job. It is up to him to get to the top.

RECENT RISKS

In Brooke Bond, Lesotho, the chairman is an Indian, for example, and in the words of the chairman in East Africa of Brooke Bond, Mr. A. F. Beakham: "We are used to change, and in our organisation the chances of promotion are very good."

To emphasize his point he quoted the very recent case of two African members of the staff at Kericho who have been appointed as estate assistant managers.

The two chosen are Jacob Vincent Mbona, a Lesotho, formerly colonial superintendent, Labour Advisory Council, and Mr. Peter Davis Nyamwaya, a Kikuyu, who was formerly a surveyor.

SAME TERMS

They have been selected for their proved ability and authority and their knowledge of Kericho, which is essential for reading up manuals and text books, so that they have abreast with modern development in the industry. By Lesley Clay

Africanisation as it is called in many cases, is being faced in the future by many large firms and companies in East Africa.

It is a difficult transition to the whole problem. But to one particular concern, Brooke Bond (Lesotho) Ltd., there will be nothing novel about the proposition of localisation of its African staff.

For Brooke Bond, whose total assets in Kenya amount to £200,000, has always maintained that if a man is selected for a job, he should be of the same race as the job. It is up to him to get to the top.

In Brooke Bond, Lesotho, the chairman is an Indian, for example, and in the words of the chairman in East Africa of Brooke Bond, Mr. A. F. Beakham: "We are used to change, and in our organisation the chances of promotion are very good."

To emphasize his point he quoted the very recent case of two African members of the staff at Kericho who have been appointed as estate assistant managers.

The two chosen are Jacob Vincent Mbona, a Lesotho, formerly colonial superintendent, Labour Advisory Council, and Mr. Peter Davis Nyamwaya, a Kikuyu, who was formerly a surveyor.

SAME TERMS

They have been selected for their proved ability and authority and their knowledge of Kericho, which is essential for reading up manuals and text books, so that they have abreast with modern development in the industry. They will be on the same European and housing terms as African assistants, only leave

and distributed among, these cases in 1967. Africans owned 1,000 African employees, and 130 on the sales side in the three territories, and 1,200 at Lusaka.

There is a central hospital for the Brooke Bond Group in the charge of Dr. E. R. S. Gethin, with an assistant medical officer and two nursing sisters as well as doctors and trustees on his staff, the total number of staff being 110.

Including the adjacent hospital buildings there are 118 beds, 23 of them in the main block. In addition there is an administration block, examination and treatment rooms, an out-patient's department, a dispensary, a laundry, kitchen and canteen, and staff quarters, including a staff club.

The wards are spacious, light and airy, and there is a complete absence of that rather forbidding atmosphere obtaining in most hospitals.

A number of beds were occupied in the children's ward, mostly cases of burns and chest infections. The hospital is situated in a hill, and the children, who are from three to six years of age, are on their own in the wards and mothers are only allowed in during visiting hours.

CHEERFUL AIR

The hospital is a training school for the Kenya Nursing Council for Grade II student nurses. A cheerful air is lent to the main medical ward, with its scarlet bed covers, where European and dependent nurses receive training, but it is a fact that while the women's quarters are nearly always full, only about three-quarters of the beds in the men's wards are occupied. In the female surgical, girls

are being taken on as trainees, provided they speak sufficient English and are of a certain standard of education. They are mostly Ken, Maragoli and Kikuyu, with only two Kisumu so far.

Sister J. G. Hunt in the women's ward, said that admissions number nearly 5,000 a year. From a central room in the hospital all the individual supplies and stock returns are issued.

The most frequent cases in the isolation hospital are tuberculosis cough and meningitis. There times a week an ambulance, one of four owned by Brooke Bond, goes round the estates and brings in any cases requiring out-patient treatment. Urgent cases are brought by ambulance immediately.

DANCES HELD

The social halls on the estates are a very popular feature of the community life and are well patronised by women as well as men. On most estates there is a club shop which sells sweets and cigarettes, also a barber and a tailor, and a billiard room.

Some enjoyment of social activities has been necessary due to the recent substantial increase in the wage structure of the tea industry. In the social halls table tennis, darts, draughts, and chess are played. Dances are held and one of the men of the estates have their own band. The employees usually come to the social halls after work and play until about 10 p.m.

Higher wages cut welfare budget

Mr. Peter Davis Nyamwaya, recently appointed as assistant manager at Njumba Estate.

As the school supervisor and chairman. He was assisted by Mrs. Beulah Ankwa, one of the teachers, who was trained at Butere College.

Mr. C. M. Craxwell is the group's education and welfare officer, and he explained that to keep the children up to scratch, they are expected to spend the morning, at school and meet after school.

After the holidays, about 25 to 40 boys and girls generally attend these classes. They are of primary age from seven to 12 years old.

Harrison Adams is a keen musician and led a band in the Forest School at Njumba examination as a teacher. The choir, under his conductance, broadcasted recently.

Members of the choir were practising for an party which was given under Mr. Hamilton's well set leave.

Mr. Craxwell said that the children took part in an annual inter-school P.T.C. competition, and an annual sports competition as well as football matches, tennis, badminton and drawing. The local club each year is presented with a social fee. Each estate has its own flag, for instance Njumba bears the emblem of a chili each school club has its flag. The school at Chibweni Estate has 26 pupils with Mr. Clarendon Nyabata as assistant master and Mrs. Gladys Birre one of the teachers. Where mainly male children attend the school, at Chibweni the boys were dressed in grey shirts and

ITALIAN SUITS DUE SOON

The woolen suits stocked by Giusa Giova in their delightful boutique beside the Kenya Cinema are the smartest and most reasonably priced for a long time.

One of the collections was a smart, high-quality, well-made two-piece suit in a dark blue, brown and white check, the jacket having four buttons, the jumper V-necked with elbow sleeves, the skirt an Italian style with a full, fully lined, long 70" skirt.

Novel idea

A very new idea is the latest thing in its matching wool suit. The jacket is a long-sleeved, button-down, two-piece suit in a dark blue, brown and white check, the jacket having four buttons, the jumper V-necked with elbow sleeves, the skirt an Italian style with a full, fully lined, long 70" skirt.

PARADE in this paper. I remember the popularity of local newspaper news which have become household words in the last few years. This is not to say that, except in the case of the...

DR. J. R. WARD and Mrs. A. M. Rossman (above) were married in the afternoon. The bridegroom, who is a physician in the town of Rockingham, is the son of Mr. and Mrs. R. Ward of Colington, Yorkshire. His bride is the second daughter of Mrs. E. Rossman of Salford and the late Mr. R. C. Rossman.

MR. DERRICK BATES and Miss Kay Forrester (above) were married at St. Helen's.

The bridegroom is the only son of Mrs. H. Bates of Kithley and the late Mr. H. Bates. His bride is the elder daughter of Mr. and Mrs. R. R. Forrester of Ghis.

MR. ROBERT DESOZA and Miss Dorothy D'Souza (above) were married in Nairna. The bridegroom is the second son of Mr. and Mrs. V. F. D'Souza and his bride is the only daughter of Mr. and Mrs. C. D'Souza of Nairna. She wore a dress of silver tulle and carried a bouquet of carnations.

MR. JEREMY D. LUNN and Miss Mary Trinder (above) were married in St. Paul's Church, Portland Square, London. The bridegroom, who is a diplomat in the Indian Office, is the only son of the Rev. H. A. and Mrs. H. M. Lunn, of Harwell, Hants. His bride is the elder daughter of Mr. and Mrs. W. H. Trinder of Birmingham (Photo: Craine, Neale and Co.).

MR. JEFFREYS OGBURN and Miss Sarah Anstey (left) were married in the Methodist Anglican Church at Bushbuckie, Siam. The bridegroom is the son of Mr. and Mrs. Eric James Oxburn, of Siam, and his bride is the only daughter of Mr. and Mrs. Joseph Courman, of Bushbuckie, of Uganda (Photo: Photo Studio).

MR. ROBERT DESOZA and Miss Clara O'Connell (left) were married in St. Theresa's Church, Eastleigh. The bridegroom is the eldest son of Mr. and Mrs. A. C. Hornum D'Souza of Nairna. His bride is the second daughter of Mr. and Mrs. Florence da Cunha, of Karachi. (Photo: Photo Studio).

It is to be expected that there will be a big revival in wedding dress fashion through at least one of the leading fashion designers. The new dress is a simple, straight, knee-length affair, with a high collar and long sleeves, and a full skirt. ISRAEL SENDS HER BEST IN JERSEYS

MARDIRIS and **RISE** in Government Road have just unpacked a new consignment of Jersey suits from Israel. They are different from any that have been seen in the shops of Nairobi before because the wool has a different texture and the fabric is softer and more pliable. Many of the dresses cut are of the latest fashion and they are some of the best made in the world.

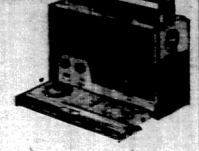

The suits are very simple and elegant. They are made of a fine, soft wool which is very easy to wear and does not require much ironing. The dresses are also very simple and elegant. ROYAL DEE FAMED WORLD OVER FOR ITS SCENERY AND BRAEMAR GATHERING

BRITAIN has four rivers called Dee—one in Wales, flowing down from the mountains to the sea by way of the ancient city of Chester, another in Yorkshire and the Ribblesdale region in the Scottish Lowlands. But the Dee of which everyone thinks first is the famous river in Aberdeenshire.

This is the royal river of Balmoral, one of the most famous and beautiful rivers in Scotland, and its valley is the greatest salmon fishing rivers in Scotland, and its valley is the most beautiful in the present into an ancient past.

The head of the Highland Dees, but there is no more there than the average visitor is able to see. Scotland is a country of magnificent scenery and of warm-hearted people. It is through the Royal Dees that the most beautiful scenery in Scotland is to be seen. The river flows through the most beautiful scenery in Scotland, and its valley is the most beautiful in the present into an ancient past.

WILD BEAUTY

The river rises in the dark, forbidding heights of the Cairngorm Mountains. If you are a good walker you can look to its source in the Valley of the Shee. The river flows through the most beautiful scenery in Scotland, and its valley is the most beautiful in the present into an ancient past.

DEADLY DEMON

When crossing by the night under the Shiel's Stone, you hear the most ghastly cries that can be heard. Superstitious people will tell you that if you prefer the latter, there are reports of the legend about the death of the Jarvis in 1713, which was the result of a curse.

SHEILA ADLAND

When the reader sees a trip down the Dees, from Cairnryan to the fine old support of Aberdeen.

The great chief called the Lin of Dee where the river flows to the sea through a rocky gorge. The river flows through the most beautiful scenery in Scotland, and its valley is the most beautiful in the present into an ancient past.

Not far away is Inverury where Queen Victoria, wearing a Highland plaid, came to see the first rowing club on the river. The young Victoria later, they bought the castle further down the valley.

BRAEMAR RISING

Next comes Braemar, world-famous for the Royal Highland Gathering, attended by the Royal Family and the usual expression of all the outdoor sports of the Highlands.

But nearly 300 years later Braemar saw another more serious gathering when the Earl of Mar, James III, was killed in 1715, an attempt to restore James Stuart—'Old Pretender'—to the throne and which ended in disaster.

...still keep going

A study in concentrated effort. This athlete is shown working the hammer at the Braemar Gathering. The Royal Family attend the gathering every year and the hammersmen draw the tourists in their thousands to see them. The silence is broken and performed the sword dance. The silence is broken and performed the sword dance. The silence is broken and performed the sword dance.

Built for Queen Victoria, Balmoral Castle has become a favourite with the Royal Family ever since.

TODAY'S RADIO PROGRAMME

FRIDAY, JULY 14, 1961. Radio program schedule for various stations including K.B.B. English, K.B. & Asia, and K.B. African.

DO not, as a rule, make this commentary a vehicle for your own opinions. I feel an exception in the case of Mr. H. P. Lyon, Kenya Representative, who has just returned from the recent Olympic Academy at Cremona.

It would be surprising indeed if such an organization were not subject to some criticism and, while as a rule, Mr. Lyon points out the constructive side of the Academy, he does not neglect to mention the criticisms regarding the organization, which are well founded. It is not surprising that Mr. Lyon's criticisms are based on the fact that he was not present at the opening of the Academy.

With two notable exceptions, those of the Kenyan and the Ugandan, the language barrier was a formidable one. Most lectures were given in German and a few in French. The lectures were given in German and a few in French. The lectures were given in German and a few in French.

PROGRAMME organization was left with no instruction or other encouragement or assistance up to six hours a day. For an international course in physical education there was a strange lack of training equipment. This, for example, was not the case of the University of Birmingham (U.B.P.E. Dept.). It is important that this will probably be improved upon next year, when the course will take place at Athens. The present one was purely as experience from which to learn. Many students have been handicapped. The lectures were given in German and a few in French. The lectures were given in German and a few in French.

MR. LYON emphasized that his criticisms were not intended to be constructive, and rather to be fully appreciated by the organizers. He pointed out the advantages of the course, and the disadvantages. He pointed out the advantages of the course, and the disadvantages. He pointed out the advantages of the course, and the disadvantages.

CHARLES BERRY'S COMMENTARY

As an international athlete, I am not a participant in the course but I am a spectator. I am not a participant in the course but I am a spectator. I am not a participant in the course but I am a spectator.

A REMARKABLY good entry list has been received for the Kenya African School Sports Meeting, which is to be held at the school grounds from September 15 to 18.

Crowds of sports fans rainey eyebrows

By our London Correspondent

THE Kenya runners Scrapulous Anso and Tony Arora were seen at Hyde Park in London, yesterday for a Black and White propaganda for the A.A.A. Championships which open at the White City today.

Their trainer Archie Bruce, the former Colony Sports Officer now on leave in Britain, said a correspondent: "After their highly satisfactory showing in Helsinki, it is essential to keep them both on the track. Lambing up is essential to produce top performers for the world."

"Anso was entered for the 200 yards at the White City, while Annette will compete in the 200-metre event."

Big day for Vic Preston

An out of the blue boom of power has enabled the British driver to rise up with thirty other drivers for the grand touring race at Avireto tomorrow.

This is the opening event for the British driver in the Vic Preston 1000 mile endurance race. The driver is expected to have a good run in the race, which is expected to be a thrilling event.

Remember, a confident

It is a reasonable confidence of his abilities but acknowledges that he will not be able to win the race. He is expected to have a good run in the race, which is expected to be a thrilling event.

Fastest in country

One can well understand why the driver is so confident. He has been in the country for some time and has had a good run in the race, which is expected to be a thrilling event.

Kenya champion's first international

The two are old friends and grew together during their days in London. It is expected that the driver will have a good run in the race, which is expected to be a thrilling event.

French reply with jets to Bizerta bombardment

Women and children go in with troops

THE FLEET COMES TO TOWN - AND TRIES A LITTLE SAIL

Two K.I.C. officers quit as party is urged to think again

MORE than 100 had been killed by last night in the fierce land and air fighting over possession of the strategic French naval and air base of Bizerta in North Africa.

Most of the casualties were among Tunisian forces who suffered 100 dead and 60 captured. French casualties were given in Paris as three dead and 30 wounded.

Fighting began soon after the Tunisian authorities set up a land blockade of the Tunisian base. Last night the French Premier, M. Debrae, laid the blame for the clashes on the Tunisian Government. Earlier, the Tunisian Premier, M. Habib Bourguiba, had broken off diplomatic relations with France and seeking an urgent meeting of the U.N. Security Council on the subject.

The President said "real operations" had been going on for two days. He accused the French of attacking villages as well as towns. Tunisian artillery opened fire at dawn and shells were exchanged. Tunisian troops and a French fighter strafed Tunisian positions.

The President said the Tunisian Government had been consistently unwilling to give up Bizerta, particularly women and children. A spokesman at a Tunis hospital said there were more dead Tunisian soldiers among the wounded than among the French.

M. Debrae told the Senate yesterday that France was ready to give "the necessary instructions for the use to be discussed with the Tunisian authorities."

He referred to the situation in Bizerta as a "deplorable one" which "Tunisia has not been able to solve."

M. Debrae said he was not sure that Tunisia was ready to give up Bizerta. He said the Tunisian Government had not been able to solve the problem.

Politics dominate the Week in East Africa

Minister quits and it may only be first defection

Standard Staff Reporter, Nairobi

KENYA'S Kudu-sponsored Government suffered a blow this week when the Minister for Tourism, Mr. P. D. Marrian, resigned and crossed the floor to join the Opposition.

His explanation was that he disagreed with the Government majority view that internal self-government could come without elections and a full constitutional conference.

The Government may well suffer another setback next week for Indian Congress-sponsored Constituency Members to be instructed by the Congress's standing committee to cross the floor. The committee is to meet next weekend to discuss the Government's decision not to have an election and a constitutional conference.

There are three Congress Members in the Kenya Legislative Council. The Minister for Education, Mr. R. S. Leitch, Mr. D. B. Kobi and Mr. R. S. Leitch. Mr. Leitch is a member of the Government but he has announced that he will cross the floor to join the Opposition. WAGES UP

The leader of the Kenya Teachers' Association, Mr. J. M. Njiru, has announced that the minimum wages in Kenya's main towns are to be raised from Sh. 10 to Sh. 12 a month. A Government statement said the reason was that the cost of living in these areas has risen by 10 per cent since the Government in 1954.

Members of the Kenya Teachers' Association are expected to meet next week to discuss the Government's decision not to have an election and a constitutional conference.

...As new era opens for regiment

THIS week marked the opening of a new chapter in the history of the Kenya Regiment, formed in 1954.

Seven Africans and six Asians joined the Regiment, forming the 1st Battalion, which will be a full-time unit of the K.M.C. Regiment.

The recommendation for non-working manager and a managing director is contained in the report of the Commission appointed to inquire into the administration and staff relations of the K.M.C. and the M.W.A. Club, by the M.W.A. Club.

U.K. TRIES AGAIN WITH 'PROBLEM CHILD' BUGANDA

Standard Staff Reporter, Kampala.

CONSTITUTIONAL discussions between Britain and Buganda were resumed at Entebbe this week between the Governor Sir Frederick Crawford, and the Buganda constitutional committee.

The Bugandas were accompanied by their legal advisers from Britain. The talks had been in abeyance since last year, when they broke down shortly before Buganda declared itself independent — a declaration which Britain has refused to recognize.

Local Government leaders from all parts of Uganda except Buganda, who had been invited to discuss a proposal by the British to remain in Uganda until Buganda is reconciled to a fruitful relationship with the rest of the country.

ADMIRABLE

The delightful book that you will want to read is 'The Right of Self-Determination for the People of Uganda'.

The report's recommendations, which include proposals for a federal relationship and Anglo-Buganda talks with the other native kingdoms, and Buganda's right to remain in Uganda until Buganda is reconciled to a fruitful relationship with the rest of the country.

The incident follows 200 Buganda's rubber workers, who were arrested in line to operate the rubber plantation, and the person's release and the dispersal of the rubber plantation.

CHILDREN'S POLICIES

Little problems grow...

Today's toddler is tomorrow's income-earner. Have you provided for an education which will help him hold his own in an increasingly competitive world? And your daughter? She presents a problem too—education, marriage expenses and the rest.

Indeed, in the lifetime of every father there is an aged financial burden awaiting him. Must he make provision for it? Save in small amounts so that, when the time arrives, you can meet these demands without the least strain. And all the while you have the peace of mind knowing that your responsibilities will always be taken care of should there be a loss.

You do not have to discharge them. That is usually a Life Insurance. Provisions for the unpredictable future—whether the policy, holder is alive or not.

There is 3 Insurance Policies which every father owes to his child. The Educational Annuity Policy, the Marriage Endowment Policy and the Children's Deferred Assurance Policy.

The first two assure funds for education and marriage. The third, the Children's Deferred Assurance is a policy which a parent can make for his child. The life-risk cover, however, will continue only as a selected age. Benefit? The child is insured for a large amount at an extremely low rate of premium. And more, it's a precious gift to one's own child who, having to maintain this Policy, will learn an early lesson in thrift.

AMID RAIN THE TALK IS OF CRICKET

Standard Staff Reporter, Dar es Salaam.

MANY Tanganyikans have spent the week with signs of having something brightly on their minds. This problem is cricket — the rivalry between the Territory and Kenya.

Quite apart from the debate on who is going to win, the Kenyan match hanging over the rain is whether to allow the match to go on to allow the rain to wash away the unseasonable weather for many days. If, finally, rain does prevail there's 40 inches of rain.

Yet, ironically, famous races in Northern and Central Kenya and the Government in the west coast have been hit by the rain.

THE UNWANTED

With the Prime Minister, Mr. Nyerere, who has been in the country for some time, there was little activity on the political scene.

It has become hot to the U.N. and the National Government in East Africa, who have been receiving refugees like the National Government in East Africa.

REGIMEN OF A STABLE ECONOMY - CLASS IN KENYA

As I reduce you know, I have always admired the tolerance and wisdom of Mr. Wamau, displayed in his communications in your pages. This is because he has covered the ground in Kenya in the formation of a Black Club or Society, a suggestion which I believe is the progress and prosperity of the country.

It is not that I am not in favour of the Government and its policies, but that I am not in favour of the Government's policy of 'divide and rule'.

On a number of occasions, I have written to Mr. Wamau, but I have not received any reply. I am sure that you will be able to help me in this regard.

For a long time, I have been thinking about the possibility of a 'Black Club' or 'Society' in Kenya. I believe that this is the only way to ensure the stability and prosperity of the country.

It is my hope that you will be able to help me in this regard. I am sure that you will be able to help me in this regard.

Bank explains loan policy LAND TITLE FEARS HOLD BACK FARMS

Further long-term development within the agricultural industry depends on confidence, which has been deeply shaken since the end of 1966, the annual report of the Land and Agricultural Bank of Kenya states.

Confidence would not return until proper assurances were obtained on land titles. The report says many farmers had adopted a short-sighted policy on planning, and the development of farms generally had been at a standstill. The policy of the bank has been directed towards maintaining confidence, and stability. The downward trend in land prices envisaged in the 1967 report became apparent early in 1968, and because of the political atmosphere and because of lack of confidence among farmers, spread became wide.

Game Park tours—the easy way

PAST African Airways have introduced four new package tours from Nairobi to the Game Parks of Northern Tanganyika.

All four start with a flight to Arusha, thus avoiding an arduous road journey. The tours are: 1. Saturday to Monday, with two nights at Lake Manyara.

2. Tuesday to Friday with one night at Lake Manyara Lodge and two at Lake Manyara Hotel (fare £43). 3. Thursday to Monday with one night at Serengeti Lodge, one night at Ngorongoro Lodge, and two at Lake Manyara Hotel (fare £41).

4. Saturday to Wednesday with one night at Ngorongoro Lodge and two at Lake Manyara Hotel (fare £43). The fare includes air, hotel, transfers to and from the lodge and hotel, park entrance fees, food and accommodation and tours of the game areas. Serengeti Ngorongoro is included in the arrangements.

Loan to milk. Kenya Rural Mills are likely to complete arrangements for a £1 million loan to finance the purchase of additional plant capital from British sources and there are negotiations to hope that the Government will be expected to guarantee the loan.

Tax receipts rise Income tax collected in the first six months of the year (to the end of June 1968) is £12,229,200, compared with £10,000,000 in the previous year.

MINISTER'S WIFE TO STAY FOR COURSES

MRS. RACHAEL TOWETT, wife of the Minister for Labour and Housing, who went to Israel with other Kenyan women in April to attend a conference on the role of women in a developing country, has stayed on in Israel for a further two months to study the organisation of nursery schools.

Afterwards, Mrs. Towett will fly on to London for a three-day tour, beginning at the end of September.

Writing from Haifa, Mrs. Towett said that women from 23 countries took part in the five-week seminars on Mount Carmel.

She said she has been particularly impressed with the hard-working nature of the people near Haifa and who, although shown in the use of piped water to irrigate what used to be barren land. She has had praise for the farms and particularly noted the application of water to the soil by men and women in Israel.

WEEDEN STANDARD ROAD TRANSPORT BRANCH BRINGS SAFETY TO COLONY

MORE and more during the next few months the Colony's motoring public will come to know the workmanship uniform of the Government's vehicle inspection programme. Inconspicuous figures clad in khaki-coloured overalls, their anonymity dispensed only when one gets close enough to read the inscribed lettering on their head Transport Branch badges.

These comparative newcomers to the Kenya scene are already carrying out 1,000 roadside map checks a month and their efforts are to be redoubled in a drive led by the Deputy Chief Inspector, Mr. R. O. Henning.

Recently it was announced that the branch was to cover under the wing of the Ministry for Finance and Industry. The second member of the team, Mr. D. W. Connor, joined the branch when the Motor Amendment Bill by Lord Leitch-Gibbs was passed with England. Kenya had four-and-a-half times as many road accidents per 1,000 vehicles.

Under the new legislation a system of authorising certain agencies to carry out the inspection was abolished and the Government is now required to issue their vehicles to control set up in the Colony's major towns or to sub-centres visited by Government vehicle inspectors.

The Deputy Chief Inspector, Mr. R. O. Henning (on the right), inspects an on-the-spot inspection at a demonstration at Witton Road, Nairobi.

Inspectors help Police curb accident rate

IN one month the Vehicle Certifying Officer, Mr. R. E. Jiro, has pointed out 11 safety defects on the road and more control for pedestrians on public service vehicles had since away from the testing centre. The vehicle was found to be in a deteriorate rapidly and dangerously.

SNAP CHECKS

Although it was impossible at this stage to assess the branch's success in reducing the accident rate, he felt it was only fair making a welcome note of the fact that the branch has cleared 10,000 vehicles during that period.

From its office in the High Commission Building in Nairobi (Governmentally staffed next to other vehicle licensing and registration offices) the

branch has steadily made its presence more felt — in the form of 100 roadworthy inspection centres in the first half of the year. The branch has collected in inspection fees during that period.

There is no doubt that the overall situation on the roads has been improved by the stricter control of standards now being maintained and there has been a marked reduction in the number of accidents which has cleared 10,000 vehicles during that period.

STEP FEES

Vehicle licensing inspection fee into one of three grades. They are given an "A" classification if completely satisfactory, a "B" certificate if sound and a "C" if the vehicle can then get its vehicle.

FIRST LADY TO MAKE HER BOW ON THE LAKE

TOMORROW at Kisumu, Lady Bessie performs the ceremonial opening of the largest of the East African Railways and Harbours Extension Fleet on Lake Victoria. A little more than three years ago, the first work on this vessel was started at Varrow's famous shipyard on Clydebank.

The main structure of the ship was completed, built-up, assembled, in June, 1952, and it was then dismantled and shipped to East Africa. By December, 1953, enough of the steel work had reached Kisumu for the keel to be

laid, and from then on reconstruction advanced rapidly. On September 5, last, construction had reached the stage where the main structure was successfully lowered into position and the dry-dock at Kisumu for completion and fitting out.

The new ship is the largest built-up vessel ever to be built in one country for reconstruction in another. She is also the largest ever built for service on Lake Victoria, and only half accommodated her in that her weight at the time of launching had to be kept to an absolute minimum.

ELECTRIC GALLEY

Cabin and galley accommodation and deck space are provided for all classes of passengers and to ensure the first class passenger is accommodated is ventilated. The first class passenger are cabins equipped in 12-berth berths, and 20 modern stainless-steel bar and a dining table, and 20 modern electric appliances.

Although the new ship is designed primarily for the carriage of passengers, provision has also been made for the carriage of refrigerated cargo. There is also room for 12 crew members.

The R.M.S. Victoria enters the lake on August 21, 1955. She will be the first motor vessel to enter the lake since the Victoria was built in 1858.

The Victoria's speed is 13 knots, a 1,500 miles, 30 to 300 ft. long, and an operating range of 500 miles. She has a maximum speed of 13 knots and a maximum range of 500 miles for 524 passengers in three classes.

PLEMENT

Unspoil but well organised—that's East Africa...

BY SUSAN COZGEL

TRAVEL breaks the myth, they say. Looking at empty cigarette packets discarded in strange spots one wonders whether it does. But although there may be a few "East Africa" in the slums, and Kenya, indeed the whole of East Africa, is at the stage when it is well organised.

For one thing it is very modern: there are too many people everywhere at any time, so that tourists and travellers in East Africa do not get that feeling of being part of a large, unorganised place.

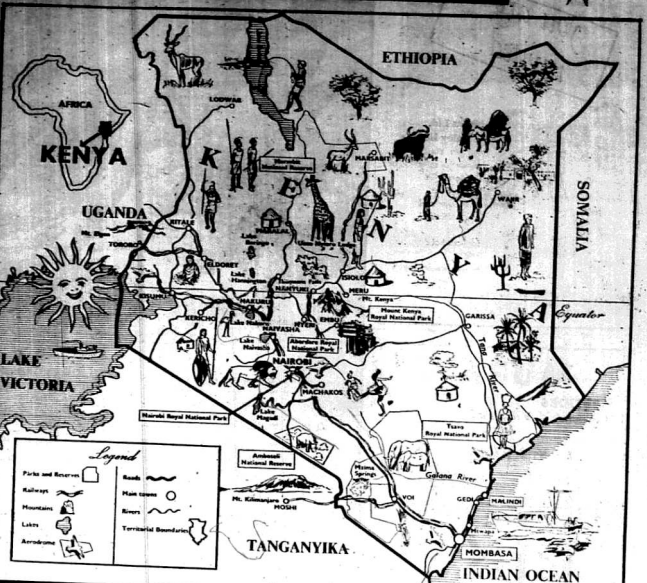

The East Africa Tourist Board, which is a joint venture of the East African States, has an invaluable collective staff of more than 100 people who are well organised and well equipped to see that the tourist is well served. The East African States do not know what it is like to have a tourist who is not well served.

Made clear

Once the traveller has decided on his route, he will be well served. He will be well served by the East African States, which are well organised and well equipped to see that the tourist is well served.

Just the same, it is well known that the East African States are well organised and well equipped to see that the tourist is well served.

So far as the East African States are concerned, they are well organised and well equipped to see that the tourist is well served.

AN exotic little number in beach wraps, left, owing something to Indian influences. Though this one is unlikely to be found in Nairobi shops, nevertheless Lafayette, the Nairobi stockist of the famous Triumph garments, have a fine selection of beach wraps, mostly tailored in towelling, as well as some attractive bikinis.

SUIT for a sea-siren. Seen above. The high fashion note is that materials, of softest Nylon Tricot draped into a form-fitting swimsuit that flatters the figure.

POROLASTIC perlon swimsuit, above, costs E5.5s. and is worn with an froton strove beach hat made by Dipi Manzoni Firenze, 22, At Filip's.

Inexpensive bikinis to suit all tastes

MADRID and East in Government Road will some of the least expensive bikinis to be found in Nairobi. They always have a good selection around the 30/- mark, and have supplemented this with a new consignment in plain colours.

The present only one problem, and that is the choice of colour. There is a striking red-yellow, orange, turquoise, and super detergent white. The price is 26/-.

The shop does not concentrate on bikinis to the exclusion of one-piece swimsuits. These range in price from about 16/- for cotton to 45 lbs. for nylon Helona. Whether cotton, elastex, or Helona they all have the requisite low back and wide shoulder straps.

For 67/- you can get a yellow and white outfit with built-in bra and alt short, or a Trend suit, with no bra, for 75/- in gorgeous colour, including, for 70/-, outdoor number, or 70/-.

For 39.50 there is a well-cut cotton Trend in green and other colours, and three other nylon swimsuits for 59.50 in 1972 blue and gold and black.

Heavy duty rope-shoulder 26/- with the swimmer's cut, 26/-, other styles are plain 26/-, 28/-, 30/- and 32/-, and just as practical as the inevitable "larkin".

Snug fit

The nylon Helona is usually form-fitting, but the flat swimsuits of this material are almost deviously slimming.

Lafayette, at the bottom of Harding Street, does stock a great deal of swimwear besides the plate glass windows, but the shop does have a number of bikini and beach wraps.

For 49.50 it is possible to buy an attractive diamond bikini with a small frill of brocade anglaise on the bra and the pantie. Another frill, various colour patterned cotton, is priced at 52.50.

The "racks" have been made about giving your wardrobe a touch of Filip's, but nevertheless it is one more search for a swimsuit.

There are Perle ones from Germany, that have wide shoulder straps and broad necks, not cut very low, and some models have the semblance of a sleeve. They are not cut about.

Alternatively there are some of the perennial and recreational and still attractive "bath" suits at Filip's, but plenty of beach accessories are expected daily. Filip's specializes in Ethil and Portland suits.

By the same time this article appears some super towelling beach wear will have reached Sportswear in Government

Woman wanting to buy bikinis will find plenty in Nairobi shops which will not expose their bank balance only their figures.

in many styles. A show-stopping bikini in green and white (costs 49.50) and is worn with a strapping shirt to match, for 49.50. Individual white shorts by Tedy Tindal, cost 10.00. Dark green shorts are very long. Orange shorts are very long. Orange shorts are very long.

In fact, shorts get shorter and shorter and more conservative. Some of the most available swimsuits are for alteration in night due to holiday indulgence in fashion foods, cost 32/-.

Bikinis are stocked, too, by the more modest customer, 44/- and for the hottest season, white and green gingham, 75/-.

Below in colour but with an edge of charm was a grey and white bikini with white bra and anglaise, 38/-.

Good choice

Swimmers and motorists have a good choice of what to wear in the water when they're in the car.

There are several versions of the classic, one-piece swimsuit in plain colour, 22.00, and 24.00. Perhaps the most attractive is a blue and white striped, 26.00.

These bikinis are ready-made and styled, and some of the most available are made of the finest fabric, causing the garment to appear as if it were cut from frill, the most at 22.50.

And it is possible to find it all for 1.50.

Pool look at Cannes this year

By JOY BEALL

SARONG-DRAPED playfrocks are among the most popular beach styles on the Riviera just now. And swimwear is much more feminine with bloused, flared or frilled ballerina-skirts looking extremely pretty after last summer's stark bikini styles.

It is easier to wear slacks than shorts, they might look wrong on the Croisettes at Cannes, so on the Promenade the Angles of back and the smarter women are dressing in matching slacks and blouses or knitted jumps of classic blouse-shorts.

Main colours are very fashionable—blue, white or pattern. If you "must" have something patterned then choose printed saree and a plain blouse, better still striped slacks with a plain blouse picking up the dominant colour in the stripes.

The smartest women go barefoot on the beaches. Cannes elegantists are working overtime on accounts of this.

More sophisticated (designed originally by Helene on the Riviera coast), see the new cocktail pyjamas with wide, braided high, reminiscent of the Croisettes era.

This is stirring slogan "dress up" summer. A gress in your swimsuit, an Antoinette hair-do and a floppy-brimmed Lamin-Castillo hat will keep you in the swim. The days of rustic chic are over and we're on a "dress-up" again.

NEIBARDEN swimwear is right in price, from £65 to £85, at the Nairobi Emporium. The backless swimsuit above left, with genuine dove left, with intricate, high cut leg, showing checked cotton sarong above, which can be worn trousers, has a fitted bra.

A skirt and shorts set is popular at the moment. The swimsuit at right is a good example of a skirt and shorts set. The skirt is made of a light material and the shorts are made of a darker material. The set is perfect for a day at the beach.

In the picture, on the right, which was taken at the grounds of the V.M.C.A. swimming pool, Susan Ellis models this grey skirt and pair of blue shorts, ideal for lounging, whether in Hawaii or on the Riviera at the Coast. The shoes are by Italian Sparrow.

WHILE CLASSIC might be short, with a fitted bodice and a full skirt, it is a good example of a classic swimsuit. The skirt is made of a light material and the bodice is made of a darker material. The set is perfect for a day at the beach.

BELOW, a back view of one of the many swim suits at Nairobi. Lingerie and cotton, knitted by Helene designs and cut in different colours, from £51, upwards.

SANDAL 'SCANDAL'

BATA have sandals of about half a dozen different designs, in several colours, which are retailing between 35/- and 39/-.

Red, white and shades of brown and tan are the most popular colours, and the shoes follow the trend towards bold yet elegant styles, enhancing the decor of the more highly fashionable and exclusive designers.

Sandals produced in the East African shoe factories are mostly white, and cost from £2.90, for the Lindi Dorian model, which look as though they are made of plastic, to £3.10. Rubber beach shoes designed like Indian slippers, cost from £4.90, while canvas beach shoes are a little more expensive, from £5.90 to £7.50.

Sandals for the beach are made in the range, and cost from £3.50 to £5.75. Most of these are styled from plush brown leather.

Ten tips on taking a picture

M.R. BROWNE, the ability to be found in real photos. Mr. Browne, has some hints for people going on holiday at the Coast with a camera.

1. Before going on the beach, it is well to know what to take. A camera, lens, tripod, film, and a few extra batteries or lenses. It is also well to have a few extra batteries or lenses.
2. Find a great source of contrast, and it is a good idea to keep your camera in a protective bag or case, even when it is not being used.
3. If you use a flash, it is important to practice in the camera before you take your pictures. For better results, a camera should be used in a dark room.
4. Whatever you do, you must know it is a good idea to try it before you go. It is a good idea to try it before you go. It is a good idea to try it before you go.
5. The white sands on the Coast of East Africa have a tendency to be very bright. To get the best results, it is best to use a filter. This will help to reduce the brightness and will also help to reduce the risk of overexposure.
6. The sea is not a uniform color. There is no point in having a very flat black and white sea at the Coast.
7. With a lens cap on it is not much good trying to take pictures at the beach. You can see on the beach, so the lens is not satisfactory for this type of photography.
8. The family in beach clothes may be the subject of interesting photos. The family in beach clothes may be the subject of interesting photos. The family in beach clothes may be the subject of interesting photos.
9. Photography of the water sports should not be attempted to last after sunset at the Coast. Always start out for the beach in the morning, and remember you are on holiday and you must enjoy it.
10. Finally, it is a shoulder strap to be your camera, to leave your hands free, and remember you are on holiday and you must enjoy it.

THE whole family seems to be enjoying themselves in our photos above. The younger members of this group seem to be very pleased with their cameras, which are insulated to take flash and need only 45°, including a very smart leather case.

The most expensively camera shown in this range of British cameras is £18 15s. It is a 3.5 mm. bellows camera with an f/2.8 coated lens. Flash and many other extras are available in Nairobi.

This attractive model, left (the camera not the girl), can be bought for £12.

MARY was a natural blonde. After going without sunburn and saving, in every possible way she was able to take a holiday at the Coast.

Of the long blonde hair she had she kept only a few strands. She was able to take a holiday at the Coast.

VERY BENEFICIAL

If properly used sunbathing is highly beneficial to every one, especially children and young people. It can also be dangerously harmful.

If sunbathing occurs extensively over the areas of the neck, including the face, and the chest, it can lead to the development of skin cancer. The treatment of skin cancer is very expensive and often results in the patient's death.

Therefore, sunbathing should be carefully controlled if the sunbather has obtained sunburn without sunbathing. Professional sunbathers should not be allowed to sunbathe when at sea or at the Coast.

Western-type tiae about South Africa

by MICHAEL DAVISON

A NOVEL about Africa in the familiar yellow and black jacket of a Gallucci publication is likely to expect a study of racial strife in the teeming cities of South Africa.

— but in this case, ironically, for Siegfried Stander's *This Desert Place* is entirely non-political, an adventure story of a white explorer who discovers the hidden riches of the Kalahari Desert where a few scattered pools at the bottom of a drying salt pan can taste the difference between life and death.

Or rather, if we so wish, we can describe the plot in the traditional terms of a young English farmer in James Joyce's *Ulysses* who goes to a farm on the western shore of the Atlantic and stays in a hotel in London. The only difference is that the young man is named Steve Miller, the hotelier is named Joe Miller, the taxi driver is named Jim Miller and the young man is named Steve Miller.

1961 KEENYS TENNIS TOURNAMENT
SPORTS EDITOR
WIFE OPEN
 AFTER last year's incursion by players from the South, when Rhodesians took back three Kenya titles with them, the 1961 Kenya tennis championships are likely to be a "home-grown" affair. This title holder's doubles. To the former E. G. Ziarra now in Tanganyika, is due here tomorrow and so will have a week or so in which to get in some top-class practice on murram courts. The only visitor, Kenya-born Miss Diana Adams will defend the double title she holds in partnership with Miss Elizabeth Spring, being top-seeded in both this year and the women's singles.

No match for 'invaders' from Rhodesia
 Inspired play by Henry Yot and R. B. Cooper eliminated the No. 1 seeds last year, and the former being on match for the two Rhodesians, Roger Dowdell and Geoffrey Gault to upset the Harris-Cole combination it will probably be Gault and Balder, for if cannot Franks, if the plays was in on his best form, capable of spraying a surprise. But if that characterizes the play of Harris and Coker, the logical top seeds, I feel, too, that this may be Harris and Cole's year for the double.

Post Office mass chances
 POST OFFICE has some themselves for failing to crackling pace, with four of the AYU club hockey tournament, when they fought a great draw against I.M.E. the holders, on the Railway Athletic Institute ground. They had enough chances in the first half to win an unusual lead, but they found the Olympic captain, Mendoza, a mounting block. Fraying in the second half, Mendoza was seen all over the pitch.
