FRIDAY, JULY 4, 1947
210

At for the moment we are freed from the turmoil of recovery over the pros and cons of Paper 210, the opportunity now presents itself for us to present in more detail what may well become overlooked in any study of past disagreement.

responsibility for the presentation of the form of the constitutional dispute which has been the cause of the present dispute—and Kenya in particular—directly from the past year's three East African Governors. The result of the dispute has been set in opposite political camps in each of the three territories: the African and Arab on the one hand and the Indian on the other.

It may be that a decision will be reached. At the best it is likely that if the administrative changes proposed in Paper 210 are applied, the whole trial period to which the Central Assembly is pledged, will be an "active" period of political manoeuvring.

It is not to be forgotten, let it be repeated that the European community of Kenya represents a very real and important part of Paper 210. There are many who are not so far-sighted as to see that the failure to start the process of inter-racial harmony that is so essential to the success of any scheme of Legislative Council voting, would not imply responsibility for the present situation.

Indeed, plans are already in the making to bring about a meeting of the kind which has been so often mentioned in the past. It is hoped that this meeting will be held in Nairobi in the near future.

Musical Society Is Next
At the end of the presentation of the "Impassioned Beauty" by the Eastern African Musical Society, the Nairobi Musical Society, under the leadership of Mrs. P. M. P. M., has been formed. The society will be held in Nairobi in the near future.

NO HIDDEN SIGNIFICANCE
The recent withdrawal of the Chinese Government from the East African Commission, which was reported in the East African Standard on July 1, has been widely discussed. It is believed that the withdrawal was due to the fact that the Chinese Government was not satisfied with the results of the Commission's work.

£5,000,000 Hydro-Electric Plan Drawn up for Uganda

PUBLIC CORPORATION PROPOSED: POWER STATION AT OWEN FALLS

A VAST hydroelectric power scheme costing nearly £5,000,000 which will harness the waters of the Victoria Nile for the benefit of industry and homes over a wide area and will solve the power problem in the Protectorate for years to come will be laid before Uganda Legislative Council when it meets towards the end of this month. The plan envisages the setting-up of a public corporation to carry out the financing of the scheme and to operate it. It is a scheme which already exists in a form where already there is an increasing demand and where there is a potentially still greater one.

From Kampala and Jinja the suggested network radiates out as far as Malab and Masaka.

Groundnuts 'Army' A New Challenge To The Church

(Continued from our correspondence) What is the Church going to do in connection with the East Africa groundnuts scheme? asked the Rev. Dr. M. C. Carrington, Secretary of the Christian Union in the University Mission to Central Africa. This great socio-political experiment, called the Groundnuts Scheme, which involves 20,000 labourers would be only the mission.

The African groundnut scheme, which is the largest of its kind in Africa, has been launched by the Government of the Union of South Africa. The scheme is being carried out by the Groundnuts Corporation, which is a joint venture between the Government and private enterprise. The scheme is being carried out in the North-Western Province of the Union of South Africa.

Mr. Carrington believed that unless there was a great drive right and left, the Church would be unable to meet the challenge of the Groundnuts Scheme. He said that the Church must be prepared to meet the challenge of the Groundnuts Scheme. He said that the Church must be prepared to meet the challenge of the Groundnuts Scheme. He said that the Church must be prepared to meet the challenge of the Groundnuts Scheme.

Funds, Recruits

Many recruits, including the Rev. Dr. M. C. Carrington, have been recruited for the Groundnuts Scheme. The scheme is being carried out in the North-Western Province of the Union of South Africa. The scheme is being carried out in the North-Western Province of the Union of South Africa. The scheme is being carried out in the North-Western Province of the Union of South Africa.

LONDON BRAVES RAIN
STORMS TO CHEER
PRINCESS ELIZABETH

"Our Dearly Beloved Daughter"
Empire Rejoicing Over Engagement
To Lieutenant Philip Mountbatten

WILDLY cheering crowds lined London's rainsoaked streets to give a royal welcome to Princess Elizabeth on her first public appearance since her betrothal to Lieutenant Philip Mountbatten, Royal Navy, as she drove with the King and Queen and Princess Margaret to Westminster Abbey this morning for the marriage of the Princess and her fiance.

HE FOUGHT WITH THE BRITISH NAVY
LIEUTENANT PHILIP MOUNTBATTEN was born on June 10, 1917, at Criff, son of an officer in the Royal Navy. He was educated at King George's School, London, and served in the Royal Navy during the war.

Women and Children Stand Three Deep
The Princess was radiant and waved gayly to the women and children, many from the provinces, who were standing three deep to catch a glimpse of her.

They Looked "Radiantly Happy"
It has been announced that Lieutenant Mountbatten will accompany the Royal Family on a visit to Scotland next week.

WELCOMING THE VISITOR

Kenya Cuts The Formalities

BEHAVING as first impressions are often the best, Kenya's Trade Committee is anxious that bona-fide visitors to Kenya should have the opportunity to see the country and that entry formalities should be reduced to the minimum and that completed applications in other words, that the necessary information should be received at the moment of their arrival in Kenya. The committee has been working on this for some time and has already received the necessary approval from the Government.  LECTURE NUMBER FOUR.

Always remember that the other fellow's as good as a better. This is your private opinion, of course, so don't shout it at him as you go by, but merely humour him before you go shouting and let him come out before you go shouting, the very definite about it; was he in vigorously otherwise he might think you're on a mission. This, even, is perhaps less important than the realization of your eyes in the ensuing hard braking.

It Is Worth-While Taking Pains With Your Drawing-Room

By MARY FIELD

THE drawing room is the most public room in the house. It is not only the place where you and your family live, it should be a room where the guest and the stranger can feel comfortably at ease, bodies relaxed and minds free, so that good talk, that delicately spontaneous and most subtle art may find there its freest and happiest inspiration.

There must be enough places to sit, and these places must be comfortable in the first essentials: a sofa, chair or settee and a hassock, the quality of which, however, is of secondary importance. There must be well constructed, strong and well sprung seats with plenty of soft give for comfortable reclining power.

A drawing table is another essential. This can vary from a flat-top desk to a bureau with shelves designed for the display of books, china or silver. The desk with its necessary writing chair and perhaps its decorative waste paper basket or ornate standard lamp will make a most satisfying furniture group in the room.

Let the bureau remain open. The shelves and cabinets and pens and writing paper may have a humming life and speak of movement and life in the room.

A great new piece of furniture is usually to suit your liking. Also a large one can be used. Try to arrange your furniture in groups. A collection of shapes against the background of wall paper or wallpaper. Your writing table group is one arrangement, the desk group is another. If you have small round tables, try to use them in groups. It is not only the furniture group that is important, but also the lighting. A soft, warm light is essential. A triangular set of decorative lamps may be used. A decorative colour may be provided by a lamp with a lamp shade of a decorative colour such as ivory or white. A lamp with a lamp shade of a decorative colour may be used. A decorative colour may be provided by a lamp with a lamp shade of a decorative colour such as ivory or white.

New Hope for Europe

The British Foreign Secretary's description of President Truman's Independence Day message as "a great speech" will be endorsed by millions of unopinioned people in every part of the world.

In an earlier speech Mr. Truman said "The world is moving in the way we want it."

The new countries with their very high standard of living, mostly in a season of transition as a time when the future course of the world is being measured.

Indian "Exercised His Rights" In Firing To Frighten MAGISTRATES' RULING

DEATH through misadventure while endeavoring to commit suicide is the finding of the magistrate in an inquiry into the death in the garden of Mr. J. K. Barot.

The magistrate, Mr. D. J. Coffey, ruled on Saturday.

When world trade comes to its own again, it will be on a new basis, not merely a resumption of the old, but a new and different basis.

More Ships Than Ever

When world trade comes to its own again, it will be on a new basis, not merely a resumption of the old, but a new and different basis.

There was evidence in the port when the ship arrived, but it was not until the ship had been in the harbor for some time that the fact was discovered.

"Frightening"

Mr. Cohen referred to the incident in his statement.

How great is the need for the new ships can be appreciated in view of the fact that the world's fleet of ships is being built in Britain at the present time.

The only other question which required an answer was the question of the ship's crew.

IMMIGRATION

THE demand for an "open door" for East Africa, in other words that there should be unlimited immigration from those territories in respect of Indians, has been made during the week-end by one of the official delegates from India to the International Labour Conference in Geneva.

Dr. Yennawar, Chairman of the National Defence Research Council of the United States, has not been speaking for himself alone when he expressed a few years ago the hope that science would never succeed in tapping the energy of the atom with the word "It will be a hell of a thing for civilization."

There can be no reasonable objection to various races in the world in the course of their development finding a need and desire to take part in the consequent development of other parts of the world.

Even so, far especially as the United States and Canada are concerned there has always been a deep feeling of apprehension lest anything in the nature of unrestricted immigration should be a veritable deluge of people from the Far East.

There is no need to be afraid of living which is largely a function of it and that I am sure it should surprise no one if the United States is reluctant to accept large numbers of very

new countries with their very high standard of living, mostly in a season of transition as a time when the future course of the world is being measured.

THE EDITOR "E.A. Standard," Sir: The Editor suggests that the Government should not be so quick to give in to the demands of the people.

Electors' Union Tackles Crime

Several suggestions for crime prevention have been put before the Member for the Western Districts by the Electors' Union, which has been formed to represent the electors of the Western Districts in the House of Representatives.

The suggestions are:

1. That the Government should consider the possibility of introducing a Bill to amend the Criminal Code Act, 1947, so as to provide for the punishment of persons who commit crimes of violence against the person of a woman.
2. That the Government should consider the possibility of introducing a Bill to amend the Criminal Code Act, 1947, so as to provide for the punishment of persons who commit crimes of violence against the person of a child.
3. That the Government should consider the possibility of introducing a Bill to amend the Criminal Code Act, 1947, so as to provide for the punishment of persons who commit crimes of violence against the person of a woman or child who is in the custody of a person.

West To East Across Africa

SCIENTIFIC collectors for the geological section of the Prager National Museum, Mr. Stanley Shilkin, Mr. Shilkin and Mrs. Shilkin have arrived in Nairobi on the last leg of a long journey to the East African coast. They have travelled in a motor car, and have seen some of the most beautiful scenery in the East African highlands.

Mr. Shilkin has been collecting fossils in the East African highlands for many years. He has discovered many new species of fossils, and has published many papers on the geology of the East African highlands.

Mr. Shilkin is now in Nairobi to collect fossils in the East African highlands. He will be working in the area around Nairobi, and will be collecting fossils in the East African highlands.

WORKERS WILL HAVE TO MAKE UP THEIR MINDS

NAIROBI employees of the Government, who are under the jurisdiction of the Industrial Disputes Tribunal, have to make up their minds whether they will accept the terms of a new agreement proposed by the Government.

The Government has proposed a new agreement which would provide for a 10 per cent increase in wages, and for a 5 per cent increase in the number of hours worked per week.

The Government has also proposed that the employees should accept a new system of bonus payments, which would be based on the productivity of the employees.

The employees have to decide whether they will accept these terms, or whether they will go on strike.

THE WEEK'S REGISTRATION - (continued from previous page)

NATIONAL REGISTRATION

To the Editor, "A Standard,"

I am glad to see that the National Registration Bill has been passed by the House of Representatives. This Bill will provide for the registration of all persons in the country, and will provide for the collection of statistics on the population of the country.

Short-Sighted

It is short-sighted to believe that the Government is doing the right thing by introducing the proposed Bill. The Government should consider the long-term interests of the country, and should not be short-sighted in its actions.

COTTON REPORT FROM KAMPALA

-And A Few Remarks On Houses

THE Cotton Report for May 1942 shows that the number of bales baled from stations and ports from the 1st January to the 31st May 1942 was 18,172 and cotton has continued during that period to be **ACCOMPLISHED**.

Month	1941	1942
January	2,500	4,100
February	1,800	1,511
March	3,000	3,800
April	1,000	1,000
May	1,872	15,762

High winds and blating sun are causing some damage to the growing plants and flowers in Mbagwe district. The rain we have a good shower every few days and that is very good for the cotton. The effect of the intense heat, but that is not a matter of concern. The rain we could count on during the month of June and July. The cotton has been heavy on some of the farms in the Mbagwe district and the cotton is a good and an improvement.

'Colour Will Be No Bar'
COMMENTING ON the Colonial Office's new policy regarding the colour of the skin of the people of the East African Colonies, the *East African* writes: "There was some talk in the past that the Government was going to insist on a certain colour of the skin of the people of the East African Colonies. It is now clear that this is not the case. The Government is interested in the education and the progress of the people of the East African Colonies, and not in their colour of the skin."

5 Days On Ledge
A 19-year-old boy, who was found on a cliff-top in the mountains of the East African Colonies, has been rescued after five days on the ledge. The boy was found by a party of explorers who were on a mission to the mountains. The boy was in a very weak state of health when he was found, but he is now recovering.

She's Engaged!

She's Lovely!

Mary has a beautiful smooth skin—no cream.

She uses Pond's!

Any creamed girl with a Pond's cream complexion, Mary says, "That's Gold. Cream makes face care so easy." This is the secret of her complexion and her skin.

She uses Pond's because of its Cream Goggles over face and the air. Pan her face to blossom and follow her skin's own rhythm. Then she uses Pond's.

She starts with more fluffy white Pond's, slipping the cream on like a cloud of softness. Then she uses Pond's.

BRITISH FARMER TURNS TO THE MACHINE

E. A. Encourages The Natives To Help In Forestry

But The Labour Problem Is Still A Big Worry

With the beginning of World War II, British agriculture has been revolutionized and this revolution is still in progress. It is a revolution that has been brought about by the machine. The machine has taken the place of the man, and the man has been forced to turn to the machine. The machine has made it possible for the farmer to produce more food, and the man has been able to do more work. First Impressions

MONDAY, JULY 18, 1949

First impressions of a new country are not less important than the impressions of an old people... In a desirable way it is to be hoped that the Kenya white people are trying to attract more settlers to be based on a sound business basis, that considerable thought should be given to the methods of recruitment as necessary to the Colony. That the emigrants should be those who are best suited to the desired life in Kenya has always been a desideratum...

It is a reasonable assumption that Kenya have made themselves acquainted with the country's economic policies and are prepared to abide by them; that they have in their possession the necessary aptitude to securing the safety and that the vast majority of these who are not of the usual type of folk and not either casual or potential immigrants... It is not until they are well established in the country that we can say that they are under-ventured, or that they are under-ventured...

The rules have been framed with the purpose of facilitating the settlement of immigrants who are not of the usual type of folk and not either casual or potential immigrants... CORRESPONDENCE . . .

R. A. F. WAR HISTORY

To the Editor, "E. A. Standard."
 I have been very interested in reading your article in a number which is of considerable interest. As it will be some years before the full official history of the war is published, arrangements have been made for a preliminary history of the war in the air, covering the 1918-1919 period, to be written under the most authoritative of hands, the late Sir George Brown, who was one of the greatest of our country's air pilots. It is a work which will be of great interest and importance to all who are interested in the history of the war in the air.

All will be pleased, I think, to read that the late Sir George Brown, who was one of the greatest of our country's air pilots, has been chosen to write the preliminary history of the war in the air. It is a work which will be of great interest and importance to all who are interested in the history of the war in the air.

Any other person who is interested in the history of the war in the air, should read this preliminary history. It is a work which will be of great interest and importance to all who are interested in the history of the war in the air.

THE RESIDENT'S SETTLEMENT

To the Editor, "E. A. Standard."

KITUI DEMANDS MORE EDUCATION
Scheme To Use Senior Boys As Elementary Teachers

As was one of the main objects of the Government when it passed the Education Act of 1944, it is to provide for the general education of the people of Kenya, and to secure that the standards of education shall be as high as possible. It is the duty of the Government to secure that the standards of education shall be as high as possible. The Government has decided to raise the standards of education in Kenya. It has decided to do this by providing more schools and by providing more teachers. It has decided to do this by providing more schools and by providing more teachers. It has decided to do this by providing more schools and by providing more teachers.

They Signed The Book

"THESE" CORRESPONDENTS... London, July 18 (By Staff) — The following were among the signatories of the book "The Book of the Year". The signatories were: Mr. E. A. Wall, Mr. J. B. ... The book is a collection of stories and poems by children. It is a very good book and is highly recommended for all children.

Wages Underwritten

It is expected that the Government will underwrite the wages of workers in the district of Kitui. This is a very important scheme and will help to improve the living standards of the workers in the district. The Government has decided to do this by providing more schools and by providing more teachers.
